

Annual Report 2015

LETTER TO SHAREHOLDERS
REPORT TO SHAREHOLDERS ON FORM 10-K
BASCO.COM

OUR MISSION

We will provide power and global support to make work easier and improve lives. By doing so, we expand our leadership position, increase the value of our brands and grow our shareholders' investment.

FINANCIAL HIGHLIGHTS

For the fiscal years ended June 28, 2015, June 29, 2014 and June 30, 2013.

In thousands, except per share data

NET SALES

ADJUSTED NET INCOME

1. FY15 Net Income was \$45.7 million. FY15 Adjusted Net Income excludes after tax charges of \$17.7 million for restructuring actions and \$1.4 million for acquisition related charges.
2. FY14 Net Income was \$28.3 million. FY14 Adjusted Net Income excludes after tax charges of \$5.5 million for goodwill and tradename impairment and \$5.2 million for restructuring actions.
3. FY13 Net Loss was \$33.7 million. FY13 Adjusted Net Income excludes after tax charges of \$62.0 million for goodwill and tradename impairment; \$15.5 million for restructuring actions; and \$1.2 million for a legal settlement.

NET OPERATING CASH FLOW (MILLIONS)

DILUTED NET EARNINGS PER COMMON SHARE (ADJUSTED)^{1,2,3}

1. FY15 Diluted Net Earnings Per Common Share was \$1.00. FY15 Diluted Net Earnings Per Common Share (Adjusted) excludes after tax charges of approximately \$0.40 for restructuring actions and \$0.03 for acquisition related charges.
2. FY14 Diluted Net Earnings Per Common Share was \$0.59. FY14 Diluted Net Earnings Per Common Share (Adjusted) excludes after tax charges of \$0.12 for goodwill and tradename impairment and \$0.11 for restructuring actions.
3. FY13 Diluted Net Loss Per Common Share was \$0.73. FY13 Diluted Net Earnings Per Share (Adjusted) excludes after tax charges of \$1.30 for goodwill and tradename impairment; \$0.33 for restructuring actions; and \$0.03 for a legal settlement.

September 2015

Dear Fellow Shareholders,

Fiscal 2015 was a year of many achievements in the face of a challenging and volatile global macroeconomic environment. We improved our financial results significantly, completed two acquisitions to help us in the execution of our strategy, continued to deliver innovation to our customers, all while restructuring certain parts of our business. This was against a backdrop of foreign currency headwinds and slow economic growth around the world.

FINANCIAL PERFORMANCE

Our financial performance was markedly improved from fiscal 2014. Adjusted earnings per share were \$1.42 compared to \$0.82 last year, an increase of 73%. Revenues were \$1.895 billion in 2015 compared to \$1.859 billion in 2014, about a 2% increase. We improved adjusted segment income in each of our segments with the Engines segment improving to \$93.9 million compared to \$81.8 million last year. Our Products segment generated adjusted segment income of \$7.0 million compared to a loss of \$16.0 million last year.

This improved financial performance reflects the success we have had executing our strategy. In the Engines segment we are driving innovation with all of our customer segments and growing in the commercial engine market. In our Products segment we are focusing on higher margin products, introducing innovation and right-sizing our footprint and infrastructure. In both segments, geographic expansion is an important part of our strategy. Our international sales increased 3% year-over-year despite very challenging market conditions.

STRATEGIC ACTIONS

Consistent with prior years, we have three elements of our strategy:

- Grow the profitability of our engine business
- Invest and grow in higher margin and margin expanding areas
- Expand geographically

We have made progress in each of these areas this past year. As discussed below, innovation continues to play a key role across our business. We also continue to strengthen our value proposition in the areas of power application solutions and superior global support network while actively pursuing lower cost across our business.

We have made substantial progress in executing the restructuring program that we announced in July 2014. Our team has transitioned production from the McDonough, Georgia facility to our plants in Wauwatosa, Wisconsin and Munnsville, New York. Plant moves are inherently risky but our team has performed very well. The restructuring program has allowed us to focus on higher value, higher margin products which is showing in the profit improvement achieved by our Products Group. We are completing the restructuring program and we expect to see the remaining benefits in our fiscal 2016 financial results.

As for acquisitions, we were active in our Products segment this past year. We acquired two companies, Allmand™ and Billy Goat® Industries, Inc. The acquisition of Allmand, which makes light towers, industrial heaters and arrow boards, fits nicely as an adjacency to our existing business allowing us to serve markets in which we have historically not participated. Further, Allmand now has better access to international markets and more technology than it did prior to the acquisition, allowing us to create value through our existing infrastructure. Similarly, Billy Goat, which makes specialty turf equipment such as aerators, sod cutters, and power rakes, complements our commercial turf business to help landscapers get the job done. We will continue to pursue acquisitions as one of the enablers of our strategy.

We have executed our strategy while returning capital of over \$272 million through dividends and share repurchases over the last five years. Plus, we have maintained a strong balance sheet to fund future growth.

INNOVATION

As you may recall, 2014 was a seminal year for new product introductions and we carried that through in 2015. Some of the introductions in 2015 were:

EXi Series™ Engines -

These engines are the first to power a walk-behind lawn mower that never needs an oil change. We designed this engine from the ground up to create the easiest to maintain engine while delivering superior performance. Our research showed that users wanted a low maintenance engine and we delivered.

InStart® Lithium-Ion Electric Start Engine -

As I have discussed in past letters, easy starting is very important to users. This year we launched the InStart® system that uses a lithium-ion battery to allow for push button starting of the engine. Battery start systems have been around for awhile, however, the batteries are historically lead-acid based which take several hours to charge and typically fail over a few years. Our InStart system is powered by Lithium-Ion which charges in minutes and lasts substantially longer than lead-acid technology.

DirectPower™ Installation Technology -

This innovation allows for the fastest, most affordable home generator installation in the industry. The installation cost of a generator system can easily run in the thousands of dollars. Our research shows that homeowners often don't purchase a unit as the total cost is perceived to be unaffordable. With DirectPower™, we have reduced installation cost by up to 60%, making it much more attractive to homeowners to install a backup power system.

SnowShredder™ Serrated Auger Technology -

The SnowShredder™ is used on a single-stage snow thrower to chop, grind, and throw snow. In depth ethnographic studies with our end-users showed that they want the power of a dual-stage machine with the handling of a single-stage machine. The issue with most single-stage snow throwers is their inability to get through packed snow and ice, especially at the end of the driveway after the plow cleared the street. The SnowShredder solves this issue with its fourteen individual serrated surfaces to provide superior snow/ice removal.

810cc EFI Vanguard™ engine -

Last year I reported that we launched our new 810cc Vanguard™ engine with a carbureted fuel delivery system. This year we went a step further and introduced electronic fuel injection (EFI) on this engine. Not only does EFI deliver industry leading fuel efficiency, it also delivers optimum power for zero turn radius mowers.

These are just a few of the many innovations introduced in fiscal 2015. Our team has done a great job of bringing to market new and innovative solutions.

OUTLOOK

The actions we have taken over the last several years have positioned us very well for the future. At the same time, we are operating in a challenging economic environment. While the U.S. economy is improving, albeit at a slow pace, the international markets prove to be challenging. The vast majority of our products are made in the U.S. with many of these products exported outside of the country exposing us to foreign exchange fluctuations. The foreign currency markets are proving to be a near term headwind given the significant strengthening of the dollar over the past year. We are managing the impact of these headwinds. At the same time we are seeing

improvements in the U.S. housing market which should have a positive impact on our business. And, we continue to see opportunities in our commercial engines and products. Historically, we have not had as strong a position in commercial offerings as we have had in our consumer/residential products. We continue to focus on commercial type products and expect to continue the gains we have seen over the last few years.

CLOSING COMMENTS

I would like to thank our customers, employees, suppliers and communities in which we operate for their continued support. Your help is critical to our success.

I would also like to thank you, our shareholders, for your continued confidence. Your support has allowed our team to focus on executing our strategy in an ever changing economic environment. I am very excited and encouraged about the future of our great company.

COLLABORATE. INNOVATE.

INNOVATION THAT WORKS.

Research and development is the focus of Briggs & Stratton's user-driven problem solving. In today's competitive marketplace, we invest in creating new product features and implementing unique solutions for our customers' challenges. This innovation plays a key role in maintaining customer loyalty and how we've sustained our growth over the past 106 years.

Significant product introductions this past year involved our diversified expertise and emphasis on technology for our outdoor power and lawn mower engines. As a result, our engines and products remain more efficient to use than ever. And we're doing it with one goal in mind - to make lives easier. More importantly, we are implementing internal processes across the company to leverage capabilities and optimize our investments. Key innovations over the past fiscal year include the following:

ENGINES

EXi Series™ Engines

Redesigned from the ground up, the new EXi Series™ is loaded with the best of everything we have to offer yet is the lightest in its class making it easy to maneuver. With improved air cleaner seals, cooler engine temperatures, and high precision manufacturing along with regular scheduled maintenance, the company's new EXi Series lawn mower engine is the first that never needs an oil change. It includes our new Just Check & Add™ feature, so you'll never have to change the oil - ever. Plus it includes the Briggs & Stratton Starting Promise, which guarantees that the engine will start in two pulls or we'll fix it free, and the ReadyStart® starting system that requires no priming or choking - just pull for power.

InStart®

InStart® combines the power of gas with the starting reliability of lithium-ion technology to offer consumers the most advanced starting method

on the market. Our reliable InStart battery can deliver up to 20 starts with just a 10-minute rapid recharge.

Consumer research revealed that difficulty in starting lawn and garden products was the number one issue preventing current owners to feel at "ease" with their mower. InStart's lightweight and efficient design offers the power of gas with the starting technology of electric.

By integrating the latest in battery and engine technology, the InStart was born. Without the restrictions of corded electric, InStart provides users the ultimate starting and mowing experience.

Just Check & Add™

The Just Check & Add™ feature is part of routine maintenance on the EXi Series™ engines. The key to this feature is keeping the oil cool and clean. We accomplished this with a newly designed engine that includes overhead valves and tight seals on the air filter, just to name a few. As a result, an oil change is never needed.

PRODUCTS

SnowShredder™

Serrated Auger

The new SnowShredder™ serrated auger combines 14-welded, serrated steel surfaces with reinforced rubber paddles to efficiently chop, grind and clear compacted snow, ice and end-of-driveway snow build-up. When matched with the Briggs & Stratton 1150 Snow Series™ engine, consumers can clear snow more than 30% faster compared to the Company's other single stage snowblowers.

Regent™ S Lawn Tractor

A new Regent™ lawn tractor model with rear suspension provides 25% less impact felt than a standard tractor without suspension, providing superior operator comfort. By reducing the bumps and jolts the operator feels at higher speeds, the rider is more comfortable and can get the job done quicker.

Ferris® Commercial Walk-Behind Mower

The new Ferris® FW35CC commercial walk-behind mower was built from the ground up to meet the demands of professional mowing crews. This dual hydrostatic machine offers powerful engine options paired with 48", 52" or 61" mowing decks and Centralized Control handlebars. The new controls are ergonomically designed so that operators experience less fatigue. They provide improved hand positioning for maneuvering around trees, fences and other obstacles.

OTHER EXCITING INNOVATIONS

DirectPower™

DirectPower™ is a revolutionary generator installation technology that drastically reduces the installation time and cost of automatic standby power. DirectPower provides a competitive advantage for Briggs & Stratton because price is often the largest barrier to purchasing automatic standby power.

Traditionally, installing a whole-house standby generator system takes 6-10 hours. The transfer switch installation is a large part of the total installation time of a standby generator. This is because when the transfer switch is wired into the house, the ground and neutral wires have to be separated as required by the National Electric Code. A lot of time is spent while separating ground and neutral wires in the home's circuit panel.

DirectPower provides a much better installation experience. For example, DirectPower is always mounted outside the home, so the contractor no longer has a need to go inside to wire the transfer switch. Utility companies also benefit from this technology. Previously, the utility lineman would make a visit in the morning to cut power and then another trip to reconnect power when the install was complete. With a traditional transfer switch, power is turned off for 2-8 hours. Now, with DirectPower, the utility lineman makes only one visit lasting approximately 20 minutes.

Infohub™ Home Standby Generator

Infohub™ utilizes patented wireless technology to put homeowners' minds at ease. When away from home, users may remotely check the status of their generator on a computer, smart phone, or tablet app. Plus, the technology sends email and text alert notifications, keeping users up to date. If the power goes out, Infohub relays the information immediately. The home standby generator routinely checks itself and displays any issues on the control panel.

If a problem occurs when home or away, Infohub offers the best of both worlds. It sends alerts directly to the servicing dealer if the problem requires immediate attention. Additionally, Infohub keeps track of maintenance schedules and communicates this information back to the dealer. Infohub is compatible with most Briggs & Stratton generators from 2005 on.

Briggs & Stratton Corporation

“Named One of America’s Most Reputable Companies”
by Reputation Institute in Forbes Magazine

In May of 2015 Briggs & Stratton Corporation was been named among the most reputable companies in the United States, according to the annual US RepTrak® 100 list released by Reputation Institute and published in Forbes Magazine. The US RepTrak® rankings measure the public’s perception of companies based on seven dimensions: innovation, leadership, governance, citizenship, workplace, performance, and products/services.

Briggs & Stratton placed 10th on the 2015 list of America’s 100 most reputable companies, which is compiled annually by Reputation Institute, the world’s foremost research and advisory firm focused solely on corporate reputations.

Reputation Institute’s RepTrak® model is the gold standard for reputation measurement, providing a one-of-a-kind measurement of how the public views the world’s best-known companies. The RepTrak® database is normative, examining 15 stakeholder groups in more than 25 industries and more than 50 countries for more than 7,000 companies. The 2015 US RepTrak® 100 examines perceptions of companies by the US general public based on over 70,000 interviews.

Our Company is honored to receive this prestigious award. We take our role as a world class provider of high quality products and good corporate citizenship very seriously and this award is a reflection of the hard work and dedication of the entire Briggs & Stratton team.

Cautionary Statement on Forward-Looking Statements

This report contains certain forward-looking statements that involve risks and uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. The words "anticipate", "believe", "estimate", "expect", "forecast", "intend", "plan", "project", and similar expressions are intended to identify forward-looking statements. The forward-looking statements are based on the Company's current views and assumptions and involve risks and uncertainties that include, among other things, the ability to successfully forecast demand for our products; changes in interest rates and foreign exchange rates; the effects of weather on the purchasing patterns of consumers and original equipment manufacturers (OEMs); actions of engine manufacturers and OEMs with whom we compete; changes in laws and regulations; changes in customer and OEM demand; changes in prices of raw materials and parts that we purchase; changes in domestic and foreign economic conditions; the ability to bring new productive capacity on line efficiently and with good quality; outcomes of legal proceedings and claims; the ability to realize anticipated savings from restructuring actions; and other factors disclosed from time to time in our SEC filings or otherwise, including the factors discussed in Item 1A, Risk Factors, of this Annual Report on Form 10-K and in the Company's periodic reports on Form 10-Q. We undertake no obligation to update forward-looking statements made in this report to reflect events or circumstances after the date of this report.

PART I

ITEM 1. BUSINESS

Briggs & Stratton Corporation (the "Company") is the world's largest producer of air cooled gasoline engines for outdoor power equipment. Briggs & Stratton designs, manufactures, markets, sells and services these products for original equipment manufacturers (OEMs) worldwide. In addition, the Company markets and sells related service parts and accessories for its engines. Briggs & Stratton is recognized worldwide for its strong brand name and a reputation for quality, design, innovation and value.

The Company's wholly owned subsidiaries include North America's number one marketer of pressure washers, and it is a leading designer, manufacturer and marketer of power generation, lawn and garden, turf care and job site products through its Simplicity®, Snapper®, Snapper Pro®, Ferris®, PowerBoss®, Allmand™, Billy Goat®, Murray®, Branco® and Victa® brands. Briggs & Stratton products are designed, manufactured, marketed and serviced in over 100 countries on six continents.

The Company conducts its operations in two reportable segments: Engines and Products. Further information about Briggs & Stratton's business segments is contained in Note 9 of the Notes to Consolidated Financial Statements.

The Company's internet address is www.basco.com. The Company makes available free of charge (other than an investor's own internet access charges) through its internet website the Company's Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as soon as reasonably practicable after it electronically files such material with, or furnishes such material to, the Securities and Exchange Commission. Charters of the Audit, Compensation, Finance, Nominating and Governance Committees, Corporate Governance Guidelines, Stock Ownership Guidelines and code of business conduct and ethics contained in the Briggs & Stratton Business Integrity Manual are available on the Company's website and are available in print to any shareholder upon request to the Corporate Secretary. The information contained on and linked from the Company's website is not incorporated by reference into this Annual Report on Form 10-K.

Engines Segment

General

Briggs & Stratton manufactures four-cycle aluminum alloy gasoline engines with horsepower ranging from 5.5hp up to 37hp and torques that range from 4.50 ft-lbs gross torque to 21.00 ft-lbs gross torque. The Company's engines are used primarily by the lawn and garden equipment industry, which accounted for 84% of the Engines segment's fiscal 2015 engine sales to OEMs. Major lawn and garden equipment applications include walk-behind lawn mowers, riding lawn mowers, garden tillers and snow throwers. The remaining 16% of engine sales to OEMs in fiscal 2015 were for use on products for industrial, construction, agricultural and other consumer applications that include portable and standby generators, pumps and pressure washers. Many retailers specify the Company's engines on the power equipment they sell and the Briggs & Stratton logo is often featured prominently on a product because of the appeal and reputation of the brand.

In fiscal 2015 approximately 33% of the Engines segment net sales were derived from sales in international markets, primarily to customers in Europe. The Company serves its key international markets through its European regional office in Switzerland, its distribution center in the Netherlands and sales and service subsidiaries in Australia, Austria, Brazil, Canada, China, the Czech Republic, England, France, Germany, India, Italy, Japan, Malaysia, Mexico, New Zealand, Russia, South Africa, Spain, Sweden and the United Arab Emirates. Briggs & Stratton is a leading supplier of gasoline engines in developed countries where there is an established lawn and garden equipment market. Briggs & Stratton also exports engines to developing nations where its engines are used in agricultural, marine, construction and other applications. More information about its foreign operations is in Note 9 of the Notes to Consolidated Financial Statements.

The Company's engines are sold primarily by its worldwide sales force through direct interaction with customers. The Company's marketing staff and engineers provide support and technical assistance to its sales force.

The Engines segment also manufactures replacement engines and service parts and sells them to sales and service distributors. During fiscal 2014, the Company joined with one of its independent domestic distributors to form a venture to distribute service parts. The Company contributed non-cash assets in exchange for receiving an ownership interest in the venture. Subsequent to its formation, the venture acquired the service businesses of two additional independent domestic distributors. Subsequent to fiscal 2015, the venture added a fourth independent distributor through an acquisition. The Company's remaining domestic distributors are independently owned and operated. The Company owns its principal international distribution centers, but also uses independently owned and operated distributors.

These distributors supply service parts and replacement engines directly to independently owned, authorized service dealers throughout the world. These distributors and service dealers incorporate the Company's commitment to reliability and service.

Customers

The Company's engine sales are primarily to OEMs. The Company's three largest external engine customers in fiscal years 2015, 2014 and 2013 were Husqvarna Outdoor Products Group (HOP), MTD Products Inc. (MTD) and Deere & Company. Engines segment sales to the top three customers combined were 48%, 51% and 48% of Engines segment sales in fiscal 2015, 2014 and 2013, respectively. Under purchasing plans available to all of its gasoline engine customers, Briggs & Stratton typically enters into annual engine supply arrangements. In certain cases, the Company has entered into longer supply arrangements of two to three years.

The Company believes that in fiscal 2015 more than 80% of all lawn and garden powered equipment sold in the United States was sold through mass merchandisers such as The Home Depot, Inc. (The Home Depot), Lowe's Companies, Inc. (Lowe's), Sears Holdings Corporation (Sears) and Wal-Mart Stores, Inc. (Wal-Mart). Given the buying power of the mass merchandisers, Briggs & Stratton, through its customers, has continued to experience pricing pressure; however, the Company attempts to recover increases in commodity costs through increased pricing. In addition, development of new and innovative products assists the Company and its customers in realizing higher margins.

Competition

The Company's major competitors in engine manufacturing are Honda Motor Co., Ltd. (Honda), Kawasaki Heavy Industries, Ltd. (Kawasaki) and Kohler Co. (Kohler). Several Japanese and Chinese small engine manufacturers, of which Honda and Kawasaki are the largest, compete directly with the Company in world markets in the sale of engines to other OEMs and indirectly through their sale of end products.

The Company believes it has a significant share of the worldwide market for engines that power outdoor equipment.

The Company believes the major areas of competition from all engine manufacturers include product quality, brand, price, delivery and service. Other factors affecting competition are short-term market share objectives, short-term profit objectives, exchange rate fluctuations, technology, new product innovation, product support, distribution strength, and advertising. The Company believes its technology, product value, distribution, marketing, and service reputation have given it strong brand name recognition and enhanced its competitive position.

Seasonality of Demand

Sales of engines to lawn and garden OEMs are highly seasonal because of consumer buying patterns. The majority of lawn and garden equipment is sold during the spring and summer months when most lawn care and gardening activities are performed. Sales of lawn and garden equipment are also influenced by consumer sentiment, employment levels, new and existing home sales and weather conditions. Engine sales in the Company's fiscal third quarter have historically been the highest, while sales in the first fiscal quarter have historically been the lowest.

In order to efficiently use its capital investments and meet seasonal demand for engines, the Company pursues a relatively balanced production schedule throughout the year. The schedule is adjusted to reflect changes in estimated demand, customer inventory levels and other matters outside the control of the

Company. Accordingly, inventory levels generally increase during the first and second fiscal quarters in anticipation of customer demand. Inventory levels begin to decrease as sales increase in the third fiscal quarter. This seasonal pattern results in high inventories and low cash flow for the Company in the first, second and the beginning of the third fiscal quarters. The pattern generally results in higher cash flow in the latter portion of the third fiscal quarter and in the fourth fiscal quarter as inventories are liquidated and receivables are collected.

Manufacturing

The Company manufactures engines and parts at the following locations: Auburn, Alabama; Statesboro, Georgia; Murray, Kentucky; Poplar Bluff, Missouri; Wauwatosa, Wisconsin; and Chongqing, China. Briggs & Stratton has a parts distribution center in Menomonee Falls, Wisconsin. The Engines segment also purchases certain products under contract manufacturing agreements.

The Company manufactures a majority of the structural components used in its engines, including aluminum die castings, carburetors and ignition systems. The Company purchases certain parts such as piston rings, spark plugs, valves, ductile and grey iron castings, plastic components, some stampings and screw machine parts and smaller quantities of other components. Raw material purchases consist primarily of aluminum and steel. The Company believes its sources of supply are adequate.

The Company has joint ventures with Daihatsu Motor Company for the manufacture of engines in Japan, and with Starting Industrial of Japan for the production of rewind starters and punch press components in the United States.

