

CAPITAL EQUIPMENT

High Quality, Single-Source
Convenience and Value

Capital Equipment

High Quality, Single-Sourced Convenience and Value

It's time to finish those expansion and refurbishment projects, and stop spending money and time on repairs.

Complete Selection of High-Quality Products

Medline's capital equipment selection includes all the brands you know and trust, such as seca and Rice Lake. All Medline products are built to precise standards and offer premium performance.

Free Evaluation Programs

We can review your capital equipment list and non-stock requisitions and help you determine where you can reduce costs. As both a manufacturer and a distributor, Medline offers exceptional value and a wide variety of financing options to make it easy for you to get what you need.

Convenience

Save even more money and time by ordering capital equipment products with your medical/surgical supplies. Medline is your convenient single source for all your capital equipment needs.

Look for the **Best Value** icon throughout this catalog. Your assurance of quality, price and functionality.

Online Flip Book

Medline's Capital Equipment catalog is also available online – visit <http://www.medline.com/special/interiors/capital-equipment-catalog.asp>

- Flip through the pages just as you would with a printed catalog
- Search by product name, keyword and item number
- Enjoy quick-and-easy access to all the information you need
- Download it to your desktop

Modular Wire Shelving Systems

- Wide selection of shelf and post sizes in a variety of finishes to work in any application
- Split sleeve and grooved numbered posts allow for easy-and-quick assembly

Chrome – a plating process which deposits hard chrome over a nickel surface. This process is very durable and is used in an up-front storage or material handling application. Designed for dry, heated environments.

Stainless Steel – 304 stainless with an electropolish finish represents the highest industry standard in the prevention of corrosion. This finish is highly effective for cold, damp or corrosive environments.

Proform – an economical solution for high humidity applications. The carbon steel is treated with an iron phosphate base. A hybrid epoxy with an antibacterial agent is electrostatically applied over the treated surface. Color: light green.

Specialty Wire Shelves

- All-welded shelf construction is supported with architectural wire trusses to provide a 600 to 800 lb (272.16 to 362.87 kg) weight capacity per shelf
- Plastic shelf clips included

High Density Storage

Custom Storage Systems for Tight Spaces

Both the overhead and floor track systems are built to your exact specifications and can accommodate either new or existing shelving.

- Maximize limited floor space and double storage capacity instantly
- Unnecessary aisles are eliminated to free up floor space thus increasing the number of possible shelving units in a designated area
- Instant access to inventory
- Maximum air and light circulation
- Retrieval times increased by placing more material along main aisles
- System access through just one movable aisle
- Variety of shelf sizes and finishes available

For a quote, with or without installation, simply provide your Medline representative with the dimensions of your space.

Overhead Track System

- Can support a track length up to 21 feet (6.4 meters)
- Top track profile compensates for uneven floors
- Aluminum top track acts as a guide and precision top bearing ensures easy unit movement
- System utilizes stationary and mobile units for structural integrity
- 5" (12.7 cm) diameter rigid, polyurethane casters are non-marking and maintain a load capacity of 300 lbs (136 kg) per caster
- Quick and easy installation

Floor Track System

- Recommended for areas over 8 feet (2.4 meters) in length
- Low-profile tracks help maintain easy foot and cart accessibility and require no decking or false floor
- Easily relocate or expand to accommodate system growth

Bins

7 Colors and 19 Sizes —

Stainless Steel

Medical Carts

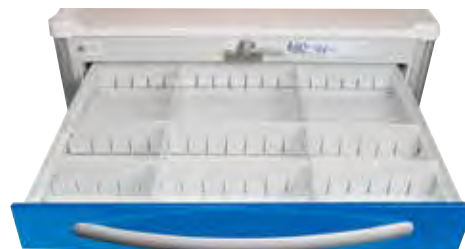

MPH01WMLA9

Lightweight Aluminum

Aluminum carts are 30% lighter (that is up to a 38 lb difference) than standard steel carts making them easier to maneuver throughout the facility. Four vertical corner mounting tracks also make it easier to mount and adjust accessories without using predrilled holes.

