BESSEY® clamping - and cutting technology

Complete catalogue 2010/2011

Effective April 1 2010.

BESSEY[®]. Simply better.

Best clamping - and cutting technology since 1889.

"One, who stops improving himself, has already ceased to be good" - we behave and work as per this guiding principle of Max Bessey, the founder of our company. Again and again, over 110 years already. Simply go and see for yourself: An overview of our entire range of products - and services is given in the following pages. Be it clamping - or cutting technology, BESSEY® offers incomparably innovative solutions with the proven BESSEY® quality.

Make the most of our innovative edge and experience why the following still holds true in our

"BESSEY®. Simply better."

Innovative ideas

Our company has been setting new benchmarks in the field of clamping and cutting technology since its inception in the year 1889. Based on our expertise in development, we have been working on new and innovative ideas for continuous product improvement. We invent and perfect the patented brands in our plant in Bietigheim, these often become models for an entire generation of clamping and cutting tools.

Often copied, but never duplicated: This applies to the original BESSEY® malleable cast iron-screw clamps introduced in 1936, or even to the original BESSEY® all-steel-screw clamps that were patented in 1952.

Highest quality

Our fundamental principle: BESSEY® brands have been manufactured for constant loads, not for temporary ones against the comparable products of our competitors. We have distinguished ourselves and earned the respect of customers for decades owing to our unrivalled quality.

Our brands are manufactured using the highest quality materials. Moreover, all components are personally checked by our experienced technicians and developers who apply the most advanced inspection procedures and testing methods. We do this for you as a customer using our products in daily, practical use.

We always guarantee you maximum comfort, safety, user-friendliness and ergonomics. Numerous certificates as well as longstanding partners and customers in more than 100 countries all over the world are the best proof. Prove it to yourself and try one!

	Discount (Multiplier) From List Price in Catalog						
Customer Category	VB0001	VB0002	VB0003	VD0001 & VD0002			

Experienced technicians and developers personally check every BESSEY® product.

Wide range of products and services.

While browsing through this catalogue, you will observe that BESSEY® strives to offer you the best solution for your tasks and applications. In clamping, as well as cutting technology. From rigid to flexible clamping, from curved to straight cutting. From heavy duty clamps to light lever clamps, from delicate Jewellers' snips to robust titanium coated cutters.

Personal service

Reliability, confidence and a sense of responsibility are the backbone of our partnership with our customers. For many years, we have been working towards manufacturing exclusive and practical brands that will simplify your life considerably today - as well as tomorrow. Of late, we have started supporting our trading partners with comprehensive product training programs in a personal and informal atmosphere. Directly on-site in Bietigheim, in our in-house training centre and, in the field where our distributors and personnel work, live and play.

Longstanding global partners and customers in more than 100 countries have faith in BESSEY® quality.

Index

High-performance clamps

Bar clamps for welding and fabricating

Your benefits at a glance:

1 High stability

Patented rail profile offers more clamp force with fewer spindle turns.

2 BESSEY® MorPad

MorPad tilts to 35°. Patented construction extends clamp life at full capacity.

3 Tempered spindle

Heat treated, high carbon Acme threaded screw – tempered and quenched to give greater load capacity with longer service life. Spatter resistant.

4 Sturdy Tommy bar

High-strength electro-galvanized sliding pin T-handle – rounded ends for comfort, size engineered to load capacity.

Ergonomic grip is standard equipment on 1800-S and 2400S series.

5 U-shaped sliding arm

New u-shaped sliding arm offers straight line power transmission. Great stability.

Medium duty (1800-S)

Multi-Purpose clamp

KombiKlamp[™]

Your benefits at a glance:

1 Multi-angle pad

Robust Variable Angle Device (VAD) allows for a solid grip on odd shapes - also reverses for spreading. Jaws swivel $\pm\,60^\circ$.

2 Removable end stop

The end stop can be removed – to allow the sliding arm to be quickly turned around for spreading.

3. Replaceable pressure plate

For enhanced serviceability, the pressure plate can be replaced quickly and easily without the need for special tools.

- 4. Tommy bar with ergonomic BESSEY® Grip Ergonomic BESSEY® Grip offers greater comfort and slides with the T-handle.
- 5. Easily converts to a spreading device Remove the end stop, reverse the cross arm, and reverse the VAD and this clamp becomes a very versatile spreading device.

6. Made in Germany

All components produced and assembled under rigid controls in BESSEY®'s German factory.

- Clamping and spreading of flat, round, oval and angled workpieces
- Pressure plates can easily be replaced without using any tools (see page 38)

Multi-Purpose (KombiKlamp™)

	Inches	Inches	Pounds	Pounds	qty.
SG30VAD	4 ³ / ₄	*12	2600	6.00	6

* 11 inch capacity with VAD in place.

Bar clamps for welding and fabricating

Your benefits at a glance:

1 Enhanced clamp force and high stability Patented rail profile offers more clamp force with fewer spindle turns. (For 660 & 1200)

2 Standard swivel pads

Standard pads are field replaceable. (For 660 & 1200)

3 Tempered spindle

Heat treated, high carbon Acme threaded screw – tempered and quenched to give greater load capacity and longer service life. Spatter resistant.

