Diagnosis ICD-10: A specific ICD-10 code must be provided either on the line below or in the patient's chart notes. Please check the appropriate diagnosis or write in the code and description. Ranges will not be accepted.

☐ G47.33 Obstructive Sleep Apnea (OSA) (Adult and Child) ☐ Other _____

☐ Secondary condition (if AHI/RDI is 5–14) _____

Estimated length of need _____ months (99 = lifetime) ☐ E1390 Oxygen; bleed in at _____ LPM

Please Include All of the Following Required Documentation:

- Copy of patient demographics and insurance information
- Face-to-face evaluation/patient chart notes documenting signs and symptoms of OSA, signed and dated prior to sleep study
- Completed sleep study signed and dated by either an appropriately sleep accredited physician or an active staff physician of an accredited sleep center/laboratory
- For Bi-level device only: all required documentation listed in this section must be provided and a) evidence to support that an E0601 positive airway pressure device (CPAP) has been tried and proven ineffective based on a therapeutic trial conducted either in a facility or in a home setting; and b) documentation in the medical record must include reference to the patient's failure to meet therapeutic goals using a CPAP during the titration portion of a facility-based study or during home use despite optimal therapy
