LINCOLN

DO BUSINESS EASILY AND ASTUTELY WITH THE OVERALL LEADER IN FLEET BUSINESS¹

With our wide spectrum of value-filled Ford and luxury-laden Lincoln vehicles – equipped with Ford Co-Pilot360™ and Lincoln Co-Pilot360™ confidence-driving technology² – we'll help you find the right match for your particular needs. Having Ford Fleet on your side gives you the expert advantage of our decades-long breadth of experience, assisting on both local levels and international stages.

Ford is America's commercial vehicle sales leader for 34 years strong,³ so connect with Ford Upfits to start customizing any of the complete line of Class 1-7 Built Ford Tough® work vehicles. Manage your fleet's health and operating dynamics extensively through direct access to key OEM-grade insights via Ford Telematics and Ford Data Services.™

Beyond acquiring the right vehicles, it's just as important to obtain the right financing plan. Offering you choice incentives, Ford Credit Commercial Lending Services aims to help keep your budget in line while your strategy remains on target. Employ turnkey Automotive Remarketing Services to leverage high-volume discounts that help provide an excellent net return.

When it comes to vehicle service, maintenance and parts, we're with you every step of the way too. In other words, optimize your operations completely with Ford Fleet.

All 2020 and 2021 model-year vehicles shown in this brochure are pre-production models. Product availability varies by model. See your dealer for details.

A LEADERSHIP ROLE

We're committed to achieving top-level performance in real-world safety initiatives, driver-assist measures and more, including Ford Co-Pilot360™ and Lincoln Co-Pilot360™ confidence-driving technology. Advancing vehicle technology includes the development of features that further protect occupants and other vulnerable road users in a variety of situations. We offer drivers a range of innovations that utilize radar, sonar and cameras to sense and interpret the environment. These systems can also aid with routine tasks to reduce demands on the driver. Many innovations require stringent internal criteria long before regulatory standards are adopted.

SEE NUMEROUS FORD AND LINCOLN TECHNOLOGIES IN ACTION:

Visit [YouTube.com](https://www.youtube.com) and then, for Ford vehicles, type **Ford How-To – along with the name of the specific feature or technology** – in the search box at the top of the page. Follow the same procedure for Lincoln vehicles by typing **Lincoln How-To – plus the name of the specific feature or technology** – as the search query. These videos can also be found on [Owner.Ford.com](https://www.Owner.Ford.com) and [Owner.Lincoln.com](https://www.Owner.Lincoln.com) if preferred.

DETECTING ACCIDENTS

A number of Ford technologies – in addition to handling and braking capabilities – can benefit drivers by helping them control the vehicle or alerting to potential collisions. These technologies can support routine driving tasks by improving confidence and reducing demands on the driver.

ASSISTING DRIVERS

Driver-assist technology¹ will continue to advance to provide drivers more support in certain situations, such as when changing lanes, in traffic jams and on freeway trips. The driver will always remain in the loop to take control, if required.

PROTECTING OCCUPANTS

Many factors influence a vehicle's crash performance, including the design of the vehicle and the use of safety equipment. Our commitment to advancing vehicle safety includes research and development of technology that further enhances occupant protection in a wide variety of crash circumstances.

RESPONDING TO CRASHES

One method of assisting emergency responders to reach the scene of a vehicle crash quickly is through in-vehicle emergency call systems and post-crash notification. These systems can help occupants summon assistance in the event of an accident.²

ENCOURAGING SAFER DRIVING

Driver behavior can be a contributing factor in many vehicle crashes. We developed and support an array of programs and technologies – such as MyKey® – that help encourage safer behavior on the roadways, for both experienced and novice drivers.

MANAGING VEHICLE SAFETY

We design and manufacture vehicles that achieve high levels of vehicle safety for a wide range of people over a broad spectrum of real-world conditions. Vehicle safety is overseen by our Vice President of Sustainability, Environment and Safety Engineering.

¹Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ²The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated. Aftermarket on-board diagnostic devices may interfere with various vehicle systems including 911 Assist. To avoid interference, remove the device or contact the device maker for more information on compatibility.

SAFETY FEATURES¹

Safety is of the highest priority in the design of Ford and Lincoln vehicles. Many factors influence a vehicle's crash performance, including its ability to absorb energy on impact and the use of passive safety equipment. Safety belts remain the most effective and important vehicle safety technology available. Our patented technologies allow airbags to be placed in other locations inside the vehicle, such as knee airbags for front passengers. Additionally, advanced and ultra-high-strength steels, aluminum, plastics and composites are utilized in our vehicle structures to maintain top levels of safety crash performance while reducing vehicle weight for improved performance. Ongoing vehicle safety and occupant-protection research includes the analysis of real-world crash data and the adoption of advanced computer models of the human body.

4-Way Adjustable Head Restraints

Head restraints are designed to help minimize the risk of neck injury in the event of a collision. Not everyone is the same size, so these restraints are adjustable – moving up and down, and back and forth – to suit each individual.

Brake Assist

Engineered to detect how quickly a driver presses the brake pedal, the system can help provide additional stopping power in critical situations.

Cornering Lamps

Automatically illuminate the inside of a corner when parking, turning or driving along winding roads.

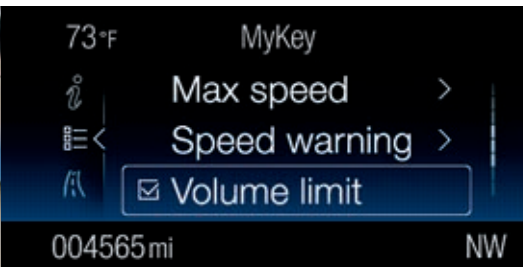

Heated Mirrors

Helping keep the sideview mirrors clear of snow and ice, heating begins when the rear-window defroster is activated.

Inflatable Rear Safety Belts

This feature combines attributes of traditional safety belts and airbags to provide an added level of crash safety protection for 2nd-row outboard passengers. In the event of certain frontal or side collisions, they distribute crash-force energy across more of the occupant's torso than a traditional safety belt.

MyKey[®]

Program a multitude of vehicle functions even when not behind the wheel. Where necessary, MyKey can help promote good driving habits: Encourage front safety belt use through Belt-Minder,[®] limit top speed, provide speed-limit alert chimes, display an earlier low-fuel warning, keep audio volume down, and/or prevent safety features and driver-assist technologies from being disabled.

Personal Safety System[™]

During certain types of frontal collisions, strategically placed sensors measure occupant conditions. Then, in milliseconds, the system determines how the dual-stage front airbags will deploy and front safety-belt pretensioners will activate. This sophisticated network employs a Front-Passenger Sensing System to specifically determine whether (and in what stage) the front-passenger airbag should deploy.

Tire Pressure Monitoring System (TPMS)

Pressure is constantly measured in all the road tires. When any tire is significantly underinflated, a telltale on the instrument panel alerts you. That's the signal to check the pressure of each tire, matching the figure to the psi (pounds per square inch) recommended for the vehicle.

Individual Tire Pressure Monitoring System (TPMS)

This version of TPMS shows you specifically which tires are underinflated, plus the actual pressure in all 4 tires: The psi (pounds per square inch) numbers are shown in the vehicle's information display.

Wiper-Activated Headlamps

With the exterior lighting control set in the Autolamp position, the headlamps and taillamps will automatically turn on when the windshield wipers activate.

In an increasingly crowded and distracted world, we can all use more confidence on the road. Our smart, advanced Ford Co-Pilot360 Technology and Lincoln Co-Pilot360 Technology are there to help you. So you can feel confidently in command when you're going about your business.

180-Degree Camera

Get an extended perspective of what's in front of your vehicle to ensure a better cross-traffic view of oncoming vehicles. A lens washer is built in.

360-Degree Camera²

A many-perspectives approach: The 4 cameras – in each sideview mirror, along with the front and back – relay full-color images (including a bird's-eye view) to the Split-View Display. This system helps you see the ground in front of or around the vehicle to help avoid obstacles, or to help line up the vehicle when parking.

Active Park Assist²

It helps take the angst out of parallel parking: With the simple press of a button, ultrasonic sensors can detect an appropriate parallel parking spot and automatically steer the vehicle into the space. You control the accelerator, gearshift and brakes.