The Company has a strategic relationship with Mitsubishi Heavy Industries (MHI) for the global distribution of air cooled gasoline engines manufactured by MHI in Japan under Briggs & Stratton's Vanguard brand.

Products Segment

General

The Products segment's ("Products") principal product lines include portable and standby generators, pressure washers, snow throwers, lawn and garden power equipment, turf care, and job site products. Products sells its products through multiple channels of retail distribution, including consumer home centers, warehouse clubs, mass merchants and independent dealers. The Company sells its lawn and garden products and standby generators primarily through an independent dealer network and sells its pressure washers and portable generators primarily through the U.S. mass retail channel.

The Products segment product lines are marketed under its own brands such as Briggs & Stratton, Simplicity®, Snapper®, Snapper Pro®, Ferris®, Allmand™, Billy Goat®, Murray®, Branco® and Victa®, as well as other brands such as Craftsman, GE, and Troy-Bilt.

In fiscal 2013, the Company exited placement of lawn and garden products at national mass retailers. The Engines segment continues to support lawn and garden equipment OEMs who provide lawn and garden equipment to these retailers. In certain cases, the Company may license its brand name to others for use in selling lawn and garden equipment in the U.S. mass retail channel. The Products segment continues to focus on innovative, higher margin products that are sold through its independent dealer network and regional retailers. The Company also continues to sell pressure washers and portable and standby generators through the U.S. mass retail channel.

In fiscal 2015, the Company announced and began implementing restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and to consolidate its Products manufacturing facilities in order to further reduce costs. The Company closed its McDonough, Georgia location in the fourth quarter of fiscal 2015 and consolidated production into existing facilities. Production of pressure washers and snow throwers has been moved to the Wauwatosa, Wisconsin facility. Production of riding mowers will begin at the Wauwatosa, Wisconsin facility during the first half of fiscal 2016.

On August 29, 2014, the Company acquired all of the outstanding shares of Allmand Bros., Inc. ("Allmand") of Holdrege, Nebraska. Allmand is a leading designer and manufacturer of high quality towable light towers, industrial heaters, and solar LED arrow boards. Its products are used in a variety of industries, including construction, roadway, oil and gas, mining, and sporting and special events. Allmand's products are generally

powered by diesel engines, and distributed through national and regional equipment rental companies, equipment dealers and distributors. Allmand sells its products and service parts in approximately 40 countries.

On May 20, 2015, the Company acquired all of the outstanding shares of Billy Goat Industries, Inc. ("Billy Goat") of Lee's Summit, Missouri. Billy Goat is a leading manufacturer of specialty turf equipment, which includes aerators, sod cutters, overseeders, power rakes, brush cutters, walk behind blowers, lawn vacuums, and debris loaders.

Products has a network of independent dealers worldwide for the sale and service of snow throwers, standby generators and lawn and garden powered equipment. To support its international business, Products has leveraged the existing Briggs & Stratton worldwide distribution network and regional sales offices.

During fiscal 2014, the Company joined with one of its independent domestic distributors to form a venture to distribute service parts. The Company contributed non-cash assets in exchange for receiving an ownership interest in the venture. Subsequent to its formation, the venture acquired the service businesses of two additional independent domestic distributors. Subsequent to fiscal 2015, the venture added a fourth independent distributor.

Customers

Historically, Products' major customers have included Lowe's, Sears, The Home Depot, Wal-Mart, Tractor Supply Inc., Bunnings Warehouse, and a network of independent dealers. Sales to the top three customers combined were 27%, 27% and 28% of Products segment net sales in fiscal 2015, 2014 and 2013, respectively.

Competition

The principal competitive factors in the power products industry include price, service, product performance, brand, innovation and delivery. Products has various competitors, depending on the type of equipment. Primary competitors include: Honda (portable generators, pressure washers and lawn and garden equipment), Generac Power Systems, Inc. (portable and standby generators and job site products), Alfred Karcher GmbH & Co. (pressure washers), Techtronic Industries (pressure washers and portable generators), Deere & Company (commercial and consumer lawn mowers), MTD (commercial and consumer lawn mowers), The Toro Company (commercial and consumer lawn mowers), Scag Power Equipment, a Division of Metalcraft of Mayville, Inc. (commercial lawn mowers), and HOP (commercial and consumer lawn mowers).

Seasonality of Demand

A significant portion of Products' sales are subject to seasonal patterns. Due to seasonal and regional weather factors, sales of pressure washers and lawn and garden powered equipment are typically higher during the third and fourth fiscal quarters than at other times of the year. Sales of portable generators and snow throwers are typically higher during the first and second fiscal quarters and can spike during weather related power outage events.

Manufacturing

Products' manufacturing facilities are located in Munnsville, New York; Wauwatosa, Wisconsin; Holdrege, Nebraska; Lee's Summit, Missouri; and Sydney, Australia. Products also purchases certain powered equipment under contract manufacturing agreements.

Products manufactures core components for its products, where such integration improves operating profitability by providing lower costs.

Products purchases engines from its parent, Briggs & Stratton, as well as from Honda, Kawasaki and Kohler. Products has not experienced any difficulty obtaining necessary engines or other purchased components.

Products assembles products for the international markets at its U.S. and Australian locations and through contract manufacturing agreements with other OEMs and suppliers.

Consolidated

General Information

The Company holds patents on features incorporated in its products; however, the success of the Company's business is not considered to be primarily dependent upon patent protection. The Company owns several trademarks which it believes significantly affect a consumer's choice of outdoor powered equipment and job site products, and therefore create value. Licenses, franchises and concessions are not a material factor in the Company's business.

For the fiscal years ended June 28, 2015, June 29, 2014 and June 30, 2013, the Company spent approximately \$19.9 million, \$19.7 million and \$18.5 million, respectively, on research activities relating to the development of new products or the improvement of existing products.

In October 2012, the Board of Directors of the Company authorized an amendment to the Company's defined benefit retirement plans for U.S., non-bargaining employees. The amendment froze accruals for all non-bargaining employees effective January 1, 2014. The Company recorded a pre-tax curtailment charge of \$1.9 million in the second quarter of fiscal 2013 related to the defined benefit plan change.

The average number of persons employed by the Company during fiscal 2015 and fiscal 2014 was 5,682 and 5,790, respectively. Employment in fiscal 2015 ranged from a high of 5,837 in February 2015 to a low of 5,480 in June 2015.

Export Sales

Export sales for fiscal 2015, 2014 and 2013 were \$334.0 million (18% of net sales), \$314.6 million (17% of net sales) and \$334.9 million (18% of net sales), respectively. These sales were principally to customers in Europe, Asia, Australia, and Canada.

Refer to Note 9 of the Notes to Consolidated Financial Statements for financial information about geographic areas. Also, refer to Item 7A of this Form 10-K and Note 16 of the Notes to Consolidated Financial Statements for information about Briggs & Stratton's foreign exchange risk management.

ITEM 1A. RISK FACTORS

In addition to the risks referred to elsewhere in this Annual Report on Form 10-K, the following risks, among others, may have affected, and in the future could materially affect, the Company and its subsidiaries' business, financial condition or results of operations.

Demand for products fluctuates significantly due to seasonality. In addition, changes in the weather and consumer confidence impact demand.

Sales of our products are subject to seasonal and consumer buying patterns. Consumer demand in our markets can be reduced by unfavorable weather and weak consumer confidence. Although we manufacture throughout the year, our sales are concentrated in the second half of our fiscal year. This operating method requires us to anticipate demand of our customers many months in advance. If we overestimate or underestimate demand during a given year, we may not be able to adjust our production quickly enough to avoid excess or insufficient inventories, and that may in turn limit our ability to maximize our potential sales or maintain optimum working capital levels.

We have only a limited ability to pass through cost increases in our raw materials to our customers during the year.

We generally enter into annual purchasing plans with our largest customers, so our ability to raise our prices during a particular year to reflect increased raw materials costs is limited.

A significant portion of our net sales comes from major customers and the loss of any of these customers would negatively impact our financial results.

In fiscal 2015, our three largest customers accounted for 33% of our consolidated net sales. The loss of any of these customers or a significant portion of the business from one or more of our key customers would significantly impact our net sales and profitability.

Changes in environmental or other laws could require extensive changes in our operations or to our products.

Our operations and products are subject to a variety of foreign, federal, state and local laws and regulations governing, among other things, emissions to air, discharges to water, noise, the generation, handling, storage, transportation, treatment and disposal of waste and other materials and health and safety matters. We do not expect these laws and regulations to have an adverse effect on us, but we cannot be certain that these or other proposed changes in applicable laws or regulations, or their enforcement, will not adversely affect our business or financial condition in the future.

Our international operations are subject to risks and uncertainties, which could adversely affect our business or financial results.

In fiscal 2015, we derived approximately 31% of our consolidated net sales from international markets, primarily Europe. Our international operations are subject to various economic, political, and other risks and uncertainties that could adversely affect our business and operating results, including, but not limited to, regional or country specific economic downturns, fluctuations in currency exchange rates, labor practices, complications in complying with, or exposure to liability under, a variety of laws and regulations, including anti-corruption laws and regulations, political instability and significant natural disasters and other events or factors impacting local infrastructure.

Actions of our competitors could reduce our sales or profits.

Our markets are highly competitive and we have a number of significant competitors in each market. Competitors may reduce their costs, lower their prices or introduce innovative products that could adversely affect our sales or profits. In addition, our competitors may focus on reducing our market share to improve their results.

Disruptions caused by labor disputes or organized labor activities could harm our business and reputation.

Currently, approximately 10% of our workforce is represented by labor unions. In addition, we may from time to time experience union organizing activities in our non-union facilities. Disputes with the current labor union or new union organizing activities could lead to work slowdowns or stoppages and make it difficult or impossible for us to meet scheduled delivery times for product shipments to our customers, which could result in loss of business and damage to our reputation. In addition, union activity could result in higher labor costs, which could harm our financial condition, results of operations and competitive position.

Our level of debt and our ability to obtain debt financing could adversely affect our operating flexibility and put us at a competitive disadvantage.

Our level of debt and the limitations imposed on us by the indenture relating to the Senior Notes (as defined below) and our other credit agreements could have important consequences, including the following:

- we will have to use a portion of our cash flow from operations for debt service rather than for our operations;
- we may not be able to obtain additional debt financing for future working capital, capital expenditures or other corporate purposes or may have to pay more for such financing;
- some or all of the debt under our current or future revolving credit facilities will be at a variable interest rate, making us more vulnerable to increases in interest rates;
- we could be less able to take advantage of significant business opportunities, such as acquisition opportunities, and to react to changes in market or industry conditions;
- we may be more vulnerable to general adverse economic and industry conditions; and
- we may be disadvantaged compared to competitors with less leverage.

The terms of the indenture for the 6.875% Senior Notes due December 2020 (the "Senior Notes") do not fully prohibit us from incurring substantial additional debt in the future and our revolving credit facilities permit additional borrowings, subject to certain conditions. If incremental debt is added to our current debt levels, the related risks we now face could intensify.

We expect to obtain the money to pay our expenses and to pay the principal and interest on the outstanding Senior Notes, the credit facilities and other debt primarily from our operations or by refinancing part of our existing debt. Our ability to meet our expenses thus depends on our future performance, which will be affected by financial, business, economic and other factors. We will not be able to control many of these factors, such as economic conditions in the markets where we operate and pressure from competitors. We cannot be certain that the money we earn will be sufficient to allow us to pay principal and interest on our debt and meet our other obligations. If we do not have enough money, we may be required to refinance all or part of our existing debt, sell assets or borrow more money. We cannot guarantee that we will be able to do so on terms acceptable to us. In addition, the terms of existing or future debt agreements, including the revolving credit facilities and our indentures, may restrict us from adopting certain of these alternatives.

We are restricted by the terms of the outstanding Senior Notes and our other debt, which could adversely affect us.

The indenture relating to the Senior Notes and our multicurrency credit agreement include a number of financial and operating restrictions, which may prevent us from capitalizing on business opportunities and taking some corporate actions. These covenants could adversely affect us by limiting our ability to plan for or react to market conditions or to meet our capital needs. These covenants include, among other things, restrictions on our ability to:

- incur more debt;
- pay dividends, redeem stock or make other distributions;
- make certain investments;
- create liens;
- transfer or sell assets;
- merge or consolidate; and
- enter into transactions with our affiliates.

In addition, our multicurrency credit agreement contains financial covenants that, among other things, require us to maintain a minimum interest coverage ratio and impose a maximum average leverage ratio.

Our failure to comply with the restrictive covenants described above could result in an event of default, which, if not cured or waived, could result in us being required to repay these borrowings before their due date. If we are forced to refinance these borrowings on less favorable terms, our results of operations and financial condition could be adversely affected by increased costs and rates.

Worldwide economic conditions may adversely affect our industry, business and results of operations.

General worldwide economic conditions have experienced volatility in recent years due to the sequential effects of the subprime lending crisis, general credit market crisis, sovereign debt crisis, collateral effects on the finance and banking industries, changes in energy costs, concerns about inflation, slower economic activity, decreased consumer confidence, reduced corporate profits and capital spending, adverse business conditions and liquidity concerns. These conditions make it difficult for our customers, our vendors and us to accurately forecast and plan future business activities, and they may cause U.S. and foreign OEMs and consumers to slow spending on our products. We cannot predict the timing or duration of any future economic slowdown or the timing or strength of a subsequent economic recovery, worldwide or in the specific end markets we serve. If the consumer and commercial lawn and garden markets significantly deteriorate due to these economic effects, our business, financial condition and results of operations will likely be adversely affected. Additionally, our stock price could decrease if investors have concerns that our business, financial condition and results of operations will be negatively impacted by a worldwide economic downturn.

We have goodwill and intangible assets, which were written-down in prior years. If we determine that goodwill and other intangible assets have become further impaired in the future, net income in such years would be adversely affected.

At June 28, 2015, goodwill and other intangible assets represented approximately 19.0% of our total assets. Goodwill represents the excess of cost over the fair market value of net assets acquired in business combinations. We are required to evaluate whether our goodwill and indefinite-lived intangible assets have been impaired on an annual basis, or more frequently if indicators of impairment exist. In fiscal 2015, there was no impairment of goodwill or other intangible assets. In fiscal 2014 and 2013, we recorded pre-tax non-cash goodwill and tradename impairment charges of \$8.5 million and \$90.1 million, respectively. The impairments were determined as part of the fair value assessments of goodwill and other intangible assets. Any additional write-down of our goodwill or intangible assets could adversely affect our results of operations.

We are subject to litigation, including product liability and warranty claims, that may adversely affect our business and results of operations.

We are a party to litigation that arises in the normal course of our business operations, including product warranty and liability (strict liability and negligence) claims, patent and trademark matters, contract disputes and environmental, asbestos, employment and other litigation matters. We face an inherent business risk of exposure to product liability and warranty claims in the event that the use of our products is alleged to have resulted in injury or other damage. In addition, we face an inherent risk that our competitors will allege that aspects of our product designs infringe their protected intellectual property. While we currently maintain general liability and product liability insurance coverage in amounts that we believe are adequate, we cannot be sure that we will be able to maintain this insurance on acceptable terms or that this insurance will provide sufficient coverage against potential liabilities that may arise. Any claims brought against us, with or without merit, may have an adverse effect on our business and results of operations as a result of potential adverse outcomes, the expenses associated with defending such claims, the diversion of our management's resources and time and the potential adverse effect to our business reputation.

Our pension and postretirement benefit plan obligations are currently underfunded, and we may have to make significant cash payments to some or all of these plans, which would reduce the cash available for our businesses.

We have unfunded obligations under our domestic and foreign pension and postretirement benefit plans. As of June 28, 2015, our pension plans were underfunded by approximately \$212 million. The funded status of our pension plans is dependent upon many factors, including returns on invested assets, the level of certain market interest rates, the mortality tables used, and the discount rate used to determine pension obligations. Unfavorable returns on the plan assets or unfavorable changes in applicable laws or regulations could materially change the timing and amount of required plan funding, which would reduce the cash available for our businesses. In addition, a decrease in the discount rate used to determine pension obligations could result in an increase in the valuation of pension obligations, which could affect the reported funding status of our pension plans and future contributions, as well as the periodic pension cost in subsequent fiscal years.

Our dependence on, and the price of, raw materials may adversely affect our profits.

The principal raw materials used to produce our products are aluminum, copper and steel. We source raw materials on a global or regional basis, and the prices of those raw materials are susceptible to significant price fluctuations due to supply/demand trends, transportation costs, government regulations and tariffs, changes in currency exchange rates, price controls, the economic climate and other unforeseen circumstances. If we are unable to pass on raw material price increases to our customers, our future profitability may be adversely affected.

We may be adversely affected by health and safety laws and regulations.

We are subject to various laws and regulations relating to the protection of human health and safety and have incurred and will continue to incur capital and other expenditures to comply with these regulations. Failure to comply with regulations could subject us to future liabilities, fines or penalties or the suspension of production, as well as damage our reputation.

The operations and success of our Company can be impacted by natural disasters, terrorism, acts of war, international conflict and political and governmental actions, which could harm our business.

Natural disasters, acts or threats of war or terrorism, international conflicts and the actions taken by the United States and other governments in response to such events could cause damage or disrupt our business operations, our suppliers or our customers, and could create political or economic instability, any of which could have an adverse effect on our business. Although it is not possible to predict such events or their consequences, these events could decrease demand for our products, could make it difficult or impossible for us to deliver products or could disrupt our supply chain. We may also be impacted by actions by foreign governments, including currency devaluation, tariffs and nationalization, where our facilities are located, which could disrupt manufacturing and commercial operations. In addition, our foreign operations make us subject to certain U.S. laws and regulations, including the Export Administration Regulations administered by the U.S. Department of Commerce, the trade sanctions laws and regulations administered by the U.S. Department of the Treasury's Office of Foreign Assets Control and the Foreign Corrupt Practices Act. A violation of these laws and regulations could adversely affect our business, financial condition, and results of operations and reputation.

We are subject to tax laws and regulations in many jurisdictions, and the inability to successfully defend claims from taxing authorities could adversely affect our operating results and financial position.

We conduct business in many countries, which requires us to interpret the income tax laws and rulings in each of those taxing jurisdictions. Due to the subjectivity of tax laws between those jurisdictions as well as the subjectivity of factual interpretations, our estimates of income tax liabilities may differ from actual payments or assessments. Claims from taxing authorities related to these differences could have an adverse impact on our operating results and financial position.

If we fail to remain current with changes in gasoline engine technology or if the technology becomes less important to customers in our markets due to the impact of alternative fuels, our results would be negatively affected.

Our ability to remain current with changes in gasoline engine technology may significantly affect our business. Any advances in gasoline engine technology, including the impact of alternative fuels, may inhibit our ability to compete with other manufacturers. Our competitors may also be more effective and efficient at integrating new technologies. In addition, developing new manufacturing technologies and capabilities requires a significant investment of capital. There can be no assurance that our products will remain competitive in the future or that we will continue to be able to timely implement innovative manufacturing technologies.

Through our Products segment, we compete with certain customers of our Engines segment, thereby creating inherent channel conflict that may impact the actions of engine manufacturers and OEMs with whom we compete.

Through our Products segment, we compete with certain customers of our Engines segment. Any further forward integration of our products may strain relationships with OEMs that are significant customers of our Engines segment and have an adverse impact on operating results.

The financial stability of our suppliers and the ability of our suppliers to produce quality materials could adversely affect our ability to obtain timely and cost-effective raw materials.

The loss of certain of our suppliers or interruption of production at certain suppliers from adverse financial conditions, work stoppages, equipment failures or other unfavorable events would adversely affect our ability to obtain raw materials and other inputs used in the manufacturing process. Our cost of purchasing raw materials and other inputs used in the manufacturing process could be higher and could temporarily affect our

ability to produce sufficient quantities of our products, which could harm our financial condition, results of operations and competitive position.

An inability to successfully manage information systems, or to adequately maintain these systems and their security, as well as to protect data and other confidential information, could adversely affect our business and reputation.

We depend on our information systems to successfully manage our business. Any inability to successfully manage these systems, including matters related to system and data security, privacy, reliability, compliance, performance and access, as well as any inability of these systems to fulfill their intended purpose within our business, could have an adverse effect on our business.

In the ordinary course of business, we collect and store sensitive data and information, including our proprietary and regulated business information and that of our customers, suppliers and business partners, as well as personally identifiable information about our employees. Our information systems, like those of other companies, are susceptible to outages due to natural disasters, power loss, telecommunications failures, viruses, break-ins and similar events, breaches of security, or during system upgrades or new system implementations. We have taken steps to maintain adequate data security and address these risks and uncertainties by implementing security technologies, internal controls, network and data center resiliency and recovery processes. However, any operational failure or breach of security from increasingly sophisticated cyber threats could lead to the loss or disclosure of both our and our customers' financial, product and other confidential information, result in regulatory actions and legal proceedings, and have an adverse effect on our business and reputation.

We have implemented, and Wisconsin law contains, anti-takeover provisions that may adversely affect the rights of holders of our common stock.

Our articles of incorporation contain provisions that could have the effect of discouraging or making it more difficult for someone to acquire us through a tender offer, a proxy contest or otherwise, even though such an acquisition might be economically beneficial to our shareholders. These provisions include a board of directors divided into three classes of directors serving staggered terms of three years each and the removal of directors only for cause and only with the affirmative vote of a majority of the votes entitled to be cast in an election of directors.

Each currently outstanding share of our common stock includes, and each newly issued share of our common stock through October 20, 2015 will include, a common share purchase right. The rights are attached to and trade with the shares of common stock and are exercisable only under limited circumstances. The rights will become exercisable if a person or group acquires, or announces an intention to acquire, 20% or more of our outstanding common stock, subject to certain exceptions. The rights have some anti-takeover effects and generally will cause substantial dilution to a person or group that attempts to acquire control of us without conditioning the offer on either redemption of the rights or amendment of the rights to prevent this dilution. The rights could have the effect of delaying, deferring or preventing a change of control. The rights and the related rights agreement expire by their terms on October 21, 2015.

We are subject to the Wisconsin Business Corporation Law, which contains several provisions that could have the effect of discouraging non-negotiated takeover proposals or impeding a business combination.

These provisions include:

- requiring a supermajority vote of shareholders, in addition to any vote otherwise required, to approve business combinations not meeting adequacy of price standards;
- prohibiting some business combinations between an interested shareholder and us for a period of three years, unless the combination was approved by our board of directors prior to the time the shareholder became a 10% or greater beneficial owner of our shares or under some other circumstances;
- limiting actions that we can take while a takeover offer for us is being made or after a takeover offer has been publicly announced; and
- limiting the voting power of shareholders who own more than 20% of our stock.

An inability to identify, complete and integrate acquisitions may adversely impact our sales, results of operations, cash flow and liquidity.

