ProQual NVQ Level 6 Diploma in Occupational Health & Safety

Who is this for?

This free awareness course is ideal for staff who are regularly required to use Display Screen Equipment in the workplace and could be an excellent means to develop healthier habits at computer workstations.

Overview

Computer workstation users are at risk of strains and long-term injury through poor postural habits and extended usage. This short awareness course provides an accessible starting point to improve worker health related to DSE.

Materials covered are compliant with the Display Screen Equipment Regulations 1992, UK - Upon successful completion, workers will be able to assess their workstation and prepare a risk assessment based upon its configuration and their own personal requirements. Ensuring maximum comfort and long-term safety.

The course is specifically designed to streamline understanding of the various areas of risk surrounding DSE, being an experience which can be quickly absorbed while remaining memorable.

Did you know?

Want to take things further? The SHEilds Manual Handling course is an excellent follow-up, helping workers involved in lifting and moving equipment, goods or furniture to do so with reduced risk.

COURSE UNDER DEVELOPMENT*

*Availability to be announced

Who is this for?

Anyone, at any level, particularly those who are required to undertake frequent manual handling within their role and wish to improve their basic safety awareness.

Overview

This awareness course is ideal for employers, managers, supervisors and employees concerned about workplace risks related to manual handling.

During online studies and testing, students will develop reliable knowledge of commonplace risks and hazards associated with lifting, carrying, posture and use of equipment within the workplace. In the process they will also learn how to assess the latter and introduce effective control measures designed to reduce accidents and injuries, all of which can contribute to a safer more productive workplace.

No prior experience or training in Health and Safety management is required to undertake this course.

Did you know?

This course is a great way to become familiarised with SHEilds e-Learning before undertaking IOSH and NEBOSH studies.

Who is this for?

Anyone, in any sector, at any career level who requires a base understanding and qualification in health & safety. It is also a solid foundation for learners preparing to undertake NEBOSH studies.

Overview

The IOSH Working Safely award is an accessible entry level qualification that is open to anyone, intended to ensure a base awareness of general health & safety issues around the workplace.

The qualification covers defining and identifying common hazards and risks, improving safety performance and protecting the environment. Evaluation is done through a multi-choice question paper and a multiple choice hazard spotting exercise, both of which can be done online. You can additionally choose to receive an IOSH Working safely certificate and/or the IOSH safety passport as proof of the qualification.

Did you know?

The IOSH Working Safely course is intended to be completed within a day, typically requiring only six hours of online study to finish.

Who is this for?

Ideal for employees beginning a health & safety career, line managers required to review their departmental systems for safety and learners preparing for further NEBOSH studies.

Overview

The **Managing Safely** course is for those required to manage safely and effectively in compliance with both their organisation's policy and best practice in health and safety, helping to standardise their operations.

There are no prerequisite entry requirements for this qualification, however students will find it helpful to have already achieved an awareness-level qualification to improve their potential end result. The course aims to ensure that safety requirements are appreciated by line managers, and to enable them to review their own departmental systems for safety, introducing new controls or implementing changes as appropriate to ensure safety in the workplace.

Did you know?

The IOSH Managing Safely course is the ideal starting point for your Health and Safety career, you will have an underpinning knowledge of the core health and safety subjects making you better prepared for your NEBOSH studies.

Who is this for?

People with health & safety responsibilities, typically in entry and mid-level management roles. It is additionally recommended that learners have already completed an IOSH Managing Safely qualification as a foundation.

Overview

The NEBOSH National General is a qualification designed to help those with health and safety responsibilities (e.g. managers, supervisors and employee representatives) to discharge more effectively their organisational duties and functions.

The NEBOSH National General covers the main legal requirements for health and safety in the UK, identification and control of workplace hazards, and the practical application of this knowledge. The qualification can also serve as a first step in a health and safety career, providing a solid basis for further professional study and development.

Did you know?

By completing the IOSH Managing Safely course prior to undertaking this qualification you will have a better underpinning knowledge of the core subject; therefore making you better prepared for your NEBOSH studies.

Who is this for?

Health & safety managers/supervisors employed by large organisations operating outside the UK and employees of multinational companies needing to adapt international standards to accord with local needs and practice. Learners are recommended to have already completed an IOSH course prior to enrolment.

Overview

The NEBOSH International General is designed for managers, supervisors, worker representatives and others who require an understanding of health and safety principles and practices.

