Program Overview

The main focus of the Pregnancy Rewards Program is to identify pregnant women and help motivate them to complete necessary preventive exams and screenings for improved health outcomes for themselves and their new baby. Below is an outline of the rewards program for our new moms.

Please note Pregnancy Rewards does not replace or interfere with the member's physician assessment and care nor does it deviate from the Motherhood Matters^{fi} program.

Rewards for New Mom	What member has to do to earn reward
$50 gift card	Existing Molina Members must complete their 1st prenatal visit within their first trimester. Newly enrolled Molina Members must complete their 1st prenatal visit within 42 days of joining Molina Healthcare.
$25 gift card	Molina Members must complete one prenatal visit during their 2nd trimester (13-24 weeks pregnant).
$50 gift card	Molina Member must complete postpartum exam between 21-56 days after they deliver their baby (does not include visit to remove staples from a C-Section).

**__ONLY__ Medicaid Molina members are eligible to participate in Pregnancy Rewards.

General HEDIS® Tips to Improve Scores

- **Work with Molina Healthcare** – we are your partners in care and would like to assist you in improving your HEDIS® scores.

- **Use HEDIS® specific billing codes when appropriate.** This will help reduce the number of medical records we are required to review in your office. We have tip reference guides on what codes are needed for HEDIS®.

- **Use HEDIS® Needed Services Lists** that Molina Healthcare provides to identify patients who have gaps in care. If a patient calls for a sick visit, see if there are other needed services (e.g., well care visits, preventive care services). Keep the needed services list by the receptionist's phone so the appropriate amount of time can be scheduled for all needed services when patients call for a sick visit.

- **Avoid missed opportunities.** Many patients may not return to the office for preventive care so make every visit count. Schedule follow-up visits before patients leave.

- **Improve office management processes and flow.** Review and evaluate appointment hours, access, and scheduling processes, billing and office/patient flow. We can help to streamline processes.
    - Review the next day's schedule at the end of each day.
    - Ensure the appropriate test equipment or specific employees are available for patient screenings or procedures.
    - Call patients 48 hours before their appointments to remind them about their appointment and anything they will need to bring. Ask them to make a commitment that they will be there. This will reduce no-show rates.
    - Train staff to manage routine questions from patients and to educate patients regarding tests and screenings that are due.
    - Use non-physicians for items that can be delegated. Also have them prepare the room for items needed.
    - Consider using an agenda setting tool to elicit patient's key concerns by asking them to prioritize their goals and questions. Molina Healthcare has a sample tool that you can use.
    - Provide an after visit summary to ensure patients understand what they need to do. This improves the patient's perception that there is good communication with their provider.

- **Take advantage of your EMR.** If you have an EMR, try to build care gap "alerts" within the system.

MOLINA HEALTHCARE

HEDIS® Tips:
Prenatal Care – Timeliness

MEASURE DESCRIPTION

Prenatal care visit in the first trimester *or* within 42 days of enrollment. *Prenatal care visit, where the practitioner type is an OB/GYN or other prenatal care practitioner or PCP*, with one of these:*

- Basic physical obstetrical exam that includes auscultation for fetal heart tone, or pelvic exam with obstetric observations, or measurement of fundus height (a standardized prenatal flow sheet may be used)
- Obstetric panel
- Ultrasound of pregnant uterus
- Pregnancy-related diagnosis code (For visits to a PCP, a diagnosis of pregnancy must be present)
- TORCH antibody panel (Toxoplasma, Rubella, Cytomegalovirus, and Herpes simplex testing)
- Rubella antibody test/titer with an Rh incompatibility (ABO/Rh) blood typing (e.g., a prenatal visit with rubella and ABO, a prenatal visit with rubella and Rh, or a prenatal visit with rubella and ABO/Rh)
- Documented LMP or EDD with either a completed obstetric history or prenatal risk assessment and counseling/education

* For visits to a PCP, a diagnosis of pregnancy must be present along with any of the above.