- Antimicrobial properties built in to help inhibit the growth of microorganisms
- Easier maneuverability and safety when time is of the essence
- Dual-shelf for additional workspace
- Five available locking systems to meet your needs
- ABS plastic molded top with cutaway front and easily adjustable dual push handles
- Drawer dividers included (two dividers per drawer)
- Five inch premium easy roll casters mount to our high impact plastic stabilizer base

MPH01WML6

Traditional Steel

- Antimicrobial properties help inhibit the growth of microorganisms
- Removable ABS plastic molded top for protection and easy cleanup
- Full extensions ball bearing slides for smooth, quiet drawers
- New dual push handles for ease while pushing
- Available with three locking options: breakaway (lever) lock and key lock are standard or mechanical push-button lock for an additional charge
- Premium 5" (12.7 cm) easy-roll casters mount to our non-marking high impact plastic stabilizer base

MPH01WMLA1

Three-Drawer Medical Carts

- Aluminum overall W x D x H, inch (cm): 29 x 24.5 x 36 (74 x 62 x 91)
- Steel overall W x D x H, inch (cm): 29 x 24.5 x 37.5 (74 x 62 x 95)
- Drawer W x D, inch (cm): 22 x 16.5 (56 x 42)

ITEM NO.	DESCRIPTION
MPH01WMLA1	Aluminum Construction, 1-3", 2-9" drawers
MPH01WML3	Steel Construction, 1-4", 2-9" drawers

Chair Scales

Selecting the Right Scale

You have to ask yourself several questions to make the correct choice for your needs, including what type of patients you are seeing (mobile, wheelchair-bound, etc), do you need to move the scale within your facility, and what measurements are important. Once you know these answers, Medline will help you choose the scale that fits your needs and budget.

Rice Lake® Digital Chair Scale

- Designed for individuals who have a difficult time standing on a conventional scale
- Movement compensation technology eliminates inaccuracies caused by involuntary movement
- Streamlined design and two heavy-duty wheels for quiet and easy portability
- Easy-to-clean surfaces
- Weight capacity: 660 lb x 0.2 lb (300 kg x 0.1 kg)
- Swing-up arm rests for easy access and exit
- Integrated wheels for ease of portability
- Large 1" (2.5 cm) LCD display
- Power supply: 9V DC, provided by 6 "AA" alkaline batteries (included) or AC adaptor (optional)
- BMI (body mass index) reweigh and hold functions
- Unit of measure: lb only, kg only, lb/kg
- Updatable firmware
- 2-year limited warranty
- EMR capable, USB

ITEM NO.	DESCRIPTION
MDR119114	Chairscale with footrest
MDR133077	9V AC Adaptor, 12 0V/230V auto-switching
OPTIONS/ACCESSORIES

MDR741701

Exam Table

This table is an unbeatable value and a smart choice in patient care.

- One-piece upholstered top promotes quick, efficient cleaning after each patient
- Steel frame for added strength
- Multi-position stirrups adjust to standard and extra-wide angles for optimum patient comfort, while the extra long pull-out step with slip-resistant tread provides additional safety
- Independent operation of extra-wide leg extension and irrigation basin allows for quick transition during procedures
- Five large storage drawers keep supplies conveniently located (drawers will be on the patient's right side unless otherwise specified)
- UL listed, hospital-grade, dual electrical outlets located on back side of table. The circuit breaker system activates if power is interrupted
- Paper roll holder accommodates 18" - 21" (46 cm - 53 cm) paper
- Back adjustment: horizontal to 80°; Height: 32" (81 cm); length 55" (139.7 cm) extends to 73" (185.4 cm); width 27" (69 cm). 600 lb (272 kg) patient weight capacity
- 4 year warranty
- Back adjusts by a counterbalance system, no gas cylinder

