

# SORRY!

The game of  
Sweet  
Revenge®

2 to 4 players  
AGES 6+

## OBJECT

To be the first player to get all four of your pawns from your color START to your color HOME.

## EQUIPMENT

SORRY® Gameboard • Deck of cards (no 6s or 9s) • 16 Pawns (4 each of 4 colors)

## SETUP

- Choose four pawns of the same color. Put all four on that color START space. (For a faster gameplay, place three of your pawns on your START. Put the fourth pawn on the circle just below your START.)
- Shuffle the card deck and place it facedown on the “Place Pack Here” on the gameboard to form the Draw pile.
- Pick a player to go first. Movement is clockwise around the board (unless instructed otherwise!) and play passes to the left.

## GAMEPLAY

**Note:** If on your *first* turn you do not have a pawn on the track, and you do not draw a card that lets you start a pawn, you must forfeit (skip) your turn.

On *all* turns, take the top card on the Draw pile and move accordingly (see “The Cards,” right) if you can. Place the card faceup on “Discard Here.”

### To Start a Pawn

To move a pawn from your START out onto the track, you must *draw* either a 1 or a 2. If it is a 2, do as it says, then draw again and move if possible. *You may not start a pawn out with any other cards!*

### Jumping and Bumping

You may JUMP over your own or another player’s pawn that’s in your way, counting it as one space. BUT...if you land on a space that’s already occupied by an opponent’s pawn, BUMP that pawn back to its own color START space.

### Moving Backward

The 4 and 10 cards move you *backward*. If you have successfully moved a pawn backward at least two spaces beyond your own START space, you may, *on a subsequent turn*, move into your own SAFETY ZONE without moving all the way around the board.

### Notes:

- Two pawns of the same color may never occupy the same space. If your only possible move would make you land on a space already occupied by one of your own pawns, you forfeit your turn.
- If at any time you cannot move, you forfeit your turn.
- But if at any time you can move, you must move, even if it’s to your disadvantage.
- If you run out of cards in the Draw pile, shuffle the Discards to form a new draw pile.

## WINNING

If you get all four of your pawns HOME first, you win! If you play again, the winner goes first.

## THE BOARD

**Home:** You must bring all four of your pawns into HOME by exact count! Once HOME, do not move that pawn again for the rest of the game.

**Slide:** Regardless of which card sent you there, any time you land by exact count on the triangle at the beginning of a SLIDE that is *not* your own color, slide ahead to the end and BUMP *any* pawns in your way—including your own!—back to their own START spaces. If you land on a SLIDE of your own color, don’t slide, just stay put on the triangle.

**Safety Zone:** Only you may enter your own color SAFETY ZONE. All other rules apply. No pawn may enter its SAFETY ZONE by a backward move; however, a pawn may move backward out of its SAFETY ZONE and on subsequent turns move back into the ZONE as cards permit.

**Safety Zone Entry Space:** When moving along the outside track, you may not move your pawn forward beyond your own SAFETY ZONE entry. However, you may pass the entry space on a backward move (4 or 10 card) or as the result of a “SORRY!” or “switch” (11) card played against you.

**Start a Pawn Here:** If you’ve drawn a 1 card, take a pawn from START and put onto this circle; your turn ends. If you draw a 2, move a pawn out AND draw again! You may not have two pawns on an entry circle at the same time. If another player’s pawn is on your entry circle, BUMP it back to its own START.

## THE CARDS

- 1 Either start a pawn OR move one pawn forward 1 space.
- 2 Either start a pawn OR move one pawn forward 2 spaces. Whichever you do—or even if you couldn’t move—DRAW AGAIN and move accordingly.
- 3 Move one pawn forward 3 spaces.
- 4 Move one pawn *backward* 4 spaces.
- 5 Move one pawn forward 5 spaces.
- 7 Either move one pawn forward 7 spaces—OR split the forward move between any two pawns.
- 8 Move one pawn forward 8 spaces.
- 10 Either move one pawn forward 10 spaces—OR move one pawn *backward* 1 space.
- 11 Move one pawn forward 11 spaces—OR switch any one of your pawns with one of any opponent’s.

### Notes:

- You may forfeit your move if you do not wish to change places and it is impossible to go forward 11 spaces.
- You may only use 11 for pawns in play on the open track—not at START, HOME or in a SAFETY ZONE.
- If your switch landed you on a triangle at the beginning of another player’s slide, slide to the end!

## THE CARDS (continued)

12 Move one pawn forward 12 spaces.

**SORRY!** Take one pawn from your START, place it on any space that is occupied by any opponent, and BUMP that opponent’s pawn back to its START. If there is no pawn on your START or no opponent’s pawn on any space you can move to, you forfeit your move.

## VARIATION—Team rules

- RED is always YELLOW’s partner, and GREEN is always BLUE’s.
- All regular rules apply and you may move—or BUMP!—your own or your partner’s pawn in accordance with the card drawn.
- If you land on a space occupied by a partner’s pawn, BUMP it back to its START!
- **SORRY!** cards *must* be used. If there’s no one else to pick on, this means you might send your own or your partner’s pawn back!
- 7 means you may split a move among any or all eight of your team’s pawns.
- If you drew a 1 or 2, you may start or move a pawn of either partner; if it was a 2, when you draw again, you may use that card for any of your team’s eight pawns.

**WINNING:** The first partnership to get all eight pawns into their respective HOMES wins the game.

## VARIATION FOR ADULTS— Play for points

All regular rules apply *except*:

- Shuffle the deck and deal five cards facedown to each player. Place the rest of the deck facedown on “Place Pack Here.”
- On your turn, select one card from your hand and move according to its instructions. Discard it and draw a new card to bring your hand back up to five cards.
- If none of the cards in your hand allows you to move, discard any one card and draw a new one. Your turn ends; do not move a pawn until your next turn.
- The first player to get all four pawns HOME wins.

**SCORING:** All players score 5 points for each pawn on HOME. The WINNER also scores as follows:

- 5 points for each opponent’s pawn *not* in its HOME
- 25 points if no opponent has more than two pawns HOME
- 50 points if no opponent has more than one pawn HOME
- 100 points if no opponent’s pawn reached HOME
