

**TYPE APPROVAL CERTIFICATE****This is to certify:****That the Automatic Telephone, Public Address, General Alarm and Handsfree Voice Talkback System**

with type designation(s)

**VINGTOR ACM**

Issued to

**ZENITEL NORWAY AS AVD HORTEN  
HORTEN, Norway**

is found to comply with

**DNV GL rules for classification – Ships****IMO Res. A.694(17) General requirements for shipborne radio equipment forming part of the global maritime distress and safety system (GMDSS) and for electronic navigational aids****IMO A.1021(26) Code on alerts and indicators (2009)****LSA Code VII 7.2****IMO MSC Circ 808****Application :****See page 2****Product(s) approved by this certificate is/are accepted for installation on all vessels classed by DNV GL.**Issued at **Høvik** on **2020-12-16**for **DNV GL**This Certificate is valid until **2023-06-14**.DNV GL local station: **Sandefjord**Approval Engineer: **Steinar Kristensen****Marta Alonso Pontes  
Head of Section**

This Certificate is subject to terms and conditions overleaf. Any significant change in design or construction may render this Certificate invalid. The validity date relates to the Type Approval Certificate and not to the approval of equipment/systems installed.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV GL AS, its parent companies and subsidiaries as well as their officers, directors and employees ("DNV GL") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

## Product description

Vingtor ACM Automatic Telephone, Handsfree Two-Way Voice Communication, Public Address and General alarm system, consisting of the below equipment <sup>1)</sup>:

The VINGTOR ACM family includes the following main system racks, to be installed in a protected environment:

Intercom exchange	Order number	Software version	Notes
AlphaCom XE7	ACM-M-D-V2	Version 13.1.3.x	
AlphaCom XE7	ACM-M-A-V2	Version 13.1.3.x	Same as ACM-M-D, but only equipped with line cards for analogue telephones and PA call stations
AlphaCom XE20	ACM-48-V10	Version 13.1.3.x	
AlphaCom XE26	ACM-144-V10	Version 13.1.3.x	
AlphaCom XE26	AACM-144-V10	Version 13.1.3.x	Same as ACM-144-V10 and with extra power supply and terminal board
ICX-500 Intelligent Communication Gateway	1002000100	Version 1.1.3.x	24VDC input power

## ACM Field Equipment

Equipment type	Model	Environment
Flush (console) mount intercom, PA Call Station/Talk Back Station	CRM-V CRM-V-2	Protected <sup>2)</sup>
Handset units for flush mount intercom	CRM-V-HS	Protected <sup>2)</sup>
Gooseneck unit for flush mount intercom	CRM-V-GN	Protected <sup>2)</sup>
Direct access key panel for flush mount intercom	CRM-V-DAK48	Protected
Headset solution for flush intercom	CRM-VH	Protected <sup>2)</sup>
Handheld microphone	EMMAR-1H	Protected <sup>2)</sup>
Handheld microphone with noise suppression	ETC-577B	Protected <sup>2)</sup>
Wall mount intercom, Talk Back Stations	VMP-503 VMP-530	Exposed Exposed
Handset units for wall mount intercom	VMP-211 VMP-250	Exposed Exposed
Headset units for wall mount intercom	VMP-36-PEL VMP-36-PELP	Exposed Exposed
Throat microphone for headset	MT9	Exposed
Portable intercom units	VMP-503PA VMP-503PA/15	Exposed Exposed
Handheld microphones	P-66-VMP P-66-VMP/10 P-66-VMP/25	Exposed Exposed Exposed

<sup>1)</sup> Actual configuration may vary based on requirements for individual installations. Only modules listed in certificate are approved for installation.

<sup>2)</sup> Main station and station accessories supporting IC-Edge mode without Alphacom exchange.

## Application/Limitation

### Application:

The system may be used as:

1. Automatic telephone system,
2. Public Address system (combined with SPA V2 or Exigo system with the same application and limitations as specified in the type approval of that system),
3. General Alarm system (combined with SPA V2 or Exigo system with the same application and limitations as specified in the type approval of that system),
4. Talk Back system as handsfree two-way voice communication system as required by DNV GL Nautical safety rules.
5. ACM IC-Edge automatic telephone, IP intercom for independent installation without external call server.
6. Fixed and handheld UHF communication system; interfaced to UHF on-board Base Station SLR5500 and ACM System for interface of PA.
7. Fixed and handheld UHF communication may be applied to comply with requirements for Safe Return to Port (SRtP), subject to configuration and installation. Compliance with SRtP is subject separate vessel specific approval (plan approval).

Job Id: **262.1-006719-11**  
Certificate No: **TAA00000ZN**  
Revision No: **5**

### **Limitations:**

1. When used as combined PA/GA system together with SPA V2 or Exigo system, two independent loops are needed in all public areas. The ACM intercom units can provide PA/GA coverage for one of the loops.
2. When used as Public Address system onboard passenger vessels, the SPA system shall be duplicated.
3. Network / network equipment/VLAN solution shall be in accordance with Zentel's specifications in "Data Network Guideline for Ships – VINGTOR ACM Solution, Doc. No. A100K10649". When such subsystems/components are not included in Zenitel's delivery, Zenitel shall evaluate these subsystems/components towards above mentioned specification and include the relevant documents in the system document package delivered for each installation.
4. Network /network equipment/ VLAN solution shall be in compliance with DNVGL-CG-0339 or IEC60945.
5. Local muting of the loudspeakers near call stations shall be available.
6. Any Ex-equipment (equipment to be used in areas with explosive atmosphere) listed in this certificate are subject to separate Ex- approvals.
7. ACM IC-Edge components as indicated in above product description may be configured and installed to comply with DNV GL rules for Automatic Telephone systems. Installation to be in accordance to installation documentation.
8. UHF listed may be fitted with headsets and microphones for handsfree communication. Installation to be in accordance to installation documentation. UHF repeater SLR5500 may provide dual LAN communication link between units, and be interfaced to ACM for PA announcement on dedicated channels.

### **Tests carried out**

- Performance testing: DNVGL-RU-SHIP Part 6 Chapter 3 - for Two-way voice communication, Public Address, General Alarm and handsfree two-way voice communication.
- Environmental testing: IEC 60945 (2002)

### **Marking of product**

The Manufacturer and Type Designation to be applied to the equipment in a clearly visible location. In addition the equipment shall be marked with serial number, safe distance to magnetic compass, power consumption and/or supply voltage.

### **Periodical assessment**

Periodical assessment is to be performed after 2 years and after 3.5 years. A renewal assessment will be performed at renewal of the certificate.

The scope of the periodical/renewal assessment is to verify that the production quality conditions stipulated for the type approval are complied with and that no alterations are made to the product design or its components and/or materials without appraisal by the Society.