4 Sturdy Tommy bar

High-strength electro-galvanized sliding pin T-handle – rounded ends for comfort, size engineered to load capacity.

5 U-shaped sliding arm

New u-shaped sliding arm offers straight line power transmission. Great stability. (For 660 & 1200)

Light duty (MMS)

1200-S24	4 ³ / ₄	24	1320	5.25	5

■ Ergonomic grip is available as an accessory

- MorPad tilts to 35°. Patented construction extends clamp life at full capacity.
- Forged sliding arm is made from tempered, drop-forged steel for long service life
- High-strength electro-galvanized sliding pin t-handle - rounded ends for comfort, size engineered to load capacity
- Ergonomic grip is available as an accessory
- Heat treated, high carbon Acme threaded screw - tempered and quenched to give greater load capacity with longer service life. Spatter resistant.

- Spindle mechanism can be positioned outside working area for use in confined spaces
- A special V-grooved pressure plate is made of high grade cast iron... swivels up to 30°
- Removable end stop to allow the sliding arm to be quickly turned around for spreading (needs optional CLS Shoe)

TSC4.516	4 ¹ / ₂	16	1880	4.10	10

- Improves productivity over hand tightening manual clamps by using air tools or ratchets in high volume production shops to tighten clamps
- The BESSEY® power clamp is an all steel clamp made with heavy duty components to ensure a lifetime of use
- 15/16 hex nut allows the BESSEY® power clamp to be tightened and loosened with an air tool the maximum torque value for air tool tightening is 15 lb/ft
- Safety stop collar ensures safety when tightening and loosening with an air/electric impact wrench
- Heat treated, high carbon Acme threaded screw tempered and quenched to give greater load capacity with longer service life. Spatter resistant.

- Patented OMEGA bend maintains positive pressure longer under heavy vibration
- Forged sliding arm is made from tempered, drop-forged steel for long service life
- High-strength electro-galvanized sliding pin t-handle - rounded ends for comfort, size engineered to load capacity
- Ergonomic grip is available as an accessory
- Heat treated, high carbon Acme threaded screw - tempered and quenched to give greater load capacity with longer service life. Spatter resistant.
- Standard pads are field replaceable

classiX[®] International line of welding clamps

Your benefits at a glance:

1 Global product platform

A common platform of high volume clamp styles, openings and pressure capabilities provides the impetus for high-volume production runs.

2 Quality control

Internationally sourced components coordinated by BESSEY® quality control and engineering departments ensure great prices and great quality.

3. Great value

Profiled rail, spatter resistant spindle and simplified heavy duty pad offer great value for industrial use.

Step-Over steel clamps

Your benefits at a glance:

1 Extremely sturdy

The return rail lets the J clamps "step-over" the lip on channel iron, angle-iron, I-beam or other obstructions.

2 BESSEY® MorPad

MorPad tilts to 35°. Patented construction extends clamp life at full capacity.

3. Forged sliding arm

Forged sliding arm is made from tempered, drop-forged steel for long service life.

4. Tempered spindle

Heat treated, high carbon Acme threaded screw - tempered and quenched to give greater load capacity with longer service life. Spatter resistant.

5. Sturdy Tommy bar

High-strength electro-galvanized sliding pin T-handle - rounded ends for comfort, size engineered to load capacity.

- MorPad tilts to 35°. Patented construction extends clamp life at full capacity.
- Ergonomic grip is standard equipment on 2400J series
- Hex head (19 mm) is standard on 4800J-20

K-Body® REVO™ (Fixed jaw version)

Powerful parallel clamping at its best

Your benefits at a glance:

1 Parallel clamping surface with jaw protection pads

These are arguably the most powerful and most parallel clamps in the world. The three large removable (if you want to clean or replace them) pressure caps are resistant to glue, paint and solvents.

2 Large 2K composite handle

High quality 2K composite handle with soft plastic insert for comfort while working.

3 Rail protection pieces

The rail protection pieces (made from impact resistant polyamide) prevent glue dripping on to the rail. With TK-6 table (see page 23) clamps you can easily fasten the rail protection pieces to a work surface.

4 Removable end-clip

End-clip ensures clamp sits parallel to work surface and is removable to reverse sliding arm for use as spreader.

- Jaws clamp at accurate 90 degree angles
- Everyday clamp force of 1500 lbs
- Large handles and clamping surface
- Replacement parts for all components

- KRK2450 (2 x 24", 2 x 50", 1 x KP Blocks)

Vario K Body® REVO™ (Variable jaw version)

Powerful parallel clamping at its best

Your benefits at a glance:

1 Parallel clamping surface with jaw protection pads

These are arguably the most powerful and most parallel clamps in the world. The three large removable (if you want to clean or replace them) pressure caps are resistant to glue, paint and solvents.

2 The Moveable 'Fixed' Jaw

For the first time ever, BESSEY® offers the opportunity to adjust both jaws to optimize clamping set-up. With the push of a button the 'fixed' jaw can be moved to where you want it.

3 Large 2K composite handle

High quality 2K composite handle with soft plastic insert for comfort while working.

4 Rail protection pieces

The rail protection pieces (made from impact resistant polyamide) prevent glue dripping on to the rail. With TK-6 table (see page 23) clamps you can easily fasten the rail protection pieces to a work surface.

