#### WARNINGS:

- Do not use or place any of the items on the stovetop or in any oven, including a microwave.
- Follow all Care & Use instructions before using.
- CAUTION: All items will become HOT when using. It is recommended to always use mitts or a dry towel when handling.

## Using the Utility Basket

- ◆ The Utility Basket allows you to easily steam, boil, and strain many different types of foods.
- ◆ It is recommended to first place your food into the basket while the water is heating up in the Vertical Pot (not included). Once the water has been brought to a boil or desired temperature, gently place the basket into the pot (not included) using the basket's silicone handle.
- ◆ It is recommended to only fill the Vertical Pot (not included) half full prior to placing the basket into the water, as the water will rise depending on the weight and volume of the basket. Over filling the pot with liquid can cause the water to overflow once the basket is placed into the Vertical Pot (not included).
- ◆ It is recommended to always use the silicone handle on the basket when handling.
- ◆ CAUTION: The silicone will still become hot, it is important to always use oven mitts or a towel when handling.

## Cleaning and Care

- ◆ While your items are dishwasher safe, hand washing with warm soapy water and a soft sponge or towel is recommended and will prolong the life and beauty of your accessories.
- ◆ Do not use harsh or abrasive cleaners. Never use scouring pads on any part of your cookware.
- ◆ Always allow your cookware to cool completely before submerging in water.
- ◆ Never scrape the pan and always be gentle when using utensils.

## Cooking Tips

- ◆ When making tortellini or any other stuffed pasta try using the Vertical Utility Basket for easy cooking and straining!
- ◆ Your Utility Basket can boil up to approximately 18 Medium sized eggs at one time! Always make sure there is at least 1 inch of water covering the eggs. Once the eggs are boiled to your desired doneness, remove the lid, and using the silicone basket hand lift the eggs out of the water and set on the Cook's Companion® Silicone Trivet to cool!
- ◆ Steaming Clams and Mussels have never been easier! You can fit approximately 32 clams or 18 Mussels in the Utility Basket at a time! That's convenience at its finest!

## Using the Trivets

- ◆ The trivet allows you to let your food cool and drip dry, without making a mess of your counter space.
- ◆ The trivets can be used with either the Vertical Utility basket or the Vertical Pot (not included).
- ◆ When using the trivets, always make sure they are away from any of the flames and are set on a dry area of your counter to prevent slipping.
- ◆ The divots or small holes on the trivet will retain water that still remains on your food. However, for excess moisture, make sure the divots will not overflow. It is recommended to first allow some of the excess moisture to drip off the utility basket before setting the basket onto the trivet.
- ◆ Never place food that is not in the utility basket or vertical pot (not included) directly on the trivets.
