

Dive signs

Try to copy each of the dive signs. Scientists working underwater must remember them all. When you are ready try out the dive signs on your partner. Can your partner work out what you are communicating to them? What do they reply?

Ascend (go up)

Descend (go down)

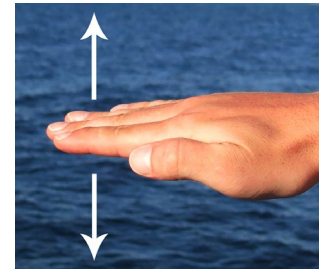

Turn around

Stop!

Which direction?

Take it easy, relax,
slow down

Are you OK? I am
OK?

Something is
wrong

Time to head back