Enhanced Active Park Assist²

Never pass up a potential parking space again. Enhanced Active Park Assist makes it simple to nail an impressive park – time after time – even in tight parallel or reverse perpendicular spots. All you have to do is activate, shift, accelerate and brake while your vehicle takes care of the rest. This feature also offers Park Out Assist with side-sensing capability.

Active Park Assist 2.0²

Find the parking space that's just right. When engaged, Active Park Assist 2.0 can actually help locate a potential spot. Then all you have to do is brake to a complete stop, shift into neutral, and hold down the Active Park Assist button – your vehicle takes care of the rest. Park Out Assist with side-sensing capability is included so you can confidently navigate out of a spot when someone's parked too close.

Adaptive Cruise Control with Stop-and-Go and Lane Centering²

Few driving situations can feel as tedious as stop-and-go traffic. Not only does Adaptive Cruise Control help you keep pace on your journey, it also slows down your vehicle if the traffic ahead has stopped or slowed. As soon as things clear, you'll resume your set speed.³ Plus, the added Lane Centering feature even scans lane markings to help you keep your vehicle centered between the lines.

Intelligent Adaptive Cruise Control²

You can think of it as next-level adaptive cruise. Beyond keeping pace with traffic ahead – and stopping or slowing down your vehicle as the need arises – Intelligent Adaptive Cruise Control is so smart, it can "read" speed limit signs and adjust your speed accordingly.³ To help keep your vehicle centered between the lines, this ingenious system also scans lane markings.

Adaptive Steering

The steering ratio of the vehicle is adjusted to adapt to changing conditions. At slower speeds, the system makes the vehicle agile and easy to turn as it dials more steering into the road wheel. And at highway speeds, this technology further optimizes steering response, enabling the vehicle to react smoothly and precisely to driver input.

AdvanceTrac® Electronic Stability Control⁴

When this system senses wheelslip or loss of traction, it applies braking where needed to help keep the vehicle on its intended path. Several sensors combine information, including the steering-wheel angle, lateral acceleration and yaw rate, to determine if the vehicle begins to lose directional control.

AdvanceTrac with RSC® (Roll Stability Control™)⁴

When a loss of traction or wheelslip is sensed, AdvanceTrac with RSC applies braking where necessary to help keep the vehicle on its intended path. In addition to electronic stability control helping avoid skids and lateral slides, the Roll Stability Control helps avoid a rollover thanks to a pair of gyroscopic sensors that monitor vehicle dynamic data.

Auto High-Beam Headlamps²

Now, unlit roads, dark peripheries, and other low-visibility situations don't have to catch you off guard. Auto High-Beam Headlamps can sense poor lighting conditions and switch on to light your path ahead. They can even sense oncoming headlamps and dim automatically, so you don't have to worry about blinding other drivers.

Autolamp

In the Autolamp position, the headlamps will turn on automatically when necessary or whenever the windshield wipers activate. The headlamps will also stay on for a set period of time after you turn off the ignition and you exit the vehicle.

BLIS® (Blind Spot Information System) with Cross-Traffic Alert²

How many times have you tensed up during an attempted lane change? BLIS can help detect and alert you to vehicles in your blind spots, while Cross-Traffic Alert can detect traffic behind you when you're slowly backing out of a parking space.

BLIS (Blind Spot Information System) with Trailer Coverage²

It's rush hour. You've got a large item in tow. And you need to change lanes. The situation is a bit daunting. To help ease lane-change anxiety, this feature can alert you not only when a vehicle is in your blind spot, but also when one is alongside your trailer.

Curve Control

Sensing a particular curve is being taken too fast, this smart system slows the vehicle down. Employing engine throttle reduction and 4-wheel braking intervention, it's always active in helping you maintain control around curves.

Driver Alert System

A forward-facing camera can detect lane markings on the road ahead. If the system detects your alertness level is reduced below a certain threshold, a chime sounds and a message appears in the cluster display.

Evasive Steering Assist^{2,5}

Traffic is rolling along smoothly when suddenly there's a slow or stopped vehicle in your path. Evasive Steering Assist can help make it easier to avoid a collision. It doesn't steer for you, but it can provide extra steering support if the system's warning goes off and you need to maneuver around the vehicle ahead.

¹Feature availability varies by vehicle. ²Ford Co-Pilot360 and Lincoln Co-Pilot360 Technology features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ³If vehicle is stopped for more than 3 seconds, driver must intervene and press "RES" button or accelerator pedal to resume system operation. ⁴Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ⁵Evasive Steering Assist does not control steering.

Forward Collision Warning with Brake Support

Sensors can detect slower vehicles traveling in the same direction. If a potential collision is detected a warning sounds. If a collision is imminent, the vehicle precharges the brake system for full responsiveness when you brake.

Forward Sensing System

When the vehicle is in Drive and traveling at a low rate of speed, ultrasonic sensors on the front bumper determine the distance of certain objects in front of the vehicle. If an object is detected, a high-pitched tone sounds.

Hill Descent Control™²

Steep hills are often tricky to navigate, especially if you're towing a trailer. Hill Descent Control can help ease the situation by doing just what its name says. It helps you maintain a set speed when you're driving down an incline by automatically applying the brake when needed.

Hill Start Assist²

On a slope, this technology helps to momentarily keep the vehicle from rolling when releasing the brake pedal. It allows time for you to transition your foot to the accelerator pedal.

Lane-Keeping System²

It happens. Maybe you've wandered a little too close to the edge of your lane. The Lane-Keeping System can help, even during a moment of distraction. This feature scans your vehicle's position between the lines in the road ahead and can alert you if you're starting to edge out of your lane.³ Having trouble staying on track? After you've drifted a few times, you'll see a coffee cup icon letting you know it's time to take a break.

Navigation²

Whether it means missing a timed delivery or losing your cool, a wrong turn can put a dent in your day. But like a sherpa for trips large and small, the Navigation System can help you stay confidently on course. And that's not all – it can also point you to the nearest gas stations.

Pre-Collision Assist with Automatic Emergency Braking (AEB)²

We should all drive defensively, but sometimes other people's lack of attention can create a hazard. This feature scans the road ahead and can alert you to potential collisions with vehicles or pedestrians detected in your path.⁴ If an impact becomes imminent and you don't take corrective action, the brakes can apply automatically. But don't worry – they'll only activate if they're needed.

Pro Trailer Backup Assist™²

Whether you're a novice or a seasoned pro, backing up with a trailer can be challenging. This technology makes it as easy as turning a knob – simply rotate it in the direction you want the trailer to go, and Pro Trailer Backup Assist responds accordingly.

Rain-Sensing Windshield Wipers

Once set, they automatically turn on and adjust the rate of wiper action – depending on the amount of moisture (rain, sleet or snow) detected on the windshield.

Rear View Camera²

Between glancing in the rearview mirror and craning your neck, backing up requires a little multitasking. The Rear View Camera may not be an extra set of eyes, but it does provide a great view of what's behind your vehicle.⁵ Be sure to keep the camera lens free of debris (like dust and snow) and you can navigate Reverse with more confidence.

MORE FORD CO-PILOT360 TECHNOLOGY & LINCOLN CO-PILOT360 TECHNOLOGY¹

- 911 Assist[®]
- Adaptive Cruise Control
- Adaptive Cruise Control with Stop-and-Go
- Adaptive Headlamps
- Adjustable Speed Limiter
- Auto Hold
- Dynamic Hitch Assist
- Lane-Keeping Alert
- Post-Collision Braking
- Pre-Collision Assist with Dynamic Brake Support
- Side Wind/Cross Wind Stabilization
- Trail Control

Reverse Brake Assist²

Backing up just got a lot less stressful. Reverse Brake Assist can detect both stationary and moving objects behind your vehicle. Not only that, it can apply the brakes if you don't stop in time. The system can recognize vehicles crossing your path at up to 37 mph.

Reverse Sensing System

While slowly backing up, ultrasonic sensors on the rear bumper can help detect certain objects up to 6' behind the vehicle. Upon getting closer to the object, a low-pitch tone sounds more rapidly inside the vehicle.

SOS Post-Crash Alert System™⁶

The horn sounds and hazard lights flash to alert others if the vehicle is involved in an accident where any airbag deploys and/or the front safety belt pretensioners activate; especially useful if the driver is unconscious and can't signal for help.

