## 1965 IMPALA "SS" REAR PANEL MOLDING & CORNERS

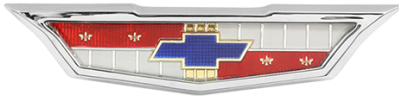

These high quality rear moldings are formed without wrinkles or creases. The correct, detailed painting also enhances the beauty of these GM-licensed reproductions. NOTE: The 1965 Caprice models used the same corner moldings as the SS units, however, the center molding is not available for Caprice.

## MONTE CARLO

In 1970 General Motors introduced the world to a brand new Chevrolet, built on the Chevelle A-Body platform. The all new Monte Carlo blended class with style for a youthful, performance appearance. For many years, it has been somewhat difficult to find certain parts for restoration, but today the GM restoration parts experts at Trim Parts, are manufacturing more and more parts for the classy Monte Carlo.

## CHEVY II / NOVA

Before the birth of the Camaro and Chevelle, Chevrolet relied upon the sturdy and popular little Chevy II / Nova platform for economical performance in a smaller, lighter car. The Nova SS models were popular in their day, but are even more sought-after by today's restorers. Here at Trim Parts, we know how important the "little" details are. Nova and Chevy II enthusiasts rely on Trim Parts' quality products for everything from daily drivers to platinum show cars.

WE RELY ON THREE WORDS TO KEEP  
OUR CUSTOMERS HAPPY  
“WHEN QUALITY COUNTS!!”

Our lenses are molded with UV stabilized acrylic to prevent color fade. Trim Parts' Lenses have correct Guide® or Guidex® markings. All of our GM parts are licensed by GM Restoration Parts, and are manufactured to look and fit like the original.

ALL GM PARTS WE MANUFACTURE  
ARE LICENSED UNDER:

## INTERIOR REAR WINDOW & WINDSHIELD TRIM

Trim Part's window trim is pre-bent and ready to install on your car. Window trim is available in black only, but is paintable to match your car's interior. Our window trim will not deteriorate from exposure to the sun's UV rays. It's easy to install as it snaps right into place, no fasteners required.

# CHEVROLET

## CHEVELLE

When the all new Chevelle debuted in 1964, the performance automotive world was in a wonderful state of transition. Not only were bigger and more powerful engines being offered by Detroit, but for the first time, they were being offered in small cars. Many historians consider this period to be the birth of true muscle cars. While not everyone can agree on the time muscle cars began, everyone agrees that Chevrolet's Chevelle was a major player.

## 1967 &amp; 1968 CHEVELLE / EL CAMINO GRILLE EMBLEMS

Although the two look similar, don't be fooled. The red color on the 1967 emblem is lighter than the red color on the 1968 emblem. Other manufacturers sell only one version for both years, but not Trim Parts. We manufacture the most original looking, best fitting, GM-licensed parts in the restoration business.

## INDIVIDUAL NUMBERS

Show off the size of your engine. Now you can combine individual numbers to identify other engine sizes such as "327", "355", "383" and more! These numbers are made of top quality die-cast metal, chrome plated, and recess painted in black, white or red. Each number is approximately 1 3/8 inches long by 5/8 inches tall. Attaches with the strongest double sided tape available in the automotive industry.

## 1964-67 A-BODY SILL PLATES

Trim Parts manufactures every sill plate to original GM specifications. This means when you install your new sill plates, they will fit and look as original...Guaranteed! Each sill plate has a hand riveted "Body by Fisher" tag, just as original. Features: finely contoured return flange, individually coated with protective plastic, no die drag marks and correctly countersunk mounting holes. These are not cheap stickers, they are the real deal.