Our historical growth has included acquisitions, and our future growth strategy includes acquisition opportunities. For example, in fiscal 2015, the Company acquired Allmand, a leading designer and manufacturer of high quality towable light towers, industrial heaters and solar LED arrow boards, for approximately \$59.9 million in cash. Also, in fiscal 2015, the Company acquired Billy Goat, a leading manufacturer of specialty turf equipment, which includes aerators, sod cutters, overseeders, power rakes, brush cutters, walk behind blowers, lawn vacuums, and debris loaders, for total cash consideration of \$28.3 million, subject to customary post closing working capital adjustments. We may not be able to identify acquisition targets or successfully complete acquisitions in the future due to the absence of quality companies in our target markets, economic conditions, competition from other bidders, or price expectations from sellers. If we are unable to complete additional acquisitions, our growth may be limited.

Additionally, as we grow through acquisitions, we will continue to place significant demands on management, operational, and financial resources. Recent and future acquisitions will require integration of operations, sales and marketing, information technology, finance and administrative operations, which could decrease the time available to serve and attract customers. We cannot assure that we will be able to successfully integrate acquisitions, that these acquisitions will operate profitably, or that we will be able to achieve the desired financial or operational success. Our financial condition, cash flows, liquidity and results of operations could be adversely affected if we do not successfully integrate the newly acquired businesses, or if our other businesses suffer due to the increased focus on the newly acquired businesses.

An inability to successfully manage the implementation of a new global enterprise resource planning ("ERP") system could adversely affect our operations and operating results.

We are in the process of implementing a new global ERP system. This system will replace many of our existing operating and financial systems. Such an implementation is a major undertaking both financially and from a management and personnel perspective. Should the system not be implemented successfully and within budget, or if the system does not perform in a satisfactory manner, it could be disruptive and adversely affect our operations and results of operations, including our ability to report accurate and timely financial results.

Our common stock is subject to substantial price and volume fluctuations.

The market price of shares of our common stock may be volatile. Among the factors that could affect our common stock price are those previously discussed, as well as:

- quarterly fluctuation in our operating income and earnings per share results;
- decline in demand for our products;
- significant strategic actions by our competitors, including new product introductions or technological advances;
- fluctuations in interest rates or foreign currency exchange;
- cost increases in energy, raw materials or labor;
- changes in revenue or earnings estimates or publication of research reports by analysts; and
- domestic and international economic and political factors unrelated to our performance.

In addition, the stock markets have experienced extreme volatility that has often been unrelated to the operating performance of particular companies. These broad market fluctuations may adversely affect the trading price of our common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

The Company maintains leased and owned manufacturing, office, warehouse, distribution and testing facilities throughout the world. The Company believes that its owned and leased facilities are adequate to perform its operations in a reasonable manner. As the Company's business is seasonal, additional warehouse space may be leased when inventory levels are at their peak. Facilities in the United States occupy approximately 5.9 million square feet, of which 63% is owned. Facilities outside of the United States occupy approximately 0.9 million square feet, of which 29% is owned. Certain of the Company's facilities are leased through operating lease agreements. See Note 10 to the Consolidated Financial Statements for information on the Company's operating leases.

The following table provides information about each of the Company's facilities (exceeding 25,000 square feet) as of June 28, 2015:

Location	Type of Property	Owned/Leased	Segment
<i>U.S. Locations:</i>			
Auburn, Alabama	Manufacturing, office and warehouse	Owned and Leased	Engines
McDonough, Georgia (1)	Manufacturing, office and warehouse	Owned and Leased	Products
Statesboro, Georgia	Manufacturing, office and warehouse	Owned and Leased	Engines
Murray, Kentucky	Manufacturing, office and warehouse	Owned and Leased	Engines
Lee's Summit, Missouri	Manufacturing, office and warehouse	Owned	Products
Poplar Bluff, Missouri	Manufacturing, office and warehouse	Owned and Leased	Engines
Holdrege, Nebraska	Manufacturing, office and warehouse	Owned	Products
Munnsville, New York	Manufacturing and office	Owned	Products
Sherrill, New York	Warehouse	Leased	Products
Menomonee Falls, Wisconsin	Distribution and office	Leased	Engines, Products
Wauwatosa, Wisconsin	Manufacturing, office and warehouse	Owned	Engines, Products, Corporate
<i>Non-U.S. Locations:</i>			
Melbourne, Australia	Office and warehouse	Leased	Engines, Products
Sydney, Australia	Manufacturing and office	Leased	Products
Curitiba, Brazil	Office and warehouse	Leased	Engines, Products
Mississauga, Canada	Office and warehouse	Leased	Products
Chongqing, China	Manufacturing, office and warehouse	Owned	Engines
Shanghai, China	Office and warehouse	Leased	Engines, Products
Queretaro, Mexico	Office and warehouse	Leased	Engines, Products
Nijmegen, Netherlands	Distribution and office	Leased	Engines, Products

(1) During fiscal 2015, the Company closed its McDonough, Georgia manufacturing facility and consolidated production into its existing facilities. At June 28, 2015, the Company had \$3.8 million classified as assets held for sale, which is included in Prepaid Expenses and Other Current Assets within the Consolidated Balance Sheets, related to the McDonough, Georgia manufacturing location.

ITEM 3. LEGAL PROCEEDINGS

The Company is subject to various unresolved legal actions that arise in the normal course of its business. These actions typically relate to product liability (including asbestos-related liability), patent and trademark matters, and disputes with customers, suppliers, distributors and dealers, competitors and employees.

On May 14, 2010, the Company notified retirees and certain retirement eligible employees of various amendments to the Company-sponsored retiree medical plans intended to better align the plans offered to both hourly and salaried retirees. On August 16, 2010, a putative class of retirees who retired prior to August 1, 2006 and the United Steel Workers filed a complaint in the U.S. District Court for the Eastern District of Wisconsin (Merrill, Weber, Carpenter, et al.; United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO/CLC v. Briggs & Stratton Corporation; Group Insurance Plan of Briggs & Stratton Corporation; and Does 1 through 20, Docket No. 10-C-0700), contesting the Company's right to make these changes. The complaint seeks an injunction preventing the alleged unilateral termination or reduction in insurance coverage to the class of retirees, a permanent injunction preventing defendants from ever making changes to the retirees' insurance coverage, restitution with interest (if applicable) and attorneys' fees and costs. A class has been certified, and discovery has concluded. Both parties moved for summary judgment, which was fully briefed on December 23, 2014. Summary judgment is currently pending before the court, and no hearing date or trial date has been set.

On May 12, 2010, Exmark Manufacturing Company, Inc. ("Exmark") filed suit against Briggs & Stratton Power Products Group, LLC (Case No. 8:10CV187, U.S. District Court for the District of Nebraska), alleging that certain Ferris® and Snapper Pro® mower decks infringe an Exmark mower deck patent. Exmark is seeking damages relating to sales since 2004 and attorneys' fees. As a result of a reexamination proceeding in 2012, the United States Patent and Trademark Office (the "USPTO") initially rejected the asserted Exmark claims as invalid. However, that decision was reversed by the USPTO on appeal. Following discovery, each of the Company and Exmark filed motions for summary judgment, which were decided by the Court on July 28, 2015. The Court concluded that one of the Company's mower deck designs infringed Exmark's patent, leaving for trial the issues of whether another of the designs infringes, damages and willfulness of the Company's conduct. Trial is scheduled to begin on September 8, 2015. The Company believes it has strong defenses and intends to defend the lawsuit vigorously, through appeal if necessary. At this stage, the Company cannot make a reasonable estimate of the possible loss, if any, arising from this lawsuit as there are significant issues to be resolved in connection with the trial.

Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes the unresolved legal actions will not have a material adverse effect on its results of operations, financial position or cash flows.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

Executive Officers of the Registrant

<u>Name, Age, Position</u>	<u>Business Experience for At Least Past Five Years</u>
TODD J. TESKE, 50 Chairman, President & Chief Executive Officer (1) (2)	Mr. Teske was elected to his current position effective October 2010. He previously was President & Chief Executive Officer from January 2010 to October 2010. He served as President and Chief Operating Officer from September 2008 to January 2010; as Executive Vice President & Chief Operating Officer from September 2005 through August 2008; and as Senior Vice President and President - Briggs & Stratton Power Products Group, LLC from September 2003 to August 2005. Mr. Teske also serves as a director of Badger Meter, Inc. and Lennox International, Inc.
KATHRYN M. BUONO, 53 Vice President, General Counsel & Secretary	Ms. Buono was elected to her position effective April 2015. Prior to joining Briggs & Stratton, she held the position of Managing Partner of the Milwaukee, Wisconsin office of the Quarles & Brady LLP law firm from March 2014 through December 2014 and was a partner practicing in its Business Law Group.
RANDALL R. CARPENTER, 58 Vice President – Marketing	Mr. Carpenter was elected to his current position effective September 2009. He served as Vice President - Marketing from May 2007 through August 2009. Prior to joining Briggs & Stratton, he held the position of Vice President Marketing and Product Development for Royal Appliance Manufacturing.
DAVID G. DEBAETS, 52 Vice President – Global Engine Operations	Mr. DeBaets was elected to his current position in August 2015, to be effective as of September 1, 2015. He previously served as Vice President - North American Operations from September 2007 through August, 2015; as Vice President and General Manager - Large Engine Division from September 2006 through August 2007; and as Vice President & President - Home Power Products Group from May 2006 through August 2006.
ANDREA L. GOLVACH, 44 Vice President & Treasurer	Ms. Golvach was elected to her current position effective November 2011 after serving as Vice President of Treasury from May 2011 to November 2011. Prior to joining Briggs & Stratton, she held the position of Director of Finance & Cash Management at Harley-Davidson, Inc., a global motorcycle manufacturer, from December 2007 to May 2011 and Director of Finance & Cash Management for Harley-Davidson Financial Services from August 2005 to December 2007.
HAROLD L. REDMAN, 50 Senior Vice President & President – Turf & Consumer Products	Mr. Redman was elected to his current position effective September 2014. He previously served as Senior Vice President and President - Products Group from October 2010 through August 2014; as Senior Vice President and President - Home Power Products Group from September 2009 to October 2010; and as Vice President and President - Home Power Products Group from September 2006 through August 2009. Prior to joining Briggs & Stratton, he served as Senior Vice President - Sales & Marketing of Simplicity Manufacturing, Inc.

Name, Age, Position	Business Experience for At Least Past Five Years
<p>WILLIAM H. REITMAN, 59 Senior Vice President & President – Global Service</p>	<p>Mr. Reitman was elected to his current position in August 2015, to be effective as of September 1, 2015. He previously served as Senior Vice President - Managing Director Europe & Global Service from September 2014 through August 2015; as Senior Vice President & Managing Director - Europe from September 2013 through August 2014; as Senior Vice President - Business Development & Customer Support from October 2010 through August 2013; as Senior Vice President - Sales & Customer Support from September 2007 to October 2010; as Senior Vice President - Sales & Marketing from May 2006 through August 2007; and as Vice President - Sales & Marketing from October 2004 to May 2006.</p>
<p>DAVID J. RODGERS, 44 Senior Vice President & President – Engines Group</p>	<p>Mr. Rodgers was elected to his current position effective August 17, 2015. He previously served as Senior Vice President & Chief Financial Officer from June 2010 through August 16, 2015 and as Vice President - Finance from February 2010 to June 2010. He served as Controller from December 2006 to February 2010 and was elected an executive officer in September 2007. Prior to joining Briggs & Stratton, he was employed by Roundy's Supermarkets, Inc. as Vice President - Corporate Controller from September 2005 to November 2006 and Vice President - Retail Controller from May 2003 to August 2005.</p>

<p>EDWARD J. WAJDA, 55 Senior Vice President & President – Standby/Job Site Products</p>	<p>Mr. Wajda was elected to his current position in August 2015, to be effective as of September 1, 2015. He previously served as Senior Vice President & President - Standby/Job Site Products & International from September 2014 through August 2015; as Senior Vice President & General Manager - International from September 2013 through August 2014; and as Vice President & General Manager- International from July 2008 through August 2013. Mr. Wajda was elected as an executive officer effective as of February 2011. Prior to joining Briggs & Stratton, he held the position of Senior Vice President - Global Medical Vehicle Group for Oshkosh Corporation.</p>

- (1) Officer is also a Director of Briggs & Stratton.
- (2) Member of the Board of Directors Executive Committee.

Officers are elected annually and serve until they resign, die, are removed, or a different person is appointed to the office.

PART II

ITEM 5. MARKET FOR THE REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Briggs & Stratton common stock and its common share purchase rights are traded on the NYSE under the symbol “BGG”. Information required by this Item is incorporated by reference from the “Quarterly Financial Data, Dividend and Market Information” (unaudited), included in Item 8 of this report.

Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

The table below sets forth the information with respect to purchases made by or on behalf of the Company of its common stock during the quarterly period ended June 28, 2015.

2015 Fiscal Month	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of a Publicly Announced Program (1)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program (1)
March 30, 2015 to April 26, 2015	121,557	\$ 20.07	121,557	\$ 45,303,773
April 27, 2015 to May 24, 2015	99,268	19.81	99,268	43,337,274
May 25, 2015 to June 28, 2015	162,820	18.91	162,820	40,258,348
Total Fourth Quarter	<u>383,645</u>	<u>\$ 19.51</u>	<u>383,645</u>	<u>\$ 40,258,348</u>

(1) On August 13, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company’s existing common share repurchase program with an expiration date of June 30, 2016. The common share repurchase program authorizes the purchase of shares of the Company’s common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing debt covenants.

Five-year Stock Performance Graph

The graph below shows the cumulative total stockholder return of an investment of \$100 (and the reinvestment of any dividends thereafter) at the close of business on June 30, 2010 in each of Briggs & Stratton common stock, the Standard & Poor’s (S&P) Smallcap 600 Index and the S&P Machinery Index.

EARNINGS PER SHARE

Basic	\$ 1.00	\$ 0.42	\$ 1.42	\$ 0.59	\$ 0.23	\$ 0.82
Diluted	1.00	0.42	1.42	0.59	0.23	0.82

(1) For the fiscal year ended June 28, 2015, includes restructuring charges of \$27,288 net of \$9,539 of taxes, and acquisition-related charges of \$2,115 net of \$741 of taxes. For the fiscal year ended June 29, 2014, includes restructuring charges of \$6,539 net of \$1,376 of taxes, and goodwill and tradename impairment charges of \$8,460 net of \$2,931 of taxes.

(2) Adjusted financial results are non-GAAP financial measures. The Company believes this information is meaningful to investors as it isolates the impact that restructuring charges, and goodwill and tradename impairments have on reported financial results and facilitates comparisons between peer companies. The Company may utilize non-GAAP financial measures as a guide in the forecasting, budgeting, and long-term planning process. While the Company believes that adjusted financial results are useful supplemental information, such adjusted financial results are not intended to replace our GAAP financial results and should be read in conjunction with those GAAP results.

(3) The Company defines segment income (loss) as income from operations plus equity in earnings of unconsolidated affiliates.

Net Sales

Consolidated net sales for fiscal 2015 were \$1.89 billion. Consolidated net sales increased \$36 million or 1.9% from fiscal 2014, which includes \$29 million related to unfavorable currency rates. Consolidated net sales increased \$65 million or 3.5% before the impact of unfavorable currency rates. The increase in net sales is due to the results from the Allmand and Billy Goat acquisitions, a 3% increase in global engine unit shipments and higher sales of commercial lawn and garden equipment and pressure washers in North America. Partially offsetting the increase were reduced sales of generators, unfavorable engine sales mix and the planned actions to narrow the assortment of lower-priced Snapper consumer lawn and garden equipment.

Engines segment net sales for fiscal 2015 were \$1.2 billion, which was \$10.7 million or 0.9% lower than the prior year. This decrease is due to an unfavorable foreign exchange impact of approximately \$15.3 million and an unfavorable mix of engines sold, partially offset by a 3% increase in unit shipments of global engines. Fiscal 2015 sales skewed proportionately towards small engines due to elevated levels of large engines in the channel entering this lawn and garden season.

Products segment net sales for fiscal 2015 were \$788.6 million, an increase of \$52.3 million or 7.1% from the prior year. The increase in net sales is due to the results of the Allmand and Billy Goat acquisitions, higher commercial lawn and garden equipment sales, higher sales in Australia on an improved lawn and garden season and higher pressure washer sales. Partially offsetting the increase is the unfavorable impact of foreign exchange of \$13.6 million, reduced sales of generators due to fewer major power outages, and the planned actions to narrow the assortment of lower-priced Snapper consumer lawn and garden equipment.

Gross Profit Percentage

The consolidated gross profit percentage was 19.0% in fiscal 2015, an increase of 0.3% from fiscal 2014.

Included in consolidated gross profit were pre-tax charges of \$24.3 million related to previously announced restructuring actions and \$1.4 million related to acquisition-related charges recorded in the Products segment during fiscal 2015. During fiscal 2014, the Engines segment and Products segment recorded pre-tax restructuring charges within gross profit of \$3.1 million and \$2.7 million, respectively.

The Engines segment gross profit percentage for fiscal 2015 was 22.2%, which was higher than the 21.1% in fiscal 2014. Adjusted gross profit percentage for fiscal 2015 was 22.2%, which was 80 basis points higher compared to fiscal 2014. The previously announced retirement plan changes improved adjusted gross profit margins by approximately 90 basis points. Slightly lower material costs and cost reductions also improved margins by 50 basis points. Partially offsetting this increase was the impact of unfavorable foreign exchange, primarily related to the Euro, which reduced adjusted gross profit margins by approximately 40 basis points, and an unfavorable mix of engines produced as production slightly skewed toward small units rather than large engines, which reduced margins by 10 basis points.

The Products segment gross profit percentage for fiscal 2015 was 11.3%, which was lower than the 11.9% in fiscal 2014. The Products segment adjusted gross profit percentage for fiscal 2015 was 14.6%, which was 230 basis points higher compared to the adjusted gross profit percentage for fiscal 2014. Adjusted gross profit percentage improved due to favorable sales mix by approximately 140 basis points, the impact of acquisitions by 90 basis points, and by 30 basis points or \$2.6 million from incremental savings realized from restructuring actions. Manufacturing throughput increased by 13.0%, which led to an increase in adjusted gross profit percentage of 60 basis points. Partially offsetting the higher gross profit percentage was the impact of unfavorable foreign exchange of 90 basis points, primarily the Brazilian real and Australian dollar.

Engineering, Selling, General and Administrative Expenses

Engineering, selling, general and administrative expenses were \$289.9 million in fiscal 2015, a decrease of \$1.5 million or 0.5% from fiscal 2014.

The Engines segment engineering, selling, general and administrative expenses were \$179.6 million in fiscal 2015, or \$5.2 million lower compared to fiscal 2014. The decrease was largely due to the retirement plan changes. Higher compensation expense and international expenses in fiscal 2015 were partially offset by the benefit of the movement in foreign exchange rates.

The Products segment engineering, selling, general and administrative expenses were \$110.4 million in fiscal 2015, an increase of \$3.8 million from fiscal 2014. The increase was primarily attributable to higher expenses due to the Allmand and Billy Goat acquisitions, increased compensation expense, and higher international expenses. Partially offsetting the increase were \$7.4 million in savings related to the restructuring actions and the impact of foreign exchange.

Restructuring Actions

During the fourth quarter of fiscal 2015, the Company made progress on implementing the previously announced restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and consolidate its Products segment manufacturing facilities in order to reduce costs. The Company ceased production at the McDonough, Georgia plant during the fourth quarter of fiscal 2015 and has begun producing pressure washers and snow throwers at its Wauwatosa, Wisconsin plant. Production of riding mowers at the Wauwatosa plant will begin in the first half of fiscal 2016. Pre-tax restructuring costs for the fourth quarter and twelve months ended June 28, 2015 were \$4.0 million and \$27.3 million, respectively, and pre-tax savings were \$4.8 million and \$10.0 million, respectively. Incremental pre-tax restructuring costs in fiscal 2016 are expected to be \$4 million to \$8 million. Incremental cost savings as a result of these actions are anticipated to be approximately \$5 million to \$7 million in fiscal 2016.

Allmand Bros., Inc. and Billy Goat Industries, Inc. Acquisitions

On August 29, 2014, the Company completed the acquisition of Allmand Bros., Inc. for approximately \$59.9 million in cash, net of cash acquired. Allmand is a leading designer and manufacturer of high quality towable light towers, industrial heaters, and solar LED arrow boards. Allmand is included within the Products segment.

On May 20, 2015, the Company acquired all of the outstanding shares of Billy Goat Industries, Inc. for approximately \$28.3 million, net of cash acquired, subject to customary post-closing working capital adjustments. Billy Goat is a leading manufacturer of specialty turf equipment, which includes aerators, sod cutters, overseeders, power rakes, brush cutters, walk behind blowers, lawn vacuums, and debris loaders. Billy Goat is included within the Products segment.

Interest Expense

Interest expense for fiscal 2015 was \$19.5 million, which was \$1.1 million higher than fiscal 2014, due to higher borrowings on the Revolver during fiscal 2015.

Provision for Income Taxes

The effective tax rates for the year ended fiscal 2015 was 19.8% compared to 23.7% for the same period last year. The tax rate for the year ended fiscal 2015 was lower than statutory rates due to a net tax benefit of \$5 million related to recognizing incremental federal research & development tax credits related to prior years. In addition, the year ended fiscal 2015 tax rate was impacted by the reversal of previously recorded reserves as a result of the favorable resolution of an IRS audit. The year ended fiscal 2014 tax rate included a taxpayer election filed pursuant to the outcome of a U.S. court case that provided the Company precedent to record a tax benefit of \$2.9 million for the permanent exclusion of qualified export activity from prior years' taxable income.

FISCAL 2014 COMPARED TO FISCAL 2013

The following table is a reconciliation of financial results by segment, as reported, to adjusted financial results by segment, excluding restructuring charges, goodwill and tradename impairments, and a litigation settlement (in thousands, except per share data):

(1) For the fiscal year ended June 29, 2014, includes restructuring charges of \$6,539 net of \$1,376 of taxes, and goodwill and tradename impairment charges of \$8,460 net of \$2,931 of taxes. For the fiscal year ended June 30, 2013, includes restructuring charges of \$22,196 net of \$6,669 of taxes, goodwill and tradename impairment charges of \$90,080, of which \$13,807 related to non-deductible goodwill for tax purposes with the remaining impairment generating a \$28,116 tax benefit, and a litigation settlement of \$1,877 net of \$657 of taxes.

(2) Adjusted financial results are non-GAAP financial measures. The Company believes this information is meaningful to investors as it isolates the impact that restructuring charges, goodwill and tradename impairments, and litigation settlements have on reported financial results and facilitates comparisons between peer companies. The Company may utilize non-GAAP financial measures as a guide in the forecasting, budgeting, and long-term planning process. While the Company believes that adjusted financial results are useful supplemental information, such adjusted financial results are not intended to replace our GAAP financial results and should be read in conjunction with those GAAP results.

(3) The Company defines segment income (loss) as income from operations plus equity in earnings of unconsolidated affiliates.

