HEADQUARTERS  
 DEPARTMENT OF THE ARMY  
 WASHINGTON, DC, 5 November 1983

**ORGANIZATIONAL AND DIRECT SUPPORT MAINTENANCE  
 REPAIR PARTS AND SPECIAL TOOLS LIST  
 (INCLUDING DEPOT MAINTENANCE REPAIR PARTS AND SPECIAL TOOLS)  
 FOR  
 DECENTRALIZED AUTOMATED SERVICE SUPPORT SYSTEM AN/MYQ-4  
 (INSN 7011-06819)**

TM 11-7010203-23P, 16 June 1983, is changed as follows:

1. New or revised material is indicated by a vertical bar in the margin. Where an entire chapter, section, or illustration is added or revised, the vertical bar is placed opposite the identification number and title.

2. Remove old pages and insert new pages as follows:

**Remove pages**

1 through 3  
 33 through 40  
 57 through 59/(60 blank)  
 95 through 100  
 169/(170 blank) through 186  
 195 through 206  
 207 and 206  
 211 through 224

**Insert pages**

1 through 3  
 33 through 40  
 57 through 59(60 blank)  
 95 through 100  
 169 through 186.11(186.2 blank)  
 195 through 206  
 207 and 20  
 211 through 224

3. File this change sheet in front of the publication.

By Order of the Secretary of the Army:

**JOHN A. WICKHAM JR.**  
*General, United States Army  
 Chief of Staff*

Official:

**ROBERT M JOYCE**  
*Major General, United States Army  
 The Adjutant General*

Distribution:

To be distributed in accordance with special list.

**ORGANIZATIONAL AND DIRECT SUPPORT MAINTENANCE  
REPAIR PARTS AND SPECIAL TOOLS LISTS  
(INCLUDING DEPOT MAINTENANCE REPAIR  
PARTS AND SPECIAL TOOLS)  
FOR  
DECENTRALIZED AUTOMATED SERVICE  
SUPPORT SYSTEM AN/MYQ-4  
(NSN 7010-01-090-6819)**

**REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS**  
You can help improve this manual. If you find any mistakes or if you know of a way to improve the procedures, please let us know. Mail your letter, DA Form 2028 (Recommended Changes to Publications and Blank Forms), or DA Form 2028-2 located in the back of this manual direct to Commander, US Army Communications-Electronics Command and Fort Monmouth, ATTN: DR-SEL-ME-MP, Fort Monmouth, NJ 07703. In either case, a reply will be furnished direct to you.

SECTION	III.	Special Tools List .....	205 54
	IV.	National Stock Number and Part Number Index .....	207

**SECTION I  
INTRODUCTION**

---

**1. Scope**

This manual lists spares and repair parts, special tools; special test, measurement, and diagnostic equipment (TMDE), and other special support equipment required for performance of organizational and direct support maintenance of the AN/MYQ4. It authorizes the requisitioning and issue of spares and repair parts as indicated by the source and maintenance codes.

**2. General**

This Repair Parts and Special Tools List is divided into the following sections:

a. *Section II. Repair Parts List.* A list of spares and repair parts authorized for use in the performance of maintenance. The list also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in numeric sequences, with the parts in each group listed in figure and item number sequence.

b. *Section III. Special Tools List.* A list of special tools, special TMDE, and other special support equipment authorized for performance of maintenance.

c. *Section IV. National Stock Number and Part Number Index.* A list, in National item identification number (NIIN) sequence, of all National stock numbers (NSN) appearing in the listings followed by a list, in alphameric sequence, of all part numbers appearing in the listings. National stock numbers and part numbers are cross-referenced to each illustration figure and item number appearance.

**3. Explanation of Columns**

a. *Illustration.* This column is divided as follows:  
(1) Figure number. Indicates the figure number of the illustration on which the item is shown. (2) Item number. The number used to identify item called out in the illustration.

b. *Source, Maintenance, and Recoverability (SMR) Codes.*

(1) *Source code.* Source codes indicate the manner of acquiring support items for maintenance, repair, or overhaul of end items. Source codes are entered in the first and second positions of the Uniform SMR Code format as follows:

<i>Code</i>	<i>Definition</i>
PA --	Item procured and stocked for anticipated or known usage.
PE --	Support equipment procured and stocked for initial issue or outfitting to specified maintenance repair activities.
AF --	Item to be assembled at direct support maintenance level.
AD --	Item to be assembled at depot maintenance level.
XA --	Item is not procured or stocked because the requirements for the item will result in the replacement of the next higher assembly. XD - A support item that is not stocked. When required, item will be procured through normal supply channels.

**NOTE**

Cannibalization or salvage may be used as a source of supply for any items source coded above except those coded XA and aircraft support items as restricted by AR 750-1.

(2) *Maintenance code.* Maintenance codes are assigned to indicate the levels of maintenance authorized to USE and REPAIR support items. The maintenance codes are entered in the third and fourth positions of the Uniform SMR Code format as follows:

(a) The maintenance code entered in the third position will indicate the lowest maintenance level authorized to remove, replace, and use the support item. The maintenance code entered in the third position will indicate one of the following levels of maintenance:

<i>Code</i>	<i>Application/Explanation</i>
0 --	Support item is removed, replaced, used at the1 organizational level.
F --	Support item is removed, replaced, used at the direct support level.
D --	Support items that are removed, replaced, used at depot mobile depot, or specialized repair activity only.

(b) The maintenance code entered in the fourth position indicates whether the item is to be repaired and identifies the lowest maintenance level with the capability to perform complete repair (i.e., all authorized maintenance functions). This position will contain one of the

following maintenance codes:

<i>Code</i>	<i>Application/Explanation</i>
F --	The lowest maintenance level capable of complete repair of the support item is the direct support level.
D --	The lowest maintenance level capable of complete repair of the support item is the depot level.
Z --	Nonreparable. No repair is authorized.

