

PRODUCTS & SERVICES

Ideas That Advance

At Crown, our commitment to innovation means we continually look for ways to advance the design, manufacture and support of material handling solutions that provide excellent performance.

We promise our customers the premium experience that comes through:

- Crown's dedicated, global material handling team
- A wide range of lift trucks that are safe, efficient and ergonomic
- Advanced technology integrated within our lift trucks and beyond
- Comprehensive support for improved total cost of ownership

Visit [crown.com](https://www.crown.com)

For the complete product line

/// Proven Trucks

- Lift trucks ideal for nearly any job
- Performance in the warehouse and beyond
- A forklift design leader recognised with more than 100 global awards

/// Advanced Technology

- Consistent technology across all Crown lift trucks
- Integrated, real-time data to drive performance
- Management dashboards and detailed reporting

/// Dedicated Professionals

- Global, highly trained sales force
- Material handling technology expertise
- Dependable, capable support for critical logistics decisions

/// Complete Support

- Integrity Parts and Service System™
- End-to-end support for remarkable ROI
- Incredibly low total cost of ownership

Local Presence

Crown does more than just manufacture great lift trucks. We collaborate on a global scale while forging partnerships with our customers on a local level that are dedicated to optimising safety, increasing productivity and improving your bottom line. From training programs to local dealer support and maintenance plans, Crown offers reliable, responsive support, tailored to your needs.

Crown Regional Parts
Distribution Centre

Crown solutions are available through an extensive retail network that provides sales and service in locations throughout New Zealand.

Crown's regional headquarters throughout the globe help ensure that the unique regulations and requirements of each local market are met while maintaining a globally consistent customer experience, no matter your location.

Crown's extensive network of field service technicians is supported by a wide range of parts to ensure an outstanding first-time fix rate designed to keep our customers' operations running.

Global Strength

Crown is one of the world's leading lift truck manufacturers, and supports customers in 84 countries through five regional headquarters. Distinguished by innovative product design and a collaborative approach to customer service, our knowledge of material handling practices and restrictions enables us to provide customers with outstanding solutions, locally and globally. From design to delivery and beyond, you can expect exceptional value from Crown.

\$3.48 Billion (USD) Annual Revenues in FY2018*

5 Regional Headquarters Across Four Continents

16,100 Employees

19 Manufacturing Plants in 11 Locations Worldwide

500+ Global Sales and Service Locations

Our extensive sales, distribution and service network is anchored by hundreds of retail locations throughout the world, focused on building local relationships that ensure a consistent customer experience no matter the customer size or location.

Innovation Begins with the Lift Truck

Crown's technology innovations begin within the lift truck and extend far beyond. Integrating our Access 1 2 3™ operating system with InfoLink™ and the Crown Insite™ Productivity Suite delivers technology-enabled solutions for:

- Improved lift truck and operator performance
- Support for customers moving toward warehouse automation
- Use of valuable truck, operator and operational analytics for better management and control

Access123™

Increase Fleet Efficiency

- Significantly contributes to fleet uptime by providing operators and technicians with a fast, easy and consistent approach to diagnostics and service
- Increases technician proficiency to help reduce service time and costs across all Access 1 2 3-equipped lift trucks

InfoLink™

Improve Truck and Operator Performance

- Lift truck connectivity puts the power of accurate, on-demand operator and fleet management metrics at your fingertips
- Helps monitor and manage performance factors that have a great effect on your operation's bottom line
- Enables quick exploration and analysis of issues
- Helps to establish performance benchmarks via interactive dashboards
- Encourages improved safety and compliance, increased productivity, and reduced cost

Move Toward Warehouse Automation

As your business changes, you want to have a lift truck that is ready to evolve with you, enabling further productivity and safety solutions. Several Crown lift trucks feature solutions that help improve your operations without the high investment in full automation. The benefits may include:

- Increased productivity
- Increased pick accuracy
- Improved safety
- Reduced operator fatigue

For low-level order picking applications, the **QuickPick™ Remote System** uses wireless technology to remotely advance the truck. By reducing the number of times the operator gets on and off the truck, QuickPick Remote helps promote safety, reduces operator fatigue and boosts productivity, saving several seconds per pick.

