

Care and Usage / Warranty and Product Liability

USAGE & CARE INSTRUCTIONS:

Vesture delivery bags are designed with quality materials and to perform under normal commercial food service catering/delivery applications. PCS recommends a weekly, if not daily, inspection of all bags and thorough cleaning as needed.

CLEANING: Do not use bleach or other corrosive cleaning products. To clean, simply wipe with damp cloth and for heavier soiled areas you can use a mild dish soap with warm damp cloth. Store bags in a dry, cool atmosphere. Whenever the opportunity allows, it is suggested to hang the bags to promote air circulation. Make sure bags are completely free of moisture before storing.

NOTICE: Do not immerse insulated bag in water or place in a washing machine or dishwasher. This will damage the insulative liner and possibly the structure which would void the warranty.

*****DO NOT IMMERSE ELECTRICAL HEATING ELEMENT IN WATER OR PLACE IN DISHWASHER, WIPE EXTERIOR COVER WITH WARM DAMP CLOTH TO CLEAN*****

WARRANTY STATEMENT FOR PHASE CHANGE SOLUTIONS

PRODUCT WARRANTY AND LIABILITY:

- 1- PCS warrants to the original buyer that if a product proves defective within one (1) year from ship date, PCS will replace the product free of charge.
- 2- Abuse or misuse will void this warranty.
- 3- We require the invoice number, date, and shipment date
- 4- With proof of purchase to the original owner, PCS will replace the product to the original owner.
NOTICE: It is PCS's responsibility to inspect the damaged products and will determine if damaged products require inspection. Cambro will determine if the product should be returned for inspection before issuing credit.
