Special Features

Edge Cleaner

Active brush edge cleaners are on both sides of either electric brush. Guide either side of the brush along base boards or next to furniture to help remove dirt trapped at carpet edges.

Overload Protector

The overload protector protects the motor from brush jamming and belt breakage. If the brush stops, the overload protector will stop the electric brush.

To correct problem:

Unplug the electrical cord. Check brush area for excessive lint buildup or jamming.

To reset:

Press reset button on top of the brush. Plug in and turn on vacuum and brush.

Wand Release

CT-12DX Electric Brush (Wand Release)

Insert wands into CT-12DX. Snap wand button into place. Turn wand button past the stop position. This slotted area allows you to turn the handle to the side to reach farther under furniture.

Electric Brush Use

How to start.

CT-12DX:

- 1) To lower wands hold CT-12DX down with foot and pull back on wands.
- 2) Start vacuum and electric brush.

Change Pile Settings:

Select a pile height setting by rotating the pile height control on the CT-12DX Electric Brush.

The pile height setting is shown on the control. The deeper the pile of the carpet, the higher the setting.

Suggested pile height settings:

For best deep down cleaning, use the **XLO** setting. However you may need to raise the height to make some jobs easier.

As a general guide:

XLO — most carpet heights

LO — short to medium pile

MED — medium to long pile

HI — shag and long pile

CT-12DX Electric Brush Care

WARNING

Electric Shock Hazard

Disconnect electrical supply before servicing or cleaning the unit. Failure to do so could result in electrical shock or personal injury.

Light Changing

CT-12DX Electric Brush:

- 1) Remove light cover by pressing in and lifting both sides as shown.

- 2) Push in and turn bulb to remove.

- 3) Replace bulb and snap light cover in place. Note: replacement bulb number is EB21016.

CT-12DX Electric Brush Care

Belt Changing and Brush Cleaning

CT-12DX Electric Brush:

Disconnect hose and brush from electrical outlet.

Frequently check and remove hair, string and lint buildup in the CT-12DX brush area. If buildup becomes excessive, disconnect the CT-12DX from wand and follow steps below.

To Remove:

- 1) Raise the pile height adjustment rollers. Remove the two cover screws from the CT-12DX base.

- 2) Insert and twist flat screw-driver under both back cover tabs.

- 3) Turn the CT-12DX right side up. Tilt cover forward from back until front snaps free.

- 4) Carefully insert and lift screwdriver at each brush support to free brush from base.

- 5) Remove belt from motor shaft.

- 6) Remove broken or worn belt.

- 7) Slide brush supports off to check and clean brush support areas. See *CT-12DX Brush Assembly* for picture of complete brush.

CT-12DX Electric Brush Care

To Replace:

- 1) Slide on washers and brush supports.

- 2) Install new belt in belt groove on the brush assembly, then over motor shaft as shown.
Note: replacement belt number is EB21010.

- 3) Insert both front support tabs into base slots.
Then snap brush supports into place.

- 4) Line up tabs on front of base with slots inside the cover front.

- 5) Tilt cover to back. Press cover firmly until rear tabs snap into place. Turn CT-12DX over, replace cover screws and lower the pileheight adjustment rollers into place.

CT-12DX Brush Servicing

Disconnect hose and brush from electrical outlet and disconnect CT-12DX from wand so brush will not operate while being serviced.

To Check:

When brush is worn to the level of the base support bars, replace the brush.

Base Support Bar

To Replace:

Remove light cover, CT-12DX cover, belt and brush assembly (follow "to remove" section in *Belt Changing and Brush Cleaning*).

- 1) Remove brush support and washers from brush assembly.
- 2) Remove brush assembly and replace with new brush.
- 3) Reassemble brush assembly.
- 4) Replace belt, brush assembly, CT-12DX cover.

CT-12DX Brush Assembly

Limited Warranty

The CT-DX12 is warranted against defects in material and workmanship for a period of one (1) year. This warranty covers brushes used for household purposes only, provided all guidelines in this manual are followed. This warranty is limited to the replacement of the defective part, the cost of shipping shall be incurred by the purchaser. This warranty does not apply to bulbs and belt replacement caused by normal use. This warranty is exclusive and is in lieu of all other warranties whether written, oral, or implied. Liability is in all cases limited to the replacement of product. No liability shall be incurred for any other damages arising from the sale or use of this product whether consequential, indirect, incidental, or act of God.
