Parent Settings

To enter parent settings, touch the **Parents** icon on the second page of your child's Home screen.

From parent settings, you can control the way your child plays by adding or removing apps, setting time limits, managing access to the Web, and adjusting device settings.

Adding or Removing Apps

Browse Learning Lodge® for a selection of age-appropriate educational apps that have been approved by VTech® learning experts. If you're looking for common Android apps outside of the VTech® ecosystem, go to **Device Settings** and select **Get More Apps** to find instructions to install a third-party app store.

You can manage apps and content through the following options:

- **Storage Manager**—Manage your device's memory.
- **VTech® App Manager**—Download or uninstall any content purchased from Learning Lodge®. You can also uninstall some of the apps that are included with the system.
- **App Settings**—Give permission for third-party apps you download to appear on your child's Home screen.

Setting Time Limits

Select **Time Controls** to limit the amount of time your child can play per day or to mark certain hours of the day as off limits.

Managing Web Access

This Web browser is OFF until enabled through the passcode-protected **App Settings**. Although VTech® makes every effort to ensure a kid-friendly browsing environment, the content of individual websites may change without VTech's knowledge. Please be sure to monitor your child's online experience.

If You Forget Your Parent Settings Passcode

If you forget your **Parents** passcode, go to the passcode screen and enter **9876543210**. We'll send a message to the email address provided at registration.

Additional Information

Charging the Device

- To charge the device, first connect the included USB cable or power adapter to the **KidiBuzz™ G2** device by inserting the smaller, micro-USB end of either the power adapter or USB cable into the micro-USB port on the device.
- If using the power adapter, plug it in to a power outlet. If using the micro-USB cable, plug it in to a computer's USB port (computer not included).

Guidelines for Charging with micro USB cable

Only charge this device using the included micro USB cable connected to a computer or with the included adapter. Do not charge using a third party adapter. Before use, inspect the cord to confirm that it is in good condition and that there are no breaks or exposed wires. Ensure there are no particles or liquid (water, juice, etc.) in either of the connectors before plugging in either end of the cable. The device should be completely dry with no debris in the cable connectors when charging. Plug in the cable securely, in the correct orientation. If the device is on when plugged in, a dialog box may open on your computer to allow you to access the device's drive. Never leave the device unattended while charging. Do not charge your device on soft surfaces, as they can trap heat around the device. Typical charging time is between 2-3 hours if the battery is fully depleted. Disconnect the device when it is fully charged. Do not leave the device charging for more than 4 hours.
