

Tektronix, Inc., Beaverton, Ore., Oct. 4, 1963, vol. 4, no. 25

Share transfer steps outlined

By VERNE GRIFFITH

Some details of the proper procedure to transfer Tektronix shares without going through a broker seem to be still unanswered. The following is a more detailed outline of the procedure to follow:

If the transaction involves the sale of all the shares on a certificate to one purchaser:

1) Fill in on the back of the certificate the number of shares that appears on the face. space for attorney should be left blank.) Take the certificate to your bank and ask them to guarantee your signature.

2) Deliver the certificate to the buyer together with the transfer tax which is four cents per \$100 or major fraction (\$50.01 to \$99.99 is a major fraction) of the amount of the transaction, with a mini-mum of four cents per transac-

3) The buyer should properly his name the way he wants appear, his social security number and his address—all on the back of the certificate.

4) The buyer should make out a "Valuation Certificate" on a separate piece of paper. This should contain essentially the following: "The accompanying shares submitted for transfer have an actual value in the amount of as determined by the sales price or the quoted prices or other facts." This statement should be signed by the purchaser, and the word "Transferee" should follow the signature.

5) The buyer should then send the certificate, the "Valuation Certificate", and the tax money (always send the exact amount) to the Tektronix Transfer Agent. Continued on Page 2

Group-rep session, tours and movie launch UGN campaign drive at Tek

PORTLAND CENTER FOR SPEECH & HEARING was toured Monday by a Tektronix group. The center, located at 3515 SW Veterans Hospital rd., is a non-profit voluntary health agency partially supported by UGN. It is affiliated with the University of Oregon Medical School Department of Ear, Nose and Throat. Warren E. Johnson, M.A., director, showed audiological assessment equipment (center photo) and ushered Teks through the building. Considering themselves fortunate, three employees paused to look at hearing aids displayed there.

Last year Tektronix employees gave a total contribution of \$97,-098 with 85.2 per cent of employees participating. This year employees who can, are urged to contribute 87 cents per pay period

—a penny for each of the 87 UGN-benefited agencies. Those of bigger income are asked to refer to the UGN "fair share" scale on the back of the pledge card.

Each area's performance report will be in terms of UGN fair share percentage, not dollar con-

About 45 selected managers and group representatives toured UGN-supported agencies Monday through Thursday.

This week (Tuesday through Friday) department managers appealed to their supervisors. Next week (October 9-13) group managers will hold individual meetings and pass out pledge cards for employees to sign. All meetings will include a showing of "Their Profit Share."

Managers have until Wednes-

"If you don't care, who will?"

ERA/ISA show to open next week in Seattle

Tektronix will exhibit in booths 103-104 at the 1963 ERA/ISA exposition in Seattle next week, October 9 and 10, at the Seattle Center display hall.

ERA/ISA stands for Electronics Representatives Assn. and Instrument Society of America.

Featured instruments will be the Type 647 new environmentalized oscilloscope; the Type 585A scope; Type 567 digital readout scope with the Type 262 programmer; Type 564 general-purpose storage scope; the Types 661 and 502A scopes. Other instruments, plugin units, trace-recording cameras and accessories will be shown.

Group reps, managers tour eight UGN agencies

Group representatives and managers got a first-hand look this week, at eight of the eighty-seven United Good Neighbor agencies in the tri-county area.

"Seeing these agencies personally," one employee remarked, ally," one employee remarked, "was an experience I will never forget. I am proud to be a part of a society that so willingly gives assistance to its fellow man. proud of, and thankful for, nurses, doctors, teachers and other volunteers who are giving so freely of their time and talents and, literally, giving of themselves. More than ever I realize how little I am doing to

Monday through Thursday four tour groups each saw two of the following agencies: White Shield Home, Portland Center for Hearing & Speech, United Cerebral Palsy (OO Workshop), Volunteers of America Day Nursery, Boys and Girls Aid Society, Research Center—Oregon Heart Assn., Rehabilitation Institute of Oregon and the Fruit & Flower Nursery.