(3) *Recoverability code.* Recoverability codes are assigned to support items to indicate the disposition action on unserviceable items. The recoverability code is entered in the fifth position of the Uniform SMR Code format as follows:

<i>Recoverability Codes</i>		<i>Definition</i>
Z --	Nonreparable item.	When unserviceable, condemn and dispose at the level indicated in position 3.
F --	Reparable item.	When uneconomically repairable, condemn and dispose at the direct support level.
D --	Reparable item.	When beyond lower level - repair capability, return to depot. Condemnation and disposal not authorized below depot level.
L --	Reparable item.	Repair, condemnation, and disposal not authorized below depot/specialized repair activity level.

c. *National Stock Number.* Indicates the National stock number assigned to the item and will be used for requisitioning purposes.

d. *Federal Supply Code for Manufacturer (FSCM).* The FSCM is a 5digit numeric code listed in SB 708-41/42 which is used to identify the manufacturer, distributor, or Government agency, etc..

e. *Part Number.* Indicates the primary number used by the manufacturer (individual, company, firm, corporation, or Government activity), which controls the design and characteristics of the item by means of its engineering drawings, specifications, standards, and inspection requirements to identify an item or range of items.

**NOTE**

When a stock numbered item is requisitioned, the repair part received may have a different part number than the part being replaced.

f. *Description.* Indicates the Federal item name and, if required, a minimum description to identify the item. In the Special Tools List, the initial basis of issue (BOI) appears as the last line in the entry for each special tool, special TMDE, and other special support equipment. When density of equipments supported exceeds density spread indicate in the basis of issue, the total authorization is increased accordingly.

g. *Unit of Measure (U/M).* Indicates the standard of the basic quantity of the listed item as used in performing the actual maintenance function. This measure is expressed by a two-character alphabetical abbreviation (e.g., ea, in, pr, etc). When the unit of measure differs from the unit of issue, the lowest unit of issue that will satisfy the required units of measure will be requisitioned.

h. *Quantity Incorporated in Unit.* Indicates the quantity of the item used in the breakout shown on the illustration figure, which is prepared for a functional group, subfunctional group, or an assembly. A "V" appearing in this column in lieu of a quantity indicates that no specific quantity is applicable, (e.g., shims, spacers, etc).

**4. Special Information**

a. Detailed assembly instructions for items source coded to be assembled are found in TM 11-7010203-23. Assembly components are listed immediately following the item to be assembled.

b. The following publications pertain to the AN/MYQ-4 and its component:

TM 5-412D-360-14, Air Conditioner, Vertical Compact, Type 1, Vertical, Size C; 18, 000 BTU/HR, Class 1, 20V8, 3 Phase, 50/60 Hz (KECO Model F 18T-2).

TM 5412-360248, Air Conditioner, Vertical Compact, Type 1, Vertical, Size C, 18, 000 BTU/HR, Class 1, 206V, 3 Phase, 50/60 Hz (KECO Model F 18T-2).

TM 11-7010-203-10, Decentralized Automated Service Support System, ANIMY-4. (To be published).

TM 11-7010203-23, Decentralized Automated Service Support System, AN/MYQ-4 (To be published).

c. National stock numbers (NSN's) that are missing from P source coded items have been applied for and will be added to this TM by future change/revision when they are entered in the Army Master Data File (AMDF). Until the NSN's are established and published, submit exception requisitions to: Commander, US Army Communications-Electronics Command, and Fort Monmouth, ATTTN: DRSEL-MM, Fort Monmouth, NJ 07703 for the part required to support your equipment.

d. Action change codes indicated in the left-hand margin of the listing page denote the following:

- N -- Indicates an added item.
- C -- Indicates a change in data
- R -- Indicates a change in NSN only.

**5. How to Locate Repair Parts**

a. When National stock number or part number is unknown.

(1) *First.* Using the table of contents, determine the functional group within which the item belongs. This is necessary since illustrations are prepared for functional groups and listings are divided into the same groups.

(2) *Second.* Find the illustration covering the functional group to which the item belongs.

(3) *Third.* Identify the item on the illustration and note the illustration figure and item

number of the item.

(4) *Fourth.* Using the Repair Parts Listing, find the figure and item number noted on the illustration.

b. When National stock number or part number is known.

(1) *First.* Using the Index of National Stock Numbers and Part Numbers, find the pertinent National stock number or part number. This index is in NIIN sequence followed by a list of part numbers in alphameric sequence, cross-referenced to the illustration figure number and item number.

(2) *Second.* After finding the figure and item number, locate the figure and item number in the repair parts list.

**6. Abbreviations**

Not applicable.

P.S.—IF YOUR OUTFIT WANTS TO KNOW ABOUT YOUR RECOMMENDATION MAKE A CARBON COPY OF THIS AND GIVE IT TO YOUR HEADQUARTERS.

This fine document...

Was brought to you by me:

## [Liberated Manuals -- free army and government manuals](#)

Why do I do it? I am tired of sleazy CD-ROM sellers, who take publicly available information, slap “watermarks” and other junk on it, and sell it. Those masters of search engine manipulation make sure that their sites that sell free information, come up first in search engines. They did not create it... They did not even scan it... Why should they get your money? Why are not letting you give those free manuals to your friends?

I am setting this document FREE. This document was made by the US Government and is NOT protected by Copyright. Feel free to share, republish, sell and so on.

I am not asking you for donations, fees or handouts. If you can, please provide a link to [liberatedmanuals.com](http://liberatedmanuals.com), so that free manuals come up first in search engines:
