BLUECHART® COASTAL CHARTS

FEATURING  **NAVIONICS**
A Garmin Brand

Worldwide coverage available

BLUECHART® G3

Experience unparalleled coverage and brilliant detail when you're on the water. BlueChart g3 coastal charts provide exceptional coverage, clarity and detail with integrated Garmin and Navionics® content. The charts also display suggested routes with Auto Guidance¹.

ADVANCED CHART DETAIL

Highly detailed charts with Navionics data help mariners guide their boats in and out of port with confidence.

DETAILED CONTOURS

Up to 1' contours provide a more accurate depiction of bottom structure for improved fishing charts and enhanced detail in swamps, canals and port plans.

RASTER CARTOGRAPHY

Download NOAA raster areas for free via the ActiveCaptain® app to your compatible smartphone to provide enhanced clarity and consistency.

AUTO GUIDANCE

Auto Guidance¹ technology calculates a suggested route to your destination.

DEPTH RANGE SHADING

Select depth range shading for up to 10 depth ranges to view your target depth at a glance.

BLUECHART® COASTAL CHARTS

Worldwide coverage available

FEATURING  **NAVIONICS**
A Garmin Brand

BLUECHART® G3 VISION

BlueChart g3 Vision is our premium chart offering, which includes all the reliability, functionality and integrated Garmin and Navionics® content of BlueChart g3 while adding even more exceptional features such as high-resolution relief shading to help you along your journeys.

HIGH-RESOLUTION RELIEF SHADING

Highly detailed shading combines color and shadow to provide an easy-to-interpret, clearer view of bottom structure than contour lines alone.

AERIAL PHOTOGRAPHY

Pictures show exceptional detail of many ports, harbors and marinas. This is ideal when entering unfamiliar areas.

HIGH-RESOLUTION SATELLITE IMAGERY

High-resolution satellite imagery overlaid onto navigational charts provides a realistic view of your surroundings.

3-D VIEWS

MarinersEye and FishEye views provide 3-D representations of the surrounding area above and below the waterline.

SHALLOW WATER SHADING

Shallow water shading for a user-defined depth gives a clear picture of shallow waters to avoid.

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations. Not all chart features will display on all devices, particularly legacy devices. As engineering enhancements are ongoing, new features may not display on such legacy products as well.

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations

LAKEVÜ INLAND MAPS

FEATURING  NAVIONICS[®]
A Garmin Brand

LAKEVÜ G3

LakeVü g3 inland maps provide exceptional coverage, clarity and detail with integrated Garmin and Navionics[®] content. The charts also display suggested routes with Auto Guidance¹. You'll get coverage on more than 18,000 lakes with up to 1' contours.

1' CONTOURS

Up to 1' contours provide a detailed and clear view of the lake floor so you can catch more fish and navigate with confidence.

AUTO GUIDANCE

Auto Guidance¹ technology calculates a suggested route to your destination.

DEPTH RANGE/SALLOW WATER SHADING

High-resolution depth range shading for up to 10 depth ranges and shallow water shading for a user-defined depth gives a clear picture of shallow waters to avoid.

HIGH-RESOLUTION RELIEF SHADING

Highly-detailed shading combines color and shadow to provide an easy-to-interpret, clearer view of bottom structure than contour lines alone.

SONAR IMAGERY

The sonar imagery feature reveals changes to bottom hardness clearly and in bright color, highlighting both subtle and dramatic transition areas on 115 U.S. lakes.

DYNAMIC LAKE LEVEL

Adjust your maps to the lake's current water levels to see if spots are accessible or too shallow to explore.

SURFACE PHOTOS

Get a better sense of your surroundings above the waterline with photos of docks, boat ramps, bridges, dams, and more.

SIDE SCAN

Check out submerged features such as fallen timber, fish attractors, wrecks, and more.

LAKEVÜ INLAND MAPS

FEATURING  NAVIONICS[®]
A Garmin Brand

LAKEVÜ G3 ULTRA

Our premium inland map collection, divided into East and West regions, includes all the exceptional features of LakeVü g3, while adding extra mapping features.