USING CORRECT BILLING CODES

Please note that global billing or bundling codes do not provide specific date information to count towards this measure.

Description	Codes
Prenatal Care Visits	**CPT**: 99201-99205, 99211-99215, 99241-99245 **CPT II**: 0500F, 0501F, 0502F **HCPCS**: H1000-H1004, T1015, G0463 **UB Rev**: 0514
Obstetric Panel	**CPT:** 80055, 80081
Prenatal Ultrasound	**CPT:** 76801, 76805, 76811, 76813, 76815-76821, 76825-76828 **ICD-10 PCS**: BY49ZZZ, BY4BZZZ, BY4CZZZ, BY4DZZZ, BY4FZZZ, BY4GZZZ
ABO and Rh	**CPT (ABO):** 86900 **CPT (Rh)**: 86901
TORCH	**CPT (Toxoplasma):** 86777, 86778 **CPT (Rubella)**: 86762 **CPT (Cytomegalovirus):** 86644 **CPT (Herpes Simplex):** 86694, 86695, 86696
Pregnancy Diagnosis (for PCP, use these codes and one of the codes above)	**ICD-10:** O09-O16, O20-O26, O28-O36, O40-O48, O60.0, O71, O88, O91, O92, O98, O99, O9A, Z03.7, Z33, Z34, Z36

HOW TO IMPROVE HEDIS® SCORES

☐ Schedule prenatal care visits starting in the first trimester or within 42 days of enrollment.

☐ Ask front office staff to prioritize new pregnant patients and ensure prompt appointments for any patient calling for a pregnancy visit to make sure the appointment is in the first trimester or within 42 days of enrollment.

☐ Have a direct referral process to OB/GYN in place.

☐ Complete and submit Molina's pregnancy notification as soon as a pregnancy diagnosis is confirmed.

☐ Refer Molina patients to our Motherhood Matters® program.

MOLINA HEALTHCARE

HEDIS® Tips:
Frequency of Ongoing Prenatal Care

MEASURE DESCRIPTION

The percentage of deliveries that had 81 percent or more of expected visits. The percentage is adjusted by the month of pregnancy at the time of enrollment and gestational age. A full 42 week gestational pregnancy is expected to have 16 prenatal care visits.

USING CORRECT BILLING CODES

Please note that global billing or bundling codes do not provide specific date information to count towards this measure. Please consider not using global billing or bundling codes.

Codes to Identify Prenatal Care Visits

Description	Codes
Prenatal Care Visits	**CPT**: 99201-99205, 99211-99215, 99241-99245 **CPT II**: 0500F, 0501F, 0502F **HCPCS**: H1000-H1004, T1015, G0463 **UB Rev**: 0514
Obstetric Panel	**CPT:** 80055, 80081
Prenatal Ultrasound	**CPT:** 76801, 76805, 76811, 76813, 76815-76821, 76825-76828 **ICD-10 PCS**: BY49ZZZ, BY4BZZZ, BY4CZZZ, BY4DZZZ, BY4FZZZ, BY4GZZZ
ABO and Rh	**CPT (ABO):** 86900 **CPT (Rh)**: 86901
TORCH	**CPT (Toxoplasma):** 86777, 86778 **CPT (Rubella)**: 86762 **CPT (Cytomegalovirus):** 86644 **CPT (Herpes Simplex):** 86694, 86695, 86696
Pregnancy Diagnosis (for PCP, use these codes and one of the codes above)	**ICD-10:** O09-O16, O20-O26, O28-O36, O40-O48, O60.0, O71, O88, O91, O92, O98, O99, O9A, Z03.7, Z33, Z34, Z36

HOW TO IMPROVE HEDIS® SCORES

❐ Document physical OB findings (i.e., fetal heart tones, fundal height, pelvic with OB observations).

❐ Schedule prenatal care visits starting in the first trimester or within 42 days of enrollment.

❐ Ask front office staff to prioritize new pregnant patients and ensure prompt appointments for any patient calling for a pregnancy visit to make sure the appointment is in the first trimester or within 42 days of enrollment.

