Conditions for using Brother Web Connect

Service account

In order to use Brother Web Connect, you must have an account with the desired service. If you do not already have an account, use a computer to access the service's website and create an account.

Internet connection

In order to use Brother Web Connect, your Brother machine must be connected to a network that has access to the Internet through a wireless connection. For more information on connecting and configuring your machine, see the Quick Setup Guide included with your machine.

For network setups that use a proxy server, the machine must also be configured to use a proxy server (see *Proxy server settings* on page 4). If you are not sure, check with your network administrator.

NOTE

A proxy server is a computer that serves as an intermediary between computers without a direct Internet connection, and the Internet.

MFL-Pro Suite installation

The initial installation of Brother Web Connect requires a computer that has access to the Internet and has Brother MFL-Pro Suite installed. Follow the steps outlined in the Quick Setup Guide to install MFL-Pro Suite (from the supplied installer DVD-ROM), and configure the machine to be able to scan over your wireless network.

Proxy server settings

If the network uses a proxy server, the following proxy server information must be configured on the machine. If you are not sure, check with your network administrator.

- Proxy server address
- Port number
- User name
- Password

- 1 Press  .
- 2 Press **▲** or **▼** to display **Network**.
Press **Network**.
- 3 Press **▲** or **▼** to display **Web Connect Settings**.
Press **Web Connect Settings**.
- 4 Press **Proxy Settings**.

- 5 Press ▲ or ▼ to display Proxy Connection.
Press Proxy Connection.
- 6 Press On.
- 7 Press the option that you want to set, and then enter the proxy server information.
Press OK.
- 8 Press .

Setting up Brother Web Connect

(For Picasa Web Albums™, Flickr®, Facebook, Google Drive™, Evernote®, Dropbox, SkyDrive® and Box)

1

Step-by-step overview

Configure the settings using the following procedure:

Step 1: Create an account with the desired service (see page 7).

Access the service's website using a computer and create an account. (If you already have an account, there is no need to create an additional account.)

Step 2: Apply for Brother Web Connect access (see page 7).

Start Brother Web Connect access using a computer and obtain a temporary ID.

Step 3: Register (on the machine), the account information that is needed to access the desired services (see page 9).

Enter the temporary ID to enable the service on the machine. Specify the account name as you would like it to be displayed on the machine, and enter a PIN if you would like to use one.

The machine can now use the service.

How to create an account for each of the desired services

In order to use Brother Web Connect to access an online service, you must have an account with that online service. If you do not have an account, use a computer to access the website of the service and create an account. After creating an account, log on and use the account once with a computer before using the Brother Web Connect feature. Otherwise, you may not be able to access the service using Brother Web Connect.

If you already have an account, there is no need to create an additional account.

Continue with the next procedure, *How to apply for Brother Web Connect access* on page 7.

NOTE

You do not need to create an account if you will use the service as a guest. You can use only certain services as a guest. If the service you want to use does not have a guest-user option, you must create an account.

How to apply for Brother Web Connect access

In order to use Brother Web Connect to access online services, you must first apply for Brother Web Connect access using a computer that has Brother MFL-Pro Suite installed:

- 1 Turn on your computer.
- 2 Access the Brother Web Connect application web page.

- Windows® XP, Windows Vista® and Windows® 7

If you have already installed MFL-Pro Suite, choose  (**Start**) > **All Programs** > **Brother** > **ADS-XXXXX** (where XXXXX is your model name) > **Brother Web Connect**.

- Windows® 8

Click  (**Brother Utilities**), and then click the drop-down list and select your model name (if not already selected). Click **Use More** in the left navigation bar, and then click **Brother Web Connect**.

NOTE

You can also access the page directly by typing "<http://bwc.brother.com>" into your web browser's address bar.

- Macintosh

If you have already installed MFL-Pro Suite, click **Go** from the **Finder** menu bar > **Applications** > **Brother** > **Utilities** > **Brother Web Connect**.

NOTE

You can also access the page directly in the following ways:

- From the supplied DVD-ROM

1 Put the DVD-ROM into your DVD-ROM drive. When it launches, double-click the **Brother Support** icon.

2 Click **Brother Web Connect**.

- From your web browser

Type "<http://bwc.brother.com>" into your web browser's address bar.

3 Choose the service you want to use.

- 4 Follow the on-screen instructions and apply for access.
When finished, your temporary ID will be displayed. Make a note of this temporary ID, as you will need it to register accounts to the machine. The temporary ID is valid for 24 hours.

- 5 Close the web browser.
Continue with the next procedure, *How to register and delete accounts on the machine.*

How to register and delete accounts on the machine

Enter the account information and configure your machine so that it can access the service.
You can register up to 10 accounts on your machine.

Register an account

Press **Yes** or **No**.

NOTE

Occasionally, updates or announcements about your machine's feature will be displayed on the LCD. Read the information, and then press **OK**.

- 4 Press **▲** or **▼** to display the service that hosts the account you want to delete.
Press the service name.
- 5 Press **Register/Delete**.
- 6 Press **Delete Account**.
- 7 Press the accounts that you want to delete. The selected accounts will be indicated by check marks.
- 8 Press **OK**.
- 9 You will be asked to confirm your selections.
Press **Yes** to delete.
- 10 Account deletion is complete.
Press **OK**.
- 11 Press .

Scanning and uploading documents

Your scanned photos and documents can be uploaded directly to a service without using a computer.

When scanning and uploading JPEG or Microsoft® Office files, black and white scanning is not available.

When scanning and uploading JPEG files, each page is uploaded as a separate file.

Uploaded documents are saved in an album named "From_BrotherDevice".

For information regarding restrictions, such as the size or number of documents that can be uploaded, refer to the respective service's website.

For more information about services and supported features, see *Accessible services* on page 2.

- 1 Load your document.
- 2 Press ◀ or ▶ to display to Web.
Press to Web.
- 3 If information regarding the Internet connection is displayed on the machine's LCD, read the information and press OK.
- 4 You will be asked if you want to display this information again in the future.
Press Yes or No.

NOTE

Occasionally, updates or announcements about your machine's feature will be displayed on the LCD. Read the information, and then press OK.