These employees participated in the tours and reported back to their groups and departments about what they had observed:

Bill Lowery, Chuck Gasser, Doug Hubbard, Bill Swift, Dick Jamerson,

Ed Srebnik, Esther Miner, Rick Roskopf, Phyllis Jensen, Walt Range, Howard Blingham, Art Stipe, Pete Keitges, Mary Dober, Bill Lee, John Hoekstra, Bob Ricks, Cal Smith.

Carl Taylor, Dale Derby, Jerry Maxwell, Rod Kennedy, Don Postlewaite, Chris Christensen, Gale Byars, Pat Nordone, Gloria Prince, Errol Livesay, Marlow Butler, Jack Rogers, John Mepham, Ralph Ulrich, Egon Elssner, Bill Parker, Bill Brown, Pat Steerman, Bobbie Klink, Roy Slack, Gerry Taylor, Ingeborg Pierce, Dorothy Thorson.

Jim Margeson, Loyde Osburn, Wally Blackburn, Bob Swanson, Floy Parries, Ted Hiatt, Jim Cobain, Dick Machlan, Mary Whitcher and Lois Lockwood.

Tours were arranged by the Plant Supporting Services depart-

New phones connected for Bldg. 47 offices

These three employees have new delivery station numbers and/or telephone extensions in Plant 4:

	Phone	Del. sta.
Earl Wantland	7394	47/340
Myrna Martin	7393	47/340
Homer Speer	7397	47/354

Their numbers and addresses do not appear in the current edition of the Tektronix telephone directory.

Share transfer

Continued from Page 1 DO NOT send a stamped selfaddressed envelope as was pre-viously reported. The Transfer Agent is required to return the certificates in its own envelope.

If the transaction involves the sale of only a part of the shares on a certificate, or if a part of the shares are sold to one person and the remainder to another person, do not perform step above but leave this blank and attach a letter explaining what you want done. Show each purchaser's name, social security number and address and the number of shares that he is buying. If some of the shares are to be reissued to the original owner, show the number of shares and the address to which the new certificate is to be returned. Be sure that the sum of these equals the number of shares shown on the front.

Send the certificate, the letter of instruction, the "Valuation Certificate", and the tax money to the Tektronix Transfer Agent.

Remember the Tektronix Transfer Agent.

Remember the Tektronix Transfer Agent is the Corporate Trust
Division, United States National
Bank of Portland, P. O. Box 3168, Portland 8, Oregon.

Any further questions concerning the new Tektronix Inc. shares or the old TEKEM shares should be addressed to Les Stevens or Verne Griffith at ext. 7644 or de-livery station 74-200.

If any of the shareholders have been married or otherwise changed their name, call Les or Verne for instructions as to how to get new certificates registered in the new name.

Tek's new salary guide covers new wage laws

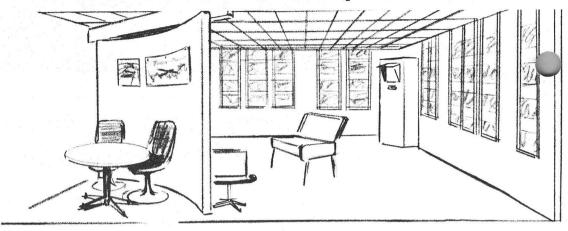

With the new minimum wages now effective under both the Walsh-Healey and Fair Labor Standards acts, and new tests of determining persons exempt from these laws, the 1961 Tektronix Reference Guide has been revised by Salary Administration. The revised TRG explains provisions of both federal acts and the Oregon labor law on wages and.

