

Simple IT management software for a complex world

WHAT'S HAPPENING IN YOUR WORLD?

Digital transformation is an over-arching trend that drives technology, but also creates new challenges. Whether it's data explosion, cloud expansion, security threats or compliance, managing these ever-changing initiatives can be time consuming and difficult.

IT'S TIME FOR A CHANGE

Our software solutions simplify IT operations at more than 130,000 organizations worldwide. We'll help you manage and protect your data, take control of your hybrid environments,

keep track of all network-connected devices and govern every identity across your applications and data.

SPEND LESS TIME ON IT ADMINISTRATION AND MORE TIME ON INNOVATION

We simplify the technologies you use every day. We have the software, services and support to address today's challenges so you can focus on tomorrow's opportunities.

IT'S WHO WE ARE

We're Quest — simple solutions for a complex world.

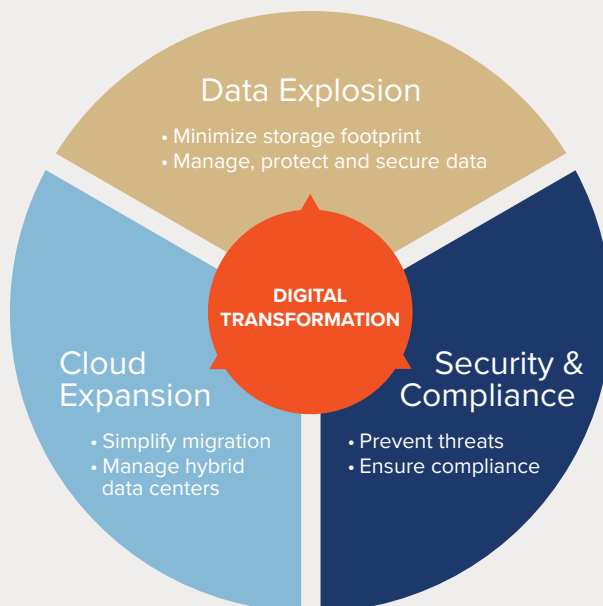

WITH QUEST YOU CAN:

- Control the data explosion
- Move to the cloud with confidence
- Be secure and compliant

THE QUEST DIFFERENCE:

- 130,000 customers in more than 100 countries
- 95 percent of the Fortune 500 rely on our products
- More than 30 years of experience in IT management
- Almost 3,500 employees, including nearly 1,000 engineers who are continually innovating
- 7,000 partners that deliver solutions and add value
- 4 million community members
- More than 200 patents
- Global support with a 93 percent customer satisfaction rating, 74 percent Net Promoter Score and 10x ACE Award for customer excellence

We'll help you tackle today's toughest IT challenges so you can focus on tomorrow's opportunities.

DATABASE MANAGEMENT

Our database management solutions can automate development and administration tasks to increase productivity, optimize performance and reduce costs. We also enable you to monitor multiple, heterogeneous databases from a single view and analyze transactions. Plus, ensure business continuity with simple, affordable data replication and integration technology in a single solution.

Key products:

- **Toad®:** Automate database development and administration for increased productivity.
- **SharePlex®:** Ensure database availability with robust replication and integration.

DATA PROTECTION

As data grows in volume and complexity, system uptime and performance expectations continue to increase and you risk wasting time and money. That's where we come in. Quest Data Protection delivers a holistic approach to systems management, data storage and business continuity. Now you can control your data growth, future proof your data protection strategy and improve the predictability and effectiveness of today and tomorrow's investments.

Key products:

- **QoreStor™:** Accelerate backups, reduce storage requirements and costs and replicate safer and faster to the cloud for data archiving and disaster recovery, all with a software-defined secondary storage platform.
- **NetVault Backup:** Simplify backup and recovery in complex, diverse IT environments, in the data center and in the cloud.

UNIFIED ENDPOINT MANAGEMENT

We offer a family of fast-to-implement, easy-to-use, unified endpoint management solutions that help users simplify the deployment, security and management

of an increasingly complex endpoint environment. From traditional compute and non-compute endpoints, bring-your-own-device programs to internet of things (IoT) technologies, our KACE solutions make it possible to eliminate complexity and secure your network while unifying your endpoint management approach.

Key products:

- **KACE® Systems Management Appliance:** Manage, secure and service all of your network-connected devices with ease.
- **KACE Systems Deployment Appliance:** Accelerate provisioning and ongoing administration of system images and driver updates.

MICROSOFT PLATFORM MANAGEMENT

Quest is your go-to for everything Microsoft. With Quest you can easily migrate, manage and secure your on-prem, cloud or hybrid Microsoft platforms - including SharePoint, Office 365, OneDrive and AD and Exchange. And our award-winning global support and services means we've always got your back.

Key products:

- **Migration Manager:** Reduce the time, costs and risks of migrations.
- **Change Auditor:** Get complete, real-time change auditing, in-depth forensics and comprehensive reporting.

PERFORMANCE MONITORING

Our performance monitoring solutions maximize the performance and availability of your key applications and databases while simplifying management. We enable you to track performance and utilization trends, prevent potential issues, minimize the mean time to recovery, boost the efficiency of your environment — and deliver the responsive experience users expect.

Key products:

- **Foglight® for Cross Platform Databases:** Ensure optimal performance with comprehensive monitoring and advanced workload analytics
- **Foglight for Virtualization, Enterprise Edition:** Visualize, analyze and optimize your virtual infrastructure.

IDENTITY AND ACCESS MANAGEMENT

Getting identity and access management (IAM) right is critical to helping your organization achieve its mission. In order to succeed, you need the right technologies, practices, partners and strategies — only then can you turn security from a burden and barrier to an enabler and a win. One Identity (a Quest Software® business) is the provider to deliver on this promise.

Key products:

- **One Identity Manager:** Control user and privileged access, govern identities, secure data and take the risk out of enterprise IAM
- **One Identity Safeguard:** Securely grant access to privileged passwords and sessions with role-based access management and automated workflows, including session audit with full record and replay capabilities.

ABOUT QUEST

Quest provides software solutions for the rapidly-changing world of enterprise IT. We help simplify the challenges caused by data explosion, cloud expansion, hybrid datacenters, security threats and regulatory requirements. We're a global provider to 130,000 companies across 100 countries, including 95% of the Fortune 500 and 90% of the Global 1000. Since 1987, we've built a portfolio of solutions which now includes database management, data protection, identity and access management, Microsoft platform management and unified endpoint management. With Quest, organizations spend less time on IT administration and more time on business innovation. For more information, visit www.quest.com.

Some of the world's leading brands depend on Quest. We're ready to help you next.
