

HEDMAN HD GROUP PERFORMANCE

- Performance Heddors & Exhaust Products
- LS & SB Chevy Engine Swap-In-A-Box™ Kits
- Engine & Transmission Mounts
- Oil Filtration Components & Filter Relocation Kits
- Chrome, Race & Street Performance Oil Pans
- Chrome, Aluminum & Powder Coated Engine Accessories
- Carburetor Spacers & Adapters
- EFI Spacers & Adapters

GET IT TOGETHER!

Dozens of New Engine Swap-In-A-Box™ & Oil Filter Relocation Kits **NOW AVAILABLE.**

In this year's catalog, The Hedman Performance Group didn't just add dozens of new LS Swap headers, motor and transmission mounts and oil filtration components. Now, many of our popular engine swap and oil filtration components are available in kit form to make ordering easier, and to ensure the parts you choose work in harmony. Refer to the page numbers noted on this page to visit the newly expanded Engine Swap-In-A-Box™ and Oil Filter Relocation Kit Sections of our catalog.

ENGINE SWAP PRODUCTS & ENGINE SWAP-IN-A-BOX™ KITS

- ▶ New LS Swap Headers, Oil Pans, Engine and Transmission Mounts
- ▶ Complete Engine Swap Kits For LS & SB Chevy Engines into Classic American Muscle Cars & Trucks.
- ▶ Swap-In-A-Box™ Kits Available In Your Choice Of Black Ceramic, Silver Ceramic, Or Uncoated Header Finish.
- ▶ Buy Components Separately Or As A Kit

OIL FILTRATION COMPONENTS & FILTER RELOCATION KITS

New billet kits include AN fittings and high temp/pressure lines!

- ▶ ALL New CNC Billet Aluminum Oil Filter Relocation Kits
- ▶ Expanded Cast Aluminum Relocation Kit Offerings Now Include 90° Bypass & Horizontal Port Models
- ▶ New Dodge & Ford Diesel Truck Application Coverage
- ▶ PH8A, HP4 & Jumbo HP6 Filter Systems (or equivalent filter model)

TORQUE-CURVE
Performance EFI Spacers

- ▶ **NO WHISTLE!**
- ▶ **Increased Torque**
- ▶ **Better Fuel Efficiency**
- ▶ **Quicker Throttle Response**
- ▶ **Outperforms the Competition**
- ▶ **Easy To Install. Usually Less Than 30 Minutes**
- ▶ **Exclusively On Hamburger's & Trans-Dapt EFI Spacers**
- ▶ **All Spacers Include Gaskets & Mounting Hardware**

Cut View

DYNO PROVEN PERFORMANCE GAINS

Your vehicle's EFI system constantly adjusts the air/fuel ratio to the engine to suite environmental and driving conditions at any given moment. If your engine needs more air, and your throttle body can't meet that need, your overall performance diminishes. Torque-Curve's proprietary plenum design technology allows more air to be drawn into the engine by reducing induction turbulence, leading to improved performance from your engine and all its performance add-ons.

The diagrams to the right show how Torque-Curve's unique port design affects airflow through your engine's throttle body, speeding up flow, allowing a higher volume of air to reach your intake manifold. Since our spacers work by smoothing out airflow, and not by making it more turbulent, they work without creating the whistle typically associated with throttle body spacers.

Chassis dyno testing of the Torque-Curve Design, on a 1998 BB Chevy Motor showed an 18+ ft. lbs. torque increase over stock, and 20+ ft. lbs. more than the leading competitor's spacer. That's at the rear wheels! See the charts above for test results with an '04 GM truck.

TORQUE-CURVE™ Spacer technology is available Exclusively on Trans-Dapt and Hamburger's Performance EFI spacers!

- ▶ **50-State Legal Designs E.O. #D-578-1**
- ▶ **Cast Aluminum Construction**
- ▶ **1 Year Warranty**
- ▶ **Affordably Priced**
- ▶ **Made In The U.S.A.!**

- ▶ **CNC Machined**
- ▶ **Billet Aluminum Construction**
- ▶ **Limited Lifetime Warranty**
- ▶ **Made In The U.S.A.!**

THREE MPFI SPACER DESIGNS AVAILABLE TO MEET YOUR PERFORMANCE NEEDS!

The Torque-Curve™ design increases air intake volume and velocity, and conditions air at the throttle blade for the most performance gains from any EFI spacer. You will immediately notice better throttle response and torque.

The WIDE-OPEN™ plenum design of these spacers improves mid- to high-end torque. This spacer model is the ideal spacer for tow vehicles, or when frequent, wide open throttle use is required.

These are Trans-Dapt's original spacer design. SMOOTH-BORE™ spacers increase intake volume and velocity to provide mild performance gains across the entire RPM range.

TORQUE-CURVE Design

THROTTLE BODY INJECTION SPACERS

2533
SWIRL-TORQUE™
TBI SPACERS

The slotted port design of our Swirl-Torque™ TBI Spacers creates a vortex that provides a better air/fuel mixture for greatly improved low-to mid-range torque.

2633
WIDE OPEN™
TBI SPACERS

The open plenum design of WIDE OPEN™ TBI Spacers promotes improved mid- to high-end torque. Ideal for towing applications, or frequent wide-open throttle use.

2736
SMOOTH BORE
TBI SPACERS

Smooth Bore TBI Spacers increase plenum volume and air velocity for respectable horsepower and torque gains throughout the RPM range.

THROTTLE BODY INJECTION SPACERS (TBI SPACERS)

APPLICATIONS	SWIRL TORQUE	WIDE OPEN	SMOOTH BORE

TBI Adapter/Spacer- 87-90 7.4L or any 2" TBI to 5.0/5.7L; 1 3/4" Manifold	-	-	2737*

TBI FUEL LINE EXTENSIONS & TBI RISER PLATES

#2457 raises the housing of the TBI unit allowing 15% more air flow by the injectors for a 2 to 3 horsepower gain. Fits all Chevy & GMC trucks with the 4.3L V6 & 5.0-5.7L V8s.

Fuel line extensions lengthen the gas lines and are strongly recommended for a SAFER installation of ALL TBI spacers.

DESCRIPTION	PART #
1/4" TBI Riser Plate. Fits '86-95 4.3L V6, 5.0L, 5.7L V8 Chevy/GMC Trucks, S-10 & SUVs	2457*
Fuel line Extensions for TBI Spacers	2458

CARBURETOR TO TBI CONVERSION ADAPTER PLATES

- ▶ Improved Cold Starts
- ▶ Less Elevation Sensitivity
- ▶ 3 Different TBI Positions Available
- ▶ For GM & Holley TBI Systems
- ▶ Gaskets & Hardware Included
- ▶ 1/4" Tall for Ample Hood Clearance

NOTE: 87-95 GM 5.0-5.7L=1-3/4". 87-95 GM 7.4L, Holley=2". If using a 91-95 7.4L TBI you must use Trans-Dapt spacer part #2536 or 2736.

GM TBI TO QUADRAJET 4BBL

For mounting a stock 1986-95 Chevy or GMC truck, or Holley TBI system to any Q-Jet, Thermoquad or Spread Bore.

DESCRIPTION	PART #
SB Chevy TBI REAR Mount to QuadraJet 4V	2206*
SB Chevy TBI CENTER Mount to QuadraJet 4V	2211*

CARBURETOR SPACERS & ADAPTERS ARE ONE OF THE QUICKEST & EASIEST WAYS TO FIND MORE POWER & FINE TUNE YOUR SET-UP

- ▶ **ONE OF THE BROADEST CARBURETOR SPACER LINES ON THE MARKET.**
- ▶ **AVAILABLE FOR THE INDUSTRY'S LEADING CARBURETOR MODELS**
- ▶ **MULTIPLE PLENUM DESIGNS**
- ▶ **4 SPACER MATERIAL OPTIONS**
- ▶ **OVER 50 YEARS OF CARBURETOR SPACER & ADAPTER EXPERIENCE**
- ▶ **LIFETIME WARRANTY ON HAMBURGER'S SPACERS, 1 YEAR WARRANTY ON TRANS-DAPT SPACERS**

Carburetor spacers offer many benefits. From improving the quality of the air/fuel mixture entering your intake manifold, to keeping your carburetor cooler to prevent percolation, carburetor spacers are one of the single most beneficial aftermarket components you can get for your money and they're simple to install.