5 Removable end-clip

End-clip ensures clamp sits parallel to work surface and is removable to reverse sliding arm for use as spreader.

- With the push of a button, adjust bottom jaw for balance and position to optimize clamping preparation
- Jaws clamp at accurate 90 degree angles
- Everyday clamp force of 1500 lbs
- Large handles and clamping surface
- Replacement parts for all components

Vario K Body® REVO™, variable jaw parallel clamp

KBTP-4	4 end-clips per set	2	4 pack

^{*} Only for clamps produced before July 1st, 2008.

- Replacement end-clips suitable for K Body[®] clamps produced before July, 2008
- End-clips ensure clamp sits parallel to work surface

BESSEY® quality, durability and strength

The original BESSEY® malleable cast iron bar clamp is available in two different designs. Either with the tried-and-true wooden handle, or with the modern BESSEY® 2K handle. The 2K handle allows you to complete tasks more effectively and with less hand fatigue. This is possible thanks to the high quality 2K composite handle with a comfort insert.

Your benefits at a glance:

1 Integrated anti-slip system

Maximum safety is available with the integrated anti-slip system. A set screw that is molded into the sliding arm interlocks with the serration on the rail to prevent the clamp from slipping.

2 Reinforced malleable cast iron jaw and sliding arm

Corrugated malleable cast iron fixed jaw and sliding arm generate powerful, rigid clamping. Top jaw is press fitted to the rail. No mechanical fasteners to loosen. Powder coating protects against corrosion.

3 High quality profiled rail

The BESSEY® profiled rail from our own German steel plant has been optimized for clamps. The profile acts as a reliable reinforcement against torsional forces, while the serration on six faces additionally prevents the clamp from slipping.

4 BESSEY® smooth running spindle

The smooth running spindle with Acme thread allows for more clamping with less effort. Replaceable pressure plates can be easily changed without tools.

5 BESSEY® comfort

With the TG series you have the choice of the tried-and-true wooden handle or the 2K composite handle with a comfort insert. Replaceable pressure pads come standard with 2K handle.

Malleable cast bar clamps

Light duty (TGK) with 2K handle

Lever clamps

Rapid-Action, lever clamps

Your benefits at a glance

1 Secure ratchet mechanism

The ratchet mechanism ensures rapid, vibration-resistant clamping. Hardened cam at the end of the lever ensures a long service life.

2 Extremely sturdy

Torsion-resistant, fixed bracket and pressure plate are produced and tempered in one piece for maximum tensile strength and sturdiness.

3 Forged sliding arm

Forged sliding-arm is made from tempered, drop-forged steel for long service life.

4 Extremely sturdy handle

Ergonomically shaped powder-coated clamping lever and plastic-coated release for comfort and power.

5 Trigger protection

Trigger protection means fewer pinched fingers.

- Large tilting pressure plate
- New u-shaped sliding arm offers straight line power transmission. Great stability.
- Sturdy fixed and sliding arms made from lightweight magnesium
- Vibration resistant ratchet mechanism
- Ergonomically shaped clamping lever
- Ideal for light touch clamping or delicate tasks such as antique restoration, veneering and making or repairing musical instruments
- Upper and lower arms and lever made from high quality hardwood
- Cork protective pads for gentle clamping

One handed, light duty & clutch style clamps

One-handed clamping or spreading

Your benefits at a glance

1 Powerful technology

The extremely sophisticated technology makes it possible - single-handed clamping and spreading of workpieces with up to 445 lb clamping force.

2 Intelligent release button

Thanks to the intelligent release mechanism, the upper section can be quickly converted from clamping to spreading – without the need for tools or releasing screws.

3 Handle behind the rail

The ergonomically shaped 2-component plastic handle with pump level is positioned behind the rail, enabling a powerful grip.

4 Soft pressure caps

Soft pressure caps optimize material protection and secure clamping.

5 Internal components that ...

Reflect German engineering ... heavy duty for sure!

* Does not include DuoKlamp®. Sold Separately.

- Used with a DuoKlamp® (and most similar sized clamps) one can spread up to 65"
- Also can be used to spread up to 70"
- DuoKlamp® fits snugly into Extender clamp, no tools required

Welding angle clamps

Clamping angles and miters

Your benefits at a glance:

1. Right angle clamping

The angle clamp has been developed for a wide range of applications, holding, fixing, and aligning material at an exact right angle.

2. Workpieces of different thicknesses

The angle clamp is designed for holding workpieces of different thicknesses at a precise 90° angle.

3. Copper spindle

Copper spindle to resist spatter.

4. Sturdy frame

Sturdy jaws and base made from high grade cast iron.

5. Clear working area

Access to the workpiece is unhindered during welding and assembly work and when fixing T-joints.

■ Precise 90° angles

- Angle range: 5° to 180°
- Individual clamps pivot on a fixture to produce an incredible range of angles

Angle clamps (WSM)

BESSEY® Product #	Jaw Height	Capacity for both sides	Max. Passage for Mitres	Approx. Weight	Case
	Inches	Inches	Inches	Pounds	qty.
WSM-9	1 ³ / ₈	7	3 1/2	8.10	1
WSM-12	2 3/8	9 1/2	4 ³ / ₄	16.55	1

Multi-angle vise set (WVS)

BESSEY® Product #	Clamping Capacity	Jaw Height	Range of Angle	Approx. Weight	Case
	Inches	Inches	Degrees	Pounds	qty.
WVS-4	4 ³ / ₈	1 ³ / ₈	5° to 180°	23.00	1

Strap clamps

Your benefits at a glance:

1 Band is drawn in on both sides

Strap draws simultaneously from both sides ensuring pressure is applied equally on all corners without distortion.