Candidates are likely to be employees of large organisations operating outside of the UK, or of multinational companies needing to adapt international standards to accord with local needs & practice. The syllabus omits specific reference to any national legal requirements, but instead focuses on international standards, in particular ILO codes of practice. In common with the national award the syllabus is structured according to a recognised management framework.

Did you know?

This qualification is excellent pre-study material for the NEBOSH International Diploma and Technical Oil & Gas certificate courses. The content and examination preparation can increase your potential pass marks by up to 25%.

ENROL TODAY

Learning Outcomes

- ✓ Practical application of knowledge and understanding

Who is this for?

People based in the UK and internationally, responsible for managing environmental issues in their day-to-day duties and/or learners looking for a basis to progress on to the National Diploma in Environmental Management.

Overview

The NEBOSH Certificate in Environmental Management is designed to provide a sound foundation in environmental management in the same way the National General Certificate provides an introduction to the fundamentals of occupational health and safety.

The Certificate in Environmental Management is designed for managers, supervisors and employees who have responsibility for managing environmental issues as part of their day to day duties. It will benefit companies who are seeking to implement effective environmental management systems, ensuring that line managers have a sound understanding of the principles of managing environmental risk. This qualification is relevant to all industry sectors.

Did you know?

This new qualification by NEBOSH is ideal pre-study material prior to studying the NEBOSH National or International Diploma in Environmental Management.

Who is this for?

People with safety responsibilities in the oil & gas industries and learners who are already experienced in the field. Students are recommended to have already achieved a NEBOSH Certificate level qualification prior to taking the course.

Overview

This qualification is specifically designed for people with safety responsibility in the oil and gas industry.

The qualification focuses on international standards and management systems, enabling students to effectively discharge workplace safety responsibilities both onshore and offshore. The Certificate also highlights the importance of process safety management in the oil and gas industry. There are no specific entry requirements for this qualification, however it is highly recommended that students have an existing underpinning knowledge of safety issues or have completed a NEBOSH Certificate level qualification previously.

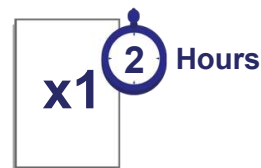

Did you know?

Students, who have successfully completed the NEBOSH IGC prior to undertaking this qualification, usually gain up to a 25% higher pass mark on their NEBOSH IOG examinations.

Who is this for?

Employees required to provide routine day-to-day advice on fire related issues and non-specialists looking to acquire a breadth of knowledge on the subject. This qualification is ideal for those working as or intending to work as Health and safety managers, Facilities managers, health and safety representatives within businesses and those responsible for fire safety in low to medium risk workplaces.

Overview

This Fire Safety qualification is aimed at those who are required to provide day-to-day advice on fire related issues in the work environment.

The Fire Certificate has been designed for managers, supervisors, employee representatives and those embarking on a role with fire safety responsibility, preparing holders to contribute to the conduct and review of fire risk assessments and fire preventive and protective measures within the workplace. The syllabus is based on National Occupational Standards in Fire Safety at level 3, which has common units with the Emergency Fire Services National Occupational Standards.

People with construction management responsibilities or employees required to provide routine advice on health, safety, and welfare in construction. This qualification is ideal for those currently working as or planning to train as Construction site managers, Contract's managers, Site workers with health and safety responsibilities and Construction health and safety advisors.

Overview

The NEBOSH Construction Certificate is a qualification both for those with construction management responsibilities and those required to provide routine advice on health and safety in construction.

The Construction Certificate is designed to cover general health and safety issues within a construction context as well as placing emphasis on the specific construction issues that make the industry amongst the most dangerous in which to work. Students will find it helpful to have already achieved certification of the NEBOSH General Certificate first as this greatly improves a students' potential end-result.

**This course is currently under development
Availability to be announced**

Who is this for?

This course is typically intended for supervisors and managers working in process industries such as Oil & Gas, chemicals, plastics or pharmaceuticals, ideally with an existing knowledge of general Health and Safety issues.

Overview

The Certificate in Process Safety Management is a qualification accredited by NEBOSH and the HSE, addressing the hazardous nature of process related industries with specialist knowledge.

Studies and assessment can be undertaken as a five-day classroom course or alternatively as an online e-Learning course. During studies, students should develop knowledge to effectively assess and manage process risks with recognised 'high hazard' expertise. Assessment requires completion of a 90-minute examination comprised of 10 multiple choice questions along with a written segment on hazards and controls in process safety management.