Trailer Sway Control

The motions of the vehicle are monitored when towing. If trailer sway is detected, the system selectively applies the brakes⁷ as needed to help you maintain control of the truck and trailer.

Quality is at the heart of everything we do, and it drives continuous improvements across all functions – including technological development – while delivering vehicles that you want and value. Product development always starts with you, the customer. We look to understand who you are and what you desire in a vehicle. Then, we identify and implement the technology that will meet your evolving needs and expectations. We use human-centered design and a culture of collaboration to help us create insights and develop new experiences that meet your needs and exceed your expectations.

Auto Start-Stop

In an effort to help reduce vehicle tailpipe emissions, improve fuel economy and eliminate wasted fuel, the engine switches off when the vehicle is stationary and you have pressure on the brake pedal.

Configurable Daytime Running Lamps

Daytime running lamps complement the design and look of the headlamps and provide a subtle, visual cue for other drivers in daylight situations. Using the vehicle's information display, you can choose to turn them on or off.

Dynamic Torque Vectoring²

Teaming up with all-wheel drive (AWD) to send up to 100% of the available rear-axle torque to a single outside rear wheel while cornering, the end result is a smooth and seamless driving experience.

Electric Power-Assisted Steering (EPAS)

An electric, speed-sensitive steering-assist system, EPAS helps deliver great maneuverability and responsive handling. Pull-drift compensation adapts to changing conditions, such as crowned roads or steady crosswinds. Active nibble control (if so equipped) helps smooth out the effect of minor tire vibrations.

Integrated Trailer Brake Controller

This factory-installed controller³ synchronizes the vehicle and electric trailer brakes. It includes GAIN adjusters, a GAIN setting display, an output bar graph, and a visual/audible indicator for a successful trailer connection or trailer disconnect.

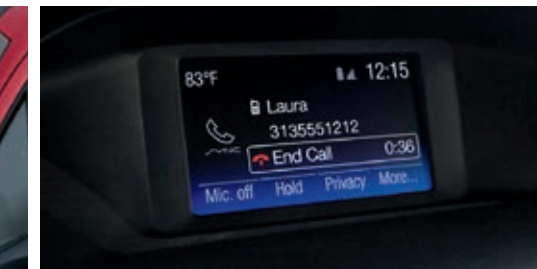

Intelligent 3-Blink Turn Signal

Especially beneficial for a simple lane change: With a single tap of the turn-signal lever, the signal blinks 3 times – and then it stops automatically. It can also be set to function for longer periods, such as when indicating a turn.

QuickClear™ Electric Windshield Defroster

A transparent heating element embedded in the windshield greatly helps clear snow, ice and fogging, reducing the need to scrape the windshield.

SYNC^{®4}

This voice-activated technology helps you keep your eyes on the road and hands on the wheel. Use your voice to make a call, listen to music, access select apps with SYNC AppLink^{®5} and much more.

SYNC 3⁴

Control calls, music and more with just a touch and your voice. SYNC 3 lets you keep your hands on the wheel while it quickly responds to spoken requests. Or the responsive touchscreen in the center of the instrument panel can be accessed for its many helpful features. The system also features 2 smart-charging USB ports to help keep devices powered up and ready to go.

Terrain Management System™

Allows you to select from 4 modes that help balance 4WD, engine, transmission and traction-control systems to various situations and road conditions encountered.

1. Normal (for everyday driving)
2. Mud/Rut
3. Sand
4. Snow/Gravel/Grass

Torque Vectoring Control (TVC)²

Operating automatically, it helps keep the vehicle tracking along the driver's intended path, even when road surfaces may compromise intention. While accelerating through a corner, TVC adjusts the speed between the front wheels to enhance cornering agility and reduce understeer. Braking is applied to the front inside wheel, so more engine torque goes to the outside wheel, which has more grip.

Tow/Haul Mode with Integrated Engine Brake

Tow/haul mode helps provide better control when hauling a heavy trailer load down steep grades. It downshifts the transmission – when needed – to provide additional levels of engine braking. Helping slow down the vehicle and trailer, the integrated engine brake harnesses the force of the Power Stroke[®] Turbo Diesel.

¹Feature availability varies by vehicle. ²Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ³Ford trailer brake controller (TBC) has verified compatibility with trailers (one to four axles) utilizing electrically actuated drum brakes and certain Electric-Over-Hydraulic (EOH) actuated drum or disc brake systems. See the chart for Ford-verified brands and model numbers of TBC-compatible EOH brake systems. ⁴Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. ⁵Commands may vary by phone and AppLink software.

NEW 2020 FORD **TRANSIT** PASSENGER VAN

#1 AGAIN: FORD IS AMERICA'S BEST-SELLING VEHICLE BRAND – 9 YEARS STRAIGHT¹

For 42 years in a row, Ford F-Series is America's best-selling truck; and for the 40th consecutive year, Ford has America's best-selling lineup of commercial vans. It's a mighty one-two punch that's Built Ford Tough.[®] Not to be outdone, Ford SUVs set a record-breaking sales mark in 2018. A slew of new vehicles – highlighted below – can only help fuel the momentum. Ford Co-Pilot360™ confidence-driving technology is standard on all new Ford vehicles, and every new commercial truck, van and wagon is supplied with a built-in modem for available Ford Telematics and Ford Data Services.™

NEW 2020 FORD TRANSIT. Along with the addition of a Crew Van outfitted with a triple-wide 2nd-row seat, there's the game-changing availability of AWD² and a power-sliding side door. The standard, all-new 3.5L PFDi gas engine and optional, all-new 2.0L EcoBlue[®] Bi-Turbo I-4 diesel³ powerplant are paired with a new 10-speed SelectShift[®] automatic transmission. Post-Collision Braking, the Lane-Keeping System, and Pre-Collision Assist with Automatic Emergency Braking (AEB) are standard equipment.

NEW 2020 FORD SUPER DUTY[®] PICKUP AND CHASSIS CAB. Introducing the restyled, next level of Built Ford Tough F-Series capability, power and technology. The Super Duty Pickup boasts its highest-ever towing and payload ratings. For pickups and chassis cabs, there's an advanced, all-new 7.3L V8 gas powerplant, and the upgraded, 3rd-generation 6.7L Power Stroke[®] V8 Turbo Diesel. F-350, F-450 and F-550 are appointed with the new TorqShift[®] 10-speed SelectShift automatic transmission. Trailer Sway Control, Hill Start Assist and Automatic High-Beam Headlamps are standard. And Pre-Collision Assist with Automatic Emergency Braking (AEB) is available.

NEW 2021 FORD SUPER DUTY F-650/F-750. Ford is the only manufacturer to offer gas and diesel engines in its Class 6-7 trucks. Choose either the all-new 7.3L V8 gas engine or the next-generation 6.7L Power Stroke V8 Turbo Diesel. The instrument cluster and steering wheel are new, and the redesigned standard audio system includes Bluetooth[®] capability and a USB input. Also standard are Autolamp Automatic On/Off Headlamps, Hill Start Assist and traction control.

NEW 2021 FORD E-SERIES CUTAWAY AND STRIPPED CHASSIS. E-Series has been in continuous production for 58 years – with over 2.7 million vehicles still on the road⁴ Select the engine application best suited for your needs: The all-new 7.3L V8 is available in Economy and Premium ratings. A new upfitter interface module ensures a more seamless experience. Hill Start Assist, Electronic Stability Control, and Autolamp come standard.

ALL-NEW 2020 FORD EXPLORER. America's all-time best-selling SUV⁵ now offers its broadest lineup, including Explorer 3.3L V6 Hybrid (see page 38) and Explorer ST. New rear-wheel-drive architecture makes for the leanest and strongest Explorer ever, with improved off-road capability, and improved standard and maximum towing capacity.⁶ The Reverse Sensing System, Lane-Keeping System, and Pre-Collision Assist with Automatic Emergency Braking (AEB) are standard.