Trans-Dapt Performance Products started offering cast aluminum carburetor spacers and adapters to auto enthusiasts back in the 1960s. Today, with the addition of new materials, applications and plenum design, Trans-Dapt, along with its Hamburger's Performance Products premium brand of CNC, billet models, the line has grown to become one of the premier carburetor spacer and adapter lines in the world.

Review the info below to learn more about the various spacer model and material options available from Hamburger's and Trean-Dapt Performance Products.

CARBURETOR SPACER & ADAPTER PLENUM DESIGN OPTIONS	STANDARD DESIGN SMOOTH-BORE PORT	 Standard ported design spacers add plenum length to speed up the air/fuel mixture into the intake manifold.	SWIRL-TORQUE™ SLOTTED PORT	 The computer generated design of our Swirl-Torque™ plenum design provides superior atomization and improves overall air/fuel mixture quality for significant gains in torque
	TORQUE-FLOW™ CONNICAL PORT	 The conical design of our Torque-Flow™ plenum design creates a venturi effect to draw more air and fuel into the engine. This design is available on Hamburger's CNC billet aluminum spacers	OPEN PLENUM UNPORTED	 The open plenum design of these spacers significantly increases plenum volume, and are ideal for wide open throttle applications, like drag racing.
CARBURETOR SPACER & ADAPTER MATERIAL OPTIONS	CNC BILLET & CAST ALUMINUM	 Trans-Dapt Performance's Cast aluminum spacers are durable, affordable, and have been a mainstay of the Trans-Dapt line for over 5 decades.	CANVAS & PLASTIC PHENOLIC	 Heat is the enemy of power and Trans-Dapt's Phenolic material spacers virtually eliminate vapor lock and percolation trouble. Their excellent insulating property prevents heat transfer from the manifold to the carburetor housing, keeping it and your fuel, cooler. A MUST in warmer climates!
	 Hamburger's Performance Billet machined spacers take durability and precision to the next level and are suitable for any service from weekend cruising, to wide-open throttle on the track.			

2 BBL HOLLEY CARBURETOR SPACERS

All Spacers Include Gaskets & Hardware.

For use on Holley 350-500-650 CFM 2 barrel carburetors. Precision aluminum construction. Spacers #3131 and 3132 are for designed and include engraved bore size to comply with Pro Mod 4 series specifications.

4 BBL HOLLEY & AFB CARBURETOR SPACERS

All Spacers Include Gaskets & Hardware.

These spacers are designed for use with square-bore 4 barrel carburetor spacers. Available in 3/8" to 2" spacer heights, and manufactured in a variety of materials to meet your performance goals. Most models have mounting points that allow them to be used with both Holley and AFB carburetors. Plastic phenolic spacers fit Holley carburetor models only. For maximum effectiveness on dual plane intake manifolds, use spacers #3217, 3218, 3219 or 3221, which are designed specifically for dual plane (a.k.a. 180°) intake manifolds. *Not for use on carburetors with AVS.*

4 BBL HOLLEY & AFB 8° LEVELLING BLOCK CARBURETOR SPACERS

All Spacers Include Gaskets & Hardware.

Keeps float-bowls level during acceleration. Leveling block spacers tilt the carburetor forward 8° to provide the optimum angle during quick acceleration and front-end lift. Excellent for marine and drag racing use.

4 BBL AVS (adjustable valve secondary) CARBURETOR SPACERS

All Spacers Include Gaskets & Hardware.

Edelbrock 650cfm carburetors with AVS (Adjustable valve secondary) technology may look like a standard 4 barrel carburetor, but the primary bores are slightly smaller than secondary bores. Using a standard 4 bbl holley type carburetor spacer will result in butterfly interference and possibly cause a stuck throttle. Hamburger's 4 barrel spacers for AVS models have staggered port sizes that match the carburetor to avoid interference.

QUADRAJET CARBURETOR SPACERS

All Spacers Include Gaskets & Hardware.

Quadrajets (a.k.a. Q-Jet) carburetors were introduced by GM back in the mid-60s and were factory equipment until the 1990s. The significant difference between the primary and secondary venturi diameters meant they were more fuel efficient and offered excellent throttle response at partial throttle, making them an ideal street performance carburetor. The spacers in this section are design for use with Q-Jet carburetors and are available in open and ported models.

DOMINATOR CARBURETOR SPACERS

All Spacers Include Gaskets & Hardware.

Holley 4500 DOMINATOR carburetors offer monstrous flow for high displacement performance and race engines. The larger bore size means regular square bore, 4 barrel spacers are not compatible. The spacers in this section have a 2" bore that matches the Dominator venturis

PLASTIC "CARB HAT" CARBURETOR COVER

Keep dirt & contaminants out of your carburetor during storage or down time. Fits carburetors with 5-1/8" necks.

DESCRIPTION	PART #
Plastic 5-1/8" Carburetor Hat	2012

ALUMINUM "CARB HAT" CARBURETOR COVER

This spun aluminum carb hat keeps dirt and other contaminants out of your carburetor. For use with 5-1/8" neck carburetors.

DESCRIPTION	PART #
Spun Aluminum 5-1/8" Carburetor Hat	2007

STANDARD 6 FT. CHOKE CABLE KIT

Solid steel core and zinc-plated shroud with chromed plastic knob. Requires a 3/8" diameter mounting hole.

DESCRIPTION	PART #
6 ft. Choke cable kit with plastic knob	2332

PREMIUM 6 FT. CHOKE CABLE KIT W/ BILLET KNOB

This premium choke cable has a stainless steel sheath and aluminum knob. Requires a 3/8" mounting hole.

DESCRIPTION	PART #
6 ft. Choke cable kit with billet aluminum knob	4120

STANDARD UNIVERSAL FIT THROTTLE CABLES

These standard design, universal fit throttle cables have a thick rubber sheath to protect the inner cabling from corrosion and binding.

DESCRIPTION	PART #
24" Universal fit throttle cable	4123
36" Universal fit throttle cable	4124

PREMIUM UNIVERSAL FIT THROTTLE CABLES

Trans-Dapt's premium throttle cables have a stainless steel sheath and is suitable for any level of hot rod project. Fits carbureted vehicles and 1986-93 Ford EFI Motors.

DESCRIPTION	PART #
24" Carburetor throttle cable - Stainless Steel & Aluminum	8988
36" Carburetor throttle cable - Stainless Steel & Aluminum	4122
24" TUNED PORT Carburetor throttle cable - Stainless Steel & Aluminum	4119

REPLACEMENT THROTTLE CABLES

Replacement throttle cables for Trans-Dapt's discontinued #4103 & #4107 cable throttle kits.

DESCRIPTION	PART #
72" Replacement Cable	4129*
84" Replacement Cable	4130*
96" Replacement Cable	4131*

*Discontinued when current inventory is depleted.

FIREWALL MOUNT GAS PEDAL ASSEMBLIES

Trans-Dapt's firewall mount gas pedals are premium quality, and ideal for virtually any hot rod or street rod project. They are universal in design and installation is a breeze. Most models utilize non-slip rubber pad inserts to ensure safe operation, even when the pedal surface is wet.

SHAPE	MATERIALS	PAD DIMENSIONS	PART #
OVAL	All Chromed Steel	-	9507
OVAL	All Polished Aluminum; Rubber Inserts	2-3/8" x 1-9/16"	9505
ROUND	All Polished Aluminum; Rubber Inserts	3-1/4"	9506
PARALLELOGRAM	Polished Aluminum/Steel Arm; Rubber Inserts	4-1/4" x 2"	8956
RECTANGLE	Polished Aluminum/Steel Arm; Rubber Inserts	4" x 1-1/2"	8958
RECTANGLE	All Polished Aluminum; Rubber Inserts	4" x 1-3/4"	9501

UNIVERSAL SWING PEDALS

Heavy-duty steel construction for long service. Grooved, rubber pedal pads are included, and provide a safe, non-slip surface.

DESCRIPTION	PART #
Single Swing Pedal for single master cylinder. May be used for brake or clutch. For E.I.S. or Wagner master cylinders.	4148
Dual Swing Pedal Assembly is designed for various Bendix master cylinders.	4149

FLOOR BOARD MOUNT GAS PEDAL ASSEMBLIES

This classic style street rod gas pedal mounts to the floorboard. And comes complete with everything you'll need, minus the throttle cable.

