

Omron Products

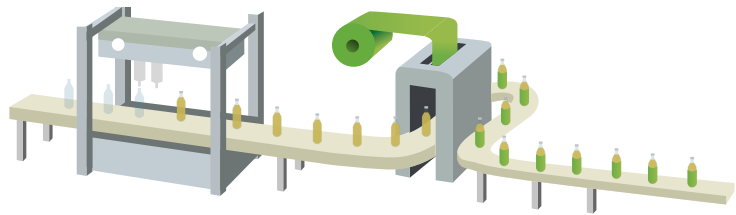

Industrial Automation Business

Control Equipment for Factory Automation

Segment Information > P. 44

The IAB provides control equipment to automate production lines. Devices connected over open protocol enable high-speed, high precision control contributing to quality, safety, and environmental conservation in the factory.

Sensing Equipment

Vision Sensors

Fiber Sensors

Control Equipment

Programmable Controllers

Temperature Controllers

Motion Equipment

Inverters

Servomotors and Servo Drivers

Safety Equipment

Emergency Stop Switches

Safety Light Curtains

Safety Controllers

Electronic and Mechanical Components Business

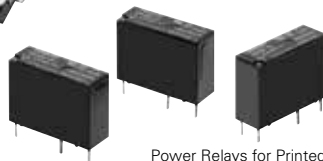

Electronic Components for Home Appliances and Other Industries

Segment Information > P. 46

Relays and switches for use in refrigerators, microwave ovens, air conditioners and more

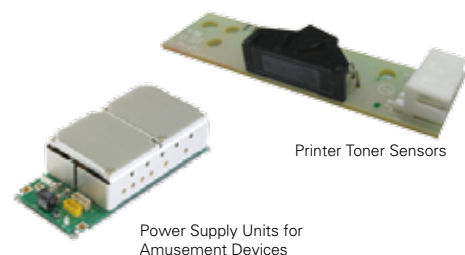

Surface-Mounted Switches

Power Relays for Printed Circuit Boards

Devices for use in the digital imaging and amusement industries

Printer Toner Sensors

Power Supply Units for Amusement Devices

Automotive Electronic Components Business

Electronic Automotive Components

Segment Information > P. 48

Electric power steering controllers for a smoother, enjoyable driving experience

Power window switches with built-in safety features to prevent accidental injury

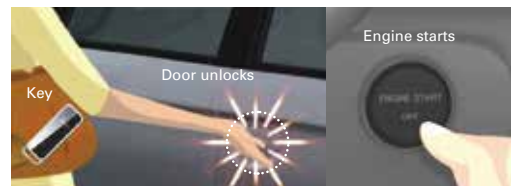

Passive entry and keyless push-button starters make driving a more enjoyable experience. The AEC provides components to make these features possible.

Electric Power Steering Controllers

Power Window Switches

Key

Door unlocks

Engine starts

Social Systems, Solutions and Service Business

Public Transportation

The SSB provides the technology behind the latest automated ticket gate and ticket vending machines to keep traffic moving efficiently through public transportation.

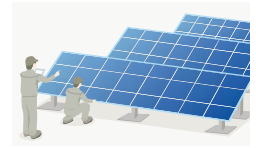

Automated Ticket Gates

Ticket Vending Machines

Environment

Total solutions for energy generation, storage, and savings

Road Traffic

Central management systems for traffic flow and congestion management

Road Traffic Management Systems

Segment Information > P. 50

Healthcare Business

Healthcare and Medical Devices for Home Use

The HCB helps families stay healthy, offering health management and treatment products and services.

Body Composition Monitors

Thermometers

Blood Pressure Monitors

Spot Check Monitors

Medical Devices for Professional Use

Medical devices and equipment that relieve symptoms of disease and reduce medical risks

Segment Information > P. 52

Environmental Solutions

PV inverters and other products for energy generation, storage, and savings

Hybrid Storage System for Solar Power

Backlights

LCD backlights for smartphones and other devices

LCD Backlights

Segment Information > P. 54

Electric Systems and Equipment

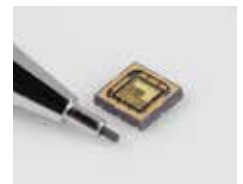

Uninterruptible power supply units provide electricity during power outages or other emergencies.

Uninterruptible Power Supply Units

Micro Devices

Micro electro mechanical systems (MEMS) for emerging applications

MEMS Pressure Sensors

Other Businesses
