Better than Store Brands	Husband has been taking a similar supplement for a couple of years due to bone and tissue disease. Switched to this brand because of the focus on the PRO caps, reduction of 'extra fillers' in the product, and general excellent reviews. Within two weeks, husband notices a difference. Thankyou.	5	7/9/2019 12:14:53 PM
The only Glucosamine Chonroitin I can eat	I've bought multiple other brands of glucosamine, they were hard, too large, and didn't seem to work. With Dr Lessman's product, it is in a capsule which i open and pour into coffee in the morning. I blend it in with other ingredients for a keto type coffee, but the glucosamine / chondroitin would dissolve without being blended. I've reordered this product and plan to use it indefinitely. It's the only product worth my money.	5	7/8/2019 2:08:12 PM
Dont want to be without	Ive been taking this for a few years now and know for a fact it works. I have a bad knee and sometimes the other one will act up and this keeps me moving and pain free. I know it works bc I have gotten sidetracked a few times and forgot to take them. My knees let me know Ive forgotten! I also take about 20 of your products and have for many years. I dont want to ever be without any of them! Your products are top notch, triple A. I cant count how many ppl I have told about Andrew Lessman!	5	6/27/2019 7:38:08 PM
Superior to Other Brands	This has a safer and more absorbable formula which helps it get in your system quicker. It's easy to swallow capsules, but you have to take 4. I usually take a couple of days after pain subsides and then take more for several days a week later.	5	6/16/2019 2:24:33 PM
works great!!!	Ran out of pills and then the pain started in about a week, good to go now.	5	6/14/2019 4:05:01 AM

I'm A Believer	I was recently having painful knee pain and was diagnosed with knee arthritis. I had read medical reports on the use of glucosamine and chondroitin, so thought I would give it a try. I have to say I have been very pleasantly surprised by how much this has relieved my knee pain. Highly recommend trying this first instead of taking NSAIDs.	5	5/16/2019 8:11:25 PM
WOW!	Ok. These work! I would get up in the morning and the first 10 steps or so, I walked like I was about 100 years old or so and I also had a lot of pain in my hands. I swear, after less than 2 weeks, the pain was GONE!! Note: I also started the Keto diet the very same day, so not sure if it is actually the supplements or the diet but either way, I am very happy!!	5	5/16/2019 1:31:38 PM
Ordered the big bottle for a reason!	My hands can actually wake me up sometimes but since I started taking Glucosamine and Chondroitin I feel much better!	5	5/10/2019 6:57:18 PM

Incredible relief	These supplements are remarkable. I can walk my 3 miles without any knee or hip pain. I have tried many different brands over the years, Dr. Lessman is incredible it really works and I only take 2 a day for my 5'5", 135 lbs. body.	5	4/22/2019 12:46:14 AM
glucosamine & Chonroitin	Feel like they a working for me. Have reordered a number of times.	5	4/21/2019 8:59:39 AM
Excellent !!	I buy these for my dog who weighs 170 pounds so he is prone to hip issues, no more clicking noises when he walks ! They are amazing	5	4/10/2019 4:48:37 AM
in my 70s; great stuff!	I really notice a great difference being on this great product. I have major arthritis and my joints are doing much better because of this product	5	4/7/2019 3:47:51 AM

GREAT THAT THE 2 PRODUCTS ARE COMBINED...	I USED TO HAVE TO BUY GLUC. SEPARATELY & CONDROI. SEPARATELY. IT SEEMS TO BE WORKING WELL, AS I RECENTLY HAD AN OLD MUSCULAR BACK PROBLEM RESURFACE. I ONLY TAKE 1 A DAY & NOT EVERY DAY, BUT AM FEELING GREAT. SAVES ME \$ BY NOT HAVING TO BUY SEPARATELY. THANKS ANDREW & HSN!	5	4/3/2019 9:56:33 PM
Love this product!!!	I've tried and failed over and over to keep to a glucosamine and chondroitin regimen to help with my chronic joint pain, and adhere to medical advice. However, all the others were too big and indigestible to stick with. Dr Lessman's are small, have smooth capsules, and so easy to swallow. Plus, I now just open 4 caps and pour into my keto-style coffee and blend for a few seconds in my smoothie machine. Delicious! I now have a supplement I can use indefinitely! I'll be putting this on auto-ship.	5	4/1/2019 2:23:36 PM
Joint pain help	I have only been taking this product for a few days but have noticed a difference in my stiffness and joint pain already. The effect of the capsules are suppose to be gradual, so I am looking forward to even more relief in the future. Thank you, Andrew.	5	3/27/2019 4:42:56 AM
Knee pain	Great product!	5	3/21/2019 10:02:12 PM
Fabulous product	Changed my husbands life! Knee pain for a year and various attempts by doctor to improve condition with no relief at all. In desperation decided to try this product!!! Andrews products have helped us with several other issues and IT WORKS! Within 2 weeks he had no knee pain. In todays world of overselling products, it is hard to know what to trust. YOU CAN TRUST ANDREWS products!!!!	5	3/20/2019 5:12:19 PM
Excellent	2nd purchase. You can tell if you DON'T take them. They make a difference.	5	3/20/2019 2:37:32 PM
excellent product	why did i wait so long to try this vitamin?this is the best for my neck pain, will no longer be with out it.	5	3/11/2019 7:56:13 PM
5 Star	I was faced with knee surgery but when I shared with my doctor that I was taking Gucosamine & Chondroitin he agreed with me not to have surgery on my knee and to definitely continue taking this product.Floyd Smith	5	3/9/2019 10:19:56 PM
Great product	I couldnt walk straight down the stairs until I started taking this again.	5	3/9/2019 3:27:32 PM
Heath's joints.	For years I have been taking it and every since I had no trouble with my joints. Your research has panned out to my benefit. Thank you.	5	3/8/2019 2:25:40 PM
Pam J.	I have been using this product for a long time. Don't remember when I started it. Sometime after I was using it I had to stop because money was tight. It was almost a year before I needed it. I love this product. So glad I have the money to continue buying it. Thank you Andrew for your products. I do use about 4 other of your items.	5	3/8/2019 12:27:17 AM
Great	Works great. With taking this and my Twitter inversion table table back pain is under control	5	3/3/2019 1:30:50 PM
Wow! My knees feel sooo much better!	Wow! Another great product from Andrew Lessman! I was recently diagnosed with 2 torn menisci where surgery was suggested. As I am always hesitant to jump under the knife and through the advice of family, I started taking Glucosamine & Chondroitin. I didn't bother even trying any other brand. I don't know if it is psychological or true, but my knees started feeling better within days. They still hurt however I am going up and down stairs much better. I have much more range of motion.	5	2/26/2019 1:15:16 PM
the best for my knees	This is a great product for my knees. so happy that this product is available.	5	2/24/2019 8:46:40 PM
Effective	I've known the value of this supplement for 20+ years now. I'll never forget a coworker's excitement as he told me how it miraculously helped his knee pain. He wanted to tell everybody! 8 years ago I also developed a knee issue - very debilitating! After 3 days of taking AL's G&C, my own issues almost completely stopped! I've had flareups, but as long as I take the pills regularly it stays in check. I've tried not taking them but then the pain comes back after a short while.	5	2/20/2019 3:37:34 PM

Great product.	I have great results within a week of taking this product, knee pain subsided. I am currently taking 3 capsules one each meal. Thank you.	5	2/18/2019 11:53:38 PM
Great Product	I was skeptical at first, but after using the supplements after a short time, I noticed less joint pain in my knees. If I feel this good this soon, I cant imagine how much better it gets with time. Thanks Andrew.	5	2/18/2019 4:55:38 PM
Stopped the grind	Helped me feel relief in both knees from perceived weakness and grinding. This formula/product from AL has worked when all others have failed to give me detectable improvement!	5	2/17/2019 7:14:36 AM
Glad that I purchased this product.	This is a good product, HOWEVER, you can make it GR8, by combining it with the Turmeric & Curcumin. The combination is a life saver to my joints in this cold winter season. Thanks HSN for bringing us Andrew Lessman!	5	2/17/2019 1:41:33 AM
What a great item!	Been using for some time. When report came out that they didn't work, stopped for a few weeks. Definitely felt difference in joints. I'm 81 and I can tell you they work for me!	5	2/16/2019 10:54:42 PM
Life changing!	This is my desert island choice! I would never ever be without this supplement as it literally saved my knees five years ago. Let me be clear, this is nothing like the supplements you get at your drugstore. This is the sulfate form which is more expensive and in my opinion the only form that actually heals your joints. Thanks, Andrew!	5	2/16/2019 4:49:14 PM
Joint supplement	Easy to swallow capsules and very well packaged. Thank you Andrew for another good supplement.	5	2/15/2019 2:34:56 PM
MORE THAN 5 STARS	THANK YOU. THANK YOU. THANK YOU. I TOOK THESE ASAP DIDN'T THINK NOTHING ABOUT IT UNTIL I GOT UP FROM A SEATED POSITION WITHOUT KNEES ACHING... AND THIS WAS THE FIRST DAY. WILL NOT GO WITHOUT THEM,... I AM A BELIEVER AND I'M HOOKED. I GIVE IT 10 STARTS IF THEY HAD THEM.	5	2/7/2019 2:58:47 PM
Great	Has returned my mobility.Exercise and stair stepping like a champ again. Thanks!	5	2/5/2019 3:43:47 PM
Amazing product	I have frozen shoulders and have been on advil. Bought this miracle product and truly am amazed at its effectiveness. Shoulders still frozen but no more pain and no more advil.Life is wonderful now no more pain, what a product!	5	2/2/2019 6:29:56 PM
great	Very good product. This is a re-order.	5	2/1/2019 10:05:44 PM
Can't live without it	We ran out and my husband and I noticed pain quickly returning. Now I stock up!	5	2/1/2019 9:05:29 PM
Wonderful Product	My husband and I love this product. We try never to be without. It does everything it says it does and more. Thank you Dr. Lessman for your monthly and event special pricing. That helps us to be able to purchase a number of your great products!	5	1/30/2019 10:40:26 PM
Love it	I was skeptical before, but when I watched Andrew I decided to give it a try. Oh wow, I felt the difference after 3 days. My knees don't hurt anymore when I use the stairs.	5	1/30/2019 3:27:01 PM
The best	The best We have been purchasing this over five years now, we truly could not get by without it .of course we expect nothing from the best from Andrew and thats what you get the best	5	1/24/2019 9:57:26 PM
Great Vitamins	I have been using Andrew's vitamins for years love them 5 STARS!!!!	5	1/24/2019 2:09:34 PM
WOW,WHY DID I WAIT	I have chronic arthritis and the pain in my knees causes my blood pressure to sky rocket, I "wasn't sleeping nights". I want to get off of my pain meds and figure this can't hurt.I started taking these 7 daily 5 in the morning and 2 prior to bed. I added Andrews Tumeric-450, Ginger-450 and MSM 500. I can honestly say that for the first time in at least 10 years M y TERRIBLE PAIN has decreased by 90%, I've been sleeping much better without my heating braces. I ordered additional large bottles	5	1/21/2019 12:24:15 PM
Glicosamine and Chondroin	Great for arthritis joint pain!Will never be without. I, my husband, and son really know the benefits with this product. Thanks Andrew and HSN Dorothy from Ohio	5	1/20/2019 10:29:35 PM
A must have	I will not be without this product! Fortunately, I do not have many joint issues, but I think some of that is attributable to using this product for years consistently.	5	1/17/2019 11:26:10 PM

Works!	My husband has taken this for about 2 years. He has rheumatoid arthritis. He was taking another byflex pill with the same ingredients. We ran out of the Andrew lesman version and he said no big deal I have some byflex ones left. About a week later he kept complaining about how much pain he was in. He only takes 2 pills a day. 1 in the morning and 1 in the evening. I ordered a bottle right away and with in days of receiving he was feeling better. When he's in more pain he takes an extra pill.	5	1/17/2019 7:17:13 PM
Wish I could give 6 stars	This product is very deserving of 5 stars. At the age of 73 I find it gives me the freedom to walk the city, which I do every day. It also lets me climb stairs (yes I said stairs) without difficulty. Thanks, Andrew for telling us why your product is superior to the average product on the market. Worth every penny this cost.	5	1/16/2019 3:12:38 PM
Keeps me Movin'	I have been using this for years. I have tried other brands and can testify that THESE are the ones you want. I will always take 'em :) Thanks Andrew	5	1/14/2019 5:11:47 PM
Great product and value	Great value and product	5	1/14/2019 4:10:19 PM
Buy soon!	I just wanted to write that Andrew announced last night (1/12/19) that there will *not* be a Todays Special on Glucosamine/Chondroitin this month as usual. He couldn't get enough product! So he just slipped in a quick comment about it and said the current January pricing is actually Today's Special pricing even though it isn't an actual TS. He's trying not to disappoint the many thousands who always buy the TS. Buy now! Before it goes off Special! (usually in January)	5	1/13/2019 9:03:44 PM
diminished joint discomfort	Since taking one twice a day for several months now , I have minimal to no joint pain. I use to be bothered with joint discomfort during significant weather changes.	5	1/10/2019 5:07:27 AM
Tried & True	I remember back in 1991 a coworker excitedly told me all about this new miraculous supplement he discovered and how it changed his life & wanted everyone to know about it! I was young & with no joint pain at the time but when I developed severe knee pain I tried this. In 3 days the months long pain was gone. Hmmm. At 64 I use it religiously. When I don't use this for 2-3 wks I start feeling aches in my bad knee.	5	1/9/2019 3:57:57 PM
Works Wonders	ran out of my first bottle and never want that to happen again. Beforehand I had been taking over the counter supplements and they just weren't working. Once I started taking this Glucosamine and Chondroitin my hands feel so much better!	5	1/3/2019 4:56:32 PM
The best for aching joints!	I have been taking this glucosamine supplement for years with great results. Definitely notice a difference when I don't take it. Our old beloved 70# bulldog had joint problems also, so we sprinkle 1 capsule daily on her food. She is able to climb stairs and run comfortably again after 1 week of supplement. Thank you Andrew!	5	12/25/2018 11:03:21 PM
Andrews capsules	I bought this product for my son. He has arthritis. He says it helped with the stiffness and soreness he was having in the morning. I will have to try it myself as I am if a particular age.	5	12/21/2018 3:49:56 PM
I'm a believer!	I have already started have some pain in my hands and what the doctor had recommended wasn't working. I ditched them when I got these! I still have pain every once in and while but my daily pain has gone!	5	11/18/2018 11:01:55 PM
Husband loves it	This is an awesome product. Just ran out and need to reorder. My husband can tell when he is not using it.	5	10/28/2018 6:02:43 PM
DOG JUICE	I HAVE A 9 YEAR OLD POMERANIAN. I TOOK ANDREW'S ADVICE AND OPEN UP A CAPSULE AND POURED IT IN....ANDREW SUGGESTED WATER BUT I MAKE ORGANIC CHICKEN JUICE BY SCRATCH AND MIXED THE CAPSULE IN THERE. MY DOG DOESN'T EVEN KNOW SHE IS TAKING MEDICINE. I AM VERY HAPPY SHE IS GETTING THE BEST MEDICINE THAT IS OUT THERE....ANDREW'S!	5	10/26/2018 6:38:58 PM

Great for Dogs too!	I ordered this product for myself a couple of years ago. I take so many of Andrews vitamins, but somehow could never get this into my vitamin routine. In Spring my dog started having troubles walking. So I added this to the vitamins mix. Wow, I went from an old dog to a puppy again. He is running and jumping like a much younger dog. I also give him Marine Collagen Peptides. I unfortunately ran out of this product in September and saw my dog decline, but thankfully Andrew was back on in October.	5	10/20/2018 1:39:35 PM
Always great	Great as always, can't be without this stuff.	5	10/20/2018 8:07:58 AM
GREAT PRODUCT!!	IT WORKS!!! ALMOST INSTANTLY YOU FEEL THE DIFFERENCE IN YOUR HANDS!!!!	5	10/18/2018 7:44:16 PM
Improving joint function!	This replaces another glucosamine product I have used, which helped, as when I ran out I could tell within a week. Thought I would try the Lessman ones as I have gut issues related to an autoimmune condition that rush everything through, and the gel caps get digested more quickly. I am up to 5 miles a day on the treadmill at age 70 even with rheumatoid arthritis. Thank you for helping me stay independent!	5	10/15/2018 2:43:01 AM
Sharing the good stuff	This order was sent to my sister-in-law. Been sharing this product with family members for years. Great for those achy joints.	5	10/14/2018 2:51:33 PM
Best product of its kind	Both my mother and I have joint problems and this has been a Godsend. It does exactly what everyone says that it does. I suspect that it also helps rebuild connective tissue and cartilage throughout the body. Personally, I take extra supplements to replace what my body has lost with age. And I think you should too if at all possible. I highly recommend this product.	5	9/21/2018 1:40:18 PM
10 stars	Six plus years ago a doctor informed me I would need a knee replacement Purchased this product, have taken it now religiously and I have knees, working well. What more can I say?? Thank you Andrew. I take several of his products and swear by them Best item HSN sells!!!	5	9/19/2018 3:53:27 PM
The missing link	This Glucosamine and Chondroitin product was the missing link for my legs and knees. I was already taking Circulation/Vein Support, but when I added Glucosamine/Chondroitin, the two products together took away ALL pain and now I will NEVER have to think about knee surgery again. What a relief!!!! I feel so grateful to Andrew Lessman for ALL his wonderful products. They really do a great job!!!!	5	9/17/2018 10:27:44 PM
Pain be gone!	I have purchased this product in the past, after a week of use my knee pain was gone. Work 12 hour shifts, constantly on my feet. This product does what it says, and pills are easy to swallow. Will continue to purchase this product.	5	9/15/2018 3:09:53 PM
A product that works !!	Was very apprehensive about taking this product but heard such good results from others I decided to give it a try. I'm only finishing the first week and don't know if it's my imagination, but, I'm feeling better already. My joints, especially one knee was throbbing me constantly and now it's gone. Never thought I would be feeling so much better. Thank you Andrew!	5	8/23/2018 1:37:04 PM
yellow banana	I feel that this item has really helped my knees. I have osteoarthritis and have a problem walking half of the time and also have pain. This has really helped. Thank you Andrew for your wonderful products.	5	8/21/2018 5:03:47 PM
Can't live without!	I have really bad knees and lower back from running around on a cement floor for 29 years! If I don't take this daily, my knees are killing me. I won't ever be without this!! Thanks Andrew for such an amazing product!	5	8/21/2018 10:46:13 AM

Helpful	Actually see-feel difference. Thank you. Less stiffness and pain!	5	7/27/2018 3:43:57 PM
Another 5-Star for Me!	This is another 5-star of Andrews that works for my body. It doesn't upset my stomach like others can that I've brought from drug stores in the past and stopped using until Andrew's came along. I'm back taking healthy products. Thanks Andrew.	5	7/26/2018 6:09:22 PM
REALLY WORKS	Plain and simply, it works! I take this every day for knee pain. Pain is gone! I've given Glucosamine/Chondroitin to family and friends or directed them to buy this product. My father is 84yrs old and has arthritis in both knees, so badly, that I often had to take him to the ER for the pain. He could barely walk, climb stairs or even just sitting, he will have severe knee pain. Two of Andrew's Omega 3s and 4 Glucosamine/Chondroitin per day and my father's pain is completely gone!	5	7/26/2018 4:00:58 AM
HAD TO SCHOOL MY DOCTOR	My ex-doctor did not believe in glucosamine. He told me that my improved joint health was probably due to something other than taking this product. He insisted that most of his patients that took glucosamine never improved. I tried to explain about the difference in how it is manufactured. Alas, I believe he was insulted and I am now seeing a different doctor. Thanks Andrew for educating the masses.	5	7/15/2018 4:10:25 PM
RECOMMEND	I've used this product for a couple of years and can tell the difference when I run out.	5	7/5/2018 6:58:18 AM
Satisfaction guaranteed	I'm a nurse,always on my feet .the last 4 years I've been experiencing alot of all over aches and pains thruout my body getting worse and draining my energy and well being ,I wake up in the mornings hurting and praying to get me thru the day ,I consumed alot of pain pills daily,one night I was watching HSN when they're presenting Andrew lessman glucosamine with chondroitin and I said this has to help my body !!!!! Relief of Knee Pain	See my full review on MSM which I take with this product. Stabbing knee pain due to bilateral medial miniscus tears relieved. I am amazed. Other brands, one of which was involved in a Class Action Law Suit, didn't do a thing. State entry doesn't work, but I'm from Texas.	5	7/1/2018 1:26:00 PM
Miracle Supplement	Your G & C combination is about as good as it get. I don't want to get low on them least long run out. They are a HUGE help for my deteriorating knees that now have been revitalized by this miraculous supplement. Changing people's lives 1 pill at a time, is most generous of you and I applaud you for that. Again, thanks Andrew for a job well done.	5	6/30/2018 6:40:24 PM

Great capsule form!	My husband and I have been taking Glucosamine and Chondroitin for a long time. We started using these about a year ago. They are much easier to take, and they really work. We both notice a big difference when we run out of them and miss a few days. I am ordering the 480 capsules now!	5	6/22/2018 4:33:56 PM
SURE HELPED ME.	HAD JOINT PROBLEMS, NOT SURE I WAS LOW ON CALCIUM, TOOK THESE CAPSULES , IN ABOUT 2WKS NOTICED THE DIFFERENCE IN MY JOINTS, ALOT BETTER AND ALOT LESS PAINFUL. I NEED TO MAKE SURE I EAT CALCIUM RICH VEGGIES AS WELL. YES I WOULD RECOMMEND THIS IF YOU ARE HAVING JOINT PROBLEMS. I WAS SKEPTICAL BUT THIS STUFF IS WORKING. MICHAEL	5	6/11/2018 2:06:06 AM

Amazing product	I am taking this and so is my 14 year old Great Dane. I feel much better in my joints, but my Great Dane is moving so much better. Very wonderful product.	5	4/28/2018 9:05:30 AM
Joint Relief!	I use this product daily. I take 2 to 3 each day but not all at once. I know they help my joint pain. No problems with upset stomach. I highly recommend.	5	4/25/2018 3:30:25 PM
Keeps me Moving	Before I started taking Glucosamine and Chondroitin I had trouble with knee and hip. I could only walk a few blocks before the pain set in. Now I can walk two to three miles at a time with no pain. It's been a life saver. My mobility is also much better. Thank Andrew. Keep up the good work.	5	4/19/2018 3:37:11 PM
Knee trouble	My knees have always been an issue but since taking these I've had relief. I can walk for hours and work out without having pain or discomfort.	5	4/18/2018 2:21:02 PM
Can't live without these pills.	I was having surgery for something and had to stop taking these pills 10 prior to surgery. My back and knees knew I stopped. I was suffering so bad without these pills. I could not wait to be able to start them again. It only took a couple of days after I was able to take them and then my back and knees where much better.	5	4/18/2018 11:28:13 AM
Another great Lessman product!	Andrew teaches us about the product, proudly shows us where he makes it, and I feel great taking them! Thank you!	5	4/15/2018 4:59:31 PM
Wow! goodbye pain!	wonderful product. Had knee pain and within 2 days of taking this product, the pain is gone and I have not felt it coming back. I have ordered another bottle of this product and if it keeps my knees free of pain, I will continue probably forever! Thanks Andrew!	5	4/8/2018 5:22:48 PM
Glucosamine 1500 and Chondroitin 1200	I am not a person that reviews product but decided I should on this product. I have arthritis in my hands and feet. My left hand was becoming very stiff and ached constantly. I really tried not to take Aleve but was 2 3 times a week. Since I have started to use the Glucosamine 1500 and Chondroitin 1200 with the MSM 500 the improvement is amazing. The pain and stiffness in my hand and feet has been incredible. I highly recommend these products.	5	3/16/2018 1:10:38 AM
Great!	Works for me.	5	3/9/2018 4:01:29 PM
Good product	I really like this product, it's just a little pricey, maybe bring down the price	5	3/9/2018 2:26:28 PM
great rproduct with great results	Although I am only in my 50's, I have serious joint issues. This has helped both me and my 86 year-old mother alot.	5	3/9/2018 6:31:36 AM

Andrew Lessmans Glucosamine Chondroitin	Andrew Lessmans products are the best! I am a very loyal customer. I use 10-12 on a daily basis. I Always watch the specials to get the best price.	5	2/27/2018 3:04:00 AM
free to move again	I was one of those people who when I sat down for any length of time, or rode for about 15 minutes in a car, when I got up, I would have hip joint pains and walk slightly bent over for many steps before I could walk correct again. This has eliminated that! I can sit, watch TV, eat at a restaurant, drive a car for an hour, and no problem with my hip joints anymore. I should have started them earlier, but the idea of taking 4 a day stopped me due to cost, but, I guess I bite the bullet there so I can walk normally again. Ordering another bottle!	5	2/25/2018 7:30:56 AM
my knees love this product	i have had knee surgeries and since ive been using this product i can feel a difference, i love and use so many of andrews products, thank you andrew again	5	2/25/2018 2:44:03 AM

Glucosamine and Chondrotin	I wanted to get th elargest size to get the best benefits with the best prices. Thanks Anfrew.	5	2/7/2018 7:10:05 AM
great	Got this for my boyfriend who is on his feet all day. He loves it!!	5	2/5/2018 5:06:38 PM
The Best!	I can definitely feel a difference when I do not take this vitaminn or do not take Glucosamine 1500 and would recommend these to everyone over 50.When I do not take these, my body aches all over and I immediately start to take them again. This should be a daily vitamin but there are times I just forget but remember fairly quickly when my knees start to ache.Love, love, love~~~~	5	2/4/2018 5:26:31 PM
Won't be without them!	I never realized the true value of these capsules- until I ran out and was without them for over a month last year. Couldn't understand why I was so crickety and achy...then the light bulb went off! Rushed an order and within a few days saw a 100% improvement!I've now started my Son- a chef on his feet all day- on these. Fewer back issues now.A fine product- and like all of Andrew's supplements that I have- do not upset my overly sensitive stomach!	5	2/4/2018 3:31:31 PM
Very helpful	My Mom, who is 101 1/2 recommended this to me & I see a real difference in my joints. Will order again. Thanks Mom!	5	2/4/2018 5:13:07 AM
Great product	This is as good or better than other products on the market. Easy to take as well.	5	2/3/2018 3:43:59 PM
Awesome	Within the first day of using this product my legs immediately felt much better I'm so excited that I happened to turn on the TV when this product was being reviewed.	5	2/2/2018 3:52:37 PM
He's a believer!	I actually purchase this for my husband. He's not a big believer in vitamins but he agreed to take this to humor me. Well, he's been "humoring" me for 3 years now and he gives me advance notice when he's running out. So, I'm guessing he's a believer.	5	2/2/2018 3:12:47 PM
Works like a miracle!	About 15 years ago I was told I had very little cartilage left in my knee. I started taking Andrew Lessman's Glucosamine and Chondroitin and now, 15 years later, I still have not had to have the knee replacement!!! I talked my sister into taking it when she developed a problem and she, too, wouldn't miss a day taking it.	5	2/2/2018 2:37:57 AM
So Helpful	On occasion, I would forget to take this and after a few weeks, could really tell the difference in my knees. I no longer forget. I am 70 now and have been taking for 10 years. My joints are doing very well.	5	2/1/2018 3:12:56 PM
Love the product	Bought as a refill for myself and my mother-in-law! We both have different types of joint pain. We both have had drastic reduction in our pain levels. We are able to be more mobile with a better quality of life. Thanks Andrew.	5	2/1/2018 2:26:17 PM
GREAT AS USUAL	Makes a real difference in my hip - both modbility and paid. Cannot live without	5	2/1/2018 2:25:44 PM

GOOD JOINTS	No ACHES NO PAIN	5	2/1/2018 1:16:44 AM
Achey joints	I feel the difference after taking glucosamine in a week.	5	1/31/2018 2:46:54 PM
BENEFITS	I have arthritis - very bad . After one week my hip was less painful but the arthritis in the thumbs and wrists practically went away. It's not supposed to target the hand area but I'm not going to question it. I'll just buy it again and keep at .	5	1/31/2018 2:18:18 PM
No better vitamins than Andrew's	Within a few days I feel the difference of taking these. Ran out of Andrew's before so I tried another brand that had the same amounts of ingredients, but was cheaper. Never again because they seemed like useless sugar pills. Andrew makes the best!	5	1/30/2018 5:45:14 PM
Excellent	I have only taken 3days of this and I have noticed a big difference in my legs. I have Parkinsons and spinal stenosis. I was really surprised.and quite happy.that I was watching HSN at that time..Thank you J.H on Florida	5	1/30/2018 12:36:51 AM
Love these	I have pain in my knees and bursitis in my shoulder. I use these and I find I cant be without them. Highly recommend them.	5	1/29/2018 10:22:36 PM
... "my back feels good".	I gifted this product to my favorite uncle for Christmas! After several weeks of usage, he called me to report, "my back feels good!"., Keep up the good work, Andrew Lessman...	5	1/17/2018 11:41:11 PM
Wonderful Product	I take 4 tablets a day and have noticed a great improvement in my shoulder since taking the Glucosamine and Chondroitin by Andrew Lessman. I work on the computer throughout the day, been to physical therapy and massage, and these capsules have improved my day to day performance on the job..	5	1/7/2018 6:01:42 PM
Awesome product	Wow, I cant believe how fast this product works, i had suffered from knee pain for almost a month, I was reading reviews about this product and thought right no way can this little pill work that fast , Boy was I wrong i placed my order and the day it came started taking it and the next day I could feel a difference. Dont know what all is in it but I will never be without. THANK YOU ANDREW for this product	5	12/30/2017 2:29:38 PM

GREAT FOR JOINTS	THIS HAS HELPED ME SO MUCH. I USED MOVE FREE FOR YEARS BUT THIS IS BETTER THAN THAT PRODUCT	5	12/19/2017 9:30:10 PM
An Excellent Supplement!	I have arthritis in both shoulders and both hips. This supplement took my number 8 pain level to a tolerable 1-2 pain level. I'm not as stiff as well. I do take the recommended 4 caps/day. Highly recommended.	5	11/27/2017 12:38:39 AM
This is the best.	I faithfully take two capsules a day. It feels like I have a security pad on my joints. I went without out it for one week, the discomfort returned. I am in a water aerobic class, these pills enable me to exercise with out the pain. I no longer uses my cane. I am grateful and thankful for having my mobility back. I finally found something that really works. I also appreciate Dr. Lessman company explaining and comforting me on my dosage. Thanks you. Fast delivery, well packaging.	5	11/15/2017 6:29:17 PM
Share these	I order these for my mom & my grand dog.Both are very old & have lots of arthritis pain in their hips. They take these 2x day and feel so much better.Thanks Andrew!	5	11/10/2017 1:09:04 AM
Another great product	This is another example of a great product from Andrew. I started taking his vitamins 8 months ago and I am not taking 15 different vitamins a day. This particular one helps me move better and lets me do my daily 6 miles walking.	5	11/2/2017 11:07:59 PM

My Angle my healer	Andrew I don't know what everyone would do without you. your hard work and compassion you have for everyone you are an angel sent to help all of us. so many people are living pain free lives and can be better parents and grandparents because of you. when I had surgery I lost so much blood I wasn't expected to live but I knew it was because I took all your vitamins. My doctor didn't believe in supplements then started asking what I was taking. I tell everyone about your products even my homeopathic said these are excellent products. you are an angel sent here to make everyone lives better. I couldn't begin to thank you enough for all the hard work you do for all of us you make life better for me & my family. thank you for caring so much about others you are my special angel sent here to help us all live a better longer life. I know thank you isn't enough but I will continue to buy your products please continue to making more to help us grow old together. thank you friend.	5	10/28/2017 10:04:11 PM
Pain relief.	It helps alot for arthritis in my spine. Will always have it on hand because it works fast.	5	10/26/2017 4:16:17 PM
No arthritis at 58!	I have taken this glucosamine/chondroitin for at least 12 years. I am now 58, and I do not suffer at all from arthritis or joint pain! Thank You!	5	10/25/2017 6:26:19 PM
glucosamine & chondroitin	I have arthritis, mostly in my knees that bothers me and can be extremely painful at times. I tried another brand to begin with and it gave me good relief from the pain. I still had pain, if I got on my knees to do something, but it went away in about a week. I then tried Andrew's product and got the same relief from the pain, but now if I get on my knees, theirs no recovery time, which is a distinct improvement on managing my pain. I feel that this is a much superior product than what I was buying locally.	5	10/25/2017 6:22:59 PM
Life changer!	Theres nothing better out there! Three years ago I had major knee issues and after an x-ray showed sclerosis in both knees, they thought I would be having a double knee replacement soon. My sister, who is a doctor, told me that I love to get the sulfate form of glucosamine and chondrotin. Andrews vitamins are pure and easy to take and I have been on them ever since! Absolutely positively pain free in both knees!! My joints feel like they did when I was 18! Thanks Andrew!	5	10/20/2017 7:03:59 PM
joint relief	Always use these pills. I truly feel the difference, especially if I run out! anything to help my old, achy joints feel better!!	5	10/20/2017 5:24:36 PM
Joint relief	This product is great and i have been using it for several years. Can't say enough good things about Andrew's products. Very purse vitamins. thanks Andrew from Ed	5	10/19/2017 6:25:04 PM
Great product	A+++. Thank You Andrew and keep it coming.	5	10/8/2017 5:59:51 PM
Only one that works for me!	I have multiple types of this vitamin and they do nothing and I am in pain, not with this one. I. Take this and with 1 day I'm back doing everything.	5	9/20/2017 11:13:03 AM
Works!!!	I noticed about the third day there was a difference. Very good product that will help you. I highly recommend this for anyone who has back and leg problems...	5	8/27/2017 11:03:43 PM
WORK	This is a fabulous product that actually works. The capsules are small unlike most Glucosamine pills. Just very disappointed when it came time to reorder. I paid 19.75 for 60 pills and the next time I went to reorder it was over \$27.00. To rich for my blood.I assume it was because Andrew Lessman was offering 20% off in August, but still to high.	5	8/24/2017 1:29:43 PM
Overall goodness	I've bought a few vitamins from this brand and I love them, they truly do help you feel energized and good! Definitely recommend them!	5	8/24/2017 6:01:13 AM
4me	As with all of Andrews products....this is outstanding! I am 73 and cannot live without his help. If I miss a day I am in extreme pain in my hip and knee. My 15 year old pug mix is acting like a puppy since I starting two of these daily in his food. He does not mind the taste at all mixed into his wet food. I do not want to take pain pills and cannot imagine life without the many benefits provided by Andrew!!!!	5	8/20/2017 5:45:46 PM

A MUST-HAVE! Thank you, Andrew!	I can not get over just how much these have helped. I tried numerous brands over the years but it was not until I found Andrew that I actually felt relief. There is no comparison on the market. Nothing comes close. I only wish that I knew of Andrew and his supplements sooner. I had to have a total knee replacement after injuring it in an auto accident. I struggled with the pain for almost five years but couldn't take it anymore. If I had Andrew's product, I do believe that I could have managed. But I have found much relief to my other joints. I am soooo angry that other companies are able to get away with making millions on products that do not deliver.	5	8/19/2017 2:20:39 AM
Excelent	Began taking July 14 for pain and stiffness in the joints of my fingers. Did not take long before I noticed such a difference . Still have some pain and stiffness but nothing like before, This was my first purchase from Andrew and it has not been the last. I highly recommend .	5	8/7/2017 10:46:12 PM
Marvelous product	I don't know what I would do without this produc. It has truly helped me with my arthritis. I forgot to take them for three days and wow I could feel the difference, it took almost two weeks for them to get back in my system. I will not be without this product as long as I'm able to buy it. I recommended this to my brother and sister and who ever I hear complain about their joints. Love it. Thanks Mr Lessman.	5	8/4/2017 1:36:56 AM
Reduced joint pain	I'm 68 years young and active in my garden (lots of bending, stooping). This product has considerably reduced my joint pain in only a couple of weems.	5	8/2/2017 9:50:30 PM
great	My legs and knees are much better since I started to use it.	5	7/27/2017 9:53:54 PM
Awesome	This product is great. Had a thumb that was locking. Just started one day and hurt. Saw this ,bought small bottle and after about a week or week 1/2 I did not have any issues, thumb not sticking no more pain ,thumb fine did not think about thumb and then realized it was moving, not getting stuck, bent anymore. So I ordered a large bottle and take it every day , one capsule works for me and my joints. Thank u Andrew. Love your products . Take the vitamins which are the only ones that do not make me sick to my stomach!	5	7/25/2017 11:08:55 AM
It works!	I purchased it for my husband. It worked for him. Now I purchase some me. The best!	5	7/23/2017 1:56:57 PM
My hips and joints have never felt better	This us my second vitamin I bought from Andrew. I run so I am always looking for a good hip and joint vitamin. Well Andrew one knocked it out of the ballpark with this one. My joints feel lubricated and seem to work better when I took this vitamin. The little popping that I was hearing in my knees is gone when I are these. I have ran out and I can tell the difference. Although expensive these vitamins are well worth every penny. I dont mind paying for the quality of these vitamins. If you do any form of exercise that is hard on your hips and joints then these a re a must.	5	7/23/2017 12:36:24 PM
Second order for me	This really helps the knee and hip arthritics pain and helps me have better movement. I don;t know if it helps with spinal arthritic damage but I sure will give it a try.	5	7/22/2017 6:32:44 PM
Will Continue to order.....	I have been taking this for over a year now, and the results are incredible. I am disabled and this has helped me with my mobility.	5	7/22/2017 1:04:48 PM
Love Andrews Vitamins	Kind of hard to review this product because it's not one that you see actual results, but if it's like the many other vitamins of Andrews that I take I'm sure it meet all expectations. I love all of Andrew's products. They have all made a difference! Thank you Andrew for all that you do!	5	7/21/2017 3:19:58 PM
IT WORKS!	I've been taking this since January and I don't have the pain in my elbows anymore. I forgot to take it with me on vacation and after 3 days my elbow pain kept me up at night. As soon as I came home and got back on my Glucosamine routine my pain went away. Thank you Andrew for giving me back my sleep! Kat	5	7/21/2017 2:35:21 PM
Glucosamine	This is a great product for joint maintenance; especially if you are in the 60 plus group	5	7/20/2017 9:19:51 PM