Copies of the 1963 guide are being distributed to all managers. Also included is a summary of the federal "equal pay" amend-ments, barring discrimination due to sex. Oregon has had such a law on the books since 1955. The Fair Labor Standards act

wage revisions went into effect September 3, 1963; Walsh-Healey changes were effective June 28,

TEKWEEK is published every Friday for Tektronix employees by the Communications department, 74/288, ext. 405, in cooperation with the Printing and Photography departments. Staff: Dick Koe, editorial manager; Carol VanderZanden, editor-writer; Jane Martin, staff writer; Charlotte Snethen, Trading Post; Graphic Arts group layout and pasteup.

PI booth: Photos, scopes, film

A MODERN, CONTEMPORARY-STYLED BOOTH is being put together for this year's Pacific International, October 12-20, through the efforts of Ken Ireland (Communications, Graphic Arts), booth designer; Tom Williams (Plant Supporting Services manager), coordinator; Harry Allison (Advertising), scope display; Levi Brekken, Mel Morlock and Al Krueger (Facilities, Carpenter Shop), construction. The booth walls are lined with burlap with a blue rug for the floor.

Junior Achievement gets new advisors

Advisors for the Tek-sponsored Junior Achievement company for 1963-64 are Dick Falk (Employee Relations), management advisor; Norm Silver (Employment), sales advisor; and Al Hayes (Plant 2, Assembly GM), production advis-

or.
The advisors are now involved in training sessions. They will meet with their Junior Achievement group next Tuesday.

Departments cooperate to build exhibit for Pacific International

Tektronix' booth for the nineday Pacific International Livestock Exposition (PI), October 12-20, is taking shape with Plant Supporting Services, Advertising, Facilities and Communications departments arranging for display.

It includes: Panels of photographs of scope applications, production processes and industrial park scenes; a working display of Tektronix instruments (Types 564, 567 with a 6R1, 502A, 321 and 661); and a five-minute film clip composed of sequences from the Tektronix-produced film, tronix."

Both men and women employees representing all divisors of the company are being s uled as booth-tenders.

The Tektronix, Inc. booth is -9, near the main entrance of the PI building. Neighboring booths will be set up by such local firms as Pacific Northwest Bell Telephone, Northwest Natural Gas and Portland General Electric.

"Pacific Northwest — Future Unlimited" is the theme of the PI this year, which will be held in the PI exhibit building in North Portland on Columbia blyd.

PI-goers will also be able to see a championship rodeo and horse show; a 20th century revival of Roman chariot races; prize beef dairy cattle, horses, hogs, beef, dairy cattle, horses, hogs, sheep, poultry of the West; a wild-game and fish exhibit; flower show and many more displays.

Gate admission for the PI is \$1.00 for adults; children under 12 free. Rodeo and horse show tickets (including gate admission) are \$2.00, \$2.50 and \$3.00. Children's tickets for the show are \$1.00 less than adult fare.

Credit Union announces its policy on Tektronix, Inc. share dealings

Ted Shaver, board member of Tektronix Employees' Credit Union, gave the following information this week on the Credit Union and Tektronix, Inc.

Stock Loans-As announced in last Friday's Tekweek, the Credit Union will loan up to 70 per cent of the previous week's average bid price on Tektronix shares at 3/4 of 1 per cent per month on the unpaid balance.

Loan value will be set on the first of each week and will remain at that value for that calendar week. As with any other lender, if the value of the security drops to less than 70 per cent of the balance due to the loan, additional collateral may be requested.

Stock Sell Orders—Since it is

no longer a simple transaction as was the sale of TEKEM, the Credit Union has made an agreement with Walston & Co.; Blyth & Co.; Merrill, Lynch, Pierce, Fenner & Smith; and Dean Witter & Co. to act as brokers for the Credit Union if it becomes necessary to sell stock.

This arrangement can, on request, sell a member's security, receive the proceeds of the sale, pay off the loan and place the remainder into Credit Union shares to be withdrawn at the member's discretion.

If the Credit Union is holding Federal more collateral than needed, the ollowing loan may be renegotiated and on the whole certificates returned to the member. It is also possible to have a certificate split and a part returned.

All members having shares at the Credit Union not pledged as collateral are requested to pick up

their certificates.

