## About the Materials

The NYS Office of Mental Health (OMH), Office of Alcohol and Substance Abuse Services (OASAS), Department of Health (DOH), and the NYC Department of Health and Mental Hygiene (DOHMH) have developed a series of educational materials, intended to familiarize individuals and their physical and behavioral health providers with:

- Medicaid Managed Care Health and Recovery Plans (HARPs) and
- Adult Behavioral Health (BH) Home and Community Based Services (BH HCBS).

## About HARPs and BH HCBS

HARPs are health insurance plans offered by select Medicaid Managed Care Organizations (MCOs) for people with serious mental illness and substance use disorders. These Plans offer specialized services and additional behavioral health benefits such as rehabilitation and wellness services including peer support, individualized employment assistance, education support, and more to eligible individuals. These benefits are called Adult Behavioral Health Home and Community-Based Services (Adult BH HCBS).
