MOUNTING SYSTEMS

MODULARITY REDEFINED

UTG PRO® and UTG® mounting systems and components have everything you need to kit up your long gun for recreation, sporting, defense, and more. For the AR platform, we have the options to tailor to your rifle to the T with multiple different drop-in or free-float handguards options of various lengths and modular system compatibility. Our M-LOK® free-float Super Slim SD series takes everything loved from our Super Slim handguards, but with a suppressor compatible inner diameter. Forerunner handguards feature a completely new aesthetic and reduced Picatinny top rail while being our lightest handguard series to date. Popular on A2 fixed front sight builds, our drop-in Super Slim and quad rail handguards are a go-to for users looking for affordability without compromise and ease of installation with no permanent modification required.

HIGHLIGHTS	Take a look at our vast lineup of free-float handguards for the AR15 MSR available in multiple lengths, different feature sets, and various finishes in the M-LOK®, Keymod, Standard Super Slim, or MIL-STD-1913 Picatinny modular systems. Check out our 3 new UTG PRO® M-LOK® handguard series: The Forerunner, Arwen, and Super Slim SD, featuring our new one-piece steel or titanium barrel nut system requiring little to no timing during installation.	New products include our Drop-in Super Slim Ruger® PC Carbine™ M-LOK® handguard featuring fully melted contours with its edges chamfered and corners dehorned for a comfortable, versatile, and lightweight addition to your Ruger® PC Carbine™.	Take a look at our extensive lineup of drop-in handguards for the AR15 MSR. We have multiple length options to accommodate MSRs with either a carbine-length, mid-length, or rifle-length direct impingement gas system. Handguards are available in M-LOK®, Keymod, or MIL-STD-1913 Picatinny modular systems and require no permanent modification during installation.	Super Slim Handguards available in both M-LOK® and Keymod featuring the same design implementations and feature sets as their AR15 MSR counterparts.	A plethora of both dedicated and universal mounts and risers for installation on MIL-STD-1913 Picatinny equipped rifles or rear sight dovetails of pistols. Multiple heights available to include heights for absolute co-witness, lower 1/3 co-witness, low profile, and more

Continuing our lineage of AK handguards, mounts, and accessories, make sure you stop and see our series of Super Slim Keymod Drop-in handguards. Available in three different lengths for a variety of different AK platform variants, the lightweight, sleek, and modular Super Slim puts personalization in mind without the added bulk and weight	In order to satisfy our need to be your one stop shopping solution. We make it a very important note to keep stock of classic mounts not easily found in today's markets. Customers will continue to enjoy from us mounts and accessories made for the venerable SKS and Mosin Nagant	Still very much prevalent in the shooting community, Saiga 12s and more traditional shotguns are still considered a staple with us. Continue to enjoy a variety of different optic mounts and handguards for these staples.	Here you will find a garden variety of different mounts and accessories for the aforementioned platforms. Several different solutions are available to quickly and easily mount optics and accessories without the need for permanent modification or a gunsmith.	Enjoy various scope and accessory mounting options for these classics here. Simple, affordable, and quality solutions for these fan favorites.	Universal MIL-STD-1913 Picatinny mounts ideally used for adding accessories onto firearms that lack mountable handguards, flat tops, etc. Universal Barrel mounts offer quick solutions for adding a bipod or flashlight to traditional firearms not equipped with MIL-STD-1913 Picatinny rails.	We enjoy plinking just as much as the rest of you and value the importance of getting an optic set up just right on an air rifle. Look here for our barrel droop compensating mounts, dovetail to Picatinny adaptor, universal dovetail scope mount, and our new PCP tank Picatinny rail adaptors.

MNT-DTW145 Universal Dovetail To Picatinny Rail Adaptor

- Precision Machined from Aircraft Aluminum with a Matte Black Finish
- Compatible with 9mm-11mm Dovetail Rails

US PAT. D837330

Optimized Interface to Fit Undersized, Standard, and Oversized Rounded and Flat Receivers

Repeatable Zero Hold and Bidirectional Recoil Resistance

MNT-PMTOWL-A Dovetail to Picatinny Adaptor Mount

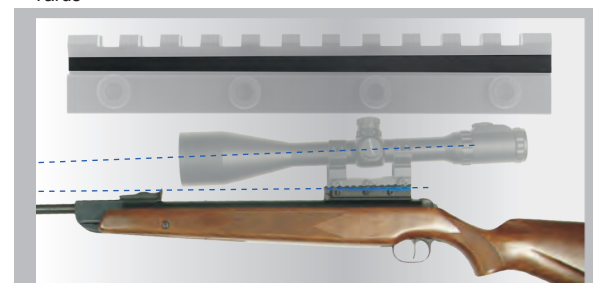

- Precision Machined from Aircraft Aluminum with a Matte Black Finish
- 3.94" Scalloped 9 Slot Picatinny Rail with 0.59" Saddle Height
- Compatible with Flat Receivers Equipped with 9mm-11mm Dovetail Rails

BARREL DROOP COMPENSATING

MNT-DNT06 Compensation Mount for T06 Trigger Equipped RWS Diana Air Rifles

- Precision Machined from Aircraft Aluminum with a Matte Black Finish
- Compensation to Bring the POI (Point Of Impact) Up 10 Inches at 30 Yards

What's Barrel Droop ?

Barrel droop means that the barrel's bore is pointing downward in relation to the plane of the scope base. Compensating meant cranking up the elevation knob to bring the pellet back up to where the crosshairs are at or inserting a shim. UTG's compensation mount takes care of this for you, and is designed with special slopes to compensate for the barrel droop of RWS Diana air rifles.

US PAT. 8752325

MNT-DT2PW01 (Set of 2) Dovetail-To-Picatinny Snap-in Rail Adaptor

- Allows Most Picatinny Products to Fit Dovetail Rails
- Spring Tensioned Design Snaps Adaptor into Picatinny/Weaver Base
- Features Removable Stop Pin for Added Retention