❐ Have a direct referral process to OB/GYN in place.

❐ Emphasize to patients the importance of continued monitoring throughout pregnancy to minimize pregnancy problems. Visit schedule should be every 4 weeks for the first 28 weeks of pregnancy, every 2-3 weeks for the next 7 weeks, and weekly thereafter until delivery.

❐ Refer Molina patients to our Motherhood Matters® program

MOLINA HEALTHCARE

HEDIS® Tips:
Postpartum Care

MEASURE DESCRIPTION

Postpartum visit for a pelvic exam or postpartum care with an OB/GYN practitioner or midwife, family practitioner or other PCP on or between 21 and 56 days after delivery. A Pap test within 21-56 days after delivery also counts.

Documentation in the medical record must include a note with the date when the postpartum visit occurred and one of the following:
- Pelvic exam, or
- Evaluation of weight, BP, breast and abdomen, or
- Notation of "postpartum care", PP check, PP care, 6-week check, or pre-printed "Postpartum Care" form in which information was documented during the visit

---

USING CORRECT BILLING CODES

Please note that global billing or bundling codes do not provide specific date information to count towards this measure.

Codes to Identify Postpartum Visits

Description	Codes
Postpartum Visit	**CPT**: 57170, 58300, 59430 **CPT II**: 0503F **HCPCS**: G0101 **ICD-10-CM Diagnosis:** Z01.411, Z01.419,Z01.42, Z30.430, Z39.1, Z39.2

Codes to Identify Cervical Cytology

Description	Codes
Cervical Cytology	**CPT:** 88141-88143, 88147, 88148, 88150, 88152-88154, 88164-88167, 88174, 88175 **HCPCS:** G0123, G0124, G0141, G0143-G0145, G0147, G0148, P3000, P3001, Q0091 **UB Rev:** 0923