CANADA LAKEVÜ G3

FEATURING  NAVIONICS
A Garmin Brand

Canada LakeVü g3 gives you coverage on more than 13,000 total lakes, 4,800 of which are HD maps with up to 1' contours that provide clearer lake floor views, allowing you to catch more fish and navigate with confidence

Auto Guidance feature shows the suggested route to a destination¹

Depth Range Shading enables you to view your target depth at a glance for up to 10 depth ranges

Shallow Water Shading lets you input and shade a minimum depth to help you avoid running aground

Displays detailed shorelines and coastlines as well as underwater features such as riverbeds, fish attractors and potential hazards

CANADA LAKEVÜ G3 ULTRA

Our premium inland maps for Canada include everything available with Canada LakeVü g3 and more:

High-resolution Relief Shading to make it easier to see contours and find fish holding structure

Unique 3-D views such as MarinersEye and FishEye for additional perspective above and below the waterline

Dynamic Lake Level adjusts the map based on current water levels

STANDARD MAPPING®

Standard Mapping cartography is compatible with select Garmin chartplotters and MFDs. These accessory cards provide highly detailed, locally sourced data with rich updated imagery to help you navigate your favorite areas with confidence. Available regions include Texas, Louisiana, Mississippi, Alabama and Florida. Choose from classic, premium or professional accessory cards.

ACTIVECAPTAIN® APP

Give yourself the advantages of the ultimate connected boating experience. Download the free all-in-one ActiveCaptain app to your compatible smartphone. It provides you with a powerful connection to your Garmin chartplotter, charts, maps and the community. Wherever you are, you can have unlimited access to your cartography, purchase new maps and charts, and access the Garmin Quickdraw™ Contours Community.

SPECIAL ACTIVECAPTAIN FEATURES

OneChart™ gives you access to all your charts and maps from your mobile device and lets you purchase new ones

Receive smart notifications, such as calls and texts, on your chartplotter display when paired with the app

Download software updates and notifications from the app directly to your Garmin devices

Connect to fellow boaters with the ActiveCaptain community for up-to-date feedback on marinas and other points of interest

Make, save and transfer routes and waypoints between the app and chartplotter — with zero button presses¹

Easily upload and download the latest Garmin Quickdraw™ Contours content from the community — with zero button presses¹

View and control your chartplotter from your smartphone or tablet

Use with the OnDeck™ remote connectivity system to track, monitor and control up to 5 switches on your boat from virtually anywhere

¹Auto Guidance is for planning purposes only and does not replace safe navigation operations. Not all map features will display on all devices, particularly legacy devices. As engineering enhancements are ongoing, new features may not display on such legacy products.

¹Zero button presses applies to GPSMAP® chartplotters

NEW CHART GUARANTEE

NEW CHART GUARANTEE

Customers who purchase new preprogrammed Garmin BlueChart® g3 or BlueChart® g3 Vision microSD™ cards are entitled to one free update¹ of the newest version of charts. If eligible, customers can update cards using our website. Updated charts will be for the same (or equivalent²) region as the original purchase.

DISCOUNTED CARD UPDATE PROGRAM

Customers may update their existing preprogrammed BlueChart g3 and BlueChart g3 Vision microSD™ card for a discounted price². Updated charts will be for the same (or equivalent²) region as the original purchase.

HOW TO READ YOUR PRODUCT ID CODE

REGION (XX) CODES INCLUDE:		SIZE OF COVERAGE (Z) CODES INCLUDE:	
AE = Asia, East (Japan, China, Indonesia, etc.)	EU = Europe (including all Mediterranean Sea)	X = X-Large	S = Small
AF = Africa	PC = Pacific Ocean (Australia, New Zealand, etc.)	L = Large	P = Petite
AW = Asia, West	SA = South America	R = Regular	F = Fishing
CA = Canada	US = United States and the Caribbean		

¹Limit one free update per card. New Chart Guarantee valid within 12 months of purchase.
²Equivalent region to be determined at the sole discretion of Garmin. Customer will have an opportunity to view available coverage before purchasing and/or updating.

