

# Your nTAG: The Basics

## Greeting Messages

Hold your nTAG up to the nTAG of the person you are meeting. The two nTAGs will connect. Read the screen on the other person's nTAG – it has a message for you. Tip: tilt your nTAG so the other person can read your screen.

## Navigation

Use the scroll buttons, , to go up and down. Click  to select an item, , to return to the previous screen. (On screens with a menu link, click  once to highlight the menu and a second time to go back)

## Pick

On the back of your nTAG is a pick – use it on the touch-screen like a stylus.

## Menu

When you see the “Menu” link in the upper right, that screen has a control menu. Highlight this link, then click  to open the menu. Or you can tap it with the pick.

## Electronic Card Exchange

Point your nTAGs at each other. Click the top button on both tags at the same time. Hold until you see a message on the other person's nTAG confirming the exchange.

## Your Personal “my.nTAG” Web Page

You will receive all the business cards you collect along with a trip report at your secure my.nTAG web page. You will receive an email with the log-in information as soon as the event is over. You can also find the log-in information on your nTAG under “About Me.”

**Don't forget to return your nTAG before you leave!**

## Uses of Personally-Identifiable Data

**At this event, personally-identifiable data about you collected by the nTAG System will be accessible to others, including the event organizer, only in the following ways:**

1. Other participants will receive your contact information at a protected website if you send it to them.
2. Other participants will be able to see selected profile data about you on the nTAG devices and at a protected website.
3. Data related to awards or rankings may be used in presentations, displays or reports.
4. Your session attendance will be reported to the event organizer.
5. Your responses to profile questions will be reported to the event organizer.
6. Your responses to XXX surveys will be reported to YYY.

All other data about you collected by the nTAG System are anonymous and will be reported only in aggregate. nTAG's Privacy Policy is available at [www.ntag.com](http://www.ntag.com).
