Education:

Mt. Marty College Yankton, SD 1992-1994

Bachelor of Science Radiology

Sioux Valley Hospital Sioux Falls, SD 1994-1996

Certificate in Radiology

Work Experience:

Avera Breast Center Sioux Falls, SD 2009-present

Breast Program Quality Manager: Maintain quality standards and implement and sustain accreditations, maintain and implement EQUIP standards, develop short and long term quality strategic planning of the breast health program.

Certified Breast Imaging Navigator/Mammographer: Perform 3D screening and diagnostic mammograms as well as US and Stereotatic breast biopsies, needle localizations, BSGI and CESM. Navigating patients through the process from screening mammography to cancer diagnosis. Educating patients and physicians. Working closely with the Radiologists.

Madison Regional Health Madison, SD 2016-present

Staff Technologist: Perform diagnostic imaging as well as CT/MRI in a multimodality hospital. Weekend and on call responsibilities as well.

Avera St. Benedicts Hospital Parkston, SD

Staff Technologist: Perform diagnostic imaging as well as CT in a multimodality facility. Weekend and on call responsibilities.

Platte Health Center Avera Platte, SD 2004-2009

Director of Radiology: Oversaw the daily operations of a multi-modality department as well as performing radiology procedures. I also worked intently on policy and procedure, budgeting, staffing/patient relations as well as intra-department relations. Was involved in starting up the mammography department in the hospital as well as converting to CR images, and I was also involved in the Meditech conversion Avera implemented.

DMS Health Technology Fargo, ND 2000-2004

MRI Technologist: Performed MRI procedures on a stationary scanner located in Watertown, SD.

St. Mary's Health Care Center Pierre, SD 1998-2000

Staff Technologist: Performed routine radiologic procedures, mammography and CT procedures as well.

St. Bernard's Hospital Milbank, SD 1996-1998

Staff Technologist: Performed routine radiologic procedures, mammography and CT procedures as well.