Net Sales

Consolidated net sales for fiscal 2014 were \$1.9 billion, a decrease of \$3.4 million or 0.2% from fiscal 2013, due to lower sales of generators and the engines that power them. The impact of fewer weather related events creating demand for generators and the related engines was an estimated sales decrease of \$100 million for fiscal 2014. This decrease was offset by higher sales of engines used on U.S. lawn and garden equipment, increased sales of pressure washers and sales from Branco, which was acquired mid-year in fiscal 2013.

Engines segment net sales for fiscal 2014 were \$1.2 billion, which was \$30.0 million or 2.5% higher than fiscal 2013. This increase in net sales was primarily driven by higher sales of engines used on U.S. lawn and garden equipment and related service parts and sales from Branco, which was acquired mid-year in fiscal 2013. The increase in net sales was partially offset by lower sales of engines used on generators due to the lack of storm activity during fiscal 2014.

Products segment net sales for fiscal 2014 were \$736.3 million, a decrease of \$69.1 million or 8.6% from fiscal 2013. The decrease in net sales was primarily due to lower sales of standby and portable generators due to the lack of storm activity during fiscal 2014, lower replenishment of snow throwers in Europe following the previous year's dry winter, and unfavorable foreign exchange predominantly due to the Australian dollar and Brazilian real. The decrease in net sales was partially offset by higher sales of pressure washers and sales from Branco, which was acquired mid-year in fiscal 2013.

Gross Profit Percentage

The consolidated gross profit percentage was 18.7% in fiscal 2014, an increase of 1% from fiscal 2013.

Included in consolidated gross profit were pre-tax charges of \$5.8 million during fiscal 2014 related to previously announced restructuring actions. The Engines segment and Products segment recorded \$3.1 million and \$2.7 million, respectively, of pre-tax restructuring charges within gross profit during fiscal 2014. During fiscal 2013, the Engines segment and Products segment recorded pre-tax restructuring charges within gross profit of \$9.0 million and \$9.8 million, respectively.

The Engines segment gross profit percentage for fiscal 2014 was 21.1%, which was higher than the 19.9% in fiscal 2013. Adjusted gross profit percentage for 2014 was 21.4%, which was 80 basis points higher compared to fiscal 2013. The adjusted gross profit percentage increased due to a favorable sales mix, including the impact of new product introductions, and by 60 basis points due to a 1% increase in manufacturing throughput with fixed cost absorption benefiting from a 14% increase in the production of large engines. Lower material costs were mostly offset by reduced pricing.

The Products segment gross profit percentage for fiscal 2014 was 11.9%, which was higher than the 10.9% in fiscal 2013. The Products segment adjusted gross profit percentage for fiscal 2014 was 12.3%, which was 20 basis points higher compared to the adjusted gross profit percentage for fiscal 2013. The increase in adjusted gross profit percentage was primarily due to a 80 basis point benefit from improved manufacturing efficiencies and incremental footprint restructuring savings of \$1.6 million. The adjusted gross profit percentage also benefited from additional margin from a favorable mix of products sold. Partially offsetting the increase in adjusted gross profit percentage was an unfavorable foreign exchange impact of 60 basis points.

Engineering, Selling, General and Administrative Expenses

Engineering, selling, general and administrative expenses were \$291.4 million in fiscal 2014, an increase of \$15.2 million or 5.5% from fiscal 2013.

The Engines segment engineering, selling, general and administrative expenses were \$184.8 million in fiscal 2014, or \$10.8 million higher compared to fiscal 2013. The increase was primarily due to increased international sales and marketing expenses, research and development costs, corporate development and legal expenses, additional expenses from Branco, and higher compensation costs, partially offset by lower retirement plan expenses.

The Products segment engineering, selling, general and administrative expenses were \$106.6 million in fiscal 2014, an increase of \$4.4 million from fiscal 2013. The increase was primarily attributable to additional expenses from Branco and higher advertising costs related to new product launches, partially offset by favorable foreign exchange.

Other Intangible Asset Impairment

During the fourth quarter of fiscal 2014, the Company performed its annual impairment testing of other intangible assets. Based on a combination of factors, predominantly driven by a slower than anticipated recovery of the North America lawn and garden market and the operating results of the Products segment during fiscal 2013 and fiscal 2014 leading up to the impairment, which lacked the benefit of certain weather related events that would have been favorable to the business, the Company's forecasted cash flow estimates used in the assessment of goodwill and other intangible assets were adversely impacted. The Company concluded that the carrying value of a tradename within the Products reporting unit exceeded its fair value as of June 29, 2014. The non-cash intangible asset impairment charge recorded in the fourth quarter of fiscal 2014 was \$5.5 million. The impairment charge did not adversely affect the Company's debt position, cash flow, liquidity or compliance with financial covenants under its revolving credit facility. No impairment charges were recorded within the Engines segment.

Restructuring Actions

The restructuring actions that were in progress at the beginning of fiscal 2014 concluded as planned as of

June 29, 2014. These restructuring actions resulted in pre-tax restructuring costs for the fourth quarter and twelve months ended June 29, 2014 of \$1.4 million and \$6.5 million, respectively. Incremental pre-tax restructuring savings for fiscal 2014 were \$2.5 million.

Interest Expense

Interest expense for fiscal 2014 was \$18.5 million, which was comparable to fiscal 2013.

Provision for Income Taxes

The effective tax rate for fiscal 2014 was 23.7% compared to 35.6% for fiscal 2013. The tax rate for fiscal 2014 was mainly impacted by a taxpayer election filed pursuant to the outcome of a U.S. court case that provided the Company precedent to record a tax benefit of \$2.9 million for the permanent exclusion of qualified export activity from prior years' taxable income as well as a U.S. manufacturers deduction of \$1.8 million. The tax rate for fiscal 2013 was primarily driven by tax benefits related to foreign operations of \$2.4 million and state credits of \$2.0 million with an offsetting \$5.6 million non-deductible goodwill impairment charge.

Liquidity and Capital Resources

FISCAL YEARS 2015, 2014 AND 2013

Net cash provided by operating activities was \$148 million, \$127 million and \$161 million in fiscal 2015, 2014 and 2013, respectively.

Cash flows provided by operating activities for fiscal 2015 were \$148 million compared to \$127 million in fiscal 2014. The increase in operating cash flows was primarily related to higher net income and changes in working capital, specifically lower accounts receivable and higher accounts payable.

Cash flows provided by operating activities for fiscal 2014 were \$127 million compared to \$161 million in fiscal 2013. The decrease in operating cash flows was primarily related to changes in working capital as higher fourth quarter sales in fiscal 2014 led to a larger accounts receivable balance compared to fiscal 2013. The change was partially offset by no contributions to the pension plan in fiscal 2014 compared to \$29.4 million in contributions in fiscal 2013.

Net cash used in investing activities was \$158 million, \$60 million and \$92 million in fiscal 2015, 2014 and 2013, respectively. These cash flows include capital expenditures of \$72 million, \$60 million and \$45 million in fiscal 2015, 2014 and 2013, respectively. The capital expenditures related primarily to reinvestment in equipment and new products and technology. Further, in fiscal 2015, approximately \$88 million of cash was used for the acquisitions of Allmand Bros., Inc. and Billy Goat Industries, Inc. In fiscal 2013, approximately \$60 million of cash was used for the acquisition of Branco and approximately \$12.5 million was received from dispositions of plant and equipment.

Net cash used in financing activities was \$65 million, \$62 million and \$36 million in fiscal 2015, 2014 and 2013, respectively. In fiscal 2015, the Company repurchased treasury stock at a total cost of \$47 million compared to \$43 million and \$30 million stock repurchases in fiscal 2014 and 2013, respectively. In fiscal 2015, the Company received proceeds of \$5 million from the exercise of stock options. In fiscal 2014, the Company received proceeds of \$5 million from the exercise of stock options. Also in fiscal 2014, as disclosed in Note 11 of the Notes to Consolidated Financial Statements, the Company incurred \$0.9 million of debt issuance costs associated with the refinancing of its revolving credit facility. In fiscal 2013, the Company received proceeds of \$20 million from the exercise of stock options and made repayments totaling \$3 million on short-term loans. The Company paid cash dividends on its common stock of \$23 million in each of fiscal 2015, 2014 and 2013.

Given the Company's international operations, a portion of the Company's cash and cash equivalents are held in non-U.S. subsidiaries where its undistributed earnings are considered to be permanently reinvested. Generally, these would be subject to U.S. tax if repatriated. As of June 28, 2015, approximately \$56 million of the Company's \$118 million of cash and cash equivalents was held in non-U.S. subsidiaries.

Future Liquidity and Capital Resources

In December 2010, the Company issued \$225 million aggregate principal amount of 6.875% Senior Notes due December 2020 (the "Senior Notes").

On October 21, 2013, the Company entered into an amendment to its \$500 million multicurrency credit agreement (the "Revolver"), which among other things, extended the maturity of the Revolver to October 21, 2018. The initial maximum availability under the Revolver is \$500 million. Availability under the Revolver is reduced by outstanding letters of credit. The Company may from time to time increase the maximum availability under the Revolver by up to \$250 million if certain conditions are satisfied. There were no borrowings under the Revolver as of June 28, 2015 and June 29, 2014.

In August 2015, the Company announced that its Board of Directors declared an increase in the quarterly dividend from \$0.125 per share to \$0.135 per share on the Company's common stock, payable September 30, 2015 to shareholders of record at the close of business on September 17, 2015.

In August 2012, the Board of Directors authorized \$50 million in funds for use in the common share repurchase program with an expiration date of June 30, 2014. On January 22, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company's common share repurchase program with an extension of the expiration date to June 30, 2016. On August 13, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company's common share repurchase program with an expiration date of June 30, 2016. Share repurchases, among other things, allow the Company to offset any potentially dilutive impacts of share-based compensation. The common share repurchase program authorizes the purchase of shares of the Company's common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing debt covenants. In fiscal 2015, the Company repurchased 2,423,044 shares on the open market at a total cost of \$47.0 million, or \$19.42 per share. There were 2,100,499 shares repurchased in fiscal 2014 at a total cost of \$43.0 million, or \$20.49 per share.

The Company expects capital expenditures to be approximately \$65 to \$70 million in fiscal 2016. These anticipated expenditures reflect the Company's plans to continue to reinvest in efficient equipment and innovative new products.

On July 6, 2012, the Moving Ahead for Progress in the 21st Century Act (MAP-21 Act) was signed into law. The MAP-21 Act included certain pension-related provisions which included changes to the methodology used to determine discount rates for ERISA funding purposes for qualified defined benefit pension plans. Based on historical interest rates, the MAP-21 Act allows plan sponsors to utilize a higher discount rate to value pension liabilities, which results in lower required pension plan contributions under ERISA. On August 8, 2014, the Highway and Transportation Funding Act of 2014 (HATFA Act) was enacted. The HATFA Act extends the pension provisions included in the MAP-21 Act. During fiscal 2015, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies the Company is required to make no minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2019. The Company may be required to make further contributions in future years depending on the actual return on plan assets and the funded status of the plan in future periods.

Management believes that available cash, cash generated from operations, existing lines of credit and access to debt markets will be adequate to fund the Company's capital requirements and operational needs for the foreseeable future.

The Revolver and the Senior Notes contain restrictive covenants. These covenants include restrictions on the Company's ability to: pay dividends; repurchase shares; incur indebtedness; create liens; enter into sale and leaseback transactions; consolidate or merge with other entities; sell or lease all or substantially all of its assets; and dispose of assets or use proceeds from sales of its assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose a maximum average leverage ratio. As of June 28, 2015, the Company was in compliance with these covenants.

Financial Strategy

Management believes that the value of the Company is enhanced if the capital invested in operations yields a cash return that is greater than the cost of capital. Consequently, management's first priority is to reinvest capital into physical assets and products that maintain or grow the global cost leadership and market positions that the Company has achieved, and drive the economic value of the Company. Management's next financial objective is to identify strategic acquisitions or alliances that may enhance revenues and provide a higher economic return. Finally, management believes that when capital cannot be invested for returns greater than the cost of capital, the Company should return capital to the capital providers through dividends and/or share repurchases.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements or significant guarantees to third parties not fully recorded in our Consolidated Balance Sheets or fully disclosed in our Notes to Consolidated Financial Statements. The Company's significant contractual obligations include our debt agreements and certain employee benefit plans.

Contractual Obligations

A summary of the Company's expected payments for significant contractual obligations as of June 28, 2015 is as follows (in thousands):

	Total	Fiscal 2016	Fiscal 2017-2018	Fiscal 2019-2020	Thereafter
Long-Term Debt.....	\$ 225,000	\$ —	\$ —	\$ —	\$ 225,000
Interest on Long-Term Debt.....	85,079	15,469	30,938	30,938	7,734
Operating Leases	70,554	14,661	19,491	8,747	27,655
Purchase Obligations	60,256	58,208	2,048	—	—
Other Liabilities (a)	—	—	—	200	6,800
	<u>\$ 440,889</u>	<u>\$ 88,338</u>	<u>\$ 52,477</u>	<u>\$ 39,885</u>	<u>\$ 267,189</u>

(a) Includes an estimate of future expected funding requirements related to our pension plans. Any further funding requirements for pension plans beyond fiscal 2021 cannot be estimated at this time. Because their future cash outflows are uncertain, liabilities for unrecognized tax benefits and other sundry items are excluded from the table above.

Critical Accounting Policies

The Company's critical accounting policies are more fully described in Note 2 and Note 17 of the Notes to Consolidated Financial Statements. As discussed in Note 2, the preparation of financial statements in conformity with accounting principles generally accepted in the U.S. ("GAAP") requires management to make estimates and assumptions about future events that affect the amounts reported in the financial statements and accompanying notes. Future events and their effects cannot be determined with absolute certainty. Therefore, the determination of estimates requires the exercise of judgment. Actual results inevitably will differ from those estimates, and such differences may be material to the financial statements.

The Company believes the following critical accounting policies represent the more significant judgments and estimates used in preparing the consolidated financial statements. There have been no material changes made to the Company's critical accounting policies and estimates during the periods presented in the consolidated financial statements.

Goodwill and Other Intangible Assets

Goodwill represents the excess of purchase price over tangible and intangible assets acquired less liabilities assumed arising from business combinations. Goodwill is not amortized. The Company evaluates goodwill and other indefinite-lived intangible assets for impairment annually as of the end of the fourth fiscal quarter, or more frequently if events or circumstances indicate that the assets may be impaired.

Generally, the Company first determines based on a qualitative assessment whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the Company concludes that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company will test

goodwill using a two-step process. The first step of the goodwill impairment test is to identify a potential impairment by comparing the carrying values of each of the Company's reporting units to their estimated fair values as of the test dates. The estimates of fair value of the reporting units are computed using an income approach. The income approach utilizes a multi-year forecast of estimated cash flows and a terminal value at the end of the cash flow period. The forecast period assumptions consist of internal projections that are based on the Company's budget and long-range strategic plan. The discount rate used at the test date is the weighted-average cost of capital which reflects the overall level of inherent risk of the reporting unit and the rate of return an outside investor would expect to earn.

If the fair value of a reporting unit exceeds its book value, goodwill of the reporting unit is not deemed impaired and the second step of the impairment test is not performed. If the book value of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed to measure the amount of impairment loss, if any. The second step of the goodwill impairment test compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. The implied fair value of goodwill is determined by allocating the estimated fair value of the reporting unit to the estimated fair value of its existing tangible assets and liabilities as well as existing identified intangible assets and previously unrecognized intangible assets in a manner similar to a purchase price allocation. The unallocated portion of the estimated fair value of the reporting unit is the implied fair value of goodwill. If the carrying amount of the reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to that excess.

As discussed in Note 7 to the Consolidated Financial Statements, the Company performed the annual impairment test on its reporting units as of June 28, 2015. Based on a qualitative assessment of its Engines reporting unit, the Company determined that it is more likely than not that the fair value of its reporting unit exceeds its carrying amount. As a result, the Company concluded that the Engines reporting unit is not impaired as of June 28, 2015.

The Company also performed an impairment test over its Products reporting segment, which consists of four reporting units, specifically Turf & Consumer, Standby, Job Site, and Chore reporting units. The Standby reporting unit does not have goodwill. The impairment testing performed by the Company at June 28, 2015 indicated that the estimated fair value of the Turf & Consumer, Job Site, and Chore reporting units exceeded its corresponding carrying amount, including recorded goodwill, and as such, no impairment existed.

At June 28, 2015, the Turf & Consumer reporting unit had an insignificant amount of goodwill. The Job Site reporting unit's goodwill was acquired during the current year through the Allmand acquisition in August 2014. At June 28, 2015, the fair value of the Job Site reporting unit's goodwill exceeded its carrying value by approximately 4%. The discount rate used for the Job Site reporting unit was 13.2%. The growth rate and gross profit margin used for the terminal value calculation for the Job Site reporting unit was 3.5% and 23.7%, respectively. The Chore reporting unit's goodwill was acquired during the current year through the Billy Goat acquisition in May 2015.

The assumptions included in the impairment test require judgment, and changes to these inputs could impact the results of the calculation. Other than management's internal projections of future cash flows, the primary assumptions used in the impairment test were the weighted-average cost of capital and long-term growth rates.

Qualitative assessments of goodwill and quantitative assessments of goodwill and tradenames involve significant judgments by management. Although the Company's cash flow forecasts are based on assumptions that are considered reasonable by management and consistent with the plans and estimates management is using to operate the underlying businesses, there is significant judgment in determining the expected future cash flows attributable to these businesses. Changes in such estimates or the application of alternative assumptions could produce significantly different results.

Tradenames are not amortized. If impairment occurs, the impaired amount of the tradename is written off immediately. For purposes of the tradename impairment analysis, the Company performs its assessment of fair value based on an income approach using the relief-from-royalty method. This methodology assumes that, in lieu of ownership, a third party would be willing to pay a royalty in order to exploit the related benefits of these types of assets. The Company determines the fair value of each tradename by applying a royalty rate

to a projection of net sales discounted using a risk adjusted cost of capital. The Company believes the relief-from-royalty method to be an acceptable methodology due to its common use by valuation specialists in determining the fair value of intangible assets. Sales growth rates are determined after considering current and future economic conditions, recent sales trends, discussions with customers, planned timing of new product launches and many other variables. Each royalty rate is based on profitability of the business to which it relates and observed market royalty rates.

As discussed in Note 7 to the consolidated financial statements, the Company performed the annual impairment test on its indefinite-lived intangible assets as of June 28, 2015. In fiscal 2015, the Company determined that no intangible asset impairment existed. The Company recognized a \$5.5 million non-cash impairment charge in the fourth quarter of fiscal 2014 related to a tradename in the Products reporting unit. In fiscal 2013, the Company recognized a \$18.8 million non-cash impairment charge related to a tradename in the Products reporting unit. The assumptions included in the impairment test require judgment, and changes to these inputs could impact the results of the calculation.

Definite-lived intangible assets consist primarily of customer relationships and patents. These definite-lived intangible assets are amortized over their estimated useful lives and are subject to impairment testing if events or changes in circumstances indicate that an asset may be impaired.

Income Taxes

The Company's estimate of income taxes payable, deferred income taxes, tax contingencies and the effective tax rate is based on a complex analysis of many factors including interpretations of federal, state and foreign income tax laws, the difference between tax and financial reporting bases of assets and liabilities, estimates of amounts currently due or owed in various jurisdictions, and current accounting standards. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. We review and update our estimates on a quarterly basis as facts and circumstances change and actual results are known. In addition, federal, state and foreign taxing authorities periodically review the Company's estimates and interpretation of income tax laws. Adjustments to the effective income tax rate and recorded tax related assets and liabilities may occur in future periods if actual results differ significantly from original estimates and interpretations.

Pension and Other Postretirement Plans

The pension benefit obligation and related pension expense or income are impacted by certain actuarial assumptions, including the discount rate, mortality tables, and the expected rate of return on plan assets. These rates are evaluated on an annual basis considering such factors as market interest rates and historical asset performance. Actuarial valuations at June 28, 2015 used a discount rate of 4.55% and the determination of fiscal 2015 expense used an expected rate of return on plan assets of 8.00%. Our discount rate was selected using a methodology that matches plan cash flows with a selection of Standard and Poor's AA or higher rated bonds, resulting in a discount rate that better matches a bond yield curve with comparable cash flows. A 0.25% decrease in the discount rate would decrease annual pension service and interest costs by approximately \$1.5 million. A 0.25% decrease in the expected return on plan assets would increase our annual pension service and interest costs by approximately \$2.3 million. In estimating the expected return on plan assets, the Company considers the historical returns on plan assets, adjusted for forward looking considerations, including inflation assumptions and active management of the plan's invested assets, knowing that our investment performance has been in the top decile compared to other plans. Changes in the discount rate, mortality tables, and return on assets can have a significant effect on the funded status of our pension plans, shareholders' investment and related expense. We cannot predict these changes in discount rates or investment returns and, therefore, cannot reasonably estimate whether the impact in subsequent years will be significant.

The funded status of the Company's pension plan is the difference between the projected benefit obligation and the fair value of its plan assets. The projected benefit obligation is the actuarial present value of all benefits expected to be earned by the employees' service adjusted for future potential wage increases. At June 28, 2015 and June 29, 2014, the fair value of plan assets was less than the projected benefit obligation by approximately \$212 million and \$130 million, respectively.

On July 6, 2012, the Moving Ahead for Progress in the 21st Century Act (MAP-21 Act) was signed into law. The MAP-21 Act included certain pension-related provisions which included changes to the methodology used to determine discount rates for ERISA funding purposes for qualified defined benefit pension plans. Based on historical interest rates, the MAP-21 Act allows plan sponsors to utilize a higher discount rate to value pension liabilities, which results in lower required pension plan contributions under ERISA. On August 8, 2014, the Highway and Transportation Funding Act of 2014 (HATFA Act) was enacted. The HATFA Act extends the pension provisions included in the MAP-21 Act. During fiscal 2015, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies the Company is required to make no minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2019. The Company may be required to make further contributions in future years depending on the actual return on plan assets and the funded status of the plan in future periods.

In October 2012, the Board of Directors of the Company authorized an amendment to the Company's defined benefit retirement plans for U.S., non-bargaining employees. The amendment froze accruals for all non-bargaining employees effective January 1, 2014. The Company recorded a pre-tax curtailment charge of \$1.9 million in fiscal 2013 related to the defined benefit plan change.

The other postretirement benefits obligation and related expense or income are impacted by certain actuarial assumptions, including the health care trend rate. An increase of one percentage point in health care costs would increase the accumulated postretirement benefit obligation by \$1.6 million and would increase the service and interest cost by \$0.1 million. A corresponding decrease of one percentage point, would decrease the accumulated postretirement benefit by \$1.6 million and decrease the service and interest cost by \$0.1 million.

For pension and postretirement benefits, actuarial gains and losses are accounted for in accordance with U.S. GAAP. Refer to Note 17 of the Notes to the Consolidated Financial Statements for additional discussion.