ITEM NO.	DESCRIPTION

Beds

Alterra 1232 Hi-Low Bed

Safety and comfort for the resident

- Built for ease of use and safety for the caregiver
- The maximum height of 26" (66 cm) makes it easy to care for residents; the low height of 7.25" (18 cm) makes it ideal for Alzheimer's patients and any other resident at risk of falling
- The bed moves from its lowest to highest height within 47 seconds and without any horizontal movement, eliminating wall damage
- Battery backup keeps the bed functioning in the event of a power outage
- Smooth, quiet performance is delivered by 4 ultra-quiet, dependable DC motors – 2 for height, 1 for the knee hinge and 1 for the reclining head deck
- Unique grid/rib deck for enhanced comfort and strength
- Also available without battery backup (Alterra 1200 Hi-Low Bed)

SPECIFICATIONS

Height range	7.25" - 26" (18 cm - 66 cm)
Bed deck dimensions	80" (2 m) long, 34.5" (88 cm) wide
Overall length	87.5" (2.2 m)
Weight capacity	450 lbs (204 kg)
Movement styles	Head, knee hinge, high/low
Deck style	Combination grid/rib
Rolling position	Move at any height
Motors	4 DC
Casters	8 3" (7.6 cm) casters, 4 locking
Warranty information	Electrical components: 4 years Bed frame: 15 years Welds: Lifetime warranty

OneTouchLock option for mobility and secure stationary positioning (FCE1232BL)

All eight casters rotate a full 360°, increasing maneuverability even in tight spaces. For extra safety, four of the eight casters lock into place.

The Alterra 1232's battery back-up is mounted on the bed frame and keeps bed functional during a power outage or emergency situations.

Slide stops keep the mattress in place for safe transfer in and out of bed

Wall guard near the head section prevents wall damage

Options and ordering information on page 73

Alterra 1233 Hi-Low Bed

Added comfort with an extra-wide sleeping surface

- The same great features as the Alterra 1232 but with an extra-wide sleeping surface
- A comfortable, roomy bed similar to the beds residents enjoyed in their own homes

SPECIFICATIONS

Height range:	7.25" to 26' (18 cm to 66 cm)

Options and ordering information on page 73

OneTouchLock option for mobility and secure stationary positioning (FCE1233BL)

Alterra 1385 Hi-Low Bed

Deluxe features with the resident and caregiver in mind

- A comfortable, roomy bed similar to the beds residents enjoyed in their own homes.
- Top-of-the-line parallel electronics system provides exceptionally smooth and quiet operation. Perfectly synchronized high-low motors ensure the bed deck remains level even after frequent motion and long-term use.
- With a 500 lb (227 kg) weight capacity, the Alterra 1385 has the strength to accommodate many of your residents.
- Patent-pending folding foot lock swings away when not in use to reduce tripping.
- Multiple positioning options are made possible by the bed's motors, which control the bed's height, knee hinge and reclining head deck.

SPECIFICATIONS

Height range	7.75" - 29.88" (19.7 cm - 76 cm)

EDGE DETAILS

EDGE DETAILS

At Home™ 100 and 150 Series

Choose the Top That's Best For You:

- **100 series** features a high-quality, low-pressure laminate top – the latest generation melamine laminate. PVC edge banding provides for a durable, thermally fused edge treatment that will not peel off.
- **150 series** features a high-quality horizontal grade Thermofoil top with a recessed edge to catch spills. Thermofoil has no seams or edges to delaminate and is one of the best healthcare surfaces for cleaning.

Easy To Use and Built to Last

- Smooth operating, easy-lift spring mechanism for easy one-handed height adjustment
- Two 2" locking casters and two non-locking casters
- Chrome steel construction
- 70 lb. weight rating
- Two-year warranty on the top and mechanisms (excludes casters)

ITEM NO.	DESCRIPTION	TOP DIMENSIONS