HOW TO IMPROVE HEDIS® SCORES
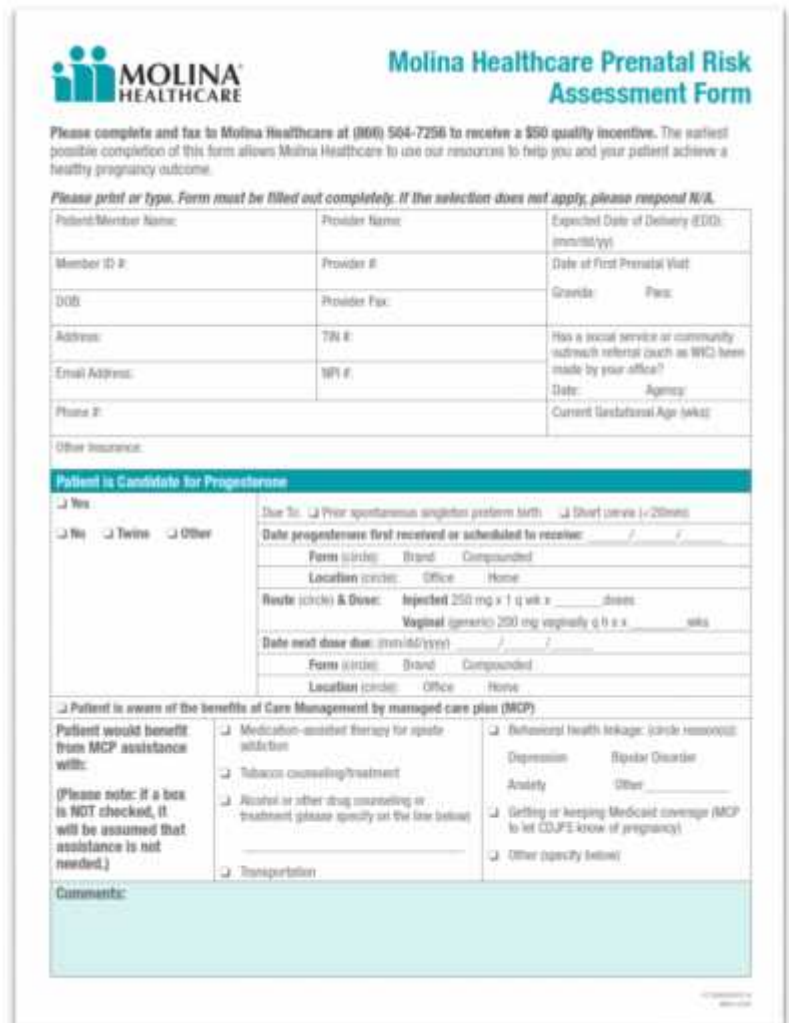

☐ Schedule your patient for a postpartum visit within 21 to 56 days from delivery (please note that staple removal following a cesarean section does not count as a postpartum visit for HEDIS®).

☐ Use the postpartum calendar tool from Molina to ensure the visit is within the correct time frames.

MOLINA® HEALTHCARE

Complete a **P**regnancy **R**isk **A**ssessment **F**orm (PRAF) on each newly identified pregnant patient.

PRAF MUST be billed with HCPCS code H1000 at the time of service.

Forms should be completed in the 1st Trimester or within 42 days of your patient enrolling with Molina.

Fax PRAF to: (866) 504-7256

If you have questions, please contact Providers Services at (855) 322-4079. A representative will be able to assist you from 8 a.m. to 5 p.m. Monday through Friday.

Molina Healthcare Prenatal Risk Assessment Form

Please complete and fax to Molina Healthcare at (866) 504-7256 to receive a $50 quality incentive. The earliest possible completion of this form allows Molina Healthcare to use our resources to help you and your patient achieve a healthy pregnancy outcome.

Please print or type. Form must be filled out completely. If the selection does not apply, please respond N/A.

Patient/Member Name:	Provider Name:	Expected Date of Delivery (EDD): (mm/dd/yy)

DOB:	Provider Fax:	Gravida: Para:
Address:	TIN #:	Has a social service or community outreach referral (such as WIC) been made by your office?
Email Address:	NPI #:	Date: Agency:
Phone #:		Current Gestational Age (wks):
Other Insurance:		

Patient is Candidate for Progesterone

❏ **Yes**

❏ **No**   ❏ **Twins**   ❏ **Other**

Due To: ❏ Prior spontaneous singleton preterm birth   ❏ Short cervix (<20mm)

Date progesterone first received or scheduled to receive: _____/_____/_____

Form (circle):   Brand   Compounded

Location (circle):   Office   Home

Route (circle) **& Dose:**   **Injected** 250 mg x 1 q wk x _____doses

Vaginal (generic) 200 mg vaginally q h s x _____wks

Date next dose due: (mm/dd/yyyy) _____/_____/_____

Form (circle):   Brand   Compounded

Location (circle):   Office   Home

❏ **Patient is aware of the benefits of Care Management by managed care plan (MCP)**

Patient would benefit from MCP assistance with:

(Please note: if a box is NOT checked, it will be assumed that assistance is not needed.)

❏ Medication-assisted therapy for opiate addiction

❏ Tobacco counseling/treatment

❏ Alcohol or other drug counseling or treatment (please specify on the line below)

_____

❏ Transportation

❏ Behavioral health linkage: (circle reason(s)):

Depression   Bipolar Disorder

Anxiety   Other_____

❏ Getting or keeping Medicaid coverage (MCP to let CDJFS know of pregnancy)

❏ Other (specify below)

Comments:

Instructions (Do Not Fax This Page)

For all Molina Healthcare patients seen in your facilities, please completely fill out this form and fax to Molina Healthcare.

Reimbursement Instructions

1. Bill for the completion of this form on the CMS 1500 (837P).
2. Use HCPCS code H1000.
3. Submit within the first trimester or within 42 days of new enrollment to receive a $50 quality incentive.

The information on this form will be used to:

- Notify the County Department of Job and Family Services (CDJFS) of those at risk of losing coverage.
- Reduce the time it takes to get progesterone to your patient.
- Prioritize patient needs for Care Management activities.
- Ensure that Molina Healthcare has the most up-to-date contact information to provide your patient with the services she needs.

