Care and Maintenance

Fabric Cleaning Code: W-S. (solvent and/or water based cleaners)

To prevent overall soiling, frequent vacuuming or light brushing to remove dust and grime is recommended. Spot clean with a mild solvent, an upholstery shampoo or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well ventilated room. With either method, pretest a small area before proceeding.

STEP 3: Slide the pieces together until the wedge engages the teeth clamp and the two pieces are snug.

STEP 4: To remove, spread the jaws of the clamp open to free the wedge from the teeth. Slide the two pieces apart.