Stock Powers—Stock powers must have a guarantee of signature. As presently stated on the Tektronix Stock Certificate, signatures must be guaranteed by a commercial bank, trust company or a stock exchange or other security dealer whose signature is approved by the transfer office (The United States National Bank of Portland).

In order to provide one-stop convenience for its members, the Credit Union has asked for approval to act as a signature guarantor. Authorization is expected

Larry Bowman (Semiconductor Devices), Ed LaBerge (Ceramics Engineering manager) and Bob Skidmore (Ceramics) left Sunday, September 29, to attend a meeting of the Electronics division of the American Ceramics Society in Gatlinburg, Tenn., October 2-4.

FROM 209 AVE: nr. Reedville, to Plant 1, 7-3:30 shift, MI 6-2204.

RIDIN' HIGH aboard a war-time DUCK is favorite pastime of 10 Tek employees who share ownership in "ugly duckling". (Right) John McAllister (Research) ends demonstration ride and shows bulk by parking next to toy-like auto. DUCK'S deck hides spacious storage room below (left).

Land and/or sea vehicle, DUCK, provides fun for 10 Tek families

drive a glamorous vehicle. In fact 10 employees take turns driving the biggest, greenest, least designconscious, low-status hunk metal and machinery that's been seen around for some time.

John McAllister, Norm Winningstad, Mike Park, Bill Polits, Larry Bowman, Bob Ricks, Donald Pratt, Roy Karr, John Rogers and John Kobbe are all co-owners in an amphibious "DUCK," which has been appropriately named

"Donald."

Donald paddles its 31-foot self, plus as many as 30 adults and children, around the Columbia river and deposits them on dryground for picknicking, camping and fun, almost every sunny week-end. The children roll up in sleeping bags and sleep aboard the DUCK, and the parents pitch tents and sleep nearby.

Built in 1943 as a troop-carrier,

Tek Bugs start season with ten 200-games

The pins were flying at Valley Lanes Tuesday (September 24) as the men of Tek Bugs bowling league rolled ten 200-plus games and some of the gals picked up difficult splits in their fine games. Two-hundred-plus games:

Arnold Brokaw 214; Tim Harnett 205 and 219, 596 series; Hal Krouth 223; Francis (Andy) Anderson 206; Bill Driver 211; Roger Tippett 216, 583 series, and (bowling way over his head) Harry Stewart, 227, 221, 230 for a 678 series.

Tek Bug women highlighters:

Lorraine Stewart 216, 544 series (high for the evening); Marge Livermore had a 148 triplicate working, but lost her head and picked up the last five pins, finishing with a third-game score of 153; Helen Sherrod (104 average) raised her average with a 172 game; Audrey Stephenson picked up the 5-10 split, Lorraine Stewart cleaned up a real mess—the 4-7-9-10 split.

The local press has referred to the DUCK can whip along at 40 Tektronix several times recently mph on land and at about 10 as "the glamour industry of Ore- mph on water, with a diet of gon." Maybe our industry is one gallon of gas every five miles. glamorous, but one thing's cer- It's equipped with a ship-to-shore tain—everyone at Tek doesn't marine radio, a 160 hp GMC gas engine, a 26-inch prop and enough fresh water in enclosed tanks to keep its passengers from getting thirsty for several days. The newest addition the craft is a fathometer, to measure depth, and according to John McAllister it's sensitive enough to detect a large fish or school of smaller fish, beneath the hull.

> What happens when omes? Norm Winningstad rewhen winter comes? ports the group plans to install a canvas convertible top, so the rain will run off the DUCK the way it should—and it might be seen on the Willamette from timeto-time, with fishermen aboard or even duck hunters. But mostly, Donald will be resting.

