RGIR28FE BK

Iron Label

Meet Ibanez's new made-for-metal guitar series, Iron Label. Built on the "chassis" of our famous RG and S-Series models, we modded and tweaked with nothing but metal in mind. We took our legendary super-thin, ultra-playable Wizard neck, and upped the ante to Nitro Wizard—fast and comfortable with added road-tested durability. Whether it's a 6, 7 or 8-string, every Iron Label axe is matched perfectly with American-made EMG® or DiMarzio® pickups. Purposefully Spartan, you won't find a feature here that doesn't contribute directly to rattling bones or waking the dead.

RGA

Add 3-D curves to the concept of the RG and you've got the RGA. Its dimensionality is easy on the eye -but, more importantly, those curves enhance playability. The arched top design effectively positions the strumming/picking hand optimally for anything from a fast riffing to fat, full power chords.

RGD

The RGD is Ibanez's ultimate metal machine. The demands of down-tuning require a specifically designed responsiveness not found in "normal" guitars. To optimize for the rich, desirable thickness of tone that down-tuning produces, we extended the neck by one inch to a 26.5" scale. Longer-than standard yet not overly long. The neck is still considered a "fast" neck for speed soloing. Extra-deep cutaways grant comfortable access to the neck's highest notes.

S The cutting edge of Ibanez design, the S series continues to be a marvel of form and function. Its signature body shape - sculpted, lightweight, and mahogany - is stronger and more musically responsive than guitars weighing twice as much. The S series is still a rock 'n' roll version of a quick, graceful, and potentially lethal weapon.

Artstar

The parallel histories of Jazz music and hollow-body electric guitars have been manifested in the Artstar. The influences of these legendary instruments are immediately apparent with bone nut, ebony fretboard, Ibanez's signature Super 58 custom pickups, and smokey flamed maple tops. The critical eye will appreciate the details like the smoothness of the fretboard and a skilled crimping technique generally found on instruments costing twice as much. The Artstar is a pure jazz-box that embodies the continual innovation that is Jazz.

Artcore Expressionist

For a decade now, Ibanez has continued to energize the hollow-body segment with wide range of designs—with everything from rockin' hybrids to straight-up jazz-boxes. The new Expressionist line begins yet another chapter in the Artcore story. The Expressionist difference? Jazz fans will recognize the Ibanez original Super 58 custom pickups—the preferred pickup of George Benson, Pat Metheny, and John Scofield on their own Signature models. A jazz favorite, yes, but as funk guitarist Eric Krasno has been proving, the Super 58s perform well in a variety of situations. Warm, balanced articulation, and excellent response characterize the Super 58 custom.

Artcore

Ibanez introduced Artcore in 2002 and has been the hollow-body guitar of choice for musicians for the last 10 years. The Artcore's combination of quality workmanship and affordability has created legions of fans from diverse genres as blues, country, rock and jazz. Musicians can find the purity of an old school style jazz-box to a hybrid semi-hollow rocker. Artcore is highly respected for its tone, sustain and the way they hold their tuning and how the series continues to push the boundaries of guitar building.

Grooveline

Over the course of three years, dozens of prototypes, and hundreds of drawings, we never swayed from our first objective: For bass and player to share a center of balance. Standing up or sitting down, the first thing you'll notice is that the Grooveline does not require the support of your hands. Meaning you can use them for other things-like playing bass. A premium, boutique level instrument right down to its Sonic Arch pickups and 5-piece Wenge/Bubinga neck, the Grooveline may be the most responsive, comfortable bass you've ever played.

ATK

With the ATK, we took the traditional concept of the bass and turned it up to "11." The result is one of the most straightforward, versatile basses on the market. The ATK's large Ash body plus its conventional neck design will keep "old school" stylists happy. Additionally, the CAP Double Humbucker gives you three distinct voices at the flick of a switch, allowing you to find the musical sweet spot, no matter what the genre.

Banjo

It's been three decades since Ibanez was in the banjo biz, but we're back with a bang ... or is it a twang? Old-timers may recall Ibanez was quite enamored with banjo-building, having even collaborated on an artist signature model with the late, great Earl Scruggs. But, things change, and hair bands happen. As of 2012 we're back at it, and in the Ibanez tradition, the B50 delivers a sweet 5-string closed-back banjo at a price that won't break the bank.

Resonator

What's the one thing that almost all small venue musicians strive for when it comes to amplifiers? Some might say "pure immersive tone", which would undoubtedly be followed by "portability". The Ibanez T Series Acoustic Guitar Amplifiers deliver exactly that, along with the striking appearance of a hand-crafted boutique amplifier. Whether you're playing at the local coffee shop or you're gigging at religious venues, the sounds of the T Series will fill the room. Plus, you won't have to break your back getting your amp in and out. The Ibanez T Series was designed with portability in mind.

Signature Effect Pedal

The Paul Gilbert Signature AF2 AIRPLANE FLANGER is two pedals in one package.

One section is a traditional chorus flange (TAXI); the other is an insane (TAKEOFF) flange (hence the "AIRPLANE" moniker), which provides virtuoso guitarist Paul Gilbert's own "Crazy Flange" sound. Time to buckle up. The AF2 features Manual (delay time), Speed (modulation speed), Range (depth of modulation), and Enhance (feedback) controls.