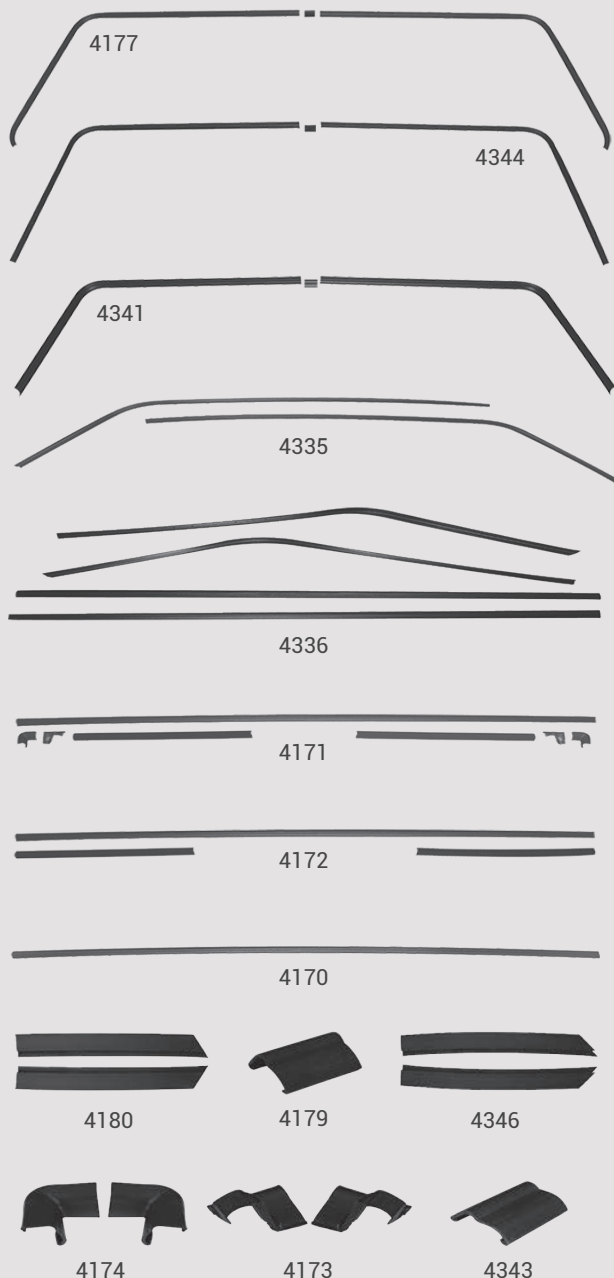

- 4150 '64-'67 A-Body Sill Plates, All 2 Door, Includes: Fasteners  
Also Fits: El Camino, Pontiac GTO and Skylark

## INTERIOR REAR WINDOW & WINDSHIELD TRIM

Trim Part's window trim is pre-bent and ready to install on your car. Window trim is available in black only, but is paintable to match your car's interior. Our window trim will not deteriorate from exposure to the sun's UV rays. It's easy to install as it snaps right into place, no fasteners required.

## WE RELY ON THREE WORDS TO KEEP OUR CUSTOMERS HAPPY “WHEN QUALITY COUNTS!!”

Trim Parts, Inc. is a proud company, steeped in the tradition of skilled craftsmanship, superior materials, and intense inspection of every product we make. Indeed, you would probably be amazed at the beautiful quality of parts you would find in our scrap bin! Our quality control inspectors scrutinize every part under magnification, looking for even the tiniest flaws. They reject parts that would pass straight through to customers of other companies.

Why do we do it? Because we are Trim Parts, and the slogan on our logo reads, “When quality counts!!” Those are the words we live by. Go ahead, take a close look at our products. Examine the back side too. Notice how the plating is sharp and shiny, even in the tightest nooks and corners. This is due to our micro polishing process, which most manufacturers avoid to save costs. See how paint lines are crisp and accurate. Note how all locating pins are in exactly the right spot. Check out the factory-correct markings on every part, such as “guide” lettering on lenses, or the bowties on emblems.

## EL CAMINO

Chevrolet's El Camino car/truck began life in 1959, based on the full-sized car platform. After 1960 it disappeared for a while, only to reappear in 1964 on the Chevelle platform. It proved to be a very popular combo vehicle for both businesses and individuals and lasted until the advent of mini trucks. Today, El Caminos of every vintage are growing rapidly in popularity. Collectors eagerly seek the high performance models, and low-mileage examples in good shape.

## FRONT FENDER EMBLEMS &amp; TRIM

GM currently lists part number 6258311 to fit the 1967 Rear Quarter and the 1970-'75 Front Fender. However, by observing the stud locations and sizes, it is obvious that these parts are not interchangeable without having to drill new holes in the fender and filling in the old ones. You may also note that the '70-'75 Front Fender emblems have a brushed finish on the face, while the '67 Rear Quarter emblems do not.

## CORVETTE

Corvettes were among the very first Chevrolet cars from the post war era to be considered "collectible". Today restored and documented Corvettes with certain rare or high performance options are among the most desirable collector cars in the world. Corvette restorers are famous for demanding extreme quality parts for their cars, and that's why they tend to insist on GM-licensed Trim Parts products.

# 1956-66 CORVETTE SILL PLATES

Our sill plates are the best on the market. We take pride in the quality that we put into every sill plate we manufacture. We have the correct 1963-64 & 1964-66 Corvette sill plates. Trim Parts manufactures these sill plates with the correct 13 groove, center design. The "other guys" sell an incorrect 11 groove design, which doesn't get past the judges. Trim Parts' sill plates are GM-licensed and manufactured to original GM specifications, so there's no worry at your next showing.

## FULL SIZE & GTO

The 1964 Pontiac GTO is considered by many people to be the first real "muscle car", since it represented the first time Detroit had ever placed a big block engine in a mid-sized car platform. With a heritage like that, it's no wonder that Pontiac restorers are absolute fanatic about the quality of restoration parts for their cars. Top Pontiac show judges and restorers will often insist on Trim Parts' products by name, and they know out quality is unmatched by anyone else.