The vertical, ribbed rubber inserts provide a non-skid surface to ensure your foot stays in place when you mash the go pedal. Quality Trans-dapt throttle cables are available separately.

Matching Headlight Dimmer Switch also available separately.

SHAPE	MATERIALS	PAD DIMENSIONS	PART #
RECTANGLE	POLISHED aluminum pedal with Stainless steel mounting bracketry	6-1/2" x 2"	9509
RECTANGLE	POLISHED & CHROMED aluminum pedal with Stainless steel mounting bracketry	6-1/2" x 2"	9510
Matching RECTANGLE Headlight Dimmer Switch		1-1/2" x 1-3/4"	9508

RETRO STYLE BAREFOOT GAS PEDAL COVER

This barefoot style pedal is reminiscent of the 1970's customizing trend. The pedal easily installs over the factory gas pedal (up to 2" wide) using two steel braces and 4 machine screws, and no modification to the factory pedal is required. The chrome steel pedal has a Black finish with vertical chromed ribs to provide grip.

Matching Headlight Dimmer Switch also available separately.

SHAPE	MATERIALS	PAD DIMENSIONS	PART #
BAREFOOT	Chrome steel with black powdercoat inlay	9" x 4-1/4"	9560
Matching Barefoot Headlight Dimmer Switch		4-3/4" x 2"	9561

HEADLIGHT DIMMER SWITCH PEDAL COVERS

These dimmer switch pads easily install over your stock floor mounted headlight dimmer switch. Simply push it on and tighten the two set screws to securely attach it. Works with switches up to 7/8" in diameter.

SHAPE	MATERIALS	PAD DIMENSIONS	PART #
BAREFOOT	Chrome steel with black powdercoat inlay	4-3/4" x 2"	9561
RECTANGLE	Polished aluminum with rubber inserts	1-1/2" x 1-3/4"	9508

*Not legal for sale or use on pollution controlled motor vehicles

BILLET ALUMINUM THROTTLE BRACKET

Trans-Dapt's new billet throttle brackets are more than just highly functional, they look great too. The Anodized finish, along with the stainless steel hardware and dual return springs will look great for years. Ideal for street rod & racing projects.

- ▶ **CNC Machined Billet Aluminum**
- ▶ **Fully Adjustable**
- ▶ **Works with GM Snap, Ford and Morse Cables**
- ▶ **Stainless Springs & Hardware**

SHAPE	CLEAR ANODIZED	RED ANODIZED	BLACK ANODIZED	BLUE ANODIZED
Holley 4150 Carburetors	2342	2349	2344	2348
Holley Dominator 4500	-	2341	-	-

TRANSMISSION KICKDOWN CABLE KITS

Trans-Dapt Flexible Braided Transmission Kickdown Cables have a tough braided stainless steel housing and come complete with the linkage required to effortlessly install it on your carbureted GM, Ford or Chrysler vehicle. 24" Braided stainless throttle cable assembly.

DESCRIPTION	PART #
CHRYSLER 727	8964
CHRYSLER 904	8965
FORD C-4	8970
FORD C-6	8981
GM 4L60	8966
GM 700R4	8985
GM 700R4 (Tuned Port)	8967
GM TURBO TH-350	8989
GM TURBO TH-350 (56")	8969
GM TURBO TH-350 (Tuned Port)	8968

TRANSMISSION KICK DOWN BRACKET

Chrome plated bracket is for use with Trans-Dapt #9756 throttle cable bracket set on applications with a GM Turbo 350 automatic transmission.

DESCRIPTION	PART #
Turbo 350 Transmission Kickdown Bracket	9757

THROTTLE CABLE BRACKET SET

For SB Chevys with throttle cable type linkage. Installs without removing carburetor. Fully adjustable. #9757 bracket is required for use with TH-350 or 400 transmissions. Bolts to intake manifold.

DESCRIPTION	PART #
SB Chevy throttle bracket set	9756

THROTTLE RETURN SPRING KITS

This chrome kit allow for easier carb swaps. Works with GM cable brackets and fit most Holley and Carter AFB carburetors. Includes cable and transmission kick down cable bracket. Bolts to intake manifold.

DESCRIPTION	PART #
BB Chevy Throttle Return Spring Kit	2386
SB Chevy Throttle Return Spring Kit (Tall)	2387

THROTTLE RETURN SPRING BRACKETS

Chrome-plated carburetor spring brackets provide an extremely convenient location to hook up your carburetor return spring. Designed for SB Chevy & SB Ford motors.

DESCRIPTION	PART #
Throttle Return Spring Bracket; SB Chevy & others	2291
Throttle Return Spring Bracket; SB Ford & others	2297

CARBURETOR LINKAGE PLATE

Prevent accelerator cable binding and linkage hassles with this chromed steel carburetor linkage plate for Holley carburetors. Includes bracket for GM cable. #2334 bracket for Morse cable available separately.

DESCRIPTION	PART #
Holley & AFB Carb Linkage Plate	2333
Morse Cable Bracket for Carb Linkage Plate	2334

CARBURETOR MOUNT THROTTLE RETURN KIT

Mounts directly to the carburetor. Fits Holley 2300 & 2305 series two-barrel, or 4150 & 4160 four-barrel carbs on virtually any engine! Chrome plated. Includes both heavy & light spring sets.

DESCRIPTION	PART #
Holley Carburetor mount Throttle Return Kit	2083

DUAL CARB LINKAGE KIT

Use this kit for connecting dual inline carburetors. Compatible with Holley, Demon, Edelbrock, Carter and Barry Grant carburetors.

DESCRIPTION	PART #
Dual carburetor linkage with hardware.	2336

CARBURETOR LINKAGE BRACKETS

For use with manual transmissions. Compatible with GM throttle cable. Makes carburetor swaps quick and easy.

DESCRIPTION	PART #
Carb linkage bracket; MANUAL Trans.	9619

Compatible with GM cable brackets, and fits most Holley and Carter AFB carburetors. Cable bracket and transmission kickdown cable bracket included.

DESCRIPTION	PART #
Carb linkage bracket; AUTOMATIC Trans.	9620

Hamburger's® Performance Products

BILLET ALUMINUM OIL FILTRATION COMPONENTS & OIL FILTER RELOCATION KITS

- ▶ **ULTRA HIGH-FLOW DESIGN**
- ▶ **-12AN INLET/OUTLET PORTS (O-RING DESIGN)**
- ▶ **TRUE-DUAL™ FILTER BASES OFFER TRUE DOUBLE FILTERING OF ENGINE OIL**
- ▶ **IDEAL FOR RACE, MARINE & DIESEL USE**
- ▶ **BUILT-IN INSTRUMENTATION PORT (ON SELECT MODELS)**
- ▶ **100% CNC MACHINED 6061-T6 ALUMINUM**
- ▶ **LIFETIME WARRANTY ON ALL HAMBURGER'S BILLET OIL FILTRATION PRODUCTS**

Hamburger's Performance Products Oil Filtration Components and Oil Filter Relocation Kits are the pinnacle of quality and performance. CNC machined in our California manufacturing facility using durable, lightweight, aircraft-quality aluminum, Hamburger's components are durable and provide high enough oil flow for virtually any automotive application— from daily driver to top fuel dragster.

Now, the same high quality filtration components you've trusted for nearly a decade are available as complete relocation kits. Check out the charts on the following pages for a selection of single filter, dual filter and multi-position oil filter relocation kits. Each kit includes a remote filter base, application specific filter bypass adapter, aluminum fittings and braided oil lines.

New billet kits include quality Gates Oil Lines

Billet Kits Include -12 AN Fittings

Select bases include Instrumentation Port

TD TRANS DAPT® PERFORMANCE PRODUCTS

CAST ALUMINUM OIL FILTRATION COMPONENTS & OIL FILTER RELOCATION KITS

- ▶ **MANY OLD SCHOOL ENGINE, BOLT-ON STYLE BYPASS ADAPTERS AVAILABLE.**
- ▶ **CAST ALUMINUM CONSTRUCTION**
- ▶ **HAND-FINISHED PORT THREADS**
- ▶ **COMPLETE OIL FILTER RELOCATION KITS & INDIVIDUAL COMPONENTS AVAILABLE**
- ▶ **ALL NEW HORIZONTAL PORT AND 90° BYPASS ADAPTER FILTER RELOCATION KITS AVAILABLE**

Trans-Dapt Performance Products has been manufacturing engine oil filter products since the mid-60's, and began offering complete remote oil filter relocation kits in 1984.