Auto Positioning System, available on TSP models, increases consistency and pick accuracy in very narrow aisle applications, boosting productivity by taking a more effective route to the next pick position. Includes Auto Fence.

Auto Fence, available on TSP models, helps promote safety by automatically slowing travel speed, stopping or limiting truck height within the VNA (very narrow aisle) based on the location of the truck.

Lift Trucks for Your Application

Crown lift trucks support a wide range of demanding applications across multiple industries ranging from logistics & supply chain, warehousing, manufacturing, distribution and more.

Dock Work

Maneuverability is key in exacting dock work. That's why Crown lift trucks are designed to make tight turns and give operators precise control.

Order Picking

Speed and ease are paramount in demanding order picking situations. Crown lift trucks are designed to expedite each task and get more work done.

Transport

Speed and durability go full force for applications that require transport of loads within the warehouse or in preparation for movement outside the warehouse.

Rack Storage

Crown lift trucks support rack storage applications with precise operator controls to help ensure fast, easy and safe inventory movements.

Narrow Aisle

Crown's leadership in narrow aisle applications means customers can count on lift trucks that make the most of every inch.

Very Narrow Aisle

Tight aisles and soaring heights are no threats to Crown lift trucks. We have years of experience supporting efficient operations.

Bulk Storage

Big, heavy loads rely on the strength of Crown lift trucks. Operators rely on the exceptional precision and control provided by Crown's Intrinsic Stability System™.

Outdoor

Crown's IC trucks are designed to perform indoors and outdoors. Built to withstand tough environments, Crown's IC trucks won't let you down.

Electric Counterbalance Forklifts

Counterbalance forklifts are designed to handle a wide variety of material handling tasks and can be customised with a range of load-handling attachments. No matter which Crown counterbalance forklift is selected, customers experience strength and durability for the long run.

FlexRide™ Adjustable Floorboard

This feature offers improved shock and vibration protection compared to a conventional floorboard and also includes a weight adjustment feature to fit operators of different sizes.

Available on RC 5500 Series

Confidence Built-in

Crown's **Intrinsic Stability System** proactively monitors and communicates real-time information to support truck safety and reliability. Paired with the Crown-built AC motors and planetary drive units, it creates a powerful combination that boosts operator confidence with every move.

RC 5500 Series

Tyre: Cushion
Power: Electric 36V
Load Capacity: 1360 to 1800 kg
Lift Height: 3910 to 7010 mm

SC 5200 Series

Tyre: Cushion and Pneumatic (Super Elastic)
Power: Electric 36/48V
Load Capacity: 1360 to 1800 kg
Lift Height: 2895 to 7010 mm

FC 5200 Series

Tyre: Cushion
Power: Electric 36/48V
Load Capacity: 2000 to 3000 kg
Lift Height: 3200 to 7925 mm

SC 6000 Series

Tyre: Pneumatic (Super Elastic)
Power: Electric 48V
Load Capacity: 1300 to 2000 kg
Lift Height: 2895 to 7490 mm

IC Counterbalance Forklifts

Crown offers internal combustion (IC) lift trucks that produce real uptime and lower total costs -- even in tough application environments. Available with weight capacities from 1500 to 25,000 kilograms, Crown has an IC forklift available for a wide variety of indoor and outdoor applications.

Rugged Steering Axle

Large steering spindles equipped with kingpin and sealed taper roller bearings absorb impacts and keep moving parts free of contamination. A thick welded steel axle beam offers strength and durability.

Industrial Power Trains

Crown internal combustion forklifts feature efficient industrial engines with cast iron cylinder heads and blocks that meet all current emission standards. Rugged drive axles and transmissions deliver power and longevity.

Industrial Brakes

C-5 Series' Power Brake System and the C-G/C-D Series wet disk brakes deliver durability and performance advantages that virtually eliminate brake maintenance.

Adjustable Full Suspension Seat

C-D Series' adjustable full suspension seat offers all-day comfort and is adjustable for a wide range of operators.

C-D Series, 20-30S

Tyre: Pneumatic
 Power: Internal Combustion - Diesel
 Load Capacity: 2000 to 3000 kg
 Lift Height: 2030 to 6500 mm

C-G Series, 20-35G

Tyre: Cushion, Pneumatic
 Power: Internal Combustion - Gas
 Load Capacity: 2000 to 3500 kg
 Lift Height: up to 6010 mm

C-D Series, 35-90S

Tyre: Cushion, Pneumatic
 Power: Internal Combustion - Diesel
 Load Capacity: 3500 - 9000 kg
 Lift Height: up to 6050 mm

C-G Series, 35-55G

Tyre: Cushion, Pneumatic
 Power: Internal Combustion - Gas
 Load Capacity: 3500 - 5500 kg
 Lift Height: up to 6050 mm

C-G Series, 50-70G

Tyre: Cushion, Pneumatic
 Power: Internal Combustion - Gas
 Load Capacity: 5000 - 7000 kg
 Lift Height: up to 6050 mm

C-D Series, 110-250D

Tyre: Pneumatic
 Power: Internal Combustion - Diesel
 Load Capacity: 1100 to 25000 kg
 Lift Height: 2965 to 6000 mm

Reach Trucks

Rider Reach Trucks are generally used in narrow aisle applications where storage density and material handling productivity requirements are high.

Monolift™ Mast

This innovative mast design offers excellent rigidity—all the way to 505 inches—and substantially greater load capacity at height.

Xpress™ Lower

The optional Xpress Lower feature increases lower speeds so the operator spends less time waiting for the load to lower and more time moving pallets.

Traction Control

OnTrac™ Anti-Slip Traction Control reduces tyre spin and improves control.

Regenerative Lower

The RM 6000 Series carefully uses energy and gives it back as the mast is lowered—extending battery life.

RM 6000 Series
 MonoLift™ Mast Reach Truck
 Load Capacity: 2000 kg
 Lift Height: 4875 to 10160 mm

RM 6000S Series
 MonoLift Mast Reach Truck
 Load Capacity: 2000 kg
 Lift Height: 4875 to 12825 mm

RMD 6000 Series
 MonoLift Mast Deep Reach
 Load Capacity: 1450 kg
 Lift Height: 4875 to 10160 mm

RMD 6000S Series
 MonoLift Mast Deep Reach
 Load Capacity: 1450 kg
 Lift Height: 4875 to 12825 mm

RR 5700 Series
 Single Reach Truck
 Load Capacity: 1600 to 2000 kg
 Lift Height: 5025 to 10160 mm

RR 5700S Series
 Sit-Down Single Reach Truck
 Load Capacity: 2000 kg
 Lift Height: 5025 to 11225 mm

RD 5700 Series
 Deep Reach
 Load Capacity: 1450 kg
 Lift Height: 5025 to 10160 mm

RD 5700S Series
 Deep Reach
 Load Capacity: 1450 kg
 Lift Height: 5025 to 11225 mm

ESR 5200 Series
 Moving-Mast Reach Truck
 Load Capacity: 1400 to 2000 kg
 Lift Height: 2760 to 13000 mm

Very Narrow Aisle Trucks

Very Narrow Aisle Trucks are used in very narrow aisle applications, such as order picking and stock replenishment, where the operator must be elevated to perform the task.

MoveControl™ Seat

Comfortable and confident operators are more productive. The Crown MoveControl Seat positions the operator for the right task.

Top Battery Access

Ergonomic easy-top battery access eliminates the difficulty of removing batteries to perform routine maintenance.

Visibility

Clear vision is the foundation of operator confidence. With a large viewing window, the Crown SP Series helps operators be more productive.

The Wave™ Work Assist Vehicle™

Customers benefit from the Wave Work Assist Vehicle's ability to smoothly move up and down while travelling for better, faster order picking and put-away.

Order Pickers

Crown can optimise your order-picking process—both on the ground and at high elevations. Excellent driving performance, stability and industry-leading ergonomics allow operators to work productively and confidently.

TSP 6500 Series (shown)
Turret Stockpicker
Load Capacity: 1500 kg
Lift Height: 4900 to 13485 mm

- Available with:**
- Auto Fence
 - Auto Positioning System

TSP 7000 Series
Turret Stockpicker
Load Capacity: 1500 kg
Lift Height: 4900 to 17145 mm

- Available with:**
- Auto Fence
 - Auto Positioning System

SP 4000 Series
Stockpicker
Load Capacity: 1360 kg
Lift Height: 3450 to 9295 mm

SP 3500
Stockpicker with Lifting Forks
Load Capacity: 1000 kg
Lift Height: 4215 to 9600 mm

WAV 60 Series
Work Assist Vehicle
Load Capacity: 135 kg operator
90 kg load tray, 115 kg load deck
Platform Lift Height: 2995 mm

Stackers

Stackers are used in applications where loads can be stored above floor level and when shorter travel distances are the norm.

X10™ Handle

Crown's X-10 Control Handle provides easy access to 10 control and safety features within reach throughout the work cycle.

Exceptional Visibility

The sloped, low-profile power unit cover, centre-mounted handle and clear mast design provide operators an exceptional all-around view.

ST 3000 Series
Walkie Straddle Stacker
Load Capacity: 1000 to 1200kg
Lift Height: 2400 to 4250 mm

SX 3000 Series
Walkie Straddle Stacker
Load Capacity: 1500 kg
Lift Height: 2400 to 5500 mm

SH 5500 Series
Heavy-Duty Walkie Straddle Stacker
Load Capacity: 1800 kg
Lift Height: 3225 to 4875 mm

SHR 5500 Series
Heavy-Duty Walkie Reach Stacker
Load Capacity: 1100 to 1600 kg
Lift Height: 3225 to 4875 mm

ES / ESi 4000 Series
Fork Over Stacker
Load Capacity: 1200 to 1600 kg
Lift Height: 2440 to 5400 mm

ET / ETi Series
Fork Over Stacker
Load Capacity: 1200 to 1600 kg
Lift Height: 2440 to 5400 mm

WF 3000 Series
Fork Over Stacker
Load Capacity: 1000 to 1200 kg
Lift Height: 1550 to 4400 mm

Pallet Trucks

Pallet trucks are used in a wide range of floor-level applications. They provide a reliable, economical material handling solution.

Rugged and Powerful

A Crown-designed and -built drive unit has a powerful AC drive motor, robust in-line spur gears, and is top-and-bottom-mounted to provide power and durability.

Guaranteed Durability

A heavy-duty undercarriage and power unit provide the rugged durability customers demand.

PTH 50 Series
Hand Pallet Truck
Load Capacity: 2300 kg

Integrity Parts and Service System

Crown's Integrity Parts and Service System is built on a system of performance to support a low total cost of ownership. This system is characterised by parts availability, factory support and trained technicians. Crown provides the resources and expertise to help maintain the performance and value of its lift trucks for the long haul.

V-Force™ Battery and Charger Options

A full line of battery and charger options and support is available through Crown's dealer network.

The integration of parts and service enables Crown to rapidly provide—and replace—parts and maintenance solutions that translate to uptime, all the time.

Crown Integrity Parts System™

The value of the Crown Integrity Parts System becomes apparent with each Crown lift truck—longer parts life, less downtime, easier and faster part replacement, lower labor costs, a longer life and higher performance.

Trust a respected lift truck manufacturer over a look-alike parts supplier to provide a long-term performance advantage for your lift trucks.

Crown Integrity Service System

Crown has made substantial investments in engineering, technology and our people to provide expert assistance from our customer call center representatives, as well as excellent service support, warranty coverage and reliable parts.

Comprehensive Training

Learn from the experts. Crown can help you in your effort to provide a safe and productive powered industrial lift truck work environment with training products and services for your operators, trainers, supervisors, technicians and even your workplace pedestrians. Available through our retail branches located throughout New Zealand, Crown's forklift training programs can help you **promote performance, encourage safety and reduce your total cost of ownership.**

The Most Important Factor is You

Crown lift trucks are designed with safety top of mind, however a lift truck is only as safe as its operator. That's why we not only build safe lift trucks, but also provide excellent, comprehensive training programs.

Crown Refurbished Lift Trucks

Remanufactured and backed by an industry-leading warranty, Refurbished lift trucks provide guaranteed performance at a competitive price.

- **Service and Safety Inspected**
- **Premium Refurbished**

As a global leader in material handling, Crown has the responsibility and the opportunity to make a difference. We believe this difference starts with our sustainability promise, processes and products.

Warehouse Solutions

At Crown, we can provide extra value in your material handling solutions. Let Crown take the time to develop, plan and implement your customised solution, allowing you to remain focused on your business objectives.
