Authorized Reseller Agreement

All Authorized Reseller members are required to accept the terms of the Authorized Reseller Program Agreement. Once your firm has been approved for Authorized status your Intuit Reseller Master QuickBase account will provide a link to review and accept the terms of the agreement.

Online Advertising Guideline

The Intuit Reseller Program is designed to represent a high value shopping and licensing experience for customers where assisted solution design and selection, as well as ongoing support are valued. In accordance with this, Authorized Resellers are prohibited from engaging in any price-based online advertising where price, discounts, or promotions are mentioned without explicit approval from the Intuit Reseller Program team. Authorized Resellers are encouraged to appropriately utilize various online marketing vehicles to promote their value-added services and offerings as part of a comprehensive Intuit solution offering. In addition, list prices may be published along with any Intuit approved promotional copy which can be found in the Authorized Resource Library.

Resellers are expected to review the monthly Promotional Guidance and annual Minimum Advertised Price (MAP) policy and comply with the directives therein. Policies can be updated at any time.

Certification

Authorized Resellers are required to have training in the Revel system before they can sell it to customers.

Program Status Audits & Evaluations

The Intuit Reseller Program is designed to provide structure and recognition based on skills and performance. Members with more than \$20,000 net annual sales in qualifying Intuit Software licenses and hardware have the option of applying for Premier Reseller member status. Status upgrades are subject to Intuit Reseller management approval and based on member ability to meet the full requirements of the Premier Reseller program level.

The Intuit Reseller management team reserves the right to audit performance against current program requirements and customer satisfaction at any time.