While designs have changed and production equipment may have been updated over the past 40 years, Trans-Dapt's dedication to manufacturing quality oil filtration components has not. From simple daily drivers to classic muscle cars, Trans-Dapt's oil filtration components and remote filter kits are an ideal, cost effective choice for upgrading or repairing your engine's oiling system. Cast aluminum oil filtration components are not suitable for use on diesel, race or marine applications. For these applications use our Hamburger's billet oil filtration components.

Cast relocation kits include 30° Oil Lines

Cast aluminum Kits include solid brass barbed fittings

REMOTE OIL FILTER RELOCATION KIT SYSTEM STYLE REFERENCE CHART

These photos are intended to assist in the choosing of an oil filter relocation kit system for your project. Match the reference letter noted in the product charts on these pages to the reference letters in this reference guide to identify the components included with that oil filter relocation kit type.

♣ Cast Aluminum filtration components are not for use on Race, Marine or Diesel Applications!

OIL FILTER RELOCATION KIT GENERAL APPLICATION GUIDE DOMESTIC VEHICLES

Use the charts on these pages to find the correct oil filtration relocation kit for your vehicle. The chart includes both Hamburger's Performance CNC machined, billet aluminum, and Trans-Dapt Performance Products' cast aluminum single & double remote oil filter relocation kits. To choose a kit, find your vehicle application, then select the part number in the column for the relocation kit that best fits your requirements. Please note, we now offer systems with vertical or horizontal inlet/outlet ports, as well as kits with a 90° bypass adapter for limited clearance.

OIL FILTER RELOCATION KIT GENERAL APPLICATION GUIDE IMPORT / SPORT COMPACT VEHICLES

Use the charts on these pages to find the correct oil filtration relocation kit for your vehicle. The chart includes both Hamburger's Performance CNC machined, billet aluminum, and Trans-Dapt Performance Products' cast aluminum single & double remote oil filter relocation kits. To choose a kit, find your vehicle application, then select the part number in the column for the relocation kit that best fits your requirements. Please note, we now offer systems with vertical or horizontal inlet/outlet ports, as well as kits with a 90° bypass adapter for limited clearance.

REMOTE OIL FILTER BASES

Use these remote oil filter mounting brackets to relocate your oil filter for easier access, or to increase the oil capacity of your vehicle's lubrication system. Match the reference letter in the product charts below to these photos for product identification.

CAST ALUMINUM REMOTE OIL FILTER BASES

BILLET ALUMINUM REMOTE OIL FILTER BASES

All cast and billet aluminum remote oil filter bases include filter nipple(s). These bases are also available as part of Hamburger's and Trans-Dapt Oil Filter Relocation Systems.

SPIN-ON BYPASS FILTER ADAPTERS

Trans-Dapt and Hamburger's spin-on style filter bypass adapters install as easily as an oil filter and allow you to run oil lines to a remote filter base or dry sump oiling system. Match the reference letter in the product charts below to these photos for product identification.

OIL COOLER SANDWICH ADAPTERS

Trans-Dapt's oil cooler sandwich adapters allow for the installation of an engine oil cooler, without the need to relocate the oil filter. 3/8" NPT ports (excludes 1322 which has 1/2" NPT ports.) Adapters #1322 measure 2-1/4" tall. All other adapters are 1" tall.

GENERAL APPLICATION CHART FOR TRANS-DAPT DIFFERENTIAL COVERS

The chart on these pages contains some of the most popular passenger car and truck applications currently on the road. It should be used as a general guide to choosing the correct differential cover for your project. We suggest you always research your application and confirm that the bolt pattern shape of the new cover matches the factory style before beginning your installation.

^Part numbers in **PURPLE** will be discontinued when current inventory is depleted.

*Some Dana 60 with full-floating axles have the fill hole positioned higher on the factory cover than on our #4816 or #8783. Compare holes BEFORE installing the new Trans-Dapt cover. If the Trans-Dapt fill hole is lower than the factory cover, DO NOT USE! Fluid level may fall below factory specifications. This could cause differential damage!

⁺Some Dana 60 with full floating axles have the fill hole positioned higher on the factory cover than on our #4816 or #8783. Compare holes BEFORE installing the new Trans-Dapt cover. If the Trans-Dapt fill hole is lower than the factory cover, **DO NOT USE!** Fluid level may fall below factory specifications. This could cause differential damage!

DIFFERENTIAL COVER GASKETS

Trans-Dapt Performance Differential Cover Gaskets are designed for use with all Trans-Dapt differential covers, or Original Equipment covers. Manufactured using cellulose-nitrile gasket material to prevent leakage.

AUTOMATIC TRANSMISSION FILTER SYSTEM UNIVERSAL FIT

- ▶ Extends Transmission Life
- ▶ Removes Twice As Many Contaminants As Stock Filter Screens
- ▶ Universal Design Fits Virtually Any Automatic Transmission
- ▶ Increases Transmission Fluid Capacity Cooler Transmission Running Temperatures
- ▶ Easily Installs Between Your Transmission & Cooling Unit

Kit contains:
 Cast Aluminum Filter Mounting Base
 Mounting Hardware
 A Pair of High-Temperature Oil Hoses
 Solid Brass Fittings*
 Uses Trans-Dapt 1156, Fram PH8A or equivalent Filter (**not included**)

Fittings do not come installed

DESCRIPTION	MATERIAL	INLET/OUTLET SIZE	FILTER SIZE	PART #
3/8" Transmission fluid filtering system	CAST ALUMINUM	1/2" NPT	PH8A	1155
1/2" Transmission fluid filtering system	CAST ALUMINUM	1/2" NPT	PH8A	1255

*Hose fittings for Transmission cooler end of hoses not included. Fittings for cooling unit end must be purchased separately.

UNIVERSAL CROSSMEMBER STYLE TRANSMISSION MOUNTS

Position your engine and transmission where you need them. Eliminates the need to fabricate a rear crossmember. Supports most standard and automatic transmissions in open channel frames w/ widths of 26" to 36" between the frame rails. 1-5/8" diameter .114" wall thickness tubing. Can be used w/ either #9442 or 4237 GM trans mount or #4736 Ford trans mount.

DESCRIPTION		WITH PADS		WITHOUT PADS

1953-64 FORD PICKUP TRANSMISSION CROSSMEMBERS

- ▶ 2-1/2" Drop
- ▶ 32" Wide Bolt Holes (on center)
- ▶ Available As A Kit with Rubber Pads, Polyurethane Pads or Crossmember Only
- ▶ Kits Include Mounting Hardware

These Ford truck transmission crossmembers are easy to use, and provide a durable, sturdy mounting point for your TH-350 or C-4/C-6 transmission. The crossmember mounts on the frame channel, or under frame. American-made, solid steel construction. Replacement transmission mount: Trans-Dapt #9442, #4236 or 4237.

DESCRIPTION	WITH PADS		WITHOUT PADS

ENGINE "SWAP-IN-A-BOX"™ COMPLETE ENGINE SWAP KITS

- ▶ COMPLETE KITS AVAILABLE FOR THE CLASSIC CAR HOBBY'S MOST POPULAR ENGINE/MODEL COMBINATIONS
- ▶ UPDATED KITS FOR LS ENGINES INTO TRI 5, 1ST & 2ND GEN F-BODIES, GM A-BODY, CHEVY C10 & S-10 TRUCKS
- ▶ EACH KITS PRODUCTS ARE ENGINEERED TO WORK TOGETHER
- ▶ SWAP IN A BOX KITS TAKE THE "GUESS WORK" OUT OF COMPONENT SELECTION FOR YOUR SB CHEVY OR LS ENGINE SWAP PROJECT

- ▶ ALL KITS INCLUDE HEADERS, OIL PAN, ENGINE MOUNTS MOUNTING HARDWARE. LS KITS ALSO INCLUDE TRANSMISSION CROSSMEMBER.
- ▶ MANUFACTURING LS SWAP PRODUCTS SINCE 2002!