# CHEVROLET & GMC TRUCKS

Everybody loves a Chevy or GMC pickup, and today restorers and rodders alike are grabbing up vintage GM trucks for their project vehicles. But trucks, by their nature, often lead a pretty rough life. Emblems, lenses and trim items often get beat up or damaged in daily routine. Trim Parts proudly makes top quality GM-licensed Chevy and GMC pickup trim items in their own US manufacturing facility.

# CHEVROLET CORVAIR

The Chevrolet Corvair was a compact automobile produced from 1960–1969. At the time, it was the only American designed passenger car to feature a rear-mounted air-cooled engine. It used GM's Z-Body, with design and engineering that advanced the rear-engine, rear-wheel drive layout. Trim Parts manufactures interior and exterior parts as well as molded carpet for all years of the Corvair.

## INTERIOR REAR WINDOW TRIM

Trim Part's window trim is pre-bent and ready to install on your car. Window trim is available in black only, but is paintable to match your car's interior. Our window trim will not deteriorate from exposure to the sun's UV rays. It's easy to install as it snaps right into place, no fasteners required. Can withstand temperatures up to 220 degrees (F). Made from polyolefins, so it's paintable. Sun and heat will not distort in any way superior quality, exact fit.

# TRIM PARTS MOLDED CARPET & FLOOR MATS

Trim Parts manufactures quality custom molded carpets and custom fit floor mats. These are not off-the-shelf universal carpets or mats that do not fit properly. We use the original floor pan to mold our carpets that provide the Trim Parts quality and fit. Trim Parts uses Dorsett roll goods, the highest quality automotive carpet available. We use a "poly-backed" carpet, versus latex, as the poly-back holds its mold/fit, where the latex will not.

MOLDED CARPET & FLOOR MATS

## FLOOR MATS

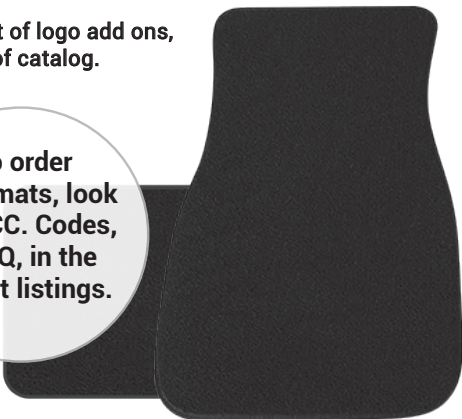

2 PC Set    Front Floor Mats

4 PC Set    Front & Rear Floor Mats

For standard colors, see inside back cover.

For full list of logo add ons,  
see back of catalog.

To order  
floor mats, look  
for ACC. Codes,  
P & Q, in the  
carpet listings.

## CARPET ORDERING GUIDE

### 1 USE INDEX TO LOCATE MANUFACTURER

OLDSMOBILE.....	201
→ PLYMOUTH.....	202-203
PONTIAC .....	203-204

### 2 LOCATE CORRECT LISTING FOR APPLICATION

YEAR	DETAIL	PART #	ACC.

### 3 CHOOSE STYLE/ COLOR OF CARPET

Below you will find tips on which styles/colors can be used for your application, you can then flip to the back of the catalog and locate the color code of choice.

#### VEHICLES 1941-1974

SERIES	STYLE
500	80/20 Style Raylon Loop Pile
600	100% Nylon
2200	Tuxedo (+%)
7000	Daytona Weave (+%)

**Also available, but not original:**

(800) 100% Nylon Cut Pile  
(1000) Essex Premium Plush (+%)  
(2900) Neon (+%)

Any car that was produced in or before 1974, originally came with 80/20 loop carpet with some exceptions. This style is designated to the 500 series part number. The 600 100% Nylon Loop Series and the 2200 Tuxedo Loop Series will also work on these vehicles (600 & 2200 were original in limited applications).

#### VEHICLES 1975-2006

SERIES	STYLE
800	100% Nylon Cut Pile
1000	Essex Premium Plush (+%)
2900	Neon (+%)

Most all cars that was produced in or after 1975 originally came with cut pile carpet. This style is designated to the 800 series part number. Cut pile carpet is the only style that can be used in vehicles past 1975, this includes our 1000 Essex Premium Plush Cut Pile Series and 2900 Neon Cut Pile Series, which have a premium mark up %.

After selecting your style/color, you can create your product number for ordering. Example:

PRODUCT #	DESCRIPTION
53646-501	1963 Belvedere, Automatic, Black

# CUSTOM VINTAGE RUBBER FLOOR MATS

Protect your new Trim Parts carpet in style, with custom vintage rubber floor mats. Each mat is made to fit your floor pan perfectly, guaranteed. The authentically styled logos will look great on the floor of your car, while keeping dirt and gravel from grinding away at your new carpet. Genuine GM logos are used on all rubber floor mats, and are fully licensed by General Motors, so you know you're getting the real deal.

To order, add color code below to part number (c):