Ellie	Andrew lessman products are the best!! I have been using them off and on for more than 20 yrs. when I was about 48 yrs I begun having joint pain especially in my knees and fingers, I watch Andrew Lessman program for several weeks contemplating if I should try his product. I made up my mind tried it and did not regret it. Very good product and great results. God bless U Andrew	5	7/19/2017 7:57:24 PM
Love the benefits of this product	Take this daily and notice the benefits to my back and joints. I take a half dose daily unless I have a stiff back or aching muscles. I take a full dose on those days, and the soreness goes away within the next couple of days. Love that I can take these capsules instead of Ibuprofen. Another great product from Andrew Lessman!	5	7/18/2017 1:56:51 PM
Any joints discomfort?	I'm almost 58 years old and working out about 3 to 4 times a week and my hips were talking to me. I started taking these and now have very little discomfort in my hips. Plus my job requires me to stand eight hrs a day too. Not to mention I can set down and get up without discomfort too. Thank you Now I can keep working out without cutting back.	5	7/16/2017 5:00:08 AM
i can move!	On my second bottle.	5	7/12/2017 10:24:24 PM
Glucosamine Chondroitin	Looking for help with my Osteoarthritis. Have just started taking this and believe in Andrew Lessman's Supplements.	5	7/10/2017 5:01:28 PM

Amazing product	I experienced stiffness in my right small digit so I start to take this product once daily and it took a week in which I had no more pain and stiffness in this joint. Very glad I bought this product! Thanks so much Andrew.	5	6/21/2017 2:58:13 PM
THE VERY BEST	I have tried just about every supplement available to ease the pain in my shoulders, knees and hands without success, until now. To my surprise this product really works. The pain I've been experiencing is nearly gone after one week. Seems impossible, but it's true. Would recommend this product to anyone suffering from ra/arthritis. BLT55	5	6/14/2017 2:01:12 PM
Had to give to daughter	There was something in this product I couldn't take because of a blood thinner I'm taking. My daughter has had very a very good experience with this.	5	6/10/2017 7:26:23 PM
It works	I have used this product now for over a year, daily. At first it takes a couple of weeks, after getting into my system.. it works. No more sore ache's. If I know am going to be extremely active, such as gardening , swimming, kayaking or dancing.. I take one in the morning and one evening. Day before and Day after I double.Relative that is a police officer, she uses 2 a day and swears by them, when on duty the utility belt/ gun/and radio etc are heavy on the body joints.This product gives her the relief that is needed to perform her duties with out pain.	5	6/8/2017 11:48:09 AM
Great Vitamins for Arthritis	I have purchased these vitamins for the arthritis in both of my hands and in both of my knees. I feel this product works well.I don't take as many as directed on the bottle, it's three (3) a day. i only take one (1) a day to get me started in the morning.	5	6/3/2017 2:14:30 PM
Easy to swallow	So happy to be able to find these supplements in an easy-to-swallow size. I have joint and back issues resulting from falls over the years and I have long said that my joints are better at predicting the weather than any weather man. I would be hurting all the time and of course, my mobility would be impacted if I didn't take this supplement.Thanks, Andrew Lessman.	5	5/21/2017 8:49:20 PM
Love the product	This has helped my knee pain almost 100 percent. Thanks Andrew.	5	5/9/2017 6:05:36 PM

Great product	My hubby loves this supplement. Makes him feel much better.	5	5/6/2017 6:10:33 AM
BEST PRODUCT EVER.	I have been having knee pain for a couple of years. I used a product that helped, but the pain was always there. I bought this item just to try. I didn't believe it would work any better than what I was already taking. I've taken 2 pills a day for a week and I noticed one day I DIDN'T HAVE ANY PAIN AT ALL. I couldn't believe how good I felt. I just order another bottle. I don't want to run out. Thank you.	5	4/28/2017 1:58:01 AM
Really??	Already feeling much better after a good solid 10 days of use, multiple knee surgeries, back surgery, joint pain in my thumbs...you have got to be kidding me.....I am sold.....unless something drastically changes, I will use this for the rest of my life.Thank you	5	4/21/2017 10:49:24 PM
Miracle Drug!	I couldn't live without Andrew's Glucosamine with Chondroitin capsules. I think that says it all. My knee that the doctor told me 3 years ago needed to be replaced is doing really good with taking this and his Omega 3 fish oil pills. I hope if I continue taking both, I never have to have the replacement surgery. So far, so good. I am very happy.	5	4/1/2017 6:01:14 PM
Best Ever	This product does alot for me and my better half. We have taken Andrew's products for some time now and this product works. We have noticed that when we ran out that both of us could feel the difference in our muscles and especially in our joints. This is so easy to take and no hard tablet waiting to dissolve it works quickly, will never be without it again. Thanks Andrew you have made getting older a bit easier!	5	3/26/2017 7:00:41 PM
It works!	For the first time I got out of bed, walked upstairs for a cuppa and then realized..no pain. Not in my knee, not in my back, not in my hands! All from 1 cap a day. As we age those old bones need a boost. This product took the old out of bones. Try it, but only if you want to feel better!	5	3/22/2017 11:11:48 PM
Worth every penny	I take 2 a day for joint health I've notice that I'm able to move a lot more - with ease. Thanks Andrew. These products as simply the BEST.	5	3/21/2017 8:13:50 PM
Great vitamin	Always order Andrew Lessman's vitamins when I get low on stock. Appreciate all the good vitamins he makes. We have many.	5	3/20/2017 10:08:02 PM
nothing better	I don't take this every day - only when my back or hip is giving me trouble or aches. Once you get it into your system I seem to only need it on occasion - certainly not what they recommend but of course everyone is different. The products I do use all come from Andrew - there is simply nothing better and I am willing to pay the price for the quality. Especially the no stomach upset.	5	3/18/2017 2:09:49 AM
I recommend for man's best friend and me	My 11 year old golden retriever is like a puppy after being on this for over a year now. She gets up quicker from lying down without hesitating anymore. I'm sure her hips and knees are better with this stuff. I mix a little in her food daily. Oh, I take it too. It is fabulous for my overall joint health.	5	3/7/2017 6:12:24 AM
A joint saver	I have been a fan of glucosamine for years, but I hated the size of the tablets. Once I discovered this product, all was well. They are easy to swallow and keep my joints lubricated. I will not be without. My husband takes them as well, and I recommend to relatives.	5	3/3/2017 2:45:49 PM
Love it for me and give to my Golden Retriever!	I noticed my knees were a little more sensitive while jumping and running. Started this years ago and it helped so much I take it everyday now. My 11 year old Golden retriever was visibly in pain when she would get up from a nap. I started giving her a third capsule a day, and over a few weeks, she moved much better. Andrew please make canine formulas :-))Recommend for mans best friend.	5	2/20/2017 12:59:07 AM
Excellent job!	I'm have been taking this vitamin, about 3 weeks, and now I can be able to step down from my car without, holding the sterling-will, to standing up. Since I'm taking Glucosamine, my pain just gradually go away!Thanks you so much.	5	2/15/2017 6:49:13 AM

Absolutely wonderful	Several years ago, a physician suggested that I incorporate glucosamine and chondroitin into my regimen. I've tried several brands over the years, but I have had the best, and most noticeable, results with Andrew's products. I take these capsules daily, along with the turmeric, and know that my joints are healthier as a result. I am a registered nurse of many years, and over the decades, my joints have taken a real beating. I am a very big fan of the glucosamine and chondroitin, especially when used with the turmeric, and recommend these products to my family and friends. Andrew's products are quite simply the best I've found, and they are produced with a social conscience. Good job, and thank you Andrew.	5	2/12/2017 9:11:42 PM
Fantastic results	All I can say is I wish I had started taking this product long before I did. Never dreamed it would make such a difference in my aches and pains! Please do yourself a favor and get this product ASAP. I will never be without it!	5	2/11/2017 10:03:03 PM

Relieved	These pills for your joints have indeed lessened my pain in my hip knees and shoulder pain. They are capsules and easy to swallow. I am very pleased with the results and definately will reorder. I totally trust the quality of Andrew Lessman's vitamins	5	2/5/2017 2:13:56 AM
Happy Joints	This product helps me keep moving. I am a plus-size lady on a health conscious program with a lot of weight to lose. I need all the help I can get. This product is caring for my joints as I care for my health. Thanks Andrew & HSN!	5	2/3/2017 5:58:41 PM
Saved Me From Hand Surgery!	Last year I was scheduled to have my R hand operated on for joint and tendon problems. Fortunately, it turned out that the current surgery date had to be cancelled. Meanwhile I started taking four of Andrew's Glucosamine capsules every day - and now my hand is nearly perfect!!! The little finger is still a bit stiff, but the rest of my hand is great!! Fully pliable once again and most importantly, NO MORE PAIN either in my hand or with shooting pains up my arm. I know this stuff isn't suppose to medically "cure" things, but by golly, I for one swears it does!! Thank you, Andrew!	5	2/2/2017 7:12:47 PM
Excellent Product	We have been using this product for years. The 480 capsules was great, since we usually get 360. We would not go with out it.	5	1/30/2017 3:51:58 AM
Amazing!!!!	I love, love this vitamin. I work at the school cafeteria where sometimes I lift cases of drinks, this help the pain go away in my joints especially when I forgot to stretch before I go to work and it work as well for my husband back pain. I took this along with essential omega3 and other Andrew's vitamins. I love his products because it works. Some of it are expensive but it's worth the money and sometimes I wait when it's on special. Thanks Andrew. May God continue to bless u so u can help us.	5	1/29/2017 7:17:41 PM
it helps	I have tried other glucosamine products in the past which did nothing for my aging knees (60+). These really help. I take between one and four every day. Easy to swallow.I also started mixing the powder from one capsule in my old cat's wet food, and she now gets up and down the stairs much more easily!	5	1/26/2017 5:17:21 PM
Good for the joint	I have some RA but not enough that I need medication, and this is help on the pain and stiffness at the finger and hand a lot.	5	1/26/2017 2:21:23 PM

Excellent product!	I finally decided to try this product and so glad I did! I feel better than I have in several years due to right hip and foot pain from injuries being much less. Happy athletic Husband	My husband has been taking these capsules for numerous years and honestly he never wants to live without them. He ran out one time and went couple weeks without taking - boy was he sorry! His knees were achey and stiff. Been on Auto ship ever since that episode. Definitely affords him a Better quality of life and keeps his joints feeling their best.	5	1/2/2017 5:15:46 AM
Andrew lessman Glucosamine Chondroitin	I have had sore ache joints for years.This supplement has all but relieved the pain.Keep up the good work Andrew.	5	12/23/2016 2:12:46 PM
Can't be without this...honestly	My husband and I are 70, We walk and workout regularly. We have been taking this suppliment for a couple of years. This summer we stopped taking the glucosamine with chondroitin. After only one week we both noticed the joint pain. Hips, back, elbows, and knees ached. It took about another week to get back on track enjoying our walks and workouts. We honestly believe we couldn't be as active without this suppliment..Thank you Andrew	5	12/20/2016 3:33:22 PM
FEEL the DIFFERENCE	Can't go without this, trully a FEEL the difference product! Thank you Andrew	5	12/18/2016 11:34:04 PM
Life changing	I have taken this product for 15 years and will continue as I have arthritis and without it I have continued pain. I take many of Andrew's great vitamins and have been for years. I have encouraged many friends and family to order and many have done so. Thank you Andrew and HSN.	5	11/13/2016 3:42:00 AM
Better than over the counter!!	I've been using this product for several years now. Recently I ran out and used an over the counter product I used to use before I found this product since I already had some at home. Within a week I noticed some soreness in one of my knees and wondered why. Then it came to me. I wasn't using Andrews product. As soon as my order came in I went back to it and the soreness was gone. That was proof enough to me this product is better than any over the counter out there. Thank-you Andrew for a wonderful product!!	5	11/13/2016 2:57:50 AM
Excellent	Thank you Andrew for your knowledge and commitment and perfect processing of all your vitamins and presenting them to HSN customers as well as your own website for an improved Health outcome for all of us. I am so please that you are taking that time to make our lives healthier. I watch every show and tried my best to catch every good deal and thank you for those good deals!!! We are blessed to have you in our lives to sell your products a healthier lifestyle..Bless you and your wonderful family	5	11/8/2016 4:26:14 PM
Don't buy the cheap stuff because it won't work.	This is THE Andrew product that I will never be without. About 15 years ago I had a serious bout with arthritis and this vitamin was suggested by my doctor. I quickly picked up the inexpensive hydrochloride form at the drug store. Had zero effect. Then I found Andrew's version and saw a huge difference in stiffness within one week! Amazing effect on arthritis.	5	11/7/2016 6:24:30 PM
very good	love it	5	11/3/2016 6:05:17 PM

G-RATE it a 10!	See my review for MSM for more details. Taking it in conjunction with MSM. So don't know which is doing what. I know they are shown to work well with each other. I've seen a huge improvement in short time. I think a little longer will tell the tale. It's helping me with arthritis and all over aches and pains. The two are supposed to help with tendons also. Had major surgery on my hand, involving tendons and hope to see better improvement there. Definitely recommend and will reorder in larger size.	5	10/29/2016 3:48:51 PM
They are great	I use nothing but His product. The cost is a little more but the results are great.	5	10/29/2016 2:10:17 PM
Glucosamine	This product helps my joints and pains, thank you Andrew for creating pure products, I buy all your products, you use nothing but the best, no fillers or additives, everything is pure, natural	5	10/29/2016 12:42:02 AM
No More Aches	This is definitely one supplement that I have learned to take regularly and not skip a few days here and there -- because when I do some knee and leg pain returns! Once back on this supplement....honestly....no more aches!	5	10/24/2016 3:29:49 PM
It Works	The Glucosamine with Chondroitin is the only AL vitamin I order regularly now. (I just can't afford to order other ones regularly anymore, even though I know they are quality products.) But these help so much with my knees that I notice a difference when I don't take them. I had to go without for awhile until they were on sale with free shipping. I wish they would be offered as a TS sometime.	5	10/22/2016 12:57:41 PM
IT REALLY WORKS!!!!!!!	I have tried everything for the pain in my osteoarthritis knees, even cortizone shots!! So i was leary about this product. I am AMAZED that the pain is 75% better in just two days!! My mobility is much better as well. Would highly recomend this product. Thank you so much Andrew....with tears running down my face...I can have a life now.	5	10/20/2016 1:28:28 PM
Seems To Be Helping !!	I originally purchased the small bottle just to try, this time I came back for a larger size it does seem to be helping, my knee would hurt and creek going up the stairs, it hurts less now, and you can hardly hear it creek now, it is feeling much better, my hand is giving me problems too in the morning one finger when opening my hand strangely sticks closed when trying to stretch out my fingers, it seems to be doing better also, I can only afford to take one cap a day, more would probably help better but just too many to take 5 a day, but am happy with my results with one a day, and it is what I can afford to purchase, any relief is a good thing. Thank you Andrew !!Andrew I would like to hear more about the studies on Calcium it is in the news again, and it building up in your heart valves, causing blockages, if Vit. K is needed so it won't do that I feel it should be in the calcium cap not an added cap you have to purchase.	5	10/19/2016 12:55:29 PM
excellent	Feel the difference product	5	10/18/2016 12:28:32 AM
great product	I love this product .thanks Andrew	5	10/17/2016 7:26:11 PM
Amazing capsules for joint comfort	My husband suffers from debilitating joint pain and siatica. We have been using these capsules for several years. He had been unable to travel less than several hours driving a car without having severe discomfort. The improvement in his quality of life has been remarkable. He is active and we have been to travel again, enjoying retirement. We had been without them for a week or so and the pain returned. We will always have an adequate supply on hand. Can't say enough about Andrew's product.	5	10/16/2016 2:10:54 PM
ik	it seems to be helping my dog its cheaper than vet thanks	5	10/16/2016 1:20:58 PM
ik	it seems to be helping my dog its cheaper than vet thanks	5	10/16/2016 1:20:56 PM
What A Difference !!!	I take this capsule everyday and it has helped my extreme arthritis, degenerative discs and Lupus immensely. I can tell when I haven't taken it for a few days, because my symptoms get worse. I have taken many types of "Glu-Chon", and this is the only one that has helped. The others were hard to swallow tablets. The capsules are much better.	5	10/16/2016 9:25:39 AM
Amazing supplement	I've been taking this supplement for a while. If you have pain in your joints legs arms This is the product to take. It really does work	5	10/9/2016 11:44:44 PM

I can always tell a difference if I have run out-- My joints will suffer and be more painful if i've run out of this before my reorder arrives! I need to start ordering more ahead so I don't run out i guess! Thank you Andrew for a wonderful product!	5	9/28/2016 11:31:15 PM
Another great product from Andrew	I take several different supplements from Andrew Lessman and this again is one I continue to reorder because I can feel a huge difference in my joints when I take it. I have used other glucosamine products but keep coming back to this one.	5	9/26/2016 2:07:21 PM

Doctor recommended	Our family is plagued with knee and hip issues with several joint replacements among us. Our orthopedic surgeon recommended glucosamine and chondroitin with two a day for the first month followed by one a day from there on. I use several of Andrew's products and have always been happy with their quality and efficacy. I have been taking this product for almost a year and have noticed a great lessening of everyday knee pain. I really notice a difference if I run out.	5	9/15/2016 3:24:37 PM
Great Product	I love these capsules! II take them & notice a big difference! Thank You!	5	9/14/2016 6:36:39 PM

Can't live without it!!!	Back in 1968, I had knee surgery after high school, result of a track hurdle fall on my right leg; fast forward to now to totally bone on bone, bull-legged legs...not pretty on a woman, but at least I can walk without pain...unless it rains allot. LOL I was told when I was 32 I "had the knee of a 65 yr old" unquote from a Ortho Sports Surgeon. Uggg I HAVE to have these little "nuggets of goodness" or my joints will get stiff, thump, throb, click, and cause me to swear. They have helped me put off knee replacement surgery for 34 years & hoping for another 25, or maybe never! I have tested this by going without them for a little over 3 weeks once years ago...will never, ever do that again! Yup, can't live without them!	5	7/30/2016 7:06:41 PM
Great product	Cannot live without this because it works so amazingly.	5	7/27/2016 5:28:24 AM
Fountain of Youth!	This product is easy to take, has no offensive taste, and digests easily. I take it every day and even give it to my dogs [since Andrew has discontinued his pet products].I have only one suggestion for improvement for this and other products that us older folks take. Please give us a choice of bottle tops. The current top is pretty hard to open the first time with needing to press it down and twist at the same time. Joint pain is the primary reason I take this product. Pharmacies allow you to choose your top - Andrew please do the same	5	7/24/2016 7:55:45 PM
Love it, really need for my knees	Both my husband and I take this product. He takes two a day, I take three. it is wonderful.	5	7/24/2016 2:38:27 AM
LOVE THIS VITAMIN	I have purchased this for quite awhile and don't want to be without. I am and always was a very active person. I can tell you that I do not have any pain in my joints or any where in my body. I am into wellness. I know that this provides potassium which is essential for your heart and nervous system and brain function. Glucosamine Sulfate is also needed for your bones. I highly recommend this vitamin. I do not want to be with out this vitamin and thus continue to order and keep an extra one on hand. Thank you Andrew.	5	7/22/2016 1:30:59 PM
Excellent product!!	Thank you Andrew for this superb product. My knees have been stiff and aching. I'm a 65 year old female. I started taking these capsules and found in 2 weeks all knee issues are gone. It has been 3 months and I now can climb stairs and have returned to all original activities. I will order these forever after seeing the results. Can't thank you enough.	5	7/21/2016 8:29:12 PM
Crackling sounds are less	I have been using this product for over a year. My knees don't seem to have as much creaking and cracking as they use too. I like the product,, It does not seem to interfere with other vitamins and RX meds.	5	7/21/2016 4:02:36 PM
great	thanks I need to buy more	5	7/13/2016 10:33:23 PM
Makes a big difference	My husband takes these and he has lower back, knee and big toe problems due to age, arthritis and degeneration. This makes him experience less pain and is more flexible. If he skips days he feels it right away. He will not go without taking these pills.	5	7/12/2016 7:45:45 PM
It worked for me!	This product really worked for me,I have tried the joint juice,which worked also but only bought it when it was on sale, and gave up on it.I bought this product and with in a couple of weeks my pain in my knees went away! I feel that my joints are more lubricated. my job requires a lot of walking and stair climbing,and this product is working for me. I take only 1capsule with my last meal of the day, If I miss a day then I take 2 capsules.	5	7/11/2016 1:39:11 AM
Highly effective!	I've been using this product for a year and a half now and would not be without it! I had chronic discomfort in my right knee that I no longer experience since using Andrew Lessman's Glucosamine Chondroitin! It Works.	I use this all of the time and if I forget or run out my body tells me. OUCH!!! My hands start hurting and so do my knees and back. I feel so much better when I use it. I am usually allergic to everything and this works for me.	5	6/23/2016 10:42:00 AM

This has worked for me!	I tried taking glucosamine and chondroitin supplements several years ago when my osteoarthritis first became problematic. I tried several brands, but found nothing that helped without unpleasant side effects. I decided to give it one more try and ordered Andrew Lessman's product . No unpleasant side effects, and after about 3-4 weeks, I realized I was actually starting to experience improvement of my arthritis. I am reordering this product - again !	5	6/10/2016 2:59:40 PM

WHO IS BENEFITTING MOST??	I starting taking these wonderful capsules for a few months and my old joints are feeling "oiled" again. What a wonderful relieve! Meanwhile my 10-month-old puppy had a accident and had to have his left leg amputated. It's gonna be a long recovery and some days Melvin is in horrible pain - yelping and howling. I want to scream with him! The vet and I decided to put him on rimadyl with a side of my glucosamine and he already is showing such great improvement and comfort. I wouldn't dream of giving him any other brand! The poor soul only deserves the best. Maybe down the road we'll be able to eliminate the rimadyl but he's on your glucosamine for life - like me!! Thank you for such a pure fine product!	5	5/2/2016 6:15:39 PM
Flexible muscles	Definitely improves my flexibility.	5	5/1/2016 2:21:46 PM
Glucosamine and Condroitin	wonderful product. More expensive than drug store brand, but much better ingredients, very happy.	5	4/30/2016 8:07:39 PM
Creeking & cracking hopefully a thing of the past	I have only been taking these for a week, but I have noticed that my knees are not making as much noise. Also the catch I would have every so often raising my legs into bed has disappeared. I am giving the pills the credit & hope it continues.	5	4/30/2016 4:29:17 PM
Knee feels so much better!!	Started having a lot of problems with me knee. After a couple weeks taking this it feels almost perfect! Will not be without this!!	5	4/29/2016 12:35:03 PM
the BEST	I have been using these for around 3 years now. These are the best I have ever used and I know Andrew uses quality ingredients.	5	4/28/2016 6:33:40 PM
Great Pain Reliever	The doctor told me over 20 years ago that I should be in constant pain with my back. I wasn't. He had me on Naprosyn. I asked about G-C and he said to try it, but keep him apprised about it. I read that it might take 2 months to feel the value of the supplement. So, I took it along with my medicine. At the end of month one, I dropped one of my two Naprosyn tablets. The next month I dropped the second Naprosyn. Since then I have been on G-C only and have had no pain. For the first 2-3 years I used a supplement from the drug store section until I started buying from HSN and Andrew Lessman. Have never regretted it.	5	4/28/2016 2:26:06 AM
good product	Helps with pain in legs and arms	5	4/27/2016 5:28:13 PM
Best Supplement Ever!	This product is a gift and a healer!! Thank you HSN and Andrew Lessman	5	4/27/2016 1:54:57 PM
Snap - Crackle - Pop!!	This stuff works! Don't expect results overnight, give it a few weeks and you will feel a difference. It's not a miracle cure where you are brand new but it sure does help lesson the pain and the snap, crackle, pop in your knees. - Take that extra step and give Andrews products a try - you won't be disappointed.	5	4/13/2016 5:30:36 PM

Cannot Live Without	I have arthritis in both of my thumbs. Taking this vitamin has improved the movement and has reduced and some day NO pain in both of my thumbs. I ran out for over a week. I will never to that again! The thumbs were not working well. Within two days of taking the vitamin again, I was back to no pain and movement. A MIRACLE vitamin. Thank you Andrew.	5	4/9/2016 1:05:53 AM
Happy joints	I ride a bicycle 60 miles a week at age 63. My joints were screaming in pain! Now, they ache occasionally as do my muscles. I am hoping that after another month or so they will feel even better. For now, I notice a marked difference.	5	4/3/2016 3:59:40 AM
Pain free joints	This product is just what the doctor ordered for joint and circulation pain or discomfort. If I don't take this product because I forget to take it or out of this product, I can tell right away...discomfort! I highly recommend this product as well as my husband. We are active and in our sixties. We are no spring chickens anymore! Thank you Andrew for your compassion and dedication to providing quality products! We are truly loyal to you and your products..we trust you!	5	4/1/2016 10:23:37 PM
GREAT PRODUCT!	GREAT PRODUCT! second to none!	5	3/30/2016 9:06:50 PM
Great Results	Diagnosed with Rheumatoid Arthritis in 2014. Have been taking this supplement with prescribed medication and have achieved fantastic results. Have been able to dial down the dose on prescription meds due to excellent results. Thank you, Andrew! Love, love, love your supplements!	5	3/30/2016 3:18:47 PM
FABULOUS!!!	I LOVE ALL ANDREW LESSMAN products. The quality is the finest available, I have so many of Andrew's products and I am completely satisfied with each and every one. The difference you feel in your body from taking Andrew's products as compared to what is available in stores is a night and day difference. I know when purchasing Andrew's ProCaps I am buying the absolute best for me and my family. I love everything and will be a life long fan of these fabulous products.	5	3/23/2016 5:06:44 PM
Grandma's aching back and knees	I have been taking care of my granddaughter for 5 months and she is now 6 months old. Me being 70 years old started to ache in my knees and back. So when I saw Andrew I decided to try this. Well low and behold it works. I haven't been in pain. Can get on floor and up without suffering, my little Ellie has grandma back. So far so good. Thanks Andrew	5	3/20/2016 12:42:09 AM
Quality product! The Tin Man needed this!	No cheap ingredients in this product! Only the best quality goes into Andrew products! Less likely to have an allergic reaction from his products! This product helps cushion those dry, achy, stiff joints!	5	3/18/2016 5:33:09 PM
ok	I assume it's doing what it's supposed to...	5	3/14/2016 5:27:03 PM
Wow	I have only been taking this for about a week and a half and the difference is AMAZING, I have tried everything with no luck. I have had 3 knee surgeries...2 on my right and 1 on my left and they wanted to do the left again. I had been putting it off though, and now I am not going to need to do the surgery, my knees have never felt better, these are a little pricey but well worth the money and much cheaper than surgery, if you have joint problems, trust me!!! TRY IT.	5	3/12/2016 6:14:30 PM
Glucosamine	My joints don't hurt when I take this product	5	3/11/2016 8:50:17 PM
it works	I believe this product is really helping me with my hip issues.	5	3/10/2016 2:26:40 PM
less pain	I have taken this product for almost one week. I was experiencing a lot of knee pain but this pain has been greatly reduced since I started taking the capsules.	5	3/9/2016 3:37:37 AM
Can't be without this	My doctor recommended I take this many years ago for arthritis. The brands in stores are "horse pills" & didn't help very much & are not even less expensive in comparison. This product actually works. I once ran out & within 10 days, my feet were again very painful. Using this product allows me to forget about the arthritis in my feet (& elsewhere) because the pain is gone. I just reordered so as not to run out & also ordered it as a gift for my (still!) hockey-playing 39 year old son to alleviate his arthritis issues. It will also help him to keep up with his 2 super active little dynamos, my wonderful grandkids!	5	2/28/2016 3:20:00 AM

Andrew Lessman Glucosamine Chondroitin and more	This products works great for me, along with many other Andrew Lessmans products that I take such as turmeric, turmeric and ginger, vitamin C, Calcium-magnesium, Vitamin D, Essential 1, Omega 3, circulation & vein support, CoQ-10 and a few others. I have osteoarthritis and had fibromyalgia and with these products I am off all pain medications and most of my days are pain free. Two years ago I had many days where the pain was so intense that I could not even walk or go to work. I am so impressed and grateful for these quality supplements.The only minor complaint is the plastic they are wrapped with. It is difficult to for me to remove, even with the perforation. If someone could take a look at this issue, that would be great!	5	2/28/2016 3:03:39 AM
LOVE and LOVE your vitamins.	I can't LIVE without Andrews vitamins. I feel to much better. I'm also walking more and eating great veggies. Thank you!!!!	5	2/27/2016 5:17:13 PM
Great!	I've only been taking this for about a week, but so far so good. I bought this product because of knee pain and my doctors told me that I needed a knee replacement. While the pain is not completely diminished, it is much better. I have "high Hopes" for long term benefits.	5	2/24/2016 1:40:53 AM
great supplement	Another one of my favorites from Andrew Lessman.I have been taking these for years now and I truly feel in it my bones.Better movement .No cracking when I bend.More flexible.Cannot say enough .Thanks Andrew for this and your many products.	5	2/23/2016 3:23:36 PM
A must	I ran out 3 weeks before my new supply arrived. I take a number of his other vitamins and thought "no big deal". I was wrong. I bike ride 50 miles a day and without his vitamins my body ached. These work.	5	2/23/2016 1:55:41 PM
Remarkable results!	I have had severe back pain for 25 years. Nothing really helps. Increasing depression and progressive joint pain for the past few years has been daunting. I tried Andrew's product for the past month...wow! Cut my pain all over by 75% and the accompanying depression is GONE! I may not need back surgery after all. Thank you Andrew!	5	2/21/2016 3:21:24 PM
Wow! just WOW!!!	I'm on the younger side of middle age, but work long, hard days on a boat. Working a Fishing boat is one of the most physically tolling ways to spend 12+ hours a day... I took this out of desperation due to not being able to move by the end of the day... Within 3 days, I noticed my joints and back were feeling better.. after a week, Wow! Just WOW! Feels like my body was rebuilt, from my hands to my knees! If you experience any kind of joint discomfort, Give this a shot... Hopefully it will work as well for you... It's been my miracle	5	2/16/2016 5:07:55 PM
It works!	When I started taking G&C I had back and knee problems from maintaining 10 acres of my property for my 2 Labs that love to run. The longer I took the G&C the better I got. I have no knee problems now and rarely do I have any joint problems. I'm 70 and pop right out of bed in the mornings. I take 4 a day and always make sure I buy the largest bottle so I never run out. My dogs Dusty and Gracie think I'm the coolest! I also give each of them 2 a day, Dusty had some problems getting up in the AM and couldn't stretch like Gracie could, but now he gives Gracie a run for her money. Thanks Andrew!	5	2/16/2016 3:15:37 PM
Repurchase	Usually always pleased with Andrew's products. this is no exception.	5	2/15/2016 11:28:03 PM
Can't be without these!	As soon as I run out, I start to feel my joints returning to their rickety, crickety state. These are terrific- and I've learned never to be without them. As with all of Andrew's supplements- no stomach upset which is a major plus for me. Thank you, Andrew- you've made me a believer in your products and their integrity for quite some time now!	5	2/12/2016 7:28:37 PM
2+ years	Have been taking this for 2+ years and my legs have never felt better. I also take the vein and circulation pills and again my legs feel great. I was diagnosed with DVT (deep vein thrombosis) three years ago so undecided to try this product	5	2/9/2016 8:36:13 PM

The Help It Gives.	This is my second purchase of this product. I can,t do without. I ran out for a couple of weeks and my leggs hurt me so much. I,m so glad i caught Andree Back on to purchase, I highly recommend these . Don,t hesitate to buy. TY Andrew and HSN.	5	2/7/2016 11:13:54 PM
knees love it	came back and ordered the 720 count. So glad my knees don't constantly feel stiff and achy. Can climb stairs again with pain!	5	2/7/2016 9:47:36 PM
My knees say thank you	helps my knees so much. They don't fell stiff and achy all the time.	5	2/7/2016 9:18:42 PM
Love Andrew	Andrew Lessman's products are the best! I feel such a difference in my hip after taking this product.	5	2/4/2016 11:41:28 PM
Unbelievable	I have hip joint pain that radiates all the way down to the front of my thigh to my knee cap. I have had this condition since late 40's. I am 75 now. Years ago I took Glucosamine and Chondroitin. (another brand) My stomach felt like rocks had landed in it. So I never took it again. After listening to Andrew explain about the chondroitin difference and how he used the one that was used in the study, I kind of perked up. Then Collean said " if you have hip pain or joint pain you can take it with your leg and vein support," I thought why not. I cannot believe how the pain in my back, hip, and knee has left my body. I noticed this the very next day.Thank you Andrew and Collean. Super	5	1/29/2016 5:07:28 AM
Love...	This really helps with joint pain and makes you feel comfortable all day long.....I highly recommend! My husband alternates between this and Glucosomine 1500 and if he uses it, it works!	5	1/28/2016 5:58:21 PM
AL glucosamine chondroitene	I order many of Andrew's products and keep reordering g them. I am very pleased with all of them.	5	1/27/2016 3:55:24 PM
forgotten benefits	I had run out of my glucosamine chondroitin but knew that it's a special in January so I postponed ordering it until then.I started to hurt but didn't realize why until I got my new order and began taking it again. Within two days the pain began going away and I became more active again. Will never be without again!	5	1/23/2016 6:47:13 PM
THIS PRODUCT IS AWESOME!	If your joints hurt and you're living in pain you have to try this product! THIS PRODUCT WORKS!! I no longer have to live on pain killing pills. What do you say to someone who has given you a second chance at living a quality life? Andrew, God bless you and I thank you with all my heart!	5	1/23/2016 2:54:08 PM
Great for my knee	One of my knees began to bother me when walking up and down stairs. I started this and writhin a week or so the pain was completely gone. It also helped my back when I stand for a long period of time painting.	5	1/23/2016 2:14:05 PM
Must have!	i cannot do without this product. My joints definitely feel different whenever I am without it.	5	1/22/2016 9:43:25 PM
Really works!	I cannot be without this product, particularly in the winter. My joints start "talking" tp me whenever I run out!	5	1/22/2016 9:37:20 PM
goodbye weak joints	I damage my left deltoids Many years ago lifting weights. I never truly recovered from that injury. Several years later I was introduced to glucosamine, The product was like magic My left shoulder felt really great, But When That product was no longer available with that company I had a hard time finding The same potency With other companies, Until now. This product has truly helped restore the damaged tissue in my left deltoid and I am doing more exercise sets and reps Then I have done in a long time. Once again Andrew Lessman has made a customer for life Thank you very much.	5	1/21/2016 3:21:55 PM
God Sent!!	I have been taking these capsules for less than two weeks. My hip and shoulder were really causing me discomfort. I prayed and was watching Andrew Lessman. I felt prompted to see what he had that would help my joints. I know he has excellent products for other needs that I've had in the past. My shoulder and hip haven't felt this good in years!! Thanks Mr. Lessman for your quality products. GOD BLESS YOU!!	5	1/20/2016 5:20:34 PM