Other Reserves

The reserves for customer rebates, warranty, product liability, inventory and doubtful accounts are fact specific and take into account such factors as specific customer situations, historical experience, and current and expected economic conditions.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Fair Value Measurement (Topic 820)." The core principle of the guidance is to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The guidance also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. This guidance is effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. A reporting entity should apply the guidance retrospectively to all periods presented. Earlier application is permitted. The Company adopted ASU No. 2015-07 beginning with the fiscal year ended June 28, 2015. In Note 17, certain investments within the Company's pension plan assets that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The adoption of this ASU did not have any impact on the Company's results of operations, financial position, and cash flow.

In May 2014, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, under either full or modified retrospective adoption. Early application is only permitted for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently assessing the potential impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flow.

Other Matters

Labor Agreements

The Company has collective bargaining agreements with its unions. These collective bargaining agreements cover approximately 10% of the total employees as of June 28, 2015. These agreements expire at various times beginning in calendar 2016.

Emissions

The United States Environmental Protection Agency (EPA), the California Air Resources Board (CARB), Canada and the European Union (EU) have adopted multiple stages of emission standards for small air cooled engines. The Company currently has product offerings that comply with those standards.

In addition, China has adopted emission standards which parallel those adopted by EPA and were phased in from 2011 to 2013. The Company has specific products that meet these standards and are certified for sale in China. Australia has announced that it will be adopting emission standards. These standards are generally expected to be based on the EPA standards, but a timetable for their adoption has not yet been published. The Company does not anticipate that compliance with either of these emission standards will have a material adverse effect on its financial position or operations as they are expected to be substantially similar to the existing standards adopted by EPA, CARB, Canada and the EU.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in foreign exchange rates, commodity prices and interest rates. To reduce the risk from changes in certain foreign exchange rates, commodity prices and interest rates, the Company uses financial instruments. The Company does not hold or issue financial instruments for trading purposes.

Foreign Currency

The Company's earnings are affected by fluctuations in the value of the U.S. Dollar against various currencies. The Company receives Euros for certain products sold to European customers and receives Canadian dollars for certain products sold to Canadian customers. The Yen and Renminbi are used to purchase engines from the Company's joint venture in Japan and the Company's subsidiary in China, respectively. The Company receives Mexican Pesos for certain products sold to the Company's subsidiary in Mexico. The Company's foreign subsidiaries' earnings are also influenced by fluctuations of local currencies, including the Australian dollar and Brazilian Real, against the U.S. dollar as these subsidiaries purchase components and inventory from vendors and the parent in U.S. dollars. Forward foreign exchange contracts are used to partially hedge against the earnings effects of such fluctuations.

At June 28, 2015, the Company had the following forward foreign exchange contracts outstanding with the fair value (gains) losses shown (in thousands):

Hedge Currency	Notional Value	Fair Value	Conversion Currency	(Gain) Loss at Fair Value
Australian Dollar	29,473	\$ 22,329	U.S.	\$ (637)
Brazilian Real	22,443	\$ 7,470	U.S.	\$ (190)
Canadian Dollar	9,326	\$ 7,558	U.S.	\$ (41)
Chinese Renminbi	259,350	\$ 41,127	U.S.	\$ (604)
Euro	62,740	\$ 70,338	U.S.	\$ (2,359)
Japanese Yen	711,000	\$ 5,762	U.S.	\$ 222

Fluctuations in currency exchange rates may also impact the shareholders' investment in the Company. Amounts invested in the Company's non-U.S. subsidiaries and joint ventures are translated into U.S. dollars at the exchange rates in effect at fiscal year-end. The resulting cumulative translation adjustments are recorded in Shareholders' Investment as Accumulated Other Comprehensive Income (Loss). The cumulative translation adjustments component of Shareholders' Investment decreased by \$32.2 million during fiscal

2015. Using the year-end exchange rates, the total amount invested in non-U.S. subsidiaries on June 28, 2015 was approximately \$201.3 million.

Commodity Prices

The Company is exposed to fluctuating market prices for commodities, including steel, natural gas, copper and aluminum. The Company has established programs to manage commodity price fluctuations through contracts that fix the price of certain commodities, some of which are financial derivative instruments. The maturities of these contracts coincide with the expected usage of the commodities for periods up to the next thirty-six months. At June 28, 2015 the Company had the following outstanding commodity derivative contracts with the fair value (gains) losses shown (in thousands):

Hedge Commodity	Notional Value	Fair Value	(Gain) Loss at Fair Value
Natural Gas (Therms)	11,324	\$ 10,697	\$ 627

Interest Rates

The Company is exposed to interest rate fluctuations on its borrowings, depending on general economic conditions. On June 28, 2015, long-term loans consisted of the following (in thousands):

Description	Amount	Maturity	Weighted Average Interest Rate
6.875% Senior Notes	\$ 225,000	December 2020	6.875%

The Senior Notes carry a fixed rate of interest and are therefore not subject to market fluctuation.

The Company is also exposed to interest rate risk associated with programs under which the Company shares the expense of financing certain dealer and distributor inventories through a third party financing source. The Company enters into interest rate swaps to manage a portion of this interest rate risk. The swaps are designated as cash flow hedges and are used to effectively fix the interest payments to a third party financing source, exclusive of lender spreads, ranging from 1.17% to 1.60% for a notional principal amount of \$95 million with expiration dates ranging from July 2017 to May 2019.

The accompanying Notes to Consolidated Financial Statements are an integral part of these statements.

Notes to Consolidated Financial Statements

FOR THE FISCAL YEARS ENDED JUNE 28, 2015, JUNE 29, 2014 AND JUNE 30, 2013

(1) Nature of Operations:

Briggs & Stratton (the "Company") is a U.S. based producer of air cooled gasoline engines and engine powered outdoor equipment. The Company's Engines segment sells engines worldwide, primarily to original equipment manufacturers of lawn and garden equipment and other gasoline engine powered equipment. The Company's Products segment designs, manufacturers and markets a wide range of outdoor power equipment, job site products, and related accessories.

(2) Summary of Significant Accounting Policies:

Fiscal Year: The Company's fiscal year consists of 52 or 53 weeks, ending on the Sunday nearest the last day of June in each year. The 2015, 2014 and 2013 fiscal years were each 52 weeks long. All references to years relate to fiscal years rather than calendar years.

Principles of Consolidation: The consolidated financial statements include the accounts of the Company and its majority owned domestic and foreign subsidiaries after elimination of intercompany accounts and transactions. Investments in companies for which we have significant influence are accounted for by the equity method.

Accounting Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Cash and Cash Equivalents: This caption includes cash, commercial paper and certificates of deposit. The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Receivables: Receivables are recorded at their original carrying value less reserves for estimated uncollectible accounts.

Inventories: Inventories are stated at cost, which does not exceed market. The last-in, first-out (LIFO) method was used for determining the cost of approximately 49% of total inventories at June 28, 2015 and 51% at June 29, 2014. The cost for the remaining inventories was determined using the first-in, first-out (FIFO) method. If the FIFO inventory valuation method had been used exclusively, inventories would have been \$62.6 million and \$64.5 million higher in fiscal 2015 and 2014, respectively. The LIFO inventory adjustment was determined on an overall basis, and accordingly, each class of inventory reflects an allocation based on the FIFO amounts. During 2015, liquidation of LIFO layers generated income of \$1.8 million.

Goodwill and Other Intangible Assets: Goodwill reflects the cost of acquisitions in excess of the fair values assigned to identifiable net assets acquired. Goodwill is assigned to reporting units based upon the expected benefit of the synergies of the acquisition.

Other Intangible Assets reflect identifiable intangible assets that arose from purchase acquisitions. Other Intangible Assets are primarily comprised of tradenames, patents and customer relationships. Goodwill and tradenames, which are considered to have indefinite lives, are not amortized; however, both must be tested for impairment at least annually. Amortization is recorded on a straight-line basis for other intangible assets with finite lives. Patents have been assigned an estimated weighted average useful life of 15 years. The customer relationships have been assigned an estimated useful life of 14 to 25 years. The Company is subject to financial statement risk in the event that goodwill and intangible assets become impaired.

The Company performed the required impairment tests in fiscal 2015, 2014 and 2013. There were no goodwill impairment charges or intangible asset impairment charges recorded in fiscal 2015. The Company recorded non-cash goodwill impairment charges and non-cash intangible asset impairment charges in fiscal 2014 and 2013. Refer to Note 7 for a discussion of the non-cash goodwill impairment charges and the non-cash intangible asset impairment charges recorded in fiscal 2014 and 2013.

Investments: This caption represents the Company's investments in unconsolidated affiliated companies. Combined financial information of the unconsolidated affiliated companies accounted for by the equity method, generally on a lag of 3 months or less, was as follows (in thousands):

Results of operations of unconsolidated affiliated companies for the fiscal year (in thousands):

	2015	2014	2013
Results of Operations:			
Sales	\$ 219,904	\$ 143,007	\$ 113,452
Cost of Goods Sold	173,603	116,158	92,844
Gross Profit	<u>\$ 46,301</u>	<u>\$ 26,849</u>	<u>\$ 20,608</u>
Net Income	<u>\$ 14,957</u>	<u>\$ 13,653</u>	<u>\$ 8,057</u>

Balance sheets of unconsolidated affiliated companies as of fiscal year-end (in thousands):

	2015	2014
Financial Position:		
Assets:		
Current Assets	\$ 99,596	\$ 76,811
Noncurrent Assets	43,555	28,106
	<u>143,151</u>	<u>104,917</u>
Liabilities:		
Current Liabilities	\$ 36,630	\$ 22,990
Noncurrent Liabilities	9,859	1,779
	<u>46,489</u>	<u>24,769</u>
Equity	<u>\$ 96,662</u>	<u>\$ 80,148</u>

Net sales to equity method investees were approximately \$60.1 million, \$18.7 million and \$1.0 million in 2015, 2014 and 2013, respectively. Purchases of finished products from equity method investees were approximately \$104.7 million, \$102.4 million and \$107.0 million in 2015, 2014 and 2013, respectively.

During the third quarter of fiscal 2014, the Company joined with one of its independent distributors to form a venture to distribute service parts. The Company contributed non-cash assets in exchange for receiving an ownership interest in the venture. As a result of the transaction, the Company recorded an investment of \$6.5 million. In the first quarter of fiscal 2015, a second independent distributor joined the venture and, as a result, the Company recorded an additional investment of \$2.8 million. During the second quarter of fiscal 2015, the venture acquired a third independent distributor. The Company uses the equity method to account for this investment, and the earnings of the unconsolidated affiliate are recorded within the Products Segment. As of June 28, 2015, the Company's total investment in the venture was \$10.0 million, and its ownership percentage was 11.9%. Subsequent to fiscal 2015, the venture added a fourth independent distributor through an acquisition.

Debt Issuance Costs: Direct and incremental costs incurred in obtaining loans or in connection with the issuance of long-term debt are capitalized and amortized to interest expense over the terms of the related credit agreements. Approximately \$1.0 million, \$1.0 million and \$1.0 million of debt issuance costs and original issue discounts were amortized to interest expense during fiscal years 2015, 2014 and 2013, respectively.

Plant and Equipment and Depreciation: Plant and equipment are stated at historical cost. For financial reporting purposes, plant and equipment are depreciated primarily by the straight line method over the estimated useful lives of the assets which generally range from 3 to 10 years for software, from 20 to 40 years for land improvements, from 20 to 50 years for buildings, and 3 to 20 years for machinery and equipment. Expenditures for repairs and maintenance are charged to expense as incurred. Expenditures for major renewals and betterments, which significantly extend the useful lives of existing plant and equipment,

are capitalized and depreciated. Upon retirement or disposition of plant and equipment, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in cost of goods sold.

Depreciation expense was approximately \$48.5 million, \$47.2 million and \$52.3 million during fiscal years 2015, 2014 and 2013, respectively.

Impairment of Property, Plant and Equipment: Property, plant and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the sum of the expected undiscounted cash flows is less than the carrying value of the related asset or group of assets, a loss is recognized for the difference between the fair value and carrying value of the asset or group of assets. Refer to Note 18 for impairments associated with restructuring actions.

Warranty: The Company recognizes the cost associated with its standard warranty on engines and products at the time of sale. The general warranty period begins at the time of sale and typically covers two years, but may vary due to product type and geographic location. The amount recognized is based on historical failure rates and current claim cost experience. The following is a reconciliation of the changes in accrued warranty costs for the reporting period (in thousands):

	2015	2014
Balance, Beginning of Period	\$ 44,744	\$ 45,037
Payments	(27,366)	(28,377)
Provision for Current Year Warranties	30,673	29,087
Changes in Estimates	(44)	(1,003)
Balance, End of Period	<u>\$ 48,007</u>	<u>\$ 44,744</u>

Revenue Recognition: Net sales include sales of engines, products, and related service parts and accessories, net of allowances for cash discounts, customer volume rebates and discounts, floor plan interest and advertising allowances. The Company recognizes revenue when all of the following criteria are met: persuasive evidence of an arrangement exists, delivery has occurred, the price is fixed or determinable, and collectibility is reasonably assured. This is generally upon shipment, except for certain international shipments, where revenue is recognized when the customer receives the product.

Included in net sales are costs associated with programs under which the Company shares the expense of financing certain dealer and distributor inventories, referred to as floor plan expense. This represents interest for a pre-established length of time based on a variable rate (LIBOR) plus a fixed percentage from a contract with a third party financing source for dealer and distributor inventory purchases. Sharing the cost of these financing arrangements is used by the Company as a marketing incentive for customers to purchase the Company's products to have floor stock for retail customers to purchase. The Company enters into interest rate swaps to hedge cash flows for a portion of its interest rate risk. The financing costs, net of the related gain or loss on interest rate swaps, are recorded at the time of sale as a reduction of net sales. Included in net sales in fiscal 2015, 2014 and 2013 were financing costs, net of the related gain or loss on interest rate swaps, of \$6.0 million, \$5.5 million and \$6.3 million, respectively.

The Company also offers a variety of customer rebates and sales incentives. The Company records estimates for rebates and incentives at the time of sale, as a reduction in net sales.

Income Taxes: The provision for income taxes includes federal, state and foreign income taxes currently payable and those deferred because of temporary differences between the financial statement and tax bases of assets and liabilities. The deferred income tax asset represents temporary differences relating to current assets and current liabilities, and the long-term deferred income tax asset represents temporary differences related to noncurrent assets and liabilities. A valuation allowance is recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized.

Retirement Plans: The Company has noncontributory, defined benefit retirement plans and postretirement benefit plans covering certain employees. Retirement benefits represent a form of deferred compensation,

which are subject to change due to changes in assumptions. Management reviews underlying assumptions on an annual basis. Refer to Note 17.

Research and Development Costs: Expenditures relating to the development of new products and processes, including significant improvements and refinements to existing products, are expensed as incurred and recorded in engineering, selling, general and administrative expenses within the Consolidated Statements of Operations. The amounts charged against income were \$19.9 million, \$19.7 million and \$18.5 million in fiscal 2015, 2014 and 2013, respectively.

Advertising Costs: Advertising costs, included in engineering, selling, general and administrative expenses within the Consolidated Statements of Operations, are expensed as incurred. These expenses totaled \$17.5 million in fiscal 2015, \$18.5 million in fiscal 2014 and \$17.7 million in fiscal 2013.

Shipping and Handling Fees: Revenue received from shipping and handling fees is reflected in net sales and related shipping costs are recorded in cost of goods sold. Shipping fee revenue for fiscal 2015, 2014 and 2013 was \$6.6 million, \$4.4 million and \$4.9 million, respectively.

Foreign Currency Translation: Foreign currency balance sheet accounts are translated into dollars at the rates of exchange in effect at fiscal year-end. Income and expenses incurred in a foreign currency are translated at the average rates of exchange in effect during the year. The related translation adjustments are made directly to a separate component of Shareholders' Investment. During fiscal 2013, the Company recorded a charge of \$4.2 million of foreign currency translation primarily recognized in connection with the substantial liquidation of the Company's investment in the Ostrava, Czech Republic entity, which was related to previously announced restructuring actions. Foreign currency transaction gains and losses are included in the results of operations in the period incurred. The Company recorded pre-tax foreign currency transaction gains of \$3.7 million in fiscal 2015 and losses of \$3.9 million, and \$4.1 million during fiscal 2014 and 2013, respectively.

Earnings (Loss) Per Share: The Company computes earnings per share using the two-class method, an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. The Company's unvested grants of restricted stock and deferred stock awards contain non-forfeitable rights to dividends (whether paid or unpaid), which are required to be treated as participating securities and included in the computation of basic earnings per share.

Information on earnings (loss) per share is as follows (in thousands except per share data):

	Fiscal Year Ended		
	June 28, 2015	June 29, 2014	June 30, 2013
Net Income (Loss)	\$ 45,687	\$ 28,347	\$ (33,657)
Less: Earnings Allocated to Participating Securities	(1,154)	(768)	(605)
Net Income (Loss) available to Common Shareholders	<u>\$ 44,533</u>	<u>\$ 27,579</u>	<u>\$ (34,262)</u>
Average Shares of Common Stock Outstanding	44,392	46,366	47,172
Incremental Common Shares Applicable to Common Stock Options and Performance Shares Based on the Common Stock Average Market Price During the Period	50	70	—
Diluted Average Shares of Common Stock Outstanding	<u>44,442</u>	<u>46,436</u>	<u>47,172</u>
Basic Earnings (Loss) Per Share	\$ 1.00	\$ 0.59	\$ (0.73)
Diluted Earnings (Loss) Per Share	\$ 1.00	\$ 0.59	\$ (0.73)

The dilutive effect of the potential exercise of outstanding stock-based awards to acquire common shares is calculated using the treasury stock method. The following options to purchase shares of common stock were excluded from the calculation of diluted earnings per share as the exercise prices were greater than the average market price of the common shares, and their inclusion in the computation would be antidilutive:

	Fiscal Year Ended		
	June 28, 2015	June 29, 2014	June 30, 2013
Options to Purchase Shares of Common Stock (in thousands).....	784	916	1,590
Weighted Average Exercise Price of Options Excluded	\$ 20.37	\$ 29.62	\$ 34.13

As a result of the Company incurring a net loss for the fiscal year ended June 30, 2013, potential incremental common shares of 1,126,000 were excluded from the calculation of diluted earnings (loss) for fiscal 2013 because the effect would have been anti-dilutive.

Derivative Instruments & Hedging Activity: The Company enters into derivative contracts designated as cash flow hedges to manage certain interest rate, foreign currency and commodity exposures. Company policy allows derivatives to be used only for identifiable exposures and, therefore, the Company does not enter into derivative instruments for trading purposes where the sole objective is to generate profits.

The Company formally designates the financial instrument as a hedge of a specific underlying exposure and documents both the risk management objectives and strategies for undertaking the hedge. The Company formally assesses, both at the inception and at least quarterly thereafter, whether the financial instruments that are used in hedging transactions are effective at offsetting changes in the forecasted cash flows of the related underlying exposure. Because of the high degree of effectiveness between the hedging instrument and the underlying exposure being hedged, fluctuations in the value of the derivative instruments are generally offset by changes in the forecasted cash flows of the underlying exposures being hedged. Derivative financial instruments are recorded on the Consolidated Balance Sheets as assets or liabilities, measured at fair value. The effective portion of gains or losses on derivatives designated as cash flow hedges are reported as a component of Accumulated Other Comprehensive Income (Loss) (AOCI) and reclassified into earnings in the same periods during which the hedged transaction affects earnings. Any ineffective portion of a financial instrument's change in fair value is immediately recognized in earnings.

The Company discontinues hedge accounting prospectively when it determines that the derivative is no longer effective in offsetting cash flows attributable to the hedged risk, the derivative expires or is sold, terminated, or exercised, the cash flow hedge is dedesignated because a forecasted transaction is not probable of occurring, or management determines to remove the designation of the cash flow hedge.

In all situations in which hedge accounting is discontinued and the derivative remains outstanding, the Company continues to carry the derivative at its fair value on the balance sheet and recognizes any subsequent changes in its fair value in earnings. When it is probable that a forecasted transaction will not occur, the Company discontinues hedge accounting and recognizes immediately in earnings gains and losses that were accumulated in other comprehensive income related to the hedging relationship.

(3) New Accounting Pronouncements:

In May 2015, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, "Fair Value Measurement (Topic 820)." The core principle of the guidance is to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The guidance also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. This guidance is effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. A reporting entity should apply the guidance retrospectively to all periods presented. Earlier application is permitted. The Company adopted ASU No. 2015-07 beginning with the fiscal year ended June 28, 2015. In Note 17, certain investments within the Company's pension plan assets that are measured at fair value using the net asset value per share practical expedient have not been classified in the fair value hierarchy. The adoption of this ASU did not have any impact on the Company's results of operations, financial position, and cash flow.

In May 2014, the Financial Accounting Standard Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers (Topic 606)." The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, under either full or modified retrospective adoption. Early application is only permitted for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. The Company is currently assessing the potential impact of this new accounting pronouncement on the Company's results of operations, financial position, and cash flow.

(4) Accumulated Other Comprehensive Income (Loss):

The following tables set forth the changes in accumulated other comprehensive income (loss) (in thousands):

	Fiscal Year Ended June 28, 2015			
	Cumulative Translation Adjustments	Derivative Financial Instruments	Pension and Postretirement Benefit Plans	Total
Beginning Balance	\$ 13,053	\$ (1,084)	\$ (207,226)	\$ (195,257)
Other Comprehensive Income (Loss) Before Reclassification	(32,170)	13,280	(101,366)	(120,256)
Income Tax Benefit (Expense)	—	(4,980)	38,012	33,032
Net Other Comprehensive Income (Loss) Before Reclassifications	(32,170)	8,300	(63,354)	(87,224)
Reclassifications:				
Realized (Gains) Losses - Foreign Currency Contracts (1)	—	(11,350)	—	(11,350)
Realized (Gains) Losses - Commodity Contracts (1)	—	521	—	521
Realized (Gains) Losses - Interest Rate Swaps (1)	—	1,222	—	1,222
Amortization of Prior Service Costs (Credits) (2)	—	—	(2,578)	(2,578)
Amortization of Actuarial Losses (2)	—	—	17,578	17,578
Total Reclassifications Before Tax	—	(9,607)	15,000	5,393
Income Tax Expense (Benefit)	—	3,603	(5,625)	(2,022)
Net Reclassifications	—	(6,004)	9,375	3,371
Other Comprehensive Income (Loss)	(32,170)	2,296	(53,979)	(83,853)
Ending Balance	\$ (19,117)	\$ 1,212	\$ (261,205)	\$ (279,110)

(1) Amounts reclassified to net income are included in net sales or cost of goods sold. See Note 16 for information related to derivative financial instruments.

(2) Amounts reclassified to net income are included in the computation of net periodic expense, which is presented in cost of goods sold or engineering, selling, general and administrative expenses. See Note 17 for information related to pension and postretirement benefit plans.

Fiscal Year Ended June 29, 2014

	Cumulative Translation Adjustments	Derivative Financial Instruments	Pension and Postretirement Benefit Plans	Total
Beginning Balance	\$ 11,885	\$ (3,673)	\$ (233,140)	\$ (224,928)

Ending Balance	\$ 11,885	\$ (3,673)	\$ (233,140)	\$ (224,928)

(1) Amounts reclassified to net income are included in net sales or cost of goods sold. See Note 16 for information related to derivative financial instruments.

