

Notice of Invoice Remittance Address Change

Dear Customer,

Please note that over the last few months we have been making changes to some of the payment remittance addresses. Please be sure to review the address information on the remittance coupon portion of your invoice.

To ensure that your payments continue to be properly credited to your account, we recommend that you validate your remittance systems have the correct remittance information as soon as possible as any payments sent to a previous address will be returned to you.

Note for Checks: To receive proper credit for your payment, please include the remittance invoice stub with your check or a breakout of payments with your check stubs.

We appreciate and value your business, and look forward to continuing to serve your communications needs.

Thank you for choosing Verizon.