DEFINITELY FELT THE DIFFERENCE	It takes a couple of months for this to kick in, but when it does, you can feel it. I had polymyalgia rheumatica for three years and it affects your joints. I started taking this and began to have less aching and stiffness. I had to go off it for a week before having knee surgery, and within three days, I could feel the achiness coming back. I hope I can take this for the rest of my life.	5	1/16/2016 2:39:02 PM
The Best!	I am like some other reviewers. I also give my Lab this every meal. We both seem to do better with it. I am almost 69 and still do most every thing for myself. I really believe that the products from Andrew are a major reason for this. I was really hoping this would be a TSV next week.	5	1/10/2016 4:13:34 AM
the best	Will never be without those!	5	1/3/2016 5:13:20 PM
A miracle	I was starting to have severe joint pain. I researched and discovered these vitamins contained the dose and type of ingredients proven to work. My pain is gone. This capsule is easy to take and it didn't make me sick. I won't be without this!	5	12/21/2015 2:30:46 AM
Great Product	I have never written a review for any product but I feel that I have to review this one. I used this product for about a year with great results. I went to the orthopedic surgeon for a consultation and he recommended another brand, so I tried it, because he spoke so highly of it. I figured that he was a doctor and he knew something that I didn't know. Within 2 weeks I was limping around because of the pain & stiffness. I quickly reordered this product and I am getting back to normal after only less than a week. I will never go without it! You have a customer for life!	5	12/20/2015 2:44:46 PM
Keeps me feeling young	Andrew, you know how it is when you use a product for a long time you start to think do I really need these. I was waiting for it to be a today's special and didn't see them. After running out of them I thought I'd just wait. I couldn't wait any longer and purchased them. What a difference it makes to my 60 year old joints when I take these.	5	12/19/2015 4:12:45 PM
Six stars	Wonderful Great Saves me from going under the knife for my knee.	5	12/7/2015 4:07:02 PM
For the Dogs too!	Now the entire family uses this. Had not thought about the dogs until the vet recommended G&C. Reviewed the commercial dog brands and found them greatly inadequate. Since there is no issue using the 'people' version I didn't think twice about using this for the dogs too. Comparable price, better product. The vet and I worked out the dosage and all is well. For one dog I open the capsules and mix the powder in her food. My other dog just gets the capsules directly and inhales them with the rest of her food. Find what works best for your dog.	5	12/6/2015 5:36:35 PM
Glucosamine with chondroitin	Have been taking these for several years, since my doctor encouraged me to take G&C.	5	11/18/2015 10:37:52 PM
My knees thank you!	This product is far superior to any similar product on the market. I have tried quite a few and Andrew's glucosamine and chondroitin have made a huge difference in my 57 year old knees. They used to crack and pop and ache quite a bit and now they feel great! I will not go without this product.	5	11/13/2015 1:42:04 PM
These pills are the best	I was having knee pain and was having a hard time going up the stairs; started drinking these pills and within 3 days I was feeling great I could bend my knees with no pain. Bought some for my parents and a few of my friends have also bought them. My dad's arm pain has disappeared and my mom has been so much more active & without pain since she started taking these. Thanks Andrew!!!	5	11/12/2015 3:58:51 PM
I take it and so do my 2 dogs !	I started taking G & C a long time ago and switched to Max. Joint Effort . When my vet suggested my 2 Labs needed to start taking G & C I switched back and also bought MSM that I thought was important too. I don't have any joint problems at 69 and after starting my dogs on the same regimen, Dusty, the dog that was not wanting to run anymore was up and running after about a week being on G&C. We are all Happy now!! Thanks Andrew!	5	11/2/2015 3:35:06 PM
Well worth the \$..	I love this product from Andrew Lessman. Excellent quality, no stomach upset, & easy to swallow.	5	10/23/2015 4:23:44 PM

This DEFINITELY works!!!!!!!!!!	I have only been taking these pills for 4 days but I am completely sold on the benefits. I struggle with swollen feet at the end of my work day. Everyday. No matter what I have proactively done to combat this, nothing has worked. My feet have NOT been swollen at all for the past 4 days. The ONLY thing I changed was I began taking these pills. In addition, I bought them due to shoulder pain I was experiencing and my pain level has certainly been reduced as well. I will give an update review in 30 days. However, I truly believe these pills are FANTASTIC!!!!!!!!!!	5	10/20/2015 4:02:57 AM
Getting Very Pricey	Love the product. Have recommended it to family and friends. The price is a problem, even if you buy it when they're "On Sale" with free shipping Used to be 600 quantity for the price you now pay for 450 of them..	5	10/15/2015 5:59:05 PM
What A Difference!	This product has eased the stiff joints I'd experienced. Why did I wait to try this product? I use it twice a day, everyday and will not be without it!	5	10/15/2015 1:25:35 PM
Really Help	I find that when I take these vitamins my aches and pains are significantly subdued. And when I run out my back problems are increased big time. They really help.	5	10/12/2015 6:26:21 PM
EXCELLENT	I have used this product for years. I ran out of it and I could not believe how my hands were stiff again, my knee was hurting, my hip. I was feeling so well that I had forgot the pain I use to get. I reordered and I will never again be without.	5	9/27/2015 12:43:10 AM
One Capsule And You Feel The Difference	After one pill and I felt like running. Glucosamine with Chondroitin worked for me. I have tried other brands that did not work like this brand. I got my stride back and don't have that gait that says every step is painful. Thank you Andrew Lessman the product is effective and well worth the cost!	5	9/25/2015 8:16:19 PM
It is the best	I have been taking Andrews products for many years..I have used other glucosamine andchondroitin brands before using Andrews..His is the best. I take 3-4 a day for maximumresults.	5	9/23/2015 3:21:26 PM
great for the knees	love this productnever want to run out I take 2 in the morning & 2 at night	5	9/21/2015 6:52:48 PM
Clucosamine	This product has made such a difference in my life. I can move so much better.	5	9/20/2015 8:00:58 PM
Will Never Be Without This!	I will never let this run out again! Made that mistake once and it was a painful wait until my order arrived. This really works!!	5	9/20/2015 4:59:41 PM
glucosamine capsules	This is why I keep on moving every day.	5	8/31/2015 11:00:05 PM
Don't hate me Andrew, gave it to my doggie!	My 10 year old golden retriever had recently started to hesitate before slowly getting up when I called her if she was lying down. It was clear that it was painful. My knee pain went away after I started taking these capsules so I started giving her a little sprinkled in her food and within about 2 weeks, she started moving around without hesitation, just like when she was young! I know these were not meant for consumption by canines, but my dog is doing so much better! The only problem is I'm running out of capsules for myself! Time to reorder :-))Thanks Andrew!Loyal customer	5	8/28/2015 7:12:59 AM
great product	Would not be without this product!!!	5	8/27/2015 10:22:06 PM
Definite Improved Joints!	My knees were the area of concern last few years of discomfort from surgery of worn and torn meniscus's over the years. I was just finishing up first bottle that my knees were noticeably improved and felt great! Now into 2nd bottle with even more ease of movement. Thank you Andrew.	5	8/6/2015 5:17:59 AM
Yes.....it really works!!	I have been taking glucosamine on and off for years and switched to Andrew Lessman about a year ago. When I ran out I thought it was no big deal, stuff probably doesn't work anyway. Boy, was I wrong!!!! Two weeks after I ran out I had pain in my knee as if I had recent surgery (7 knee surgeries, last one was 3 years ago). Took me a few days to realize why I had the pain.....no glucosamine! That was it.....I was on my laptop placing my order as soon as that entered my tiny pea brain! I will never, never, never run out again. It's not only helped with my knee but also my shoulder, back and the other places I have arthritis.	5	8/5/2015 10:09:44 PM
Great	I have knee problems and have tried everything and this has really worked for ...just bought more	5	7/29/2015 10:22:54 PM

Love it	I keep reordering because it is a great help for my aching knees, it buffers any pain in my knees and I am able to live again ...lol	5	7/29/2015 6:22:50 PM
Helps me	I started taking these vitamins over a year ago because I was having hip issues. These have helped soo much, took them to my doctor and he told me these are good and keep taking them. I now have my brother taking them too. Thanks Andrew	5	7/26/2015 6:59:29 PM
I have recommended this to many people!!!	The best product ever! I had a hip replacement the pain was horrendous this has helped me so much ! I've been able to exercise line before thank you!	5	7/24/2015 3:38:32 PM
AMAZING	So I thought I was allergic to Glucosamine because it gave me headaches. Well quality matters people. I decided to try Andrew's Glucosamine and NO HEADACHES!!! I've been working out all summer (pool, trampoline, Total Gym, lots of walking) and my BAD knee has had no problems.	5	7/24/2015 2:55:26 PM
Came Back!	Started taking these after I was having as issue with my hip. The issue went away. After a year I decided to go with a pharmacy brand to save some \$. My issues came back. I just stocked up on more Lessman G & C as it is totally worth feeling in top shape:)	5	7/24/2015 1:40:11 PM
Want to feel better - this is the best	Our joint pain is so much better - can't be without this.My husband and I can tell a difference in our joints. Thank you for producing such great vitamin and supplements - that actually work.Life is better when you feel better THANK Y	5	7/23/2015 6:21:53 PM
excellent product	I've had a total knee replacement and want to avoid having surgery on my other knee. my orthopedic surgeon recommended that I take glucosamine w/chondroitin daily in order to keep my "good" knee in great shape. I always research products before I buy and I found that Andrew Lessman is the most forthcoming with information about his products and I believe they are of the highest quality. I've been using this product for about 5 years now and my doctor and I are both pleased with the condition of my knee.	5	7/22/2015 6:18:18 PM
Fantastic product	Have used this product for as long as Andruw Lessmen has been on HSN, it really works for me, especially for my knees & hips will not do with out it ever. Thank you Mr. Andrew.	5	7/22/2015 2:43:45 PM
Great for Joint Pain	I have had lower back and neck surgeries and so can get very stiff and sore with or without activity. Stopped taking these for awhile and the pain almost became unmanageable, so I am back on a daily routine and feeling better already!	5	7/22/2015 1:26:43 PM
These seem to be doing the job!	I decided to try these when I went on a restricted carb diet in January & my liquid brand had carbs in it. That other brand included MSM which I thought I might miss. However, I'm only taking one capsule per day of these despite the recommended dosage of 4 per day and it seems to be relieving my knee joint discomfort. The sulfate form of Glucosamine & Chondroitin surely does a better job than the HCL form that was in my liquid brand. Thank you, Andrew, for providing us with quality supplements that do the job!	5	7/21/2015 6:09:09 PM
These are the best...	...no question in my mind. I've taken other brands and haven't gotten any noticeable relief. These actually WORK. Age hasn't help my knee issues, but thankfully, I'm no longer thinking that a knee replacement is unavoidable. Some days they hurt a bit, other days they don't. I can actually go up and down a flight of stairs without yelping at every step. Giving Andrew the credit and my most heartfelt thank you.Miss Mary	5	7/20/2015 10:51:37 PM
reorder	I take 3 DAY. In morning i wake up in pain take 2 pills and in an hour I feel better. Late afternoon i take another. When i stopped taking them i knew right away.	5	7/20/2015 2:33:10 AM

My Joints Feel Great!	I ordered this originally a while back when it was a TS in a jumbo size. After having my second shoulder surgery, I asked my doctor what I needed to do to not have to see him again. His answer? G and C. I only take 2 pills a day but have seen tremendous success with my recovery. My husband has aches in the knees and hands. He reluctantly tried this product and noticed a difference within 2 weeks, only taking two pills. In my shoulder recovery research, I have read a great deal about the importance of MSM and was happy to see this offered as a separate supplement, which I will add to this product. I trust Andrew and the high quality of his products. His are the ONLY vitamins and supplements I will take.	5	7/20/2015 12:57:32 AM
It works sooo Good	Andrew, its the best thing since air ! I am active 64 yr old woman, my ankle, knee's and hip joint were showing so much pain that I actually bought a cane to use ! I limped some from the pain so my back started hurting. Almost a year of pain !I decided to try this product, I trust Procaps because of the research and avid Mr Lessman is about his products manufacturing.I can not rave enough about this product, in 4 days the pain was subsiding.. its been a few weeks now and I am pain free!! Yes .. pain free. I will not be with out this product .. That Andrew offers.I can garden, play with my 8 yr old grandson, swim, walk in parking lots, grocery shop, and ride my motorcycle again... pain free. Thank you Procaps and HSN. Thank YOU	5	7/19/2015 12:55:58 PM
UnReal	This Glucosamine w/Chondroitin are wonderful wake up and my knee is bothng me I just take 2 capsule. My pain has gone away. I cannot keep my bottle all for me, I am always given them away. Thank you, Andrew	5	7/17/2015 9:40:45 PM
its for my dog	Have been giving this to my 14 year old dog and he is doing Amazing! Tried many other brands of g&c but none of them made any difference for his severe arthritis. Three weeks into giving him this everyday he no longer limps, he struts proudly from room to room and is a much happier dog.	5	7/13/2015 1:30:25 AM
It Works!!!	I was Diagnosed With Tendinitis In my elbow and in pain when i extended my arm. I started taking this product twice a day and am now pain free	5	7/12/2015 3:14:15 AM
I would not be without this!	I have taken Andrew's products since before he was on HSN. I feel that I am what you would call a very heath conscious person. I am an older woman....and do have the aches and pains of age. I have through the years run out of this product at least two or three times and after 2 weeks.....I feel it. Don't let this happen to you.....allow the product a few weeks to work.....and I think you will be pleased. I take the recommended dose divided into the am and pm. It is usually after a meal or eating something. I take many of Andrew's products....but this may be the one I definitely put at the top of the list.Andrew's products don't use fillers....he has a solar operated plant...and it is in the USA.. Watch him....read up on his products.....I think that you will discern the difference between this brand and some other brands.	5	7/11/2015 6:59:49 PM
Hope for Knee pain	After being diagnosed with arthritis in my knee and given a cortisone shot, my doctor pretty much said there was no other treatment for my pain. Suffering through sometimes unbearable discomfort, sleepless nights and tired of taking 8-12 ibuprofen daily, I decided to try this supplement. It took a few weeks, but I began to notice a decrease in pain when walking. I also take the circulation supplement because I had developed terrible swelling in that leg as well. (All of my blood tests were normal-no underlying problems)The swelling is gone as well as most of the discomfort. I'm on my feet 10-12 hrs. daily so this is definitely worth every penny.	5	7/3/2015 11:16:04 PM
" Best in a Bottle"	I have been using this product, plus, hisOmega, for at least three years. I have, prior to that, been on a Doctor's script, plus, brands 'off the shelf'....until i discoveredhis products, I hardly noticed any relief...afterapprox. a week of this product, I could feeland see a distinct improvement in my handsand fingers...plus, in my lower spinal area.I also trust in his product ingredients.	5	7/1/2015 5:51:42 PM

Can tell a definite improvement!	This is one supplement I never want to be without. I started taking it about 2 months ago. I ordered the bottle with 240. I have been taking 2 in the morning and two with dinner. Within a very short time I started noticing a huge improvement in my movement. I am no longer a little stiff when I get up to walk after sitting. I don't feel like I have to get everything circulating in order to start moving. I sit down, ride in a car for a long period of time and when I get up I just move like I did 20 years ago. No more waiting for everything to feel lubricated and I can get up and start walking with ease. I just ordered the largest bottle they offer on HSN. This is a wonderful product and I am so glad I tried it. I always want to have an ample supply because it has helped me so much. I highly recommend this supplement!!!	5	6/28/2015 6:05:32 PM
change in size	My husband loves this product, but I noticed that the size has changed. The last order had 600 caps and this one only has 480 so there has been a price increase.	5	6/23/2015 3:44:29 PM
GREAT GGREAT AS ALWAYS	I WAS SO HAPPY TO BE ABLE TO BUY THESE THAY HAVE HELPED ME SO MCUH AND I WILL NOT BE WITH OUT THEM THANK YOU SO MUCH	5	6/21/2015 3:03:32 PM
another great product	Product is very good. Would highly recommend.	5	6/17/2015 9:43:03 PM
I will never run out of this product.	I'm 67 and before I started taking this(about 13 years ago-I was 54 at the time)I felt like 127!!Creaking, aching joints.....blah.This product delivers.Sure, rainy days still give me grief butI feel 100% better in my joints, back, knees,etc.Thanks again Andrew for another excellent,quality product.	5	6/16/2015 1:45:48 AM
I feel GREAT!	For about 2 years I suffered with arm and shoulder pain, something my Mom had suffered for years...I used pain meds as she, did but really didn't get much relief...Then after only a few weeks I noticed I was sleeping pain free and days were going by without pain...Taking this product twice a day gave me my life back....thank you!	5	6/6/2015 11:44:49 PM
Seems to be helping my joints	After taking three capsules a day for a couple of months, the pain in my elbows and hips is greatly reduced. Give it a try!	5	6/6/2015 2:40:43 PM
The BEST	I tried this the last time Andrew was on and OMG I can't believe the difference in my knee's. It was so hard for me to get down on my knee's and then to get up was impossible, but now I can do it without any help and its getting better every day. I CAN'T THANK YOU ENOUGH ANDREW,,,I WILL NEVER BE WITHOUT THIS PRODUCT.	5	6/3/2015 3:20:17 PM
Glucosamine	This is my second time ordering Glucosamine. I have very bad knees from working out at the gym and now arthritis. This is a wonder pills. I am able to work out with barley or little pain. Highly recommended. Thank you	5	5/6/2015 10:54:17 PM
My Knees Love It !	I'm 67 years young, I live alone which means I am the "man of the house" when it comes to most chores. I still work out at the gym 3 times a week, walk everyday and am active with volunteer work in my community. About 5 months ago I began having pain in both knees, and finding it painful to do any bending at the knees. I have been taking Andrew's Gluco/Chond supplement now for a few months and I now have my mobility back. My knees are no longer painful and I'm able to be as active as I was before. This will now be added to my other Andrew supplements that I take daily. Andrew, you are helping me to hang on to as much of my youth as I possibly can! Thank you.	5	5/2/2015 6:03:28 PM
need this for arthritis	I take 2 of these every morning; within a few weeks my hands feel so much better. The arthritis in my hands was really painful at times but with taking this supplement the pain and stiffness is gone.	5	5/1/2015 1:51:59 PM
The Best	I love this vitamins.	5	5/1/2015 1:23:52 PM
Vitamins	Andrew's products are superb.!	5	5/1/2015 12:02:37 AM
Hubby missed it!	When we ran out of this product my husband felt his joints hurt and he really missed it. This man always complains about taking too many vitamins every morning couldn't wait till reorder of Glucosmine/Chonrotin. Customer for life!	5	4/30/2015 12:58:55 PM

helped me	I really didn't know how much this product helped me till I ran out of it. After some days, my joints began aching a lot more than when I was taking it so I will never run out again. Lesson learned.	5	4/26/2015 1:14:44 AM
Will never run out again!	I had used this for several months last year, and then ran out in January. I couldn't tell whether it did any good for my muscle aches etc...so I procrastinated reordering. Good grief was I wrong! I started feeling achy, especially in the am, then it dawned on me...I hadn't been taking my glucosamine chondroitin. I'm back on it and already I am feeling more comfortable. No adverse effects-like all of Andrew Lessman's vitamins that I use. You often wonder when taking vitamins if in fact you are throwing your money away...rarely noticing a difference. Not with these, or any others of Andrew Lessman. I love to hear his presentations- amazing how he quotes the very same trusted articles that I have read!	5	4/25/2015 9:04:01 PM
Great product	No aftertaste. And I like taking vitamins that have the amount and caliber of research the Andrew Lessman puts behind every product he sells. I am sold!Thank you and keep up the good work!	5	4/21/2015 3:41:00 PM
Glucosamine & Chondroitin	Glucosamine & Chondroitin was recommended to me by my doctor. While he may or may not know this product to be sold by Andrew Lessman on HSN I don't know. I just happen to find this particular brand while browsing on HSN's website and I decided to see how this brand differs from the retail stores. I bought a bottle of 60 capsules. I am to take this product for three months following my doctor's advise. Then we (my doctor and I) will see how much improvement has occurred in my joints.Personally, I can feel the difference in my knees. They don't crackle and pop when I walk. I love this product.Thank you Andrew	5	4/15/2015 6:06:55 PM
Great help for our joints	We have never had more help for our joints then Glucosamine. My husband and I both are experience joint problems - working with doctors has provided no help. Then I watched Andrew Lessman on HSN - what a eye opener. Thank you for having him on and thank you Andrew for all the information you provide. My husband and I both are receiving help and are feeling better then ever. We won't be without Glucosamine - we love it.Greatful,, Lucy	5	4/14/2015 12:41:00 AM
relief	My husband and I tried so many different joint pills and nothing worked. but this pills are sent from above they truly work my husband works construction and has had surgery and this pills help him so much! Thanks!	5	4/11/2015 5:06:22 AM
something i can finally take	Love it. Doesnt weigh on my stomach. Light in weight,small capsules. Easy to swallow and digest. I feel better.please andrew,come back more often.	5	3/25/2015 3:29:13 PM
Love Andrew's products!	Works for me! Love all products I have tried! I feel better and appreciate his knowledge and care of the making of his products!	5	3/22/2015 6:19:04 PM
Works great	The product works great, had knee and hip pain, however a side effect of this is heartburn. I got it really bad and had to stop taking this product, once I did the heartburn went away, too bad because it did work great.	5	3/12/2015 9:07:55 PM
Essential for me!	I didn't realize how much it helps with my hip pain (bone on bone) until I ran out...so now I know it's essential to reduce that pain a fair amount. At 62 and having become morbidly obese, I didn't know that walking a lot for exercise could use up the cartilage in joint sockets. My other hip has lost most of it and both knees & feet are also painful, at least with arthritis. So I will keep ordering this supplement even after I have a hip replacement. Also, we recently heard that many supplements don't actually have what they say on the label, but I'm confident that Andrew's products are the best quality. I take several others as well.	5	3/11/2015 6:33:45 PM
Wouldn't be without	I can see the difference in the ease and movement of my joints when taking this product. I can tell a difference if I stop taking, this is a must on my list of Andrew's products.	5	3/10/2015 8:50:38 PM
A perfect addition to you vitamin regime	A must have for your vitamin regime. This is the perfect addition and will certainly help if you have joint issues.	5	3/9/2015 7:31:56 PM

Excellent as all Andrew's products are	The integrity of Andrew's products is key for me and continues to be why I reorder his products.No sugars, salts, artificial colors to compromise the products effectiveness. TY Andrew!	5	3/8/2015 7:51:38 PM
These work!	I had a knee that I thought would have to be replaced. I took these as prescribed and within a week could tell a difference. After two weeks the pain was gone! I'm very happy! I bought a bottle for my cousin who is also having pain!	5	3/3/2015 4:08:37 PM
Lessman Supplements Rock!	I used to use a liquid supplement because I didn't like taking so many capsules. However, I went on a special diet that restricted my carbs & needed to get a joint supplement without the additives. I was worried that I would miss the MSM in my liquid supplement but I have been using Andrew's caps for a couple weeks now and my knees are fine. I only bought a small bottle but will be ordering again when I run out.	5	3/1/2015 3:15:22 AM
Glucosamine-fantastic	Like all of Andrew's products, this one performs very well. At 62, I won't be without it.	5	2/28/2015 11:13:54 PM
Back Pain reduced in less than a week	WOW!! Andrew, all I can say is wow. Started taking Glucosamine w /Chondroitin last week after having severe lower back and thigh pain for several weeks. The pain has subsided significantly. This product really works as do the rest of your products.	5	2/27/2015 9:59:01 PM
feeling better....	I have arthritis, and the pain that goes with it. I used to use this supplement years ago, and stopped due to cost. I purchased some from the supermarket--an Andrew no-no--and my pain returned. I finally decided, last year, to repurchase this product. Although I am not pain free, I don't want to see how much worse I would be without this. Does it help? I think so. I tell doctors that I take it, and my specialist smiles. My arthritis continues to move along as I age, but I really believe I am in better shape with this than I am without it.	5	2/25/2015 10:32:29 AM
the tin man!	I feel like the well oiled tin man from the wizard of Oz with this product.. Everything just seems more flexible and lubricated.. Thank god!! cause I was feeling old and rusty!	5	2/24/2015 9:17:29 PM
Makes a difference	I noticed that my hands do no ache as bad using this product. I know I am getting quality products by Andrew.	5	2/24/2015 6:59:53 PM
Knee pain greatly reduced	I had knee surgery 3 years ago and have lived with knee pain since then. Pain that would wake me up at night. Had been taking the "wrong" form of glucosamine all that time. Decided to try Andrew's product. Have been taking this (also the vein support supplement) for 2 weeks now. My knee pain is 95% better! Only occasional twinges .No more waking up at night to reposition my leg. I feel that the rest will resolve the longer I am taking the supplement. Also, much easier to swallow. Thanks, Andrew!	5	2/24/2015 1:09:43 AM
Well worth it!	Easy to swallow. High quality. No GI upset. Very pleased. :)	5	2/22/2015 8:05:11 PM
Best purchase ever !!	Love this... never felt better..all my stiffness and aches and pain are dramatically better..I take 4 capsules a day ...two in morn and 2 in afternoon....	5	2/22/2015 2:05:40 PM
Grateful for impact on my health.	I am most grateful to Andrew for his high-quality natural vitamins and supplements. I feel Andrew standing by my side, as my support, as I live my life. He, and God, have allowed me to live a blessed healthy, energetic, and pain-free life. I have purchased numerous product formulations researched, then created by Andrew. This product does not disappoint. God Bless.	5	2/20/2015 6:08:51 PM
WILL NEVER BE WITHOUT	I was taking glucosamine with condroitin when you took 5 capsules at a time. I remember telling a doctor I work for that I really didn't know if it did anything. He told me the only way I would know was if I stopped. Well, let me tell you . . . I ran out of it and had been off of it for months. My knee became so painful, excrutiating to be exact, to the point of really being incapacitated !!! I ordered this set when it was the TSV and within a month of being back on it the difference is a miracle !!!!! I will never go off of this again !!! Starting back with my kettlebell AMPD class Sunday and from there - TRX - treadmill and hopefully come summer will be trying Surfset !!!! Thanks Andrew !!!!!	5	2/19/2015 6:09:55 PM

It works!	Have been using these products for only a few wks and have already started to notice a difference. I have had a Dr tell me these pills won't help me but over 15 yrs ago my vet recommended a product with similar ingredients for my large dog with bad hips & I was amazed how quickly they helped him. Have tried other products w/similar ingredients for people but didn't really work for me. I now have bad arthritis in knees & joints & was hoping maybe this might work. Don't know if the tumeric & ginger combo plus the Glucosamine & Chondroitin is why it's working so quickly but don't really care. All I know is that today it took me 2 hrs to realize I forgot to take pain pills when I woke up. My hands, fingers, shoulders don't hurt quite as much. This won't cure my arthritis but anything that makes it easier for day to day living, to hold & read a paperback, open a can, & just move a little bit easier is wonderful. I definitely recommend this product	5	2/11/2015 5:31:10 PM
the best	Love Andrew's products...this product keeps my joints functioning, especially my fingers. I wish it could be put into a larger capsule to make it more affordable.	5	2/7/2015 5:40:44 PM
Feeling better	I only watch HSN for fashion, jewelry etc., not vitamins, cooking or lots of other things. I happened to see this was on and thought it might help. I am 65 and this year was getting stiff and achy, especially when standing after sitting for awhile. People at work noticed I was walking differently too. I had to hesitate when getting out of my car! After a few days of taking this I noticed improvement. After a week I'm almost totally back to my normal old, (young) self. I wish I would have tried sooner. Amazing. I was going to ask my doctor for something and was expecting to hear its normal aging.	5	2/7/2015 3:14:34 PM
came back for more	I just had to come back for more...thank u..Andrew	5	2/6/2015 5:21:29 PM
shopper70	I stopped taking Glucosamine with Chondroitin for about a year. 3 months ago I had an artheritic attack in my left knee. It was a walking nightmare. I didn't know what it really was until my doctor diagnosed it. After weeks of PT and pain pills I found some packets of Glucosamine with Chondroitin and started to take them. I noticed that my joints in my fingers weren't hurting like they used to and my knee was much better. I know that it was a combination of treatments and taking the found packets that help. I won't stop taking the Glucosamine again. It's part of my daily regiment with all of the other Lessman products.	5	2/6/2015 4:25:08 PM
Can't believe I stopped	I was taking this for many years before, not always Andrew's product, but stopped using it for almost 2 years now, as I have resumed this, my hands have certainly noticed a difference in the swelling and discomfort. This has never caused me any type of stomach discomfort, don't know why I ever stopped it!	5	2/6/2015 4:18:26 PM
Fab for bad knees!	Love, love, love, having full knee replacement this month but this suplement has made my comfort level great increase. Will remain on them after surgery.	5	2/6/2015 3:25:40 PM
Best Quality	I buy Andrew Lessman vitamins because I feel they are the best quality I can purchase. I take the Glucosamine with Chondroitin for back joint issues and it really helps.	5	2/6/2015 2:22:33 PM
so far so good	I bought this because I'm over 60 and work from home. This means a lot of sitting every day for long periods of time. So I need to get active, but need to support my joints. So far so good. I can feel my knees getting stronger now when I ride my recumbent cycle. So now I feel hopeful that I will be able to go from cycle to walking again. Thanks for the boost to my wellbeing.	5	2/6/2015 5:25:29 AM
wonderful product	I have been taking Glucosamine with Chonodrotin for many years with wonderful results. Before taking it I had a lot of pain in my hands. Not any more. Thanks Andrew.	5	2/5/2015 5:33:46 PM
Works Great	I can't go without these. I can really tell the difference when I forget or run out. This helps me so much and I use daily.	5	2/5/2015 3:29:43 PM

It really makes a difference	This is a great product. I've tried quite a few glucosamine products with very little results. However with Andrew Lessman's Glucosamine and Chondroitin Sulfate I'm able to do my exercise routines including squats with greater ease and I notice getting up and down from the couch and even from the floor is much easier when I'm using the product consistently. I'm also very happy about the new strength. Now only 4 caps are needed daily instead of 5...thanks so much Andrew for providing this product because it really makes a difference and keep on doing what you do because you do it well!	5	2/5/2015 3:06:54 PM
Glucosmine	I love Andrew's vitamins. This really helps me. I have some joint pain. This works wonders for me. Thank you.	5	2/5/2015 4:58:50 AM
SAVED ME	I have been taking these for the past few weeks for my knees mainly. Went to the doctor because could not barely walk with swelling and the feeling of bone on bone when i would walk or stand. They gave me the medicine for osteoarthritis and I was feeling so down thinking I was doomed for life. Taking this along with tumeric has made such a difference in my life back to walking 6-7 miles a day with minor running. Yes they are expensive but they are not a narcotic and I would much prefer these. THANKS SO MUCH	5	2/3/2015 10:27:13 PM
love this	Just love this , both my husband and I are on this and we love it ,we're walking so much better. Thanks	5	1/21/2015 5:01:45 PM
the best	Will never go without !!	5	1/20/2015 3:52:40 AM
Help for tension headaches	I would not be without this wonderful product. I have suffered from severe tension headach 5es due to a car accident many, many years ago. Glucosomine	Really helps with the pain and inflammation	5	1/16/2015 6:24:25 PM
I like it - wish is were cheaper	I'll be 49 this year. I grew up on a farm so I wasn't too careful on lifting heavy objects and such. After all, I was young and had the strength to do it, I just didn't realize how much it would catch up with me later on in life.I'm not sure how long I've been taking this product - almost a year I think... sure, I don't notice it working when I take it... it's when I stop taking it that it become apparent that it was working all along. I just wish it were cheaper! Seems like every time I order it, the next week it goes on sale. Oh well, such is life.	5	1/11/2015 6:49:48 PM
Excellent	See result taking this pills, reduce the amount of pain in my joints.	5	1/8/2015 7:58:26 AM

Awesome	This product has been really helpful for my knees. Before I began using this product, I had daily pain & stiffness in my knees, however now I have very little problems unless I really over use my knees. Love this product!	5	1/4/2015 7:44:03 PM
have been buying these for years	I get these for my mom and my sister..they both think they work really good.	5	12/31/2014 6:59:31 PM
Glucosamine Chondrotin	I noticed this helped with some aches and pains within 2-1/2 weeks.	5	12/22/2014 7:14:44 PM
I've found my solution!!	I bought the big bottle and I thought I'd never get it finished but taking 5 a day it went faster than expected. I decided when they were gone I wasn't going to buy them anymore. I didn't think they made much difference. It's been almost a month now & I realize how much stiffer & achey my joints are!! So I'm going to reorder. Sometimes it's hard to know how much something is helping until you take it away!! I'm sorry I questioned it, Andrew.	5	12/15/2014 11:34:20 PM
I can dance again	My joints were starting to ache and people told me to start using this product and it really seems to be working the aches and pains I had in my hands ankles and knees have definitely subsided... Thanks Andrew!	5	12/14/2014 4:21:02 AM

What a relief!	This product has been nothing short of a miracle. I was taking two tablets of a pain relieving OTC drug at a time per dr.s advice when the dosage is only one every 12 hours. So, I had serious issues with arthritis in my legs and lower back. I ordered this product rather skeptical, however after two and a half weeks of 5 capsules spread throughout the day, there is NO pain at all and none of the the OTC pain remedy needed. This worked for me and I hope others will get the same results. Thanks, Andrew!	5	12/2/2014 1:21:10 AM
Great	Great!	5	12/1/2014 10:57:54 PM
Excellent product	I have used this product for 5 years now and love it. When my dog was 12 years old, she started having issues with her hips. I started mixing in 1 capsule opened and spread over her food daily. With this and taking her for walks more, she had no more problems with her hips. I just had to put her down last month at the age of 17! Great product.	5	11/24/2014 2:48:18 AM
Great for sore knees	I take GC every day to help nurse my sore knee back to health. It has really helped me. I feel like the GC is making my knee stronger, especially in this cold weather. Thanks Andrew!	5	11/23/2014 3:32:16 AM

Quality product	I started using these about a month ago. I was using a different well known name brand product for about 2 months. I had noticed increased joint pain and stiffness. Since being on ProCaps, this has decreased significantly and gets better each day ! I highly recommend !	5	10/29/2014 12:09:37 PM

SAVED MY KNEES	I started taking Glucosamine with Chondroitin because I have osteoarthritis in both knees. I had been suffering with such pain and one day I woke up and could not bend my knee. I started taking the glucosamine and within 3 weeks I saw a large improvement in my knees. I was taking 3 pills a day and now I am down to 2 pills a day. Its been over a year and I no longer have severe problems with my knees. I will not go without this ever. I buy the tsv when its on and I have bought a bottle in between because I never want to take a chance to run out. Thank you Andrew for saving my knees. They have healed and repairs alot of the damage I had.	5	10/25/2014 6:17:22 PM
Could not be without this!	My husband and I have been taking this supplement for over a year, we both are seniors and have osteoarthritis. All I can say is that the G&C lubricates the joints and reduces the swelling in our hands and makes life more enjoyable. No more crackling noise when I move my neck and shoulders and no more pain and swelling in knees and hands. Would not be with out this supplement.	5	10/25/2014 3:32:07 PM

Love Love Glucosamine and Chondroitin	Andrew you are the best. My legs never felt better. As someone who struggles everyday with stairs and walking period, since I have been taking the Glucosamine and Chondroitin vitamins I can say I can almost run around. I love them they work. My joints are not as sore as they were. I will always keep them with me. Thank you Andrew Lessman for giving us the very best.	5	10/24/2014 5:20:46 PM
miracle	after using it for 1 1/2 weeks my finger joint that was red a swollen for 20 years became flexible and normal again. I am hoping that the rest of my body will follow suit.	5	10/24/2014 2:45:57 PM
You Never Know What You've Got...	If you've ever heard the expression, you know what I mean! I wasn't sure these were worth the trouble of FIVE capsules a day, so when I ran out, I didn't reorder. What a mistake! After about a week I started to feel the aches and pains I'd forgotten about...so I reordered and am feeling limber again. You never know what you've got until you stop using it! Thanks Andrew!	5	10/24/2014 1:15:26 PM
Noticeable Relief	Just recently started taking and have already felt a huge difference. I am on my feet, lifting, moving swiftly all day. By the end of the day I am usually sore, particularly in my hips and knees. Not so since began this product (along with Complete-100 with Omega 3). I am truly surprised but very pleased with the result. Thank you Andrew Lessman!!	5	10/24/2014 12:35:13 AM

I have been taking this product for about 3 weeks now, and feel great.No more leg pain. I guess I just needed "oiling" Great product.	5	10/22/2014 12:43:48 PM

Vitiman	Love product, taken 30 days now and can truly feel a difference.	5	10/17/2014 4:42:51 PM
"Issues" are better since taking these...	So, whether it's coincidence, the trust I have in ProCaps/Andrew Lessman's vitamins, or actual results, I have to say I am liking this product a lot.As long as I feel better, I am happy ! As a basis of comparison, I know for a fact (for me) that ProCaps "Hair, Skin, and Nails" ABSOLUTELY makes a huge difference and works better than any other product I have tried for my nails, therefore I will conclude that this Glucosamine w/ Chondroitin most probably does too.	5	10/17/2014 3:24:08 PM
Great product	I won't be without these even have my three older dogs on this product	5	10/13/2014 5:13:33 PM
Nice Product	I've noticed the difference in taking this product. I have bad knees and suffer everyday with some sort of pain. I know this is not a cure all but I've noticed a change for the better. I will continue on with this product.	5	10/13/2014 1:35:51 AM
Best !!!	Been on Glucosamine/Chondroitin long before it was avail like it is today, This is the best formulation and so easy on the stomach and easy to shallow and this really works better than any other brand I've had. Thank you Andrew Lessman, your products are wonderful and your pricing is very fair.	5	10/11/2014 12:12:13 AM