(2) Amounts reclassified to net income are included in the computation of net periodic expense, which is presented in cost of goods sold or engineering, selling, general and administrative expenses. See Note 17 for information related to pension and postretirement benefit plans.

(5) Acquisitions:

On December 7, 2012, Briggs & Stratton Representação de Motores e Produtos de Força do Brasil Ltda., a wholly-owned subsidiary of the Company, acquired all of the common stock of Companhia Caetano Branco ("Branco") of Sao Jose dos Pinhais, Brazil for a total cash consideration of \$59.6 million, net of cash acquired. Branco is a leading brand in the Brazilian light power equipment market with a broad range of outdoor power equipment used primarily in light commercial applications. Its products, including generators, water pumps, light construction equipment and diesel engines, are sold through its independent network of over 1,200 dealers throughout Brazil. The Company recorded a purchase price allocation during fiscal 2013 based on its estimates of fair value. At June 30, 2013, the purchase price allocation resulted in the recognition of \$15.3 million of goodwill, of which \$4.6 million and \$10.7 million were allocated to the Engines segment and Products segment, respectively, and \$24.0 million of intangible assets, including \$14.6 million of customer relationships and \$9.4 million of tradenames.

On August 29, 2014, the Company acquired all of the outstanding shares of Allmand Bros., Inc. ("Allmand") of Holdrege, Nebraska for total cash consideration of \$59.9 million, net of cash acquired. Allmand is a leading designer and manufacturer of high quality towable light towers, industrial heaters, and solar LED arrow boards. Its products are used in a variety of industries, including construction, roadway, oil and gas, mining, and sporting and special events. Allmand's products are generally powered by diesel engines, and distributed through national and regional equipment rental companies, equipment dealers and distributors. Allmand sells

its products and service parts in approximately 40 countries. During fiscal 2015, the Company recorded a purchase price allocation based on its estimates of fair value. At June 28, 2015, the purchase price allocation resulted in the recognition of \$15.6 million of goodwill, which was allocated to the Products segment, and \$24.1 million of intangible assets, including \$15.7 million of customer relationships, \$8.1 million of tradenames, and \$0.3 million of other intangible assets.

On May 20, 2015, the Company acquired all of the outstanding shares of Billy Goat Industries, Inc. ("Billy Goat") of Lee's Summit, Missouri for total cash consideration of \$28.3 million, net of cash acquired, subject to customary post closing working capital adjustments. Billy Goat is a leading manufacturer of specialty turf equipment, which includes aerators, sod cutters, overseeders, power rakes, brush cutters, walk behind blowers, lawn vacuums, and debris loaders. During fiscal 2015, the Company recorded a preliminary purchase price allocation based on its estimates of fair value. The preliminary purchase price allocation resulted in the recognition of \$9.2 million of goodwill, which was allocated to the Products segment, and \$16.4 million of intangible assets, including \$12.0 million of customer relationships, \$4.0 million of tradenames, and \$0.4 million of other intangible assets.

The results of operations of the acquisitions have been included in the Consolidated Condensed Statements of Operations since the date of acquisition. Pro forma financial information and allocation of the purchase price are not presented as the effects of the acquisitions are not material to the Company's consolidated results of operations or financial position.

(6) Fair Value:

Assets and Liabilities Measured at Fair Value:

The following guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-driven valuations whose inputs are observable or whose significant value drivers are observable.

Level 3: Significant inputs to the valuation model are unobservable.

The following table presents information about the Company's financial assets and liabilities measured at fair value on a recurring basis as of June 28, 2015 and June 29, 2014 (in thousands):

	June 28, 2015	Fair Value Measurement Using		
		Level 1	Level 2	Level 3
Assets:				
Derivatives	\$ 4,693	\$ —	\$ 4,693	\$ —
Liabilities:				
Derivatives	\$ 2,745	\$ —	\$ 2,745	\$ —

	June 29, 2014	Fair Value Measurement Using		
		Level 1	Level 2	Level 3
Assets:				
Derivatives	\$ 431	\$ —	\$ 431	\$ —
Liabilities:				
Derivatives	\$ 1,932	\$ —	\$ 1,932	\$ —

The fair value for Level 2 measurements are based upon the respective quoted market prices for comparable instruments in active markets, which include current market pricing for forward purchases of commodities, foreign currency forwards, and current interest rates.

The Company has currently chosen not to elect the fair value option for any items that are not already required to be measured at fair value in accordance with accounting principles generally accepted in the United States.

Fair Value of Financial Instruments:

The Company believes that the carrying values of cash and cash equivalents, trade receivables and accounts payable are reasonable estimates of their fair values at June 28, 2015 and June 29, 2014 due to the short-term nature of these instruments. The estimated fair value of the 6.875% Senior Notes due December 2020 is based on quoted market prices for similar instruments and is, therefore, classified as Level 2 within the valuation hierarchy.

The estimated fair market values of the Company's Long-Term Debt is (in thousands):

	2015		2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-Term Debt				
6.875% Senior Notes	\$ 225,000	\$ 248,292	\$ 225,000	\$ 251,438
Borrowings on Revolver	\$ —	\$ —	\$ —	\$ —

(7) Goodwill and Other Intangible Assets:

The changes in the carrying amount of goodwill by reporting segment for the fiscal years ended June 28, 2015 and June 29, 2014 are as follows (in thousands):

	Engines	Products	Total
Goodwill Balance at June 30, 2013	\$ 140,937	\$ 6,415	\$ 147,352
Impairment Loss	—	(2,960)	(2,960)
Effect of Translation	125	5	130
Goodwill Balance at June 29, 2014	\$ 141,062	\$ 3,460	\$ 144,522
Acquisitions	—	24,770	24,770
Effect of Translation	(2,781)	(989)	(3,770)
Goodwill Balance at June 28, 2015	\$ 138,281	\$ 27,241	\$ 165,522

At June 28, 2015, June 29, 2014 and June 30, 2013, accumulated goodwill impairment losses, as recorded in the Products segment, were \$123.7 million, \$123.7 million and \$120.8 million respectively.

The Company evaluates goodwill for impairment at least annually as of the fiscal year-end or more frequently if events or circumstances indicate that the assets may be impaired. Generally, the Company first determines based on a qualitative assessment whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If the Company concludes that it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company will test goodwill using a two-step process. The first step of the goodwill impairment test is to compare the carrying values of each of the Company's reporting units to their estimated fair values as of the test dates. If the fair value of the reporting unit exceeds its carrying amount, goodwill is not considered impaired. If the book value of a reporting unit exceeds its fair value, the second step of the goodwill impairment test is performed, which compares the implied fair value of the reporting unit's goodwill with the carrying amount of that goodwill. If the carrying amount is in excess of the implied fair value, goodwill is considered to be impaired. The estimates of fair value of the reporting units are computed using an income approach. The income approach utilizes a multi-year forecast of estimated cash flows and a terminal value at the end of the cash flow period. The forecast period assumptions consist of internal projections that are based on the Company's budget and long-range strategic plan. The discount rate

used at the test date is the weighted-average cost of capital which reflects the overall level of inherent risk of the reporting unit and the rate of return an outside investor would expect to earn.

In fiscal 2013, the Company recorded a non-cash goodwill impairment charge of \$71.3 million, which was determined by comparing the carrying value of the Products reporting unit goodwill with the implied fair value of goodwill for the reporting unit. Based on a combination of factors, predominantly driven by a slower than anticipated recovery of the North American lawn and garden market at that time and the operating results of the Products segment during the previous years leading up to the impairments which lacked the benefit of certain weather related events that would have been favorable to the business, the Company's forecasted cash flow estimates used in the goodwill assessment as of June 30, 2013 were adversely impacted. As a result, the Company concluded that the carrying value amounts of the Products reporting unit exceeded its fair value as of June 30, 2013. The impairment charge was a non-cash expense that was recorded as a separate component of operating expenses. The impairment charge did not adversely affect the Company's debt position, cash flow, liquidity or compliance with financial covenants under its revolving credit facility.

The Company's other intangible assets as of June 28, 2015 and June 29, 2014 are as follows (in thousands) in the table below. After an intangible asset has been fully amortized, it is removed from the table in the subsequent year.

	2015			2014		
	Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
<u>Amortized Intangible Assets:</u>						
Patents	\$ 7,300	\$ (5,353)	\$ 1,947	\$ 13,601	\$ (11,167)	\$ 2,434
Customer Relationships	60,182	(10,840)	49,342	32,539	(8,610)	23,929
Other Intangible Assets	739	(98)	641	—	—	—
Effect of Translation	(5,071)	547	(4,524)	(991)	(49)	(1,040)

<u>Unamortized Intangible Assets:</u>						
Tradenames	67,111	—	67,111	55,016	—	55,016
Effect of Translation	(3,237)	—	(3,237)	(22)	—	(22)
Total Unamortized Intangible Assets	<u>63,874</u>	<u>—</u>	<u>63,874</u>	<u>54,994</u>	<u>—</u>	<u>54,994</u>
Total Intangible Assets.....	<u>\$ 127,024</u>	<u>\$ (15,744)</u>	<u>\$ 111,280</u>	<u>\$ 100,143</u>	<u>\$ (19,826)</u>	<u>\$ 80,317</u>

The Company also performs an impairment test of its indefinite-lived intangible assets as of the fiscal year-end or more frequently if events or circumstances indicate that the assets may be impaired. For purposes of the indefinite-lived intangible asset impairment analysis, the Company performs its assessment of fair value based on an income approach using the relief-from-royalty method. The Company determines the fair value of each tradename by applying a royalty rate to a projection of net sales discounted using a risk adjusted cost of capital. Sales growth rates are determined after considering current and future economic conditions, recent sales trends, discussions with customers, planned timing of new product launches and many other variables. Each royalty rate is based on profitability of the business to which it relates and observed market royalty rates.

In fiscal 2015, the Company determined that no intangible asset impairment existed. In fiscal 2014 and fiscal 2013, the Company recorded non-cash intangible asset impairment charges of \$5.5 million and \$18.8 million, respectively. Based on a combination of factors, predominantly driven by a slower than anticipated recovery of the North American lawn and garden market at that time, the Company's forecasted cash flow estimates used in the other intangible assets assessment as of June 29, 2014 and June 30, 2013 were adversely impacted. As a result, the Company concluded that the carrying value of a tradename within the Products reporting unit exceeded its fair value as of June 29, 2014 and June 30, 2013. The impairment charges did not adversely affect the Company's debt position, cash flow, liquidity or compliance with financial covenants under its revolving credit facility.

Amortization expense of other intangible assets amounted to approximately \$2.8 million in 2015, \$2.2 million in 2014, and \$2.5 million in 2013.

The estimated amortization expense of other intangible assets for the next five years is (in thousands):

Other Accrued Liabilities	11,432	12,191
Net Operating Loss/State Credit Carryforwards	—	585
Miscellaneous	3,814	5,143
Deferred Income Tax Asset (Liability)	<u>\$ 45,871</u>	<u>\$ 48,958</u>
Long-Term Asset (Liability):		
Difference Between Book and Tax Related to:		
Pension Cost	\$ 53,237	\$ 25,272
Accumulated Depreciation	(43,484)	(45,397)
Intangibles	(58,180)	(43,062)
Accrued Employee Benefits	43,428	44,827
Postretirement Health Care Obligation	15,838	22,530
Warranty	6,910	6,718
Valuation Allowance	(17,198)	(15,241)
Net Operating Loss/State Credit Carryforwards	22,694	19,629
Miscellaneous	(1,016)	(98)
Deferred Income Tax Asset (Liability)	<u>\$ 22,229</u>	<u>\$ 15,178</u>

Total deferred tax assets were \$170.8 million and \$152.7 million as of June 28, 2015 and June 29, 2014, respectively. Total deferred tax liabilities were \$102.7 million and \$88.6 million as of June 28, 2015 and June 29, 2014, respectively. During fiscal 2015, the total valuation allowance increased by \$2.0 million.

Deferred tax assets were generated during the current year as a result of foreign income tax loss carryforwards in the amount of \$1.6 million. At June 28, 2015, there are \$5.3 million of foreign income tax loss carryforwards, consisting of \$3.1 million which have no expiration date, and \$2.2 million which will expire within the next 6 to 10 years. A deferred tax asset of \$17.4 million exists at June 28, 2015 related to state income tax losses and state tax credit carryforwards. If not utilized against future taxable income, this amount will expire from 2016 through 2028. Realization of the deferred tax assets are contingent upon generating sufficient taxable income prior to expiration of these carryforwards. At June 28, 2015, a valuation allowance of \$3.8 million is recorded for the foreign losses which the Company believes are unlikely to be realized in the future. In addition, a valuation allowance of \$13.4 million is recorded related to state tax credits that are unlikely to be realized.

The Company does not record deferred income taxes applicable to undistributed earnings of foreign subsidiaries for which the Company intends to reinvest such earnings indefinitely outside of the U.S. The undistributed earnings amounted to approximately \$70.4 million at June 28, 2015. If the Company were to distribute these earnings, foreign tax credits may become available under current law to reduce the resulting

U.S. income tax. Determination of the amount of unrecognized deferred tax liability related to these earnings is not practicable.

The change to the gross unrecognized tax benefits of the Company during the fiscal year ended June 28, 2015 and June 29, 2014 is reconciled as follows:

Unrecognized Tax Benefits (in thousands):

	2015	2014	2013
Beginning Balance	\$ 7,657	\$ 6,949	6,717
Changes based on tax positions related to prior year	4,573	380	—
Additions based on tax positions related to current year	691	378	997
Settlements with taxing authorities	(2,120)	—	(39)
Lapse of statute of limitations	(250)	(50)	(726)
Ending Balance	\$ 10,551	\$ 7,657	\$ 6,949

As of June 28, 2015, gross unrecognized tax benefits that, if recognized, would impact the effective tax rate were \$8.4 million. Of that amount, there is a reasonable possibility that approximately \$0.2 million of the current remaining unrecognized tax benefits may be recognized within the next twelve months due to the resolution of audits or expiration of statutes of limitations.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. The total expense recognized for fiscal years 2015, 2014 and 2013 was \$0.1 million, \$0.1 million, and \$0.2 million, respectively.

As of June 28, 2015 and June 29, 2014, the Company had \$1.2 million and \$1.2 million, respectively, accrued for the payment of interest and penalties.

At June 28, 2015 and June 29, 2014, the liability for uncertain tax positions, inclusive of interest and penalties, was \$11.8 million and \$8.8 million, respectively, which is recorded as an other long-term liability within the Consolidated Balance Sheets.

Income tax returns are filed in the U.S., state, and foreign jurisdictions and related audits occur on a regular basis. In the U.S., the Company is currently under audit for the fiscal years 2010 and 2013, and is no longer subject to U.S. federal income tax examinations before fiscal 2010. The Company is also currently under audit by various state and foreign jurisdictions. The Company is no longer subject to tax examinations before fiscal 2005 in its major foreign jurisdictions.

(9) Segment and Geographic Information and Significant Customers:

The Company aggregates operating segments that have similar economic characteristics, products, production processes, types or classes of customers and distribution methods into reportable segments. The Company concluded that it operates two reportable segments: Engines and Products. Beginning in fiscal 2015, the Company is using "segment income (loss)" as the primary measure to evaluate operating performance and allocate capital resources for the Engines and Products segments. Previously, the Company used income (loss) from operations. Segment income (loss) is defined as income (loss) from operations plus equity in earnings of unconsolidated affiliates. The Company has recast prior year amounts for comparability. Summarized segment data is as follows (in thousands):

	2015	2014	2013
NET SALES:			
Engines	\$ 1,208,914	\$ 1,219,627	\$ 1,189,674

	<u>\$ 494,468</u>	<u>26%</u>	<u>\$ 528,366</u>	<u>29%</u>	<u>\$ 492,131</u>	<u>26%</u>

(10) Leases:

The Company leases certain facilities, vehicles, and equipment under operating leases. Operating leases are not capitalized and lease payments are expensed over the life of the lease. Terms of the leases, including purchase options, renewals, and maintenance costs, vary by lease. Rental expense for fiscal 2015, 2014 and 2013 was \$19.5 million, \$20.1 million and \$22.8 million, respectively.

Future minimum lease commitments for all non-cancelable operating leases as of June 28, 2015 are as follows (in thousands):

Fiscal Year	Operating
2016	\$ 14,661
2017	10,759
2018	8,732
2019	5,358
2020	3,389
Thereafter	27,655
Total future minimum lease commitments	\$ 70,554

(11) Indebtedness:

The following is a summary of the Company's indebtedness (in thousands):

	2015	2014
Multicurrency Credit Agreement	\$ —	\$ —
6.875% Senior Notes	225,000	225,000
Total Long-Term Debt.....	\$ 225,000	\$ 225,000

6.875% Senior Notes

On December 15, 2010, the Company issued \$225 million of 6.875% Senior Notes due December 15, 2020 ("Senior Notes").

Additionally, under the terms of the indentures and credit agreements governing the Senior Notes, Briggs & Stratton Power Products Group, LLC became a joint and several guarantor of amounts outstanding under the Senior Notes. Refer to Note 20 for subsidiary guarantor financial information.

Multicurrency Credit Agreement

On October 21, 2013, the Company entered into an amendment to its \$500 million multicurrency credit agreement (the "Revolver"), which among other things, extended the maturity of the Revolver to October 21, 2018. The initial maximum availability under the Revolver is \$500 million. Availability under the Revolver is reduced by outstanding letters of credit. The Company may from time to time increase the maximum availability under the Revolver by up to \$250 million if certain conditions are satisfied. In connection with the amendment to the Revolver in fiscal 2014, the Company incurred approximately \$0.9 million in new debt issuance costs, which are being amortized over the life of the Revolver using the straight-line method. There were no borrowings under the Revolver as of June 28, 2015 and June 29, 2014.

Borrowings under the Revolver by the Company bear interest at a rate per annum equal to, at its option, either:

(1) a 1, 2, 3 or 6 month LIBOR rate plus a margin varying from 1.25% to 2.25%, depending on the Company's average net leverage ratio; or

(2) the higher of (a) the federal funds rate plus 0.50%; (b) the bank's prime rate; or (c) the Eurocurrency rate for a one-month interest period plus 1.00%. In addition, the Company is subject to a 0.18% to 0.38% commitment fee and a 1.25% to 2.25% letter of credit fee, depending on the Company's average net leverage ratio.

The Revolver contains covenants that the Company considers usual and customary for an agreement of this type, including a maximum average leverage ratio and minimum interest coverage ratio. Under the terms of the Revolver, Briggs & Stratton Power Products Group, LLC became a joint and several guarantor of amounts outstanding under the Revolver. Refer to Note 20 for subsidiary guarantor financial information.

The Revolver and the Senior Notes contain restrictive covenants. These covenants include restrictions on the Company's ability to: pay dividends; repurchase shares; incur indebtedness; create liens; enter into sale and leaseback transactions; consolidate or merge with other entities; sell or lease all or substantially all of its assets; and dispose of assets or use proceeds from sales of its assets. The Revolver contains financial covenants that require the Company to maintain a minimum interest coverage ratio and impose a maximum average leverage ratio.

Foreign Lines of Credit

At June 28, 2015 and June 29, 2014, the Company did not have any foreign lines of credit.

(12) Other Income, Net:

The components of Other Income, Net are as follows (in thousands):

	2015	2014	2013
Interest Income	\$ 1,317	\$ 1,540	\$ 888
Equity in Earnings of Unconsolidated Affiliates	7,303	6,264	4,244
Other Items	1,687	1,538	1,809
Total	<u>\$ 10,307</u>	<u>\$ 9,342</u>	<u>\$ 6,941</u>

(13) Commitments and Contingencies:

The Company is subject to various unresolved legal actions that arise in the normal course of its business. These actions typically relate to product liability (including asbestos-related liability), patent and trademark matters, and disputes with customers, suppliers, distributors and dealers, competitors and employees.

On March 19, 2010, plaintiffs filed a complaint in the Ontario Superior Court of Justice in Canada (*Robert Foster et al. v. Sears Canada, Inc. et al.*, Court File No. 766-2010) against the Company and other engine and lawnmower manufacturers alleging that the horsepower labels on the products they purchased were inaccurate and that the Company conspired with other engine and lawnmower manufacturers to conceal the true horsepower of these engines. On May 3, 2010, other plaintiffs filed a similar complaint in the Montreal Superior Court in Canada (*Eric Liverman, et al. v. Deere & Company, et al.*, Court File No. 500-06-000507-109). Both proceedings were based on various theories of Canadian law and sought unspecified damages. On June 27, 2013, the Company entered into a Canadian Lawnmower Class Action National Settlement Agreement ("Settlement") that resolved all horsepower claims brought by all persons in Canada who purchased lawn mowers in Canada during the class period (defined as January 1, 1994 through December 31, 2012), except certain specified persons. The Settlement was approved by the Ontario Court and the Quebec Court in September 2013, and all payments required by the Company have been made. As a result of the Settlement, the Company recorded a total charge of \$1.9 million as a litigation settlement expense on the Statement of Operations in the fourth quarter of fiscal year 2013.

On May 14, 2010, the Company notified retirees and certain retirement eligible employees of various amendments to the Company-sponsored retiree medical plans intended to better align the plans offered to both hourly and salaried retirees. On August 16, 2010, a putative class of retirees who retired prior to August 1, 2006 and the United Steel Workers filed a complaint in the U.S. District Court for the Eastern District of Wisconsin (Merrill, Weber, Carpenter, et al.; United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO/CLC v. Briggs & Stratton Corporation; Group Insurance Plan of Briggs & Stratton Corporation; and Does 1 through 20, Docket No. 10-C-0700), contesting the Company's right to make these changes. The complaint seeks an injunction preventing the alleged unilateral termination or reduction in insurance coverage to the class of retirees, a permanent injunction preventing defendants from ever making changes to the retirees' insurance coverage, restitution with interest (if applicable) and attorneys' fees and costs. A class has been certified, and discovery

has concluded. Both parties moved for summary judgment, which was fully briefed on December 23, 2014. Summary judgment is currently pending before the court, and no hearing date or trial date has been set.

On May 12, 2010, Exmark Manufacturing Company, Inc. ("Exmark") filed suit against Briggs & Stratton Power Products Group, LLC (Case No. 8:10CV187, U.S. District Court for the District of Nebraska), alleging that certain Ferris® and Snapper Pro® mower decks infringe an Exmark mower deck patent. Exmark is seeking damages relating to sales since 2004 and attorneys' fees. As a result of a reexamination proceeding in 2012, the United States Patent and Trademark Office (the "USPTO") initially rejected the asserted Exmark claims as invalid. However, that decision was reversed by the USPTO on appeal. Following discovery, each of the Company and Exmark filed motions for summary judgment, which were decided by the Court on July 28, 2015. The Court concluded that one of the Company's mower deck designs infringed Exmark's patent, leaving for trial the issues of whether another of the designs infringes, damages and willfulness of the Company's conduct. Trial is scheduled to begin on September 8, 2015. The Company believes it has strong defenses and intends to defend the lawsuit vigorously, through appeal if necessary. At this stage, the Company cannot make a reasonable estimate of the possible loss, if any, arising from this lawsuit as there are significant issues to be resolved in connection with the trial.

