## 1. Purpose

Establish a procedure to be followed by all ORA offices in conducting and documenting searches to gather information for developing and maintaining a uniform, accurate, and complete Official Establishment Inventory (OEI). The procedure may be used for multiple purposes, including researching establishments in temporary Workload Obligations (for example Bioterrorism

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 2 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

("B") or Potential ("P")), Operational Status which needs review (Inactive ("INA") and "Preproduction" (PRP)), general inventory clean up, documenting information for Out-Of-Business firms, etc. In addition, it provides a process to verify the integrity of an establishment's data with Firm Management Services (FMS), to support the procedures for managing the OEI, as described in [OEI Development and Maintenance Procedure](#).

This procedure applies to domestic inventory and is followed by all ORA Division offices in maintaining data within FMS.

## 2. References

- A. [Investigations Operation Manual \(IOM\)](#)
- B. [OEI Development and Maintenance Procedure \(SOP-000051\)](#)
- C. [Searching in Firm Management Services \(FMS\) \(WI-000021\)](#)
- D. [FMD 92: Agency Establishment Registration and Control Procedure](#)

## 3. Procedure

The following sections provide information on different data sources which may be used to collect information and data about establishments which should then be used to update the OEI in FMS. This information is used to make a determination as to whether the establishment is under the jurisdiction of FDA and is a workload obligation as defined by [OEI Development and Maintenance Procedure](#).

At Division discretion, FORM-000173 Official Establishment Inventory (OEI) Data Collection Form (Att. A) MAY be used instead of, or in conjunction with a memo, to capture information when an attempted inspection (OP12) is not able to be completed because the firm is inactive, out of business or relocated. The FACTS/eINSpect inspection (OP12) assignment can be converted to a FACTS/eINSpect investigation (OP13) assignment.

### 3.1. Overview of the Data Collection Process

- A. Determine what is already known about an establishment and any Firm Establishment Identifiers (FEI) associated with the establishment starting with FMS. The search options in step 3.2 may be used independently or in combination to obtain the FEIs.

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 3 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

- B. Collect data from multiple sources, documenting the results on the OEI Data Collection Form. Each FEI may have an associated Registration number, Data Universal Numbering System (DUNS) number, and/or possible points of contact (steps 3.3-3.7).
- C. Contact the establishment if:
  - This is their initial interaction with FDA or ORA
  - The information in FMS is not correct
  - The information in FMS needs to be updated (for example changing an establishment’s status from Workload Obligation “B” or “P” to Yes (“Y”) or No (“N”)).
- D. Complete and sign the OEI Data Collection Form electronically unless specifically directed otherwise.
- E. Forward the OEI Data Collection Form through the recommending official (supervisor, contracting official, state liaison, or other supervising authority) to the OEI Coordinator for data verification and approval, after research described in 3.2 through 3.8 of this procedure has been completed.
  - Note: A Program or Division may determine which suggested signatures would be required for their Program or Division.
- F. Per “[OEI Development and Maintenance Procedure](#)” and the Investigations Operation Manual (IOM), section 5.11.3, ORA Program Division and HQ Office is responsible to ensure all investigators verify, correct, and enter changes to the OEI on the firms’ maintenance screens in eNSpect during each inspection, investigation, and during any OEI update.

**3.2. MARCS Firm Management Services (FMS) search**

- A. Follow [Searching in Firm Management Services \(FMS\) \(WI.000021\)](#)
- B. Search by establishment name using “Basic Search” function: Use one or two unique key words of the establishment name. Do not include punctuation or legal status and avoid using words that may be abbreviated or are common words, such as “company.”
- C. Search by address: If searching by name in the “Basic Search” does not locate the establishment, search by address. Use a unique part of the address, such as the building number or unique street name, in combination with the state. Do not include punctuation and avoid

<b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs	<b>Document #:</b> WI-000020	Page 4 of 13
<b>Official Establishment Inventory (OEI) Data Collection</b>	<b>Revision 04</b>	<b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019

using words that may be abbreviated or are common words, such as direction (North or N) or street designation such as (Street or St.; Place or Pl.; Avenue or Ave.; Drive or Dr.). Include the city to further narrow the search.

- D. Sort the results in FMS by clicking the hyperlink at the top of the results table, such as “Firm Name,” “Address Line 1” or “City.”) See [Searching in Firm Management Services \(FMS\) \(WI-000021\)](#) for additional search information and determine if the establishment has multiple entries in FMS.

Search Results

1000 requested, 12 found. Displaying 28 firms and 4 merged firms

Preparing all results.