Can't go wrong with Lessman	Love his product because they are pure with no fillers and easy to swallow pills	5	9/27/2014 6:23:35 PM
Give it a little to work.	This product does work on my hands and knees. BUT you must give it a little time to work, if you do you will be very pleasantly surprised at its ability to relieve your problems. Another winner MR.Lessman, now I can REALLY give you two thumbs up.	5	9/25/2014 11:54:04 AM
Love Love -- Great Product!	I just started using Andrew Lessman's products recently. Gift Order	I sent a 5 different bottle selection of Lessman supplements to a former 82 year old widow neighbor of mine in Palm Springs who eats healthy. This was to introduce her to Lessman products. I know these products will assure (as they do for me) the maximum benefit of her healthy eating and no doubt give more benefits to her. I brag about the ecological friendly manufacturing facility in Nevada (USA Jobs) and about the humanitarian bonus for vitamin orders. Thank you Andrew Lessman for helping to make lives and the world a better and a more healthy experience.James EvansTucson	5	9/11/2014 6:43:17 PM
GREAT PRODUCT!!!	I COULD TELL IT WAS WORKING AFTER THE THIRD DAY!!! GREAT VALUE!!!	5	9/3/2014 6:17:29 AM
GREAT PRODUCT!	I have had issues with my knees for 30 years, since being run over by a van. I am currently 53, and over the past several years, my knees have worsened and ache almost constantly, stairs have become very difficult, and I was thinking knee surgery was just a matter of time. I decided to give this product a shot and am thrilled to say I have NO knee pain, no issues on stairs, feel stable on my knees and overall would recommend this product to anyone having knee issues!	5	8/29/2014 2:19:16 AM
Consistent results	Like all of the Lessman products, this one is easy to digest and is very effective. Will order again and again.	5	8/26/2014 3:50:25 PM
It Works!!!	I started with the recommended dosage and was able to reduce some but the supplement works. My jaw pain and shoulder pain has improved so much. I can actually raise my arm without pain. Try it, can't hurt to try!	5	8/15/2014 10:56:04 PM

Glucosamine with Chondroitin	Have been using this product for about six months, appears to really help with joint pain . I can now work out pain free. Give it a try.	5	8/12/2014 12:42:04 PM
BEST Immediate relief from joint & arthritis pain	This combination is so well made that I had given my daughter in law a bottle to try 3 years ago. She never mentioned anything to me until this month when she called crying in severe joint and arthritis pain and said quote " Mom nothing has ever helped me accept the joint pro caps you gave me to try a few years backI said why didn't you say something sooner I got them from HSN. Quickly ordered after day two of taking and finally pain free and WILL NENEVER BE WITHOUT AGAIN .We thank God 4 AL	5	8/8/2014 8:33:10 PM
Seems to help my joints	I just started taking this because I was having some stiffness in my knees. After 2 weeks it is helping with that problem so I will continue to take this and I am hopeful that it will improve all of my joints as I get older.	5	8/7/2014 8:55:23 PM

Great product!	This really works!	5	8/3/2014 8:23:25 PM

Incredible	About 15 years ago my knees started to hurt while walking down and up stairs. My doctor recommended glucosamine and chondriotin. I tried several different brands with no results. A few years later I tried Andrew's. Within 2 weeks my joint pain was gone. Recently I ran out, and didn't have the money to buy more. Within a few weeks my knees hurt so badly I could barely walk. Then I started feeling pain my hip joints. As soon as I had some money I immediately bought more. And after taking them for a week all of my knee and hip pain was gone. This is by far the best joint supplement available. I hope I never have to go without again.	5	8/2/2014 9:41:36 AM
Great product	I have purchased the "cheaper" versions of this at the big box stores, whether their brand or a name brand and to be honest, they NEVER helped me, yes they were cheaper, but it was a waste of money since they did nothing for me. Then I purchased these from Andrew Lessman andta da!!! No more pain! I could not believe how much better I felt in just a few days of using them. I was being cheap at first and only taking 3, and didn't feel that much relief.....moved up to four a day and WOW...what a difference. I take Zumba classes and the turning, twisting and sudden movements were a killer for me but not anymore since I have been taking these. Thanks Andrew for always explaining what is in your supplements and what is not. Believe it or not, people listen to what you say and by explaining things to us, you are making us well aware of what we put in our bodies and what it does for us/to us. They say Knowledge is the key.....Thanks for the Key Andrew!!!!	5	8/2/2014 2:40:27 AM
noticeable difference	We ran out of this product and tried some value brand which did not have the same ingredients as Andrew discusses in his tutorial on this product. There truly is a difference and we will be sure not to run out in the future. My wife and I are both on our feet many hours a day, and really appreciate the affects this product has on our joints. Andrew delivers again. Thank you.	5	8/1/2014 3:30:49 PM
Great Product	This is one of the Best Products I have ever bought. My husband and I now take this with our Drs. approval. We are very pleased with the results. I am so happy about how we feel. The price is very reasonable and the flexpay really helps. Thank you for all your excellent information on your products that you have researched for us!	5	8/1/2014 5:18:46 AM
Works	Keeps my varicose veins under control, excellent product	5	7/31/2014 4:38:08 AM
AMAZING PRODUCT!	I went from days and nights of terrible aches and pain, especially in rainy weather, to sleeping without waking up in pain, to actually opening a jar and dressing without pain, within two weeks of taking 5 capsules of glucosamine chondroitin sulfate regularly. The fact that they are dissolving capsules, I am convinced, makes a great difference to other options. I am a devotee! Thank you Andrew Lessman. I tell everyone. Yettie Hollywood, Florida	5	7/30/2014 1:52:25 PM
It is the best	I am 68 years old, and this wonderful product helps me so much with my day to day activities.	5	7/30/2014 10:43:38 AM
Great help!	I bought this for my boyfriend, along with the tumeric. He takes five of these and one tumeric a day. The combo finally has helped his pain and joints! Thank you so much for this product. He has tried highly advertised products before and they actually caused him pain for a couple hours before limited relief and then nothing. It was pointless. So this is great!!	5	7/27/2014 7:19:05 PM
Andrew Lessman Vitamins No. 2	Again, I feel Andrew Lessman Vitamins are top quality. You cannot go wrong with his products. Enjoy.glk	5	7/27/2014 5:05:22 PM
A Must Have Vitamin	The Glucosamine Chondroitin vitamins helps with keeping my bones and joints. I notice I don't have the aches and pain in my joints after exercising, walking or even just from sitting to a standing position. I take twice a day. Another winner of vitamins from the one and only Andrew Lessman.	5	7/26/2014 3:08:44 PM
Got my knees back	Ran out a few months ago and tried "same" product from a local store and my knees noticed the difference right away! You can find this product at most any store, and it will likely be less expensive, but believe me,,,this quality is unsurpassed and I will never run out again!!!	5	7/25/2014 9:26:43 PM

So happy Andrew made this one!!!	I was diagnosed last year with Osteoarthritis and needed arthroscopic surgery on one of my knees. I have been taking 5 capsules a day of this product since the surgery. I believe this product has helped a lot in my progress since surgery. I am able to walk 7 days a week on my treadmill, with relative comfort, at a moderate rate of speed for about 40 minutes. My husband is also taking this product because he has a physically demanding job and it could not hurt to have the benefit this gives. Thank you Andrew Lessman for another great product.	5	7/25/2014 1:13:31 PM
Work on me	I have accident on my knee, and this helps me so far. When I did not take it, I can feel some pain. It works well on my arthritis.	5	7/24/2014 12:39:52 PM
2nd bottle	This is the second time i ordered this product. I am not sure if it works but not taking any chances. I have fibromyalgia and hope this helps. For sure it is safe to take. Do you know how I know that? Cause I know I can trust Andrew Lessman products. I have taken them for at least fifteen years maybe longer.Carol	5	7/24/2014 12:14:15 PM
best investment for your joints.	I've used Glucosamine Chondroitin for many years and will not be with out it. I've had knee problems and it has helped so much with joint pain. I have recomended it to many of my relatives and they also have benefited from using it. Andrews vitamins are the only ones i will use, they are the best, no added colors or fillers. Thank you Andrew and HSN for all the information about them.	5	7/23/2014 1:14:29 PM
Glucosamine & chon	Excellent	5	7/23/2014 1:01:31 PM
LOVE!!!!!!	I have been using the lessman glucosamine with chondroitin 600 capsules for 2-3 months now and I love them very much. I starting using them because of my joints in my legs when I walked would hurt and I am not saying that these are a cure I'm just saying for me they work very well and now I have no more pain in my joints and I can walk more easier. I will never go without again and I am so glad that Dr Lessman has made a product that is all natural and healthy for us to take.All I can say is thanks so much for all of your wonderful vitamins you make which are all great.	5	7/21/2014 8:30:10 PM
Great product	It works and makes my mom feel great	5	7/21/2014 6:11:42 PM
Had them before	Didn't realize how good joint pills were till I quit taking them for about a year..Started back up my back and shoulder started killing me again,what a difference. Pain is gone again best on the market wont make the same mistake again.Up till the last time I've taken it for years. Now I know how much it really works.Thank you what a relief.	5	7/20/2014 10:10:02 PM
Superhappy I found this! TRY IT!	I'm 49 years old now and I used to wake up in the middle of the night and I couldn't move (extremely stiff). It was like I was a corpse. I was afraid to turn at all (onto my side, etc.) because I was so stiff after staying dormant for any period of time. My doctor said I had a little arthritis in my back. I didn't want to take pills so I did some research and found that Glucosamine Chondroitin helped some people so I purchased it (a different brand). This did nothing for me so I went months figuring nothing would help. Somehow, I must have had HSN on the background and Andrew was talking about his Glucosamine Chondroitin. I heard him say that many brands used a hydrochloride version that wasn't beneficial. Sure enough, I looked at the bottle I used to take and it was hydrochloride. So, I threw them out and ordered this (sulfate version--it happened to be a "Today's Special.") Well, let me tell you... THIS WORKED! I feel wonderful. No issues with feeling like a dead corpse	5	7/20/2014 7:53:57 PM
lifesaver	I have been taking Andrew's glucosamine with chondroitin for about 10 years . I have severe arthritis in both knees. After trying several other brands unsuccessfully, I started taking this product .Per my Dr.'s recommendation I take 1000 mg per day . Within 2 weeks the pain in my knees was greatly reduced . I am in my 60's ,a just retired teacher who is very active .My 2 young granddaughters keep me running , jumping , crawling and swinging , which I would never have been able to do without taking this wonderful product !!	5	7/20/2014 2:51:10 PM

???	EMPTY PILLS	I JUST ORDERED MY 2ND BOTTLE OF GLUCOSAMINE AND I HAVE TO TELL YOU HOW MUCH IT IS HELPING MY KNEES --- THE PAIN AND STIFFNESS WAS BAD-- HATED TO SET DOWN BECAUSE GETTING UP WAS PAINFUL-- I NOW HAVE GREAT RELIEF BUT MY LAST BOTTLES HAD EMPTY CAPSULES AND POWDER IN THE BOTTOM-- ITS NOT A BIG DEAL BUT BEING A SENIOR CITIZEN EVERY PILL COST AND COUNTS THANK YOU	5	7/19/2014 8:58:39 PM
	This product is fantastic!!	This product changed my life. For years I was either standing on my feet, or sitting behind a desk for hours. But, I was young so, I did not pay it any attention. At work I know I should get up and move but, sometimes I just get busy. Finally, when I stood up my legs, and back would ache. Now that I have gotten older just getting out of a vehicle was a challenge. My back hurt so bad I would have to walk slow, and bend over until the pain eased. Once I started taking this product, I could tell the difference. I no longer have to rest just to get out of the car. I still sit at work for hours at the computer, but when I finally move I do not have to bend over and walk slow. THIS PRODUCT IS PHENOMENAL!!! I use this and Circulation & Vein Support, and I am happy to report that I love riding my 2 wheel not 3 wheel bike for exercise in the park now. I LOVE ANDREW LESSMAN AND I HAVE NEVER MET HIM, OR SPOKEN WITH HIM. Andrew just continue to maintain your integrity, in terms of your produ	5	7/16/2014 4:19:35 PM
	Joint therapy!	Fantastic product! I love this product! Take it everyday and my joints are great! I never want to go back to popping hurtful joints! Thank you Andrew Lessman!	5	7/11/2014 3:05:27 PM
	Great item	I ran out and trust me I knew the difference in other products I've tried. Had to come back to the best.	5	6/29/2014 3:13:20 PM
	ANOTHER WINNER!	I suffured a torn meniscus a couple mo.s ago. I did not have surgery. I took this product, did knee excercise and wore knee support. And Iam almost 100% . Love Andrews products!	5	6/24/2014 11:46:08 PM
	Best of all other Capsules	I have use the Glucosamine for several years.I had problems with my left knee the Dr told me I needed a surgery. Thanks to Andrew and his Pills my Knee is fine.	5	6/23/2014 8:11:22 PM
	They really work!	I've had minor knee surgery several years ago and have problems since then. If it gets really bad, I know I forgot to take my pills! I have used over-the-counter products that they did not give me the relief that Andrew's do. Thanks Andrew!	5	6/19/2014 9:32:20 PM
	WALKING WITHOUT PAIN	I have been taking Andrew's Glucosamine with Chondroitin for about 6 months. It was recommended by my Orthopedic doctor as a "possible" help for my knee pain due to some arthritis and previous surgery for meniscus tears. I tried the hard, large tablets from the drug store, hard to swallow and experienced to improvement in my knee pain. I had no goo results and gave up. I thought I would never again walk 9-holes of golf. One night I saw Andrew explain how his formula was different from the over-the-counter tablets I had been taking and I thought his formula might make a difference. Boy did it. My golf pals are amazed that after years of using a cart, I can join them and walk without soreness in my knee after exercise. Thanks Andrew, I am enjoying walking without pain again. The "right" formula made the difference.Susie from Wisconsin	5	6/2/2014 8:06:27 PM
	Been using for several years...	just got my mom going on it. Her fingers have been feeling much better. It took a few weeks for her. Now she takes faithfully everyday. I stock up during a TS or free S&H. I also have been using Circulation Vein, Healthy Hair/Skin/Nails, the list goes on and I love the results from all of them. Thanks Andrew for all your great products. Debra	5	6/1/2014 5:16:07 PM
	Love!!	I love this product and I love you too, Andrew Lessman, for saving my knees!!!!	5	5/28/2014 4:50:12 AM
	FANTASTIC PRODUCT!!!	I have been taking this product for 6 weeks, and it is wonderful! I have osteoarthritis, and before using it, I couldn't walk without excruciating pain. It does take a few weeks before you can feel a difference, but I am now able to walk with very little to absolutely no pain at all! I am so thankful! I will never go without this product!!!	5	5/15/2014 7:27:58 PM

REALLY WORKS!	I don't understand how or why, but after a week of taking this product my knees felt much better where I can walk without pain. I started out taking just two a day to try to save money, by making them go further. I am taking three a day now. No stomach upset, either. Imagine if I took the recommended dosage of five a day! Thank you Andrew Lessman and HSN :)	5	4/28/2014 1:04:47 AM
it really does help	I am amazed this is actually helping my joint pain/stress and my husband's knee are feeling better. I guess this was the food our joints were aching for, LOL. Will keep feeding them so they will not ache for nutrients.	5	4/26/2014 10:51:43 PM
EXCELLENT	This is a feel the difference supplement. Even 3 per day make a world of difference for my son and me. He is 33 and I am 59! It is the biggest bang for the buck!Cathy	5	4/26/2014 1:55:56 PM

Excellent product	I take about 10 of Andrew's vitamins each dayand would not be without them. I have arthritisand without this product, I have many problems.Have taken for probably 10 years.	5	4/19/2014 9:25:05 PM
Can't Beat This Product !	My son has had back surgery and has 4 plates in his back. He swears by this product- says he's tried many other similar products and NONE give him the response that this one does!	5	4/18/2014 5:35:20 PM
GREAT product.	This really works. I was using another product somewhat similar, tried Andrews when he pointed out how his is different, and hurrah he was right again. I tried taking 4 a day, but I find the suggested 5 a day really works better. Thanks Andrew, again.	5	4/18/2014 12:00:50 AM
Great Product	I have been using this product now for several months. I started using this because I was having problems with my knees locking up and being in terrible pain while going up and down stairs. I was at the point of having go up stairs one step at a time. I was only 44 at the time and this should not be happening. I have always had issues with a birth defect that would cause my cartilage behind the knee cap wear and lose support. They told me to do special exercises to build up the tissue. Using this product has been extremely helpful for me. I only have to take (2) a day and it maintains the necessary elasticity in my joints. No more severe pain and steps are not a problem on a day to day basis anymore.Plus these are so much more cost effective that the over the counter versions. Thank you.	5	4/17/2014 12:52:20 PM
Helps	I like the way Andrew's products are a fine powder and very easy to swallow and digest. I find this supplement helps my so far slightly aching joints in a few places. Andrew's version is even better than all of the rest. i went off the wagon for a while to save money, but if you don't get the benefits, it is just a waste.	5	4/17/2014 11:41:53 AM

AWESOME!!!! AWESOME!!!! AWESOME!!!!!!	I have always been hesitant to purchase Andrew Lessman's products because they are more expensive. When you really look at the positive way these make you feel there is no comparison. In all actuality, they really are not that much more and my body and my health are more important. I started to take 3 a day to keep my costs down. I quickly realized that I did not see a difference from the over-the-counter product. I decided to bite the bullet and take the recommended 5 capsules per day. THAT MADE THE DIFFERENCE!!!!!! I love this product and swear by the results. I will NEVER go back to the store products. I have never felt better!!!!!! I have now opted to purchase more of his products as I need to replenish. I have problems with thin hair and am trying that along with 4 other products. GREAT.....GREAT.....GREAT products!!!!!! THANK YOU!!!!!!	5	4/16/2014 2:10:04 PM
A Must-have!	I can't be without these, they are so beneficial for my knees, and really do help with the osteoarthritis. This is an excellent product and I trust the quality of Andrew's supplements. I just re-ordered so I won't run out--my husband and I both take these faithfully!	5	4/16/2014 12:48:53 PM
These appear to be working	This was my 1st of Andrew products & appear to be helping my leg cramps	5	4/16/2014 10:50:05 AM
Relief for Osteoarthritis??	EXCELLENT!!!	5	4/13/2014 4:38:48 PM
Take all 5 for a difference!	Instead of taking the recommended 5 capsules, I was only taking 3, thinking I could make my bottle last longer. I didn't see any improvement in my chronic knee pain. So after 6 weeks, I finally decided to take 5, and wow... within 3 days I felt a real noticeable difference! Before I couldn't walk up two steps into my house without sharp pain, directly under my knee caps. Now the pain is 90% reduced, or on a good day gone completely. I can't believe the difference! SO TAKE THE RECOMMENDED DOSE! I will not be without these now. Thank you Andrew. You have made moving around in daily life a breeze in comparison to how it has been for over 2 years. Now I feel like I can workout and not be as afraid of the inevitable pain. I have a much greater range of motion. Barbara, in NV	5	4/6/2014 12:55:10 AM
Standing up for Glucosamine with Chondroitin	Dear Andrew:I'm 54 years old and have suffered with back pain for over 10 years. I work in a factory and by the end of the day, I would leave the plant walking bent over and doing the "institutional shuffle". Your Glucosamine with Chondroitin has practically eliminated my chronic lower back pain. It is a wonderful feeling, at the end of the workday to stop and think: "What am I missing? Oh! Ya. The pain." Thank you Andrew Lessman and ProCap Labs.	5	4/5/2014 6:06:25 PM
It works!	At your first sign of achy joints, take this. I SWEAR by this stuff. My knee never bothers me anymore. Thank you!!	5	4/5/2014 2:22:36 AM
Relief	I was considerably pain in my hip area. Not sure if it was from over exercising. I took the first dose and felt relief of no pain. I thought I was imaging it. I was even walking like I was still in pain. But I several more doses I realized there was no pain, and I am relieved.	5	4/4/2014 8:51:15 PM
Love This Product	I started taking the glucosamine for several weeks. After 3 weeks I saw such a difference in how I feel. My knees no longer ache and I am not stiff with my knees when walking. I stopped taking the product just for 1 week to see if it made a difference and wow did it ever. I quickly started back on and now I wont be without it. Thank you for this wonderful product. It sure has helped me alot.	5	4/2/2014 1:30:19 PM
Great Product	I can't be without these! Best product of this kind that I have tried. If I miss a few days, I CAN tell the difference.	5	3/5/2014 3:24:26 PM
Glucosamine	Excellent! I would take no other kind except for Andrew Lessman!	5	3/3/2014 4:19:43 PM

No more knee pain	I bought 75 capsules first to try them out. Within 4 or 5 days I could feel a difference. My knees had been hurting for over a year. After a month they still twinge a little but they have drastically improved. If you have knee pain these are worth a try. I am 63 and had been walking at least 2 miles twice a day. I had gotten down to only 1/2 mi. a day because of the pain. I am now back up to 1 mile twice a day. Hope to get back to 2 soon. Give these a try...	5	3/1/2014 4:22:01 PM
Great product!	This works! I have been trying this product from the pharmacy and none of it helped my knee pain. Got this and the pain is going away. I hope never to return. I'll stay with Andrew and love the healing that's happening!	5	2/26/2014 4:09:27 PM
Always Good	Seems to do a good job. This is my second order of this product.	5	2/24/2014 9:57:53 PM
Best I have felt in a long time	These have helped me feel like I used to feel before I had osteoarthritis in my knees, and I am able to walk on the treadmill now, without any pain. I walked before, but the pain would wake me up at night, and it usually hurt too much to walk very far. Now I bounce up the stairs and feel so much better! Also, I have scoliosis, and it is helping with that. If you have tried other brands, just try this--it really works!! I have my husband taking these also. I am 63 and feel 40 again! Thank you, Andrew.	5	2/15/2014 4:18:25 PM
No more pain	Thank you Andrew. I have had knee pain for years and have been using another brand of glucosamine from a big box store, but knee pain was just getting worse. I finally bit the bullet & bought Andrew's glucosamine and after 4 days I could tell it was starting to work. Now, after 2 weeks I can honestly say the pain is gone. I am so thankful for Andrew.	5	2/14/2014 7:31:31 PM
Medicine	These are so much better to use than the chalky gigantic pill that is so hard to swallow.	5	2/12/2014 6:19:59 AM
Pain relief !!!!	I've noticed in the last yr or so my joints getting cranky, I have a few pounds to lose which doesn't help but since taking these my knees, ankles aren't complaining as much if at all!! Taking two of these a day has made a huge difference for me, my days are more comfortable thankfully!!! I take several of Andrew's vitamins and I must say that every vitamin does what it says!!! Thank you Andrew for everything you do!!!! Kim. Z. From Jersey :)	5	2/6/2014 9:42:05 PM
HSN Convert	Great!! helps the pain of osteoarthritis. I watch for sales and free shipping.	5	2/6/2014 7:51:19 PM
super product!	I trust the quality and purity of Andrew Lessman's vitamins. I have been taking them for about 1 year now.	5	2/5/2014 7:45:46 PM
Feel The Difference Product	I started taking this product when I was diagnosed with Rheumatoid Arthritis. Nothing seems to be wrong with my joints while taking this product. My activities were not limited. I ran out and didn't reorder. After a few weeks later started to feel STIFFNESS and PAIN to the point I needed the assistance of a cane. Tried to wait until Andrew Lessman's next visit. NOT SO. At the time I didn't care how much they cost. Order immediately online. Andrew's next visit I made sure I was well stocked. Going forward I will try not to be without this product. This is definitely a feel the difference product.	5	2/3/2014 2:14:14 PM
GREAT PRODUCT!	My husband and I take these capsules every day. We have noticed a difference in our joints in regard to pain and soreness. Andrew's capsules are easy to swallow. I prefer the capsules because I feel they dissolve quickly into your system. I would recommend this product to anyone who wants to promote bone health and avoid painful joints.	5	2/3/2014 11:31:59 AM
expensive but worth it	You can't put a price on something that keeps you pain free and active. I don't need to take all the recommended dose to remain pain free.	5	2/2/2014 9:14:36 PM
NOTICEABLE DIFFERENCE!!!	I do not want to be without these. Product does everything they say! Have enjoyed using all of the Andrew Lessman products that I have tried!	5	2/1/2014 3:47:28 PM
nothing better	I am truly grateful for these. helps me so much daily. just wish were not so costly	5	2/1/2014 2:17:42 AM

All I can say is "thank you"	I just happened to tune in and hear Andrew Lessman talking about this product and he seemed so enthusiastic I had to check it out. I read a lot of the reviews, read the bottle label and did a fair bit of my own research. I've taken other glucosamine and chondroitin brands with very limited results. But, it was on sale, so I took a chance and...this might be the best \$60 I've ever spent! I've taken the capsules for about a week and can already feel a difference. Already! Like many reviewers here, I have joint issues, so I am beyond grateful to have a non-toxic and non-surgical approach to pain relief in my joints. A knee replacement has been discussed, but with my current level of pain-relief and function, it won't be necessary. Andrew, thank you for your humane and ecologically-responsible approach to the manufacture of your products. Thank you for developing this particular product and helping me improve the quality of my life. Please have this on sale OFTEN. The cost is fair, but still	5	2/1/2014 12:49:32 AM
A Miracle!	I suffered from what felt like strained muscles in the clavicles. It was so painful on and off for all of last year. Two Sundays ago, I managed to turn on my TV and came upon Andrew Lesman who was touting the bundle of Glucosamine Chodriton and some capsules for Circulation and bingo I just decided to take advantage of the reasonable price offer that was being touted. Honestly, I had no idea there would be any correlation between the Glucosamine/Chondroitin and the muscle ache that I had been experiencing. I just started taking the med. on Sunday (Jan. 26th) and bingo by Tuesday, I was experiencing such relief... I refused to believe that it could be from the meds.. I called a friend and told her about my story and she told me that the relief was from the new med because she had a similar experience from the G/C that she is presently taking for her ankle pain... What a MIRACLE! Thank You so much Andrew.....	5	1/31/2014 10:38:06 PM
Glucosamine with Chondroitin	Have been taking Andrew's glucosamine with chondroitin for years. If I stop, I feel it within 10 days. I am 65 yrs. old and garden, walk a lot and am very active.	5	1/31/2014 9:34:17 PM
WOW WOW WOW	I can not say enough good things about this product. I started taking this the day I received it and within two days I could tell a difference in my joints. My hips, knees and back have stopped hurting. Have more freedom of movement.	5	1/31/2014 4:11:54 PM
Thank goodness I came back to this.	I actually had used this supplement for a long time before I stopped and went to something less expensive (because I just could not afford the pricing).... but after 3 months of using something else my legs and knees became very painful. Could not figure out at first what it was but then realized it must be the use of another supplement. When this came back as TSV with affordable pricing I ordered and have now been back on it for about 2 weeks or so. The difference on how I feel is amazing. My pains have diminished and my knees and legs are less painful now. So, I guess I am realizing (just as HL says) there is a difference. I always knew this because I take many of ProLabs supplements, but it is very expensive and with limited income it does at times become an issue. One thing I will do from now on is that I will never change to another joint supplement... but I might just have to let go of some others I take just one of those things.	5	1/31/2014 3:48:43 PM
Wonderful Product!	After 13 spinal surgeries I am always in need of extra help with my discs and joints. I've tried other forms of Glucosamine/Chondroitin and haven't felt a difference after taking them for months. With these from Andrew Lessman I've been taking them for only 2 weeks and already notice a difference in how I feel. I will always be in pain, but this helps with the flexibility in my joints, as well as knowing that I won't be needing any further surgery soon because this is keeping the remaining discs I have in my spine healthy!	5	1/30/2014 7:20:13 PM

Great Product	I had some hip issues that would pop up randomly causing me to limp. I ordered this product because of some successes that I had with other Andrew Lessman products. I am happy to report that after a week of using the Glucosamine and Chondroitin product that I am completely pain free and have no issues walking or running.	5	1/30/2014 6:06:44 PM
This is awesome	Being that I am a dialysis patient I was having trouble with my knees and shoulders. It was always painful to climb up stairs. Now I don't even feel the pain anymore only after one week of use. I have a couple of requests. Can you make the capsule a little smaller so they are easier to swallow? Also can you put the smallest count on auto ship please? Will need to order more soon. One more thing. When you come back on the air again I would love to know the shelf life of these vitamin I hope that one day you will make renal vitamins for those of us who can't take the regular vitamins. Thank you.	5	1/29/2014 7:55:19 PM
Relief!	I have arthritis in my knee, and after just 2 days, the constant pain was gone. Can't remember the last time I didn't have knee pain. I also have problems with pain in my feet for various reasons - that pain has decreased dramatically. Will never be without this product! Thank you, Andrew!!	5	1/28/2014 3:44:00 PM
UNBELIEVABLE!!!	The effect is immediate.... my knees felt like they used to feel 10 years ago after only 3-4 days of taking this product!! Don't think about it, just get it... get the flexpay and you will see...	5	1/27/2014 11:50:08 PM
Never be without these!	The Glucosamine & Chondroitin has stopped the progression of arthritis in my knee's and shoulders, according to my doctor. I ran out before and felt the pain return in just 2 or 3 days. I will never run out again. And the Circulation and Vein Support is a mainstay! I used to get terrible legs cramps in bed at night but since I've been on this product for about 2 years - no more cramps. I gave this bottle to my parents to try as they both have pain in their legs. Mom said she felt a little better after just the first day! I can't wait to see how they'll feel after a few weeks! Thank you Andrew for making products that WORK and that are so GOOD that I can feel confident in giving them to all members of my family. I tell everyone I know about your wonderful products and where to get them too!	5	1/27/2014 5:47:29 AM
The best	I rate these products the best.	5	1/26/2014 5:04:54 PM
Amazing	Ignorance is NOT bliss when it comes to taking supplements. I didn't know what I was missing until I started taking this spectacular product. It works. The results are amazing. Glucosamine and Chondroitin is another of your "feel the difference" products. Thank you! Thank you! Thank you, Andrew! Madeline T	5	1/24/2014 10:38:52 PM
Miracle Vitamins	Anything Andrew makes is truly a miracle. It's only been a week and I can feel the difference already. I recommend you purchase his easy to swallow capsules for whatever problem you have, They truly work!!!	5	1/24/2014 1:17:33 AM
The best	A must have for me !!!	5	1/23/2014 6:34:49 PM
Sherry	Before I started taking Andrew Lessman's Glucosamine with Chondroitin I couldn't lay on my side to go to sleep. The pain was intense. After taking this for about 1 week the pain was less and less. Now it is completely gone. I will never be without this product. Thank you Andrew Lessman	5	1/23/2014 5:52:58 PM
great stuff	Can't be without this capsule, helps with my hips SOON much, love it	5	1/22/2014 5:52:34 PM
Just what I needed!	I am only 46 but already have arthritis. The medication from my doctor takes away 80% of the pain but I still had pain when trying to sleep at night. Until Now. Since I started taking this magic pill, it is easier to get up & down, I can climb stairs now and I can sleep through the night with little to no pain. Thank you Andrew for giving me my life back!!!! This is one I can not live without.	5	1/18/2014 3:34:16 AM
Love it!	I have started to have some joint pain and stiffness now in my late 50s. I started taking this supplement, and now do not detect a problem. I love the ease of use, small size and digestibility of this product. Great job!	5	1/16/2014 11:21:57 AM

I'll never be without this product.	Went to my Dr. and told him I was taking this product. He asked me if it worked. I told him I didn't know, so he told me to stop for a week and start taking them again. I did just that. What a mistake. I was in such pain and had ice packs on my knees and elbows for 3 days! Went back to taking the Glucosamine and haven't had to use an ice pack since. Thank you, for keeping me moving without pain.	5	1/15/2014 6:48:04 AM
Swear by it	I love all of Andrews products. I credit this and the rest of his joint formulations with keeping me from having to have hip surgery. (8 years ago the doctor told me I was 3-5 years away from having to have a hip replacement.) Since I've managed to live 61 years without having to go under the knife for any reason, a small monthly investment for G&C just makes sense.	5	1/14/2014 2:24:57 PM
Can't Live without	I didn't realize how much these supplements were helping until I ran out. After 30 days without it in my system my back pain was back. I won't let myself run out again.	5	1/12/2014 2:13:44 AM
It's a miracle worker!	I've been taking the Glucosamine with Chondroitin capsules for about ten days and the pain in my knees and feet have all but disappeared. I was on my feet Christmas Eve early morning until midnight and I was able to complete all my work without limping or having to sit down constantly.. Thank you Andrew Lessman for another great formula,	5	12/30/2013 4:55:41 PM
Glucosamine/Chondroitin	I love the capsules, They are easy to swallow.	5	12/17/2013 3:40:18 PM
Helpful	I have used this product for years. It really seems to help my arthritis.	5	12/9/2013 4:01:22 PM
Amazing product!!!!	Several months ago, I had a problem with my arm. It was popping and causing me alot of pain. I thought I would try this product before going to the doctor. It feels like a miracle. No more problem. I love Andrew's supplements so much! Will never be without this one for sure. Mary Lou	5	11/16/2013 8:49:40 PM
Clicking thumbs	Please know how grateful my husband and I are I've used this product for quite some time and finally convinced my husband to give it a try , well now there are two of us who won't be without it period, and yes we have tried many different brands but no longer THANK YOU ANDREW THANK YOU....So bring on the winter season the cold is no longer a threat !!!	5	11/9/2013 6:37:50 PM

I know these work	How do I know? Because I have been taking them for several years, and I can feel it in my joints when I forget them!	5	11/7/2013 1:54:31 PM
It really works	What a difference this product and aprox 4 weeks have made.	5	11/2/2013 2:45:54 PM
Good Results with Glucosamine	A fellow co-worker takes many of the Andrew's vitamin products. She urged me to purchase the glucosamine because I have had one knee replacement (which I would not have had done if I had been more aware of this product) and my other knee are both very prone to pain at night causing me to lose sleep quite frequently. After receiving and taking the Glucosamine for one week, I felt a great improvement in my non-replaced knee. I told the gal who recommended this to me of the great improvement and she countered that she takes around 50 vitamin pills a day all coming from Andrew's products. I would recommend anyone who is researching having a knee replacement, to first try this product. It has worked for me and could work for anyone else.	5	11/1/2013 2:56:10 PM
AMAZING!!!! :-)	I had been taking Andrews Glucosamine Chondroitin for about 2 years. I ran out and was waiting for his return visit to HSN so I could get GREAT DEALS and save money. After about 8-10 days I started having joint pain and stiffness, not to bad but noticeable. It took about 4-5 weeks before I reordered them.....and by that time I REALLY , REALLY had stiff joints and achiness. I knew right then how WONDERFUL they were. I hope I NEVER let myself run out again. I take MANY of your Vitamins daily and have for about 6 years with NO stomach upset or other side effects. They ALL ARE AMAZING. I LOVE THEM...Thank-you Andrew. :-) :-) :-)	5	10/29/2013 2:27:42 PM

perfect	since i start taking these no more joint or knee pain..... thank you Andrew	5	10/27/2013 1:34:43 AM
Outstanding Product!!!	I had tried just about everything to alleviate the pain in my hip. I work on my feet all day and nothing seemed to work until I tried this. I had tried other glucosamine and chondroitin products and found they did not work for me. After three days of this product I could really tell the difference! Now two weeks later I have no more pain. Highly recommend this product for joint pain and I for one, will never be without it again!!!! Thank you Andrew!	5	10/26/2013 2:43:24 PM
perfect	great product . Love it Thanks Andrew	5	10/25/2013 6:47:18 PM
continued support	I feel all the aches and pains when I stop taking these vitamins. My mobility become limited as I try to maintain an active lifestyle with and without the vitamin. Lesson learned, will continue these also.	5	10/25/2013 12:20:52 PM
the best	This really let my legs feel better	5	10/24/2013 11:49:06 PM
Won't Be Without Again!	This product is a feel better product. I didn't realize it was working til I ran out. Will never do again. There is a family history of bad knee joints, so this is my way to be productive.	5	10/24/2013 7:46:11 PM
GREAT!!!	I have osteoarthritis in the lumbar sacral area of my spine.All the discs in that area are degenerated and dessicated according to the MRI. I also have spinal stenosis with spurring and nerve impingements. Therefore, there is pain if I lift heavy objects or move the wrong way. I took 5 capsules the first day and felt some relief. I did not take any the next day and started to feel pain again.I know I have to take it everyday now.Thank You for this product,Andrew.Oh, I also have Rheumatoid arthritis.,Plantar fasciitis,Prepatellar and Trochanter bursitis..	5	10/20/2013 6:15:40 PM
doris21	I LOVE YOUR VITAMINS AND I WILL KEEP USING THEM WITH MY DOCTORS APPROVAL	5	10/19/2013 7:43:00 PM
Best on the market.	tried other brands from drug store. seemed to do it's job but discovered there is soy in them which I don't like. Like AL's products because they don't have other additives in them.	5	10/19/2013 4:20:59 PM
Joints good	Been taking this product of Andrews for over 20 years. It is the reason, at my age, I can walk recued Greyhounds everyday. Yes I am considered a senior citizen now	5	10/19/2013 4:17:46 PM
who would have guessed	With my family in Myrtle Beach this week thought I would be the one left behind with bad knees. This product made it thru UPS before we left so took it with me& tried it on the first & second days--third day I was walking with the group 4 miles a day or more. Have not been able to walk across the room without great aim. This has helped a lot-not a cure for no cartilage just a great assistant to this yearly challenge of vacation. Thanks	5	10/19/2013 3:01:00 AM
I can feel the difference!	I used to have joint pain and I used to hear a lot of cracking and crunching when I moved my elbows and knees. I take this product faithfully and am extremely happy to report that my cracking, crunching days are over. My joints no longer "yell" at me at the end of the day. All of Mr. Blue Eyes' products always over deliver and I am thankful that HSN offers these suppliments.	5	10/19/2013 2:41:11 AM
I would NOT be without this product EVER	I have used this product for over 12 years now. I don't ever run out as I can tell when I don't have my circulation pills. I have problems with my ankle's swelling when I am on my feet all day. My husband also gets charley horses at night and night cramps but since he's been using these - NO more cramps and a pleasant night for sleeping.	5	10/18/2013 2:48:38 PM
Walking	It only took two days for me of taking this product to start walking normally and whith no pain as in my younger days. (I,am 77years old).Thank you Andrew!!!!!!.	5	10/18/2013 1:55:30 AM