If you have questions, please contact Provider Services at (855) 322-4079. A representative will be available to assist you from 8 a.m. to 5 p.m Monday through Friday.

Edinburgh Postnatal Depression Scale[1] (EPDS)

Name: _____   Address: _____

Your Date of Birth: _____   _____

Baby's Date of Birth: _____   Phone: _____

As you are pregnant or have recently had a baby, we would like to know how you are feeling. Please check the answer that comes closest to how you have felt **IN THE PAST 7 DAYS**, not just how you feel today.

Here is an example, already completed.

I have felt happy:
- ☐ Yes, all the time
- ☒ Yes, most of the time   This would mean: "I have felt happy most of the time" during the past week.
- ☐ No, not very often   Please complete the other questions in the same way.
- ☐ No, not at all

In the past 7 days:

1. I have been able to laugh and see the funny side of things
   - ☐ As much as I always could
   - ☐ Not quite so much now
   - ☐ Definitely not so much now
   - ☐ Not at all

2. I have looked forward with enjoyment to things
   - ☐ As much as I ever did
   - ☐ Rather less than I used to
   - ☐ Definitely less than I used to
   - ☐ Hardly at all

*3. I have blamed myself unnecessarily when things went wrong
   - ☐ Yes, most of the time
   - ☐ Yes, some of the time
   - ☐ Not very often
   - ☐ No, never

4. I have been anxious or worried for no good reason
   - ☐ No, not at all
   - ☐ Hardly ever
   - ☐ Yes, sometimes
   - ☐ Yes, very often

*5 I have felt scared or panicky for no very good reason
   - ☐ Yes, quite a lot
   - ☐ Yes, sometimes
   - ☐ No, not much
   - ☐ No, not at all

*6. Things have been getting on top of me
   - ☐ Yes, most of the time I haven't been able to cope at all
   - ☐ Yes, sometimes I haven't been coping as well as usual
   - ☐ No, most of the time I have coped quite well
   - ☐ No, I have been coping as well as ever

*7 I have been so unhappy that I have had difficulty sleeping
   - ☐ Yes, most of the time
   - ☐ Yes, sometimes
   - ☐ Not very often
   - ☐ No, not at all

*8 I have felt sad or miserable
   - ☐ Yes, most of the time
   - ☐ Yes, quite often
   - ☐ Not very often
   - ☐ No, not at all

*9 I have been so unhappy that I have been crying
   - ☐ Yes, most of the time
   - ☐ Yes, quite often
   - ☐ Only occasionally
   - ☐ No, never

*10 The thought of harming myself has occurred to me
   - ☐ Yes, quite often
   - ☐ Sometimes
   - ☐ Hardly ever
   - ☐ Never

Edinburgh Postnatal Depression Scale[1] (EPDS)

Postpartum depression is the most common complication of childbearing.[2] The 10-question Edinburgh Postnatal Depression Scale (EPDS) is a valuable and efficient way of identifying patients at risk for "perinatal" depression. The EPDS is easy to administer and has proven to be an effective screening tool.

Mothers who score above 13 are likely to be suffering from a depressive illness of varying severity. The EPDS score should not override clinical judgment. A careful clinical assessment should be carried out to confirm the diagnosis. The scale indicates how the mother has felt *during the previous week*. In doubtful cases it may be useful to repeat the tool after 2 weeks. The scale will not detect mothers with anxiety neuroses, phobias or personality disorders.

Women with postpartum depression need not feel alone. They may find useful information on the web sites of the National Women's Health Information Center <www.4women.gov> and from groups such as Postpartum Support International <www.chss.iup.edu/postpartum> and Depression after Delivery <www.depressionafterdelivery.com>.

SCORING

QUESTIONS 1, 2, & 4 (without an *)
Are scored 0, 1, 2 or 3 with top box scored as 0 and the bottom box scored as 3.