FEI	Parent FEI	Firm Name	Address Line 1	Address Line 2	City	State	Zip Code	Practice	Country	Operational Status Code	Workload Obligation	Last License Date	Last Firm Registration Date
20120202		Wal-Mart Stores Center	2030 N Ridge Rd		Danvers	MD	21543-3263	US	NOE	N			
20120202		Wal-Mart	6723 Chesapeake Center Dr		Glen Burnie	MD	21060-6872	US	NOE	N			
20120202		WALMART #2248	6258 Baltimore National Ave		Baltimore	MD	21228-2688	US	NOE	N			
20120202		Wal-Mart Corporation	8138 Ferry Walk Ct		Nottingham	MD	21226-3514	US	NOE	N			

1. If multiple FEIs are identified, document this information in Box 40 of the OEI Data Collection Form. The OEI Coordinator or designee will merge as appropriate.
2. If one of the multiple FEIs is identified as Workload Obligation “Yes” or Workload Obligation “No” (Operational Status OPR, SEA), complete the OEI Data Collection Form with all information known and route to the OEI Coordinator or designee for further evaluation.
3. Follow the actions for Operational Status/Workload Obligation:

Operational Status Code	Workload Obligation	Actions
OPR	Y, N	Document Establishment information and duplicate FEI(s) on the OEI Data Collection Form and submit to OEI Coordinator
SEA	Y, N	Document Establishment information and duplicate FEI(s) on the OEI Data Collection Form and submit to OEI Coordinator
OPR	B, P	Continue with research described in steps 3.3-3.8

### 3.3. Registration search: Center databases

- A. Registration systems provide information about the firm such as name, address, contact information, products, etc.
- B. [CenterViews](#) provides ORA users with access to many of the Center electronic databases. Directions for use may be found on the CenterViews home page.
- G. Request access to FDA Unified Registration and Listing System (FURLS) (Food, Tobacco, Devices) through Employee Resource and Information Center (ERIC).
- H. Request access to electronic Drug Registration and Listing System (eDRLS) (Human and Animal Drugs) through the "Request Access" on the Drug Quality & Compliance Portal.
- I. Search the Center registration databases to determine registration information and contact information for an establishment.
- J. Name and address may differ between computer systems due to merges, acquisitions, or moves. The updated information should be verified following this procedure.
- K. Document the date of the most recent registration and the official correspondent reporting official/Point of Contact on the OEI Data Collection Form.

Note: sometimes this information (contact and address) may be for the establishment's agent or legal counsel.

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 6 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

### 3.3.1. **CBER: Blood Establishment Registration (BER)**

- A. Location: CBER home page: [Blood Establishment Registration \(BER\) Intranet Query link](#) on right hand side of page or [Blood Establishment Registration \(BER\) Intranet Query](#).
- A. Registration Number: FEI
- B. Follow the links. System uses information typed in by the user. No additional instruction needed.

### 3.3.2. **CBER: Human Cell and Tissue Establishment (HCTERS)**

- A. Location: [CBER home page: Human Cell and Tissue Establishment Registration \(HCTERS\) Query link on right hand side of page or Human Cell and Tissue Establishment Registration System \(HCTERS\) Query](#)
- B. Registration Number: FEI
- C. Follow the links. System uses information typed in by the user. No additional instruction needed.

### 3.3.3. **CDER/CVM (Electronic Drug Registration & Listing System eDRLS)**

- A. Location: [CDER home page: Drug Quality and Compliance Portal lower center of page](#)
- B. Registration Number: FEI and DUNS
- C. See FMD 92 and associated work instructions for search assistance. No additional instruction needed.

### 3.3.4. **CDRH: FURLS (FDA Unified Registration and Listing System)**

- A. Use the Furls application located on the ORA application webpage located here: [ORA Applications](#). Click on the FURLS application; and then click on the CDRH: Device Registration and Listing Module (DRLM)
- B. Registration Number: FEI
- C. Search Registration and Listing information. System uses information typed in by user. No additional instruction needed.

### 3.3.5. **CFSAN: FURLS**

- A. Use the Furls application located on the ORA application webpage located here: [ORA Applications](#). Click on the FURLS application; and then CFSAN: Food Facility Registration (FFRM)

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 7 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