High Quality at a GREAT Price ... A +++	<p>Hello HSN Fans</p> <p>I have bought several products from Andrew's Company. All of the products seem to be very high quality at a great price. I work as a Business Consultant and need to be at my best every day. I'm 62 years old and many of my associates guess my age to be around 45.</p> <p>Sincerely Mike Ryan San Diego, Ca biz.expert (at) live . com</p>	5	10/17/2013 5:47:19 PM
Dear Andrew	<p>Two years ago my wife and I were involved in a multiple vehicle rollover accident at highway speeds on an interstate highway. We have many problems as a result, our spines not being the least of these. Your Glucosamine and Chondroitin product is helping to give us back our lives. This product does everything you day it does...and so very much more! We take your many other products with the same results. Thank you Andrew, for helping us get our lives back! Sincerely, Mark and Gloria</p>	5	10/16/2013 2:50:19 PM
EXCELLENT!	I've been taking this product for years and believe in it!	5	10/16/2013 2:30:10 AM
Great Product	I am one of the lucky folks who get results from using this product. I just don't know why I have to take 5 capsules. I wish we could do it in one	5	10/15/2013 6:58:12 PM
Can't do without it!	I have arthritis in my left leg & I had severe pain & couldn't put pressure on my leg. I have taken taken Glucosamine with Chondroitin for a month & my leg is Just Fine! I will never be without this Product. Thanks Andrew!	5	10/14/2013 3:22:30 AM
Would love a bigger bottle	My husband & I both use these supps and love them. At 10 ea per day, this big bottle only lasts 2 mos. What would be REAL great is if you could put these in the huge Secure Care/Whey Protein size bottle. I'm thinking I'm not the only one who'd love that! You say you read these reviews, so thanks for your consideration to my suggestion.	5	10/6/2013 3:58:36 AM
Would not be without	Can't imagine what it would be like without this product. Within days of taking, this product made a huge difference in my back pain. Like many, i read the reviews and thought how is this possible. After researching and listening to Andrew i ordered and have not looked back.	5	10/5/2013 11:00:34 PM
Mirical for me	All I know is that it works for me,been taking it for the last 10 yr. Never had problems with my knees again. After the Doctor said I needed surgery I decided to try the Glucosamin chondroitin but you have to take it right and give it at least 6 month to be completely pain free. You will notice the difference slowly. But it definitely works. For me.Never had surgery.	5	9/24/2013 2:37:59 PM
A Must Have!	Stopped taking them, could tell the difference. Was forced to start again. Best decision I could have made.	5	9/24/2013 1:49:37 AM
Less Pain	I purchased these for leg issues I was having to the point of having a hard time walking at times. I started taking these and over time begin to notice a difference. My knees are feeling better and any relief you can get is a plus when in pain. I believe in all of Andrew Lessmans products because of the positive results of the different vitamins of his I have taken.	5	9/23/2013 10:37:30 PM
HOOKED	Have been ordering these vitamins for years. Decided to start my husband on them.	5	9/22/2013 5:55:49 PM
Helps my Arthristis	I have taken this for several years and find Andrew lessman's brand to be the best that I have taken.	5	9/6/2013 12:33:27 PM

Don't run out of this one!	I let myself run out of this supplement and sadly I felt the difference within about 2 or 3 days. My hip and knee started throbbing again. I ordered a much larger size this time and will keep an eye on my supply so I never run out again. By the way, after I received this resupply I started taking my usual 5 pills per day again, and within a couple of days the pain was gone. I don't remember how many days it took only that one day I noticed I wasn't hurting anymore! What a relief! I'd recommend this for anyone like me who suffers from arthritis and doesn't find relief in the pills from the doctor or OTC pills. Check out Andrew's cures - they are the BEST!	5	8/26/2013 2:54:34 AM
Awesome product	I have used this product for years after my doctor recommended I get on it. The pain in my knees went away completely. It took several months of daily doses but it did the trick.	5	8/25/2013 3:44:23 PM
Glucosamine with Chondroitin	As with all Andrew Lessman's supplements, another five star rating. Where would we be without you Andrew.	5	8/23/2013 5:48:13 AM
Love this product!	My daughter ruined her knees when playing softball as catcher at age 13, she is now 30 and has major pain. This product reduces the pain, her husband says she doesn't complain when she takes it, he always knows if she misses a few days as the complaints return. Really works!	5	8/22/2013 5:01:56 PM
Really Works to Relieve Joint Pain	My husband and I swear by these. My husband was always skeptical of vitamins/supplements until I made him try Andrew Lessman's glucosamine/chondroitin capsules after hearing him complain about his knees hurting after starting a statin for high cholesterol. He started taking these over a year ago and is first to remind me when he is getting low. Anyone taking a statin for cholesterol should take these. They really help! Thanks, Andrew!	5	8/21/2013 8:57:16 PM
Really works!	I noticed a big difference in my aching joints the first day I began taking them. Each day the discomfort seems to diminish. Thanks Andrew!	5	8/21/2013 2:54:55 PM
worth a try	I have been told I need bilateral knee replacement. But, since I have more good days than bad days, I have decided to forestall the surgeries. I tried this product knowing if it didn't help, I could just send it back. As with all Andrews products, it is well tolerated and I have noticed a huge improvement in my knee discomfort. It can't and won't help the bone on bone pain, but it definitely helped the tissue that supports my knees. I'm never going to be a runner again, but I can get out of bed and put in a full day's work without being crippled by the end of the day. I am very pleased with the positive changes I feel in my knees and will continue to use this product	5	8/17/2013 8:41:44 PM
Works the Best!	I have noticed that when I use it I am not as sore in my joints. Makes me able to do the things I want to do. If I run out or don't take the 5 pills a day, I notice a difference. Something you don't want to run out of.	5	8/13/2013 2:05:08 PM
love your vitamins.	Love your products but prices are high but you get what you pay for thanks Andrew.	5	8/12/2013 6:20:49 AM
Just another EXCELLENT Andrew Lessman product	We've been taking these (as prescribed) for several months - purchased 2 sets when they were Special Value with another product - and they have made several joints feel better. We plan to keep a good supply of these supplements.	5	8/10/2013 10:54:54 PM
so far so good	I began taking 2 not 5 of a these a day about 2 weeks ago and I have noticed a difference in my hips mainly my right hip. Not as much pain and the limp is less noticeable. Something else to add to my list of supplements.	5	8/5/2013 10:04:56 PM
WOW!	I am 55 years old and thought I would have hip pain for the rest of my life: but after JUST A FEW DAYS of taking this product as directed, almost all pain is gone! I am 30 pounds overweight, but exercise several days a week. I exercise to loosen my joints to relieve the pain, but it hasn't been enough. Twisting and turning with NO PAIN! I'm so excited!	5	8/1/2013 11:40:05 PM

Lose the pain pills	I was using this product before, but inconsistently and I was happy with the results. However with consistent use, I am not in pain, doing more and being more active. I'm over 50 and have had injuries which stopped me from doing a lot of activities. If I did anything, I was reaching for the pain pills. This has changed my life. I talk to everybody who will listen about it. Thanks	5	7/28/2013 4:17:05 AM
Great for knee arthritis	I have been taking Glucosamine and Chondroitin for 10 yrs and it helps my knees a lot. I have used different brands in the past but know Andrew Lessman's products to be excellent quality. So I am investing in the large bottle. Although he says to take 5 capsules a day I may take 4 a day since I have so many other medicines to take. 5 a day is too much for me.	5	7/27/2013 12:54:47 AM
Love Andrew Lessman!	I take other products of Andrew Lessman's and decided to get back on the Glucosamine/Chondroitin pills. Use to take drug store versions years ago when I was running and noticed quite a difference when I stopped taking them. If those worked well enough I'm sure his will be as wonderful as the rest of his products.	5	7/26/2013 10:42:09 AM
Excellent	This works for me. I appreciate the easy to swallow capsules.	5	7/25/2013 7:23:22 PM
can't do without	These are THE best ever! I went off of these for awhile and regretted it. My joints became stiff and painful. I began taking the regimine again. I won't make the same mistake again. I ordered the biggest bottle so I know I'll have plenty and the price with flex pay was even better. All I can say is thank you Less Nessman. Oh! And no upset stomach either. I'm a customer for life.	5	7/23/2013 5:32:04 AM
Definitely helps!	This stuff definitely helps my knees! I was oblivious to it at first, but I "suddenly" realized that my knees no longer make any "crunchy" sounds when going up and down stairs! I mean, not AT ALL! My knees used to make horrible crunching sounds going up and down stairs, my doctor recommended taking a product like this, and Andrew's is the best! I am 47, and very "paranoid" about bad knees and needing knee replacements like my parents. I walk for exercise extensively, and this product has definitely helped my knees. I take 4 or 5 capsules a day, the label recommends 5 a day.	5	7/13/2013 5:22:12 PM
Great product	It's great for my shoulder and the surrounding joints . I feel so much better . Like a new man . Thank you Andrew for this great product and freedom to live pain free ...	5	7/13/2013 4:34:50 PM
LOVE IT!!!!	I exercise everyday and always had sore joints. Also have neck problems and took Advil everyday. I have been using this for 4 months now and no longer have the pain in my joints. I also cut down the Advil. I recently did not bring it with me on vacation and noticed a big difference when I got back. You won't be disappointed!!!!	5	7/12/2013 6:48:54 PM
I'll never run out again!	I ran out about two weeks ago and was going to wait till Andrew was back on TV so I could get special pricing. My hips and my knees said no way - after two weeks without this phenomenal product my hips and my knee's started aching again. In fact, I was limping because my left hip was hurting so much. I quickly ordered enough to get me thru till Andrew is on TV again. This time I'm buying enough to last me for at least 8 to 12 months, just in case! It is SO worth it...just being back on it for 3 days, I can feel the pain lessening in my hips and it has gone away in my knees altogether. I'm 53 and have arthritis and fibro, among other ailments. This product is critical for my well being! Thank you Andrew for giving us your very best!	5	7/7/2013 4:55:36 AM

Awesome!!!	I am not one to write a review about anything but I cannot pass this one up. I had inflammation in my left knee from a baker's cyst which was very painful. I have a job that requires manual labor so when my knee caused me problems I could not work. I was prescribed an inflammatory but it did little to ease the pain. I have been purchasing Andrew Lessman's vitamins for some time and thought I give this a try. Well, when I tell you the pain disappeared I mean it. If I run out of this product then the pain is back of course so I make sure that doesn't happen. It's a small price to pay for the relief I have now. I am back to work, dancing, running, exercising nothing gets in my way. Thank you A. Lessman for this product!	5	7/4/2013 8:57:50 PM
It Works!	I have early signs of arthritis and needed something to get me through the work day. I use this product and my pain has all but disappeared.	5	7/3/2013 8:09:31 PM
great product	As you age, aches, and pains "pop up" for no particular reason. Life is better with the G. & C.	5	6/23/2013 4:55:05 PM
TWENTY STARS	These have saved me for the time being. I have an injury in my knee which has turned arthritic. My knee used to stiffen up during the night and wake me with severe pain. I couldn't bend it. I had pain when walking and standing. It was taking over my life and interfering with work and play. I take 5 a day and only have pain now and then, but the pain at night has stopped completely. Thank you Andrew - I adore you and your vitamins!!	5	6/22/2013 1:03:41 PM
GREAT PRODUCT	THIS PRODUCT REALLY WORKS. WORTH THE PRICE	5	6/19/2013 1:36:44 PM
Nana	This is the best that I have ever taken for my knee.	5	6/6/2013 1:12:12 PM
So far so good	I got these because I started having knee pain when I walk. This seems to help. I will purchase more when I run out.	5	5/31/2013 10:17:40 PM
It really works?	I was skeptical at first. I took al 5 capsales at once, and felt a noticeable change in my aching feet, within one hour. I've been taking 5 capsules daily, for the past 6 days, and feel so good that I plan to put them on auto-ship before I run out. Great product!	5	5/31/2013 6:10:28 AM
Great product	I had knee pain, and I started taking this and in a couple of days it was gone. Great, easy to swallow. I enjoy taking this product along with products by Andrew lesman	5	5/25/2013 2:56:22 PM
Hot in Miami	love, love this product! I take them everyday before bedtime, my knees feel so much better when I do. I highly recommend them. I noticed that when I take them, I can walk longer.	5	5/17/2013 6:51:18 PM
Took knee swelling down!	I ran out of this at the same time as the money. As soon as I was able to replenish my supply I started taking them. With in a couple of hours my left knee that had been swollen became normal, No swollen knee. I been with Andrew for about 17 years, MKM	5	5/17/2013 4:14:46 AM
Good vitamins.	I have used several different vitamins and am happy with them all. Especially the fish oil capsules. I like the way things are explained to help us understand why we need them.	5	5/16/2013 3:53:32 AM
HANDS DOWN THE BEST!!!	Andrew, will you marry me?! This product WORKS! I ve tried other glucosamine products, none of which agreed with my sensitive system. After a few short weeks I REALLY really feel the difference! What a relief, no aching joins in my fingers or hips. I never ever want to be without this product again. The five capsules are easy to swallow.	5	5/14/2013 4:32:42 AM
Glucosamine Supplement	This is an excellent supplement. I work out a lot and really need something to care for the joints and tissue in my body.	5	5/12/2013 10:30:37 PM
PERFECT	IT SAVE MY LEG UNREAL WHITH THE INTENSIVE CARE CARE CALCIUM MAGNESIUM THE BEST	5	5/12/2013 7:25:47 PM
Doctor says unnecessary at this time	Andrew products are excellent products but physician says product not needed at this time	5	5/10/2013 1:04:27 AM

Show stopper and pain reliever	I have been using this product for around 3 weeks now. I could tell a difference in my knee pain in 3 days and with each day, my pain was less. I am truly grateful to God that Andrew Lessmans vitamins work. I am 61 years old and over-weight and inactive. My pain was so bad that I just wanted to sit and cry and not move at all. I know I must keep moving and Andrews product helps me do just that. Andrew, bless you, bless you, for doing your homework and then some. This product gets 500 stars from me! Natural and no side effects gets another 500 stars. I take the full amount of 5 capsules a day after my last meal of the day. I purchased two of the 600 bottles when it was on 3 flex pays to be nearly pain free to end of the year. On a scale of 1-10, my pain is a 2....not bad! And the 2 is something I can manage on daily basis. If someone is not overweight and not as much pain to begin with, with this product, you could be pain-free.....it's the truth.	5	5/9/2013 6:40:36 AM
Great Product!!!	You can't go wrong with Andrew Lessman's vitamins., great product!!!	5	5/6/2013 3:23:32 AM
Me and my dog!	I take these and my doctor is thrilled. When my dog had surgery on her leg the vet said to supplement her. I asked if these would be good and all he said is, "LUCKY dog". We will both take these forever! Thank you Andrew Lessman and HSN!	5	5/5/2013 5:06:04 PM
Amazing!!!	I have RA and decided to try just the small bottle of this when Andrew was on a few weeks ago when it was at pretty much a today's special price to see if it made a difference. I can only speak from my own results, of course, but almost immediately I saw a huge difference in the lessening of pain and swelling in my joints. Not only that, my energy level has gone up tremendously. This is like a miracle to me as there is no known medical cure for RA, and it is a progressive and painfully debilitating disease. I am reordering this weekend as Andrew has kept the price the same as last visit. This product is helping me more than any prescription meds I have taken. Andrew, I take many of your vitamins and already thought you were amazing. You have truly surpassed yourself with this product. Please don't stop making this. I love that it has both glucosamine and chondroitin in the same capsule, and I don't mind taking 5 a day if that's what it takes. I just split them up at meals throu	5	5/5/2013 4:47:23 PM
Works	I am 53 and over weight and my joints hurt all the time. I have been taking the product and I really noticed a big difference in my knees and hips not hurting all the time. I would highly recommend this. I used to feed another brand to my aging dog and it helped him. I am glad that I have given this a chance for me. Also, the pill size is small compared to other brands and a lot easier to swallow.	5	5/2/2013 3:04:05 PM
the best!!!! get it you won't be sorry	I suffer from patella femoral syndrome and have been taking these consistently since last fall and my joints in my knees are way more fluid and they don't hurt as much ! I can tell the difference if I stop taking these pills and a plus is my hair and nails grow way longer and faster !!! it's true what he says they do not hurt your stomach I take five at the same time after lunch . I started noticing the difference in my joints after one month of consistent use stick with it !!!!	5	4/27/2013 10:52:08 AM
I totally am a believer in this product	Have a condition known as polymyalgia and between taking my prednisone and methotrexate to help with the pain, but I also take 2 or 3 of the supplements and that is sufficient to help me during the day. I did check with my rheumatologist and he too thinks this is a good idea for my overall benefit and mobility. I would definitely recommend taking this product and this is not just for younger people, but us 70 plus folks.	5	4/24/2013 12:27:52 PM

It has made a difference	I have been using this suppliment for 26 days now and have noticed a difference in how my joints. I am 55 years and go to the gym 3 times a week and work out for 7 hours during the week at the gym. Weather permitting I walk 4.6 miles on top of this every day. I have been trying many types of suppliments for my joints. Well I found what I have been looking for. This really helps with the all my joints and aching muscles. I bought this while it was on special of 20% off and this is a great deal I bought the bottle containing 600 capsules. Remember folks you get what you pay for and do your homework on ingredients. Try it you will not be sorry. If you send it back as you will feel the difference in your joints and muscles within a couple of days. I did this once and this is why I ordered again and will do so here on in until my body requires something different.	5	4/3/2013 4:14:59 PM
Love this Product	I have used this product for several years because of knee issues. I love the benefits I enjoy by taking it and can honestly say that it is a better product than others I have purchased from drug stores, etc.	5	3/2/2013 12:18:06 AM
Very Good Product !	Everything that Andrew explains about this product is very true....I feel less pain in my knees, and feet...I will continue using this product, but hate taking so many pills per day...lol....but it is so worth it...	5	2/26/2013 4:27:05 AM
Wonderful product...	I had a pain in my right upper thigh which kept me from sleeping on my side and limping in the morning when I got up. Then I purchased Osteoflex which a friend said to try. It did nothing for me until I took this product and now I don't have the pain anymore. It's great when you buy something and it actually works. Thank You Andrew...	5	2/12/2013 9:13:58 PM
yeast man	great product,I can feel a change in my knee for the better.	5	2/9/2013 11:14:36 PM
Will not live without	I have two torn ACLs and I feel they help keep the injury site lubricated. I feel less pain in my knees and I'm not going to live without this. If you have joint problems, give it a solid try.	5	2/5/2013 9:40:05 PM
Great product	If you think this product is not helping you, just wait till it runs out. Youwill feel it within afew weeks. I do! Thanks Andrew! John and Wanda	5	2/4/2013 8:08:36 PM

LOVE THESE!!	I love these and they truly do help me.I have psoriatic arthritis and my knees really bother me.I have tried other products with no help at all.Could really feel the difference within one week.Will never be without this product. Only wish did not have to take so many capsules.	5	2/1/2013 8:50:45 PM
Glucosamine with Chondroitin review	My wife and I are firm believers in the benefits of this product. Unlike other brands, these capsules are easy to swallow and are easy on the stomach. Most importantly, Andrew's Glucosamine with Chondroitin delivers results! We know this has been extremely beneficial for our joints. Keep up the great work, Andrew!	5	2/1/2013 2:19:13 PM
A Reliable Supplement	I can rely on this to not only deliver the help my joints need and will need as the years go by, but also not to cause the stomach upset so many supplements can. I trust these products.	5	2/1/2013 12:32:59 PM
GREAT!!!WOULD NOT BE WITHOUT THEM	I ran out of these joint capsules and boy did I ever pay for it!!I was going to Colorado to visit my daughter at the time and my knees were just killing me!!I got another product but did nothing at all.Got stuck in the airport over night due to weather and I could hardly walk the next day.Sometimes you do not realize what a product is doing until you run out!!. I will never run out again!!At the time Andrew was not due to HSN for another month so I paid full price but within a week such a HUGE difference in the way my joints felt.I would highly reccomend this product to every one.	5	1/14/2013 4:56:46 PM

Much more active	These vitamins really help me to be more flexible and active. My hip and knee joints do not ache as they once did before taking Andrews Glucosamine. The OTC kind just did not give me the results that I get from taking his. You MUST give these a try, they really work. Thanks for such a great product. Gerri.	5	1/10/2013 8:04:03 PM
good product	very effective.	5	12/16/2012 2:52:28 PM
This Product Works	After knee surgery and extensive physical therapy two years later I was still in pain. I tried other Glucosamine and Chondroitin supplements but they always upset my stomach. This product works. The difference in my joint health is measurable. I get all the benefits this supplement offers without the side effect of an upset stomach.	5	12/15/2012 9:09:22 PM

Gotta be the best!!!	Have a bit of arthritis in my knees and hips, they are helping already...2 weeks. Thanks.	5	11/2/2012 11:47:38 AM
So far so good	Am having some knee pain, so thought I would try this--too soon to feel any difference, but at least it does not upset my stomach.	5	10/27/2012 6:54:31 PM
First time..	The burning ache in both hips from arthritis was really affecting the way I walk, so decided to try this. I took all 5 at the same time and found them very easy to swallow. Within 2 days, I noticed a difference - no longer hurt to walk nor did I limp the first few steps after sitting. I would highly recommend this for anyone having the same problem. I take several of Andrew's products and am confident I'm doing something good for my body, which is a young 73 almost 74.	5	10/25/2012 11:41:23 AM
THIS IS FOR MY WHOLE LIFE	HOW MUCH DIFFERENCE IT HAS MADE MY LIFE, I CAN'T SAY ENOUGH IN WORDS. COULDN'T SIT CROSS LEGS FOR MY MEDITATION LONG OR WALK JOG THE WAY I WANT.....BUT THIS 2 CAPSULS A DAY HAS MADE EVERYTHING LIKE I AM IN MY 20'S. GOD BLESS ANDREWS AND HSN FOR THE AFFORDABILITY.. IT IS SO EASY TO TAKE CARE OF OURSELVES WITH FEW ROUTINE/DIETS AND EXERCISE AND ANDREW'S SUPPLIMENTATIONS. Thanks once again!	5	10/21/2012 5:19:46 PM
Amazing	Fantastic vitamin, I took Andrew's before and then quit and took another then recently saw that it came in a large bottle and not the little packets anymore. I purchased it and would not want to be without it. I have a wash stand to store my vitamin's from Andrew it and it is packed.	5	10/21/2012 3:16:36 PM
Love this!!!	I love this product! My son has a form of arthritis an auto immune disease called...anklosing spondilitis. His joints swell and stiffen up and he suffers unbearable pain. He's only 19 and I hated to see him in such pain I was desperate for help. I saw Andrew lessman on hsn and bought this product and it has changed my sons life. He is able to walk better and his pain level has decreased significantly. This product along with the medication my sons doctor has prescribed seems to be working!!!!!!	5	10/21/2012 4:07:44 AM
Finally, something that makes a difference.	I just received this product, and after less than 7 days, I already see quite an improvement when I wake in the morning. I am 63 years old and have a very busy, stressful job so I would recommend those who have bought similar products at vitamin stores and other retail outlets to at least give it a try. I finally do not feel I am wasting my money.	5	10/21/2012 3:08:42 AM
Medicine free	15 years ago I was on Naprosyn for an extremely bad back - arthritis, etc. I told Dr. I was taking Gluc-Chon. The brand I was taking said it would be 2 months to feel the relief. I took it with my med. End of the 1st month, I dropped a pill. End of the 2nd month, I dropped the last. Since, I have only taken Gluc-Chon & have been using Andrew's for most of that time. It's only in the last few months that I have felt any pain & Dr. said I should be in constant pain, my back is so bad.	5	10/19/2012 12:13:27 AM

Wonderful Product...	This product has been helping my husband deal with circulation issues he contends with on a daily basis....the numbness has gone away where he notices changes thanks to this product...he is unable to determine what is occurring but knows product is doing something as he notices improvements...so thank you for making such a wonderful product for those of us wanting to refrain from doctors offices and from taking OTC or prescription meds that in the end are not good for you.	5	10/4/2012 12:47:25 PM
My rheumatologist approved of my taking these!	Since I have been taking these I do feel better and not as stiff and since my doctor encouraged my continued use, I will not be without them. While I don't have RA I do have polymyalgia rheumatica which was beyond painful and the pain was awful and mobility very difficult. Between the vitamins and the 2 meds both of which are potent, I am doing so much better.	5	10/4/2012 11:44:02 AM
Great product!!!	Please don't stop making this product....it WORKS!!! You can really tell when you stop taking them. My husband loves them as well and told me to always make sure we have a supply on hand. Not a problem.....we are well stocked with this vitamin and the Glucosamine 1500! We alternate between the Gluco/Chon and the Gluc 1500!!	5	9/24/2012 5:37:18 PM
Great product	Just the right amount of ingredients and so glad there are NO fillers! Thank you!!	5	9/5/2012 11:38:17 AM
GREAT PRODUCT	I have tendinitis, and with these vitamins I no longer get as much pain. Sometimes I forget that I do have it. when I stop taking them I am a flight attendant, so sometimes I don't take them with me...trust me I am now going to take them in a baggy.	5	8/29/2012 2:11:05 AM
Love this product!	My husband and I both take this product and love it. We both find that if we run out or don't take it for a period of time, we can tell the difference. The effects of this product is not like an aspirin, being something one would notice in 20 or 30 minutes. However, we find we can tell the difference in a few days, and definitely after a week or two, the improvement is remarkable. This is our favorite product of Andrew's.	5	8/25/2012 3:47:50 PM
Recommend to anyone having joint or knee pain.	I began taking these vitamins when I fell and hurt my knee. My knee pain went away after a few weeks but noticed a difference right away. Thanks Andrew you did it again.	5	8/19/2012 9:40:53 PM

Taking these for years!	I have weak knees so I take these every day. Love it.	5	8/5/2012 4:29:18 PM
The best product for my joints	I have joint pain in my elbows and knees and arthritis pain in my hand. This is the only product that has really helped me. My last order was 600 capsules. Love your products, Andrew, and highly recommend them.	5	8/3/2012 6:36:45 PM
Feeling Great!!	Hi Andrew, I am a 40 yr old woman, with a medical condition that causes me to have joint pain. My doctor recommended I take Glucosamine & Chondroitin. So, I went to the Pharmacy, and picked out the most expensive one that I've seen many commercials for. I tried it for several months, with no change at all! I ordered yours, and within a week I noticed a significant reduction in my joint pain!! Thank you so much Andrew for this wonderful product!! I will NEVER be without it!	5	8/3/2012 5:51:17 AM
Beats Surgery	My husband and I both take this. My husband for his shoulder and me for my knee. It's fantastic! Neither of us hurt any more	5	8/3/2012 3:15:05 AM

will not be without this again....	I stopped using this product a few months ago when I ran out and didn't want to spend the money to get any more. I always wondered if I really needed to use this with my arthritis. Well, after two months of pain, I ordered again, and within two weeks, I felt better. I know you cannot make medical statements, but for ME, this product made me feel better. I am not using any other medicines for this conditon. Everyone needs to make their on decisions, and for me it will be to keep using this.	5	7/27/2012 12:26:40 AM
WONDERFUL PRODUCT!	These are like a God sent for me. I was having a slight discomfort in my knee for reasons unknown. I decided to try your product and within a week after taking the capsules, it started to go away. I am a user for life. Thank you Mr. Lessman for a product that actually works! They are worth every penny and more.	5	7/26/2012 9:35:59 PM

Love Andrew's products!	It's only been a little over 3 weeks, but I've already noticed a subtle change for the better. His products have been in my cupboards for years and I will continue using them always.	5	6/7/2012 11:18:13 AM

Kathy	Sj ce I have been using this for less than a week, I know that it is way too soon to exoect any conclusive results. However, all of the other Andrew Lessman products that I have used have performed extremely well, so I expect good things from this.	5	5/18/2012 10:44:31 AM
Great product	No more knee & joint pain. Love Andrew Lessman products ! I have bought his vitamins for years.	5	5/11/2012 2:53:47 PM
excellent product	Really works to realieve joints pain.	5	5/9/2012 3:40:32 AM
the very best!!	andrews glucosamine is the very best available...I get it for my friends that have a lot of pain and it fixes them up....I had three Dr's tell me I needed surgery 10 years ago and started taking this instead and all my pain is gone....I also have very limber fluid joints instead of soreness and pain....Thanks Dr Lessman!!!	5	5/3/2012 8:53:51 PM

Great!	This product has stopped the pain in my knee and has lessened my husband's shoulder pain. Great product!	5	4/30/2012 2:51:32 PM

gentle & works well	This is gentle on my stomach and it works well, my knees no longer hurt like before, I started taking 2 at breakfast 2 at lunch and 1 at dinner and after a couple weeks I cut back to 2 at breakfast and 2 at dinner and now 2 or 3 capsules a day are good enough for me and no more pain that is the best part.	5	4/29/2012 9:57:36 PM
My mobility is largely dependent upon this product	I found Andrew Lessman's Glucosamine w/ Chondroitin capsules on HSN several years ago during a live broadcast - and now wouldn't think of being without them. The other brands store bought brands that I had previously used are a poor substitute for the quality & effectiveness of Andrew's product. Really discovered a huge difference in my mobility and lessening of debilitating arthritis issues & joint pain. I take 2 twice a day. Highly recommend!	5	4/28/2012 6:07:54 PM
A believer !	Over a year ago I began to take this vitamins and felt there wasn't a difference, UNTIL, I stopped taking them. THEN is when I felt the tinge of achienness that was a memory of old. Thank you Andrew, we LOVE you !!!	5	4/28/2012 10:20:25 AM
Very Happy with Product	I will tell you that this works for bleeding Hemorrhoids. Within 48 hours of taking two capsules a day, my symptoms went away. It gave me enough fiber. I replaced my orange drink with this product and will continue to take it.	5	3/30/2012 7:57:56 PM
A joy!	In a short time, I have already begun to feel a change in my joints and I know it is because of the Glucosamine with Chondroitin capsules! I could write a blog about all of the great results I've had from all of your vitamins! I'm one of your biggest fans Andrew and I can't wait for you to be on HSN again, hopefully soon!	5	3/25/2012 5:07:12 AM
Try this!	I have been taking this for a couple of months, now. I have osteoarthritis in too many places. Since taking this I've been able to reduce my pain meds by half. Never expected a couple of little capsules once a day to make that much of a difference. They HAVE.	5	3/18/2012 10:16:04 AM
Feel Good	Knowing that I don't have to worry about additives that won't let me absorb the nutrients. Thank you Andrew!!	5	3/14/2012 10:54:09 AM
Joint support	I have been taking Andrew's Glucosamine/Chondroitin for over 10 years now and I will never be without it. Before I started taking it in my 50's I moved around like I was 80. Your product, Andrew has helped me to continue to live an active life, and I don't feel like an "old lady" anymore even though I'm now 63. Btw-I appreciate your installation of solar and l.e.d.'s in your Nevada facility. Less CO-2 emissions. THANK YOU	5	3/10/2012 2:42:34 AM
I will continue to use	I can honestly say that I have experienced a positive difference in the way my knees feel after taking these pills. I did not have instant relief, it took about 2-3 weeks before I noticed a difference which is good since I was about to send them back. I do not take all 5 pills at once, I take 3 in the morning and 2 in the afternoon.	5	3/2/2012 2:18:04 AM
It works	Great product and I really noticed a difference and have relief from knee pain when I take 2 a day.	5	2/26/2012 7:46:45 PM
Great for joint aches and pain	Great product! This has helped my joints so much. After one week of taking these 3 a day I no longer have to take Aleve for joint pain. Love all of Andrew's products!	5	2/18/2012 3:10:14 AM
Great Product Line....	I've been using Andrew's product line for almost a year and have never felt better. Thanks so much for paying attention to detail.	5	2/11/2012 6:30:11 PM
Excellent Product	I've been using the Glucosamine with Chondroitin for almost two years now and I notice a major difference in the flexibility and the motion I have in my knees. I didn't stay on top of my supply and when it ran out and I had to wait I noticed a big difference within days in the mobility in my knees. I make sure now that I keep plenty on hand.	5	1/29/2012 6:03:42 PM

CANNOT DO WITHOUT THIS PRODUCT	Thanks Andrew for this product. I am on the go every day at work and cannot afford to have my joints not work for me. No pain every day and I am 60 years old. My left knee use to hurt from a bad skiing accident when I was in my 20's. Today, I can bend my knee with no pain. I have used your product for over 5 years. Please do not stop making this product.	5	1/29/2012 3:26:16 AM
Cant be without	I would freak out if I ran out of these I grew up riding horses motorcycles playin ball just being a tomboy period and I pay the price for my injuries now so I dont wont to every run out of this they so help me continue to live an active life.	5	1/29/2012 2:50:37 AM
It Works!	Worth every penny. I can move better and it has changed the quality of my life. Andrew's products are the best on the market. Thanks for the free shipping and large size bottles.	5	1/28/2012 3:06:37 AM
Helps me!	I have been using this for about five years and it helps a lot. Doesn't stop all my pain, but most of it. I know because once when I ran out of it, and was too broke to buy more right away, I found out just how much pain I would feel if I wasn't taking it regularly!! Thanks Andrew for a good quality supplement. I look forward to the next sale on this item so I can get more than one and stock up. p.s. I enjoy when you show us your pristine looking work facilities, thanks! :-	5	1/27/2012 4:01:37 PM
Much more than I expected.	I had mild pain in my knees for a couple of years now and I thought I'd just give it a try. I've been taking them for about two weeks and already the pain is almost none existant. It's hard to believe, and I hope that the glucosamine is the reason.	5	1/27/2012 10:24:25 AM
it works!	I've been using these about 2 yrs and they seem to help, my knee joints don't bother me any more	5	1/27/2012 5:23:16 AM
Great Product	My husband began taking the Glucosamine/Chondroitin and noticed an improvement in how he felt. We ran out before the re-order came in, so we substituted a similar product from a major well-known and respected vitamin store/company. My husband took their product for 3 days and experienced such a serious reaction that he had to discontinue its use. What is not in Andrew's supplements is equally as important as what is in them.	5	1/26/2012 11:30:56 PM
MAKES A DIFFERENCE!	My husband takes these every day and would not be without them...have taken other brands in the past but these are the best. My husband sees a difference in his legs...he can play golf! If you have leg or joint pain these can really help.	5	1/23/2012 4:26:19 PM
GREAT!!!	GREAT PRODUCT!!! CAN'T LIVE WITHOUT IT!! LOVE IT! LOVE IT!	5	1/22/2012 2:38:12 AM
OK ! THE MAGIC HAS BEGAN	I've been knocked down , sockem'and blessed by the results I have had in just one week . I know now , I can never be without this capsule for the rest of my life. Andrew ,our association thru you labs keeps me adding more and more of your products into my blood stream. I feel great and thank you HSN for always bringing vendors of such top quality.	5	1/21/2012 6:25:44 PM
GREAT !!!!!	Been using this product, along with other PRO CAP vitimins,I feel GREAT.PERIOD!!!!!!	5	1/20/2012 6:45:30 PM
IT'S AMAZING!	My 34 year old daughter has had knee problems since high school & was told by her doctor to take glucosamine & chondroitin, but to make sure it was sulfate. She never took others because they hurt her stomach. I convinced her to try these. Within a month of taking Andrew Lessman's, she cannot believe how great her knees feel every morning when she hops out of bed! I never thought she'd continue taking 5 pills a day, but now she's hooked.	5	1/18/2012 7:42:19 PM
Works Well!	This product does what it says. My husband and I both take it every day. We have shared it with friends who also feel the benefits. We take two capsules every day consistently. It does not upset the stomach. It really helps.	5	1/16/2012 7:05:35 PM
Great product	Relieves the pain in my joints from Osteoarthritis.	5	1/13/2012 2:58:14 PM