Connected service and related feature functionality is subject to compatible AT&T network availability. Evolving technology/cellular networks may affect functionality and availability, or continued provision of some features, prohibiting them from functioning. Certain restrictions, 3rd-party terms or message/data rates may apply. ³FordPass, compatible with select smartphone platforms, is available via a free download. Message and data rates may apply. ⁴Available on select series. Restrictions may apply. See your dealer for details. ⁵Additional charge. ⁶New for 2020. ⁷Based on 2019 model-year ratings. ⁸Actual mileage will vary. ⁹MPGe is the EPA equivalent measure of gasoline fuel efficiency for electric mode operation. Range calculation based on www.fueleconomy.gov. Actual range varies with conditions such as external elements, driving behaviors, vehicle maintenance and lithium-ion battery age.

TRULY ELECTRIFYING: THE FIRST-EVER HYBRID EXPLORER

Get in on the start of something special to help reduce your motor vehicle fleet petroleum consumption.

The all-new 2020 Explorer Limited Hybrid is designed to offer you everything you expect – and then some – when it comes to performance, capability and spaciousness. And when you make electrified vehicles (EVs) an integral part of your mix, everyone can benefit from lower carbon emissions.

On the rear-wheel-drive model, the 3.3L V6 hybrid engine can produce 318 combined system horsepower and is projected to have an EPA-estimated range of at least 500 miles per tank.¹ Explorer Limited Hybrid has the ability to tow up to 3,000 lbs.² or up to 5,000 lbs.² with the available Class III Trailer Tow Package. Cargo capacity³ surpasses the previous-generation Explorer. Standard features include Ford Co-Pilot360™ Assist+, heated leather-wrapped steering wheel, 10-way power front seats, 2nd-row sunblinds and heated seats, PowerFold® 3rd-row seat, 360-Degree Camera, windshield wiper de-icer and wireless charging pad. In addition, 20" hand-polished aluminum wheels, active noise cancellation and the Pedestrian Alert Sounder are Explorer Limited Hybrid exclusives.

STANDARD FEATURES

- 12V powerpoints (2)
- Airbags – Driver and front-passenger knee, front-/rear-seat side, and Safety Canopy[®] System with side-curtain airbags and rollover sensor
- Audio – SiriusXM[®] with 6-month All Access trial subscription (SE, SES, Titanium)
- Auto Start-Stop Technology
- Battery saver
- Daytime running lamps (configurable)
- Easy Fuel[®] capless fuel filler
- Engine – 1.0L EcoBoost[®] I-3 (S, SE, Titanium)
- Engine – 2.0L I-4 (SES)
- FordPass Connect^{™2} with 4G LTE Wi-Fi hotspot powered by FordPass[™] app³
- Front-wheel drive (FWD) (S, SE, Titanium)
- Head restraints and 3-point safety belts on all 5 seating positions
- Hill Start Assist
- Illuminated Entry System
- Intelligent 4-wheel drive (4WD) (SES)
- Intelligent Access with push-button start (SE, SES, Titanium)
- Mirrors – Power sideview
- MyKey[®]
- Personal Safety System[™] for driver and front passenger with dual-stage front airbags
- Power windows and door locks
- Remote Keyless Entry System with 2 integrated keyhead transmitter remotes (S)
- Seats – Front buckets
- Seat – Rear 60/40 split fold-flat bench
- SecuriLock[®] Passive Anti-Theft System (S)
- Steering wheel-mounted cruise control
- SYNC[®] with 4.2" LCD screen in center stack and 2 smart-charging USB ports (S)
- SYNC 3 with LCD capacitive touchscreen with AppLink[®] 911 Assist[®] and 2 smart-charging USB ports (SE, SES, Titanium)
- Tilt/telescoping steering column
- Tire Pressure Monitoring System (TPMS; excludes spare)
- Transmission – 6-speed SelectShift[®] automatic
- Wipers – Intermittent front and rear with washer

STANDARD FORD CO-PILOT360[™] TECHNOLOGY

- AdvanceTrac[®] with RSC[®] (Roll Stability Control[™])
- Rear View Camera
- SOS Post-Crash Alert System[™]

AVAILABLE FEATURES

- 110V/150W AC power outlet
- BLIS[®] (Blind Spot Information System) with Cross-Traffic Alert
- Engine – 2.0L I-4
- Engine block heater
- Fog lamps
- Front and rear molded splash guards
- Heated steering wheel
- Intelligent 4-wheel drive (4WD)
- Keyless-entry keypad
- Leather-wrapped steering wheel and shift knob
- Power moonroof with shade
- Privacy glass (rear doors, rear quarter windows and swing gate window)
- Rain-Sensing Windshield Wipers
- Remote Start System
- Reverse Sensing System
- Roof-rack side rails
- Voice-activated Navigation System
- Windshield wiper de-icer

INTERIOR COLOR

*Metallic.

STANDARD FEATURES

- 50.0-gal. fuel tank capacity (Regular Cab, SuperCab)
- 60.0-gal. fuel tank capacity (Crew Cab)
- Air conditioning – Manual with integral heater and defroster
- Alternator – Extra-heavy-duty, 210-amp, 12V, brushless, pad-mounted
- Audio – Bluetooth® capable AM/FM stereo with auxiliary USB port
- Autolamp Automatic On/Off Headlamps
- Battery – 900-CCA, 12V, Motorcraft®
- Belt-Minder® front safety belt reminder
- Brakes – Bosch® Hydro-Max® hydraulic brake system with traction control
- Bumper – Front: full-width, black
- Engine – 7.3L 2-valve V8 gas
- Exhaust – Single, horizontal, catalytic converter, frame-mounted right side back of cab; downward-facing outlet tip
- Fleet telematics modem
- Frame-mounted body-builder wiring at back of cab

- Grille – Black-painted plastic (not available with frame extension)
- Hood – Frame-mounted front-end-tilting fiberglass hood and fenders assembly with torsion-bar assist (includes integrated noise shield, inner splash shields and mud flaps)
- Lamps – Roof marker/clearance, amber lenses (5)
- Mirrors – Black, dual rectangular, manually adjustable/folding with integrated blind spot mirrors, sail-type, 96"-wide spacing
- Radiator – Aluminum with in-tank transmission cooler
- Safety belts – Color-keyed with fixed D-rings at all positions (Regular Cab)
- Safety belts – Color-keyed with front-seat adjustable D-rings (SuperCab, Crew Cab)
- Transmission – TorqShift® Heavy-Duty 6-speed automatic with Neutral Idle and Hill Start Assist (without PTO provision)
- Wheel seals (front and rear axle), oil-lubricated wheel bearings (front and rear)

AVAILABLE FEATURES

- 7-way trailer connection socket, mounted at rear of frame, for combined trailer stop/tail/turn/marker light circuits
- 7-way trailer connection socket, mounted at rear of frame, for separate trailer stop/tail/turn/marker light circuits
- 60.0-gal. fuel tank single rectangular steel, frame-mounted on left side (Regular Cab and SuperCab)
- 65- and 70-mph speed limitations
- Alternator – 240-amp, 12V
- Alternators – Dual heavy-duty 397-amp total
- Automatic Emergency Braking (AEB)
- Batteries – 900-CCA, 12V Motorcraft (2 for a total of 1,800-CCA)
- Body-builder special wiring harness (straight frame)
- Body-builder wiring to end of frame
- Brakes – Hydraulic brake electronic stability control (ESC)
- Bumper – Front: 3" extension

- Bumper – Front: full-width, chrome-plated steel (included with Exterior Appearance Package)
- Bumper – Front: swept-back, Dark Shadow Gray-painted steel (requires bolt-on-type frame extension or integral front frame extension; straight frame)
- Daytime running lamps
- Engine block heater – Phillips® 750W
- Engine-idle shutdown timer (5-, 10-, 15- and 20-minute options)
- Grille – Fixed, black/gray
- Hood-mounted auxiliary spot mirrors
- Mirrors – Dual rectangular folding, sail-type sideview; available chrome caps; available power adjustment; available heater; available 96" and 102" width spacings
- Mud flaps – Rear
- Seats – 30/70, 40/20/40, 30/0/30 and 30/0/0 front seat combinations
- Transmission – Mobile and stationary mode power takeoff (PTO) provision

AVAILABLE PACKAGES²

- Beverage Delivery Package (19B)
- Exterior Appearance Package (90E)
- Hydraulic Brake Driver-Assist Technology Package (87H)

- Interior Appearance Package (90A)
- Power Equipment Package (90P)