QUESTIONS 3, 5-10 (marked with an *)
Are reverse scored, with the top box scored as a 3 and the bottom box scored as 0.

  Maximum score: 30
  Possible Depression: 10 or greater
  Always look at item 10 (suicidal thoughts)

Users may reproduce the scale without further permission, providing they respect copyright by quoting the names of the authors, the title, and the source of the paper in all reproduced copies.

Instructions for using the Edinburgh Postnatal Depression Scale:

1. The mother is asked to check the response that comes closest to how she has been feeling in the previous 7 days.

2. All the items must be completed.

3. Care should be taken to avoid the possibility of the mother discussing her answers with others. (Answers come from the mother or pregnant woman.)

4. The mother should complete the scale herself, unless she has limited English or has difficulty with reading.

Escala Edinburgh para la Depresión Postnatal (Spanish Version)

Nombre de participante: _____   Número de identificación de participante: _____

Fecha: _____

Como usted está embarazada o hace poco que tuvo un bebé, nos gustaría saber como se siente actualmente. Por favor MARQUE (√) la respuesta que más se acerca a como se ha sentido durante LOS ÚLTIMOS 7 DÍAS y no sólo como se ha sentido hoy.

A continuación se muestra un ejemplo completado:

Me he sentido feliz:

Sí, todo el tiempo _____ 0
Sí, la mayor parte del tiempo ✔ 1
No, no muy a menudo _____ 2
No, en absoluto _____ 3

Esto significa: "Me he sentido feliz la mayor parte del tiempo" durante la última semana. Por favor complete las otras preguntas de la misma manera.

1. He podido reír y ver el lado bueno de las cosas:
   Tanto como siempre he podido hacerlo _____ 0
   No tanto ahora _____ 1
   Sin duda, mucho menos ahora _____ 2
   No, en absoluto _____ 3

2. He mirado al futuro con placer para hacer cosas:
   Tanto como siempre _____ 0
   Algo menos de lo que solía hacerlo _____ 1
   Definitivamente menos de lo que solía hacerlo _____ 2
   Prácticamente nunca _____ 3

3. Me he culpado sin necesidad cuando las cosas marchaban mal:
   Sí, casi siempre _____ 3
   Sí, algunas veces _____ 2
   No muy a menudo _____ 1
   No, nunca _____ 0

4. He estado ansiosa y preocupada sin motivo alguno:
   No, en absoluto _____ 0
   Casi nada _____ 1
   Sí, a veces _____ 2
   Sí, muy a menudo _____ 3

5. He sentido miedo o pánico sin motivo alguno:
   Sí, bastante _____ 3
   Sí, a veces _____ 2
   No, no mucho _____ 1
   No, en absoluto _____ 0

6. Las cosas me oprimen o agobian:
   Sí, la mayor parte del tiempo no he podido sobrellevarlas _____ 3
   Sí, a veces no he podido sobrellevarlas de la manera _____ 2
   No, la mayoría de las veces he podido sobrellevarlas bastante bien _____ 1
   No, he podido sobrellevarlas tan bien como lo hecho siempre _____ 0

7. Me he sentido tan infeliz, que he tenido dificultad para dormir:
   Sí, casi siempre _____ 3
   Sí, a veces _____ 2
   No muy a menudo _____ 1
   No, en absoluto _____ 0

8. Me he sentido triste y desgraciada:
   Sí, casi siempre _____ 3
   Sí, bastante a menudo _____ 2
   No muy a menudo _____ 1
   No, en absoluto _____ 0

9. Me he sentido tan infeliz que he estado llorando:
   Sí, casi siempre _____ 3
   Sí, bastante a menudo _____ 2
   Ocasionalmente _____ 1
   No, nunca _____ 0

10. He pensado en hacerme daño:
    Sí, bastante a menudo _____ 3
    A veces _____ 2
    Casi nunca _____ 1
    No, nunca _____ 0

Edinburgh Postnatal Depression Scale (EPDS) Scoring & Other Information

ABOUT THE EPDS

Response categories are scored 0, 1, 2 and 3 according to increased severity of the symptom. Items 3, 5-10 are reverse scored (i.e., 3, 2, 1, and 0). The total score is calculated by adding together the scores for each of the ten items. Users may reproduce the scale without further permission providing they respect copyright (which remains with the *British Journal of Psychiatry*) quoting the names of the authors, the title and the source of the paper in all reproduced copies.