STANDARD MAPPING

Available as an accessory card for Garmin marine chartplotters, Standard Mapping offers coastal aerial overlay and provides high-resolution imagery and local names of waterways and land features.

Classic version offers high-resolution aerial imagery, high-definition offshore mapping and local names.

Premium includes offshore field lease blocks, recommended routes and wildlife management areas.

Professional adds oyster leases, artificial reefs, and state and federal offshore boundaries.

NAVIONICS

NAVIONICS+ CARTOGRAPHY

Since Garmin and Navionics came together, we have been combining the best of our data and technology to produce superior cartography products for boaters all over the world. Navionics cartography is available on microSD™ cards for a variety of hardware brands. Plus, the same detailed marine and

lake charts can go beyond the helm via the Navionics Boating app on your Apple® or Android™ mobile device. Start out from day one with up-to-date charts. An included one-year subscription provides access to daily updates and advanced features.

NAVIONICS+

Provides complete inshore to offshore marine content, plus rivers, bays, and more than 40,000 lakes around the world. Available in very large coverage areas or more localized chart cuts.

MARINE CHARTS AND LAKE MAPS

NAUTICAL CHART

Essential cartographic reference detail for cruising, sailing and fishing: port plans, safety depth contours, marine services, tides and currents, and navigation aids.

SONARCHART™

An HD bathymetry map featuring extraordinary bottom contour detail for marine and lake areas. Great for increasing awareness of shallow waters and for locating fishing areas at any depth level.

COMMUNITY EDITS

All kinds of valuable local information is constantly enhanced by users of the Navionics Boating app, such as seasonal buoys, lights, rocks, moorings, boat ramps, points of interest, restaurants and provisioning shops.

ADVANCED FEATURES

DOCK-TO-DOCK AUTOROUTING¹

Head to your next destination with Dock-to-dock Autorouting, which calculates a suggested route based on chart data and your own boat settings.

SONARCHART LIVE

Create your own maps on the fly. Watch new 1 ft/0.5 m HD bathymetry maps develop in real time as your boat moves along the water.

ADVANCED MAP OPTIONS

Change the way you view Navionics charts and focus on the details that matter most to you. Highlight shallow areas, adjust contour density or select a fishing range.

PLOTTER SYNC

Transfer routes and markers, update charts and more between your plotter card and mobile app — wirelessly. You can even activate or renew your card's subscription and upload sonar logs.

PLATINUM CARTOGRAPHY

PLATINUM OVERLAYS AND FEATURES

Designed with the most demanding boaters and serious anglers in mind, all the marine content of Navionics+ is enhanced with additional viewing options that take your boating experience to the next level.

PLATINUM+

MARINE CHARTS

Comprehensive coastal charts deliver premium content on oceans, major rivers and seas. Choose from coverage areas worldwide.

HOTMAPS PLATINUM

LAKE MAPS

A dedicated lakes product available only in U.S. and Canada. Five huge regions cover more than 24,000 lakes, ponds and reservoirs.

SONARCHART™ SHADING

Created from SonarChart 1' contour data, varying shades of blue reveal changes in depth such as channels and drop-offs to improve situational awareness and give clear, visual cues to fish-holding structure.

RELIEF SHADING

The Navionics relief shading feature brings bottom detail to life, from shallow flats to deep offshore canyons, in a vivid, colorful representation that helps boaters gain a better understanding of bottom topography.

PANORAMIC PHOTOS

Heading into a new marina can be less stressful when you have an understanding of the layout that only a picture can provide.

3D VIEW

Dynamic 3D View allows you to customize your chart to highlight key features for a better awareness of your surroundings.