STANDARD FEATURES

- 4-way adjustable steering column
- 12V powerpoints (2)
- Airbags – Driver and front-passenger front, front-seat side and Safety Canopy[®] System
- Alternator – 150-amp
- Collapsible steering column
- Doors – 180° swing-out rear cargo
- Doors – Dual sliding side
- EcoMode and EcoCoach
- Electric power-assisted steering
- Engine – 2.0L GDI I-4 with Auto Start-Stop Technology
- FordPass Connect^{™2} with 4G LTE Wi-Fi hotspot powered by FordPass[™] app³
- Front independent MacPherson-strut suspension with stabilizer bar and rear twist-beam
- Front-wheel drive (FWD)
- Full-size spare wheel and tire
- Heavy-duty battery – 80-amp
- Seats – 6-way manual driver/4-way manual front-passenger with fold-flat back
- SecuriLock[®] Passive Anti-Theft System
- SWB (short wheelbase) or LWB (long wheelbase)
- Tire Pressure Monitoring System (TPMS; excludes spare)
- Transmission – 8-speed SelectShift[®] automatic

STANDARD FORD CO-PILOT360[™] TECHNOLOGY

- AdvanceTrac[®] with RSC[®] (Roll Stability Control[™]) with Side-Wind Stabilization
- Autolamp Automatic On/Off Headlamps
- Ford Co-Pilot360 (XLT) – Automatic High-Beam Headlamps • BLIS[®] (Blind Spot Information System) with Cross-Traffic Alert • Lane-Keeping System (includes Lane-Keeping Assist, Lane-Keeping Alert and Driver Alert) • Pre-Collision Assist with Automatic Emergency Braking (AEB) (includes Forward Collision Warning and Dynamic Brake Support) • Rear View Camera
- Pre-Collision Assist with Automatic Emergency Braking (AEB) (XL)
- Rain-Sensing Windshield Wipers
- Rear View Camera (XL)

AVAILABLE FEATURES

- Adaptive cornering fog lamps
- Adaptive Cruise Control
- Body-color bodyside moldings
- Composite bulkhead
- Cruise control
- Daytime running lamps
- Dual-zone electronic automatic temperature control
- Engine – 2.0L GDI I-4 FFV with Auto Start-Stop Technology
- Engine block heater
- Forward Sensing System
- HID headlamps
- Mirrors – Power, power-folding, heated sideview
- MyKey[®]
- Rear- and side-door glass options
- Rear cargo area light (LED)
- Rear liftgate with fixed glass
- Rear-window defroster
- Remote Start System
- Reverse Sensing System
- Roof-rack side rails
- Spare key fobs (2)
- SYNC[®] 3
- Trailer Tow Package with Trailer Sway Control
- Wireless charging pad

FLEET EXCLUSIVES

- Engine – 2.5L IVCT I-4 gas with 6-speed SelectShift automatic transmission
- Orange safety belts
- Speed limitation (65- or 75-mph governed top speed options)

AVAILABLE PACKAGES⁵

- Smoker's Package (94B)
- Upfitter Wiring Harness (86G)

NEW 2021 E-SERIES CUTAWAY & STRIPPED CHASSIS

Full-Size Van-Based Chassis Cabs Class¹

Models: E-350 Cutaway,
E-350 Stripped Chassis,
E-450 Cutaway,
E-450 Stripped Chassis

Production starts January 2020.

E-450 Cutaway. Agate Black. Available equipment. Available early 2020. Preproduction model shown.

EXTERIOR COLORS³

INTERIOR COLORS³

*Metallic.

STANDARD FEATURES

- 3-point safety belts with height-adjustable D-rings (Cutaway)
- 40-gallon fuel tank capacity (aft-of-axle)
- Airbags – Driver and front-passenger front (Cutaway)
- Alternator – 210-amp
- Audio – Bluetooth® capable AM/FM stereo with USB port
- Autolamp Automatic On/Off Headlamps
- Battery – Heavy-duty (78-amp hour)
- Brakes – Bosch® HydroBoost® hydraulic brake system with traction control
- Daytime running lamps²
- Electronic Stability Control (Cutaway)
- Engine – 7.3L V8 Premium Rating
- Modified vehicle wiring kit and system
- Seats – High-back buckets with vinyl trim and inboard armrests (Cutaway)
- Telematics modem
- Tire Pressure Monitoring System (TPMS; excludes spare; SRW)
- Transmission – 6-speed automatic TorqShift® with Neutral Idle, Hill Start Assist, overdrive and tow/haul mode

AVAILABLE FEATURES

- 55-gallon fuel tank capacity (standard on E-450)
- 110V/150W AC power outlet
- Airbag – Passenger-side front delete
- Air conditioning delete²
- Alternator – 240-amp
- Alternator – 240-/157-amp dual
- Auxiliary heater
- Batteries – Dual heavy-duty (Cutaway)
- Cruise control
- Daytime running lamps
- Driver-Assist Technology Package
- Engine – 7.3L V8 Economy Rating
- Engine block heater
- High-capacity upfitter switches (4)
- Mirrors – Telescoping manual sideview with integrated blind spot mirrors
- Rear View Camera (Cutaway)
- Remote Keyless Entry System (Cutaway)
- SecuriLock® Passive Anti-Theft System
- Tire Pressure Monitoring System (TPMS; excludes spare; DRW)
- Upfitter Interface Module

ONLY THE FINEST FOR AMERICA'S FINEST: THE FORD POLICE INTERCEPTOR® UTILITY OUTSELLS EVERY OTHER POLICE VEHICLE¹

The purpose-built, all-new 2020 Ford Police Interceptor Utility is standard issue as a no-trade-offs hybrid. Compared to the previous-generation vehicle, it provides improved power and performance, with no trade-offs in safety or interior volume. Plus, it comes with a built-in Fleet Telematics modem and a complimentary 2-year Ford Telematics subscription.²

ALL-NEW 2020 FORD POLICE INTERCEPTOR UTILITY

POLICE INTERCEPTOR UTILITY 3.3L HYBRID – FIRST PURSUIT-RATED HYBRID SUV. With standard full-time AWD and an all-new 10-speed transmission, it outperforms the outgoing 3.7L V6 AWD Police Interceptor Utility, not to mention all police utility competitors – including V8-equipped models – that participated in official testing.³

The hybrid powertrain offers significant improvements in fuel use, factoring in reduced engine-idle time and projected improved EPA-estimated fuel economy rating;⁴ potentially saving \$3,509 per vehicle, per year.⁵ Optionally, go for the 400-hp 3.0L EcoBoost® V6; it bested every other vehicle during MSP and LASD evaluations,⁶ including V8-powered sedans.

F-150 POLICE RESPONDER® – FIRST PURSUIT-RATED PICKUP TRUCK. Standard-fortified with the FX4 Off-Road Package, has the best payload capacity⁷ (2,030 lbs.) and best standard towing capacity⁷ (7,000 lbs.), of any pursuit-rated police vehicle. In the same context, it also possesses the most passenger volume⁷ (131.8 cu. ft.).

POLICE RESPONDER HYBRID SEDAN – FIRST PURSUIT-RATED HYBRID. A Greener Shade of Blue,TM it has an EPA-estimated rating of 40 mpg city.⁸ Combine the mpg savings with its significant fuel savings at idle to potentially save nearly \$4,300 and reduce CO₂ emissions by over 27,000 lbs.; per year, per vehicle.⁹

SPECIAL SERVICE PLUG-IN HYBRID SEDAN – FIRST FORD PLUG-IN HYBRID FOR POLICE WORK. It has an EPA-estimated range of 25 miles without using gas.¹⁰ Patrol, plug in, repeat.

F-150 SSV, EXPEDITION/MAX SSV AND TRANSIT PTV. Fulfill diverse needs. Command authority – from off-road capability and tactical work, to flexible prisoner transport that's Built Ford Tough.[®]

NEW FORD TELEMATICS FOR LAW ENFORCEMENT. It's purpose built to help make officer operations safer and more efficient. The application translates information flowing from Ford police vehicles into insights and analytics on driver behavior, vehicle health and location, fuel usage, and much more. This data is shared through an intuitive website that provides police fleet managers with a simple way to analyze how the full lineup, or a particular vehicle, is performing. (See page 106 for more Ford Telematics details.)