- B. Registration Number: Food Facility Registration (FFR)
- C. Search Tip: “Section 5: Facility Emergency Contact” will provide contact information for the firm
- D. Search FURLS/FFRM.
  - 1. Search Facility Registrations radio button:
    - a. Use this search for all registrations including current, invalid, and cancelled registrations.
    - b. Select the “Search Registration by facility information” radio button, and then specify the facility location for the search by selecting one of the radio buttons.
    - c. Check the “Include Cancelled Registrations” and “Include Invalid-Failed to Renew Registrations” radio buttons to include cancelled and invalid registrations in the search results.
  - 2. If an FFR is associated with an FEI in FMS, there will be a date in the “Last Firm Registration Date” column of the FMS search results page.
  - 3. Find the FFR number in FMS on the “Firm Details” page for the specific FEI in the “Cross References” and “Registration” sections.
  - 4. The FFR status is displayed in FMS in the “Registration” section.
  - 5. If the establishment has multiple FEI’s in FMS with registration numbers, use one to two unique key words of the establishment name in combination with the state or by a unique part of the establishment’s address in combination with the state.
  - 6. Search Incomplete Registration: Use this search to determine if the establishment has an incomplete registration in draft status, which has not been officially submitted to the agency.
  - 7. Search Failed to Renew Registration: Use this search if the establishment failed to renew their registration within the current renewal timeframes.

**3.3.6. CTP: FURLS**

- A. Location: FURLS home page (Online Account Administration - for FDA):  
Tobacco: Tobacco Registration and Listing System (TRLM)
- B. Registration Number: FEI number

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 8 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

- C. System uses information typed in by the user. Help is provided on line. No additional instruction needed.

### 3.4. DUNS search

#### 3.4.1. General Information

- A. Dunn & Bradstreet (D&B) is a privately-owned company which assigns a free, unique nine-digit number for each physical location of a business.
- B. A DUNS number may provide confirmation of the establishment status, either Active or Inactive and may indicate the establishment has moved. DUNS may provide additional information about an establishment.
- C. There may be multiple DUNS numbers for one FEI, as DUNS numbers are assigned to a specific building, department or floor within a building. FEI numbers are assigned to a business entity, which may contain a campus of several buildings. Each time an establishment moves locations, it may be assigned a new DUNS number. A recent change with DUNS allows the DUNS number to move with the firm at the firm's request.
- D. DUNS may be accessed
  1. Using the link in FMS
  2. [FDA DUNS Link through inside FDA](#)
  3. [FDA Duns Link: direct link](#)
- E. If you don't have the DUNS number you can still search for the firm in FDA DUNSLink using the firm's name and full address.

#### 3.4.2. Search Options

- A. By DUNS Number - The DUNS number is found in FMS on the "Firm Details" page for the specific FEI in the DUNS Information section.
- B. Search by business name and business address
- C. Search Tips: When searching by business name and business address, use a combination of one or two unique key words of the establishment name (required) and the state. Use a unique part of the address to narrow the search.

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 9 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

### 3.5. United States Postal Service (USPS)

- A. If an establishment is not at the identified location, it is possible the establishment has moved to a new location. Visiting the local USPS office and submitting the appropriate documented request may allow identification of the new location of the establishment.
- B. Identify the local United States Post Office (USPS) which services the identified location using [USPS](#) find location application.
- C. Complete the “Address Information Request” form (Exhibit 3-3 of the IOM).
- D. Go to the local Post Office and present the “Address Information Request” and appropriate identification to the Postal Clerk or Postmaster.
- E. It is preferred that the “Address Information Request” form is completed while present, but the “Address Information Request” form may be mailed back.
- F. The authority for providing forwarding address information to government agencies is defined in 39 CFR 265.6(d)(5)(i). Additionally, 39 CFR 265.6(d)(7) may apply for address verification (IOM 3.2.15.3).

### 3.6. Secretary of State, State Licensing and/or State Department of Revenue Website Search

- A. Provides current status of establishment, current Business License status and may provide an updated address. Be cautious with the addresses listed on these sites as occasionally the addresses are for the establishment representative/agent/legal counsel and not the actual facility/plant.
- B. State databases may also provide information on registered trade names that can be used to search in FMS or the Center registration databases. Some establishments register under their “Doing business as” (DBA), alternative name, or assumed business name instead of legal name.
- C. Search Tips: When searching by business name and/or business address, query using one or two unique key words of the establishment name only. Add a unique part of the address and/or City to narrow the search.
- D. [State Government Sites](#)

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 10 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

### 3.7. Internet searches for company

- A. Search engine: Provides additional verification of the establishment's status from one or more of the below resources. (Search Tips: search using one or two unique key words of the establishment name or a combination of business name and state. Add a unique part of the address and/or city to narrow the search.) Consider searching for the following:
1. Establishment website
  2. Industry group web sites the establishment may belong to, such as AFDO, WAFDO, Seafood Processors Association, etc.
  3. Phone number and or Address from phone directories
  4. Establishment reviews
  5. Newspaper articles related to the establishment: Often this type of search will identify acquisitions or mergers and provide additional points of contact through the new parent company
  6. Facebook, Twitter, LinkedIn, Yelp or other social media
  7. Other sources not listed
- B. Internet Map: Search for the address(s) found during research using an Internet mapping website, such as Google Maps or MapQuest. The street view and/or satellite view may provide additional verification of the establishment status.

