

Product Release

DIGISOL launches 150 Mbps Wireless Micro Broadband Router

Introduces Micro Size and Lightweight DG-BR1000Nu

Mumbai, 25 October 2012: DIGISOL has introduced its Wireless Micro Broadband Router **DG-BR1000Nu**. The DG-BR1000Nu enables communication between wireless and wired notebooks/desktop computers in the network and offers Internet connectivity to LAN users. The Micro Size and lightweight design makes it a perfect router to fit in a small space and convenient to carry when roaming. DG-BR1000Nu wireless broadband router can provide wireless data transmission rate up to 150Mbps which enhances the sharing of files, photo, audio, video and gaming experience over wireless network. DG-BR1000Nu is truly a high performance and cost-effective solution for your home and small business environments.

With DG-BR1000Nu wireless Internet connection to the ISP's Access Point is also possible. When DG-BR1000Nu is configured in WISP mode it repeats the signal from a wireless Internet Service Provider to home or office, simultaneously allowing connection of both wired and wireless stations to the Internet.

The DG-BR1000Nu Micro broadband router supports WMM (Wi-Fi Multimedia) technology, which can enhance the performance by applying QoS for certain network applications like audio/video streaming, VoIP and others. With WMM function, the Micro broadband router assigns priority to different types of data for better throughput.

DG-BR1000Nu supports robust security using WPA2 Enterprise (802.1x with AES) which enhances the security of wireless network to protect sensitive data from hackers. DG-BR1000Nu also supports 64/128 bit WEP encryption which offers first level of security choice to home users to provide confidentiality of the wireless network.

The DG-BR1000Nu wireless Micro broadband router supports WPS (Wi-Fi Protected Setup), which simplifies the procedure to associate a wireless client with the router. This save on the time required to configure the router for a secured wireless link.

Key Features:

- Micro Size Design with Integrated Antenna
- WMM to enhance multimedia experience
- Wireless connection to ISP (WISP) and LAN users.
- Robust WLAN security
- Supports URL Blocking & Anti-DOS Firewall
- Supports WPS function with push button
- Supports WLAN network speed up to 150Mbps
- Supports Dynamic DNS and VPN Pass-Through

Price: The feature rich DIGISOL **DG-BR1000Nu** is available in the market at an approximate street price of Rs. 1,999/- and comes with life time warranty

USP: For **DG-BR1000Nu** service and support is provided from 64 locations across the country by **DIGICARE** the service division of Smartlink Network Systems Ltd.