¹Based on IHS Markit new vehicle registration data limited to government entities and POL and SSV trim vehicles for full year 2018. ²2-year subscription for Ford Telematics starts on vehicle sale date. Subscription features may be limited. Factors causing this limitation may include, but are not limited to, issues related to cellular coverage, carrier outages and carrier network service interruptions. Complimentary service ends after 2 years. ³Based on Michigan State Police 2019 Model Year Vehicle Evaluation Program; based on 0-60 mph, 0-80 mph, 0-100 mph, top speed, and lap times. ⁴Calculation based on comparison with the 3.7L V6 Police Interceptor, with an example fuel price of \$2.75 per gallon. Projected EPA-estimated combined rating of 24 mpg. Actual mileage will vary. Final EPA-estimated ratings not yet available. ⁵Idle Fuel Consumption estimates are based on fuel flow measurements taken during 2 hours of continuous idling. Vehicles were driven for 18 miles at highway speeds prior to idling. Idle testing was conducted in an indoor facility at 73°F. The following vehicle accessories were activated during the test: Climate Control A/C, set to full cool condition; Vehicle Audio System, set to 30% of maximum volume. An electrical power draw load box drawing 32 amps was also connected to each vehicle's 12-volt battery to simulate the following estimated Police accessory loads: Emergency Lights (est. 25 amps); Laptop Computer (est. 3 amps); Police Radio (est. 4 amps). Additional testing details are available at ford.to/2H9qBEf. ⁶Based on preliminary Michigan State Police and Los Angeles County Sheriff's Department test results for the 2018 calendar year. ⁷Based on 2019 model-year ratings. ⁸EPA-estimated rating of 40 city/36 hwy/38 combined mpg. Based on 2019 model-year ratings. Actual mileage will vary. ⁹Idle Fuel Consumption estimates are based on fuel flow measurements taken during 2 hours of continuous idling. Vehicles were driven for 18 miles at highway speeds prior to idling. Idle testing was conducted in an indoor facility at 80°F. The following vehicle accessories were activated during the test: Climate Control A/C, set to full cool condition; Vehicle Audio System, set to 33% of maximum volume. An electrical power draw load box drawing 32 amps was also connected to each vehicle's 12-volt battery to simulate the following estimated Police accessory loads: Emergency Lights (est. 25 amps); Laptop Computer (est. 3 amps); Police Radio (est. 4 amps). Additional testing details are available at ford.to/2nw5dE8. ¹⁰Actual range varies with the conditions such as external elements, driving behaviors, vehicle maintenance, and lithium-ion battery age.

INTERIOR COLOR

STANDARD FEATURES

- 4.2" LCD screen in police instrument cluster and center stack "smart display"
- 11" space between driver's seat and front-passenger seat for aftermarket consoles
- 12V powerpoint
- 75-mph rear-impact-tested¹
- Airbags – Driver and front-passenger knee, front-seat side, plus Safety Canopy® System (side-curtain airbags) and rollover sensor
- Audio – AM/FM stereo with MP3 capability, Bluetooth® interface, USB port, clock and 4 speakers
- Battery – H7 AGM (80-amp-hr/800-CCA)
- Brakes – 4-wheel heavy-duty disc with police-calibrated Anti-Lock Brake System (ABS) and police-calibrated high-performance Regenerative Braking System
- Built-in steel intrusion plates in both front seat backs
- Class III trailer hitch receiver – 5,000-lb. capacity
- Column-mounted shifter
- Cooling system – Heavy-duty
- Cruise control

- Dash pass-through for aftermarket wiring
- DC/DC converter – 220-amp
- Dual-zone electronic automatic temperature control (DEATC)
- Easy Fuel® capless fuel filler
- Electric power-assisted steering (heavy-duty)
- Engine – 3.3L Direct-Injection Hybrid Engine System
- Engine-hour meter
- Engine-idle meter
- Exterior key locks – Driver, front-passenger and liftgate
- Fleet ignition keys (4)
- Flooring – Heavy-duty vinyl
- Ford Telematics with Ford modem and complimentary 2-year trial subscription²
- Front-console mounting plate
- Full-size spare wheel and tire with Tire Pressure Monitoring System (TPMS; requires programming)
- Full-time Intelligent all-wheel drive (AWD)
- Glass – Solar-tinted 1st-row; privacy glass 2nd-row and rear cargo area

- Headlamps – LED low and high beams
- Headlamps – Wig-wag functionality including ping-pong (default), triple-burst, or ping-pong/triple-burst; includes pre-drilled holes for user-installed strobes
- Headliner – Easy-to-service
- Individual Tire Pressure Monitoring System (TPMS)
- Independent front and rear suspensions
- Engine-hour meter
- Liftgate release switch – Overhead console
- Lithium-ion battery pack
- Locking glove box
- Mirrors – Power sideview, manual foldaway with integrated blind spot mirrors
- Personal Safety System™ for driver and front passenger; includes dual-stage front airbags
- Power door locks
- Power windows with front one-touch-up/-down with disable feature
- Powertrain mounts – Heavy-duty
- Rear spoiler

- Red/white dome light – 1st-row
- Scuff plates – Front and rear door-sill
- Seat – Front heavy-duty cloth driver's with 6-way power and manual lumbar
- Seat – Front heavy-duty cloth passenger
- Seat – Rear vinyl 35/30/35 split bench
- Steering wheel – Unique with 4 remappable latching switches
- Supplemental front-door tethers
- Taillamps – LED
- Tilt/telescoping steering column
- Tires – 255/60R18 BSW all-season
- Transmission – 10-speed automatic (police-calibrated)
- Two (2) 50-amp battery ground circuits – Power distribution junction block
- Universal equipment tray on top of instrument panel
- Wheels – Heavy-duty 18" steel
- Window – Rear defroster

- Rear View Camera with washer (displayed in 4.2" LCD center stack screen)
- SOS Post-Crash Alert System™

8-year/100,000-mile Hybrid Unique Component Warranty

STANDARD FORD CO-PILOT360™ TECHNOLOGY

- AdvanceTrac® with RSC® (Roll Stability Control™)
- Autolamp Automatic On/Off Headlamps

WARRANTIES & POWERTRAIN SERVICE PLAN

- 3-year/36,000-mile Bumper-to-Bumper Warranty
- 5-year/100,000-mile Powertrain CARE ESP (zero deductible)

- Maximum payload rating of up to 4,530 lbs.^{2,5}
- Unibody construction with choice of 3 roof heights⁴ and 3 lengths⁴

ALL IMPRESSIONS MATTER

Make your mark – and let your clients know you mean business – by showing up in the remarkable all-new 2020 Lincoln Aviator 3-row large premium SUV. It takes thoughtful luxury to new heights and features the confidence-rousing benefits of Lincoln Co-Pilot360™ technology. No matter your preferred Lincoln, you'll create a lasting impact, time after time.

Placing an emphasis on luxury, every Lincoln conveys elegance, power and serenity. Subtle beauty is discovered again and again in the thoughtful, exquisite details. These all-important facets help set Lincoln apart, as do first-rate fleet programs and incentives; savor a host of impressive benefits geared toward helping your organization prosper.

On certain Lincoln vehicles, distinguish yourself all the more with Lincoln Black Label,¹ which brings together superior design and premium service through a curated collection of interior themes and a host of exclusive membership privileges. It's luxury exemplified, inside and out.

True luxury begins, rather than ends, with your Lincoln acquisition, keeping you moving forward when you're not behind the wheel. The Lincoln Way™ is the unique design, experiences and services that help put Lincoln owners on a smooth path – both behind the wheel and out in the world. Who said business and pleasure can't mix?

THERE IS A DIFFERENCE

Experience the Ford Fleet Difference. Our dedicated experts will give you and your fleet business their best – whether you're calculating the benefits of a purchase or lease, looking to limit out-of-pocket maintenance expenses, adding special equipment, selecting specialty colors, or deliberating on limo/livery/hearse acquisitions. If you require vehicle service in the evening or on weekends, we can help you out. The same holds true if you're making the leap to consolidate operations worldwide. After all, there's nothing we find more rewarding than making a difference.

Partake in the Ford Commercial Solutions experience. We provide the focused and relevant telematics and data tools that fleets need to optimize, adapt and become more operationally effective. We blend Ford technical expertise with a hands-on understanding of real-world challenges to give you a partner you can depend on. Discover what Ford Telematics™, Ford Data Services™ and dedicated Ford hardware can bring to your operation.