Although it is not possible to predict with certainty the outcome of these unresolved legal actions or the range of possible loss, the Company believes the unresolved legal actions will not have a material adverse effect on its results of operations, financial position or cash flows.

(14) Stock Incentives:

Effective October 20, 2004, a total of 8,000,000 shares of common stock (as adjusted for the fiscal 2005 2-for-1 stock split) were originally reserved for future issuance pursuant to the Company's Incentive Compensation Plan, and as a result of an amendment approved by shareholders on October 21, 2009 an additional 2,481,494 shares were reserved. On October 15, 2014, the Company's shareholders approved the 2014 Omnibus Incentive Plan, which constituted a complete amendment and restatement of the Company's Incentive Compensation Plan and under which 3,760,000 shares of common stock were reserved for future issuance (plus any shares remaining available for issuance under the Incentive Compensation Plan as of that date). Similar to the Incentive Compensation Plan, in accordance with the 2014 Omnibus Incentive Plan, the Company can issue eligible participants stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance units and other stock-based and cash bonus awards subject to certain annual limitations. The plans also allow participants to defer the payment of awards and the Company to issue directors' fees in stock. Stock-based compensation vests in accordance with the applicable plan but can become immediately exercisable upon eligible recipients' departure from the Company or upon reaching retirement age, subject to approval of the Compensation Committee.

Stock-based compensation expense is calculated by estimating the fair value of incentive stock awards granted and amortizing the estimated value over the awards' vesting periods. During fiscal 2015, 2014 and 2013, the Company recognized stock-based compensation expense of approximately \$6.2 million, \$7.2 million and \$6.5 million, respectively.

Beginning for fiscal 2015 grants, the exercise price of each stock option is equal to the market value of the stock on the grant date. The exercise price of each stock option issued prior to fiscal 2015 exceeded the market value of the stock on the date of grant by 10%. The fair value of each option is estimated using the Black-Scholes option pricing model, and the assumptions are based on historical data and industry valuation practices and methodology. The assumptions used to determine fair value are as follows:

Options Granted During	2015	2014	2013
Grant Date Fair Value	\$ 3.81	\$ 5.19	\$ 4.83
(Since options are only granted once per year, the grant date fair value equals the weighted average grant date fair value.)			
Assumptions:			
Risk-free Interest Rate	1.6%	1.6%	0.7%
Expected Volatility	27.9%	41.3%	43.9%
Expected Dividend Yield	2.7%	2.5%	2.6%
Expected Term (in Years).....	5.5	5.0	5.0

Information on the options outstanding is as follows:

	Options	Wtd. Avg. Exercise Price	Wtd. Avg. Remaining Contractual Term (in years)	Aggregate Intrinsic Value (in thousands)
Balance, July 1, 2012	4,696,430	\$ 25.06		
Granted During the Year	399,850	18.85		
Exercised During the Year	(1,151,882)	17.37		
Expired During the Year.....	(573,130)	30.81		
Balance, June 30, 2013	3,371,268	\$ 25.97		
Granted During the Year.....	407,860	20.82		
Exercised During the Year	(273,394)	19.76		
Expired During the Year.....	(1,088,368)	32.82		
Balance, June 29, 2014.....	2,417,366	\$ 22.71		
Granted During the Year.....	557,170	18.83		
Exercised During the Year	(260,726)	19.66		
Expired During the Year	(536,960)	35.78		
Balance, June 28, 2015.....	2,176,850	\$ 18.86	3.65	\$ 2,099
Exercisable, June 28, 2015.....	811,970	\$ 17.91	0.71	\$ 1,446

The total intrinsic value of options exercised during fiscal year 2015 was \$0.2 million. The exercise of options resulted in cash receipts of \$5.1 million in fiscal 2015. The total intrinsic value of options exercised during fiscal 2014 was \$0.6 million. The exercise of options resulted in cash receipts of \$5.4 million in fiscal 2014. The total intrinsic value of options exercised during fiscal 2013 was \$4.4 million. The exercise of options resulted in cash receipts of \$20.0 million in fiscal 2013.

Options Outstanding (as of June 28, 2015)

Fiscal Year	Grant Date	Date Exercisable	Expiration Date	Exercise Price	Options Outstanding
2011	8/17/2010	8/17/2013	8/31/2015	\$ 19.88	376,320
2012	8/16/2011	8/16/2014	8/31/2016	\$ 16.20	435,650
2013	8/14/2012	8/14/2015	8/31/2017	\$ 18.85	399,850
2014	8/20/2013	8/20/2016	8/31/2018	\$ 20.82	407,860
2015	10/21/2014	10/21/2017	10/21/2024	\$ 18.83	557,170

Below is a summary of the status of the Company's nonvested shares as of June 28, 2015, and changes during the year then ended:

	Deferred Stock		Restricted Stock		Stock Options		Performance Shares	
	Shares	Wtd. Avg. Grant Date Fair Value	Shares	Wtd. Avg. Grant Date Fair Value	Shares	Wtd. Avg. Grant Date Fair Value	Shares	Wtd. Avg. Grant Date Fair Value
Nonvested shares, June 29, 2014.....	425,518	\$ 18.67	847,760	\$ 17.96	1,252,350	\$ 4.64	364,501	\$ 18.77
Granted.....	62,156	17.84	158,280	20.56	557,170	3.81	125,853	18.94
Cancelled.....	—	—	(10,950)	19.09	—	—	—	—
Vested.....	(205,357)	18.11	(192,980)	18.21	(444,640)	3.96	(131,628)	17.27
Nonvested shares, June 28, 2015.....	282,317	\$ 18.90	802,110	\$ 18.40	1,364,880	\$ 4.52	358,726	\$ 19.38

As of June 28, 2015, there was \$9.3 million of total unrecognized compensation cost related to nonvested stock-based compensation. That cost is expected to be recognized over a weighted average period of 1.8 years. The total fair value of shares vested during fiscal 2015 and 2014 was \$11.4 million and \$4.1 million, respectively.

During fiscal years 2015, 2014 and 2013, the Company issued 158,280, 146,320 and 134,830 shares of restricted stock, respectively. For restricted stock issued prior to October 15, 2014, the restricted stock vests on the fifth anniversary date of the grant provided the recipient is still employed by the Company. For restricted stock (including restricted stock units) issued after October 15, 2014, the restricted stock vests on the third anniversary date of the grant provided the recipient is still employed by the Company. The aggregate market value on the date of issue was approximately \$3.3 million, \$2.8 million and \$2.5 million in fiscal 2015, 2014 and 2013, respectively, and has been recorded within the Shareholders' Investment section of the Consolidated Balance Sheets, and is being amortized over the five-year vesting period (issuances prior to October 15, 2014) or the three-year vesting period (issuances after October 15, 2014).

The Company issued 36,975, 35,433 and 38,888 deferred shares to its directors in lieu of directors' fees in fiscal 2015, 2014 and 2013, respectively, under this provision of the plans.

The Company issued 25,181, 29,120 and 43,499 shares of deferred stock to its officers and key employees in fiscal 2015, 2014 and 2013, respectively. The aggregate market value on the date of grant was approximately \$0.5 million, \$0.6 million and \$0.8 million, respectively. Expense is recognized ratably over the five-year vesting period.

The Company issued 125,853, 128,371, and 121,230 performance shares or performance share units in fiscal 2015, 2014, and 2013, respectively. A maximum of two shares of Briggs & Stratton common stock per performance share or performance share unit may be awarded to recipients if certain performance targets are met at the end of the vesting period. The aggregate market value on the date of issue was approximately \$2.4 million, \$2.5 million, and \$2.4 million in fiscal 2015, 2014, and 2013, respectively. Beginning in fiscal 2015, the Company transitioned from granting performance shares that vest based on the performance of the Company's share price as compared to a comparator group of companies to performance share units that vest based on Company-specific performance goals. The performance share units are valued at the Company's share price on the date of grant multiplied by the probability of achieving payout. The Monte Carlo valuation methodology was used to value performance shares granted in fiscal 2014 and fiscal 2013. Expense for each of the awards granted in fiscal 2015, fiscal 2014, and fiscal 2013 is recognized ratably over the three-year vesting period. The Monte-Carlo valuation model simulates a range of possible future stock prices for the Company and the components of a peer group to estimate the probability that a vesting condition will be achieved. In determining valuation assumptions for the Monte Carlo model, the Company considers historic and observable market data. Assumptions used in the Monte Carlo valuation model for performance shares granted during fiscal 2014 and fiscal 2013 include the following:

Performance Shares Granted During Assumptions:	2014	2013
Risk-free Interest Rate	0.7%	0.4%
Expected Volatility	32.1%	35.5%
Expected Dividend Yield (Dividends are Assumed Reinvested)	—%	—%
Expected Term (in Years).....	2.86	2.87

The following table summarizes the components of the Company's stock-based compensation programs recorded as expense:

	2015	2014	2013
Stock Options:			
Pretax compensation expense	\$ 1,680	\$ 2,065	\$ 1,964
Tax benefit	(638)	(791)	(766)
Stock option expense, net of tax	\$ 1,042	\$ 1,274	\$ 1,198
Restricted Stock:			
Pretax compensation expense	\$ 2,416	\$ 2,563	\$ 2,375
Tax benefit	(918)	(982)	(926)
Restricted stock expense, net of tax	\$ 1,498	\$ 1,581	\$ 1,449
Deferred Stock:			
Pretax compensation expense	\$ 339	\$ 685	\$ 475
Tax benefit	(129)	(252)	(185)
Deferred stock expense, net of tax	\$ 210	\$ 433	\$ 290
Performance Shares:			
Pretax compensation expense	\$ 1,792	\$ 1,861	\$ 1,700
Tax benefit	(681)	(713)	(664)
Performance Share expense, net of tax	\$ 1,111	\$ 1,148	\$ 1,036
Total Stock-Based Compensation:			
Pretax compensation expense	\$ 6,227	\$ 7,174	\$ 6,514
Tax benefit	(2,366)	(2,738)	(2,541)
Total stock-based compensation, net of tax	\$ 3,861	\$ 4,436	\$ 3,973

(15) Shareholder Rights Agreement:

On August 6, 1996, the Board of Directors declared a dividend distribution of one common stock purchase right (a right) for each share of the Company's common stock outstanding on August 19, 1996. Each right would entitle shareowners to buy one-half of one share of the Company's common stock at an exercise price of \$80.00 per full common share (equivalent to \$40.00 for each one-half of one share of common stock), subject to adjustment. Pursuant to the rights agreement, in order for the rights to become exercisable, a person or group must acquire or attempt to acquire 20 percent or more of the Company's outstanding shares. Shareholders may vote to redeem the rights in certain circumstances, and the rights may be redeemed at a redemption price of \$0.001 per right. On August 8, 2012, the Board of Directors amended the rights agreement to extend its term until October 21, 2015, subject to shareholder ratification; shareholders ratified the rights agreement at the Company's annual meeting on October 17, 2012. The rights and the related rights agreement expire by their terms on October 21, 2015.

(16) Derivative Instruments & Hedging Activities:

The Company enters into interest rate swaps to manage a portion of its interest rate risk from financing certain dealer and distributor inventories through a third party financing source. The swaps are designated as cash flow hedges and are used to effectively fix the interest payments to a third party financing source, exclusive of lender spreads, ranging from 1.17% to 1.60% for a notional principal amount of \$95 million with expiration dates ranging from July 2017 to May 2019.

The Company periodically enters into forward foreign currency contracts to hedge the risk from forecasted third party and intercompany sales or payments denominated in foreign currencies. These obligations generally require the Company to exchange foreign currencies for U.S. Dollars, Australian Dollars, Brazilian Real, Canadian Dollars, Chinese Renminbi, Euros, Japanese Yen, or Mexican Pesos. These contracts generally do not have a maturity of more than twenty-four months.

The Company uses raw materials that are subject to price volatility. The Company hedges a portion of its exposure to the variability of cash flows associated with commodities used in the manufacturing process by entering into forward purchase contracts or commodity swaps. Derivative contracts designated as cash flow hedges are used by the Company to reduce exposure to variability in cash flows associated with future purchases of natural gas. These contracts generally do not have a maturity of more than thirty six months.

The Company has considered the counterparty credit risk related to all its foreign currency and commodity derivative contracts and does not deem any counterparty credit risk material at this time.

The notional amount of derivative contracts outstanding at the end of the period is indicative of the level of the Company's derivative activity during the period. As of June 28, 2015 and June 29, 2014, the Company had the following outstanding derivative contracts (in thousands):

Contract	Notional Amount	
	June 28, 2015	June 29, 2014
Interest Rate:		
LIBOR Interest Rate (U.S. Dollars)..... Fixed.....	95,000	95,000
Foreign Currency:		
Australian Dollar Sell	29,473	19,904
Brazilian Real Sell	22,443	—
Canadian Dollar Sell	9,326	3,100
Chinese Renminbi Buy	259,350	—
Euro Sell	62,740	49,300
Japanese Yen..... Buy	711,000	530,000
Mexican Peso Sell	—	3,000
Commodity:		
Natural Gas (Therms)..... Buy	11,324	5,686

The location and fair value of derivative instruments reported in the Consolidated Balance Sheets are as follows (in thousands):

Balance Sheet Location	Asset (Liability) Fair Value	
	June 28, 2015	June 29, 2014
Interest rate contracts:		
Other Long-Term Assets, Net.....	\$ —	\$ 43
Other Long-Term Liabilities	(1,034)	(1,209)
Foreign currency contracts:		
Other Current Assets	4,417	337
Other Long-Term Assets, Net.....	276	12
Accrued Liabilities	(1,041)	(665)

Other Long-Term Liabilities	(134)	(14)
	<u>\$ 1,948</u>	<u>\$ (1,501)</u>

The effect of derivatives designated as hedging instruments on the Consolidated Statements of Operations and Comprehensive Income (Loss) is as follows (in thousands):

Twelve months ended June 28, 2015

	Amount of Gain (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives, Net of Taxes (Effective Portion)	Classification of Gain (Loss)	Amount of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Recognized in Earnings (Ineffective Portion)
Interest rate contracts.....	\$ 79	Net Sales	\$ (1,222)	\$ —
Foreign currency contracts – sell....	2,086	Net Sales	12,353	—
Foreign currency contracts – buy ...	228	Cost of Goods Sold	(1,003)	—
Commodity contracts.....	(97)	Cost of Goods Sold	(521)	—
	<u>\$ 2,296</u>		<u>\$ 9,607</u>	<u>\$ —</u>

Twelve months ended June 29, 2014

	Amount of Gain (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives, Net of Taxes (Effective Portion)	Classification of Gain (Loss)	Amount of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Recognized in Earnings (Ineffective Portion)
Interest rate contracts	\$ (254)	Net Sales	\$ (1,209)	\$ —
Foreign currency contracts – sell ...	(717)	Net Sales	(1,024)	—
Foreign currency contracts – buy ...	182	Cost of Goods Sold	(1,109)	—
Commodity contracts	3,378	Cost of Goods Sold	(5,630)	—
	<u>\$ 2,589</u>		<u>\$ (8,972)</u>	<u>\$ —</u>

Twelve months ended June 30, 2013

	Amount of Gain (Loss) Recognized in Other Comprehensive Income (Loss) on Derivatives, Net of Taxes (Effective Portion)	Classification of Gain (Loss)	Amount of Gain (Loss) Reclassified from AOCI into Income (Effective Portion)	Recognized in Earnings (Ineffective Portion)
Interest rate contracts	\$ 962	Net Sales	\$ —	\$ —
Foreign currency contracts – sell ...	102	Net Sales	(55)	—
Foreign currency contracts – buy ...	(177)	Cost of Goods Sold	(1,968)	—
Commodity contracts	3,094	Cost of Goods Sold	(9,644)	—
	<u>\$ 3,981</u>		<u>\$ (11,667)</u>	<u>\$ —</u>

During the next twelve months, the amount of the June 28, 2015 Accumulated Other Comprehensive Income (Loss) balance that is expected to be reclassified into earnings is \$1.7 million.

The Company enters into forward exchange contracts to hedge purchases and sales that are denominated in foreign currencies. The terms of these currency derivatives do not exceed twenty-four months, and the purpose is to protect the Company from the risk that the eventual dollars being transferred will be adversely affected by changes in exchange rates.

The Company has forward foreign exchange contracts to sell foreign currency, with the Euro as the most significant. These contracts are used to hedge foreign currency collections on sales of inventory. The Company also has forward contracts to purchase foreign currencies. The Company's foreign currency forward contracts are carried at fair value based on current exchange rates.

The Company had the following forward currency contracts outstanding at the end of fiscal 2015:

Hedge		In Thousands					
Currency	Contract	Notional Value	Contract Value	Fair Value	(Gain) Loss at Fair Value	Conversion Currency	Latest Expiration Date
Australian Dollar	Sell	29,473	22,966	22,329	(637)	U.S.	August 2016
Brazilian Real	Sell	22,443	7,280	7,470	(190)	U.S.	February 2016
Canadian Dollar	Sell	9,326	7,599	7,558	(41)	U.S.	February 2016
Chinese Renminbi	Buy	259,350	40,523	41,127	(604)	U.S.	November 2016
Euro	Sell	62,740	72,697	70,338	(2,359)	U.S.	September 2016
Japanese Yen	Buy	711,000	5,984	5,762	222	U.S.	August 2016

The Company had the following forward currency contracts outstanding at the end of fiscal 2014:

Hedge		In Thousands					
Currency	Contract	Notional Value	Contract Value	Fair Value	(Gain) Loss at Fair Value	Conversion Currency	Latest Expiration Date
Australian Dollar	Sell	19,904	18,115	18,586	471	U.S.	June 2015
Canadian Dollar	Sell	3,100	2,859	2,899	40	U.S.	April 2015
Euro	Sell	49,300	67,529	67,379	(149)	U.S.	December 2015
Japanese Yen	Buy	530,000	5,192	5,229	(37)	U.S.	January 2015
Mexican Peso	Sell	3,000	231	231	—	U.S.	July 2014

The Company continuously evaluates the effectiveness of its hedging program by evaluating its foreign exchange contracts compared to the anticipated underlying transactions. The Company did not have any ineffective currency hedges in fiscal 2015, 2014, or 2013.

(17) Employee Benefit Costs:

Retirement Plan and Other Postretirement Benefits

The Company has noncontributory, defined benefit retirement plans and other postretirement benefit plans covering certain employees. The Company uses a June 30 measurement date for all of its plans. The following provides a reconciliation of obligations, plan assets and funded status of the plans for the two years indicated (in thousands):

	Pension Benefits		Other Postretirement Benefits	
	2015	2014	2015	2014
<u>Actuarial Assumptions:</u>				
Discounted Rate Used to Determine Present Value of Projected Benefit Obligation	4.55%	4.40%	4.20%	3.95%
Expected Rate of Future Compensation Level Increases	n/a	3.0-4.0%	n/a	n/a
Expected Long-Term Rate of Return on Plan Assets	7.50%	8.00%	n/a	n/a
<u>Change in Benefit Obligations:</u>				
Projected Benefit Obligation at Beginning of Year	\$ 1,173,147	\$ 1,115,855	\$ 96,457	\$ 111,506
Service Cost	3,432	7,645	295	333
Interest Cost	49,782	53,743	3,568	4,566
Plan Participant Contributions	—	—	1,510	1,513
Actuarial (Gain) Loss	35,287	71,288	(5,961)	(5,447)
Benefits Paid	(74,871)	(75,384)	(14,579)	(16,014)
Projected Benefit Obligation at End of Year	\$ 1,186,777	\$ 1,173,147	\$ 81,290	\$ 96,457
<u>Change in Plan Assets:</u>				
Fair Value of Plan Assets at Beginning of Year	\$ 1,043,466	\$ 962,633	\$ —	\$ —
Actual Return on Plan Assets	3,317	153,306	—	—
Plan Participant Contributions	—	—	1,510	1,512
Employer Contributions	3,014	2,911	13,069	14,502
Benefits Paid	(74,871)	(75,384)	(14,579)	(16,014)
Fair Value of Plan Assets at End of Year	\$ 974,926	\$ 1,043,466	\$ —	\$ —
<u>Funded Status:</u>				
Plan Assets (Less Than) in Excess of Projected Benefit Obligation	\$ (211,851)	\$ (129,681)	\$ (81,290)	\$ (96,457)
<u>Amounts Recognized on the Balance Sheets:</u>				
Accrued Pension Cost	\$ (208,623)	\$ (126,529)	\$ —	\$ —
Accrued Wages and Salaries	(3,228)	(3,152)	—	—
Accrued Postretirement Health Care Obligation	—	—	(47,545)	(59,290)
Accrued Liabilities	—	—	(12,025)	(13,624)
Accrued Employee Benefits	—	—	(21,720)	(23,543)
Net Amount Recognized at End of Year	\$ (211,851)	\$ (129,681)	\$ (81,290)	\$ (96,457)
<u>Amounts Recognized in Accumulated Other Comprehensive Income (Loss):</u>				
Net Actuarial Loss	\$ (249,279)	\$ (190,756)	\$ (15,468)	\$ (21,962)
Prior Service Credit (Cost)	(443)	(550)	4,487	6,243
Net Amount Recognized at End of Year	\$ (249,722)	\$ (191,306)	\$ (10,981)	\$ (15,719)

The accumulated benefit obligation for all defined benefit pension plans was \$1,186 million and \$1,173 million at June 28, 2015 and June 29, 2014, respectively.

The following table summarizes the plans' income and expense for the three years indicated (in thousands):

	Pension Benefits			Other Postretirement Benefits		
	2015	2014	2013	2015	2014	2013
Components of Net Periodic (Income) Expense:						
Service Cost-Benefits Earned During the Year.....	\$ 3,432	\$ 7,645	\$ 13,222	\$ 295	\$ 333	\$ 358
Interest Cost on Projected Benefit Obligation	49,782	53,743	50,154	3,568	4,565	4,754
Expected Return on Plan Assets	(74,638)	(74,152)	(75,832)	—	—	—
Amortization of:						
Transition Obligation	—	—	7	—	—	—
Prior Service Cost (Credit)	180	180	366	(2,758)	(2,895)	(3,589)
Actuarial Loss	13,262	25,105	34,821	4,316	5,527	7,624
Net Curtailment Loss	—	—	1,914	—	—	—
Net Periodic Expense (Income)	<u>\$ (7,982)</u>	<u>\$ 12,521</u>	<u>\$ 24,652</u>	<u>\$ 5,421</u>	<u>\$ 7,530</u>	<u>\$ 9,147</u>

Significant assumptions used in determining net periodic expense for the fiscal years indicated are as follows:

	Pension Benefits			Other Postretirement Benefits		
	2015	2014	2013	2015	2014	2013
Discount Rate	4.40%	5.00%	4.45%	3.95%	4.40%	3.75%
Expected Return on Plan Assets	8.00%	8.25%	8.50%	n/a	n/a	n/a
Compensation Increase Rate	n/a	3.0-4.0%	3.0-4.0%	n/a	n/a	n/a

The amounts in Accumulated Other Comprehensive Income (Loss) that are expected to be recognized as components of net periodic (income) expense during the next fiscal year are as follows (in thousands):

	Pension Plans	Other Postretirement Plans
Prior Service Cost (Credit)	\$ 180	\$ (2,659)
Net Actuarial Loss	12,689	3,018

The "Other Postretirement Benefit" plans are unfunded.