Trans-Dapt's Engine Swap-In-A-Box™ Kits are created using only quality products manufactured by the member companies of the Hedman Performance Group. Each Engine Swap-In-A-Box™ Kit contains application specific headers, motor mounts and engine Swap Oil Pan. Some kits also include transmission crossmembers.

The HP Group is proud to introduce new engine swap kits that take much of the guess work out of swapping an LS engine into a '55-57 Chevy, 1964-67 Chevelle, Malibu, El Camino, 1967-81 Camaros and Firebirds or 1982-04 S-10/S-15 & Blazer/Jimmy.

To find the correct kit for your project, refer to the application chart to the right, paying close attention to the vehicle, cylinder head type and transmission columns to ensure you select a kit that is designed for you engine, transmission and model combination. Each application is available with coated or uncoated headers. Gen 1 SB into S-10 kits are also available with Heavy-Duty Elite model headers.

42012

42053

**"ENGINE SWAP-IN-A-BOX"
COMPLETE ENGINE SWAP KITS**

This chart contains a complete listing of our Engine Swap-In-A-Box Kits. To locate the kit for your project, first locate your vehicle's section, then select the engine going in to the vehicle, review the cylinder head type column to ensure the kit is designed for those heads and transmission. Finally, choose the part number in the column for the header finish you want.

CHEVY LS ENGINE INTO GM F-BODY & X-BODY CARS

Trans-Dapt Performance recognized the future of the classic car market early and introduced its first LS engine swap motor mounts to the industry way back in 2002, just three years after the LS engine was put into production.

The kits on this page represent over 10 years of LS component design and manufacturing experience, and many kits, like these F-Body swap mounts, are designed to fit a specific group of vehicles, making them simple to use, and ensuring a safe, reliable, long lasting installation of your an LS engine into classic American muscle cars and trucks. Complete Engine Engine Swap-In-A-Box Kits also available.

PROUD TRUCK OWNERS HAVE TRUSTED TRANS-DAPT FOR QUALITY PERFORMANCE PRODUCTS SINCE 1959

FORD 429-460 ENGINE CONVERSION MOUNTS

INTERLOCKING DESIGN FOR SECURE, LONG LASTING RELIABILITY

These universal motor mounts are a must when installing a 429-460 engine in to a Ford Bronco, F-100, F-150, F-250 or F-350 truck. They use stock frame perches bolted directly to the engine block. No relocation of transmission or transfer case required. Available in Black Urethane or Solid Steel. All mounts are built with Grade 8 studs to withstand high torque & horsepower loads. Solid steel mounts will improve 0-to-60 times, and prevent clutch linkage binding to transfer more power to the wheels. Sold in pairs.

For '72-82 1/2- 3/4-Ton Trucks use Hedman Heddors #85650.
For Cobra Jet Heads use Hedman Heddors #85651.

Replacement Chevy Mounts with Adapter Plate (Pair)	4235

REPLACEMENT 2.8L CHEVY MOUNT PADS

These mounts are designed for use with part #'s 4406, 4426, 4516, 4536, 4606, 4626, 4676, 4696, 9926 & 9906. also fit '82-97 2.8L S-10, S-15 Trucks and SUVs, 2WD and 4.3L V6 84-00 Astro/Safari Vans.

DESCRIPTION	PART #
Replacement 2.8/4.3L V6 Chevy Mounts (Pair)	4217

REPLACEMENT 4.3L V6 CHEVY MOUNT PADS

These mounts are designed for use with part #4671 & 4691. Also fit 84-95 4.3L S-10, S-15 Trucks & SUVs 2WD.

DESCRIPTION	PART #
Replacement 4.3L V6 Chevy Mounts (Pair)	4218

REPLACEMENT OLDSMOBILE MOUNT PADS

These mounts are designed for use with part #'s 9591, 9587 and some V8 factory apps. Fits '57-85 Oldsmobile 330-455 passenger cars.

DESCRIPTION	PART #
Replacement Oldsmobile Mounts (Pair)	9592

REPLACEMENT FORD RANGER MOUNT PADS

These mounts are designed for use with Trans-Dapt part #'s 9716 & 9736. Same as '69-86 F-100 302.

DESCRIPTION	PART #
Replacement Ford Ranger Mounts (Pair)	9717

REPLACEMENT EARLY-MODEL SB FORD MOUNT PADS

These mounts are designed for use with part #'s 4819 & 4849. Can also be used on most 260-351W, pre-1973 351C and '62-84 Ford passenger car applications.

DESCRIPTION	PART #
Replacement SB Ford Mounts (Pair)	4982

REPLACEMENT LATE-MODEL SB FORD MOUNT PADS

These mounts are designed for use with part #'s 4977 & 4997. Can also be used on most 351M, 400 and 1973 & Up 351C applications.

DESCRIPTION	PART #
Replacement SB Ford Mounts (Pair)	4981

REPLACEMENT FORD MOUNT PADS

These mounts are designed for use with Trans-Dapt part #'s 4037 & 4017. Can also be used on '57-64 Ford Pickup applications

DESCRIPTION	PART #
Replacement Ford Mounts (Pair)	4715

REPLACEMENT MOPAR MOUNT PADS

These mounts are designed for use with part #'s 4695 & 4675. Includes 1 tall interlocking mount and 1 short Mopar mount. This is a very versatile mount that will fit a variety of Mopar applications.

DESCRIPTION	PART #
Replacement Mopar Mounts (Pair)	4219

REPLACEMENT BISCUIT STYLE MOUNT PADS

These mounts are designed for use with part #'s 4100, 4101, 4102, 4145, 4196, 4505, 4506, 4507, 4508, 4509, 4510, 4560, 4562, 4685, 4712, 4771 & 9721. They also work with many vintage Hurst engine swap kits.

DESCRIPTION	PART #
Biscuit mount pad for wing style mounts (Pair)	9314

REPLACEMENT MOPAR MOUNT PADS

Includes 2 short Mopar mounts. These mounts will fit a variety of Mopar applications including, '67-72 Dart, Duster, Valiant, Demon & Barracuda.

DESCRIPTION	PART #
Replacement Mopar Mounts (Pair)	4221

REPLACEMENT MOPAR MOUNT PADS

These mounts are designed for use with part #'s 4565 and 4545. Includes 2 tall Mopar interlocking mounts. This versatile mount will fit a variety of Mopar applications.

DESCRIPTION	PART #
Replacement Mopar Mounts (Pair)	4220

REPLACEMENT POLYURETHANE BUSHINGS

Some kits utilize replaceable, high performance polyurethane bushings. Use the chart below to determine the correct replacement bushings for your Trans-Dapt engine mount kit. Packaged in sets of 4 bushings.

DESCRIPTION	PART #
Replacement Polyurethane mount bushings for Trans-Dapt kit #'s 4204 and 4205 (set of 4)	4719
Replacement Polyurethane mount bushings for Trans-Dapt kit #'s: 4210-4215, 4500-4504, 4511-4514, 4567 and 9720 (set of 4)	9722

SOLID STEEL MOTOR MOUNTS

The solid steel motor mounts on this page do not use rubber pads. They eliminate the torque flex of the engine in the chassis that rubber pads allow, and transfer all that lost power to the drivetrain. The use of solid motor mounts will dramatically increase engine vibration felt in the passenger compartment. Therefore, it is recommended that these mounts be used on race cars only.

SOLID CHEVY ENGINE MOUNTS

Bolt holes are 1-11/16" high, 2-1/2" apart.

Replaces GM part #3990914. Bolt holes are 1-11/16" high, and tabs are 2-1/2" apart.

DESCRIPTION	PART #
Solid Chevy Mounts	4126

SOLID CHEVY ENGINE MOUNTS

Bolt holes are 2-9/32" high, 2-3/8" apart.

Replaces GM part #332648. Bolt holes are 2-9/32" high, and tabs are 2-3/8" apart.

DESCRIPTION	PART #
Solid Chevy Mounts	4232

SOLID CHEVY ENGINE MOUNTS

Bolt holes are 2-1/8" high, 2-3/8" apart.

Replaces GM part #3962748. Bolt holes are 2-1/8" high, and tabs are 2-3/8" apart.

DESCRIPTION	PART #
Solid Chevy Mounts	4230

SOLID CHEVY ENGINE MOUNTS

Bolt holes are 1-3/4" high, 2-5/8" apart.