FORD COMMERCIAL SOLUTIONS

We provide the focused and relevant telematics and data tools that different kinds of fleets need to optimize, adapt, and become more operationally effective. We blend Ford technical expertise – including our unrivaled knowledge of Ford vehicles – with a hands-on understanding of real-world challenges to give you a partner you can depend on. Whether you need to increase vehicle uptime and productivity, reduce maintenance costs, manage compliance or improve efficiency in other ways, we can deliver the solutions you need.

Tailored to your needs:

- Since no two fleets are alike, our solutions have been created out of constant communication with fleets in all industries and of all sizes
- Solutions are not only easy to use, they're built on an integrated, open platform designed to evolve as you do

FORD TELEMATICS™

Software that does the hard work for you. This simple, yet powerful tool delivers manufacturer-grade information, insights and solutions right to your fingertips. The easy-to-use interface enables you to manage your fleet in real-time and quickly assess where you need to take action.

Improve your asset utilization:

- Utilize GPS tracking and Geo-fencing capabilities
- Know where all vehicles are at all times to help get the most out of your team

Protect your fleet:

- Manage fleet and driver compliance daily
- Warnings such as safety-belt usage help you act fast to protect your staff, your vehicles and even your operation

Maximize your vehicle availability:

- Receive proactive notifications and vehicle health alerts
- Workflow tools help you schedule service well in advance and reduce disruption to operations

Improve your driver behavior:

- Become informed of coaching opportunities

Optimize your running costs:

- Monitor fuel consumption
- Identify areas of waste and causes too; improved efficiency can help you save money over the life of vehicles

Think about your environmental impact:

- Grow with ever-evolving telematics developed for hybrid and electric vehicles

FORD TELEMATICS FOR LAW ENFORCEMENT

Based specifically on how police vehicles are driven, this powerful and purpose-built solution helps promote officer safety and increase fleet efficiency. Gain effectiveness insights – including proactive vehicle notifications and configurable service alerts – through secure access to real-time data feeds on smart, simple-to-use dashboards.

FORD DATA SERVICES™

Seamless, secure access to vehicle data through our open platform. The Transportation Mobility Cloud (TMC) is an open platform for accessing clean, secure vehicle telematics data that's Ford grade. TMC data is engineered to work with the tools and people you trust, whether you need it integrated with proprietary software or accessible through your existing telematics service provider.

Based on decades of Ford engineering expertise:

- Our telematics data is exclusive and accurate
- Integrated Ford modem technology means no installation downtime or third-party device management

Ford know-how and reliability:

- Data we provide from your vehicle is manufacturer-grade information verified by Ford engineers

A service that's always evolving:

- You have access to the newest updates and vehicle data as soon as it becomes available
- As a result, our telematics data can deliver fleet insights as quickly as your operation needs them

Industry-leading data protection:

- We take security and privacy seriously, because we're stewards of the data you entrust us with

An open platform and integrated, partner-driven data:

- You or your telematics service provider can manage data flow robustly, meaning operations run seamlessly

Easy application programming interface (API) integration for third parties:

- Interfaces are secured using best practices and technologies, allowing powerful applications to be integrated with the platform

DEDICATED FORD HARDWARE

Seamless integration with your Ford vehicles. Getting our telematics or data solutions up and running couldn't be simpler. Whether you retrofit Ford plug-in devices, or we install modems directly from the factory, your fleet benefits from dedicated hardware engineered specifically for your Ford vehicles.

Advanced Plug-In Device (PID):

- Our latest PID is specifically engineered for most recent Ford vehicles that are already in service

Integrated modem technology:

- Our new vehicles are starting to be factory-fitted with a Ford engineered modem to connect directly with our platform

SERVICE PROVIDER INTEGRATION

Use the third-party services you need. In the name of helping you and your operation, our network makes data integration with your existing partnerships simple.

DISCOVER HOW FORD TELEMATICS AND FORD DATA SERVICES CAN MEET YOUR NEEDS

Please visit commercialsolutions.ford.com and call us at **1-833-811-FORD** (1-833-811-3673).

FORD CREDIT COMMERCIAL FINANCING

Ford Credit Commercial Lending Services help meet the demands of your business that require specialized knowledge and a unique customer focus. Ford Credit commercial finance and lease products are tailored to respond to your needs. We have dedicated sales and business center teams experienced in fleet and commercial business.

COMMERCIAL/FLEET BUYERS

Commercial Finance options can be tailored to meet your business needs. We help you choose options that make the most sense for your business. The lessee is responsible for the residual at lease-end.

Features:

- Flexible payment terms
- Combined billing availability for multiple units
- No hidden fees

Commercial Red Carpet Lease (RCL) is a closed-end lease available for non-upfit vehicles with no residual risk – an ideal option for predictable-use vehicles. At lease end, when you complete your lease as agreed, simply bring the vehicle to your dealer. You are only responsible for excess mileage, and wear and use charges.

Features:

- Monthly payments usually lower than similar-term finance payments
- Allows for cash flow to be invested back into your business
- Short-term leasing means new vehicles more often
- Combined billing availability
- Advantage of Guaranteed Asset Protection (GAP)

Commercial Lease is a customizable, open-end lease program that allows flexibility to set the residual based on your business needs. This program can be tailored in a number of ways. The lessee is responsible for the residual at lease-end.

Features:

- Accommodates upfits which can be residualized
- High-mileage and heavy-usage vehicles
- Flexible terms and combined billing
- No acquisition, up-front or termination fees
- No mileage restrictions
- No wear or use lease-end charges

Commercial Line of Credit (CLOC)¹ We're here to help you run your business more efficiently. And your business can run better with a Ford Credit CLOC. Get the vehicles your business needs quickly, easily and with less hassle.

Features:

- Available with Commercial Finance, Commercial RCL and Commercial Lease
- Credit approval for up to 12 months
- Credit that frees up capital for other operating needs
- No setup or non-utilization charges

Commercial GAP Coverage² provides protection when a financed vehicle is stolen or declared a total loss and the insurance settlement does not satisfy the outstanding balance on the vehicle.

Livery & Professional Vehicle Programs are special retail plans designed for those in the transportation business.

MUNICIPAL FINANCING

Municipal Financing is a lending program that helps state, local and municipal governments make the most of their operating budgets by providing flexibility, affordability and convenience when acquiring vehicles for essential services.

DAILY RENTAL FINANCING

Daily Rental Finance Plan is competitive vehicle financing for licensees of national franchises and independent daily rental operators.

Features:

- Competitive rates, amortizations and terms
- Flexible financing for new and used vehicles

CHASSIS FINANCING

Chassis Inventory Finance Plan is inventory financing for qualified body companies purchasing trucks, van chassis and limousines that will be converted or upfit with a specialty body.

Features:

- Terms up to 6 months
- Interest-only financing until the vehicle is sold (up to 180 days)

To obtain a more detailed description of any of our commercial programs, please visit ford.com/finance/commercial-financing or your local Commercial Vehicle Center dealer.

INCENTIVE PROGRAMS

Fleet Incentive Programs from Ford Motor Company are available to customers with a Fleet Identification Number (FIN). Please contact **1.800.34.FLEET** and press option 1 and then 1 again to see if you qualify for a FIN and any incentives.

A variety of incentives are available for eligible fleet accounts:

- National Off-Invoice Incentives – Eligible fleets may receive direct off-invoice incentives on Ford and Lincoln vehicles
- Group Option Discounts – Select vehicles offer optional features that are packaged and made available at discounted prices
- Specialized Fleet Incentives – A number of additional incentives may be available to select specialized fleets, or to fleets using special types of vehicles, including daily or long-term rental companies, commercial business customers and government agencies

Please visit fleet.ford.com for vehicle-specific information.

GOVERNMENT PROGRAMS

Government Sales provides Government Price Concessions (GPCs) to eligible federal, state and local government agencies. GPCs may be granted to Ford and Lincoln Dealers bidding on federal, state and local government contracts that involve the sale of cars and trucks to eligible agencies. GPCs allow Ford and Lincoln Dealers to demonstrate corporate citizenship by providing discounted vehicle pricing exclusively to eligible federal, state and local government agencies. Contact your Ford or Lincoln Dealer for more details.