2 Integrated coiling mechanisms

Integrated rewind mechanism operates by a cranking handle which eliminates tangling and damage to the band.

3 Practical Vario corners

Vario clip corners with twin-tilting pressure pads auto-adjust from 60° to 180° for easy assembly of any multi-angle project.

4 Extremely tearproof

The special woven polyester band guarantees a high resistance to tearing, and a clamping range of 7 m. The steel wire loop opens quickly and simply to adjust or release glue-up.

BESSEY® Product #	Clamping Capacity	Range of Angle	Approx. Weight	Case
		Degrees	Pounds	qty.
VAS-23	Up to 23 feet	60° to 180°	1.40	3

- Even pressure on mitre joints
- High quality strap clamp
- Comes with 4 pivoting Vario corners

■ Vario corner clips have twin-tilting pressure pads that auto adjust from 60° to180°

BESSEY® Product #	Package includes	Range of Angle	Approx. Weight	Case
		Degrees	Pounds	qty.
VAC-6	6 corner clips per package	60° to 180°	0.26	5 pkg/ case

Ratchet tie-down, base (BAN)

BESSEY® Product #	Strap Length	Strap Width	Clamping Force	Approx. Weight	Case
	Feet	Inches	Pounds	Pounds	qty.
BANR400	13	0.95	up to 400	0.75	6

For clamping awkward and irregular shape objects

Angle & miter clamp

Your benefits at a glance:

1 Sturdy frame

Die-cast jaws plastic coated to protect work.

2 Versatility

Designed for clearance of dowels, screws or staples while gluing.

3. Right angle clamping

Holds and aligns material at 90° angle.

4. Wood handle

Ergonomically shaped wood handle.

5. Adjustable

Adjust automatically to wood thickness.

A. Note: TK-6 Table mount clamp in picture is sold separately.

- Adjusts automatically to wood thickness
- Galvanized spindle, Acme thread
- Die cast jaw plastic coated to protect work

Angle clamps (WS)

BESSEY® Product #	Maximum Clamping Capacity	Max. Passage for joints	Approx. Weight	Case
	Inches	Inches	Pounds	qty.
WS-3	Both sides-max 4" thick	1 ¹ / ₈	2.40	3
WS-6	Both sides-max 8" thick	2 7/16	5.25	4

^{*} Packaged in a retail ready clamshell package.

■ Holds BESSEY® WS-3, WS-6, S-10, S-15, and K-Body® REVO[™] to work surface (see picture above)

Table mount clamp (TK)

BESSEY® Product #	Works with	Approx. Weight	Case
		Pounds	qty.
TK-6	Fits WS-3, WS-6, S-10, S-15, and K-Body® REVO™ accessories	0.45	1

Angle & miter clamps

Corner clamp (WS)

BESSEY® Product #	Clamping Capacity	Angle	Approx. Weight	Case
		Degrees	Pounds	qty.
WS-1	Up to 3" per side	90°	0.50	10

Mounted on retail-ready backer card.

- Economical alternative for fixed 90° angle for miter or butt joints
- Mounting holes to fix to work surface
- Adjusts to various sized work pieces with 2 spindles
- For light duty clamping

Miter clamp fixture (GS)

BESSEY® Product #	Clamping Capacity	Range of Angle	Approx. Weight	Case
	Inches	Degrees	Pounds	qty.
GS-11	4 ¹ / ₈	45° to 120°	6.60	1

- Swivel clamping jaws draw joints together as thumbscrew is tightened
- Rigid steel base non-marring polyamide clamp body
- Soft pads prevent scratching and slipping

Miter clamp set (MCX)

BESSEY® Product #	Clamping Capacity	Range of Angle	Approx. Weight	Case
	Inches	Degrees	Pounds	qty.
MCX	4	22.5°, 30°, 40°, 60°	1.68	1

- When combined with any standard bar clamp the MCX can easily clamp various angles
- Provides even pressure onto the mitre
- No tools required to change angles
- Holds work pieces up to 4" wide

BESSEY® Product #	Set Contains	Approx. Weight	Case
		Pounds	qty.
ES Set	Includes 2 blocks and 2 caps	0.85	1

*Clamps not included.

- Ideal for securing glued miter joints and angled joint faces
- Used with BESSEY® TGK & TGJ bar clamps
- Ball & socket system applies direct force on angle for 15° to 180°

Hold down products

Your benefits at a glance:

1. Single component design
Self-positioning, single component design.

2. Workpieces of different thicknesses
Wide clamping range. Adjustments up
to 5".

3. T-slot table ready

For T-slot hold down tables in machine shop applications.

4. Sturdy frame

Strong, ductile iron body.

5. Swivel rocker

Swivel rocker attached to body to prevent loss.