Flag football:

Wallopin' Wolverines cop top league notch-so far

TEK FLAG FOOTBALL LEAGUE Second Week Standings

> LAST WEEK'S RESULTS Falcons 18, Thunderbolts 6 Wolverines 26, Stompers 12

NEXT WEEK'S GAMES

Tuesday: Falcons vs. Alchemists Thursday: Wolverines vs. Thunderbolts Bye: Stompers

By ED DAVIS

The fleet-footed Finals Falcons outran and outscored the Plant 3 Thunderbolts 18-6, Tuesday, September 24.

A Bill Hardin-to-Jim Tennyson pass was the only paydirt the Thunderbolts could scrape up. Jim Tennyson (at this point) took over second place in the

scoring race.

Dovce Brown hit Bob Pyritz with a short pass for the Falcons' first goal, than a pass-run combo from Richardson to Doyce clicked for number two. The third jaunt into the end zone was unexpected but welcomed when Bob Richardson intercepted a Thunderbolt pass and scampered all the way back to score.

On Thursday, September 26, the Warehouse Wolverines chewed the Stompers down, 26-12.
Stompers scoring was limited

to two touchdowns: a 40-yard pass-run from Gerry Johnson to John Flett and a 10-yard payoff run by Harve Dethlefs.

Wolverine scoring was spread it considerably: Dick Snyder out considerably: Dick Snyder scored; Delano Dalesky pitched to Don Craig for the P.A.T.; Austin Carpenter intercepted a pass and ran it back for TD No.
2; Dick Snyder threw to Bill
Dreyer for TD No. 3; Delano
Dalesky ran for the fourth TD and then passed to Dick Snyder for the P.A.T.

The Stompers scored first in both halves of the game, but couldn't hold off their East-Ware-

house neighbors.

See inter-departmental flag football games every Tuesday and Thursday afternoon at the field between Mears and the IO building on Millikan way. Games begin at 4:30.

CRT, Soldering films to be available soon

Two new films, produced by the Communications department Films group, will soon be available for in-plant viewing.

"Cathode-Ray Tubes: Inspecting and Testing" is a 22-minute

film, color with sound, that shows some of the defects a technical man might encounter with ode-ray tubes. Employees would like to schedule or view the film, or obtain more information, may contact Jack Mil-

"Soldering Ceramic Strips, No. 2" details the techniques of soldering and shows newer soldering and shows newer soldering and shows newer soldering methods. Techniques to be used on the new smaller strips are described. The film runs 22 minutes and is color with sound. For information, previewing or scheduling call Charlotte Snethen (Communications), ext. 7176.

Employees to receive IBM cards for flu vaccine shots next Friday

be available to Tektronix employees next Friday, October 11. A 50-cent payroll deduction will be made for those receiving the vaccine. Supervisors will distribute IBM payroll deduction cards on the morning of October 11 and those who do not wish to receive the flu shot may throw their cards away. Employees must bring the IBM card with them to the immunization center.

Only employees (no dependents) can receive the vaccine and no make-up shots will be given. Minors (single persons under 21) must have written permission from parents or guardian before receiving the flu vaccine. Permission forms may be obtained the nurse's offices and all minors must bring the signed form with them.

The vaccine will be admin-

Bldg, 45 (Cafeteria)—7 a.m. to 12 noon; 4:30 to 5:30 p.m. Bldg, 86 Conf. Rm.—1 to 2 p.m. I.O. Conf. Rm.—2:30 to 4 p.m.

Swing shift personnel will receive their shots in building 45. Those groups who have not been assigned a definite time and place can report to whichever location is most convenient at the scheduled times.

Persons with cold or flu symptoms should get their flu shot from their personal physician after the symptoms are gone. Those who have severe allergies (especially egg or chicken) should check with their family doctor before taking the vaccine.

Further questions may be answered by calling one of the nurses at ext. 562 or ext. 303-S.

CALENDAR

Tek Foto-Bugs-Monday, October 7, Polyvalent influenza vaccine will istered at the following times and real polytonia conference room. Tek Fall Handicap golf—tomorrow, October 5, Rose City course, tee-off tober 5, Rose 10:30 to 11:30.

Job Postings