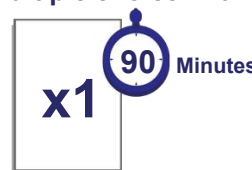

Did you know?

Successful qualification could open a number of new career opportunities, including supervisor and management roles in the process safety industry and other advisory positions. Employers with NEBOSH qualified process management will also benefit from protecting employees, assets and their reputation from incidents.

Who is this for?

Aspiring occupational health & safety practitioners (OHASPs) requiring a strong core knowledge and higher-level management with health and safety responsibilities. Completion of a NEBOSH National General Certificate is highly recommended.

Overview

The NEBOSH National Diploma for Occupational Health & Safety Management Professionals (2021 Publication) provides the knowledge and understanding that underpins competent performance as an Occupational Health and Safety Provider (OHASP).

This core knowledge is transferable between the different occupational sectors in which OHASPs may work across industry, commerce and the public sector. There are no prerequisite entry requirements, though students will find it helpful to have completed the National General Certificate first. Students should also be aware that this is a demanding qualification - approximately equivalent to an honours degree level - and therefore may find it very difficult if they do not have this background knowledge and/or the ability and application to study at this level.

Did you know?

By completing the NEBOSH NG course prior to undertaking this qualification, you will have the required prior learning which will provide the underpinning knowledge of the core subject; therefore making you better prepared for your NEBOSH Diploma studies and potentially helping to increase your pass rate.

Who is this for?

This course is typically intended for mid-level Managers and supervisors responsible for developing and applying Health and Safety procedures on a day-to-day basis within the workplace. During the course students can expect to improve basic SHE knowledge and skills.

Overview

Undertaken alongside existing daily duties the NVQ Level 3 tasks students with collecting evidence in support of their studies.

Candidates learn, develop and practice the required skills for progression within the Health and Safety industry, whilst continuing to manage their regular workload.

Evidence collected within the past 2 years can be utilised in support of the qualification. This will be determined by considering relevant industry competencies, assessing said evidence you submit with course units which are signed off as they are completed.

Membership application options for TechIOSH and AIOSH are also open to successful candidates providing their experience levels are adequate.

Did you know?

There are no written examinations involved with the course being effectively 100% online. The course cannot technically be failed either as assessment is done on a basis of either being competent or not yet competent.

A Level 3 NVQ is also a reliable basis for further career development, including Diploma-level NEBOSH and Level-6 NVQ courses.

Level 6	HSE Managers 	
Study Time 1064 Hours	Course Access 24 Months	Average Completion 7-12 Months

Who is this for?

Aspiring managers reporting to or forming a part of senior management staff, responsible for developing day-to-day Health and Safety procedures within their workplace and implementing them effectively. Ideal for learners looking to balance Diploma studies with a demanding existing role.

Overview

This higher-level qualification is typically intended for senior level SHE Managers who have specific responsibilities for the Health and Safety both in the workplace and amongst employees.

Taken entirely online through the SHEilds e-Learning portal, this NVQ Level 6 Diploma is tailored to suit the learner's skills and knowledge. The assessment is completed through collection of evidence during their day-to-day working activities and submitted through the SHEilds e-Learning platform.

As an International qualification, there are no geographical restrictions on who can take the course or its application. Additionally, GradIOSH and CMIOSH membership options are available, though these are entirely at the discretion of the awarding body.

Did you know?

The entire course is 100% online and has no exams. Instead assessment is based upon the aforementioned evidence collected during the working day. The course cannot technically be failed either, only prolonged.

There are no fixed entry requirements, however a relevant certificate level qualification is recommended.

Learning Outcomes

- ✓ Develop and learn to implement an effective Health and Safety policy along with effective communication systems
- ✓ Learn to identify, assess and control workplace Health and Safety risks and hazards
- ✓ Knowledge of how to run proactive and reactive monitoring systems to optimise the workplace's approach to SHE

Benefits of SHEilds eLearning qualifications

For the individual

Being able to show that you are competent in your work and able to demonstrate the knowledge and skill required to perform at the recognised occupational standard.

Further your professional development and increase your career prospects by developing transferable skills recognised and valued by employers universally.

Improve your job satisfaction, confidence and drive to succeed in your occupation.

A flexible way of gaining a recognised and respected qualification, with no requirement to have already completed other formal qualifications.

Recognised route to professional memberships with globally recognised professional institutes.

Examinations are available globally. Due to the flexibility of SHEilds eLearning students are not fixed to a specific examination date, examination dates can be selected when a student feels confident.