BOATING APP

The Navionics Boating app provides content and features that go where you go, including new SonarChart Shading and relief shading overlays. As a companion to the chartplotter or on its own, the app also delivers incredibly useful functionality such as GPX file sharing, AIS traffic monitoring, weather forecasts and more. The Boating app is available as a separate purchase for Apple® and Android™ devices and offers a free trial before subscribing.

WARNING

GARMIN MAKES NO WARRANTY AS TO THE ACCURACY OR COMPLETENESS OF MAP DATA IN THIS PRODUCT AND DISCLAIMS ANY AND ALL EXPRESS, IMPLIED OR STATUTORY WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IT IS THE USER'S RESPONSIBILITY TO USE THIS PRODUCT PRUDENTLY. THIS PRODUCT IS INTENDED TO BE USED ONLY AS A TRAVEL AID AND MUST NOT BE USED FOR ANY PURPOSE REQUIRING PRECISE MEASUREMENT OF DIRECTION, DISTANCE, LOCATION OR TOPOGRAPHY.

WARNING:

GARMIN BLUECHART DATA AND BOTTOM INFORMATION ARE FOR NAVIGATION REFERENCE ONLY, AS BOTTOM CONDITIONS ARE CONTINUALLY CHANGING. THIS PRODUCT IS FOR GENERAL REFERENCE.

WARNINGS: The electronic chart is an aid to navigation designed to facilitate the use of authorized government charts, not to replace them. Only official government charts and notices to mariners contain all information needed for the safety of navigation, and as always, the captain is responsible for their prudent use.

ACKNOWLEDGEMENT OF THIRD-PARTY NOTICES AND COPYRIGHT LICENSES: This product may contain cartography and other data from one or more of the following third-party sources; to the extent that any such source is used, the relevant provisions below shall apply:

Refer to: <https://www.garmin.com/en-US/legal/bluechart-g2-disclaimer>

WARNING:

No national hydrographic office (HO), State Authority, and their licensors have verified the information in this product or quality assured it, and none accept liability for the accuracy of reproduction or any modifications made thereafter. No national hydrographic office and their licensors make any warranties or representations, express or implied, with respect to this product. No national hydrographic office warrants that the product satisfies national or international regulations regarding the use of the appropriate products for navigation or that it contains the latest hydrographic information available.

WARNING:

All charts are digitized directly from existing government and other official charts and should not be used solely for navigation. Digital charts are intended to be used as an aid to traditional navigational charts, not as a replacement. Only official government charts and notices to mariners and notices to shipping/NAVAREA broadcasts and written alerts contain all information needed for the safety of navigation, and as always, the captain is responsible for their prudent use. A prudent navigator never relies on any single source of navigational information. Garmin strives to provide its customers with the most economical, accurate and up-to-date chart data. However, features are continually changing, so the data may not reflect the latest modifications and/or additions in your area. Garmin makes no warranty as to the accuracy or completeness of the data.

WARNING:

Some of the information in this product may have been produced, in part or whole, from withdrawn national hydrographic office products. New charts and/or NTM corrections will render this product obsolete and inaccurate.

WARNING:

U.S. National Park Service/Department of the Interior (NPS) property ownership data is compiled from deeds, plats, surveys and other source data. These are not engineering quality drawings and should be used for administrative purposes only. The National Park Service shall not be held liable for improper or incorrect use of the data described and/or contained herein. These data and related graphics are not legal documents and are not intended to be used as such. The information contained in these data is dynamic and may change over time. The data are not better than the original sources from which they were derived. It is the responsibility of the data user to use the data appropriately and consistent within the limitations of geospatial data in general and these data in particular. The related graphics are intended to aid the data user in acquiring relevant data; it is not appropriate to use the related graphics as data. The National Park Service gives no warranty, expressed or implied, as to the accuracy, reliability, or completeness of these data. It is strongly recommended that these data are directly acquired from an NPS server and not indirectly through other sources which may have changed the data in some way. Although these data have been processed successfully on a computer system at the National Park Service, no warranty expressed or implied is made regarding the utility of the data on another system or for general or scientific purposes, nor shall the act of distribution constitute any such warranty. This disclaimer applies both to individual use of the data and aggregate use with other data. The data is intended for use as a tool for display and general GIS analysis purposes only. It is in no way intended for engineering or legal purposes. The data accuracy is checked against best available sources which may be dated. NPS assumes no liability for use of this data.

