

# Restaurant Solutions

## ENABLE YOUR STAFF TO EXCEED EXPECTATIONS.

## SOLVE EMV, WHILE INCREASING REVENUE AND CUSTOMER ENGAGEMENT.

Creating a consistent dining experience that exceeds expectations is tough when all hinge on three things – food, ambiance and experience. From greeting your guests with a smile to serving amazing food quickly, it all ends with making it easy to pay – that's where we fit in! With Verifone, you select the solutions that best fit your restaurant's needs while giving your customers the ability to pay where and how they want to pay.

**Verifone**<sup>®</sup>

Flexible and secure payments

### Solve pay-at-the-table and EMV.

Pay-at-the-table is about more than just taking secure payments. Wait staff will see an increase in tips because your customers are more engaged. Verifone enables faster table turns by allowing customers to pay with their cards, mobile wallets or wearables at the time the check is presented. EMV support is built into every Verifone terminal, ensuring your restaurant or hotel operation is protected against the rising cost of chargebacks.

- ✓ Print and pay-at-the-table
- ✓ Increase revenue
- ✓ Deliver value to the customer experience
- ✓ Integrations to leading restaurant POS solutions and processors

### Increase revenue with mobility.

In addition to increasing table turns, Verifone's mobile payment solutions enable your operations for additional revenue opportunities like curbside pick-up, delivery and catering. With the flexibility to select from Wi-Fi, Bluetooth, 3G or 4G connectivity, there is a solution that will satisfy your store infrastructure requirements.

- ✓ Catering
- ✓ Drive-thru
- ✓ Delivery
- ✓ Curbside
- ✓ Patio

On-the-go solutions anywhere you want to take payments

Integrate to your existing POS to order AND pay-at-the-table

### Deliver value to the customer experience.

Verifone's e355 Mobile POS solution can be paired with industry-leading tablets and integrated with your existing point of sale (POS). Improve productivity, speed of service, order entry and food delivery while increasing customer satisfaction. Enter and modify orders while at the table and instantly accept customers' payments whenever and however they want to pay.

- ✓ Enter and modify orders tableside
- ✓ Earn and pay with points
- ✓ Sign up for loyalty programs
- ✓ Immediate survey results

# Restaurant Solutions

Enabling EMV, mobile payments and customer engagement.

Whatever your payment needs, Verifone has a solution for you.

## Trust the Experts.

### Industry Leaders:

- ✓ Guidance to navigate complex EMV requirements and certification or let us manage for you!
- ✓ Verifone leaders serve on PCI, EMV and other payment industry councils – guiding the future of payments
- ✓ Partnerships and integrations with the leading wallets, POS platforms and technology innovators

### Professional Services:

- ✓ Single point of accountability
- ✓ Configure, integrate, test and implement your payment solution
- ✓ Leverage best practices gained from thousands of deployments
- ✓ Streamline the deployment process

## Flexible and secure payments infrastructure.

- ✓ Semi-integrated, secure payment solutions
- ✓ Simplify payments management
- ✓ Streamline requirements and certifications
- ✓ Freedom to buy the way you want
- ✓ Robust reporting
- ✓ Centralized Estate Management

## Cut down on customer service issues.

Having customer service issues with incorrect orders? Explore order confirmation screens that not only assist with making sure that orders are correct, but also increase revenue by upselling things like side items and premium add-ons. Help influence customers' buying decisions by showing targeted videos, promotions, loyalty engagement or even utilize the electronic signature capture feature.

## The Verifone difference.

Verifone's Restaurant Solutions offer the flexibility of mobility, secure payments (reducing your risk of a breach) and the choice of terminals that best fit your restaurant needs. Verifone's payment experts guide you toward industry best practices and futureproof your investments for whatever tomorrow brings.

## Some of the biggest merchants in the world trust Verifone:

- ✓ 75% market share in Tier 1 and mid-market retail
- ✓ 18 of the top 20 supermarket chains use Verifone
- ✓ 9 of the top 10 QSRs use Verifone
- ✓ Verifone provides payment services for 850K lanes, making us the largest payment services player in the U.S.

# Lodging Solutions

## ENGAGE YOUR GUESTS AT EVERY POINT OF INTERACTION.

### SIMPLE, SECURE AND PERSONALIZED GUEST EXPERIENCES.

Here at Verifone, we understand that payments are the last thing you want to worry about when focusing on creating an exceptional guest experience. EMV, mobile payments, mobile POS, payment security, payment management...whatever your payment needs, Verifone offers fast and flexible solutions for each point of interaction.

Fast and secure check-in from anywhere in the hotel

### Personalization at the point of check-in.

We know you value your guests' time and want to streamline check-in and checkout. Verifone's mobile solutions extend your reach to interact with your guests wherever they want you to be, whether it's at the front desk, at curbside check-in or in a comfortable chair in the lobby.

- ✓ Counter check-in
- ✓ Lobby
- ✓ Curbside check-in

### Enhance the guest experience with mobile solutions.

Accept secure card payments at the front desk, golf course, poolside, beachside or wherever an opportunity presents itself. Enable new revenue opportunities throughout the hotel while improving the guest experience by providing fast and convenient ways to pay. Personalize your guests' visits by extending your POS onto mobile devices.

- ✓ Hotel lobby or curbside check-in
- ✓ Hotel restaurant, bar or store
- ✓ Poolside or beachside
- ✓ Golf carts or pro shop
- ✓ Hotel spa or gym
- ✓ Bellman or room service

Enabling payments whenever, however and wherever guests want

Customer experience improves loyalty
