

## Lock Screen

This screen is displayed when turning the power on or canceled sleep mode.  
On the Lock screen, you can check the date and time, and notification information.

## Unlocking the Lock screen

- 1** **Swipe on the lock screen**  
The Home screen appears.
- The unlock method differs depending on the screen lock settings.

- 27 -

## Checking the Product State

### Understanding Icons

On the left side of status bar, notification icons such as a missed call, new mail, or other operations in use are displayed. On the right side, status icons showing the state of the product are displayed.  
Also slide the status bar downwards to display the notification panel.

#### ■ Major notification icons

Icon	Overview
	Missed call
	New mail message (au-mail)
	New Gmail message (Gmail)
	New +メッセージ (plus message)/SMS
	Receiving a call / Calling
	Displayed when receive a call from au's VoLTE compatible phone / when high quality sound call with au's VoLTE compatible phone

- 34 -

## Entering Text

Use the software keyboard to enter characters.  
To display the software keyboard, tap input field in the character input screen when adding contacts, creating a message, etc.

### Switching the Software Keyboard

- 1** **Character input screen** ► **[]** ► **[Keyboard type]**  
**2** **[10-key keyboard]/[QWERTY keyboard]/[50-key keyboard vertical (right)]/[50-key keyboard vertical (left)]/[50-key keyboard horizontal]**

- On the 10-key keyboard, tap the same key repeatedly or flick up/down/left/right to enter the desired character.
- On the QWERTY keyboard or 50-key keyboard, tap the key of your desired character to enter. Romaji input is applied for "Hiragana-Kanji" mode of the QWERTY keyboard.

- 41 -

## Troubleshooting

Before you assume that the product is malfunctioning, perform "クイック診断 (Quick diagnosis)" or "トラブル診断 (Troubleshooting diagnosis)" with the "故障紛失サポート (Repair and Delivery Service)" app.

#### ■ クイック診断 (Quick diagnosis)

On the Home screen ► **[au Supports]** ► **[故障紛失サポート (Repair and Delivery Service)]** ► **[クイック診断してみる (Try quick diagnosis)]**

#### ■ トラブル診断 (Troubleshooting diagnosis)

On the Home screen ► **[au Supports]** ► **[故障紛失サポート (Repair and Delivery Service)]** ► **[便利な機能 (Convenient function)]** ► **[トラブル診断を試す (Try troubleshooting diagnosis)]**

Alternatively, you can also check it on the au website.  
<https://www.au.com/trouble-check/> (in Japanese only)

#### ■ Smart Doctor

On the Home screen ► **[Settings]** ► **[Extensions]** ► **[Smart Doctor]** ► **[Test hardware]** or **[Diagnose]**

- By running diagnostics, you can check for problems with this product.

- 48 -

## Setting Application Authority

When activating the applications/functions that access the functions or information of the product for the first time, the confirmation screen appears to request the permission for the access authority. When the confirmation screen appears, confirm the content and tap "DENY" or "ALLOW".  
Example: To activate Photos application for the first time

- 1** **On the Home screen** ► **[Google]** ► **[Photos]** ► **[ALLOW]**

The application launches.

memo

- If the application authority is not allowed, applications/functions may not be activated or using functions may be restricted.
- To change the authority setting, on the Home screen ► **[Settings]** ► **[App & notifications]** ► **[App info]** ► select the application to be changed ► **[Permissions]** ► **[]**/**[]** of the authority you want to change.
- The explanation screen may be displayed depending on the application/function. Also, the confirmation screen may be displayed several times or the display may be different. Carefully check the displayed content and follow the onscreen instructions.
- In this manual, description of the confirmation screens may be omitted.

- 29 -

## Notification Panel

When a notification icon appears on the status bar, slide the status bar down to open the notification panel to check the notification or launch the application.

- 1** **Slide the status bar downwards**

Notification panel (normal) appears.  
Slide further downwards, the notification panel (fully open) will be displayed.

- 36 -

## Using a microSD Memory Card

### Attaching a microSD Memory Card

Before attaching the microSD memory card, turn off this product and remove the back cover.

- Since au IC Card and microSD memory card may not be able to take out by mistake in inserting position, please be sure to check them carefully before inserting.