On May 14, 2010, the Company notified retirees and certain retirement eligible employees of various amendments to the Company-sponsored retiree medical plans intended to better align the plans offered to both hourly and salaried retirees. On August 16, 2010, a putative class of retirees who retired prior to August 1, 2006 and the United Steel Workers filed a complaint in the U.S. District Court for the Eastern District of Wisconsin (Merrill, Weber, Carpenter, et al.; United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO/CLC v. Briggs & Stratton Corporation; Group Insurance Plan of Briggs & Stratton Corporation; and Does 1 through 20, Docket No. 10-C-0700), contesting the Company's right to make these changes. The complaint seeks an injunction preventing the alleged unilateral termination or reduction in insurance coverage to the class of retirees, a permanent injunction preventing defendants from ever making changes to the retirees' insurance coverage, restitution with interest (if applicable) and attorneys' fees and costs. A class has been certified, and discovery has concluded. Both parties moved for summary judgment, which was fully briefed on December 23, 2014. Summary judgment is currently pending before the court, and no hearing date or trial date has been set.

For measurement purposes a 7.5% annual rate of increase in the per capita cost of covered health care claims was assumed for the Company for the fiscal year 2015 decreasing gradually to 4.5% for the fiscal year 2028. The health care cost trend rate assumptions have a significant effect on the amounts reported. An increase of one percentage point, would increase the accumulated postretirement benefit by \$1.6 million and would increase the service and interest cost by \$0.1 million for fiscal 2015. A corresponding decrease of one percentage point, would decrease the accumulated postretirement benefit by \$1.6 million and decrease the service and interest cost by \$0.1 million for the fiscal year 2015.

In October 2012, the Board of Directors of the Company authorized an amendment to the Company's defined benefit retirement plans for U.S., non-bargaining employees. The amendment freezes accruals for all non-bargaining employees within the pension plan effective January 1, 2014. The Company recorded a pre-tax curtailment charge of \$1.9 million in fiscal 2013 related to the defined benefit plan change.

Plan Assets

A Board of Directors appointed Investment Committee ("Committee") manages the investment of the pension plan assets. The Committee has established and operates under an Investment Policy. It determines the asset allocation and target ranges based upon periodic asset/liability studies and capital market projections. The Committee retains external investment managers to invest the assets. The Investment Policy prohibits certain investment transactions, such as lettered stock, commodity contracts, margin transactions and short selling, unless the Committee gives prior approval. The Company's pension plan's current target and asset allocations at June 28, 2015 and June 29, 2014, by asset category are as follows:

<u>Asset Category</u>	<u>Target %</u>	<u>Plan Assets at Year-end</u>	
		<u>2015</u>	<u>2014</u>
Domestic Equities	20%-28%	22%	20%
International Equities	7%-17%	13%	10%
Alternative & Absolute Return	0%-15%	12%	16%
Fixed Income	48%-52%	50%	52%
Cash Equivalents	0%-2%	3%	2%
		100%	100%

The plan's investment strategy is based on an expectation that, over time, equity securities will provide higher total returns than debt securities, but with greater risk. The plan primarily minimizes the risk of large losses through diversification of investments by asset class, by investing in different types of styles within the classes and by using a number of different managers. The Committee monitors the asset allocation and investment performance monthly, with a more comprehensive quarterly review with its consultant. Beginning in fiscal 2014, the Committee revised the target asset allocation to shift to more fixed income and less alternative investments as a percentage of total plan assets. This revision to the target asset allocation was made to better match future cash flows from plan assets with the future cash flows of the projected benefit obligation.

The plan's expected return on assets is based on management's and the Committee's expectations of long-term average rates of return to be achieved by the plan's investments. These expectations are based on the plan's historical returns and expected returns for the asset classes in which the plan is invested.

The Company has adopted the fair value provisions for the plan assets of its pension plans. The Company categorizes plan assets within a three level fair value hierarchy, as described in Note 6.

Investments stated at fair value as determined by quoted market prices (Level 1) include:

Short-Term Investments: Short-Term Investments include cash and money market mutual funds that invest in short-term securities and are valued based on cost, which approximates fair value;

Equity Securities: U.S. Common Stocks and International Mutual Funds are valued at the last reported sales price on the last business day of the fiscal year.

Investments stated at estimated fair value using significant observable inputs (Level 2) include:

Fixed Income Securities: Fixed Income Securities include investments in domestic bond collective trusts that are not traded publicly, but the underlying assets held in these funds are traded on active markets and the prices are readily observable. The investment in the trusts is valued at the last quoted price on the last business day of the fiscal year. Fixed Income Securities also include corporate and government bonds that are valued using a bid evaluation process with data provided by independent pricing sources.

Investments stated at estimated fair value using net asset value per share as the practical expedient include:

Other Investments: Other Investments include investments in limited partnerships and are valued at estimated fair value, as determined with the assistance of each respective limited partnership, based on the net asset value of the investment as of the balance sheet date, which is subject to judgment.

The fair value of the major categories of the pension plans' investments are presented below (in thousands):

Category	June 28, 2015			
	Total	Level 1	Level 2	Level 3
Short-Term Investments:	\$ 28,378	\$ 28,378	\$ —	\$ —
Fixed Income Securities:	481,576	—	481,576	—
Equity Securities:				
U.S. common stocks	216,131	216,131	—	—
International mutual funds	127,423	127,423	—	—
Other Investments:				
Venture capital funds	(A) (E) 47,289	—	—	—
Debt funds	(B) (E) 14,042	—	—	—
Real estate funds	(C) (E) 6,104	—	—	—
Private equity funds	(D) (E) 53,983	—	—	—
Fair Value of Plan Assets at End of Year	<u>\$ 974,926</u>	<u>\$ 371,932</u>	<u>\$ 481,576</u>	<u>\$ —</u>

Category	June 29, 2014			
	Total	Level 1	Level 2	Level 3
Short-Term Investments:	\$ 21,534	\$ 21,534	\$ —	\$ —
Fixed Income Securities:	542,381	—	542,381	—
Equity Securities:				
U.S. common stocks	204,578	204,578	—	—
International mutual funds	106,990	106,990	—	—
Other Investments:				
Venture capital funds	(A) (E) 82,776	—	—	—
Debt funds	(B) (E) 19,907	—	—	—
Real estate funds	(C) (E) 10,445	—	—	—
Private equity funds	(D) (E) 54,855	—	—	—
Fair Value of Plan Assets at End of Year	<u>\$ 1,043,466</u>	<u>\$ 333,102</u>	<u>\$ 542,381</u>	<u>\$ —</u>

- (A) This category invests in a combination of public and private securities of companies in financial distress, spin-offs, or new projects focused on technology and manufacturing.
- (B) This fund primarily invests in the debt of various entities including corporations and governments in emerging markets, mezzanine financing, or entities that are undergoing, are considered likely to undergo or have undergone a reorganization.
- (C) This category invests primarily in real estate related investments, including real estate properties, securities of real estate companies and other companies with significant real estate assets as well as real estate related debt and equity securities.
- (D) Primarily represents investments in all sizes of mostly privately held operating companies in the following core industry sectors: healthcare, energy, financial services, technology-media-telecommunications and industrial and consumer.
- (E) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

Contributions

On July 6, 2012, the Moving Ahead for Progress in the 21st Century Act (MAP-21 Act) was signed into law. The MAP-21 Act included certain pension-related provisions which included changes to the methodology used to determine discount rates for ERISA funding purposes for qualified defined benefit pension plans. Based on historical interest rates, the MAP-21 Act allows plan sponsors to utilize a higher discount rate to value pension liabilities, which results in lower required pension plan contributions under ERISA. On August 8, 2014, the Highway and Transportation Funding Act of 2014 (HATFA Act) was enacted. The HATFA Act extends the pension provisions included in the MAP-21 Act. During fiscal 2015, the Company made no cash contributions to the qualified pension plan. Based upon current regulations and actuarial studies the Company is required to make no minimum contributions to the qualified pension plan in fiscal 2016 through fiscal 2019. The Company may be required to make further contributions in future years depending on the actual return on plan assets and the funded status of the plan in future periods.

Estimated Future Benefit Payments

Projected benefit payments from the plans as of June 28, 2015 are estimated as follows (in thousands):

Year Ending	Pension Benefits		Other Postretirement Benefits	
	Qualified	Non-Qualified	Retiree Medical	Retiree Life
2016	\$ 75,279	\$ 3,228	\$ 10,681	\$ 1,343
2017	75,616	3,270	8,557	1,364
2018	75,663	3,293	7,865	1,382
2019	76,055	3,443	6,641	1,399
2020	76,416	3,455	5,622	1,412
2021-2025	372,900	18,162	17,122	7,134

Defined Contribution Plans

Employees of the Company may participate in a defined contribution savings plan that allows participants to contribute a portion of their earnings in accordance with plan specifications. Prior to January 1, 2014, a maximum of 1.5% to 3.5% of each participant's salary, depending upon the participant's group, was matched by the Company. Additionally, certain employees may have received Company nonelective contributions equal to 2.0% of the employee's salary.

Simultaneously with the aforementioned amendments to freeze the Company's defined benefit retirement plans for U.S., non-bargaining employees, effective January 1, 2014, amendments were also made to increase benefits under the defined contribution plans effective January 1, 2014. These amendments increased the Company's maximum matching contribution from 3.5% to 4.0% of pay and offer all domestic non-bargaining employees a Company non-elective contribution of 3.0% of the employee's pay.

The Company contributions totaled \$14.2 million in 2015, \$10.8 million in 2014 and \$7.9 million in 2013.

Postemployment Benefits

The Company accrues the expected cost of postemployment benefits over the years that the employees render service. These benefits apply only to employees who become disabled while actively employed, or who terminate with at least thirty years of service and retire prior to age sixty-five. The items include disability payments, life insurance and medical benefits. These amounts were discounted using a 4.20% interest rate for fiscal 2015 and 3.95% interest rate for fiscal 2014. Amounts are included in Accrued Employee Benefits in the Consolidated Balance Sheets.

(18) Restructuring Actions:

In fiscal 2012, the Company announced plans to reduce manufacturing capacity through closure of its Newbern, Tennessee and Ostrava, Czech Republic plants, as well as the consolidation of its plants in Poplar Bluff, Missouri and Auburn, Alabama. During fiscal 2012, the Company ceased manufacturing operations at its Newbern, Tennessee and Ostrava, Czech Republic plants, and carried out the consolidation of the Poplar Bluff, Missouri plant. In the fourth quarter of fiscal 2013, the Company completed the sale of the Ostrava,

Czech Republic facility. Production of horizontal shaft engines was concluded at the Auburn, Alabama plant during the second quarter of fiscal 2014.

The Company also announced in fiscal 2012 the reduction of approximately 10% of the Company's salaried headcount. In fiscal 2012 and fiscal 2013, the Company implemented the salaried headcount reductions. Additionally, beginning in fiscal 2013, the Company exited the placement of lawn and garden products at national mass retailers. The Engines segment continues to support lawn and garden equipment OEMs who provide lawn and garden equipment to these retailers. Workforce reductions associated with the Company's restructuring initiatives impacted approximately 1,250 regular and temporary employees globally.

In October 2012, the Board of Directors of the Company authorized an amendment to the Company's defined benefit retirement plans for U.S., non-bargaining employees. The amendment froze accruals for all non-bargaining employees effective January 1, 2014. The Company recorded a pre-tax curtailment charge of \$1.9 million in fiscal 2013 related to the defined benefit plan change.

As of June 29, 2014, the restructuring actions announced in 2012 were completed as planned. As of June 29, 2014, the cumulative pre-tax restructuring costs incurred associated with the 2012 restructuring actions were \$78.6 million, which represents the total cost expected to be incurred under these restructuring actions.

In fiscal 2015, the Company announced and began implementing restructuring actions to narrow its assortment of lower-priced Snapper consumer lawn and garden equipment and consolidate its Products manufacturing facilities in order to further reduce costs. The Company continues to focus on premium residential products to customers through its Snapper and Simplicity brands and commercial products through its Snapper Pro and Ferris brands. The Company closed its McDonough, Georgia location in the fourth quarter of fiscal 2015 and consolidated production into existing facilities. Production of pressure washers and snow throwers have been moved to the Wauwatosa, Wisconsin facility. Production of riding mowers will begin at the Wauwatosa, Wisconsin facility during the first half of fiscal 2016. At June 28, 2015, the Company had \$3.8 million classified as assets held for sale, which is included in Prepaid Expenses and Other Current Assets within the Consolidated Balance Sheets, related to the McDonough, Georgia location. These changes affected approximately 475 employees during fiscal 2015. The Company's dealer product offerings under the Snapper Pro, Simplicity and Ferris brands as well as sales of Snapper and Murray branded lawn and garden products at Walmart were unaffected by these actions.

As of June 28, 2015, the cumulative pre-tax restructuring costs associated with the 2015 restructuring actions were \$27.3 million. The total cost expected to be incurred under the 2015 restructuring actions is between \$31 million and \$35 million.

The Company reports restructuring charges associated with manufacturing and related initiatives as costs of goods sold within the Condensed Consolidated Statements of Operations. Restructuring charges reflected as costs of goods sold include, but are not limited to, termination and related costs associated with manufacturing employees, asset impairments and accelerated depreciation relating to manufacturing initiatives, and other costs directly related to the restructuring initiatives implemented. The Company reports all other non-manufacturing related restructuring charges as engineering, selling, general and administrative expenses on the Condensed Consolidated Statements of Operations.

The Company recorded pre-tax charges of \$27.3 million (\$17.7 million after tax or \$0.40 per diluted share) and \$6.5 million (\$5.2 million after tax or \$0.03 per diluted share) during fiscal 2015 and 2014, respectively, related to restructuring actions. The Engines segment recorded \$3.5 million of pre-tax restructuring charges during fiscal 2014. The Products segment recorded \$27.3 million and \$3.0 million of pre-tax restructuring charges during fiscal 2015 and 2014, respectively.

The following is a rollforward of the restructuring reserve (included in Accrued Liabilities within the Consolidated Condensed Balance Sheets) attributable to all Products Segment restructuring activities for fiscal 2015 (in thousands):

Products Segment	Termination Benefits	Other Costs	Total
Reserve Balance at June 29, 2014	\$ —	\$ 105	\$ 105
Provisions	5,215	22,073	27,288
Cash Expenditures	(3,108)	(10,921)	(14,029)
Other Adjustments (1)	—	(11,257)	(11,257)
Reserve Balance at June 28, 2015	\$ 2,107	\$ —	\$ 2,107

(1) Other adjustments includes \$1.9 million of asset impairments and \$9.4 million of accelerated depreciation.

(19) Equity:

Share Repurchases

In August 2012, the Board of Directors authorized \$50 million in funds for use in the common share repurchase program with an expiration date of June 30, 2014. On January 22, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company's common share repurchase program with an extension of the expiration date to June 30, 2016. On August 13, 2014, the Board of Directors authorized up to an additional \$50 million in funds for use in the Company's common share repurchase program with an expiration date of June 30, 2016. As of June 28, 2015, the total remaining authorization was approximately \$40.3 million with an expiration date of June 30, 2016. Share repurchases, among other things, allow the Company to offset any potentially dilutive impacts of share-based compensation. The common share repurchase program authorizes the purchase of shares of the Company's common stock on the open market or in private transactions from time to time, depending on market conditions and certain governing debt covenants. In fiscal 2015, the Company repurchased 2,423,044 shares on the open market at a total cost of \$47.0 million, or \$19.42 per share. There were 2,100,499 shares repurchased in fiscal 2014 at a total cost of \$43.0 million, or \$20.49 per share.

(20) Separate Financial Information of Subsidiary Guarantor of Indebtedness:

Under the terms of the Company's Senior Notes and the Revolver (collectively, the "Domestic Indebtedness"), Briggs & Stratton Power Products Group, LLC, a 100% owned subsidiary of the Company, was the sole joint and several guarantor of the Domestic Indebtedness (the "Guarantor") as of June 28, 2015 and June 29, 2014. The Guarantor provides a full and unconditional guarantee of the Domestic Indebtedness, except for certain customary limitations. These customary limitations, which are described in detail in the First Supplemental Indenture (Indenture) dated December 20, 2010, include (i) the sale of the guarantor or substantially all of the guarantor's assets, (ii) the designation of the guarantor as an unrestricted subsidiary for covenant purposes, (iii) the guarantor ceasing to guarantee certain other indebtedness, if the guarantor is also not a significant subsidiary within the meaning of Article 1, Rule 1-02 of Regulation S-X, and (iv) achieving the Indenture's requirements for legal defeasance, covenant defeasance or discharge. Additionally, if at any time a domestic subsidiary of the Company constitutes a significant domestic subsidiary, then such domestic subsidiary will also become a guarantor of the Domestic Indebtedness. Currently, all of the Domestic Indebtedness is unsecured. If the Company were to fail to make a payment of interest or principal on its due date, the Guarantor is obligated to pay the outstanding Domestic Indebtedness.

The Company had the following outstanding amounts related to the guaranteed debt (in thousands):

	June 28, 2015 Carrying Amount	Maximum Guarantee
6.875% Senior Notes	\$ 225,000	\$ 225,000
Multicurrency Credit Agreement	\$ —	\$ 500,000

The following condensed supplemental consolidating financial information reflects the summarized financial information of Briggs & Stratton, its Guarantor Subsidiary and Non-Guarantor Subsidiaries (in thousands):

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Briggs & Stratton Corporation
Wauwatosa, Wisconsin

We have audited the accompanying consolidated balance sheets of Briggs & Stratton Corporation and subsidiaries (the "Company") as of June 28, 2015 and June 29, 2014, and the related consolidated statements of operations, comprehensive income (loss), shareholders' investment, and cash flows for each of the three years in the period ended June 28, 2015. Our audits also included the financial statement schedule listed in the Index at Item 15(a)(2). Our responsibility is to express an opinion on the financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Briggs & Stratton Corporation and subsidiaries as of June 28, 2015 and June 29, 2014, and the results of their operations and their cash flows for each of the three years in the period ended June 28, 2015, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of June 28, 2015, based on the criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated August 21, 2015 expressed an unqualified opinion on the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Briggs & Stratton Corporation
Wauwatosa, Wisconsin

We have audited the internal control over financial reporting of Briggs & Stratton Corporation and subsidiaries (the "Company") as of June 28, 2015 based on the criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of June 28, 2015, based on the criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated financial statements and financial statement schedule listed in the Index at Item 15(a)(2) as of and for the year ended June 28, 2015 of the Company and our report dated August 21, 2015 expressed an unqualified opinion on those financial statements and financial statement schedule.

(9) Amounts may not total due to rounding.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended ("the Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing, and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

Management's Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's internal control over financial reporting based on the framework in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, the Company's management has concluded that, as of the end of the period covered by this report, the Company's internal control over financial reporting was effective.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of the effectiveness to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Deloitte & Touche LLP, an independent registered public accounting firm, has audited the Company's consolidated financial statements and the effectiveness of internal control over financial reporting as of June 28, 2015, as stated in their report which is included herein.

Changes in Internal Control Over Financial Reporting

There has not been any change in the Company's internal control over financial reporting during the fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

- (a) Executive Officers. Reference is made to "Executive Officers of Registrant" in Part I after Item 4.
- (b) Directors. The information required by this Item is in Briggs & Stratton's definitive Proxy Statement, prepared for the 2015 Annual Meeting of Shareholders, under the caption "Item 1: Election of Directors" and "General Information About Incumbent Directors", and is incorporated herein by reference.

- (c) Section 16 Compliance. The information required by this Item is in Briggs & Stratton's definitive Proxy Statement, prepared for the 2015 Annual Meeting of Shareholders, under the caption "Section 16(a) Beneficial Ownership Reporting Compliance", and is incorporated herein by reference.
- (d) Audit Committee Financial Expert. The information required by this Item is in Briggs & Stratton's definitive Proxy Statement, prepared for the 2015 Annual Meeting of Shareholders, under the caption "Other Corporate Governance Matters – Board Committees – Audit Committee", and is incorporated herein by reference.
- (e) Identification of Audit Committee. The information required by this Item is in Briggs & Stratton's definitive Proxy Statement, prepared for the 2015 Annual Meeting of Shareholders, under the caption "Other Corporate Governance Matters – Board Committees – Audit Committee", and is incorporated herein by reference.
- (f) Code of Ethics. Briggs & Stratton has adopted a written code of ethics, referred to as the Briggs & Stratton Business Integrity Manual, which is applicable to all directors, officers and employees and includes provisions related to accounting and financial matters applicable to the Principal Executive Officer, Principal Financial Officer, Principal Accounting Officer and Controller. The Briggs & Stratton Business Integrity Manual is available on the Company's corporate website at www.basco.com. If the Company makes any substantive amendment to, or grants any waiver of, the code of ethics for any director or officer, Briggs & Stratton will disclose the nature of such amendment or waiver on its corporate website or in a Current Report on Form 8-K.

ITEM 11. EXECUTIVE COMPENSATION

The information in Briggs & Stratton's definitive Proxy Statement, prepared for the 2015 Annual Meeting of Shareholders, concerning this item, under the captions "Compensation Committee Report", "Compensation Discussion and Analysis", "Compensation Tables", "Agreements with Executives", "Change in Control Payments", and "Director Compensation" is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information in Briggs & Stratton's definitive Proxy Statement, prepared for the 2015 Annual Meeting of Shareholders, concerning this item, under the captions "Security Ownership of Certain Beneficial Owners", "Security Ownership of Directors and Executive Officers" and "Equity Compensation Plan Information" is incorporated herein by reference.

GUIDING PRINCIPLES

Value Orientation

We will create value for all of our stakeholders – shareholders, customers, employees and communities – by offering superior value in our products and services and a continuous focus on cost improvement.

Customer Focus

Our customers, including end users and channel partners, will be the focus of what we do. We will deliver value to our customers through core strengths, which include our brands, end user insights, merchandising, on-time delivery of high value innovative products and aftermarket service support.

Integration

We will work together in delivering engines and end products with unparalleled value in our industry.

Forward Thinking

While we remain mindful of our past, sustaining and growing our future with the customers and communities we serve is most important. We will seek out new markets and product opportunities to ensure profitable growth for the future.

Employees

We will foster an environment in which our employees will be welcomed, challenged and encouraged to develop, where diversity of perspectives and candor will be both expected and respected.

THE POWER WITHIN™

down to earth
A Briggs & Stratton Commitment

Certified Chain of Custody
Promoting Sustainable Forestry