Bolt holes are 1-3/4" high, and tabs are 2-5/8" apart. Same as Trans-Dapt rubber mount #9525.

DESCRIPTION	PART #
Solid Chevy Mounts	4231

SOLID FRAME MOUNTS

Fits '74-81 Camaro/Firebird, '73-88 Chevelle, Malibu, Monte Carlo, El Camino, '73-79 Nova, '76-90 Impala and Caprice SB. Use with solid motor mount #4232. Sold in pairs.

DESCRIPTION	PART #
Solid Frame Mounts	4233

SOLID FRAME MOUNTS

Trans-Dapt Solid Steel Frame Mounts fit '82-92 Camaro/Firebird SB, BB and 90° Chevy V6. Use with solid motor mount #4230. Sold in pairs.

DESCRIPTION	PART #
Solid Frame Mounts	9632

CHEVY MOUNT SHIMS

3/16" Motor Mount Shims adjust engine height for oil pan and hedder clearance over crossmember. For SB Chevy kit or factory V8 application. Sold in pairs.

DESCRIPTION	PART #
SB Chevy Mount Shims	4125

SOLID FRAME & MOTOR MOUNT KITS

Trans-Dapt Solid Steel Frame/Motor Mount Kits include both motor mounts and frame mounts, and fit '82-92 Camaro/Firebird SB, BB & 90° Chevy V6. Sold as Pairs

DESCRIPTION	PART #
Solid Chevy Frame/Motor Mount Kit	4227

SOLID FRAME & MOTOR MOUNT KITS

Solid Steel Frame/Motor Mount Kits include both motor mounts and frame mounts. They fit '74-81 Camaro/Firebird, '73-88 Chevelle, Malibu, Monte Carlo, El Camino, '73-79 Nova, '76-90 Impala, Caprice SB. Sold as Pairs

DESCRIPTION	PART #
Solid Chevy Frame/Motor Mount Kit	4228

**THE ORIGINAL "ENGINE TILTER"
ENGINE LEVELING DEVICE**

If you are planning on replacing the powerplant under your hood, or plan on replacing motor mounts, the Trans-Dapt "ENGINE TILTER" will save you valuable time & money! It makes engine removal and installation a breeze. The ENGINE TILTER works with your standard engine hoist to provide additional axis of engine maneuverability. The angle of the engine can be precisely altered with a simple turn of the handle.

The precise control means mounting of your engine OR engine and transmission can be done in less time, with less effort... and with less helpers.

The "Engine Tilter" weighs only 14 lbs, but is shop rated with a 1,200 pounds capacity. Each Engine Tilter comes fully assembled and includes an upper lap link and four 20" chains.

NOTE: Four Grade 8 bolts & large washers (not included) must be used to attach chains to the engine. In addition, make sure the device holding the tilter has a sufficient shop rating.

DESCRIPTION	PART #
The "ENGINE TILTER" Engine leveling device	9099

LS ENGINE LIFT PLATE

This heavy-duty lift plate bolts onto the engine block using the valley cover bolt locations. Kit includes the high strength welded steel plate, hardened steel retaining bolt and mounting bolts that thread into the bolt hole locations typically used by the valley cover bolts.

6 High Tensile Strength Mounting Bolts Included

DESCRIPTION	PART #
LS Engine Lift Plate	4151

VW/PORSCHE ENGINE STAND HEAD ASSEMBLY

This VW engine stand head assembly fits engine stands with 2-5/8" tubes. For all air cooled VW 4cyl. engines. One side attachment allows engine case to be disassembled.

DESCRIPTION	PART #
Head Assembly (2-5/8" Tube) VW Air Cooled Engines	4150

ENGINE STAND BOLTS

These bolts can be used to bolt virtually any engine to any engine stand.

AIR CLEANER BASE QUICK REFERENCE GUIDE

Horsepower and torque are all about moving air into an engine. Air cleaner assemblies can increase or decrease airflow, fuel mixture AND horsepower by adjusting the height of the air flow through your carburetor. Pay attention to hood clearance to determine the appropriate height of your air cleaner assembly. Select the right combination for your application by selecting the type of base below, filter and lid to polish off your engine bay.

* Not legal for sale or use on pollution controlled motor vehicles.

LOUVERED STYLE

4-5/8" diameter. Chrome plated. Fits both 2-1/16" & 2-5/8" dia. carburetor necks. Great for 3 Deuces. 3-1/8" Total Height.*

WHERE TO FIND OUR MOST POPULAR LS ENGINE & ENGINE SWAP PRODUCTS

The Hedman Performance Group isn't new to the LS engine market. In fact, Trans-Dapt Performance recognized early that the SB Chevy engine, which had been the mainstay of the performance aftermarket for decades would be supplanted by the new LS engine and introduced their first LS engine swap motor mounts to the performance aftermarket back in 2002. In addition to the recently released LS Engine Swap-In-A-Box Kits, The Hedman Performance Group manufactures and offers a wide range of LS engine and engine swap products for use on your Classic Muscle car (or truck) / LS swap project.

REFERENCE NUMBERS	PART DESCRIPTION	PART NUMBER	PAGE NUMBER
1	Torque-Curve MPFI Throttle Body Spacer - Billet Aluminum	3267	49
2 & 3	LS1 Valve Cover Adapter - Billet Aluminum; Installed with #9979 SB Chevy valve covers	6138	103
4	Lifter Valley Cover for LS1/LS3 Engines (Non-DoD)-Billet Aluminum	1103	103
5	Two-Piece Timing Chain Cover for LS Engines (cam sensor at front of engine)	1105	128
6	1st Gen Camaro LS Swap Headers - HTC Coated	68716	30
7	Motor Mounts with Polyurethane Pads for LS1 into Factory SB Chevy Chassis	4202	88
8	Hamburger's Fabricated Aluminum Oil Pan	1179	120

ENGINE VALVE COVERS

- ▶ VALVE COVERS FOR MUSCLE CARS, RACE CARS, TRUCKS AND SHOW VEHICLES
- ▶ MANY STYLES AVAILABLE IN MULTIPLE FINISHES
- ▶ CHOOSE BETWEEN FABRICATED ALUMINUM, CAST ALUMINUM, CHROME, OR 1 OF 3 DURABLE, POWDER-COATED FINISHES
- ▶ ALUMINUM MODELS AVAILABLE WITH PLAIN, BALL-MILLED OR WITH RETRO-STYLE FIN TOP DESIGNS

When someone looks at your engine compartment, your engine's valve covers jump out as one of the first items they see. Make a good first impression by installing a set of Trans-Dapt or Hamburger's Performance valve covers. Over the past 4 decades our line of valve covers has grown to become one of the premier collections of engine valve covers in the industry. From classic chrome steel models to fabricated aluminum models with removable filler tubes for circle track racing, the next seven pages contain a huge variety of application, material and finish options to suit virtually any classic american muscle, hot rod or race car project.

VALVE COVER BREATHERS

Trans-Dapt offers a great selection of Chrome/steel, powder-coated steel and aluminum valve cover breathers that complement our wide choice of chrome, powder-coated and aluminum valve covers.

TWIST-IN BREATHERS

These breather/oil filler caps feature internal filters and baffles. Available in two different diameters. #9617 is a twist-in version of our popular #4870 push-in breather.

DESCRIPTION	CHROME	POWDER-COATED		
		BLACK	ORANGE	BLUE
2-3/8" Dia.	4803*	8643*	9950*	8319*
2-3/8" Dia. w/Tube	4806*	-	-	-
2-3/4" Dia.	9617*	-	-	-

PUSH-IN BREATHER CHROME

Chrome-plated breather/oil filler cap fits in engine oil filler tube (Chevy & others). Can also be used with Trans-Dapt #4955 oil filler tube.

DESCRIPTION	PART #
2-3/8" Dia. Breather	4802*

PUSH-IN BREATHERS CHROME

Requires Grommet #4878

4870*

Chrome-plated push-in breather for steel valve covers with 1.25" diameter holes. Requires grommet #4878. 2.75" outside diameter. The internal baffle and filter element prevents oil seepage. Replaces GM #6421868 on 65-67 BB's.

