Safety instruction

Please kindly read this manual carefully before putting the appliance into operation and keep this manual for future reference.

- Keep the device away from heat. Direct sunlight and sharp edges.
- Keep the device away from naked flames.
- Do not insert any metal object into the device. Risk of short circuit.
- Do not repair the unit yourself but contact an authorized specialist.
- Avoid exposing your product to rain, moisture or other liquids.
- If the product overheats or has been damaged or dropped in a liquid, discontinue use.
- Dispose of the product according to local standards and regulations.

Built in battery care:

- Your product is powered by a rechargeable battery. The full performance of a new battery is achieved only after two or three complete charge and discharge cycles. Don't leave a fully charged battery connected to a charger, since overcharging may shorten its lifetime.
- If left unused, a fully charged battery will lose its charge over time.
- Leaving the product in hot or cold places, such as in a closed area in the summer and winter conditions, will reduce the capacity and life time of the battery.

Charger care:

- Please use the standard 5V DC adapter to charge. The use of any other types may damage or destroy the product and could be dangerous.
- Charge the product according to the instruction supplied with the product.
- Important: please refer to the user manual for a description of the charging status indicator lights. Some speakers can't be used while charging.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