■ Self-positioning, single component design

- Swivel rocker attached to body
- Strong, ductile iron body
- For T-slot hold down tables in machine shop applications
- L Series has a longer throw than S series

Hold down clamps

Hold down table clamp

BESSEY® Product#	Throat Depth	Clamping Capacity	Clamping Force	Approx. Weight	Case
	Inches	Inches	Pounds	Pounds	qty.
2400HD-10	4 3/4	9 1/2	2220	7.85	1

- Vibration proof, ratchet action
- Tilting and height-adjustable
- Mounting hole accepts 5/8" bolts

Claw machine clamp (MCL)

BESSEY® Product #	Throat Depth	Clamping Capacity	Clamping Force	Approx. Weight	Case
	Inches	Inches	Pounds	Pounds	qty.
MCL-8	4 ³ / ₄	8	1450	6.75	1

- Cantilever jaw for clamping in tight space with screw positioned outside of work area
- Full rotation outside of work area
- For drilling and light milling work
- Mounting hole accepts 5/8" diameter bolts

Jig & fixture clamp (FC)

BESSEY® Product #	Throat Depth	Clamping Capacity	Clamping Force	Approx. Weight	Case
	Inches	Inches	Pounds	Pounds	qty.
FC24-8	4 ¹ / ₂	8	2660	6.50	5

- Rotates 360° for easy work-piece removal
- Pressure plate swivels up to 35°
- Bushing O/D is 113/16"

Edge clamps

Your benefits at a glance

1 Unique twin spindle

Outer spindle acts on the clamping jaws – inner spindle applies pressure to the front edge. Impact resistant plastic handle for one-handed use.

2 Large jaws

Two large non-slip, opposing, gentle jaws for positive grip.

3 Swivel pressure plate

The large pressure plate swivels to apply pressure on demand. Removable protective cap.

4 Light aluminum housing

Lightweight, corrosion-resistant aluminum housing designed for high static stress load for convenient, one-handed edge clamp EKT.

- For quick one-handed operation
- Light weight
- For quick one-handed operation
- Non-slip rubber lining
- Ergonomic wood handle
- Light duty clamp for basic edging projects
- Comes packaged on retail ready backer card

■ For use with bar clamps with rails up to 1/2" thick

XV5-170	2	6 1/2	0.45	12

^{*} VarioClippix® come on backer cards in a retail ready full colour shelf display - must order case qty to get shelf display.

- Unique design allows you to adjust the clamp up to 4" ... it does the work of 4 different spring clamps, offering optimum handling
- Polyamide material is lightweight, strong and corrosion resistant
- Sliding top jaw and sliding bottom jaw infinitely adjusts up to 6 1/2"
- Polyamide material is lightweight, strong and corrosion resistant

Spring clamps

- Long tapered nose for hard to reach spaces
- Ergonomic 2-component handle designed for comfort and a firm grip
- Soft-touch pads for a non-marring grip
- Made from durable, lightweight polyamide
- Ergonomic 2-component handle designed for comfort and a firm grip

- Light duty spring clamps for home or shop
- 4 popular sizes, conviently packaged in a mesh bag

- Heavy duty resin construction with pivoting jaw
- Ratcheting mechanism quick action, quick release
- Heavy duty resin construction with pivoting jaw
- Ratcheting mechanism quick action, quick release
- Vinyl tips and handles prevent marring
- Heavy duty springs for firm grip
- Nickel plating resists corrosion

		Pounds	qty.
MW-1	22" length	1.70	1

MagSweep (MSP)

- Can collect up to 12 lb of swarf in a pass for a cleaner safer welding and machine shop
- Rolls easily over industrial work surfaces and dumps waste by simply pulling sliding magnetic insert
- Rolling shop-floor magnet on wheels, 24" swath

- Very light weight 2 oz. (55 gr.)
- Designed for delicate work ideal for hobbies, crafts and model assembly
- Extra-large contact surfaces
- Light duty universal clamp/spreader for bench top projects
- Easily converts to a spreader without tools
- Non-marring glue resistant jaws
- Can be clamped to work surface with TK-6 table clamps (see page 23)
- TK-6 clamps included with S-10
- Cold-drawn, carbon-steel spindles and swivel nuts
- Large handles for comfort and torque
- Oiled maple jaws
- For safe transportation of panels of a variety of materials
- High-friction rubber coating on the moving clamping jaws
- 150 lb weight carrying capacity
- Fast-easy adjusting moveable jaw simply slide to work piece and place lock pin in perforated rail
- Rugged construction cast iron jaw, steel rail
- Twin vacuum cups for clamping non-porous, solid surface material such as granite, marble, corian, plastic or glass
- Levelling toggles ensure smooth surface joint, reduces grinding, sanding and finishing
- For laying parquet, plank and laminate flooring
- 157 in. strap

High quality work with less effort

1. Types

Traditional tin snips

Edges and handle are traditionally forged into one unit. The force required for cutting is determined by the ratio of edge length to the handle length.

Compound leverage snips

The cutting heads and handles are made seperately and are both hinged. When they're attached to each other, this double hinged (double fulcrumed) assembly greatly increases the leverage, requiring less physical effort.

