Getting Started

HD2 Handset™

You're just a few guick steps from making and receiving calls on your new Ooma HD2 Handset. This handset is the perfect companion to the Ooma Telo™-you'll be able to access all Ooma features and even unlock new functionality! Before you begin, please make sure that your Ooma Telo is installed and operating properly, as your new handset cannot be set up without a functioning Telo.

Insert Batteries

Remove the battery cover located on the back of the handset by sliding it away from the center of the device. Insert the two included rechargeable AA batteries, making sure they are aligned properly. Replace the battery cover by sliding it in the opposite direction.

2 AA batteries

(rechargeable)

Step 2 Charge the Handset

Plug the AC adapter into a power outlet and then connect the AC adapter cable to the charging cradle. Put the handset on the cradle.

When the handset is on its cradle, it will automatically display a message when it is charging.

We recommend that you leave the handset on the cradle for 30 minutes before proceeding to the next step. The handset requires 10 hours to fully charge.

Step 3 Register the Handset

Press the kev on your Ooma Telo and hold it down for three seconds to hear your 4-digit registration PIN. Type this number into the handset when prompted on the screen and press the **OK** soft key. Once the handset is successfully registered. a home screen will be displayed.

Each Ooma Telo supports up to four Ooma HD2 Handsets.

IMPORTANT: The Ooma HD2 Handset is not compatible with the first-generation Ooma Telo Handset. If you wish to switch from using the original Ooma Telo Handset to the new Ooma HD2 Handset, you must first dial *# ## # 302 on a phone

connected to your Ooma Telo. The device will automatically reboot with a new version of software.

Once the Telo is back in service, repeat Step 3. The Telo will now connect to your HD2 Handsets. Any older Telo Handsets will no longer work.