Excellent Product	I know we can't make medical claims, but those of you who take a lot of medicines which tear your bowels up, this product is for you!!! Thanks Andrew!!!	5	1/7/2012 7:34:52 PM
I Won't Go Without These!	Pure and simple--I have arthritis. These really help. What more can I say?	5	1/7/2012 4:11:28 PM
No more talking knees!	This product is the best. I cannot run out of it or my knees & I have a rather unpleasant conversation. I took supplements from drugstores & vitamin stores for years that cost as much, but did little to help my joints. After taking this for a few months, I knew that I would not have anymore nasty comments from those priceless knees! Thank you Andrew.	5	1/7/2012 3:57:32 AM
Excellent Product	This is a supplement that you have to take for awhile approximately a month before you will begin to feel a difference. The longer you take it the better you will feel. I have arthritis in both of my knees. I was suffering with pain especially trying to go up or down stairs and sometime the cold in the winter would create pain/stiffness. For me, this was totally eliminated. Great product with no stomach upset.	5	12/31/2011 3:15:48 PM
Another Awesome product from Andrew and HSN!	I started taking this product as I have several others from this line. It has helped with my back and neck pain. When my husband's knee doctor told him to start taking Glucosamine- I told him I have just the thing- within taking it 2 weeks he was walking around like 10 years ago! Thank you for another superb supplement at a great price!	5	12/26/2011 8:08:31 PM
Great Stuff	I had some knee issues and have been looking for a good supplement to take. My knee doctor recommends Glucosamine and chondroitin..After the first 30 days I could tell a difference in my knee and other joints. It is a quality product and does a great job.	5	12/2/2011 10:51:44 PM
Amazing!!	Had to go off arthritis meds because they were eating my stomach up. I now take 5 tabs of glucosamine with chondroitin daily and get total relief and no stomach issues. THANK YOU--ANDREW.	5	11/6/2011 5:14:55 PM
Glucosamine with Chondroitin	All though have to take capsules at a time, I find that they work better than the ones I used to purchase in the drug stores.	5	10/26/2011 11:23:55 AM
Good Results	After several years of knee pain and problems walking and climbing stairs, I feel I have found something that reduces the pain. I have taken these supplements for only 3-4 days and already feeling much better. The "clicking" in the knee has been reduced to nearly nothing and the pain is nearly all gone. Started noticing improvements after only 24 hours of taking the first dose. I spread the 5 pills over my three meals and take them with food. Thank you Andrew Lessman and HSN!	5	10/23/2011 4:30:11 PM

Another Winner....	<p>Another 5 star product from Andrew Lessman and ProCap Labs.</p> <p>Several months ago I began a different routine with respect to my daily regimen of antioxidants and supplements. I've never felt better in my life.</p> <p>I highly recommend ProCap Lab... And don't forget, if you're unable to find any of his items here on HSN... you can always call ProCap Labs directly.</p>	5	10/22/2011 2:35:49 PM

Saves a second person in my family	My husband plays golf again without pain. He swears by these. Then my 20-year old son, triathlete, had a knee injury. At his appointment they discovered he also had a bit of arthritis in his knee. The doctor told him that glucosamine would be his new best friend. Of course, I immediately bought Andrew Lessman brand. My son can't believe the difference. He will never be without them now.	5	8/19/2011 1:04:58 PM
Super Product!!!	I purchased these for my husband who at 45 still thinks he is 25. He has been suffering with problems in his knees, back and arms and taking a drugstore brand of the same thing. I asked him to try these instead and within 1 week he said 'You know I can really tell the difference with these pills you got me! They are really helpin a lot. Thank you.' NOW he loves taking them and hopefully someday we can get on Autoship. Thank you so much Andrew!! Well done!!!	5	8/17/2011 6:58:32 PM

My nine year old German Shepard started having joint problems, I checked with my vet and he said give him glucosamine and chondroitin, so I started him on this also. It seems like it has helped.	5	7/25/2011 4:55:55 PM

Amazing Relief of Pain!	I suffer from an auto-immune disease that is attacking my joints and connective tissue.I have been in such pain,despite strong pain medication, that I've been almost completely bed-bound since last Christmas.With no expectations for improvement,I tried this product,taking the suggested dose of five caps per day.My pain level has gone down significantly.I know it's the G & C,as when I didn't take it for two days, there was a distinct change for the worse. I can't recommend this product enough!	5	5/25/2011 10:47:54 AM

I HAD BROKEN MY KNEE CAP	I WAS JUST WALKING AND SLIPPED AT WORK AT 64 AND SAW HOW BRITTLE BONES CAN BE WITH AGE. I BROKE MY KNEE CAP IN A SEEMINGLY SIMPLE SLIP WHICH YEARS AGO, I WOULD HAVE JUST BOUNCED UP. IT TOOK OVER 6 WEEKS TO HEAL. I TAKE A ROUND OF THIS FOR GOOD SUPPORT. SO FAR MY KNEE HAS NOT HURT BUT AGAIN THIS IS SUPPORTIVE THERAPY.	5	4/24/2011 11:49:58 PM
Great products but what about our dogs, Andrew?	I am a happy customer and use many of Andrews products. I buy them for me, my family and friends. I am a very healthy vegetarian and appreciate what Andrew offers as I eat healthy, exercise and eat my supplements, Andrew products only. However, I feel guilty though my 15 years old German Sheppard is still very healthy active dog since he is also vegetarian and runs with me but Andrew still hasn't made a product for him though he promised he would. Andrew Please! my dog is getting older!	5	4/17/2011 3:26:50 PM

No pain capsule!!	I have been taking this for sometime now, again only 1 capsule and my knees are perfect, my walking is great w/o any pain at all. I totally forgot if i ever had this knee pains. I am very very active and my pain in knees started last year sometime, even when i will sit and work, it will be very rigid, i had seen this product presentation, started immediately and benefitted hugely. All these capsules i take knowing all natural and how good care Andrew takes for making them and side effect. Thanks	5	3/23/2011 8:05:39 PM
Super product	I was using an over the counter product that wasn't helping me with my knee problem. I was in pain and using a cane to walk. Within one week of using Andrew Lessman's Glucosamine with Chondroitin I was able to walk without pain, without the cane, and the snapping and popping disappeared. Thanks Andrew for your great products.	5	3/20/2011 3:43:49 AM
Has helped greatly	This product has definately helped the joint pain I've experienced in my knee and hip. Love all Lessman products.	5	3/18/2011 11:59:12 AM
Staying Healthy	Have been taking these for some time and they are doing the job. I have now added more vitamins by Andrew Lessman. I like the way they are packaged, easy to swallow and have gone from the tablet version to the way Andrew does them. I am slowly adding new vitamins to my regimine. Keep up the good work Andrew!!	5	3/15/2011 4:23:09 PM
no more pain	Awesome stuff, pain is gone and it is gentle on my stomach.	5	3/11/2011 1:54:18 AM
Andrew Lessman Delivers	I have been using his vitamins for awhile now - this vitamin is particularly helpful to me because I have issues in my arms and legs. I would recommend this product to anyone who is suffering from the same.	5	3/5/2011 11:54:21 AM

Absolutely the Best!	I have used other products similar to Andrews, but didn't have the same effect. I have a torn meniscus and partial ACL injury. Although I am waiting for surgery, I must tell you it has worked better for me than the injectables at the doctors office! PLUS, the capsules are smaller and easier to swallow than other brands and I especially like the no sodium! I only got a small bottle to try, but I will get it again!! Thanks Andrew!	5	3/4/2011 8:26:11 PM
GREAT - BUT VERY EXPENSIVE	All of Andrew Lessman's products are great, but they are so very expensive.	5	3/3/2011 5:42:01 PM
great product	andrew makes great products that you can trust. i have been taking this a short time and can already feel a difference. thanks andrew.	5	2/26/2011 4:52:21 AM
Can't Be Without This!!!	My fiance & I have been using this for about for 1 month and we both see differences, especially with our knees and shoulders. We were previously taking a different brand and can see a big difference between them. Thanks Andrew for bringing quality products that are affordable and made with respect to our environment.	5	2/21/2011 5:19:49 PM
re: feel the difference	Have been a nurse for 38 years. This is a "feel the difference" product for my knees. Another excellent supplement!	5	2/19/2011 2:04:29 AM
Amazing!!!!	Bought this for my husband, didn't notice anything right away and then about the second week after taking them my husband said he felt so much better, his joints didn't ache as much.need to reorder but out of stock. Thank Andrew Lessman for making such a fine product!	5	2/15/2011 8:44:22 PM
GREAT	I was taking another product until I saw Andrew on one afternoon. He made it clear that most products contain the WRONG kind of glucosamine with chondroitin. The previous product I purchased in the store did nothing for me. With this product I am no longer having pain in my hip area and my knee has improved also. I would swear by this product.	5	2/14/2011 7:10:33 PM
I think the capsules will work shortly.	I have a torn cartilage, so don't expect miracles, I do believe other knee is feeling better. Will know more in a few more weeks.	5	2/13/2011 6:52:35 AM
Best Glucosamine Chondroitin on the Planet!	I have been taking this for years. After trying another brand that gave me severe stomach cramps I discarded it and went back to Andrew Lessmans. This GC has never given me a digestive problem. If I forget to take it my joints begin to ache immediately. I keep ordering it to make sure I never run out. I have recommended it to numerous relatives who also swear by this product and have seen a dramatic difference in their mobility.	5	2/4/2011 5:02:07 PM
Knee pain gone!	I have been taking these for about 1 month now and my knee pain has disappeared. This is a wonderful product. I ordered the small size to try, but after 2 weeks, I felt so much better that I went ahead and ordered the largest size! I can do my daily chores without the pain I was feeling for the past year! I highly recommend this product to anyone! Excellent product, Andrew, please continue the great work!!	5	2/4/2011 2:29:20 AM
Cannot Be Without This	Andrew's products are the best. I have taken this for years and it has eliminated the pain in my shoulders. How do I know? I quit taking it for a while and the pain came back. I will never be without this again.	5	1/30/2011 2:26:20 PM

After all they are his products. I would appreciate that and I am sure I speak for everyone else who wants to jump through the tv and tell you to hush already. Thank you Andrew for all you do!!	5	1/26/2011 6:12:53 AM

It works, when I work out my joints dont feel stiff or achy..I love you Andrew you are best at everything you do.	5	1/26/2011 5:56:36 AM
Reorder	When you find something that works, YOU keep it. Glucosamine with Chondroitin is a Winner.	5	1/23/2011 5:25:48 PM
Best ever!	I have been taking these for several years and I hope they continue to help me. I have RA and started on just any kind of glu/chon per my doctors advice. They didn't help and upset my stomach. I saw Andrew on TV and listened and thought I would try. I could tell a difference in my stiffness and pain in about a month. I have taken these ever since. I know they are helping because sometimes I forget I am about out of these and have to wait until my reorder comes. I start getting joint stiffness and pain until I get back on these. I know these may not help everyone but I would try because I didn't think they would help me and they did. Thank you Andrew for giving me a better quality of life.	5	1/23/2011 8:14:32 AM
Wonderful product!!	It really helps me with my joints. I take faithfully every day. If I forget...I know it, because I feel it in my joints. Andrew's products are the only ones I take because I trust him.	5	1/21/2011 6:37:26 PM
EXCELLENT PRODUCT	I TOP RATE THIS, WILL NOT DO WITHOUT. ANDREWS PRODUCTS ARE THE BEST AND I DO NOT TAKE ANY OTHER EXCEPT HIS. I TRIED OTHERS AND DID NOT DO WHAT THIS DOES SO I AM STAYING WITH THE BEST.	5	1/20/2011 6:18:19 PM
have used for years works for me	keeps the ache away I started using Lessmans' G.C. several months ago.I am almost 57 and a Post Polio survivor. I've previously tried other makers G.C.with debatable results.Lessmans' G.C. has worked, allowing me to walk in comfort and exercise without pain in my knees.I take 4 per day and will reorder these. Continued walking and non impact exercise keep me from becoming chair bound. Thus, this product is very important to my program.	5	1/20/2011 2:16:01 PM
Love this.	I have used this for several years, and if I forget to take it, my hands and knees seem to get achey. I know a lot of people think there is no benefit to using these, but I think each person has to evaluate their own personal situation.	5	1/20/2011 12:39:27 AM
Best quality product!	I love all Andrew Lessman's products! they are the Greatest, finest quality in the world! they deliver MAXIMUM benefit! Thank you Andrew! for all the great things you do for us!	5	1/18/2011 6:26:02 PM
Dottie from Massachusetts	I have been taking these vitamins for several years now. Easy to swallow and doesn't upset my stomach. Have tried other brands, but I always come back to Andrew's brand.	5	1/17/2011 8:53:54 PM
Great Stuff!!	These capsules keep me active without pain. I couldn't get along without them. If I skip a day or so, I feel it right away. Don't ever stop making them!	5	1/15/2011 2:33:05 PM
excellent!!!!	I was very sceptical that this would help my morning and daily aches and pains esp. the knees.when I first started it I didn't think it was working. I increased my dosage to the max recommended and it worked!! now I can tell when I've missed a dose.won't be without it.	5	1/1/2011 1:53:42 PM
Great Product	This supplement is very good. It has helped me with having less pain in joints. Have been on it for 3 yrs. and plan to continue taking it.	5	12/21/2010 2:43:37 PM

The clock has turned back for my joints!	When I began having difficulty going down stairs and getting up from a chair, I knew it was time! I had finally discovered what the arm rests on chairs were for . . . it was easier standing up using them as a leveraging point with my forearms and hands rather than relying on my knees. Within two weeks, it slowly dawned on me that stairs and chairs had ceased being a challenge and I was back to being . . . me!	5	12/18/2010 4:59:19 PM
Very good product	I am using this product for a while, I have problems with my knee joints and this product is doing wonders, I can't be without it. Keep up this product please. To anyone with join problems you have to try this to understand what I am talking about.	5	12/11/2010 9:57:05 PM
Can Feel the difference	When I first ordered I only tried the smaller size and I could feel right away the difference it made. I ordered the bigger size as soon as I could so would not run out.I had some very sore knees and joints and know i can exercise more and enjoy walking even more.You can definetely tell what a difference it makes within the first month.	5	12/9/2010 9:45:58 PM
BEYOND WORDS	I only take one cap a day and have seen results, no one can beleive.....have no pain in my knees and flexible as before. Will never be w/o it. Thanks NS	5	12/4/2010 5:55:58 PM

Great Idea	The Glucosamine with Chondroitin is wonderful ! A 'Must Have' for me. I also like the quick dissolving capsules. I tried to do without it and use the overcounter one, you know...the Os.... Bif..... and there was a definate difference. I began to hurt all over so I went back to Andrew Lessman's Glucosamine with Chondroitin and now am beginning to level out again. I'm sticking with it this time! SunnieG	5	11/30/2010 1:48:40 PM
really works	my husband and i have been taking this product for over 2 years and we see a marked difference. won't be without it.	5	11/28/2010 8:40:56 PM
Excellent product	My husband has been taking glucosamine/chondroitin for many years for his knees even after having several knee surgeries. Years of playing sports and of working on his feet have reduced the ability to manage daily routines without pain. He believes in this supplement to help lubricate his joints. He notices when he runs out of product and is quick to buy more. Recently, he wanted to try Andrew Lessman's version. He is very satisfied with the quality of Andrew's products. He was diagnosed with a stomach ulcer, so he appreciates the ease of being able to take these capsules without the worry of them irritating the lining of his stomach. Thanks for your great products!	5	11/25/2010 4:00:43 AM
PLEASED AS ALWAYS	This is regular ordered product for our household and as with all of Andrew Lessman's product we are very pleased and would highly recommend.	5	11/24/2010 10:26:37 PM
Excellent product.	I was having trouble moving my joints in the morning. It was so painful, I started taking Andrew Lessman's glucosamine every day and it makes a huge difference and I only need 2 a day. It is must have for me.	5	11/23/2010 11:34:12 PM
LOVE THESE	WELL FINALLY CAVED IN TO TRY ANOTHER OF ANDREW'S PRODUCTS. I LOVE THESE. MY BACK HAD BEEN HURTING OFF AND ON THIS PAST YEAR. IT IS FEELING ALOT BETTER NOW WITH THESE AND CHIRO CARE. EVENTUALLY THE CHIRO WILL BE DONE WITH AND I WILL KEEP TAKING THESE TO KEEP MY BACK IN CHECK.	5	11/23/2010 4:12:02 AM

Very effective	Andrew's formula calls for taking 5 of these per day but I found that in less than a week, only 2 or 3 were needed to relieve my knee pain and I had been taking a glucosamine formula without chondroitin before. If I miss a day or two then the knee becomes sore again but daily use keeps it at bay. I have been able to quit using ibuprofen and can take regular walks again even on the concrete sidewalks around my office. Thanks Andrew for making this and educating all of us to the natural way.	5	11/22/2010 12:23:58 AM
love my skin	This product has a big influence on the health	5	11/21/2010 9:48:57 PM
love this product	I have used glucosamine chondroitin for a few years now and when I run out I can really tell the difference. I do not ever want to be without. Thanks Andrew for a wonderful product.	5	11/21/2010 2:19:25 PM
Glucosamine and Chondroitin	Within days of using this product, I felt immediate relief from the discomfort in my hip that I felt as I increased the inclination on the treadmill. A marked difference is also very noticeable in my knees. I am confident that the Glucosamine and Chondroitin is stimulating and promoting soft tissue growth in my joints. Thank you so very much, Andrew!!	5	11/20/2010 3:57:38 PM
Help For Me	I noticed that my knees would begin to bother me and I thought it was due to the dampness when the weather changed. It might have been, but since I have been taking Andrew's Glucosamine, my knees are fine. I am 74 years old and kind of expected some problems. I decided to try this and it worked for me. Exercise and Line Dancing, no problem! Thank You	5	11/19/2010 2:42:17 PM
Fantastic Results	I previously experienced joint pain for many years, but with Andrew's G/C I have no discomfort. I can definitely tell a difference since I've been taking this product for the last several years. His products are the best value and quality available. Thank you, Andrew, for keeping us healthy with all your great vitamins and supplements!!	5	11/18/2010 6:44:41 PM
Amazing and awesome!!!!!!	Since my honey and I have been taking these caps, we both have commented on how they make the world of difference. I'm a schoolteacher, and he is a roofer, both in our 50's. Thank you Dr. Lessman for making our daily routines much happier and easier. Ic	5	11/16/2010 9:31:38 PM
Great Product	use all Andrew's products like most of them. wish the COQ10 didn't contain other vitamins. Take his other vitamins and don't need anything added. Wish CoQ10 wasn't so expensive.	5	11/15/2010 7:52:09 PM

Terrific product	My husband has had problems with his legs especially his left leg (nearly cut-off 19yrs ago). Has always had trouble with them, till he started taking this medication. His leg doesn't hurt and he is on his feet all day. He has took medication, and over the counter supplements but didn't seem to help. But, for some reason his legs doesn't bother him at night when he gets home from work. And he seems to be able to get a good nights sleep. Thanks Andrew he loves your products now. Took me a while to get him to at least try them. But we are avid customer's now, keep them coming.	5	11/8/2010 1:27:06 PM
Happy Boy!	We give this to our seven year old chow chow. We have tile floors so its hard on him sometimes. As he got older we noticed he was having a tough time walking on the tile . The vet suggested glucosamine with chondroitin. We brought the ingredient label to him first and he said all the ingredients are save for him. After about a week he was back to himself.	5	11/7/2010 5:02:08 PM
THANK YOU	It helps my trigger finger to heal, don't know if its just coincidence, but it works.	5	11/7/2010 3:15:31 AM

SEEING IS BELIEVING !!!	RECENTLY, I WAS DIAGNOSED WITH SEVERE EDEMA. REST, ELEVATE, APPLY ICE, TAKE ADVIL, AND WEAR 15 TO 20 COMPRESSION STOCKINGS; WHICH HURT BY THE AFTERNOON. I DID NOT WANT TO TAKE FLUID EXTRACT PILLS; SO I DID MY OWN RESEARCH AND READ THE REVIEWS. I INCREASED FROM 2 A DAY TO 6 A DAY AND WHAT A HUGE DIFFERENCE IN MY LEGS. NO MORE RED BLOOD CELLS POPPING OUT AND NO MORE SWELLING IN MY ANKLES. I DOWNGRADED TO 8 TO 15 COMPRESSION STOCKINGS AND CAN STAND ON MY FEET LONGER WITHOUT SO MUCH PAIN. I GOT MY LIFE BACK. THANK YOU, ANDREW, FOR "MY MIRACLE" IN A BOTTLE. GOD BLESS YOU.	5	10/24/2010 4:13:30 PM
DON'T take them...THEN you'll see!	Not sure it helps? Stop taking them and you'll know for sure. You'd kick yourself, but you can't bend your knee or lift your leg high enough to do so! Will never be without again. Life is soooo much better with Andrew in it. THANK YOU.	5	10/18/2010 9:32:51 PM
Great Stuff	It take it every day and my knees finally feel great. I can workout and not look back. I also got permission from my vet to use it on my 2 elderly dogs. They are much happier too!	5	10/17/2010 2:15:09 AM
Seemed to help with knee pain	Had some knee pain from starting running, this seemed to do the trick. Easy to swallow capsules that never upset my stomach. I take 4 or so different Lessman vitamins and love them all!	5	10/16/2010 3:26:49 AM

I highly recomend this product. Never to late even at age 75 and still dancing!! Thanks Andrew!	5	8/30/2010 5:54:38 PM
seems to help	I have been using the Glucosamine and Chondroitin for about a year. It seems to have helped with my lower back pain. I have had less flair ups after about six months of use.	5	7/13/2010 7:36:48 PM
THIS PRODUCT ROCKS!	I have been taking this product for a few months and boy has it made a difference in my step. I no longer have problems taking the stairs as my joints don't lock up on me. Glucosamine with Chondroitin	I ordered the Glucosamine with Chondroitin because I have very bad arthritis in my right knee joint and I have even had arthroscopy surgery done. Since I have been taking this products I am able to move around better without pain. I take 4 capsules every day and the glucosamine and chondroitin makes my walking and climbing steps a little easier. In fact I have recommended this product to a friend. I would rather take this than prescriptions.	5	5/21/2010 7:07:05 PM
Andrew Lessman Glucosamine with Chondroitin	I'm 63 years old and have been taking Glucosamine with Chondroitin for about 9 years now. It helps keep my joints lubricated and working because I'm a middle school teacher who is always on the go. Thanks Andrew.	5	5/20/2010 12:23:58 PM
LOVE this product!	This product WORKS for me. I've tried others and they just don't do what Lessman's does. I wish it would go on sale more often.	5	5/20/2010 2:26:41 AM

Love this stuff	I was very skeptical about this product, everyone was raving about it. I have runners knee and after taking this for a week the pain is gone.	5	4/27/2010 12:35:27 PM
Wonderful	I am on a new health kick to loose weight and workout daily. Therefore, the elliptical, bike and other workout routines can do work on my joints. I use this to lubricate my joints and make me able to do it. I take 4 a day and it works wonders. Thank you Andrew!	5	4/22/2010 10:23:38 AM
Trustworthy product!	I have found that this product does, in fact, help my knee problems and hip problems and I do not want to be without it. I am convinced that the drugstore type products do not have the same effect.	5	4/14/2010 11:46:26 PM
Fantastic	I have been using this for years after suffering an accident which damaged my knees and I couldn't even climb steps. It took a year to get my cartilage rebuilt and I could bend my knees. No more hearing the bone scrape when I would bend my knees. I now walk 3 to 5 miles a day. Everyone I have recomended this to agrees how great it is. I really believe in Andrew Lessman's vitamins.	5	4/8/2010 3:42:15 PM
Not like the others	My husband has hip problems. He started taking a store brand glucosamine and chondroitin. It helped. I bought him Andrew Lessman glucosamine and chondroitin, and he switched. It made a huge difference! We never buy any other brand now. If we run out, I can tell just by his walk. We try to never be without it.	5	4/6/2010 4:29:39 PM
Great Product	I ordered this product for my husband. He is a landscaper and has a lot of joint issues. He said he can't believe how much better he feels. He doesn't have nearly the pain that he did!! Thanks Andrew for a great product!!	5	4/4/2010 3:30:59 AM
This Stuff Works	Middle age hip and knee problems run in my family. My mother has had two hip and one knee replacement so far. Right on schedule, both of my hips started feeling painful and inflammed almost to the day I turned 50. I recently started taking 4 of these capsules a day and after two weeks the pain was gone. I've dropped down to 2 a day and all is well. I'm thrilled, I mean THRILLED. It's one of the few products I've ever found that really do their job. I've got my mother, sister, brother and a friend all taking them now too.	5	3/28/2010 5:33:47 PM

Makes a difference	I had knee surgery and still had pain so I decided to try this. It made my knee feel better, so I decided to give it to my three German Shepards. My male has hip problems, this has helped him also, he plays and runs around with the other two, they each get two capsules a day. This product has made a difference for me and my four legged friend.	5	3/21/2010 12:58:36 AM
GREAT FOR WHOLE "FAMILY" !!	After back and knee surgeries within the last 11 years, not only have I benefited from taking this, but my two dogs take it each and every day, sprinkled on their food. My almost 14 year-old, large mixed-breed's x-rays showed hip and back, bone-on-bone degeneration two years ago. Now, along with her fish oil and Rimadyl, she is as spry as can be! The nine-year old shepherd mix loves to stay outside all day, and also benefits from from Andrew's supplements. I recently started my two nine+ year old cats on it, also. They are very active and stay outside during the day, but I was noticing that they weren't as willing to jump the 6-ft privacy fence around our back yard, thus added this to their diets, and they now are TOO active--chasing the birds, dogs and each other!	5	3/20/2010 4:20:15 PM
Seems to work!	Bought this for my dogs. One seemed to limp some over the years. They are both overweight but summer is coming and hope they run that off some. Both chihuahuas. Have been giving this to them in small amounts with yogurt and the one that seemed to limp sometimes doesn't anymore and runs and plays just like his younger brother, perhaps more. If this works for them I know if I ever need to start taking it, I at least know it works. Thanks Andrew!!!!	5	3/7/2010 3:54:21 AM
don't run out!	I didn't realize how much this product helped until I ran out a few weeks ago. I am 29 and am very physically active. I also suffer from MS and FM.... without this product, I am in constant pain. Thank you!	5	2/25/2010 2:17:52 AM
VERY EFFECTIVE!	I am 63 yrs. old and ordered this for pain in right hip due to early stages of arthritis. I showed it to my primary physician and he said it was very good to take for my problem. After about 1-2 weeks of taking Andrew Lessman Glucosamine with Chondroitin I was able to resume my 2 mile walks, several days a week, without the limping or pain. I was skeptical at first but amazed at the results. It also allowed me to ride my stationery bike and resume some wii fit exercises without the discomfort. Thank you for a natural product that works.	5	2/22/2010 4:04:42 PM
Fantastic Product!!!	Thank you HSN and Andrew Lessman for a quality product.I was using a well known brand ,heavily advertised ,and it made me nauseous,and was not at all tolerated by my system.Andrew teaches these other products are inferior because they use cheap fillers to save on costs ,so you're really not getting a good value for your dollar.I feel much better with this product and would not be without it!!!!	5	2/19/2010 9:44:38 PM
WONDERFUL!!!!!! AH!!!	NO MORE STIFF AND SORE JOINTS EVERY MORNING! SOOO THANKFUL FOR THIS PRODUCT. I WORK WITH FIRST GRADERS EVERYDAY, SO I HAVE TO BE FLEXABLE, THANK-YOU ANDREW FOR A GREAT PRODUCT.	5	2/17/2010 10:56:37 PM
Moving again!	Loved them the first day and every day afterwards. Makes a real difference in your life and in your day when you aren't feeling like the Tin Man in the Wizard of Oz who is in need of oil! I am a preschool teacher with the need to move up and down with the kids all day long, and this has certainly made a difference in my day. Thank you sooooo much for making such a great product that is easy on the stomach and easy to swallow!	5	2/12/2010 11:15:40 PM
Can't Believe!	I have had surgery on my left knee twice and was told if the last one didn't work I would need a knee replacement. With the last one being a year ago. I work Manufacturing, on my feet on cement floors all day and am 59 years old. I have constant burning, PAIN in my knee and other joints. Using this product I was amazed I had relief 2 days after using. One week later i can't describe how much better the pain is! I will not be with out this product EVER! Thank You Andrew and HSN!	5	2/6/2010 7:03:37 PM

Glucosamine with Chondroitin	I tried your Glucosamine with Chondroitin a couple of months ago and from the first day I took it the pain in my body went away. I have been on arthritis medication for over 20 years and do not have to take it any longer. My knees, feet and neck have never been so good in the winter time. I am a believer and will continue to use this product daily. Thank you for what you do.	5	2/4/2010 11:47:36 PM

AMAZING!!!	This is the first time I've tried the Glucosamine/Chondroitin and I have to say..I LOVE THIS STUFF! It's Amazing!! I like to run early in the morning and when it's cold my hands, knees, & joints are stiff as soon as I wake up. This stuff has me jumping right out of my bed and into my running shoes. Anyone out there that wants to be active without joint pain...this is the stuff to use. I'm hooked and will never be without the Glucosamine & Chondroitin pills. Thanks Andrew!	5	1/9/2010 2:25:06 AM
Great Line of Products	I've been using Andrew Lessman Glucosamine for 2yrs and I have been pleased with the value and the capsule composition as it is easy to swallow. Much better than the over the counter product I was taking before.	5	1/4/2010 1:20:10 PM
Feel better	Before I started taking my knees and ankles hurt, after 30 days no more stiff joints in the morning.	5	12/12/2009 4:03:28 PM
Works For Us	Have been taking for several years now. Can't live without it. Give as gifts.	5	12/4/2009 5:50:45 PM
Pain gone	I am a skeptic and a nurse, but I have to say this product seems to work. After 40 years of lifting, pushing, bending, twisting with patients, my back is in pretty bad shape. Add osteoporosis to the mix and one has a mess. I've tried chiropractors, pain meds etc with not much success. After taking this product for a few weeks, I began to notice a big difference. Now, I only take a pain med once in a while. It's so wonderful to move about without constant pain.	5	12/3/2009 5:54:10 PM
It's great!!	I've taken glucosamine before and it never really worked. After listening to Andrew's presentation, I thought I would give his a try. I am amazed at the results I am seeing with my knees. After going through surgery, I thought that was as good as it would get, but with taking these supplements, it has gotten MUCH better. I will order this product again...	5	11/23/2009 11:53:23 PM
Now this is a supplement!	I suffer from severe joint pain resulting from chemotherapy, and after just a week on Andrew Lessmans glucosamine with chondroitin I was able to start cutting back on my pain medicine. I have now almost completely weaned myself off the prescription medicine and am back exercising again. I never would have believed a supplement could make such a difference. Thank you Andrew!!!!!!	5	11/23/2009 9:20:06 PM
Great Product!	Four years ago my physician said I would have to have both shoulders operated on. I refused and began taking Andrew's Glucosamine/Chondroitin. Within 2 months I noticed a difference and 4 years later I do not need surgery. I take this product religiously. I would NEVER be without it. Thanks Andrew for the wonderful things you do for us!!!! Diane, Azle TX	5	11/14/2009 12:03:54 AM
Great Product	I can feel the difference in my joints when I take this product. I wont be without it. Thanks HSN!	5	11/13/2009 4:27:11 PM
EXCELLENT!!!!	My husband (43) lifts HEAVY weights at the gym & has started training a 23 yr old youngster who has back problems. My hubby encounters knee & hip pain. BOTH of them are raving about this product & e-mailed me today to order more! There you have it! Thanks Andrew!!!!	5	11/12/2009 8:20:18 PM

Great Product	I started taking this product over six years ago. I am a drummer and had noticed pain in the joints of my nuckles. I had read in a magazine how Glucosamine and Chondroitin helps to keep joints lubricated. Six years later I have not had any pain in my hands.	5	11/3/2009 1:49:33 PM
Would not do without my Lessman vitamens	I have lots of cervical spine issues and this stuff works! No pain as long as I take it regularly. even give it to my dog with joint issues and he does great..thumbs up from my vet. You will pay way more at any pet supply for much lower levels.	5	10/28/2009 1:41:35 PM
Love it.	The pain in my knees went away almost instantly. Thank you Andrew I love all of the products I have purchased from you.	5	10/20/2009 1:40:06 AM
Great product	Love this product. Very helpful for those with arthritis. I take it 2 to 3 times a day. Never want to be without it.	5	10/12/2009 6:29:57 PM
snacks up on you and WORKS!	My family is prone to early arthritis and getting out of bed in the morning was very slow and painful for me at age 43. I thought I'd give this a try. I didn't notice a change right away and after a few weeks thought, "oh well, I guess I'll finish the bottle and just won't reorder". Well, another week (3 in total) and I realized I was getting out of bed and standing up straight! I had been getting up, hunched over and stretching for several minutes before I could stand up staight. This is a great product, you just have to be patient in the beginning.	5	10/11/2009 1:49:40 PM
Relieved my knee pain....	After just two weeks of taking this product I started noticing relief from my knee pain. I had been having great difficulty walking due to pain and stiffness. I've taken this product for three months now and only feel an occassional twinge of pain which is minor. My mobility has improved drastically. Thank you Andrew!!	5	10/11/2009 2:15:12 AM
yah for gluc/chon	I was on Naprosyn for lower back pain. Started gluc/chon about 5 years ago with doctor's agreement. Took g/c for 2 months along with my Naprosyn. Dropped one N. pill and 2 months later dropped the other one. I have needed nothing but g/c since that time. The doctor cannot believe I have no back pain with just g/c. He says he has had to do surgery on patients who were in constant pain and whose backs were not in the bad condition mine is. Since I have started on Andrew Lessman's capsules, I have the same good results (for 2-3 years) and it costs me less. I did go without any medication before I started the g/c and boy, did I find out the pain I would be in. I will never go back. Arthritis in the lower back is no walk in the park.	5	10/9/2009 2:08:27 AM
Dont be afraid to try these wonderful products	I have the beginnings of osteoarthritis(osteopenia) and this product is extremely helpful and easily digestible. This product works just like all of Andrew's other products. Love them all!	5	7/28/2009 5:00:14 PM
THEEEEE BEST!!	I'm a BIG skeptic & don't believe most product claims. I've had alot of pain in my hip for the last 2 years, so much that I thought I'd need a replacement. Figured I had nothing to lose in trying this. OMG! MAJOR difference! I'm not totally pain free, but I'm now on a pain scale of 2 of what used to be 9! My kids have noticed a bounce in my step again! I can get out of a chair easily again. Tried Costco brand prior to A.L.'s and it did nothing for me (plus they were huge!)HIGHLY RECOMMEND THIS!	5	7/22/2009 6:59:50 AM
Just What I Needed	I have been taking this product for about a month and have noticed a real improvement in my mobility. Like all of the Lessman products I have tried, this is a real winner.	5	7/21/2009 2:08:28 PM
Dogs Love It	My 6 yr old dog w/stiffness & arthritis so bad she cant jump or run.We started her on 1 capsule w/food in the AM, & no kidding the SAME DAY she was jumping & running around like a puppy!1 360-count bottle lasts a year & is inexpensive.I have tried other pet preparations & none of them have worked.Definitely this is one of Andrew's supplements we won't be caught without!Thank you for offering them here, & thanks to Andrew for making such quality products.	5	7/5/2009 5:37:39 AM

Wouldn't be without this product!	I have been taking Glucosamine w/ Chondroitin for many years due to disabling arthritis in my ankle joint. Without it, I would not have the mobility that I enjoy today. I recently switched to Andrew Lessman's formula and find that I have even less pain & stiffness than my formerly used Costco brand, which equals more mobility for me. Very pleased with all my purchases of Andrew Lessman products. Needless to say - I'm a happy camper and will be re-ordering.	5	4/26/2009 12:35:58 PM
This Works and I Will Never Be Without It	Andrew picked a winner when he recommended this product for arthritic joints.I will never be without this,as it has improved my mobility and knee and leg pain tremendously.I was so skeptical of trying this for years,and glad I finally was desperate enough to buy it.I sleep all night and feel better about managing my pain for the first time in years.	5	4/23/2009 3:42:06 PM
My Knees take more Abuse than Most	I have a mobility problem that affects my limbs from the elbow down and the knee down.I began walking on my knees to get around the house 14 years ago. About 8 months ago the arthritis pain started. After taking 3 per day of this product for about a week, the aching subsided. If I run out, it starts again in about a week. The day I can no longer walk on my knees my life becomes much more difficult than it is now. THANK YOU ANDREW, for giving me more time to live independantly.	5	3/31/2009 8:41:21 PM
Just what I needed!	I have suffered from costochondritis for years. I've been told I must learn to live with this painful condition. After much research, I saw an article that suggested glucosamine with chondroitin has helped some patients with my condition. I was desperate for help and decided to order this product. I can't begin to tell you how much this has helped me! Since taking 3 months ago, I've only had one flare-up and it was short-lived. I swear by this product and will never be without it. Thank you!	5	10/5/2008 3:32:44 PM
I will never be without this	I highly recommend this product. I got a wake up call this week, as I had ran out of it. Believe me, my joints knew the difference! I just re-ordered it, and will never be without it. Thank you Andrew for another great product.	5	10/2/2008 11:38:28 AM
What a difference!	The dose recommended for me was 6 capsules a day. (I have severe arthritis with bone on bone pain and can't have surgery). I felt improvement over supermarket stuff, doing good when I thought, maybe I don't need such a high dose (& save some \$). I cut back and my flexibility & pain came back. I have a choice between spending about \$50+ a month or giving up my life. I can be in a wheelchair or spend the money to be able to walk. I chose life, I choose to walk.	5	5/20/2007 9:51:05 PM
Excellent Product!	I am 38 and I have suffered from lower back problems for a few years now. Wow! what a difference this product has made. I take 2 capsules once a day, with a meal. I began taking this product a few weeks ago and I can already feel a difference. My back pain has subsided. I take several other Andrew Lessman's supplements and just can't live without them!	5	3/8/2007 9:01:07 PM
Finally! some relief!	I've suffered from knee pain for years.It had gotten so bad that walking for any length of time was very painful! I was living on over the counter pain killers and rubbing ben-gay on my knees a few times a day and at night!The pain used to keep me up at night!I started taking these vitamins a little over 2 months ago and what a difference it has made!! I dont rub ben-gay on them anymore and now the only time I take over the counter pain killers is when I have a headache!	5	3/1/2007 7:52:26 PM
WOW * WOW **** WOW ****	I had so much neck pain caused by arthritis/rheumatism. My neck had been a horribly painful barometer. I can't get over what this product has done for me as my pain has been gone for over 30 days. I have not taken a single pain pill of any kind. I only take 2 of your supplement pills per day so it is economical for me too. After many years, this is the only product that I have ever reviewed. Anyone experiencing injury pain in connective tissues.. this is a blessing!!	5	1/30/2007 7:18:31 PM

Makes such a difference!	<p>After trying different Glucosamine supplements from other manufacturers, this is the ONLY one that made a supreme difference in my joint pain (especially my knees and my back).</p> <p>I do agree -- with the other reviewer below -- that it takes a couple of weeks before noticing the difference, but once it takes effect, it's wonderful.</p> <p>I cannot imagine being without it. Thanks Andrew!</p>	5	1/26/2007 11:40:44 PM
great	<p>Yesterday I realized I was sitting on the floor with my legs crossed.. something I have not been able to do for 8 months since knee surgery. I've been taking these for about two weeks now and I believe they are definitely helping my joints, am able to walk without pain, have much more flexibility. I love Andrew's products for their purity of product and because THEY WORK.</p>	5	1/12/2007 2:07:37 PM
it takes a bit of time--give it a month	<p>I noticed pain and some swelling in my hands a few years ago. Started taking this and within a month all symptoms were gone. Occasionally I've run out and within a few days I notice knee creaking/pain and my hands act up by the end of the day. It may take awhile to get into the system and begin repairs/ replacement, but give it a chance. I have to say I'll never be without this.</p>	5	1/6/2007 7:28:30 PM
Pain is liveable	<p>I am a 34 year old woman. I am a past competitive gymnast, have a child and work a FT job that is demanding on my joints. At one point my right shoulder blade had a knot type feel so bad I couldnt move. X Rays show arthritis in hands, arms, shoulder, spine and feet! After spending \$20 per copy 3x wk @ a chiropractor I ordered this vitamin. Its not a magic pill I still have pain but I have aslo stopped going to the chiropractor. So honestly for me this seems to be working. Good Luck. Its worth the try!</p>	5	1/6/2007 2:11:30 AM
Makes a difference	<p>I developed rheumatoid arthritis in 1970. I've used glucosamine/chondroitin supplements for about 6yrs and used Andrew Lessman's a least 2 years. I take 2/day and this dose does a good job of preventing knee joint pain. I stopped using it for a brief period and the knee joint pain returned. I resumed taking it and the pain stopped and has not returned. In my opinion, anyone who has joint pain will do themselves a favor by taking this supplement no matter what dosage is required.</p>	5	12/27/2006 11:02:50 PM
Hurray for Merle & precious Dog!!	<p>What an inovative idea for dog joints. So brave to try it and am so glad it works. The door has been opened for pets. I think Andrew's products can make an improvement for most anyone. However I got these mainly for my husband who has Parkinson. I'm hoping to see some improvement in his walking. Parkinson's is complex and not sure his joints are the target area but worth a try. Thank you Andrew for the chance to try it and thanks to HSN for promoting this product and the many others.</p>	5	12/26/2006 5:23:56 PM
I RAN OUT ONCE AND REGRETTED IT	<p>I was taking 2 capsules a day of this product for several months and then ran out. I did not reorder immediately because I was not having any knee problems any more. What a big mistake. Within two weeks when my knees started aching again, I remembered why I started taking them in the first place. (I have weak and painful knee joints. Still I delayed reordering until I almost fell down a flight of steps when one knee gave out. I reordered and have never let myself run out again.</p>	5	11/12/2006 6:10:33 PM
true story	<p>i have many back issues. several years ago i had x-rays on my back. the doctor was commenting all the arthritis in my back. a couple years later i had another set of x-rays on my back. my daughter asked about the arthritis, the doctor reading the x-rays said oh there's nothing to speak of! i was not in the study he talked about, but it still happened to me. btw i am 51.</p>	5	11/12/2006 4:54:26 AM

GREAT PRODUCT	Andrew, I starting taking this supplement after I had two sholder surgeries and three years of rehab. Dr told me there was nothing else he could do for me. 100% of the pain and stiffnes went away. But that was not all my kness do not hurt when I am on them. For 28 years my knees hurt as a resault of running a lot. The least I can do is give a testimonial. Thank you!	5	11/11/2006 1:53:02 PM
Minimum is Plenty	I have been taking just 2 capsules a day for 6 months and the problem with my knees is completely gone. I guess "optimum" results can be achieved with more, but I'm not looking to run a marathon, & 2 is plenty for me !! Great product !!!	5	11/6/2006 7:43:34 PM
I WON'T DO WITHOUT IT - REMARKABLE RESULTS!	Andrew, I starting taking this supplement after I had two knee surgeries and one ankle surgery. I have had physical therapy and all kinds of treatments to relieve the discomfort with weather changes and overall pain. When I ran out of this product, after 5 days, my knee pain increased and the ankle was bad. I am convinced that with steady doses that this IS A MIRACLE!	5	9/14/2006 11:54:47 PM
Had serious pain - it's manageable now	I have carpal tunnel issues. This product has helped me avoid surgery for years. I have noticed an extreme improvement. After about two weeks of taking this I experienced a tangible difference. I usually take just one pill a day. When I notice my pain acting up I take two pills. I'm small, so that may be why fewer pills a day work for me, but even if I had to take more pills to relieve myself of the pain without surgery, it's a much better option for me.	5	9/14/2006 12:29:56 PM
THIS WORKED FOR ME!!	Two years ago my knee hurt and began to creak when I sat down or climed a stair, and then about a year ago I started using the Andrew Lessman Glucosamine plus Chondroitin & joint Support. Let me tell everyone ... I DO NOT HAVE A CREAK OR PAIN IN MY KNEE ANYMORE! Thank You Andrew..xoxoxo	5	8/15/2006 3:15:01 PM
Great for the knees	So many woman suffer with knee pain and mine started to ache too, so I decided to give this a try. I'm still on my first bottle but I can already see a dramatic improvement when climbing stairs. So far so good ! I went from pulling myself up the stairs with the rail to walking up with a tiny (livable)dull ache. My hope is that my knees will continue to improve with continued use.	5	6/28/2006 12:47:06 AM
Great	All i can say is this product really wooks. I had so much pain in my right hip, to the point that pain pills did not work anymore. I tried this Glucosamine, and ive been pain free.	5	6/6/2006 6:24:38 PM
WONDERFUL	thIS IS A FEEL THE DIFFERENCE PRODUCT.I was in car accident had back problems started taking this after a while I did feel better.I even stopped for a while and could tell the difference then also.Will not be without.	5	4/28/2006 4:32:22 PM
Back pain relief	I have had back pain consistently for many months and was being treated by a a chiropracter 2-3 times a month on a regular basis. Saw this product and heard the testimonies. Taking it was the only change I made and it really has made a significant difference for me. I've taken it for 3 months and now I don't have the same back pain I've had in the past and don't need to see the doctor near as often. I'm sold on it completely!	5	3/29/2006 4:37:59 AM
I feel great!!	This product is awesome, i feel a difference in my joints, especially my knees when i take this, i can tell when i forget to take it!! It makes me feel more flexible, able to exercise without the feel of stress on my joints, I LOVE this product, I love that it's easy digested for fast distribution, it makes a huge difference that it's powder and not a hard pill.	5	2/9/2006 6:38:24 PM
Great for Dogs	My dog is old with arthritis and a damaged back end from an earlier dog attack that left him with scar tissue. I actually take this product and open the capsule and sprinkle it on his food everyday. Works great for and dogs aches and pains. If your dog is getting older and having a hard time getting up or down I urge you to try this. It works.	5	11/6/2005 1:25:29 AM

My New Lease On Life!	I have discovered this product a few yrs. ago-the results are like a miracle- fingers that don't "pain" when I write my back,knees & joints are SO relieved! At work I shared with some "younger" fellows-lo & behold they came back & tell me they are doing great & not on the pain meds & thank me. My own doc told me to use this with my arthritis meds as well as the druggist-years ago. I suggest they start off on a double dose for about 2 weeks & adjust as needed. I share this, with all who complain, as I am a chronic pain patient & wear a "tens" unit & a brace BUT this is my "God send" product! I saw James Colburn on tv & he told how he was so crippled & an Indian herblist used this with MSM & he got back to acting & won an Oscar before he passed away.Thanks A very grateful customer...God Bless!	5	5/27/2005 2:10:32 AM
I feel the difference	I have been taking for over a year. Ran out and did not have for about 2 weeks felt the difference in my joints specifically in my knees. Ordered the jumbo as it will not go to waste. The only reason I gave 4 stars, due to the fact that you have to take 4 capsules a day, in combination with my other vitamins it is a lot of capsules to take. I split these two in the am and two in the pm. You will feel the difference it makes, I would recommend.	4	4/21/2019 4:58:49 PM
Great product!	Seems to be helping with my joint pain and only been using for a short time. Working up to taking the full prescribed dose. Best part...no stomach upset. I use his other products with great results so I expect this supplement will work as well.	4	2/17/2019 3:02:14 PM
incredible	I bought this for my bf who has severe arthritis in his back and hips, one hip replaced, and will have the other in the future. His back pain is unbearable. He has tried everything with no relief. He has been very limited in activities for over two years. In about one week, his back pain is reduced at least 80 percent! Some days he has no low back pain at all! We are hoping he will have some hip relief also. Thank you!	4	2/15/2019 9:11:22 AM
Seems to be working for my dog	Got these for my 9 year old dog who is getting arthritis . After a week of putting these in a scrabbled egg for him, they seem to be helping!	4	1/24/2019 3:24:00 PM
NO PRESCRIPTION DRUGS	I use two of these a day for my knee and don't need prescription drugs as of yet. Other glucosamine and chondroitin I was taking were so large I had a hard time swallowing them.	4	12/21/2018 2:50:21 PM
Hubby likes it!	Swelling from arthritis has gone down pain still persists. Hopefully joint pains improves as hubby uses it longer. As he just started using the product.	4	6/16/2018 3:46:56 AM
i hope....	i have been taking for 2 weeks.i do not notice any difference on my knees.i am 70.	4	6/13/2018 7:33:27 PM
Helps the pain but...	Within 24 hours my moderate knee pain and stiffness was gone. As a senior that's a big deal. I only took one capsule a day with a meal. On day 4 I started feeling nauseous and my heart was racing. I've never had those symptoms with any of Andrew's products. Stopped the product and the symptoms went away. I'm disappointed because the product works. I recommend if you try the product start with one capsule instead of the recommended four capsules. Sadly, I'm one of the very few who can't take this	4	5/20/2018 11:34:35 PM
Works good but be careful	This product works great. My joints didn't hurt as much and I had more range of motion. However, when I got my blood work done, by blood pressure and my blood sugar both were elevated. It is the only thing I have done differently. I looked up side effects online of the ingred. and it says it can elevate both. So, the product works, but it isn't for me. I feel bad, because I loved that it was working. Since not taking it, my blood pressure is back to normal and we will re-test my A1C soon.	4	4/8/2018 5:23:53 PM
Buy it	I feel less pain in my joints	4	2/23/2018 9:19:26 PM

Needs MSM	I've used Glucosamine for many years and also give it to my dog. I'd been giving her another brand with MSM and she did very well with it. Since giving her your brand without MSM I find I need to supplement veterinary pain meds which is an extra cost. I still take your brand and am also taking your Peptides which has MSM but my dog won't touch it. Ordering MSM separately is an extra added cost. So I'm on the fence, which is rare, because all the products I've used from you have been very good and I've reordered most of them.	4	2/13/2018 7:14:23 PM
GREAT PRODUCT!	I have had five surgeries and arthritis has set in all over my body. One of my surgeries was a knee surgery and I don't want to go a day without these capsules. I have actually skipped them a day or two (just got busy and didn't take them) and was sorry later because I was in so much pain. I really can tell a difference if I miss a day or two taking these. They really do help me and I always stock up when they are on sale; can't be without them.	4	9/25/2017 2:08:56 AM
stroke victim	ive been taking a few daty somewhat fweel better but i willl do a proper 30 day update being a stroke victim i know how much we want this to work bnoyt willing to mis lead anyone do an update sept 15	4	8/15/2017 9:07:40 PM
Worth Buying	When I first started using this I had great success with it helping my hair 'normalize' fallout. Hair grew back in and am satisfied with that part. Initially, it helped my nails. They stayed longer and didn't break off. Then it seemed to stop. They grow fast, but it isn't strengthening the nails to make them stop breaking off. That part, I am disappointed in.	4	4/19/2017 1:31:25 PM
trust	Thought I'd give this a try as I have trouble with my knees since I workout a lot. I realize it can't repair damage, but I do believe it helps.I take many of Andrew's supplements as I trust him and know they are giving me what my body needs in order for it to be more healthy. The major work is up to us.	4	3/12/2017 1:52:13 PM
used for years	Can't 100% tell is this works but I think it does!	4	1/23/2017 2:46:41 PM
used for years	Can't 100% tell is this works but I think it does!	4	1/23/2017 2:46:37 PM
Omww	It really works best thing for my joint pain. Been able to be a little more active	4	1/6/2017 4:13:32 AM
Helps	My arthritis has gotten really bad in my hands. When I take this it seems to help. Anything so I don't have to take another prescription..	4	12/31/2016 8:42:46 AM
I give this to my small dog	Andrew said he gives it to his dogs. I have a 13 lb Pomeranian Poodle Mix with wonkie back knees. The vets have never wanted to do surgery for dislocating patellas. Now he's 11 and these capsules seem to give him considerable relief. I have tried canine products but will use this instead.	4	11/26/2016 12:35:09 AM
A quality product	This is a good product that would help people with arthritis or muscle pain. My issue unfortunately is bone on bone so it didn't help me much. I tried it out of desperation .	4	11/6/2016 2:30:04 PM
THE BEST SO FAR	These capsules are worth a try if you suffer from arthritis. I was taking a different brand/combo which did nothing so decided to try this brand. Much improvement. Would recommend.	4	10/13/2016 3:08:22 PM
Good so far....	I haven't been taking these very long but I do believe they are starting to help my very achy arthritic joints and knees. Will continue to take w/hopes that I continue to notice improvement.	4	8/27/2016 9:54:18 PM
Glucosamine / Chndroitin	I had never used a product like this before. But, I'm not as young as I used to be and found my knee bones a little creaky at times. This is a wonderful product. It really helped my creakiness!	4	6/6/2016 4:59:28 PM
Helps my joints but not kind to my stomach	Works great !! I can now go to Zumba class without a knee support brace now. The only problem I have is it upsets my stomach and causes me to be gassy.	4	3/31/2016 5:47:01 PM
I don't use anymore	I loved all Andrews vitamins but I had to scale back. Didn't notice any improvement with my knees, so stopped using.	4	3/28/2016 9:47:53 PM
Glucosamine	I give this to my senior dog who has arthritis in his hips. He is a lab and they are prone to hip problems. This product works much better than the nationally advertised brand and it costs less.	4	3/18/2016 4:43:55 PM

No arthritic pain!	So lucky to have listened to your explanation of the benefits of this product. Have combined it with MSM 500 for a great result.Your professional expertise is greatly appreciated.I wonder if you can resolved two issue: empty capsules and white powder residue on my hands. I use about 6 of your products and this is the only product I use that contains empty capsules/white residue. Thank You!	4	3/14/2016 11:54:46 PM
Great	I take this vitamin along with calcium. I'm on my feet at least 6 hours a night. No discomfort in my joints at all. I notice a difference when I run out.	4	3/3/2016 3:16:58 PM
too early to tell!!	My husband has only been on a few days, but we are anxious to see if helps because it is Glucosamine sulfate instead of the hydrochloride in all other Glucosamine products!!will update later if it helps:)	4	2/2/2016 1:46:00 PM
AWESOME	I LOVE THIS PRODUCT	4	1/30/2016 1:39:27 AM
Great Product	I have been using this with MSM for about a year and my joints are in better shape. I am not going to stop to see if it the reason. Please keep bringing large containers. the 600 was a better size :-)	4	1/29/2016 10:59:03 PM
Easy to take	I would have rated this 5 star except for the cost. When it comes on sale I try to buy it.The capsules are so easy to take and small sized and go down easy.When I run out I will have to order another brand I use in between.	4	1/25/2016 7:58:45 PM
Noticeable Difference	I must preface by saying I've purchased Andrew's maximum joint formula but switched to this only because I wasn't fond of a 5-pack of pills. This I take 2 in the morning and 2 in the evening after work - I just like the freedom of adjusting the quantity of my dosing. Great formula. Andrew's products, thus far, have never disappointed and I'll continue buying.	4	1/22/2016 8:25:08 PM
not big hard horse pills	easy to swallow work well	4	12/15/2015 2:52:19 PM
Quality Product !	Both my husband & I tried these & we liked the product...will be ordering more. Andrew's formulation is what I appreciated when you compare to many others.	4	12/1/2015 4:20:07 PM
helps a lot	My husband suffers from a very bad back. He has taken otc pills,but they only last a while for the pain. This is helping him. Thank you!!! Will be ordering larger bottle.	4	11/21/2015 7:48:48 PM
Like Products	I was knocked down by a gang while in Florida about 15 months ago and my leg has gotten worse the longer it goes. I purchased these to help relieve the pain. I think they have helped.	4	11/7/2015 6:36:21 PM
Not Sure!	Since I take Coumadin I have started taking 2 capsules instead of 4. After one week I don't see a difference. I'll continue maybe moving to 4 capsules. This does include more frequent monitoring to check the Coumadin level.	4	9/24/2015 6:58:09 PM
pain	I just started the product, feels a little improvement in my bones, but do not yet if it works at all for me.	4	7/24/2015 1:47:01 PM
Bought for First Time	I'm not sure if it's working yet. This is my first time purchasing this item, and I think you have too give it some time to see if it effectively works.	4	6/20/2015 3:30:33 PM
glucosmine/Chondroitin	I have arthritis. This is the first product (among many) that I have tried and found great relief.	4	6/13/2015 1:36:02 PM
A brand you can trust	I wish I knew how to evaluate if this product is actually helping me	4	5/28/2015 9:50:01 PM
Not sure	I can't rate this product because I have just started it	4	5/1/2015 5:20:11 PM
Thank you	Always pleasure Cannot buy too often because of money ... Happy always	4	5/1/2015 12:28:57 AM
GREAT VITMAINS	I love this product but recently when ordered noticed on back of bottle instead of taking 5 it was lowered to 4.Called pro Caps where vitamins are made to ask why since all ingredients were exactly the same as before.Answered my question but just wanted other people to be aware of quantity change.Also HSN now charges me tax which they did not before which really added to my total.When I do not take the vitamins I notice a big difference so will not stop.Would give 5 stars but was not told in advance about quantity change or tax	4	4/27/2015 8:16:12 PM

Glucosamine W/ Chondroitin	I purchased these in combination with the vein support. I was so excited to take these from everything that was talked about on the show and the reviews. That the day I got the pills in the mail, I immediately opened up the package and took them on the spot. I was disappointed the first few days, because I felt no improvement, that I even wondered if I should up the dose to three a day? I noticed the pills were making me extremely tired. But needless to say I kept taking them without increasing the dose. On the sixth day of taking these I felt this remarkable difference in my leg pain. It went from a 10 to a light 2. I'm so glad that I kept at this. The extreme fatigue is still there and I'm getting my heart burn pain again. So I will keep searching for some relief!	4	4/24/2015 4:37:45 PM
Happy Health	Purchased this supplement for joint support because of being 50+ in age. Not sure at this time of actual results because I have only taken the supplements for less than 30 days. However, I am sure it will provide what I need to help support joints with the quality ingredients and no artificial additives.	4	3/14/2015 2:02:20 PM
great	I really like this product. Was approve by nutritionalist and my chiropractor. I gave more movement in my joimysel and far less pain	4	3/11/2015 1:19:50 PM
Seems to be helping my knees	I had purchase before and didn't follow the dosage instructions. This time I am following and it seems to be helping. Trying to postpone TKR. Will purchase again if it continues to help with the pain.	4	2/28/2015 8:22:09 PM
Helpful product	We mostly have used the Maximum Joint Effort and the product seems to work pretty good, relieving the joint pain. However, we have also used the Glucosamine and Chondroitin caps and find similar relief. Was off the products for awhile due to money issues, and did seem to get more pain than usual. So, I would say that the relief we received when using the product does seem to help a lot. It did not diminish all of our pain, but has made it more tolerable. And, getting any kind of relief is more welcome with the product than without.	4	2/25/2015 12:28:41 PM
My Joints feel Great	I have noticed that when I do not take Glucosamine with Chondroitin my knees, back and hips hurt. The pain is very annoying and now that I am back on Glucosamine with Chondroitin I do not have any pain in my joints. I seem to have eliminated the pain in my shoulders as well. Thank you Andrew Lessman for all your research. Keep up the good work. I recommend these to all my friends as well. I love these Glucosamine with Chondroitin capsules.	4	2/24/2015 7:44:24 PM
So far so good	Shipping was timely as always with HSN. Product was bought as a gift as my mom wanted to try this. she says so far it has worked and not upsetted her stomach.	4	2/17/2015 9:57:22 PM
it really works!!!!	i was having this joint pains since after my hysterectomy.I've been taking other medications but it relieved for a while but am suffering daily.till i saw this in HSN first timer...i took this only for 2 weeks now. i found the difference.my hands are less swollen.joint pains is minimized. it really works.ive been telling my colleagues RN's,i complaint less now about my pain.thank you HSN..	4	2/10/2015 1:35:42 PM
A Good Product	I prefer that we would have the ability to rate items after 30 days of using a product. So far, this supplement has been helpful to me. I actually started to feel relief in a bad knee after the first dose but would like more time to use the product before a review. I just hope that this continues to help my painful knee. What I don't like is that a full dose is 4 caps.	4	2/7/2015 6:46:24 PM
Relief at last.....	I didn't realize that I was supposed to take 5 capsules, which I have been doing for several weeks now. I am beginning to have less pain and stiffness in my knees and hips, without any stomach upset.	4	2/6/2015 5:59:53 AM
Oil for my joints	Only thing missing is MSM, that would make it complete! Maybe Andrew can fix that.	4	12/9/2014 3:15:07 PM
Let's loosen up	I just started taking these Vitamin's other than that I would of given them 5 stars. Like I said before all Andrews products' are Top quality. Andrew could you produce a vitamin that helps with the skin on the face!	4	11/5/2014 10:55:19 AM

Glucosamine with chondroitin	I like these pills. They seem to be helping my joint problems. I would recommend any one to give them a try.	4	10/29/2014 2:00:57 PM
Pleased with the results	Since the couple of weeks I've been taking this supplement, I notice a difference in how my joints feel, especially my elbows, which have been bothering me for years. I'll continue to take this, even though five capsules a day is a lot, and I wish the formula could be such that fewer capsules were needed.	4	10/26/2014 11:06:35 AM
EXCELLENT	ALL HIS PRODUCTS ARE EXCELLENT	4	10/12/2014 12:51:55 PM
Came back for more	I've noticed less pain my shoulder areas. Not sure if it's entirely the supplement, but think it is helping. Reordered in this value size offer. Love it when Andrew offers value purchases.	4	9/3/2014 11:52:34 PM
Start of joint issues	I seem to have stiff joints in my shoulder area. Have been to physical therapy and thought glucosamine chondroitin couldn't hurt. Have been taking it for over six months and my shoulder seem to be better. Will continue.	4	9/3/2014 11:51:14 PM
It's working	This works, I need to order more.	4	8/9/2014 2:24:45 PM
arthritis	I bought this for my husband and he has pain in his hands and wrist, so far its helping better than most other things hes tried..hope it gets better every day..	4	8/9/2014 3:44:26 AM
Good Product! Days I forget to take, I HURT more!	These are a good Product, as the Adage goes,'The Proof is in the Pudding!' On Days when I forget to take them, or less than the Daily Does, I find that "I DO HURT MORE!" I have taken other Glucsamine/Chondroitin Products....These seem to get absorbed more easily! "HURTING LESS or NOT HURTING" is 'WHERE IT'S AT!' THANK YOU~	4	7/16/2014 2:27:12 PM
Divamour	Love this product. It has helped me to feel less stiff after sitting long periods of time. My joints don't pop as much. I recommend this.	4	7/10/2014 6:50:18 PM
Can't live without them!	I take these capsules religiously and they really help to ease my back pains.	4	6/24/2014 1:15:56 AM
glucosimine	How can I tell if this is working?	4	4/23/2014 7:26:33 PM
Easy to swallow	I just received these less than a week ago so I haven't seen or felt any results yet. However, they are easy to swallow. This is saying a lot from someone who hates has trouble with many pills and who typically doesn't buy pills larger than an aspirin.	4	4/19/2014 3:51:17 PM
Ordering my second bottle today	I am 34, however, I have issues with my lower back, sciatica, and was told I had pre-arthritis in my knee. My knee began swelling a little over a year ago- it wasn't always painful, but it did decrease my range of motion. I went to an Orthopedic doctor where I got an x-ray and told I was getting arthritis. I dealt with the pain and swelling for over a year before going to my primary care doctor. She suggested I try glucosamine/chondroitin for 3 solid months before rating it a full 5 stars.I purchased a Safeway brand, they were \$22.00 a bottle for a 60-day supply. I took the supplements for 3 months- my knee still swelled and I was still having pain. I did some research on glucosamine/chondroitin and one of the articles I read said that to reap the benefits, you should be taking 1500 mg glucosamine and 1200 mg of the chondroitin and they should both be sulfate. I found these, although expensive, I purchased on the flex plan; I was in a lot of pain and looking for relief and so far, a mon	4	2/26/2014 6:40:52 PM
Surprised	I was surprised this product worked. My doctor has been telling me for years to take glucosamine and chondroitin and I tried but the pills were too large and hard to swallow. I have been taking this product for two weeks now and walked up stairs without pain in my knees before I realized I had done so. I have arthritis in my knees. This product works. It is easy to swallow and does the job. Four stars because I dislike having to take 5 at one time, but I like the results.	4	2/2/2014 8:37:11 PM
good	It's help my joint to be painless, thank you Andrew!	4	12/7/2013 6:32:37 PM
Works Very Well	Recently I have had pain in my knees. I started taking the Glucosamine-Chondroitin and the pain is gone. I will continue to take this each day.	4	10/17/2013 7:32:35 PM
Will need autoship	We stopped using this product not sure what the befits were. Well all of the arthritis and back pain returned. I will need to make sure I am never without it again.	4	8/24/2013 1:35:37 AM

MAY RECONSIDER	<p>The problem I am having is that all of these great pills come in purple wrappers. The sun is not going to get through the container and Andrew should be aware that for many of us who take most of his supplements we end up with nothing but these purple packets and you have to keep them all separate in the bulky containers or they get mixed up. Different colors would be so helpful!</p> <p>I would like to find this product where it does not require taking these 5 additional supplements every day. It just starts making too many pills when combined with all of the others. I love the products, but notice many of the other brands do it for the same dosage, gel caps in 2 and 3 capsules instead of the 5..</p> <p>I do feel the products are excellent but getting to be just too much to have to take daily.</p>	4	5/31/2013 7:19:43 PM
seems to work	I take these daily and usually they do a good job of keeping joint pain away.	4	3/27/2013 1:12:28 PM
good product	I buy vitamins so this is very convenient to get them on TV I think they're good products a good company and I enjoy hearing about it from the owner on TV	4	3/20/2013 4:52:48 PM
chodrotin and glucosamone	have used this item before.i was not taking proper dosage.i currently take recommended dosage.feeling much better.will continue using ANDREW LESSMAN products.i trust his science.	4	3/20/2013 10:36:08 AM
Good pills	I've been having a lot of knee problems and back problems but since I've tried these I've notest a big difference less pain and can move more better not as stiff.	4	2/9/2013 2:54:12 PM
works for my mom	have been buying these for my mom for some time now..i used to buy them from another source and since Lessman's are made with the minimal damage to the earth, I choose to buy them. they seem to be working for my mom's arthritis.	4	1/28/2013 3:33:15 PM
2nd order	I feel secure with this product, I take them and my two dogs receive them daily. Our vet said the delivery size of the item was essential for aborption, I have faith in Andrew and assume he is aware of this common problem with glucosamine. Only 4 stars as it is recommend to take 5 capsules daily, gets costly, but our health is worth it.	4	12/8/2012 9:54:23 AM
Undecided	This is a very expensive product considering that 150 capsules last only one month. Taking five capsules a day to get the recommended amount may not be affordable for me. I'll shop around before I make the decision to reorder.	4	11/13/2012 2:50:20 PM
Really helps my back pain.	I have been taking it every day for the pain I have from bursitis/ arthritis in my back, leg, and arm. I have seen slight improvement and believe it is working. Yay! Andrew's are the only vitamins that I take because they are trustworthy, just like Andrew!	4	10/9/2012 7:24:05 PM
these seems to help	BUT I wish his formulation could lead to less caps daily. Taking five of these each day gets tiring.	4	8/8/2012 1:40:43 PM
LOVE	I love All of Andrew's products. I especially love the education we get for free. However, I have to limit which ones I can buy because of budget reasons. With better flexpay options, I could probably afford them all!!!	4	4/26/2012 11:46:36 PM
Requesting this in Powder Form	I am giving this a try for joints but would like to see it in powder form to add to my morning Secure. Right now I am emptying 5 capsules into it.	4	4/4/2012 5:54:44 PM
My joints feel better	Love this product. My knees don't creek when I bend down. I don't feel like the tin man when I get out of bed every morning. Of course all of Andrew's products are great!	4	2/2/2012 3:09:50 PM
One of my favorites	I always reorder when I run out. I take one at breakfast and two with dinner. Very pleased with Andrew's products.	4	2/1/2012 1:49:01 AM
Big Difference Felt	A very big difference was noticed after 1 month using. Reordered again but will now take in greater qty, didn't realize that up to 5 could be taken per day.	4	1/28/2012 4:30:11 PM

Great Product	This is a very good supplement. You may not notice how good it is until you are off of it a month, then, you know how well it really works.	4	8/22/2011 2:45:13 PM
Not sure	I have been taking this for a few weeks, I have not really noticed much of a difference with joint pain, but I will give it a little more time.	4	5/13/2011 10:33:35 AM
Big Fan of Andrew Lessman	I am a believer in Andrew Lessmans products. I take several on a regular basis. His Glucosamine has worked wonders on my knee pain. I love that he and his team are environmental conscious. The main reason I like Andrew Lessmans products is because of the purity of the product. The reason I gave four stars is because of cost, it is quite expensive. Thank goodness for flexpay.	4	4/18/2011 4:19:28 AM
This Stuff Works	I have fibromyalgia and painful joints. I have tried other products OTC like this and they don't work. I decided to try AL products and I got to say I was astonished at how much better I felt after even the first week. Most of the joint pain was gone and if I go a day without the product then the pain starts to creep back in. Thank You SO-OOOO very much Andrew and you speak the truth when you say all Glucosamine and Chondroitin out there is not created equal.	4	3/31/2011 3:46:18 AM
Good Product	I have been taking this for about 5 days. I see a little change In my joints, feels a bit good. To all If buying this product, this Is not a medication for pain and joints, It's a binder that will help our joints. I will keep taking this for now...It Is too early, but I would recomend this.	4	3/19/2011 2:07:12 AM
Knee Pain Gone	I have ordered the Glucosamine with Chondrotin from Andrew for almost 3 yrs it has been great for a nagging knee pain that would not get better even with otc analgesics. I have to admit I did try a store brand to save on Shipping and Handling costs. but they didn't work as well and as fast. So I immediately went back to ordering with Andrew. now I don't wait until I am almost out. I make sure I am never without them.	4	1/29/2011 4:01:08 AM
What a difference!	I ran out for a week and that reminded me why I depend on this product. It reduces aches and pains and allows me to move more easily.	4	1/6/2011 3:18:33 PM
Good product	I have been using this product for over a year now and highly recommend it. It really has helped with joint pain.	4	12/9/2010 3:39:57 PM
cabbie	would not stop taking, good product once again	4	12/6/2010 1:45:23 PM
They say these are good for me.	I'm told to take these and with all other Andrew lessman products that I take, I just continue to take them. I suppose if I stopped, I'd see the difference, but i really don't know. I also give these to my dogs and they seem to help the elderly dog quite a bit. whats good for me is also good for them....	4	11/21/2010 1:21:01 PM
Helps ease Interstitial Cystitis symptoms	I found that the IC official website suggests use of Glucosamine with Chondroitin as a supplement that helps ease IC symptoms. So I ease the pain in my joints and help my IC symptoms with one product. Would give 5 stars, except for the cost. I wish I could afford to purchase more of Andrew's products, but it is beyond my budget.	4	11/21/2010 8:30:03 AM
VERY GOOD	MY MOM SAYS THEY WORK GOOD ,THEY WERE A GIFT FOR HER	4	10/28/2010 1:09:16 PM
seems to help	I notice when I forget to take this, my fingers start to ache. Once I start up again, there is usually an improvement.	4	10/26/2010 1:05:39 AM
MCMR	Another great Andrew Lessman's product.	4	10/22/2010 6:58:51 PM
Andrew Lessman's product	We really like the Glucosamine with Chondroitin, and can feel the difference if we miss it for a couple days.	4	9/19/2010 4:25:25 AM
ACHY KNEES	SINCE I'VE BEEN TAKING THIS MY KNEES DON'T BOTHER ME GOING UP AND DOWN THE STAIRS.	4	5/26/2010 3:38:32 PM
A good value	This product works great for me, and is less expensive than many other brands.	4	5/20/2010 3:19:07 AM
So far so good	This is my first opportunity taking Glucosamine and Chondroitin. I sometimes have bad reactions to vitamins, but I think I actually feel a little better after 3 days and I'm only taking 2 a day.	4	4/19/2010 10:48:36 PM
Good Product	I hvae been taking this for 3 months now and I can see the difference in my knee pain and swelling especially.I just reordered this past week,capsules are very easy to swallow.	4	1/24/2010 5:50:07 PM

Great!	Per my doctor's recom. after knee surgery I have been taking G/C on & off for 2 yrs. When I stopped taking G/C I noticed discomfort that I never had before so immediately ordered more. I LOVE the gelcaps. Have tried Walgreens products & can't swallow those huge caplets. Even cutting them in 1/2 didn't help. I have now started buying the large qty of Andrew's G/C on autoship since I'm not going to change ever again.	4	10/17/2009 2:50:57 AM
does not stop pain	I am a long time customer of Andrew Lessman. I am taking his glucosamine right now and I took it some years ago. I am concerned about the claims people are making that this product cures arthritis pain. That's ridiculous. It doesn't. My orthopedic surgeon told me to buy this product at Costco because of the cheap price but I stick with Andrew. The doctor said that this product will help stop the decay of cartilage in my knee but that's all it does. It does not cure pain. I buy Andrew's products because they are very easy to swallow and there is no stomach upset. I trust the purity of the product. However, beware of people claiming that it cures arthritis pain. It does not do that.	4	10/16/2009 2:16:55 PM
OMG! I THINK I HAVE FINALLY FOUND THE ANSWER!!!	THANK YOU ANDREW. I TRIED THIS PRODUCT WITH SOME HESITATION. I'VE TAKEN ONLY 2 CAPSULES A DAY FOR 2 WEEKS NOW AND I CAN'T BELIEVE THE DIFFERENCE THEY HAVE MADE. I'M 61 AND HAVE ARTHRITIS AND THE PAIN WAS BEGINNING TO SLOW ME DOWN. I CAN NOW MOVE EASIER WITH NO PAIN, WHERE BEFORE I HAD TO STAND FOR A FEW MINUTES BEFORE I COULD TAKE THAT FIRST STEP. MY FRIENDS ARE AMAZED HOW MUCH BETTER I MOVE. IN FACT I JUST ORDERED AN EXTRA BOTTLE FOR MY FRIEND, JANICE. BLESS YOU!!	4	7/30/2009 9:17:29 PM
FEELING NO PAIN	I STARTED TAKING THESE A LITTLE OVER A WEEK AGO, AND AFTER THE FIRST DOSE, THE PAIN IN MY JOINTS SUBSIDED. I KNOW THIS IS NOT A PAIN RELIEVER, BUT IT RELIEVES MY PAIN. DEPENDING ON THE WEATHER, AND THE AMOUNT OF PHYSICAL ACTIVITY, I STILL HAVE SOME DAYS WHERE THERE IS SOME PAIN. BUT IT IS SO MUCH LESS THAN BEFORE. AND BEST OF ALL, ANDREW LESSMAN GLUCOSAMINE CHONDROITIN IS LESS EXPENSIVE THAN MY PREVIOUS BRAND AND EASIER TO SWALLOW, WHICH MAKES IT MORE LIKELY THAT I WILL CONTINUE TO TAKE IT.	4	8/24/2008 8:24:20 PM
THEY WORK THEY REALLY WORK!!!!	I have been working out for almost 20 years, and lately starting to feel pain in my knee joints specially when going up a set of stairs. So i try this vitamins just to see what heppend and they work they really work. I take one capsule with my lunch and by 6p.m. I'm up and running in the Stairmaster. GOOD WORK ANDY!!!!	4	5/28/2007 10:05:14 PM
Agree with the favorable reviews	I've been taking this product for over a year at 2 capsules a day and I must say that I see a huge positive difference between Andrew's product and others I've used. I feel that 2 a day of Andrew's product has stopped degenerative problems in their tracks while other brands may have slowed the progression but didn't stop it. I usually don't do reviews, but felt the need to encourage people to try this product and to share my good results.	4	11/10/2006 3:31:25 PM
Be Patient	I've been taking Andrew Lessman's Glucosamine/Chondroitin for about 2 years. I had a lot of joint pain in my fingers at the time I started. It took about a year before the pain disappeared altogether and I've been pain free since. If you plan to start using glucosamine, you need to give it time. It's not a pain reliever and your joint tissues must regenerate themselves. Andrew Lessman's product is easy to swallow and works great.	4	6/15/2006 8:34:18 PM
Satisfied so far	Only received it a couple of days ago - so my initial thought is its easy to swallow for those of us who cannot take pills easily. No stomach irritation. Feels good and taste good- no awful capsule flavor!	3	1/26/2019 6:13:21 PM
not enough time	Might have been starting to work but had to return within the 30 days. With Some stuff HSN should give more than 39 days	3	6/18/2018 1:41:15 AM

