

SDC ExitAnnunciator®

HIGHLY VISIBLE MULTI-MODE LED SIGNALING DEVICE

Multi-Mode
Visual Annunciators

EA100

Multi-Color Signal Device

WHAT YOU NEED TO KNOW:

SDC's ExitAnnunciator® EA100 series are multicolor signal devices that interfaces with delayed egress or standard EMLocks and can be used as a wall, ceiling, or frame mount indicator.

The EA100 is easy to install for **Multi-Use** with **Multi-Brands**.

The EA100 can upgrade all existing SDC delayed egress and standard EMLocks, plus many other manufacturers' electromagnetic locks. This visual annunciator bar is highly visible from all angles due to multiple color LED lights with rolling signals.

It interfaces with delayed egress devices for forced entry or unauthorized exit signaling. The built-in sensors will activate a local and/or remote alarm upon attempting forced entry before the door has been compromised.

Compatible with SDC, Rofu, Schlage, Secolarm, RCI, Dynalock, Securitron and Door King electromagnetic locks.

HOW YOUR CUSTOMER BENEFITS:

- Easy to install
- Retrofit and new construction
- Externally selectable six color mode
- Externally selectable solid or flashing modes
- Brand compatibility
- Interfaces with delayed egress & EMLocks
- Wall, ceiling or frame mount