### 3.8. Contacting the establishment

#### 3.8.1. Prior to contacting the establishment

- A. Determine the following information from FMS or other sources: legal name, FEI number, address, city, state, county, telephone number and point of contact.
- B. Review, if available, the establishment type and industry codes.

#### 3.8.2. Contacting the establishment

- A. Initially, contact the establishment by phone or e-mail. Identify yourself as an employee from the U.S. Food and Drug Administration. "I am an FDA employee (or contractor) from the \_\_\_\_\_ Office. The purpose of this inquiry is to update our files and I need to ask a few questions to confirm the information we have on file for your facility".

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 11 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

- B. If the establishment questions the source of the inquiry and/or is reluctant to provide information prior to verification, offer to have them contact/call back to the Division Office or provide them with an e-mail address. Contact your Supervisor prior to proceeding.
- C. The FDA employee or contractor collects the information as requested on the [OEI Data Collection Form](#) and documents the results.
- D. Out of Business (OOB): If information suggests that the establishment might be out of business:
  - 1. Attempt to verify if the firm is out of business or has relocated following steps 3.2- 3.7.
  - 2. If possible, visit the establishment’s last known location, and/or the local post office, to verify as described in section 3.5 of this procedure.

3.8.2. After concluding contact with the establishment

- A. Determine:
  - 1. Operational Status: Operational (OPR), Seasonal (SEA), Inactive (INA) Out of Business (OOB) or Not-OEI Establishments (NOE) per [OEI Development and Maintenance Procedure](#)
  - 2. Workload obligation: Workload obligation (“Yes”) or Not a workload obligation (“No”) per SOP.000051, SOP 130 “OEI Development and Maintenance Procedure”
  - 3. Establishment type(s) for the establishment
  - 4. Industry code(s) for the establishment
  - 5. If the establishment is required to be registered, does the information in FMS reflect proper and current registration designation(s) for all applicable commodities (Biologics, drugs, food, devices, etc.)
- B. If any of the information is not available, contact a Supervisor/Contracting Official for possible follow-up action.
- C. An FDA employee can update the establishment information in FMS through an inspection or an investigation. Establishment information gathered through an inspection should be updated through eNSpect.

**3.9. Record Keeping and Communications**

- A. Programs or Divisions may choose who needs to sign the OEI Data Collection Form.

<p align="center"><b>ORA-WIDE Work Instruction</b> Food and Drug Administration Office of Regulatory Affairs</p>	<p><b>Document #:</b> WI-000020</p>	<p>Page 12 of 13</p>
<p>Official Establishment Inventory (OEI) Data Collection</p>	<p><b>Revision 04</b></p>	<p><b>Effective Date:</b> 10/30/2016 <b>Revised:</b> 05/19/2019</p>

- B. Recommending Official forwards, the completed OEI Data Collection Form to the Division OEI coordinator. The Division OEI coordinator updates FMS independent of an investigation or an inspection.
- C. Division Management decides where to store the forms (in the physical establishment jackets, in the Division’s electronic file, or the OEI Coordinator’s file).
- D. Select the appropriate Program Risk identifier in FMS for data analysis. (XX indicates the Fiscal Year of the project and is designated in the Program Risk Identifier in FMS). Risk identifiers provide information for data analysis.
  - 1. OOX FYXX OEI Coordinator B Firm Clean up: to be used when the OEI Coordinator/OEI Contractor performs the research on the establishment
  - 2. OSXX FYXX OEI State B Firm Clean up: to be used when a State contractor performs the research on the establishment
- E. If applicable (e.g. CSO, CSI, CST), capture time under Technical Assistance/Coordination (OP 92) or OP 13, using the applicable OEI Improvement PAC:
  - 1. 03R876: Foods, CFSAN
  - 2. 42R876: Biologics, CBER
  - 3. 56R876: Pharmaceutical, CDER
  - 4. 71R876: Animal products, CVM
  - 5. 82R876: Medical Devices, CDRH
  - 6. 86R876: Radiological Health, CDRH
  - 7. 96R876: Tobacco, CTP
  - 8. 99R876: General
- F. Contact OEI coordinators with any questions regarding, SOP.000051, SOP 130 “OEI Development and Maintenance Procedure”.
- G. Direct procedural questions to Management or Contracting Officials.

---