WARNING:

The Great Barrier Reef Marine Park Authority ("the Authority") does not check the information in this product and accepts no liability for the accuracy of copying or for any modifications that may have been made to the information which it has supplied. Use of and entry to the Great Barrier Reef Marine Park is controlled by the Great Barrier Reef Marine Park Act 1975 (Cth) ("the Act"). Penalties apply for use of or entry to a zone for a purpose other than for a purpose permitted under the Great Barrier Reef Marine Park Zoning Plan 2003 ("the Zoning Plan") prepared by the Authority pursuant to section 32 of the Act. This product does not contain all information concerning permitted use or entry under the Zoning Plan. For purposes of use of or entry to the Great Barrier Reef Marine Park, this product should only be used in conjunction with the Zoning Plan and the Great Barrier Reef Marine Park Regulations 1983 (Cth). For purposes of navigation, users should consult official navigation charts released by relevant government authorities.

WARNING:

The Department of Transportation does not check the information in this product and the Crown in right of the State of Western Australia accepts no liability for the accuracy of copying or for any modifications that may have been made to the information which it has supplied. Furthermore, the Crown in right of the State of Western Australian does not warrant the accuracy of any information contained in any of its charts, maps or data of whatsoever nature.

WARNING:

The open geographic data is provided 'as is' and the Danish Geodata Agency shall not be liable for content, origin, errors or omissions in the Data and shall not be liable for any loss or damage caused by its use.

CAUTION:

The bathymetric reactions contained in this product have been carried out with the standards in force at the time of their publication. No verification and/or validation by the Government of Quebec. Assumes no responsibility for the accuracy of the bathymetric data or data included in this product cannot be responsible for the conclusions obtained or damage suffered as a result of the use of this product. Bathymetric data from Quebec provide general representations and structures under the surface of the water. The bathymetric data of Quebec are not suitable for use to surface navigation. It may expect non-mapped obstacles.

DISCLAIMER:

This information is intended as a general guide to artificial reef sites off the Georgia coast and is not intended for use as a navigational guide for offshore and coastal waters. The Hawaii Artificial Reef data is provided "AS IS" and without warranties of any kind. The information may change without prior notice and may not be the latest update. Users of this data are therefore fully responsible for checking the accuracy, completeness, currency and suitability of content found in this data themselves. TPWD provides the Artificial Reefs Interactive Mapping Application as a public service in support of TPWD's mission to manage and conserve the natural and cultural resources of Texas and to provide hunting, fishing and outdoor recreation opportunities for the use and enjoyment of present and future generations. TPWD makes no representation or warranty, express or implied, regarding the accuracy, completeness, currency, or suitability of any information provided herein for any purpose. In consideration for using the Artificial Reefs Interactive Mapping Application all persons thereby release and hold harmless TPWD from and against any and all claims and/or damages that may result from use of the information contained or posted therein.

DISCLAIMER:

This product has been created by Garmin Ltd. and its subsidiaries, using data owned by and provided under license from the Province of British Columbia. Reproduction of this product or any such data by any means is prohibited. Also "DO NOT USE THESE MAPS FOR NAVIGATIONAL PURPOSES. These maps may not reflect current conditions. Uncharted hazards may exist."

DISCLAIMER:

This data was produced by the Lower Colorado River Authority (LCRA) for its own use. Accordingly, certain information, features, or details may have been emphasized over others, or may have been left out. The LCRA does not warrant the accuracy of this data, either as to scale, accuracy or completeness. IN ADDITION, THE LCRA EXPRESSLY DISCLAIMS ANY AND ALL WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PURPOSE. If this data is reproduced or displayed on a map, the reproducer shall insure that this disclaimer accompanies the map, and in the event the reproducer fails to include a copy of this disclaimer with the map or data, the reproducer hereby agrees to indemnify, defend, and hold harmless the LCRA and its directors, officers, and employees from and against any and all claims, demands, suits, or judgments, directly or indirectly arising out of reproducer's dissemination of the map or data to others.