- 1** **Remove the back cover** (►P.12)

- 2** **Insert the microSD memory card with the IC (metal) part downwards, into the microSD memory card slot in the direction of the arrow**

- 43 -

memo

- Before handing in the product for repair, make a backup of the contents of memory since they may disappear during repair. Note that the Company shall not be liable for any damages and loss of income should the contents of memory be altered or lost.
- Recycled parts that meet the Company's quality standards are sometimes used for repair.
- Collected au cell phones by Replacement cell phone delivery service which you used before are recycled to cell phones for replacement after repairs. Also replaced parts by au after-sales service are collected and recycled by KDDI. They are not returned to customers.
- For the products that are processed, modified, analyzed (including altering the software, analyzing (including rooting), reverse-engineering, engineering, decompiling, and disassembling) or repaired by repair offices other than the ones the company specified, they are not covered by the warranty or repair may be refused.
- Battery pack and back cover are not covered by the free-of charge repairs warranty.

- 50 -

## Setting Apps Notifications

You can set selecting apps to receive notifications, showing/hiding notifications on lock screen, and displaying icon badges of applications.

- 1** **On the Home screen** ► **[Settings]** ► **[App & notifications]** ► **[Notifications]**

Your phone number is shown in "Profile" field.

- 38 -

## Viewing the Setting Menu

Display the setting menu of the product such as network settings, sound settings, etc.

- 1** **On the Home screen** ► **[Settings]**

## Updating Software

By updating to the latest software, you can achieve optimum performance and obtain the latest advanced functions.

### Notes on Software Update

- You are charged for data communication when connecting to the Internet from the product by using data communication. OS updates will especially use a large amount of data. au recommends that you update software using a Wi-Fi® connection.
- When software update is necessary, you will be informed on au homepage, etc. For details, contact an au shop or Customer Service Center (157/call toll-free). In addition, users of this product will receive a notice from au, when software update is necessary to improve the functionality of the product.
- You are recommended to back up your data before updating software.

- 45 -

- ④ If the device breaks or is damaged due to an accident or your own negligence when you are using or handing the device. Alternatively, there are indications that the device was dropped, got wet, damp, or the like.
- ⑤ If the device breaks or is damaged due to natural disasters, such as earthquakes, wind and flood damage, fire, damage from salt, or abnormal voltage.
4. Depending on how damaged the device is, repair may not be possible.
5. The Company assumes no responsibility for any damages or losses due to faults with the device.
6. The Company assumes no responsibility if an accident occurs in the event that you connect a device that is not designed to be used with this device.
7. The company does not offer on-site repairs.
8. This warranty is valid only in Japan. (This warranty is valid only in Japan.)

- This warranty guarantees free repair based on the period and conditions listed above. Therefore, customers' legal rights against the issuer of this warranty and other business are not restricted by this warranty.

- 52 -

## Using the Home Screen

### Switching the Home Screen

The Home screen consists of multiple screens. Slide/flick right or left to switch them.

### Changing the Home screen

- 1** **On the Home screen** ► **[Settings]** ► **[Display]** ► **[Home screen]** ► **[Select Home]**

- 2** **Tap an item shown below**

<b>Home</b>	Shows all apps on the Home screen.
<b>Home &amp; app drawer</b>	Shows apps on a separate screen from the Home screen.
<b>au Basic Home</b>	This is the app offered by au, communized by smart operation. This is the default home screen.

- 32 -

## Setting Sound profile

Set Sound profile not to inconvenience people around you in a public place.

- 1** **On the Home screen** ► **[Settings]** ► **[Sound]** ► **[Sound profile]** ► **[Sound]/[Vibrate only]/[Silent]**

## Setting Airplane mode

When Airplane mode is set, all of wireless (wireless LAN (Wi-Fi®), Bluetooth®, data communication) and telephone functions are disabled.

- 1** **Power key** (Press and hold for more than 2 seconds) ► **[Turn on Airplane mode]** ► **[TURN ON]**

## Emergency call location notification

If you make an emergency call to the police, fire station or Regional Coast Guard Headquarters, your current location (GPS information) will be transmitted to the agency receiving the emergency call.

memo

- In this section, the police (110), fire station (119) and Regional Coast Guard Headquarters (118) are collectively referred to as the emergency call receiving agency.
- Use au's VoLTE (LTE network) to connect to Japanese emergency services. You cannot use 3G (call switching network) to connect to emergency services.

- 39 -

- Make sure to charge your phone before software update. If battery is not enough, software update may fail.
- Check out the signal reception. Software update may fail if you are at a place with bad signal reception.
- Data registered on the product (contacts, mail, still images, music, etc.) and setting information will not be changed even after software is updated. However, note that data might not be protected depending on the state of the product (malfunction, damage, getting wet, etc.).
- If software update has failed or stopped, update the software again.
- The software update function may not be available overseas.