DESCRIPTION	CHROME	POWDER-COATED		
		BLACK	ORANGE	BLUE
Breather Only	4870*	8644*	9951*	8320*
Breather & Grommet	4871*	-	-	-

PUSH-IN BREATHERS WITH VACUUM TUBE PORT

Requires Grommet #4878

9241*

Same as #4870, but this model is open in the center only. 1/2" dia. side tube allows for race car vacuum balance system hookup. Also provides hookup for positive crankcase ventilation. Internal baffle and filter element. Fits 1.25" holes.

DESCRIPTION	CHROME	POWDER-COATED		
		BLACK	ORANGE	BLUE
Breather Only	9241*	8642*	9949*	8318*
Breather & Grommet	9242*	-	-	-

PCV BREATHER 3/4" NECK

Requires Grommet #4998

9171*

This breather replaces the PCV valve in the rocker cover. 3/4" breather neck also fits in 1.25" diameter valve cover holes when used with grommet #4998. Includes an internal oil baffle and poly filter element. Outside diameter is 2.75".

DESCRIPTION	CHROME	POWDER-COATED		
		BLACK	ORANGE	BLUE
Breather Only	9171*	8645*	9952*	8321*

FORD TWIST-IN PCV BREATHER CHROME

This great looking, chrome twist-in breather fits most Ford V8s and some 68-84 6-cylinder models. 1" dia. hole in top for PCV hose hookup.

DESCRIPTION	PART #
Ford twist-in PCV Breather	4999*

MOPAR-STYLE BREATHER CHROME

Chrome push-in breather for valve covers with 1.25" holes. Use grommet #4878. Breather tube is 5/8". Perfect for race car vacuum balance systems. Also works as a P.C.V. system hookup. This is an OEM style for Mopar A,B, RB & Slant 6 engines.

DESCRIPTION	PART #
Mopar Style Breather	9169*

PUSH-IN FILTER BREATHER COTTON FILTER ELEMENT

Chrome-plated, push-in style filter breather for 1.25" diameter valve cover holes. No grommet required. 2" & 3" tall models available.

DESCRIPTION	INSTALLED HEIGHT	PART #
Chrome/ Cotton Filter Breather	2"	6896*
Chrome/ Cotton Filter Breather	3"	9308*

*Not legal for sale or use on pollution controlled motor vehicles.

CLAMP-ON FILTER BREATHER COTTON FILTER ELEMENT

Clamp-on, chrome-plated filter breathers are for use on the Trans-Dapt circle track valve covers or other valve covers with similar breather tubes.

DESCRIPTION	TUBE DIAMETER	INSTALLED HEIGHT	PART #
Clamp-on Breather	1-3/8"	3"	9597*
Clamp-on Breather	1-1/2"	3"	9598*

PUSH-IN HOODED BREATHER COTTON FILTER ELEMENT

This chrome steel push-in style filter breather fits 1.25" diameter valve cover holes. No grommet required. The cotton element is hooded to protect it from flying dirt and debris.

DESCRIPTION	V.C. HOLE DIAMETER	INSTALLED HEIGHT	PART #
Push-In Breather with Hood	1-1/4"	3"	9516*

CLAMP-ON HOODED BREATHER COTTON FILTER ELEMENT

These chrome steel clamp-on style filter breathers are available for 1-3/8" and 1-1/2" diameter valve cover filler tubes. The cotton element is hooded to protect it from flying dirt and debris.

DESCRIPTION	TUBE DIAMETER	INSTALLED HEIGHT	PART #
Clamp-on with hood	1-3/8"	3"	5103*
Clamp-on with hood	1-1/2"	3"	5104*

ALUMINUM VALVE COVER BREATHER BUNG & BAFFLE KITS

#1131 valve cover breather bung can be welded or bolted on. It allows you to easily add a fill hole to your aluminum valve covers. Manifold #1132 screws in to #1131 and allows you to custom configure the breather to meet your unique requirements.

DESCRIPTION	PART #
Aluminum Valve Cover Bung; Weld or Bolt-in	1131
Aluminum Breather/Baffle Manifold, Screw-in	1132*

*Not legal for sale or use on pollution controlled motor vehicles.

TWIST-IN OIL CAP CHROME

This chrome oil filler cap fits Trans-Dapt valve covers #9452, 9518, 9503, 9504, 9916, 9917 & 9918 as well as many General Motors applications.

DESCRIPTION	PART #
GM Style Oil Filler Cap	4804

1987-99 GM SCREW-IN OIL CAP

Screw-in style oil cap for 87-99 GM car and truck applications. Not for #9702 valve covers. Metallized Plastic, Polished Aluminum and Chromed Aluminum models available.

DESCRIPTION	CHROME PLASTIC	POLISHED ALUMINUM	CHROMED ALUMINUM
87-99 GM Oil Cap	9696	9693	9694

PUSH-IN OIL PLUGS CHROME

Chrome/Rubber oil plug for 1.25" holes. For use on a wide range of Chevy/GM car and truck applications. No grommet is required for installation.

DESCRIPTION	PART #
Oil Plug Plain	9170
Oil Plug with Embossed "OIL" logo	9787

PUSH-IN OIL PLUG RUBBER

Solid rubber oil plug fits 1.25" diameter hole. For use on many Chevy/GM car and truck applications. No grommet is required for installation.

DESCRIPTION	PART #
Rubber Oil Plug	9373

TRI-STEP OIL FILLER TUBE

This Chrome oil filler tube fits Chevrolet V8 engines. The tri-step design, fits 1-1/4", 1-5/16" and 1-1/2" manifolds, making it compatible with both OEM and aftermarket manifolds. Uses Trans-Dapt push-in oil breather #4802.

DESCRIPTION	PART #
Tri-Step Oil Filler Tube	4955

OIL FILLER EXTENSION

Trans-Dapt's Chrome Steel push-in style oil filler extension tube raises the fill hole up to provide improved accessibility to make adding oil easier and cleaner.

Uses Trans-Dapt's #4804 or #9617 twist-in style oil caps and breathers.

DESCRIPTION	PART #
Push-In Oil Filler Tube Extension	9256

VALVE COVER GASKETS

CORK/RUBBER NITRILE GASKETS

The premium Cork/Rubber Nitrile compound used to manufacture these gaskets has excellent sealing and durability characteristics. Available in STANDARD and THICK construction. Our THICK gaskets are 5/16" thick and add height to provide more clearance for all tall rocker arms. Sold in pairs.

STEEL CORE RUBBER GASKETS

Completely reusable, these strong rubber gaskets feature an internal steel reinforcing frame to ensure alignment and a long lasting seal. Sold in pairs.

* Does not have steel core

ENGINE OIL PANS

- ▶ Oil Pans For Drag Racing, Road Racing, Street Performance, Custom Builds, Restoration Projects... Or just to Replace The Tired One On Your Engine.
- ▶ Great Selection of Finishes To Choose From.
- ▶ Fabricated Aluminum, Cast Aluminum, and Steel Construction Models Available
- ▶ Available For Popular American Musclecar, Truck and Race Vehicle Applications.

The oil pan application charts on the following pages are organized by engine size. Locate the section for your engine or engine/chassis combination, then use the reference photos and product descriptions below to determine the pan style and/or finish that best suites your project.

OIL PAN STYLE GUIDE

HAMBURGER'S PERFORMANCE

TRANS-DAPT PERFORMANCE

TD TRANS-DAPT

CONSTRUCTION

A ECONO-SERIES OIL PANS

Econo-Series Oil Pans are built for serious race vehicles and high performance street-bound engines. While economically priced, these pans have thick .055" Steel cores, trap door baffles, a directional windage tray and crankshaft scraper (excludes #3080 and 3090). Each pan includes a gasket set, special oil pickup, magnetic drain plug and pan flange bolts, so they are ready to go right out of the box. **MAXIMUM STROKE: SB CHEVY 3.875" BB CHEVY- 4.25"**

B STREET PERFORMANCE OIL PANS

Designed for high performance street use, these pans offer additional engine oil capacity than factory pans. Slush baffles help keep the oil in the sump. These pans come equipped with gasket set, oil pick-up, magnetic drain plug and bolts.

C FABRICATED ALUMINUM OIL PANS

Fabricated aluminum and TIG welded construction makes these pans both lightweight and strong. The trap door baffling controls oil to ensure a consistent flow of oil to the engine. Pans include drain plug. Gaskets, pickup and bolts not included.