The Edinburgh Postnatal Depression Scale (EPDS) was developed to assist primary care health professionals in detecting mothers suffering from postpartum depression (PPD); a distressing disorder more prolonged than the "blues" (which occur in the first week after delivery), but less severe than puerperal psychosis.

Previous studies have shown that PPD affects at least 10 percent of women and that many depressed mothers remain untreated. These mothers may cope with their baby and with household tasks, but their enjoyment of life is seriously affected and it is possible that there are long term effects on the family.

The EPDS was developed at health centers in Livingston and Edinburgh. It consists of 10 short statements. The mother underlines which of the four possible responses is closest to how she has been feeling during the past week. Most mothers complete the scale without difficulty in less than five minutes.

The validation study showed that mothers who scored above a threshold 12/13 were likely to be suffering from a depressive illness of varying severity. Nevertheless, the EPDS score should not override clinical judgement. A careful clinical assessment should be carried out to confirm the diagnosis. The scale indicates how the mother felt during the previous week, and in doubtful cases it may be usefully repeated after two weeks. The scale will not detect mothers with anxiety neuroses, phobias or personality disorders.

INSTRUCTIONS FOR USERS

1. The mother is asked to underline the response that comes closest to how she has felt during the previous seven days.
2. All 10 items must be completed.
3. Care should be taken to avoid the possibility of the mother discussing her answers with others.
4. The mother should complete the scale herself, unless she has limited English or has difficulty with reading.
5. The EPDS may be used at six to eight weeks to screen postnatal women or during pregnancy. The child health clinic, postpartum check-up or a home visit may provide suitable opportunities for its completion.

Cox, J. L., Holden, J. M., & Sagovsky, R. (1987). Detection of postnatal depression: Development of the 10-item Edinburgh Postnatal Depression Scale. *British Journal of Psychiatry,* 150, 782-786. The Spanish version was developed at the University of Iowa based on earlier Spanish versions of the instrument. For further information, please contact Michael W. O'Hara, Department of Psychology, University of Iowa, Iowa City, IA 52245, e-mail: mikeohara@uiowa.edu.

1st Prenatal Visit Timeframe - Existing Members

Existing Members - Must Complete Visit within 90 Days of Becoming Pregnant

Please use this calendar as a guide to assisting EXISTING Pregnant Members with scheduling a prenatal visit.
At least 1 visit MUST be completed during this timeframe. Visits completed prior to or after this timeframe do not count.

Step 1 - Date of last missed period (LMP)   **Step 2 - Schedule prenatal visit within correct time frame**   **Step 3 - Instruct member to attend visit as scheduled**

January First Day of Last Menstrual Period (LMP)	Schedule Visit between these dates: Beginning of 1st Trimester & Date Member became Pregnant	End of 1st Trimester	February First Day of Last Menstrual Period (LMP)	Schedule Visit between these dates: Beginning of 1st Trimester & Date Member became Pregnant	End of 1st Trimester	March First Day of Last Menstrual Period (LMP)	Schedule Visit between these dates: Beginning of 1st Trimester & Date Member became Pregnant	End of 1st Trimester	April First Day of Last Menstrual Period (LMP)	Schedule Visit between these dates: Beginning of 1st Trimester & Date Member became Pregnant	End of 1st Trimester	May First Day of Last Menstrual Period (LMP)	Schedule Visit between these dates: Beginning of 1st Trimester & Date Member became Pregnant	End of 1st Trimester	June First Day of Last Menstrual Period (LMP)	Schedule Visit between these dates: Beginning of 1st Trimester & Date Member became Pregnant	End of 1st Trimester
