State establishes transportation task force

Last month, Tom Robinett, the Chamber's Vice President of Public Policy & Advocacy, attended a ceremony in which Governor Jeff Colyer, M.D., signed House Sub. for Senate Bill 391, which establishes the "Joint Legislative Transportation Vision Task Force." This task force will have a broad mission, which includes evaluating the progress of the current transportation program, making recommendations regarding the future needs of the state transportation system and identifying additional necessary transportation projects, among other duties.

Transportation long has been a top priority in the Chamber's State Legislative Agenda. For more information, [click here](#).

Gear up for Elections 2018

By the time you read this, the long-awaited June 1 filing deadline will have arrived and we'll know the line-ups for local and state-wide races. Already, the field of candidates seeking the Governor's office is crowded, and many in our Johnson County state delegation have declared challengers. What's not certain is what our electorate will do when presented with so many choices.

The most important deadlines come a little later this summer, and I encourage you to share them with everyone in your circle who is an eligible voter:

July 17 – last day to register to vote for the primary
July 18 – advanced voting by mail begins
July 23 – advanced voting in person begins
August 6 – advanced voting in person closes at noon
August 7 – Primary Election

Some may wonder why I'm devoting space to reminders presumably everyone knows. Well, statistics indicate we're not hitting home runs with voter turnout, especially in primary elections. I've lived in three states, and this is by far the easiest place I've experienced to vote. You can vote in advance by mail, or show up at several sites in person in the weeks preceding the election at your convenience. And you'll still get your "I Voted" sticker! Or traditionalists can join your neighbors on election day at your polling place. All achieve the same result, which is to make your choice in governing our community at the local, state and federal level.

Recently I've heard the same phrase mentioned in a variety of settings, which is that elections have consequences. There are consequences of voting – and also of not voting – and thinking the primary doesn't matter much anyway because the "real" election is in the fall, so we'll just sit this one out until we let the candi-

"Elections belong to the people. It's their decision. If they decide to turn their back on the fire and burn their behinds, then they will just have to sit on their blisters."

– Abraham Lincoln

dates shake out. There are consequences in letting others select for you, and still others when voters don't make an informed choice. You may think by "informed," I mean they don't agree with me, but quite to the contrary. Informed decisions are not made by selecting the name recalled from a yard

sign or a stack of postcards in the mail box, but from research about a candidate's positions on issues, and for incumbents, their voting record, not just platitudes. The Chamber, through our partnership with other chambers in the region comprising the Johnson County Public Policy Council, will host candidate forums and promote voter information and candidate surveys on www.votejoco.com. Additionally, we'll provide information on state senator and representative voter records before the primary so you can see how they voted on business issues this year. Previous years are also on our website.

Every year is an important election year. Let's raise the bar on voter engagement and participation this year. In the words of President Roosevelt, choose wisely.

"Democracy cannot succeed unless those who express their choice are prepared to choose wisely. The real safeguard of democracy, therefore, is education."

– Franklin D. Roosevelt

Leadership class studies regionalism and economic development

Last month the Leadership Overland Park (LOP) class focused on regionalism and economic development. During Regionalism Day, a shared session with other Johnson County leadership classes, members heard from Joe Reardon, President and CEO of the Greater Kansas City Chamber, about regional initiatives including a pilot partnership with Google for a transportation platform. A panel of area mayors discussed issues of the region and class members heard presentations by leaders from Kansas City Area Development Council, Downtown Council of Kansas City, Kansas City Area Transportation Authority, Kauffman Foundation and Visit KC. During the Economic Development session, class members learned about the economic development process from Beth Johnson, the Chamber's Senior Vice

President of Economic Development. They also heard from a variety of speakers involved in economic development who offered different perspectives on areas such as talent attraction, tourism, small business resources, city planning and the importance of economic development to existing companies in Overland Park.

The class enjoyed a guided VIP tour of the construction site of the Overland One office buildings that include the future headquarters of **Creative Planning**.

Partner Spotlight:

Shawnee Mission Health's newest location in south Overland Park brings the same high-quality, convenient health care SMH is known for to southeastern Johnson County.

In addition to the emergency department, laboratory and imaging center on campus, the medical office building features Shawnee Mission Internal Medicine & Pediatrics, PT Solutions physical therapy, dermatology, cardiology and endocrinology services, as well as a dedicated Women's Imaging Center.

At SMH-Overland Park, the interior design was focused around making guests feel welcome while on campus. Examples of this can be seen in the primary care space where the office combines modern style and genuine hospitality. Each high-tech exam room has been thoughtfully designed to promote conversation with the doctor in a comfortable, private setting. The artwork in both facilities is inspired by the beautiful Kansas City landmarks, all of which were created by local artists. The goal is that all who visit the campus will come to appreciate SMH's dedication to providing Much more than medicine.

SMH is also extending its commitment to the health and well-being of the community for southeastern Johnson County residents through a variety of partnerships including Deanna Rose Farmstead, Blue Valley Educational Foundation, The Arboretum and Consentino's Market in BluHawk, along with several others.

In addition to the south Overland Park campus, the SMH network includes the Shawnee Mission Medical Center campus in Merriam, SMH-Prairie Star campus in Lenexa, four Centra Care Shawnee Mission Urgent Care locations, along with physician practices throughout Johnson and Leavenworth Counties.

Visit www.ShawneeMission.org for more information.