FORD COMMERCIAL VEHICLE CENTER

Advanced commercial vehicle expertise, in stock. Dedicated service, customer commitment, and advanced commercial vehicle expertise come standard with every Ford Commercial Vehicle Center dealer. Participating dealers offer a variety of hardworking Ford vehicles (in stock), with dedicated service, outstanding customer commitment, and custom financing. Bottom line? Program dealers help your business run smoothly — today and down the road. Find a highly qualified dealer near you at fordcommercialvehiclecenter.com.

AUTOMOTIVE REMARKETING

Automotive Remarketing Services (ARS) is a comprehensive, pick-up-to-payment remarketing service designed for financial institutions, daily rental accounts (risk units), Ford and Lincoln Dealers, and commercial fleets that remarket their own vehicles. ARS offers Ford Fleet customers another sales-distribution channel for optimizing resale values, and supplies remarketing customers with a wider range of quality pre-owned vehicles.

Find out how you can take advantage of the Ford lanes at the auction: Please contact ARS by phone at **1.866.277.9142** or by email at ars@ford.com. You can also learn more at fleet.ford.com.

PEACE OF MIND

FORD PROTECT® & LINCOLN PROTECT™

Ford Protect and Lincoln Protect Extended Service and Premium Maintenance Plans enable you to budget your fleet expenses more easily and accurately. Premium Maintenance not only covers your routine oil changes, it covers multi-point inspections, as well as preventive care and replacement of selected “wear and tear” items that require periodic attention.

Ford Protect extended service plan coverage offers many deductible options and lets you lock in tomorrow’s costs at today’s rates. In addition to Component Coverage, all Ford Protect and Lincoln Protect mechanical programs feature:

- Service at all Ford or Lincoln Dealers (as applicable by vehicle) in the U.S., Canada and Mexico
- Maintenance service also available at Quick Lane® Tire & Auto Centers
- 100% backed by Ford Motor Company
- Limited out-of-pocket expenses
- Repairs made with Ford authorized parts by factory-trained and certified technicians
- 24-hour Roadside Assistance
- Included rental vehicle benefits
- 100% transferable coverage
- Available 24-month financing
- Eliminates service cost variability

ORIGINAL PARTS

Ford/Motorcraft® Parts Ford has built your vehicle to the highest standards using quality parts. We recommend that you choose Ford or Motorcraft parts whenever your fleet requires scheduled maintenance or repair to keep your vehicles on the road.

One of the best ways to maximize fleet uptime is to use the parts that are specifically designed for your vehicle. Our Ford and Motorcraft parts are engineered to meet your vehicles’ specific requirements.

Collision Repairs We hope that you never experience a collision; however, accidents do happen. Genuine Ford replacement collision parts meet our stringent requirements for fit, finish, structural integrity, corrosion protection and dent resistance. During vehicle development, we validate these parts to deliver the intended level of protection as a whole system. Using anything other than a genuine Ford collision part can introduce the potential for failure to key safety or performance systems. The best way to know you are getting this level of protection is to use genuine Ford replacement collision parts, including your replacement glass needs. Vehicle glass is an integral part of the safety system and should always be replaced with Ford/Lincoln original equipment glass.

Warranty Ford and Motorcraft replacement parts are covered by our 2-year/unlimited-mileage Service Parts Warranty that has no commercial exceptions. See your Ford/Lincoln Dealer or Ford Authorized Distributor for limited-warranty details.

QUICK LANE®

Quick Lane Tire & Auto Centers serve the maintenance needs of all vehicle makes and models, at more than 800 locations nationwide. All Quick Lane services are performed by factory-trained experts and conveniently available on your schedule – with no need for an appointment, and evening and weekend service hours offered. Look forward to extraordinary service using the latest diagnostic tools, quality parts from trusted brands like Motorcraft and Omnicraft™ and tires from 15 name brands including Goodyear®, Continental and Michelin®. Stop in to Quick Lane for routine service that won’t disrupt your routine. For more information or to find a location, visit quicklane.com.

CERTIFIED COLLISION NETWORK

Ford Certified Collision Network (FCCN) is comprised of both dealer and independent collision repair shops that have invested in the right tools, equipment and training to repair your fleet’s vehicles, including the latest F-Series trucks, Expedition and Lincoln Navigator that utilize high-strength, military-grade, aluminum alloys.¹ To find the closest Ford Dealer Collision Center or Ford Certified Independent Body Shop, visit collision.ford.com, select “Find a Collision Shop,” then enter your ZIP code.

FLEET CARE

Ford Fleet Care features consolidated billing for repairs, maintenance and over-the-counter parts purchases at Ford and Lincoln Dealers, plus Quick Lane Tire & Auto Centers. (Ford Fleet Care is offered without enrollment fees or monthly use fees.) Key program elements include:

- Service lane and wholesale parts purchase details with monthly invoices (online or printed)
- All-Make Service billing that includes Ford as well as competitive brand vehicles and trailers
- No driver cards needed
- Ford in-dealership system that displays approval levels set by customer
- Wholesale parts billing feature on an account card with Purchase Order instructions
- Electronic Funds Transfer (EFT) payment option for added convenience and security
- National glass program featuring OE glass, mobile installation and no-hassle pricing
- Roadside Assistance and Towing for vehicles beyond warranty and ESP coverages

For more details, please visit fleetcare.ford.com or phone **1.800.367.3221**.

FORD GLOBAL FLEET

One solution for your worldwide fleet needs. As an international team comprised of fleet representatives from every geographic region of Ford Motor Company and uniquely dedicated to multinational customers, we provide:

- Product-led innovation – with a modern and efficient full-range product portfolio
- Continuously improved TCO, Safety, Technology, and Driver Experience
- Experienced, key account management
- Global Manufacturing
- World-class dealer and service network

To negotiate a global fleet agreement, visit fordglobalfleet.com for expert help.

VEHICLE SPECIAL ORDER

Vehicle Special Order (VSO) fulfills your specific needs. VSO provides you with special equipment and paint options that aren't currently offered through regular or fleet-only production.

New VSO options begin with a "VSO Inquiry." Each inquiry is received, reviewed and approved by VSO to ensure the end product is compatible with regular and limited-production options. The end product must also meet Ford Motor Company standards for quality, durability, safety and performance.

To submit a VSO Inquiry, please contact your dealer or leasing company. Inquiry response time takes an average of 8 business days for all vehicle lines except F-650/F-750 Super Duty®. Due to the complexity of this vehicle line, the average response time is 20 business days. Inquiry responses include Option Feasibility, Option Pricing and Option Development Timing. If an option request is feasible, engineering development timing may take 10 to 30 days, depending on complexity (wiring options may take longer).

VSO production timing varies. Vehicles produced with existing VSO options take an average of 60 to 90 days from order receipt to production. Vehicles produced with new VSO options must include the development timing stated in the VSO Inquiry response. For your planning purposes, VSO production typically begins about a month after Job 1 and balances out approximately one month prior to Job Last.

Visit fleet.ford.com for full VSO details, including:

- New option development (special equipment and paint)
- Order assistance
- Inquiry entry assistance to request new option development
- Pilot model inspection coordination
- Specification review coordination
- VSO balance-out/start-up date publication

Contact VSO directly at 1.800.34.FLEET.

Select "2" for the Fleet Customer Information Center and then "1" for VSO. For F-650/F-750 assistance, select "2," followed by "1" and then "3."

Contact your dealer for VSO Order Guide details.

To view the most current VSO equipment and paint options, ask your dealer to access fmcdealer.com for the VSO Ordering Guide. This guide is live, and the options are always up to date. Some VSO options may not be published in this guide if they were established for, and are restricted to, a specific Major Fleet Account.

Special paint for F-150,¹ Ranger,² Super Duty,³ F-650/F-750, E-Series Cutaway, Transit³ and Police Interceptor[®] Utility:

School Bus Yellow
E-Series Cutaway and Transit are RPO.
Select paints are now RPO for F-150 and Super Duty; please check the appropriate order guide for those paint codes.

FLEET ADVISORY BOARD

Fleet Advisory Board (FAB) members represent you. Working together with Ford Fleet to identify opportunities for improvement that will be mutually beneficial to all parties, they always welcome suggestions regarding policies, procedures and marketing programs.