"This reproduction, partial or complete, of any National Geospatial-Intelligence Agency (NGA), National Imagery and Mapping Agency (NIMA) or Defense Mapping Agency (DMA) product, information or data is not approved, authorized or endorsed by the Secretary of Defense, the Director of National Intelligence, the Director, NGA or any other element of the US Government. The US Government and NGA accept no liability for the accuracy or quality of this reproduction or the use of any NGA, NIMA or DMA products, information or data."

"This product has been produced by Navionics based on "Canadian Hydrographic Service (CHS)" data, following any minimum standards/guidelines that may have been established by CHS, pursuant to CHS Digital Value-Added Reseller Agreement No.2017-1114-1260-N. The incorporation of data sourced from CHS in this product shall not be construed as constituting an endorsement by CHS of this product. This product does not meet the requirements of the Charts and Nautical Publications Regulations,1995 under the Canada Shipping Act, 2001. Charts and publications issued by or on the authority of CHS must be used to meet the requirements of those regulations."

"Contains information published by the Canadian Coast Guard and Department of Fisheries and Oceans licensed under the Canadian Coast Guard Open Information License. This information is available in its original format for free download on the Canadian Coast Guard website and the Monthly Edition of the Notices to Mariners (NOTMAR) website."

"The bathymetric metadata and Digital Terrain Model data products have been derived from the EMODnet Hydrography portal - <http://www.emodnet-hydrography.eu>. -This portal was initiated by the European Commission as part of developing the European Marine Observation and Data Network (EMODNet). The overall objective of EMODnet is to create pilots to migrate fragmented and inaccessible marine data into interoperable, continuous and publicly available data streams for complete maritime basins. The Hydrography portal development started in June 2009 and now provides a range of options for freely browsing and downloading new Digital Terrain Models (DTM) for a large part of the European seas. The downloadable tiles are freely available in a number of formats. The EMODnet digital bathymetry has been produced from bathymetric survey data and aggregated bathymetry data sets collated from public and private organizations. These are processed and quality controlled. A further refinement and expansion is underway, by gathering additional survey data sets, expanding geographical coverage to all European sea regions and upgrading the DTM grid resolution, and will result in new releases in time. The portal also includes a metadata discovery service that gives clear information about the background survey data used for the DTMs, their access restrictions, originators and distributors."

"State of Queensland, Department of Transport and Main Roads (Maritime Safety Queensland). When using the Beacon to Beacon Guide booklets and/or the maps contained therein for commercial or non-commercial purposes, the Department of Transport and Main Roads (Maritime Safety Queensland) gives no warranty of any kind whether express, implied, statutory or otherwise in respect to the availability, accuracy, currency, completeness, quality or reliability of the information or that the information will be fit for any particular purpose or will not infringe any third party Intellectual Property rights and the liability (including without limitation, liability in negligence, negligent misstatement and pure economic loss) of the Department of Transport and Main Roads (Maritime Safety Queensland) for any direct, indirect or consequential loss, damage, cost or expense howsoever resulting from the use of, or reliance on, the information is entirely excluded."

"This Garmin electronic marine chart incorporates Data which is ©Commonwealth of Australia ("Great Barrier Reef Marine Park Authority, 2019", Marine Parks from the "Department of the Environment and Energy, 2019"). The Data has been used in this Garmin electronic marine chart with the permission of the Commonwealth. The Commonwealth has not evaluated the Data as altered and incorporated within this Garmin electronic marine chart, and therefore gives no warranty regarding its accuracy, completeness, currency or suitability for any particular purpose."

"The "Crown in Right of the State of Western Australia" accepts no liability for the accuracy of copying of information contained in this product and does not warrant that this product meets any regulations as an appropriate product for navigation."
