

LifeSmart®

Cololight

**LED RGB lighting system
with extensional modules**

With Cololight coming, now it is possible for you to become a lighting designer to create pleasant ambience through a simple smart-phone App.

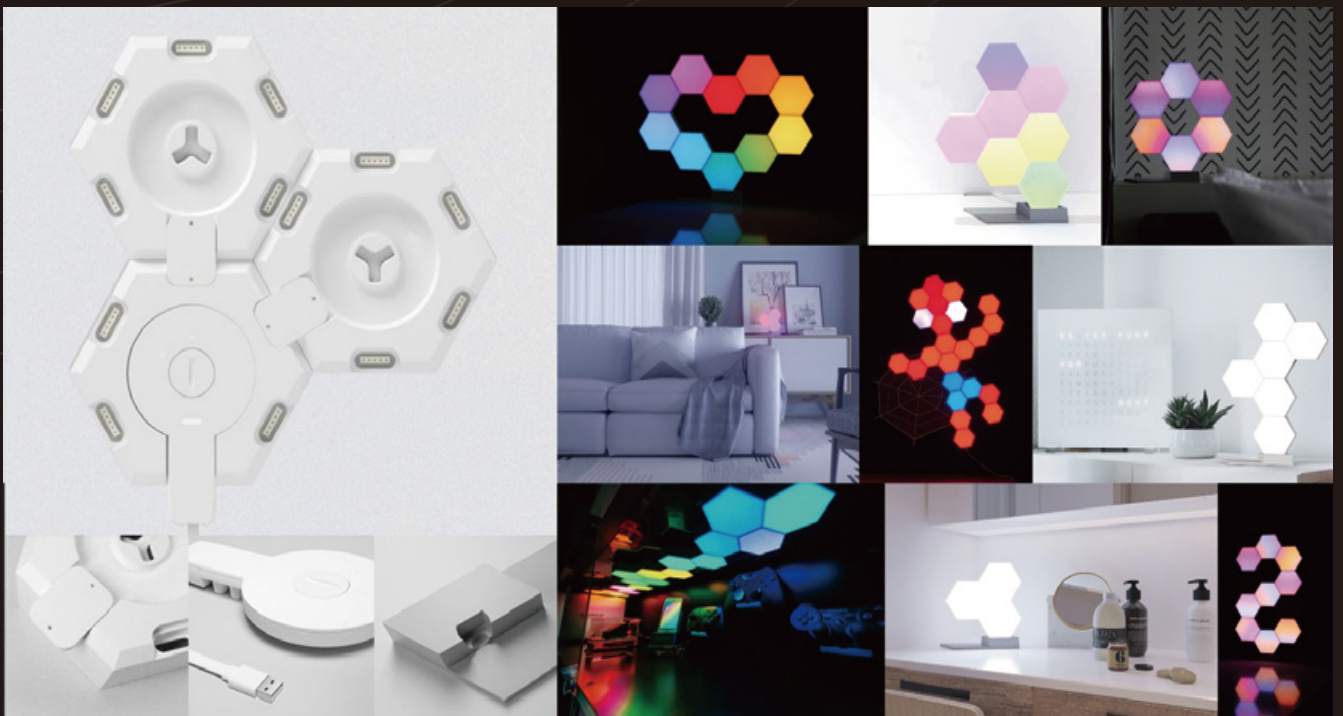

Whether for relaxing mood lighting in the living room, or exciting party lighting at the bar , varied lighting is the visual focus for almost any purposes.

Cololight empowers you to create customized lighting design with the innovative extensional system. You may plug the modules together to create a small figure, a sign or just large area with hundreds modules, and split them later to reshape into any other patterns you like.

Get Cololight now and start your new atmosphere lighting adventure right away!