Ideal snips

Continuous, straight and curved cuts, right

Continuous, straight and curved cuts, left

Outline cutting snips

Short, straight and narrow curved cuts, right

Short, straight and narrow curved cuts, left

Straight cutting snips

Straight and curved cuts , large radius in both left and right directions

Short, straight cuts, notch

2. Models

Ideal snips

These multi-purpose snips can cut through a metal sheet (straight-cut) as well as cut large and small contours or radii (outline-cut). It doesn't matter whether you're cutting at the edge (edge cut) or at the centre of a sheet. You can naturally use ideal snips for notching-operations.

Outline cutting snips

Best suited for fine and narrow radius cuts near the edges of a metal sheet. You can use the delicately shaped edge of these snips to cut extremely narrow shapes or curves without any problem.

Straight cutting snips

Ideal for cutting a metal sheet at the centre and/ or near the edges. You can use long edges of this tool to cross-cut and notch large metal sheets quickly and precisely with less effort.

Left cutting snips

Right cutting snips

3. Right cutting or left cutting snips. What's the difference?

Right cutting snips are designed so that they can cut right radii, a curve from left to right easily. Left cutting snips are the best for radius cuts from right to left.

The common perception is that, right cutting snips are for right-handers, and left cutting snips for left-handers. This is not true. If a right-handed person is cutting a radius from left to right, using right cutting snips (radius from left to right), you have to cut outwards from your wrist. With left cuttings snips, (radius is then from right to left) you can cut inwards from your wrist. This is considerably more ergonomic. Try it out once!

4. Grades

The service life of cutting edges depends directly on the grade of steel used and the processing. High-performance snips with case-hardened HSS – edges fulfill the most stringent requirements regarding service life and cutting performance. Cutter heads of the HSS-Tin grade are additionally coated with extremely hard titanium nitride that reduces wear and tear. Other cutting materials, namely special high quality steel, quality steel and standard quality steel, are available depending on the application and the frequency of use.

Grades of blade steel		Durchility	Appro. Tensile	Max. Sheet thickness at tensile strength of:		
		Durability	Strength of Blade PSI	58 000 PSI	116 000 PSI	159 000 PSI
HSS-TiN*** D27AH-TiN	64	++++	370,000	0.06"/16 ga	0.05"/18 ga	0.02"/25 ga
HSS D27AH	64	++++	370,000	0.06"/16 ga	0.05"/18 ga	0.02"/25 ga
Special High Grade Steel D29SS; D29ASS; D122S; D123S	60	+++	320,000	0.06"/16 ga	0.05"/18 ga	1
High Grade Steel D08; D16; D22A; D27; D-SPC; D-SPS	58	++	300,000	0.06"/16 ga	0.05"/18 ga	1
Standard Quality Steel D146	54	+	266,000	0.04"/19 ga	0.03"/22 ga	1

- High grade steel cutting blades up to HRC 59
- Micro-serrations for slip proof cutting
- High grade steel cutting blades HRC up to 61
- Micro-serrations for slip proof working
- Right or left cutting versions

- High grade steel cutting blades HRC up to 61
- Optimized leverage ratio 25% less effort
- Compact cutter head
- Right or left cutting versions

- Case-hardened, high-speed steel edges HRC up to 68
- For long continuous, straight and curved cuts
- Available in right or left cutting versions

D22AL-BE	11	2 1/2	1.2	1.25	5

- High grade steel, extra long cutting blade designed for continuous cuts - HRC up to 59
- Angled cutter heads keep hands free from work
- For long continuous straight and large
- Available in left cutting version only

Strap cutter (D123)

BESSEY® Product #	Overall Blade Length Length		Approx. Weight	Case
	Inches	Inches	Pounds	qty.
D123S-SB	10 ¹ / ₄	1 1/2	1.3	5

- Cuts steel straps up to 32 x 1mm $(1^{1}/_{4} x^{1}/_{32})$ with one hand
- Holds banding tightly during cut to prevent banding from springing up
- Ergonomic handle and compound leverage for comfort and ease of use

Super nibbler (D24)

BESSEY® Product #	Overall Length			Case
	Inches	Inches	Pounds	qty.
D24-SB	10 ¹ / ₂	N/A	1.0	5

- Capable of cutting a 2" (50 mm) hole (starting hole of 8.5 mm required)
- Distortion free cuts of up to 1.2 mm thick in normal sheet metal
- Integrated chip-separator for cleanly cut notches

- Stainless steel blade
- Spring opens cutter automatically
- Thumb operated lock
- Stainless steel blade
- For multi-core cable with diameters up to 10 mm (3/8")
- Stainless steel blade cuts wide range of material
- Spring opens cutter automatically, thumb operated lock
- Ergonomic handle with soft-insert
- Notched blade for wire stripping
- Stainless steel cutter edge cuts wide range of material
- Angled cutter head keeps hands safely free from work
- Handle made of robust fibreglass-reinforced plastic with soft-insert
- Light duty, nickel plated, serrated blades
- With wire cutting notch
- Quality steel, polished edges, black handle
- Curved blade
- Heavy duty with stainless steel blades
- Offset, black lacquered handles, extended finger grip

- 4 types of blades: normal, scoring, linoleum and rug
- Comes in a convenient case

