

# Swingline®

# Stack**AND**Shred™ Shredders

The Complete Shredding Solution.™

Patented technology lets you stack and automatically shred up to 750 sheets at a time.

#### HIGH SECURITY

Instant peace of mind knowing that your confidential information is fully shredded.

#### MINIMAL SUPERVISION

Skip the hassle of monitoring strangers on-site and trucks blocking roads and entrances.

#### ECO-CONSCIOUS

Shredded paper can be safely added to your office recycling. Energy saving features help reduce your impact on the environment.

# The problem with shredding services

## LOWER SECURITY

Confidential information is accessible to a stranger on-site, then leaves your premises, sometimes un-shredded or only partially shredded.

## HIGH COST

The steps involved in the collection and shredding process are labor intensive and convoluted, which create ongoing expenses and additional fees.

## INCONVENIENT

Shredding trucks on-site often block service entrances and roads for hours, in addition to having an employee invest their time monitoring the service provider.

# The problem with manual feed shredders

## TOO SLOW

Shred job requires a long, inefficient process of splitting stacks of documents down to multiple smaller batches before feeding the shredder.

## EXPENSIVE TO OPERATE

Employee time wasted on feeding paper and clearing shredder jams and malfunctions. Unlike Swingline shredders, many traditional shredders don't include jam prevention technology.

## ENERGY HUNGRY

Unlike Swingline shredders, many traditional models don't have a power saving function.

# The solution is hands free shredding

## MOST COST EFFECTIVE

Up to 65% less cost than using a shredding service and up to 90% less cost than using a manual feed shredder.\*

## LEAST TIME

Takes up to 98% less time to operate than a traditional shredder, which can equate up to 9 hours per person each year.\*

## HIGH SECURITY

Instant peace of mind knowing that your confidential information is fully shredded.

# Swingline Stack AND Shred shredders

Stack Shut Done

## AUTO FEED CHAMBER

Feeds stacked documents up to and including legal size.

Automatic rollers feed stacks smoothly through blades.

## STAPLE AND PAPER CLIP COMPATIBLE

Patented design reliably handles documents fastened with staples and paper clips, even in the auto feed chamber.

## ULTIMATE JAM PROTECTION

Intelligent™ Auto+ Jam Clearance technology responds automatically to auto feed jams. Intelligent™ Interactive Jam Clearance technology guides the user through a simple jam clearance process.

## PIN-LOCK SECURITY

A four digit custom PIN code ensures that only the original user can retrieve unshredded documents.

\*Calculations based on 3 million sheets using a Swingline Stack-and-Shred 750X Shredder. Shredder costs include cost of bags and oil. Shredding services cost based on average of 4 case studies across different organizations. Labor hours for manual feed shredder based on Intertek test data for time to shred 500 sheets. Labor cost assumed at \$25/hr (Average annual salary of \$55,000). Assumed same purchase price for machine and supplies for Stack-and-Shred and manual feed shredders. Manual feed shredder may or may not last 3 million sheets depending on model.