- Do not conduct the following operations during software update.
- Do not move this product during software update.

The following operations are not available during software update

- Operations are not available during software update. Calls to 110 (the police), 119 (fire station), 118 (Regional Coast Guard Headquarters) and 157 (Customer Service Center) are also not available. Also, alarm, etc. cannot be used.

### ■ Repair and Delivery Service

An after-sales service membership program on a monthly basis called "Repair and Delivery Service" is available for using your au cell phone for a long time without worries. This service expands coverage for many troubles including malfunction, theft and loss. For details of monthly usage fee and this service, refer to au homepage or contact Repair and Delivery Service Center.  
<https://www.au.com/mobile/service/kosho-funshitsu/> (in Japanese only)

- 53 -

## Setting Wallpaper/Widget

- 1** **Touch and hold the area in which icons, etc. are not displayed on the Home screen**

- 2** **Tap an item shown below**

<b>WALLPAPERS</b>	Change the screen wallpapers.
<b>WIDGETS</b>	You can add widgets such as au widgets, calendar, etc. Also you can add shortcut of settings menu, etc. Touch and hold widgets/shortcuts ► drag to the area to add widgets/shortcuts
<b>SETTINGS</b>	The setting menu of the Home screen is displayed.

### Adding a folder

- 1** **Touch and hold the application to be stored into a folder on the Home screen**
- 2** **Drag onto another application and release your finger**  
Application is stored into the folder.

- 33 -

- This feature may not yet be available at some emergency call receiving agencies.
- If you add "184" before the emergency call number 110/119/118, the emergency call receiving agency will not be notified of your location and phone number.
- In places where signal reception from GPS satellites or a base station is relatively poor, such as in an underground mall, inside a building or behind a tall building, the emergency call receiving agency may be notified of some other place different from your actual location.
- When GPS cannot be used to notify of your location, base station signal is used instead.
- When making an emergency call to the Japanese emergency services, always confirm where you are, and tell them your exact location on the phone. Note that depending on the area where you are calling, your call may not be connected to the agency having jurisdiction over that area.
- If the emergency call receiving agency determines that human lives and health are in danger, they will be able to acquire the caller's location information during the call or within a certain period of time after the call.
- If you make an emergency call with call reject set, the call reject setting is automatically turned off for a period of 120 minutes so that the emergency services can contact you.

- 40 -

### When software update is not available, etc.

- If you fail to update software, it may become impossible to operate the product. In that case, bring the product to an au shop or PiPiit (not accepted by some shops).

### Downloading and Updating Software

- 1** **On the Home screen** ► **[Update center]** ► **[Software Update]**
- 2** **[Check now for update]**  
Check if there is new software. Software update screen is displayed when software update s available.
- 3** **Select a communication method to download**  
Select a communication method to download software.
- 4** **[Download]**  
A new software download starts.
- 5** **[Install now]**  
Software update starts. The product will restart a couple of times during the software update.
- 6** **[OK]**

memo

- You can apply for membership only at the time of purchasing your au cell phone.
- Once you cancel the membership, you cannot re-apply for it until you purchase an au cell phone next time.
- Note that when changing the model or purchasing an extra cell phone, this service only covers the most recently purchased au cell phone.
- When an au cell phone is handed over to you or someone else, the Repair and Delivery Service membership is also handed over to the successor of the cell phone.
- When you get a new au cell phone by changing the model or purchasing an extra cell phone, the Repair and Delivery Service membership for the old au cell phone is automatically canceled.
- Service contents are subject to change without notice.

■ **au IC Card**  
The au IC Card is lent to you by au. In case of loss or damage, the card will be replaced at your expense. When a malfunction is suspected, or in case of theft or loss, contact an au shop or PiPiit.

- 54 -

SIM Unlock

The product supports SIM unlock. By unlocking SIM lock, you can use non-au-SIM cards.

- SIM unlock service is provided at the au homepage and au shops.
- When using non-au SIM card, some services, functions, etc. may be unavailable. The Company is not liable for any operations.
- To operate SIM unlock, on the Home screen ► [Settings] ► [System] ► [About phone] ► [SIM card]
- For details, refer to au homepage.  
<https://www.au.com/support/service/mobile/procedure/simcard/> (in Japanese only)