Industrial fluids & compounds

- The original ready-to-use metal putty
- To build up, apply in thin layers, allow to dry and repeat
- Drying time for 1/8" = 3-4 hours
- Can be drilled, tapped, ground, milled, chisselled, sanded, etc.
- The original ready-to-use metal putty
- To build up, apply in thin layers, allow to dry and repeat
- Dry for 24 hours then cure at 425° for 1 hour
- Can be drilled, tapped, ground, milled, chisseled, sanded, etc.
- Surface-prep for regular & Hi-Temp Lab-metal
- Thins Lab-Metal for brushing or spraying leaves no film

- Heat absorbing, insulating paste
- Insulates adjacent material against heat transfer during welding, soldering brazing or other heat treatment
- Non-toxic and easily applied direct from container
- Water based version is non-toxic and biodegradable, safe for use outdoors
- Paint friendly no silicones
- \blacksquare Non-flammable CO_2 propellant
- No CFC's or trichloroethylene
- For ginding wheels, sanding belts and saw blades
- Eliminates heat build up and belt loading extends wheel life

¹Relton fluids and compounds are available for sale but only in Canada. ²Available as a special order only. Non-stock.

- Reduces friction; longer tool life; clean burr-free thread
- Forms tough film for use on a wide variety of materials
- Reduces friction; longer tool life; clean burr-free thread
- Forms tough film for use on a wide variety of materials
- Improves blade life; reduces machine wear
- Contains rust and corrosion inhibitors
- Water based; Non-WHMIS environmentally friendly
- No chlorine, no sulfur, non-toxic formulasafe to use
- Case pricing applies (1-4, 5+)
- Specifically for aluminum use for tapping, drilling, boring, milling, turning, broaching, reaming and sawing
- May be used on other metals
- Non-WHMIS environmentally friendly
- Case pricing applies (1-4, 5+)
- High quality air tool and air line lubricant

- Fine machined finish even on tough materials such as aluminum, beryllium, brass, bronze, cast iron, copper, iconel, magnesium, molydenum, stainless steel, and stellite
- No 1,1,1 Trichloroethane ozone friendly, non-toxic, and non-flammable; non-WHMIS
- Case pricing applies (1-4, 5+)

Specialty products

- Geared head offers 4X the power of an ordinary wrench alone
- Requires no air or electricity
- Up to 12,000 ft. lbs. of torque
- Use with a torque wrench when precision required (always calibrate to be sure)
- X4 Units can be stacked for higher power
- Limits risk of "spring back" when extender bar is used
- Coupled with larger model makes entire system anti-backlash

Torque multipliers (X4)

HH-11 A	Pyrometer/Thermometer w/probe & flex cord	2.00	1
SMP-HT-K-6H	Replacement probe with handle	1.50	1

- Extend bearing life and cut operating cost by eliminating hammering and pounding to cold-mount bearings
- Works on bearings, sprockets, gears, couplings, sleeves
- Reduces risk to operator from flames, torches or oil baths
- Demagnetizes bearings easy to use, ready in minutes

Model SC110D (110V or 220V)

- Bearing capacity: 4 3/8" x 11" 0.D. (14" OD with optional raising blocks)
- Computer chip monitors and stabilizes temperature
- Display panel (pre-set times, temperatures) & auto shut off

Model SC110V (110V or 220V)

■ Bearing capacity: 4 3/8" x 11" 0.D. (14" OD with optional raising blocks)

Model BC (220V, or 440V or 550V)

■ Bearing capacity: 8" x 22" 0.D. (32"0D with optional raising blocks)

Model BC Special (110V or 220V)

- Bearing capacity: 12 1/4" x 22" 0.D. (32"0D with optional raising blocks)
- All Bearing heaters are single phase units

- Increase OD of bearing that can be fit
- SCRB fits SC Models
- BCRB fits BC and BCS Models
- Multi-purpose measuring device for bearings, gears, etc.
- Digital readout from -50°C (-58°F) to +1300°C (+2000°F)
- Probe max rated for 650° (1200°F)

1. BESSEY® General Cautions & Warnings

PRICING: Retail prices of our products can change at any time as they are impacted by a wide range of business factors (including transportation, staffing, local /regional taxes and other overhead expenses). Your distributor incurs these expenses in doing business in your community.

PRODUCT INFORMATION: BESSEY® Tools North America reserves the right to alter technical specifications at any time. Some product specifications may vary from region to region to meet the requirements of the international market-place. Errors and omissions excepted, BESSEY® believes that to the best of its knowledge the product illustrations and descriptions provided in the current BESSEY® catalog are accurate. However, such descriptions and illustrations are for the sole purpose of identification, and do not express or imply any warranty or condition that the products are merchantable or fit for a particular purpose or that the products will necessarily conform to the illustrations or descriptions. The customer is solely responsible for reliance on, or use of, any information, and for the use or application of any product. BESSEY® expressly disclaims any liability for direct, indirect, consequential or incidental damages in all events. In addition, all claims for damages, losses and causes of action shall be limited to the purchase price paid for the products in question. Note: "Clamping Force" is an estimation (nomimal info.)

CAUTION: Clamping tools are not suitable for lifting, pulling or transporting. Improper use may lead to personal injuries or material damages. Clamping tools should only be clamped manually and without the use of any auxiliary tools or other devices. Please also see website for further information.

