eCopy PaperWorks

Capture documents. Consolidate formats. Make edits.
Optimal personal effectiveness.

eCopy PaperWorks, an easy-to-use desktop software application, allows office workers to scan, merge, modify, and connect documents to electronic workflows and back-end business systems.

This next-generation document imaging solution maximizes personal productivity. With a full set of advanced document manipulation tools and pure integration to widely used document management systems, eCopy PaperWorks enables office associates to work more efficiently with the scanned output and other electronic files that are a part of their daily processes.

Making paper work

Scan

- Capture paper documents from your desktop scanner.
- Use your imageRUNNER or imageRUNNER ADVANCE system to scan documents and send them directly to eCopy PaperWorks.

Merge

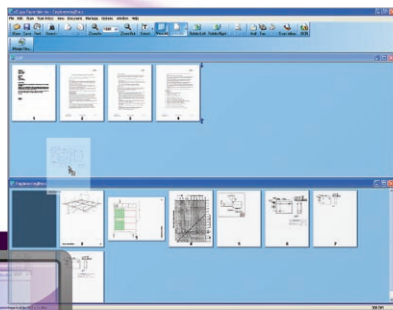

- Combine scanned documents, faxes, e-mails, and electronic files.
- Rearrange pages by simply dragging and dropping them.
- Create documents in a secure, searchable, common file format.

Modify

- View, edit, mark up, and manipulate files.
- White out or black out sensitive information.
- Insert bookmarks, add dynamic headers, footers, or Bates Stamps, and electronically sign documents.
- Burn-in changes so that they cannot be altered.

Connect

- Save files as secure documents, distribute via e-mail or fax, and integrate with back-end applications and business process workflows.
- Using eCopy PaperWorks Connectors for Microsoft® SharePoint®, EMC® Documentum®, Autonomy iManage Worksite, and Open Text eDOCS DM™, scanned and electronic information can be delivered directly to, stored in, and retrieved from document management systems.

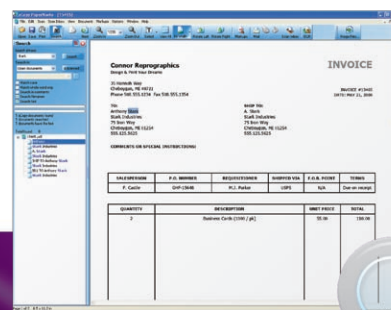

Consolidate documents

Easily consolidates different document formats—handwritten, paper, and electronic—into a single, universal format.

Rearrange documents

“View All” lets you browse a multipage document and rearrange selected pages faster and easier than on paper.

Document mark-up

Add annotations, signatures, highlights, blackouts, or whiteouts to documents using the markup toolbar.

Document search

Find and retrieve any document from your desktop or network, whether created electronically or scanned and stored.