D STREET & STRIP OIL PANS

Street & Strip pans have a kicked out sump to increase engine oil capacity without sacrificing ground clearance. Ideal for modified muscle car engines. Chrome, yellow zinc, Chevy Orange and Black powder-coated available. Baffled for oil control. Bolts and gaskets sold separately.

E CAST ALUMINUM OIL PANS

These cast aluminum oil pans resemble factory pans, but are manufactured using cast aluminum then polished for a clean, classic look. The polished, finned design suits custom engine projects perfectly. These pans include a set of oil pan bolts. Gaskets sold separately.

F O.E. STYLE (Factory fit) OIL PANS

The factory style pans are designed to replace your damaged, or unsightly engine oil pan. Trans-Dapt offers O.E. Style pans in Chrome, or powder-coated with our durable Chevy Orange, Ford Blue or Satin Black. Bolts, gaskets and pickup not included.

G SLAM-GUARD (ARMORED) OIL PANS

Slam-Guard Oil and Transmission Pans are a Trans-Dapt Exclusive. Each Pan has a 3/16" plate welded into (not onto) the pan's sump floor. They protect the pan from damage caused by speed bumps, dips, driveways or rocks. Available Chrome, Black or Silver powder-coated.

CONSTRUCTION

A ECONO-SERIES OIL PANS

Econo-Series Oil Pans are built for serious race vehicles and high performance street-bound engines. While economically priced, these pans have thick .055" Steel cores, trap door baffles, a directional windage tray and crankshaft scraper (excludes #3080 and 3090). Each pan includes a gasket set, special oil pickup, magnetic drain plug and pan flange bolts, so they are ready to go right out of the box. **MAXIMUM STROKE: SB CHEVY 3.875" BB CHEVY- 4.25"**

B STREET PERFORMANCE OIL PANS

Designed for high performance street use, these pans offer additional engine oil capacity than factory pans. Slop baffles help keep the oil in the sump. These pans come equipped with gasket set, oil pick-up, magnetic drain plug and bolts.

C FABRICATED ALUMINUM OIL PANS

Fabricated aluminum and TIG welded construction makes these pans both lightweight and strong. The trap door baffling controls oil to ensure a consistent flow of oil to the engine. Pans include drain plug. Gaskets, pickup and bolts not included.

D STREET & STRIP OIL PANS

Street & Strip pans have a kicked out sump to increase engine oil capacity without sacrificing ground clearance. Ideal for modified muscle car engines. Chrome, yellow zinc, Chevy Orange and Black powder-coated available. Baffled for oil control. Bolts and gaskets sold separately.

E CAST ALUMINUM OIL PANS

These cast aluminum oil pans resemble factory pans, but are manufactured using cast aluminum then polished for a clean, classic look. The polished, finned design suits custom engine projects perfectly. These pans include a set of oil pan bolts. Gaskets sold separately.

F O.E. STYLE (Factory fit) OIL PANS

The factory style pans are designed to replace your damaged, or unsightly engine oil pan. Trans-Dapt offers O.E. Style pans in Chrome, or powder-coated with our durable Chevy Orange, Ford Blue or Satin Black. Bolts, gaskets on pickup not included.

G SLAM-GUARD (ARMORED) OIL PANS

Slam-Guard Oil and Transmission Pans are a Trans-Dapt Exclusive. Each Pan has a 3/16" plate welded into (not onto) the pan's sump floor. They protect the pan from damage caused by speed bumps, dips, driveways or rocks. Available Chrome, Black or Silver powder-coated.

O.E. STYLE GASKET SETS

Trans-Dapt's O.E. style oil pan gasket sets are standard-duty and come complete with rubber end seals and cork side rails.

HEAVY-DUTY GASKET SETS

Trans-Dapt's Heavy-Duty oil pan gasket sets utilize a high-density nitrile rubber compound for the side rail gaskets for better resistance against seepage. Each kit also comes with rubber end seals.

* These gasket sets are designed specifically for Hamburger's Oil Pans and not for use with any other oil pans.

HAMBURGER'S OIL PAN SPREADER BARS CHROME

Spreader bars re-distribute the torque load of the pan bolts to improve the sealing capabilities of the pan rails. Because of the notched rails on Hamburger's ECONO-SERIES Pans, spreader bars must be used to ensure a tight seal.

Fits over stock timing cover. Oil pan & harmonic balancer removal not required.

LS ENGINE 2-PIECE TIMING COVERS
BILLET ALUMINUM

The 2-piece design of Hamburger's new billet timing cover for Gen IV LS engines allows the upper portion of the cover to be removed for cam changes or tuning, while the lower half stays bolted to the front of the block, preserving the main seal. You'll never need to drop the oil pan to access the cam, and the unit incorporates an O-ring seal into the bottom half of the cover that mates with the smoothly machined flange on the upper section to offer a leak-free seal.

- ▶ **O-Ring Seal Between Top & Bottom Sections**
- ▶ **Allows Cam Changes without Dropping the Oil Pan**
- ▶ **Works With Double Roller Timing Chains**
- ▶ **Works With Factory Seals**
- ▶ **Includes Stainless Steel Mounting Hardware**
- ▶ **CNC Machined 6061-T6 Aluminum Construction**

BATTERY CUTOFF SWITCH

U.L. listed.

Battery cutoff switches are mandatory in most major N.H.R.A. classes, as well as other race sanctioning bodies. See the rules and regulations for your specific racing series for mounting location. Splices into positive battery cable. Can also be used as an anti-theft device on your street vehicle.

DESCRIPTION	PART #
Battery Cutoff Switch	4988

GM ENGINE PULLEYS ALUMINUM

Trans-Dapt's quality aluminum pulleys are made using 356 aluminum alloy and heat-treated to T-6 specs. They are the perfect complement to our aluminum valve covers, water necks, breathers and brackets.

Water pump pulleys come complete with mounting bolts.

Crankshaft pulley bolts are sold separately.

Although Corvettes have a short water pump through 1982, our short water pump pulleys fit 55-74 only.

GM O.E.M. STYLE STEEL PULLEYS CHROME & POWDER-COATED

Chevrolet has made a variety of pulley diameters. We have chosen to use the most popular diameter for our pulleys. In some instances, the stock accessories may not run at the exact speed as originally designed. Although Corvettes have a short water pump through 1982, our short water pump pulleys will fit 55-74 only. The bolt circle on short water pump pulleys is 1.75", and 2.30" on long water pump pulleys.

'67-84 GM & Chevy power steering pumps	5-3/4"	1-3/8"	5/8"	6913

HOW TO PROPERLY IDENTIFY YOUR WATER PUMP STYLE

When choosing pulleys for your Chevy engine, it is important to properly identify your water pump as either a LONG water pump, or a SHORT water pump. To determine which pump your engine is using, measure the overall height of the water pump and refer to the measurements in the diagrams to the right.

SHORT WATER PUMP (SWP)

LONG WATER PUMP (LWP)

HEADER BOLTS MINIATURE HEAD

Mini 3/8" head header bolts make installation and removal a breeze. Grade 5 bolts heat-treated for extra strength. Just another time-saving convenience product from Trans-Dapt Performance.

STARTER HEAT SHIELD

Extend your engine's starter life by protecting it from heat buildup... especially with the additional heat created by headers.

Made from two aluminum plates sandwiched together with a heat-resistant material between them.

Bolts directly to the starter. Fits stock Chevy V8 & 90° V6. Satin finished aluminum.

DESCRIPTION	PART #
Starter Heat Shield	9796

LS ENGINE VALVE COVER IGNITION COIL BRACKET

- ▶ For use with #1061, 1062 or Factory LS Valve Covers
- ▶ Compatible with MSD #82458 GM #12558948 or AC Delco D580 Coils
- ▶ CNC Machined 6061-T6 Aluminum

DESCRIPTION	PART #
Billet Aluminum LS Coil Bracket Set (includes one pair with hardware)	1100

SPARK PLUG WIRE BOOT PROTECTORS

Spark plug boot protectors slide over the spark plug boots for excellent protection against heat. Great for use with or without headers! Each sleeve is made of an ultra-high-temp resistant fiberglass material that can withstand temperatures up to 1200°F. They are non-reactive to petroleum products and water resistant. Perfect for Motorhomes, Street Rods, Cars, Trucks and Boats. Available in Silver.

DESCRIPTION	LENGTH	QUANTITY	PART #