CAUTION: Cutting Technology

Always wear appropriate protection including goggles and gloves while working. Sheared parts may injure workers and bystanders. Disconnect the power supply while working on electrical devices to avoid the risk of electric shock. Always ensure the cutting direction while using snips, knives and cutters is away from your body. Only use original replacement parts whenever required. Tools should only be used manually without using any auxiliary tools. Improper use may lead to personal injuries, material damages, personal injuries or even death. Please also see website for further information.

2. BESSEY® Terms and Conditions - Distributor

PRICING: All prices, sizes and product specifications are subject to change without notice. Orders accepted only at price in effect at date of shipment.

QUOTATIONS: Quotations expire thirty days from date issued unless otherwise specified in writing.

FREIGHT TERMS: All prices are F.O.B. (BESSEY® US). Prepaid shipping is based on minimum invoice values and, are subject to change without notice. Please contact BESSEY® Tools North America for this information. All prepaid orders are shipped by ground transportation and using a provider of BESSEY®'s choice. If customers request another carrier, or another method of delivery, they must provide their own billing information in advance. Shipping errors must be reported within 10 days of product receipt.

TERMS OF PAYMENT: All orders are subject to BESSEY®'s credit approval and are due and payable thirty days (net) from the shipment date. Past due accounts are subject to interest at 1.5% per month (18% per annum).

RETURN GOODS: Products returned for credit will not be accepted. Goods are not returnable unless permission has previously been received in writing from our office. Returned goods are subject to the following conditions:

- 1. Incoming transportation charges, if not prepaid, will be deducted from credit memorandum.
- 2. All material returned must be found by BESSEY®, upon arrival, to be in first class saleable condition. If not, the cost of putting it in such condition will be deducted from any credit memorandum.
- 3. A restocking charge of 20% plus an additional 2% per each month elapsed since date of purchase, of the original invoice cost, will be deducted from any credit memorandum.
- 4. Products returned must be current products in the BESSEY® product offering.

3. BESSEY® Tools North America Warranty Policy

BESSEY® brand clamping products are warranted under a Limited Lifetime program. We warranty that the products will be free from defects in material and workmanship for the life of the tool or we will replace, refund or repair it; provided that this warranty does not cover any damage caused by abuse, misuse, improper handling, negligence, alteration or normal wear and tear. Other tools including but not limited to snips, c-clamps, some specialty clamps, magnets, bearing heaters and pyrometers are guaranteed for 1 year. For all products, BESSEY® Tools North America reserves the right to refuse either a repair or a replacement.

BESSEY® Tools North America makes no other warranties, express or implied, with respect to the tools or their suitability for specific applications. BESSEY® Tools North America neither assumes, nor authorizes any person to assume for it, any other warranty, or obligation express or implied. For a more detailed listing of Terms, Conditions and Warranty please contact BESSEY® Tools North America direct and toll-free at 1.800.828.1004.

BESSEY® Tools North America will, at its sole discretion, define if a product submitted for warranty evaluation is eligible for a warranty return and then, if eligible, offer to repair, refund or replace any defective product. To initiate such a claim, please call and request a return authorization number then, return all parts of the broken tool(s) plus a written warranty evaluation request (with contact information) in a freight prepaid format to BESSEY® Tools North America.

This warranty gives you specific legal rights. Please note: you may also have other rights, which could vary depending upon state, federal and provincial law.

For more information, email info@besseytools.com or call 1-800-828-1004.

4. Return Procedures

RETURN GOODS – Purchased direct from a Tool Distributor: Please initiate returns of any sort with the distributor where the tool was purchased.

RETURN GOODS – Purchased direct from BESSEY® Tools: Products purchased directly from BESSEY® which are returned for credit (only permitted if incorrectly shipped or if the product is found to be defective upon receipt), warranty or repair will not be accepted unless permission has previously been received in writing from our office. Please contact BESSEY® at info@besseytools.com to initiate a return. You may be asked for invoice numbers, packing slips or proof of delivery; please have this information ready.

Returned goods are subject to the following conditions:

- 1. Incoming transportation charges, if not prepaid, will be deducted from credit memorandum.
- 2. All material returned must be found by BESSEY®, upon arrival, to be in first class saleable condition. If not, the cost of putting it in such condition will be deducted from any credit memorandum.
- 3. A restocking charge of 20% plus an additional 2% per each month elapsed since date of purchase, of the original invoice cost, will be deducted from any credit memorandum.
- 4. Products returned must be current products in the BESSEY® product offering

5. Calprop Statement (North America)

Proposition 65 (formally titled "The Safe Drinking Water and Toxic Enforcement Act of 1986") is a California law that has been in effect since 1986 to promote clean drinking water and keep toxic substances that cause cancer and birth defects out of consumer products. It is administered by Cal/EPA's California Office of Environmental Health Hazard Assessment (OEHHA). Proposition 65 regulates substances listed by California as causing cancer or birth defects or other reproductive harm in two ways. The first regulatory arm of Proposition 65 prohibits businesses from knowingly discharging listed substances into drinking water sources, or onto land where the substances can pass into drinking water sources. The second regulatory arm of Proposition 65 prohibits businesses from knowingly exposing individuals to listed substances without providing a clear and reasonable warning.

BESSEY® branded products do not, to the best of our knowledge, expose individuals to harmful substances as listed by the Cal Prop 65 Legislation.