Globally recognised qualifications can give you an advantage in the workplace for promotion and job security.

For the employer

Value for money - access to the courses is unlimited during the study period, allowing students to study 24 hours a day 7 days a week, giving students maximum opportunity to absorb the course material.

The course is accessible from any PC with internet access allowing study in the workplace or from home, minimising disruption and downtime to business.

Increased staff productivity, efficiency and performance.

Increased motivation and job satisfaction for employees.

Students can start the qualification at their capability level, and no prior qualifications are required.

Ensuring staff are working to up-to-date standards and best practices within their field enables employees to gain well recognised and respected qualifications, with no requirement to have already completed other formal qualifications.

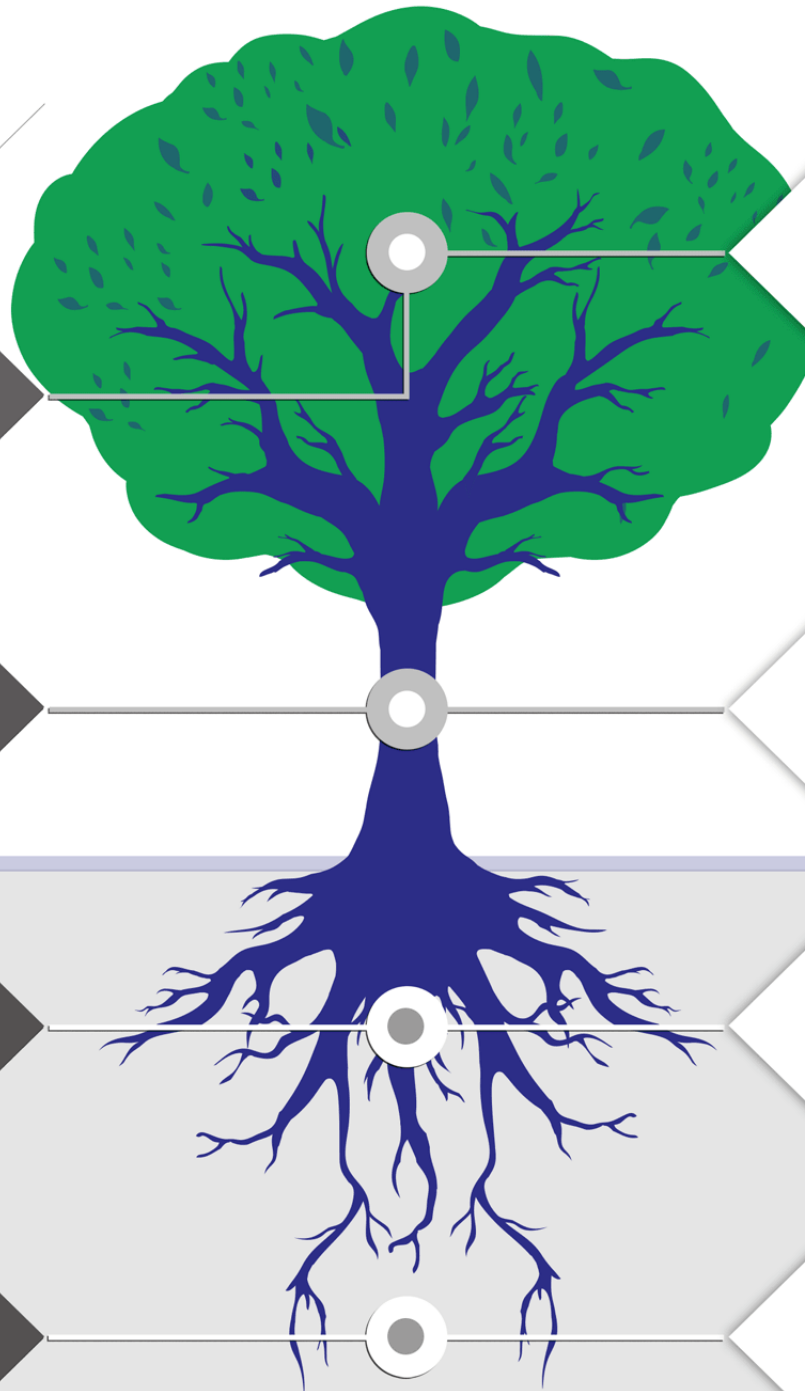

Demonstrates a commitment to quality and continuous improvement.

When employees have globally recognised qualifications, this can help when tendering for contracts with some organisations, and help towards quality standards.
