---

1. Open Internet Explorer (or another internet browser), and in the Address field type: <https://bendpak.egnyte.com/>. The following screen will appear.

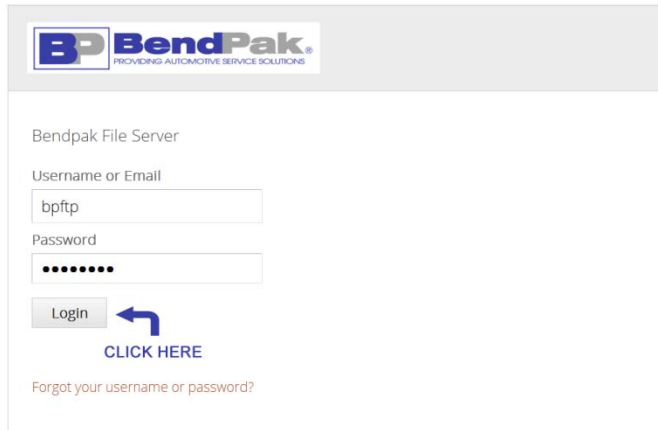

2. The Login Username ID is: **bpftp** (case sensitive).

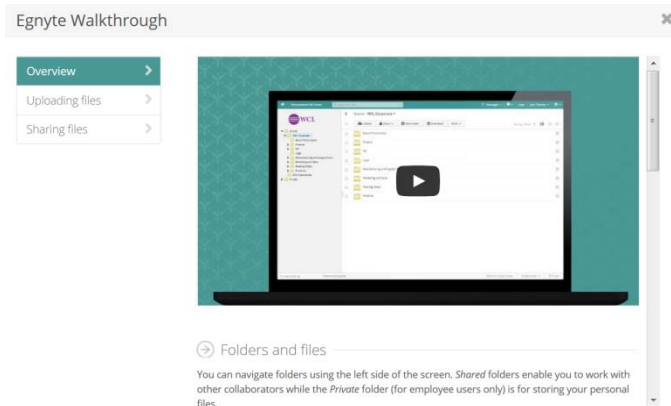

3. The Password is: **Bendpak1** (case sensitive). NOTE: **DO NOT** copy and paste the password shown left. You **MUST** type as shown.

