Setting the time

- Pull the crown out to position 2 when the second hand points 0 second.**
- Rotate the crown to set the time.**
 - Take care the time set is AM or PM referring to the 24-hour hand.
 - Move the hands 4 or 5 minutes forward and move them back to the right time to set the time more precisely.
- Push the crown in to position 0 in accordance with a reliable time source to finish the procedure.**
The second hand starts moving.

Setting the date indication

- Do not adjust the date indication while the watch shows 9:00 PM - 1:00 AM. Otherwise, the date indication may change incorrectly thereafter.
- Date indication adjustment is required on the first days of March, May, July, October and December.

- 1. Pull the crown out to position 1.**
- 2. Rotate the crown clockwise to set the date indication.**
 - The crown turns freely and the date does not change if the crown is turned to the left.
- 3. Push the crown in to position 0 to finish the procedure.**

Using the chronograph

- Measuring up to 60 minutes in 1 second increments. As 60 minutes passed, the chronograph starts measurement from 0 second again.
- Check the chronograph minute hand is returned to 00 minute before starting the measurement.

- 1. Push the crown in to position 0.**
- 2. Press and release the upper right button (A).**
The chronograph minute and chronograph second hands start moving.

Start/stop: press button (A).

Reset: press button (B).

- Be sure to reset chronograph after finishing measurement.

Adjusting the 0 position of the chronograph second hand

Adjust the position of the chronograph second hand when it does not return to the 0 position after resetting the chronograph or it settles at a wrong position due to strong shock or other causes.

- 1. Pull the crown out to position 2.**
- 2. Press and release the upper right button (A) to adjust the chronograph second hand to the 0 position.**
 - Each time button (A) is pressed, the hand advances by 1 second. Pressing and holding the button moves the hand continuously.
- 3. Push the crown in to position 0 to finish the procedure.**
