## FOR BEST RESULTS

### CRISPER PLATE

The crisper plate promotes overall browning. We recommend using it every time you air fry and for all recipes in this guide unless otherwise stated. Ensure crisper plate is inserted into the bottom of the drawer before food is added unless recipe states that the crisper plate is not required.

### SHAKE OR TOSS

For best results, frequently shake your food or toss it with silicone-tipped tongs to get it as crispy as you'd like.
