Catalogue 2012

HERITAGE

Born from a love of camping and outdoor living, coupled with a desire to always create and innovate, Campingaz® products are instinctive and inspired, simple yet clever solutions based on over 60 years of expertise.

Trusted by generations of campers, a trust that has been earned by creating safe, reliable products that never fail to deliver, time and time again.

1955 - Stoves

1970 - Coolers

1980 - Valve Cartridges

It's the simple things that count...

Often simple thoughts spark big ideas; in 1949, when a young man embarked on a camping holiday with his family, he could never have anticipated that his thoughts that day would change the way in which people camped for generations to come.

Frustrated by the alternatives available, he set about creating a revolutionary reliable cylinder; compact and convenient, economic and easy to use. campingaz® was born...and life outdoors was liberated.

From the beach to the campsite, from the garden to the hills, campingaz® innovations have changed the blueprint for outdoor living and adventure, each decade introducing revolutionary innovations.

1990 - Barbecues

2008 - Garden Torch

2010 3 in 1 Grill

The flavour of food cooked outdoors. The warm glow of evenings by lantern light. These are the moments, the memories and the feelings that inspire us at Campingaz®, and have done for the past 60 years.

The simple pleasures are the best.

In 1949 Campingaz® was born out of an inspirational idea on a camping trip. Since then we've enhanced people's experience of the outdoors through exceptionally practical, convenient and stylish products.

We continue to innovate and inspire with versatile products that suit the back garden, the beach, the campsite or wherever our adventurous spirit takes us.

All our products are designed with one aim in mind – to make outdoor freedom accessible to everyone.

Today we still believe in that combination of practicality and inspiration – giving people the tools to enjoy the outdoor life, whether in their own back garden, on a beach or camping far from home. We continue to innovate because we know there are always smarter ways to do things, but we retain the classic solutions people know and love.