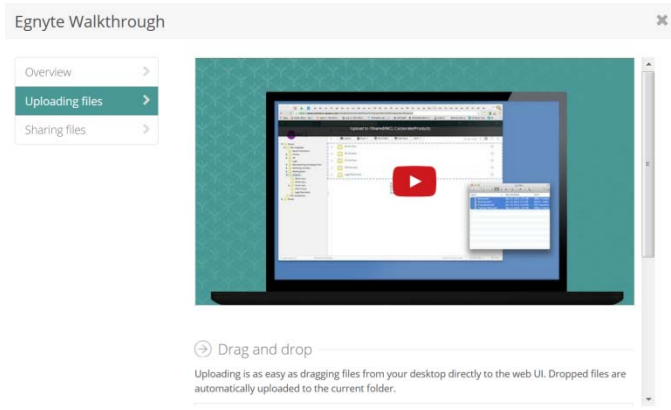

4. Click the "Login" button

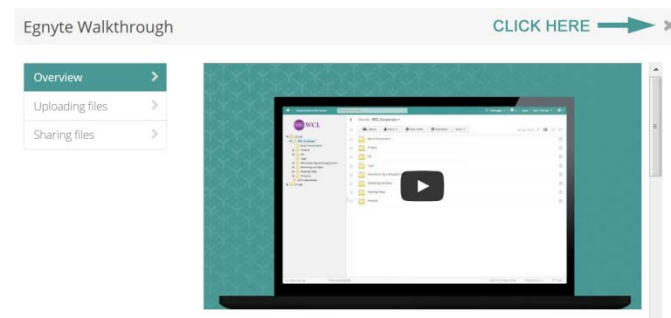

5. When the FTP site opens, you may see a tutorial screen like shown below.

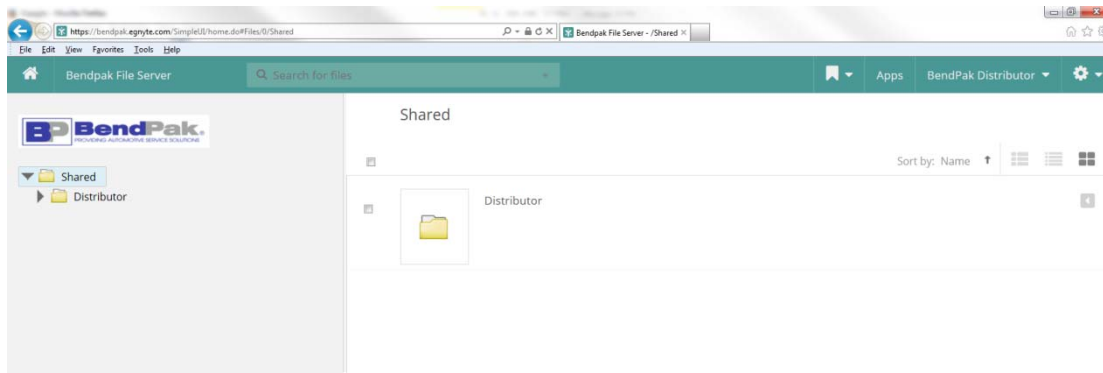

6. Feel free to browse through some of the tutorials...

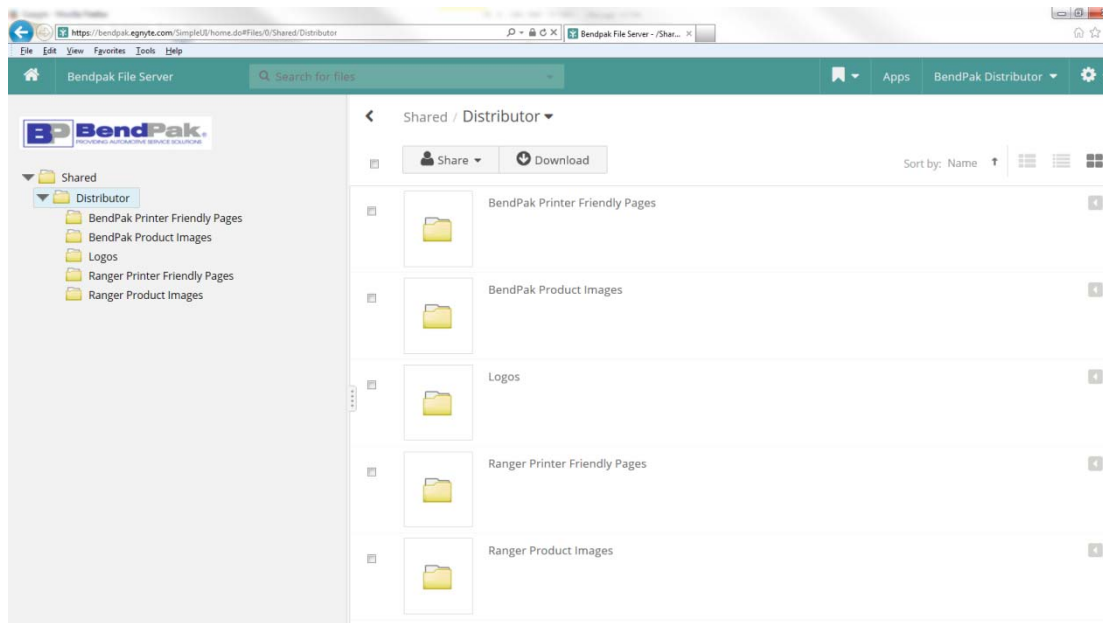

7. ...or simply skip this step by clicking on the **X** in the upper right.

8. When the FTP site opens, you will have the option of accessing files in the Shared main folder.

9. Make your choice and then double-click on that folder.

10. Highlight the file you want to download then roll your mouse pointer over the Options button to reveal a menu of file savings/sending options. Save your file to your local drive or a shared drive.