Empty Capsules	Hi Andrew , I have been ordering your products for a while . I have been please however with my last order many of the capsule that this bottle are empty with nothing and I have been throwing then away. I haven't been really happy due to the fact that they not cheap so I have throwing money in the trash. I hope that when ever I purchase your products again it doesn't happen again. Thanks Renea	3	6/16/2018 7:06:39 PM
Still waiting for results	I have been taking these for approx 3 weeks. Havent notice any difference yet. My knees may be too far gone for these supplements to work. Really hoping I see something soon!	3	5/11/2018 9:15:43 PM
Have not Started yet	I have a question; Can I take these pills along with the Vitamin C pills that I just got?	3	4/18/2018 2:55:16 PM
Have not Started yet	I have a question; Can I take these pills along with the Vitamin C pills that I just got?	3	4/18/2018 2:55:15 PM
glucosamine	I thought this product would help my joints but after taking it for a few weeks, I have not noticed a change at all. Sorry, but it did not work for me.	3	3/2/2018 3:26:27 AM
too long of waiting to help with knee issue	Trying a few different products to help with my newly acquired knee pains. Nothing has really helped much, except RX's. trying to get off of RX's. Im not thrilled with 5 capsules for a daily dose. I read the reviews, sounds great though. I grow impatient and need to move on to another product..	3	2/27/2018 3:01:37 AM
Too strong	It was too strong for me, I sent it back	3	2/5/2018 5:27:13 PM
Glucosamine and Chondroitin recommend with caution	I decided with all my health issues not to try this product. did not know D is in the formula. so now cannot take every day and must find another brand without the D....	3	10/26/2017 8:12:04 PM
Uncertain if this really works	Not sure how well this is really working for my husband. I spoke to ProCap labs and they recommend trying additional products. My husband already takes MSN and others.	3	8/4/2017 12:35:58 PM
Pain	So far so good do notice some improvement.....will wait till 2 full weeks before total review ... However no after taste or upset stomach easy shallow caps	3	7/21/2017 1:58:42 PM
Didn't work for me	I love all of Andrew Lessman's vitamins. I take so many and I feel they work for me. Unfortunately, I was diagnosed with an arthritic knee and I thought it would help. It did not. I think it could probably help others though. With the return policy in place, I think people should give it a try and see for themselves.	3	7/20/2017 7:47:32 PM
Too Expensive	Andrew, your products are too expensive! Please lower your prices!	3	5/20/2017 6:00:55 PM
Product is fine.	I do like Andrew Lessman's products. This one, however, seems a replacement of what I can buy at our local superstore for less. Kind of disappointed.	3	9/29/2016 8:09:04 PM
Fairly good	This product does not work right away...you have to keep on using it....I feel the Collagen Powder stuff works far better on achy joints	3	9/4/2016 1:40:11 PM
TO WAIT MORE DAYS TO SEE	MY HUSBAND IS THE ONE THAT IS DRINKING THIS GLUCOSAMINE BUTSTILL HE IS NOT FEELING OKAY.	3	8/9/2016 4:06:55 PM
Just started taking	First time purchase. Waiting to see ifs I can tell a difference.	3	6/12/2016 3:34:42 PM
First time purchase	I just started taking these. So I am still waiting to see if I feel the difference. Hope so.	3	3/27/2016 12:58:54 AM
Joint Repair	I had to return the product as I have trouble swallowing medicine and on viewing the product on air they appeared to be smaller than actual size. Could not swallow.....too large..... so not suitable for me to keep.	3	3/27/2016 12:56:29 AM
Still waiting for the results	These did not do well for me, I did not notice any significant change my joints still hurt.	3	1/28/2016 11:56:50 PM
Didn't notice a change	But they make for someone else. I love Andrews vitamins.	3	12/30/2015 12:53:45 AM
Joint Pain	I started taking this product about 2 years ago because I was starting to experience knee pain. After 2 years the pain is about the same...I can't say if this is helping but I'm afraid to stop for fear it would get worse. I also take about a 1/2 dozen other Lessman supplements that say they help with joint pain, so who knows?	3	11/16/2015 6:32:46 PM
No difference	I didn't see any difference, ordered two large 600 caps and was told I have to take a few weeks to see any difference which was too late to return. I take just about all Andrews vitamins and supplements but this one doesnt do anything for me.	3	10/23/2015 4:00:52 PM

Carol	I have been taking the proper amount and do not see a difference. I will continue to take them and see if they help. I will rate this as average and still give it a chance.	3	8/9/2014 12:24:35 PM
Works well...	Works well when you need to stand on your feet for hours..	3	7/16/2014 2:28:35 PM
LOVE	Love Andrew Lessman's vitamins. Trying a few at a time due to stomach sensitivity. So far so good except the Omega 3 does indeed have a bit of a fishy, lingering burp taste. :(3	7/7/2014 9:13:51 PM
unsure	Have used product a week or so. Take 4 throughout the day. Hsve not felt any difference as of yet. Will have to cintinue	3	5/15/2014 5:20:34 PM
Not sure...	I didn't realize that Andrew recommended taking 4 or 5 capsules per day. I manage about 2, and then forget about it, so I can't say that I have noticed any change in my joint pain. Maybe it takes a little longer that a few weeks to work.Will try to be more diligent & see what happens.	3	2/10/2014 3:43:56 PM
Hopeful!!!	Will be taking the 5 pills a day for at least 3 wks and at the end of that time, will see if the joints have improved, or just a waste of money. Do not like taking 5, one or 2 wouldn't be so bad.	3	1/31/2014 2:33:56 PM
This really works	I noticed I started having stiff joints especially in the A.M. and throughout the day if I sat for long periods of time. I started using this product and within 2 weeks I havent noticed it anymore. I feel so much better. Glucosamine Chondroitin is good stuff.	3	7/24/2013 1:57:01 PM
Dissapointed	The product is very good, but I would prefer taking no more than two a day to get the recommended dose. 5 is just to many,	3	4/28/2013 11:49:59 PM
Not sure	It looks like I did not listen to all information presented during the show and missed the fact that this product has to be taken 5 times a day. That is alot almost a meal. I just started taking it so it would be hard to validate the product but the fact that I have to take 5 capsules a day is an issue for me.	3	2/4/2013 2:37:19 PM
To many	5 pills a day is just to much. I have many of his others but not impressed with these.	3	8/23/2012 8:28:10 PM
Okay, I guess!	I like these but haven't noticed anything different than cheaper one's. These are too expensive, so will go back to taking two a day of other cheaper one's. So sorry tho.	3	8/12/2012 2:18:23 PM
Knees ache	I had been taking Move-Free for Glucosamine/Chondrotin until I started taking these. I was surprised that it said to take five of them a day. My wrists started to hurt in addition to my knee that I had been taking other product for years. I am back on other product although my bottle still has some capsules in it. I had thought capsules would worl better than tablets. Everyone is different so other people may have a good reaction.	3	4/29/2012 10:03:55 AM
Hoping	Too early to tell, really, but I expect these to help I've used the ingredients before. Wanted to comment to say that 5 capsules is too many to have to take each day and makes this formulation quite expensive, actually.	3	1/20/2012 8:14:40 PM
I love his products, but ...	feel it didn't make too much difference with my back pain.	3	9/17/2011 11:35:18 PM
Works well but very pricey!	Hey Andrew! i would rather swallow a large pill than pay \$99.00 for a three month supply of soft capsules.	3	8/6/2011 8:12:38 PM
good joints	these are ok. I didn't really have a bad joint problem to begin with but thought I would try them any way. Not good for me now but If I ever have a bad joint problem I'll have these ready.	3	12/21/2010 3:52:41 PM
Think I like w/o chondition better	I just the the formalula better. Maybe my body didn't really need the chondition. I do like most all Andrew's vitiams and minerals. No stomach ypsset or bleching. Thanks Andrew and HSN!	3	7/18/2010 2:48:07 PM
Not for me	Originally, I bought the smallest bottle of the Glu/Chon capsules to try them. Nothing bad happened, so I tried the larger size. I'm sure people who can tolerate it would do well, but they upset my stomach, even when I just take one and my pain is not eased, even up to four. The first bottle was just 30 days so I thought I'd give it more time, but I've actually gotten progressively worse in terms of pain and nausea.	3	6/18/2010 2:34:25 PM
OKAY SO FAR	The capsules ae easy to swallow with no ill effects. Have not used these long enough to comment on their effectiveness.	3	5/19/2010 8:48:53 PM

Tried the product	Andrews' products are good but sometimes I cannot afford them. Usually you have to take a few a day and the bottle empties quick.	3	5/19/2010 7:05:44 PM
easy to swallow	I ordered glucosamine on the advice of my orthopedic surgeon. He stated that it would slow down the decay of the cartilage in my right knee where I have severe arthritis. He said it would help for that but not for the pain. I have been taking this product for a long time. It is very easy to swallow, just as Andrew says. That is worth a lot right there. However, over the past few months I have noticed no change in the level of pain. When the weather gets cold, my pain increases. In any case, I continue to take this produce per the doctor's instructions to stop the loss of cartilage but it hasn't helped at all with the pain.	3	12/16/2009 3:19:48 PM
Glucosamine	I have used this product faithfully for 3 weeks and I really see no difference in my joints. I still have horrible joint pain. I am trying one full bottle 180 tabs hoping I will see a difference, but I have my doubts.	3	11/10/2009 3:47:46 AM
supplements	The information on tv was very inviting to my arthritis ailment. I tried these and probably didn't allow enough time to know if they work because couldn't stomach the capsule with the powder in them. I would prefer caplet form tablet..	3	10/23/2009 1:43:17 PM
NO BIGGIE	I take Andrew's glucosamine upon my doctor's recommendation. I decided to try this because of the claims that pain disappeared. I have seen no difference so I will not reorder.	3	10/5/2009 10:15:40 PM
Good but too expensive...	I really like this product i purchased my first bottle the last time Andrew had his great Today's Special Value of the Hair Skin and Nails, so I have been taking 5 capsules of the Glucosamine Chondroitin like Andrew recommended and i have really seen a difference in my leg joints but I don't think i'll be able to reorder these cause they are too expensive. Love the product Andrew but please figure out a way to lower the price.	3	1/6/2007 4:49:42 PM
better than the store's	I gave this product a three because I'm not sure if it works. However, I believe in it. Besides, it's a whole lot better than the one you get at the health food store. I have a bottle from my local store and I stopped taking it. Believe me it wasn't cheap either! Thing is, the pills from the store are huge. I don't know how anyone can take them without choking. Andrew's is much better. People tell me that if I continue to use glucosamine plus chondroitin for a long time, I will see a difference. I'm hoping!	3	7/2/2005 1:05:45 PM
Aches Occured	I started using this less than 1 month ago and I have more aches now then before. I felt great before taking this and slowly started feeling aches and pains once I started taking this. I didn't connect the 2 until about a week ago. This is going back. Glad it seems to work for some but this had a reverse effect on me.	2	2/19/2019 11:31:55 AM
Glucosamine	Did not work	2	11/10/2018 12:34:32 AM
Serving Size is Wacky	I started taking 2/day of these pills per day because the other supplements I take from the same brand are all 2 per serving size. These are actually 4 pills per serving size, so a 60 pill bottle is only a 15 day supply. Who wants to take 4 pills a day? Not me!	2	9/18/2018 3:12:54 AM
No change	I don't see any changes	2	6/22/2018 1:22:12 AM
Has not worked for me.	The product did not work for me , so I have gone back to my ph balancer in stead.	2	3/8/2018 5:35:48 PM
side effects	was really hoping to like this product but it gave me a bad stomach reaction. sorry had to return. perhaps it will work well for others, but not for me.	2	2/1/2018 7:40:18 PM
Waste of Money	I tried this item hoping that it would help a little, but after all 60 capsules were used I could actually say that these tablets never helped me at all. its like any of these products you pay a lot of money hoping that something will help and it never does. Good Luck if you want to try them.	2	10/23/2017 8:14:36 PM
Glucosamine with Chondroitin	I took the max, but still experienced pain.	2	9/29/2016 7:36:54 PM
Hard on stomach	This did help with my joints and stiffness , but really was hard on my stomach. I had to stop taking it because my stomach hurt constantly .	2	9/25/2016 2:33:30 PM

Love Andrew's products, this one just not for me	This may work well for others, however I cannot tolerate it. I suffered terrible stomach cramps, bloating, headaches and constipation right away. I love his "Ultimate Calcium Intensive Care" and "Turmeric-400 Curcumin" and take those 2 products everyday and will forever. I know most people aren't sensitive to this product, so I wish them well. I think Andrew Lessman products are the best supplements on the market and his environmentally friendly manufacturing process can't be beat!	2	2/14/2016 1:03:20 AM
just doesn't seem to do a bit of good.	I am a big fan of Andrew Lessman. This supplement doesn't seem to do any good.Maybe it is. I can not tell.	2	10/19/2015 3:57:52 PM
disappointed	I took this religiously for a month. Figured maybe I had to get it into my system. I never found any relief from my back, or knees or any arthritic areas. I am very disappointed. What am I going to do with the remainder?	2	7/18/2015 2:51:28 PM
NO CHANGE	I wanted to believe this would help with my stiff joints but I don't see any change at all	2	7/17/2015 8:14:49 PM
FELL SHORT OF EXPECTATIONS	Having heard so much good about this brand, I thought I'd give this joint supplement a try. The special pricing and free shipping was also attractive.For years, I have been taking a similar joint supplement purchased at my local drug store with good results. Once I finished my last round, I started Andrew Lessman's Glucosamine With Chondroitin. Within a few days, I was feeling my knee joints more than I have in a long time. I stopped taking it and went back to my drug store brand and the joints are back to normal.I most likely will not finish the bottle of Lessman's Glucosamine With Chondroitin.	2	3/3/2015 6:26:23 PM
Upset my stomach!	I was so excited about trying these as I heard they are awesome but they really upset my stomach even with food.	2	2/23/2015 5:32:14 PM
Probably a good Product	I read many of the reviews and decided to order this but didn't check with my doctor like it suggests. I had a reaction and unfortunately had to send the product back. I'm sure it would have been very good otherwise.	2	2/21/2015 10:26:10 PM
Good stuff	Husband likes this. All of this line is pretty awesome.	2	2/1/2015 4:56:02 PM
Not sure	As with all his products I do not think they are that great. They are certainly not worth the expensive price. I really wish I would have sent back.	2	8/11/2014 12:28:06 PM
Poor quality control	I am only 5 days into my new bottle taking the daily recommended dosing. I have had 5 empty capsules in my bottle thus far. While this product is very good, it is too pricey to have so many empty capsules included. Will not purchase again.	2	4/27/2014 1:23:23 PM
Still out	I don't notice anything with this, not sure what or why.	2	4/10/2014 4:40:48 PM
works but	taking 5 a day is too costly for me	2	1/31/2014 4:54:03 PM
They work	My biggest issue with all your pills is that the capsules are hard to swallow no matter how much water I take. Could you do a liquid version of the pills on the ones that you have to take more than 3 to get results?	2	12/27/2013 8:49:56 PM
Joints	Well I have noticed after having to take 5 of these a day, which is a lot for me to have to take that I have not seen much of a difference in my joints. My joints still ache.	2	11/1/2013 9:46:51 AM
not working for me	I have taken these as directed, 5 per day with food, but have not noticed any difference, with the exception of "breaking out" on my forehead. Now that I have stopped and returned these, the breakout has gone away. I know others have had good results and with them continued success with these.	2	8/8/2013 5:17:30 PM
Jury is still out.	I've been taking these for a month no change in joints but will keep up with it until all gone.	2	9/5/2012 1:11:40 PM
Undecided...	My arthritis flares up and calms down from day to day. At first, I thought this product was working and then after a horrible flare up of arthritis in my hip and knees in which I could barely walk, I realized it probably wasn't. From reading the other reviews, I would still try this product because it might work for you and I hope it does!	2	8/29/2012 7:28:50 PM
Waiting for some results	I have been using this product for almost a month and I haven't seen any results.My knees still ache but I am willing to give it a little more time. Hopefully soon I will have less pain. Only time will tell.	2	8/16/2012 12:19:02 AM

No real results...	Okay, I know some have had some great results but I got this for my husband and practically "forced" him to take the full amount and he just said that he can't tell any difference. I made him use up the entire bottle and he just said for me to save my money and buy more shoes or something. I believe in it...would have loved to see him try it for like 3 months, but no go. So, maybe it doesn't work for everyone? Sorry Andrew...I feel so bad.	2	5/26/2012 12:55:27 PM
Good but...	Having ordered this product before, I realized upon receipt, that I had apparently previously ordered a different version. Why? The recommended dosage is 5 pills per day. My mistake!	2	2/13/2012 9:14:11 AM
Disappointed	I've been using this for a month now and haven't noticed any difference, it almost seems like its gotten worse. Won't be getting anymore	2	11/26/2011 9:37:15 PM
Not much difference...	I can't tell any difference between this brand and over the counter ones.	2	3/19/2011 3:17:22 AM
Results not as Expected	My husband is taking these capsules as directed, but has not noticed any improvements whatsoever. Too costly and no results.	2	1/17/2011 12:07:32 AM
Feel No Difference and Also Too Expensive!	Both my husband and I have been taking this product. Neither of us have any major joint issues although we're both in our early 60's. We have not noticed any difference, but we do both agree that having to take 5 capsules a day is just too much and not at all economical even with the 600 count jar. May not re-order.	2	1/10/2011 5:27:31 AM
Hmmm... On the fence	I purchased the med. size and have been taking these for the last few months. I am confused about the data suggesting this product is "not effective". I do not notice a difference, and do have joint discomfort. However, my vet did say these are great for older dogs to sprinkle on their food. I must say 2 dogs have appeared to benefit.	2	1/8/2011 11:40:47 AM
Not my favorite	Normally I love Andrew's Vitamin's	2	11/18/2010 9:55:23 AM
ZERO DIFFERENCE	I have been taking for 4 months now and I see absolutely no difference in joint pain.	2	10/10/2009 3:56:39 PM
Had Side Effects	Tried taking this product for a week. From day one experienced dizziness problems and overall did not feel well. Problems went away as soon as I quit taking it.	2	7/28/2009 1:20:03 PM
Not my Joint Effort!	I have a back problem and in about 2-3 weeks of taking Joint Effort, my back problems were greatly diminished and I didn't have so much as a tinge. These pills don't seem to be doing anything for me though. I wake up with a cranky lower back all the time. I have researched exactly what the difference is between this product and Joint Effort but I will definitely go back to Joint Effort.	2	1/5/2007 2:03:37 AM
Two Is Not Enough	To get the minimum recommended dosage of most health professionals, you need to take at least five capsules of this product a day. If you take only two capsules, like the bottle suggests, you are getting less than half of that. Even Andrew, when presenting this product, suggests taking at least five capsules per day. Taking five capsules per day is quite an expensive proposition, even when it is on sale. If Andrew would put this product in liquid form, make a daily dosage equal to five or more capsules, and lower the price, it would be worthwhile taking. As it is now, two capsules a day is just not enough to make a difference.	2	6/6/2006 7:56:31 PM
No results	I ordered this product with the hope that it would help my aching joints so far it has not I took the entire bottle of 180 capsules with no result. I am assuming that most glucosamine with chondroitin products are the same and it's not Andrews formulation.	1	7/1/2019 12:19:14 PM
Andrew lessman vitamins	I take 17 different Andrew Lessman vitamins. I am going to discontinue because he does not offer enough flex pays. Sometimes I buy the small dose with no flex pay because the larger dose bottle, that I prefer to buy, has only 2 flex pays. I don't know of another vender at HSN that operates like Andrew. I may as well go to my local health food store.	1	5/26/2019 12:08:12 PM
Disappointed	First, I'm not taking 5 capsules a day. Second, I took two a day and noticed water retention while taking them. Returning.	1	3/22/2019 12:17:46 PM

Glucosamine Chondroitin	Unfortunately, I had to return this product still waiting for refund in print on label states product made from shellfish!!!.	1	2/17/2019 9:46:25 PM
Mixed Thinking	I think the product is working, but I have found EMPTY CAPSULES and OPEN CAPSULES in the bottle! How can that happen? Doubt I will order again, that's poor quality control!	1	2/11/2019 3:54:09 PM
Misleading Advertising	You must take 4 capsules in order to get the 1500/1200mg Glucosamine/Chondroitin dose this product is advertised to contain. Each capsule is actually 375/300mg Glucosamine/Chondroitin. That mean 480 capsule bottle only lasts around 3 1/2 months. I didn't hear Andrew or HSN hosts mention that. I Love Andrew & spend well over \$1000 a year on his products, but the advertising on this product is very misleading. Won't be reordering this. Shame on Andrew & HSN.	1	1/29/2019 3:23:41 AM
After Effects	I started taking these and in two weeks my hair started to fall out. Quit taking them and my hair quit falling out. NOT for me.	1	11/2/2018 3:48:49 PM
IT WORKS!	I recieved my Glucosamine & Chondroitin 480 capsules 10/11/18 and took my 4 capsules that day. It's now 9 days later and WOW..do I feel pain free. I had pain in my shoulder and elbow, couldn't lift shoulder without pain and elbow wore a sleeve. I'm now waiting for my Marine Collagen Peptides 240 capsules. Please try this product ..IT WORKS!! Thank you..Andrew.	1	10/20/2018 2:45:10 PM
SCAM	Ok, so for \$130 you receive 720 capsules. Sounds great, right? Wrong, HONEY! The daily recommended dosage is 4 daily capsules! Lessman and that Colleen girl failed to mention that! Oh, and my physical therapist thinks this product is a JOKE. I am on a fixed income with not a lot of money to spend. I am outraged that HSN would endorse this product and flat out LIE. I am glad you people were acquired by QVC! GOOD LUCK WITH THE LAY OFFS	1	7/21/2018 9:41:34 AM
SIDE EFFECTS	I love Andrew Lessmans products but this Glucosamine and Chondroitin gave me a terrible headache. As soon as I stopped taking it my headaches were gone. Sent them back.	1	7/20/2018 2:23:16 PM
HOW COME SO MANY?	Daughter was the one who alerted me that you have to take 4 capsules to reach 1500 Glucosamine and 1200 Chondroitin when I used to take ONE to reach that level. Are you becoming GREEDY!!! Who wants to take 4 caps when One was enough! I do not need all the things you add as I am already taking them. I am a long time customer and can not believe what you are doing!	1	7/10/2018 5:50:47 PM
No...	Waited a month before writing a review. These didnt work for me. Too late to return, and too expensive.	1	6/3/2018 4:17:09 AM
Disappointed	I purchased this after reading positive reviews. I took four a day but didn't notice any relief for my joint pain. And there were four empty/ broken capsules. Didn't notice them till almost done with bottle. Loose powder was at bottom of bottle. I take other supplements from Andrew but will not get these again.	1	5/16/2018 10:59:19 PM
Did Not Help	I was hoping this product would help with my stiff joints, but it was a complete waste of money for me. Glucosamine and Chondroitin has lots of good reviews, but, I cannot give it one. It was an expensive test I took hoping to receive joint issues relief.	1	3/8/2018 1:13:47 PM
Got Shellfish Allergies "Beware"	I'm returning this item because it contains an ingredient derived, purified, and refined from the shells of shellfish(shrimp, crab, and crawfish).	1	3/2/2018 5:20:57 AM
capsules	Should have sent this back! Many of the capsules were broken and I did not feel any difference even though I finished the bottle. Very expensive!!	1	2/16/2018 3:37:08 PM

SHELL FISH AND SHELLS IN THIS!	I am very upset and sad that you have shells of shellfish (shrimp, crab, and crawfish) in this product and you did not let us know. I am very allergic to anything from the sea and any kind of fish. I did not see that on the label and took them! My fault for not looking first but I have never hear this talked about I had an allergic reaction and have to send them back. I have osteoporosis and bad joints and circulation issues. I could really use something like this but without any kind of fish can you help me? I use many of your product and have really loved them all but I can not use this one. Thank you	1	2/7/2018 2:57:07 AM
Adverse reaction	Will be returning product after taking only two capsules. Product escalated blood pressure.	1	12/1/2017 4:33:09 PM
Do not recommend	I cannot use this product at all. Caused terrible bruising and joint pain in my feet, legs and arms. Threw them in the trash.	1	8/29/2017 4:09:40 AM
Zero help!	I really believed I would see some relief in my aching neck, and fingers...but absolutely no help at all. I had taken another brand and felt a little better, so this time I figured Andrews would work even better...WRONG! Sorry I bought 2 bottles of this so I could give it time to kick in...Mistake! Seems none of Andrews products work for me. This is the 4th product I've tried...never again.	1	5/11/2017 5:41:57 PM
stomach issues	I waited too long to return these. I get an upset stomach every time I take them. I tried to get a credit, or something, but no luck. Beware of taking these, if you have stomach problems. In the trash they go, darn it. A waste of a lot of money!!!!!!	1	4/1/2017 10:16:48 PM
No results felt	I have felt no results from taking 4 of these capsules daily. Will not reorder.	1	1/29/2017 6:47:45 PM
Won't be buying any longer	Not worth it. Will buy another brand.	1	1/23/2017 12:15:23 AM
no change	I ordered these based on the great reviews. I have arthritis in my spine but I wouldn't consider it to be terrible. I thought that maybe these would help based on the glowing reviews. I have been taking them for almost the entire month since I received them & I have not noticed one single difference in how I feel. I wish they had been better, even just a little better, but I don't see what all the raving is about. I just wasted \$30. for absolutely nothing.	1	2/11/2016 6:24:46 PM
Hives!	I take many of Andrews vitamins, but this gave me hives! Not sure why, but tried it twice and each time I was covered in large red hives. I noticed it has shellfish but I have never been allergic to it. If you are, beware of the ingredients! Will continue taking and buying all other Andrew Lessman products!	1	11/14/2015 8:35:54 PM
Contains Shellfish, not for me	Was not made obvious in presentation this product contains shellfish. Not for me. After 2 caps broke out in itching all over my body. I wished I could have used it, but alas not for me.	1	2/20/2015 7:58:19 PM
Stomach Problems And Headaches	I was anxious to receive my order, it was not delivered as stated. I called the branch and spoke with the manager, the next day I received the package. I immediately took 2 pills on Saturday. Within a few hours I started to have horrible stomach cramps, headaches. I am returning these as I have been ill every day since.	1	11/20/2014 9:04:00 PM
Returned...	I ordered 4 AL products at the same time, and I have narrowed down that at least two of them could be responsible for me "suddenly" experiencing a rapid resting heartbeat every time I take the supplements. I decided to return everything for safety's sake and because the cost is prohibitive for me. I am not slamming AL's products. Anyone can have a unique reaction, but I Googled the possibility and it was confirmed by a reputable medical site. This was my experience.	1	10/22/2014 4:10:25 AM
Not for me...	Had to send back. Too many to take (5) daily and gave me stomach aches...	1	2/10/2014 6:40:10 PM
Lessman	I sent the order back . I did not see anywhere on the ordering where you had to rake 5 tablets to equal the 1500 . I won't about to take that many when the a other brands that are only 1 tablet .Revise your formula to consume less .	1	2/1/2014 2:56:38 AM
5 a day	Not worth the price, advertise the fact that you have to take five a day	1	1/31/2014 12:13:33 PM

Disappointed	While I haven't been taking them long enough to review results, I am disappointed that the daily dose is 5 capsules a day when I've been taking only 2 a day of another brand for the same amount of benefit at a MUCH lower cost. The cost at 5 capsules a day is too high for me. I will not buy this again. While I did watch the presentation on this product, I did not hear the daily dosage mentioned.	1	1/30/2014 5:55:51 PM
Did not like	Had discomfort in legs after use. Returned the product	1	1/10/2014 1:14:23 AM
major stomach upset	Would like to like these but they cause stomach upset that I can't get past.	1	11/9/2013 8:23:04 PM
Stomach upset	5 pills a day! Well, they are literally easier to swallow than the brand we used to take, but we also have noticed a problem with stomach upset .Also, when you break it down to 5 pills a day, a 600 bottle isn't such a great deal afterall! Too costly, doesn't seem to do any better than our brand before and cannot ignore the stomach issues. Did try to just take smaller dosage,but still had a reaction. Love your leg and vein supplement, though. But this one's coming back.Sorry.	1	10/25/2013 2:34:28 PM
disappointed	I bought this product based on the reviews, but after one week my joints seem to be in more pain then when I started taking the vitamins; went on the recommendation of 5 caps per day, so then I reduced them to 3 caps per day, that maybe it was too much, no luck. The funny thing was that the joints described on the bottle that it track was not off, those 3 joints seen on the cover of the bottle are exactly the once that hurt the most since I started taking the capsules, I ordered the 600 had to send them back, just not for me.	1	8/11/2013 9:58:59 PM
Failure	Have used this product for some time. This shipment must be different. It hurt me . I returned it. Sorry Andrew	1	5/30/2013 1:38:18 PM
horrible for my stomach	The claims of this and all of Andrew's formulations being safe for even sensitive stomachs is sadly just not true. I felt absolutely horrible while trying to survive a week on this formulation. I'm sure it does what is promises and is a good product if your stomach can handle it, but it simply is not an option for me.	1	10/29/2012 3:48:56 PM
Not the same, as bfore.	I have used these capsules before when you took two a day, and they worked well. But this new bottle of capsules says to take 5 a day and they still are not working for me at all. And I have been taking them for many weeks now. What's up Andrew?	1	8/28/2012 9:05:23 PM
Ortho specialist says dont use	Well I bought this for my husband thinking it might help his knee pain, I told him to take it to his appt to see the Ortho surgeon and guess what the Dr said its a waste of money. This is an Ortho Specialist that has been published in books and who helped create a special knee replacement device so he knows his stuff, he said he has never seen any improvement with any of his patients who say they take any kind of Glucosomine, even this pricey stuff, exercise and ibuprofen is what he recommends.	1	8/1/2012 12:02:46 AM
come on 5 tablets a day?	Too many tablets a day for 60.00 when i can buy same amount for 40.00 the same glucosamine and chondroitin sulfate at the health store... MY BAD	1	7/20/2012 3:56:49 PM
Use With Caution...	When I first received this product I was surprised at the amount of recommended dosage..5 caplets a day. These caplets are large and I thought 5 was a bit much. The first bottle I used up quickly taking 5 caplets per day. After about 5 weeks I started experiencing severe bloating and other gastric issues. I was contemplating go to the ER when I realized my problems were due to this product. I have stopped taking the product, feeling much better and sending the remaining amount back.	1	3/1/2012 4:17:57 AM
HAVE A REACTION	TOO MANY CAPSULES PER DOSAGE AND I HAVE A VERY BAD HEADACHE AFTER TAKING THEAE CAPSULES SO I HAVE TO SEND IT BACK.	1	2/13/2012 9:06:55 PM
Adverse Reaction	Item was returned. Experienced adverse reaction when taking multiple types of vitamins from this brand name.	1	2/4/2012 12:38:52 AM
Not so great	I use many of Andrew's supplements but this one doesn't seem to do anything.	1	10/25/2011 2:41:29 AM

5 PILLS A DAY??	WOW, WHEN I ORDERED THIS ITEM FOR MY WIFE I WAS THINKING THAT THIS WAS A GOOD BARGAIN AT \$99.00 BUT WHEN I GOT THEM AND SAW THAT THE DAILY DOSAGE WAS 5 PILLS I COULD NOT BELIEVE IT! I THOUGHT WE WOULD TRY IT THINKING THAT THE DAILY DOSAGE ON THE BRAND THAT WE USUALLY GET IS 2 PILLS THIS SHOULD BE ABOUT THE SAME.....FORGET IT. UNLESS YOUR RICH AND CAN AFFORD \$\$\$ FOR THIS AND THEN \$\$\$ FOR THE MULTIPLE...I CAN'T. SADLY I AM NOT RICH. SO BACK TO COSTCO FOR MY MEDS AND THIS IS GOING BACK TO HSN AND ANDREW. I TAKE MY HEALTH SERIOUSLY BUT I ALSO TAKE MY WALLET SERIOUSLY AS WELL.	1	1/13/2011 6:57:10 AM
Didn't do anything for me	I bought these to help with hip and joint issues and after taking them for a month, I don't notice any difference. They are expensive for the # of pills you have to take per day but I took them and still nothing.	1	12/1/2010 3:06:13 PM
Not worth the price!	After taking this product for a month, I was not satisfied with the results. I will be going back to a different brand that I used before that was GlucosamineHCl, Chondroitin and MSM. For me, the GlucosamineHCl seems to work better than the sulfate form at a fraction of the price that Andrew is charging.	1	11/19/2010 2:56:46 PM
Watch for side effects	I love Andrew's products but I this one is not for me. Every time I take this product I experiencing difficulty breathing, closing of my throat and headache and etc. Stop taking for a couple days and did not experiencing these things. Hoping that lower dosages (2 capsules) will make a difference I decided to give another try but again experiencing the same side effects.	1	11/7/2010 10:37:54 PM
Too expensive	Take five capsules a day! Makes this too expensive to use... Maybe they are easier on the stomach and easier to swallow, but in today's economy five capsules a day make this way too expensive, it isn't competitive in the vitamin and supplement category at all!	1	10/28/2010 10:17:05 AM
too expensive	it's annoying and expensive to have to take five capsules a day. serving size was changed without notice, making this too expensive!	1	10/18/2010 12:57:40 PM
Disappointed ...	I gave these about a month before reviewing. Sorry to say they don't work as well as OTC Glucosamine/Chondroitin. Started noticing that familiar old pain after only a few days, and in new places, too. So, I'm back to my drug store G/C. Will be returning to HSN.	1	11/8/2009 3:49:24 PM
No difference	Not happy with product, and nothing was achieved using Chondroitin. Better off with just the glucosamine. Even my Dr said it was just a gimmick, no pill can do what is promised with this. Gave it a fair shot, returning today!	1	10/29/2009 5:12:05 PM
Headaches Be Gone!	I took two caplets a day for about a week. I noticed that my energy level was dropping and I had a slight headache everyday. It finally went into a full blown migraine (which, I don't usually get). I stopped taking the caplets and my energy level is back up and I have no more headaches. I will be returning this product! I don't like feeling tired, run down and could do without the headaches!	1	12/8/2006 10:05:27 PM
Weird reactions to this...	Have been taking them for a week and no noticable difference in my hip pain. Will continue to use bottle completely but...I've noticed within the first hour of taking them they affect my thinking and concentration and I wasn't even able to hold a conversation with my kids properly for an hour or so. This worries me and I'll continue to monitor this but be careful...	1	11/14/2006 12:19:08 PM

Little Bang for the Buck	<p>This product is probably an excellent supplement for cartilage and joint support when taken in heavy doses. The problem is, to get the minimum dosage that most manufacturers recommend, you need to take at least 5 capsules a day! Even Andrew admits when talking about this product on HSN that you really should consider taking at least 5 capsules daily to benefit, whereas the bottle says to take "two or more capsules daily." Unfortunately, taking 5 capsules daily costs me approximately \$1.40 per day when you include tax and shipping, and I got mine on sale! That works out to approximately \$42 per month for a supplement that will last me for 72 days. In my opinion, that is too high of a price to pay for a supplement that I have not noticed any difference in how I feel. Andrew, how about making this product in liquid form and making just one dose supply the equivalent potency of 5 or more capsules and, of course, reduce the price?</p>	1	6/1/2006 6:03:50 PM
